LUCENT COMMENTS ON PRELIMINARY RESULTS FOR THIRD QUARTER OF FISCAL 2006

TALK POINTS

- o We believe we are on track to complete the merger by the end of calendar year 2006, which is within the six to 12 month timeframe originally announced on April 2.
- o Subject to completion of our quarterly earnings process, we expect revenues for the third quarter of Fiscal 2006 to be about \$2.04 billion, as compared with \$2.14 billion in the prior quarter, and \$2.34 billion in the year-ago quarter.

Edgar Filing: LUCENT TECHNOLOGIES INC - Form DEFA14A

- o The sequential and year-over-year declines were due primarily to lower sales of current-generation wireless solutions to North American mobility customers. To a lesser extent, the year-over-year decline was due to decreased revenues in China. Overall, our year-to-date results also have been affected to some extent by delays in spending that we believe are attributable to the consolidation efforts of certain customers.
- o On a preliminary basis, we expect to report earnings of approximately 2 cents per diluted share for Q306, as compared with earnings of 4 cents per share in the second quarter of fiscal 2006 and earnings of 7 cents per diluted share in the year-ago quarter.
- o We expect investment in both CDMA and UMTS to increase going forward, driven by the introduction of EV-DO RevA and HSDPA solutions.
- o We expect that mobility deployments in North America will enable us to make the fourth quarter our highest quarterly revenue period for fiscal year 2006 by a significant margin, assuming that our EV-DO RevA and HSDPA rollouts remain on track.
- o We will provide more details when we announce our quarterly results on Wednesday, July 26, 2006.

Q&A

1. WHAT DO YOU EXPECT YOUR Q306 REVENUE TO BE?

We currently expect Q306 revenues to be about \$2.04 billion, subject to the completion of our quarterly closing process, as compared with \$2.14 billion in the prior quarter and \$2.34 billion in the year-ago quarter.

2. WHAT CAUSED THE SEQUENTIAL AND YEAR-OVER-YEAR REVENUE DECLINES?

The sequential and year-over-year declines were due primarily to a slowdown in spending on some of our current-generation wireless solutions by North American mobility customers. To a lesser extent, the year-over-year decline was due to decreased revenues in China. Overall, our year-to-date results also have been affected to some extent by delays in spending that we believe are attributable to the consolidation efforts of certain customers.

3. WHAT CUSTOMERS REDUCED THEIR SPENDING?

We don't name or comment on specific customers.

As we have stated, the sequential and year-over-year declines were due primarily to a slowdown in spending on some of our current-generation wireless solutions by North American mobility customers. To a lesser extent, the year-over-year decline was due to decreased revenues in China. Overall, our year-to-date results also have been affected to some extent by delays in spending that we believe are attributable to the consolidation efforts of certain customers.

4. IS THIS A MARKET ISSUE OR A LUCENT ISSUE?

We continue to believe that the industry is in the early stages of a multiyear transformation to next-generation networks. Our customers continue investing in the next generation of networks that will be based on IMS, and despite this quarter's results, we continue to see

Edgar Filing: LUCENT TECHNOLOGIES INC - Form DEFA14A

opportunities in the market that align with our strengths and investments in IMS, 3G mobile, services, next-gen optical and access, and applications.

We expect to provide more details on our view of the market when we announce our quarterly results on Wednesday, July 26, 2006.

5. WHAT DO YOU EXPECT YOUR EARNINGS PER DILUTED SHARE TO BE?

On a preliminary basis, we expect to report earnings of approximately 2 cents per diluted share for Q306, as compared with earnings of 4 cents per share in the second quarter of fiscal 2006 and earnings of 7 cents per diluted share in the year-ago quarter.

6. WHAT WERE YOUR OTHER KEY FINANCIAL RESULTS FOR Q306?

We will provide more details when we announce our quarterly results on Wednesday, July 26, 2006.

