**Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant**

On September 6, 2007, we completed a private placement of \$20,000,000 of trust preferred securities through Umpqua Master Trust I, a Delaware statutory trust (the "Trust"). The trust preferred securities mature December 15, 2037, are redeemable at our option beginning after five years and bear interest at a variable rate per annum equal to the three-month LIBOR plus 2.75% . All of the common securities of the Trust are held by us. The proceeds from the sale of the trust preferred securities were used by the Trust to purchase \$20,000,000 in aggregate principal amount of our junior subordinated debentures. The net proceeds to us from the sale of the debentures to the Trust will be used to redeem previously issued trust preferred securities, repurchase shares of our common stock or for general corporate purposes.

The debentures were issued pursuant to an Indenture, dated August 9, 2007 between Umpqua Holdings Corporation, as issuer, and LaSalle Bank National Association, as trustee (the "Indenture"). Like the trust preferred securities, the debentures bear interest at a variable rate per annum equal to the three-month LIBOR plus 2.75% . The interest payments we make will be used to pay the quarterly distributions payable by the Trust to the holders of the trust preferred securities. However, so long as no event of default has occurred under the debentures, we may defer interest payments on the debentures (in which case the Trust will also defer distributions otherwise due on the trust preferred securities) for up to 20 consecutive quarters. The debentures are subordinated to the prior payment of any other indebtedness that, by its terms, is not similarly subordinated. The trust preferred securities will be recorded as a long-term liability on our balance sheet; however, for regulatory purposes the trust preferred securities will be treated as Tier 1 capital under current rules. The debentures mature on December 15, 2037 but may be redeemed at our option at any time on or after December 15, 2012 or at any time upon certain events, such as a change in the regulatory capital treatment of the debentures, the Trust being deemed an investment company or the occurrence of certain adverse tax events.

We also entered into a Guarantee Agreement, dated September 6, 2007, pursuant to which we have agreed to guarantee the payment by the Trust of distributions on the trust preferred securities, and the payment of principal of the trust preferred securities when due, either at maturity or on redemption, but only if and to the extent that the Trust fails to pay distributions on or principal of the trust preferred securities after having received interest payments or principal payments on the notes from us for the purpose of paying those distributions or the principal amount of the trust preferred securities.
