EXPLANATORY NOTE
(Dollars in Millions)

The Interpublic Group of Companies ("Interpublic" or the "Company") is filing this Form 10-Q/A to restate its consolidated statement of cash flows for the

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

nine months ended September 30, 2003 for the presentation of certain items (principally capital expenditures and debt issuance costs).

The principal changes were to reduce the amount presented as capital expenditures (in investing activities) and to reclassify debt issuance costs from investing activities to financing activities. The change in cash paid for capital expenditures reduced the amount presented as capital expenditures by \$44.2 and increased the amounts presented as cash used in the line items related to "other non-current assets and liabilities" (in operating activities) and "other investments in less than majority owned affiliates and miscellaneous assets" (in investing activities). The change in debt issuance costs related to \$27.5 that had been presented as investing activities and have now been presented as financing activities. The net result of the changes was to increase the net cash used in operating activities from continuing operations for the nine months ended September 30, 2003, by \$10.0, increase cash provided by investing activities for the nine months ended September 30, 2003, by \$37.5 and increase cash used in financing activities from continuing operations for the nine months ended September 30, 2003, by \$27.5. The restatement of the consolidated statement of cash flows had no impact on net income (loss) or earnings (loss) per share, or any balance sheet amounts.

The accompanying Form 10-Q/A amends the Form 10-Q filed by the Company on November 14, 2003 for the nine months ended September 30, 2003 to correct only the following disclosures: a) consolidated statement of cash flows for the nine months ended September 30, 2003, b) footnote number nine, capital expenditures as disclosed in "Segment Information" and c) "Liquidity and Capital Resources" in the Management's Discussion and Analysis of Financial Condition and Results of Operations.

This Form 10-Q/A amends Items 1 and 2 of Part I of the Company's original Form 10-Q filing only, and except for such items, no other information included in the Company's original Quarterly Report on Form 10-Q is amended by this filing. Except for the corrections described above, this Form 10-Q/A does not purport to update any disclosures contained in the quarterly report, which speaks as of the date of its original filing on November 14, 2003. For disclosures subsequent to November 14, 2003, please see the Company's reports filed with the Securities and Exchange Commission after that date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Amounts in Millions, Except Per Share Amounts) (Unaudited)

1. Basis of Presentation

In the opinion of management, the financial statements included herein contain all adjustments (consisting of normal recurring accruals) necessary to present fairly the financial position, results of operations and cash flows at September 30, 2003 and for all periods presented. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in The Interpublic Group of Companies, Inc.'s (the "Company" or "Interpublic") current report on Form 8-K filed on September 9, 2003. The operating results for the first nine months of the year are not necessarily indicative of the results for the year or other interim periods.

As discussed in Note 10, on July 10, 2003, the Company completed the sale of its NFO WorldGroup ("NFO") research unit to Taylor Nelson Sofres PLC ("TNS"). The results of NFO are classified as discontinued operations in accordance with SFAS 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" and, accordingly, the results of operations and cash flows of NFO have been removed from the Company's results of continuing operations and cash flows for all periods presented in this document.

Restatement

The Company identified changes to the presentation of cash paid for capital expenditures and debt issuance costs in its consolidated statement of cash flows. The changes have been reported through a restatement of previously recorded amounts in the consolidated statement of cash flows in this form 10-Q/A.

The principal changes were to reduce the amount presented as capital expenditures (in investing activities) and to reclassify debt issuance costs from investing activities to financing activities. The change in cash paid for capital expenditures reduced the amount presented as capital expenditures by \$44.2 and increased the amounts presented as cash used in the line items related to "other non-current assets and liabilities" (in operating activities) and "other investments in less than majority owned affiliates and miscellaneous assets" (in investing activities). The change in debt issuance costs related to \$27.5 that had been presented as investing activities and have now been presented as financing activities. The net result of the changes was to increase the net cash used in operating activities from continuing operations for the nine months ended September 30, 2003, by \$10.0, increase cash provided by investing activities for the nine months ended September 30, 2003, by \$37.5 and increase cash used in financing activities from continuing operations for the nine months ended September 30, 2003, by \$27.5. The restatement of the consolidated statement of cash flows had no impact on net income (loss) or earnings (loss) per share, or any balance sheet amounts.