7. YOU STATED IN YOUR LAST EARNINGS RELEASE THAT THE FUNDAMENTALS FOR YOUR NORTH AMERICA WIRELESS BUSINESS REMAINED SOLID. IS THAT STILL THE CASE?

We continue to believe the fundamentals of our North America wireless business remain solid. We expect investment in both CDMA and UMTS to increase going forward as customers move toward the next phase of mobile high-speed data, driven by the introduction of EV-DO RevA and HSDPA solutions. And in fact, we've recently announced contracts with Verizon Wireless and Telecom New Zealand for our EV-DO RevA solution, which we expect to make commercially available in late September.

Assuming that our EV-DO RevA and HSDPA rollouts remain on track, we expect that mobility deployments in North America will enable us to make the fourth quarter our highest quarterly revenue period for fiscal year 2006 by a significant margin.

8. WERE 3Q RESULTS IMPACTED BY THE PENDING MERGER WITH ALA?

It is difficult to quantify the impact of the pending merger with Alcatel on our Q306 results.

We believe we are on track to complete the merger by the end of calendar year 2006, which is within the six- to 12-month period following the announcement on April 2, 2006.

9. ARE YOU SEEING INCREASED COMPETITION/PRICING PRESSURE?

We continue to operate in an environment of competitive pricing pressure.

That said, the sequential and year-over-year declines were due primarily to a slowdown in spending on some of our current-generation wireless solutions by North American mobility customers. To a lesser extent, the year-over-year decline was due to decreased revenues in China. Overall, our year-to-date results also have been affected to some extent by delays in spending that we believe are attributable to the consolidation efforts of certain customers.

10. WHAT GIVES YOU THE CONFIDENCE THAT Q406 WILL BE THE HIGHEST QUARTERLY REVENUE PERIOD FOR FISCAL YEAR 2006? WHAT SPECIFIC PRODUCT LINES AND

Edgar Filing: LUCENT TECHNOLOGIES INC - Form DEFA14A

GEOGRAPHIES DO YOU EXPECT TO DRIVE THE Q406 REVENUE STRENGTH?

We have no further comment beyond what we have provided in the press release.

We expect investment in both CDMA and UMTS to increase going forward, driven by the introduction of EV-DO RevA and HSDPA solutions. As a result, assuming that our EV-DO RevA and HSDPA rollouts remain on track, we expect that mobility deployments in North America will enable us to make the fourth quarter our highest quarterly revenue period for fiscal year 2006 by a significant margin.

11. WHAT DO YOU MEAN BY SIGNIFICANT MARGIN?

As stated in the release, assuming that our EV-DO RevA and HSDPA rollouts remain on track, we expect that mobility deployments in North America will enable us to make the fourth quarter our highest quarterly revenue period for fiscal year 2006 by a significant margin.

Beyond that, we have no further comment.

12. DO YOU STILL EXPECT 2H06 RESULTS TO BE SIGNIFICANTLY BETTER THAN 1H06?

As stated in the release, assuming that our EV-DO RevA and HSDPA rollouts remain on track, we expect that mobility deployments in North America will enable us to make the fourth quarter our highest quarterly revenue period for fiscal year 2006 by a significant margin.

Beyond that, we have no further comment.

13. WHY ARE YOU PROVIDING FURTHER GUIDANCE AFTER ADOPTING A "NO GUIDANCE" POLICY LAST QUARTER?"

Last quarter we stated that due to our proposed merger with Alcatel, we would discontinue providing specific annual guidance. To that end, we are not providing specific annual guidance for Fiscal 2006 in this update.

Today, we provided commentary on factors that will enable us to make the fourth quarter our highest quarterly revenue period for fiscal year 2006 by a significant margin, assuming that our EV-DO RevA and HSDPA rollouts remain on track.

IMPACT ON MERGER

14. WHAT IMPACT WILL THIS QUARTER'S RESULTS HAVE ON THE PENDING MERGER WITH ALCATEL?

We remain on track to complete the merger by the end of calendar year 2006, which is within the 6 to 12 month timeframe originally announced on April 2.
