Item 2.05 Costs Associated with Exit or Disposal Activities.

Item 8.01 Other Events.

On June 9, 2009, the Board of Directors of Winnebago Industries, Inc. (the "Company") approved a strategic manufacturing consolidation decision to close the Company's fiberglass manufacturing facility in Hampton, Iowa, which currently manufactures fiberglass components for Company's motor home products. The Company notified affected employees of this decision on June 11, 2009. A press release was issued by the Company on June 11, 2009, which is attached hereto as Exhibit 99.1 and incorporated herein by reference.

The capacity reductions are expected to better position the Company to more closely match its manufacturing capabilities with current market demand. The relocation of a majority of the Hampton manufacturing capacity to the Company's Forest City facility is expected to occur throughout the Company's fiscal fourth quarter, ending August 29, 2009. As a result of the facility closure, the Company expects to incur a non-cash impairment charge of approximately \$1.4 to \$2.4 million on the facility in the company's fourth fiscal quarter. In addition, other associated out of pocket costs with the idling of the facility are estimated to be approximately \$600,000.

Item 9.01 Financial Statements and Exhibits.