2. Earnings (Loss) Per Share

The following sets forth the computation of earnings (loss) per share for the three and nine month periods ended September 30, 2003 and 2002:

(a) The computation of diluted EPS for 2003 excludes the assumed conversion of the 1.80% and 1.87% Convertible Subordinated Notes, 4.5% Convertible Senior Notes, the conversion of restricted stock and assumed exercise of stock options because they were antidilutive. The computation of diluted EPS for 2002 excludes the assumed conversion of the 1.80% and 1.87% Convertible Subordinated Notes because they were anti-dilutive.

The 1.80% and 1.87% Convertible Subordinated Notes would have added 6.7 and 6.4 shares, respectively, to the diluted shares outstanding had they been dilutive for the three and nine month periods ended September 30, 2003 and 2002.

The 4.5% Convertible Senior Notes would have added 5.6 and 1.9 shares to the diluted shares for the three and nine month periods ended September 30, 2003, respectively, had they been dilutive.

(b) Does not total due to rounding.

3. Stock - Based Compensation Plans

The Company has various stock-based compensation plans. The stock-based compensation plans are accounted for under the intrinsic value recognition and measurement principles of APB Opinion 25, "Accounting for Stock Issued to Employees" and related interpretations. Generally, all employee stock options are issued with the exercise price equal to the market price of the underlying shares at the grant date and therefore, no compensation expense is recorded. The intrinsic value of restricted stock grants and certain other stock-based compensation issued to employees as of the date of grant is amortized to compensation expense over the vesting period.

If compensation cost for the Company's stock option plans and its Employee Stock Purchase Plan ("ESPP") had been determined based on the fair value at the grant dates as defined by SFAS 123, the Company's pro forma net income (loss) and earnings (loss) per share for the three months ended and nine months ended September 30 would have been as follows:

For purposes of this pro forma information, the fair value of shares under the ESPP was based on the 15% discount received by employees. The weighted-average fair value (discount) on the date of purchase for stock purchased under this plan was \$2.14 and \$2.76 for the three months ended September 30, 2003 and 2002, respectively.

The weighted-average fair value of options granted during the three months ended September 30, 2003 and 2002 was \$6.30 and \$6.20, respectively. The fair value of each option grant has been estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

4. Restructuring Charges

During the three and nine months ended September 30, 2003, the Company recorded restructuring charges of \$48.0 and \$142.4, respectively, in connection with the 2003 and 2001 restructuring programs as discussed below. During the three months ended September 30, 2002, the Company recorded restructuring charges of \$12.1 in connection with the 2001 restructuring program.

The Company expects that the restructuring charges recorded to date will result in cash payments of \$136.2 to be paid in 2003 (\$101.1), 2004 (\$22.4) and 2005 and thereafter (\$12.7). Further actions in the 2003 restructuring program will be undertaken in the fourth quarter of 2003 and the first half of 2004.

2003 Program

During the second quarter of 2003, the Company announced that it would undertake restructuring initiatives in response to softness in demand for advertising and marketing services. The restructuring initiatives include severance and lease terminations. The total amount of pre-tax charges the Company expects to incur, through the first half of 2004, is up to approximately \$250.0.

During the nine months ended September 30, 2003, the Company recorded

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

pre-tax restructuring charges of \$142.4 (\$95.4 after tax). The pre-tax restructuring charge was composed of severance costs of \$103.4 and lease terminations costs of \$39.0. Included in the \$39.0 of lease termination costs was \$4.8 related to the write-off of leasehold improvements on vacated properties and \$12.4 related to additional losses on properties vacated as part of the 2001 restructuring program. See below for further discussion of the 2001 restructuring program. The charges related to leases terminated as part of the 2003 program are recorded at net present value and are net of estimated sublease income amounts. In addition, a charge of \$9.1 has been incurred in the three months ended September 30, 2003 related to acceleration of amortization of leasehold improvements on premises which are to be vacated in the future. The charge related to such amortization is included in office and general expenses in the accompanying consolidated statement of operations.

A summary of the remaining liability for restructuring charges related to the 2003 restructuring plan is as follows:

	Second Quarter Charges -----	Third Quarter Charges -----	Non-cash Charges -----	2003 Cash Payments -----
TOTAL BY TYPE				
Severance and termination costs	\$66.0	\$37.4	\$1.4	\$54.5
Lease terminations and other exit costs	16.0	10.6	4.8	2.4
	-----	-----	-----	-----
Total	\$82.0	\$48.0	\$6.2	\$56.9
	=====	=====	=====	=====

The severance and termination costs recorded to date relate to a reduction in workforce of approximately 2,200 employees worldwide. The employee groups affected include all levels and functions across the Company: executive, regional and account management and administrative, creative and media production personnel. Approximately 35% of the charge relates to severance in the US, 15% to severance in the UK, 10% to severance in France with the remainder largely relating to the rest of Europe, Asia and Latin America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in Millions, Except Per Share Amounts)
(Unaudited)

Lease termination costs, net of estimated sublease income, relate to the offices that have been or will be vacated as part of the restructuring. Approximately 35 locations are to be vacated with substantially all actions to be completed by March 31, 2004; however, the cash portion of the charge will be paid out over a period of several years. The majority of the offices to be vacated are located in the US, with approximately one third in overseas markets, principally in Europe.

2001 Program

Following the completion of the True North acquisition in June 2001, the Company executed a wide-ranging restructuring plan that included severance, lease terminations and other actions. The total amount of the charges incurred in 2001 in connection with the plan was \$634.5.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

A summary of the remaining liability for restructuring and other merger related costs related to the 2001 restructuring plan is as follows:

	Liability at December 31, 2002	2003 Charge	Cash paid through September 30, 2003	Liability at September 30, 2003
	-----	-----	-----	-----

5. Long-Lived Asset Impairment

During the three and nine months ended September 30, 2003, the Company recorded charges of \$222.7 and \$244.8, respectively, related to the impairment of long-lived assets at both its Octagon Worldwide ("OWW") and Motorsports businesses. These amounts include \$1.7 and \$14.4, respectively, of current capital expenditure outlays that the Company is contractually required to spend to upgrade and maintain certain of its existing Motorsports racing facilities, as well as an impairment of assets at other Motorsports entities.

During the third quarter of 2003, the Company performed its annual impairment review for goodwill and other intangible assets and recorded a non-cash charge of \$221.0, which is reflected as a component of "Long-lived asset impairment" in the accompanying consolidated statement of operations. The charge was required to reduce the carrying value of goodwill at the Company's OWW reporting unit. OWW is separate from Motorsports and offers a variety of sports marketing services including athlete representation, TV rights distribution and other marketing and consulting services.

The OWW charges reflect the reporting unit's lower than expected performance in 2003 and revised future projections indicating that the factors behind the poor 2003 performance are likely to persist. Specifically, during 2003 it became apparent that there was significant pricing pressure in both overseas and domestic TV rights distribution. Further, declining athlete pay scales are expected to result in significantly lower fees from athlete representation, and proceeds from events (including ticket revenue and sponsorship) to which the Company is committed will be lower than amounts that had been anticipated when the event rights were acquired. Various factors, including the operating loss incurred at OWW in 2003, have indicated that lower revised growth projections are required, reflecting lower projected gross margins than OWW has earned historically.

In 2002, the Motorsports businesses experienced significant operational difficulties, including significantly lower than anticipated attendance at the marquee British Grand Prix race in July 2002. These events and a change in management at Motorsports in the third quarter of 2002 led the Company to begin assessing its long-term strategy for Motorsports. Based on valuations of the Motorsports businesses, the Company determined that the goodwill and the book value of certain asset groupings at Motorsports were significantly higher than their expected future cash flows and that an impairment had occurred.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

Accordingly, the Company recognized a non-cash impairment loss and related charge of \$118.7 (\$83.8, net of tax) as of September 30, 2002. The charges included \$82.1 of goodwill impairment, \$24.6 of fixed asset write-offs, and \$12.0 to record the fair value of an associated put option.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Amounts in Millions, Except Per Share Amounts) (Unaudited)

6. Investment Impairment

During the three and nine months ended September 30, 2003, the Company recorded investment impairment charges of \$29.7 and \$42.2, respectively, relating primarily to international investments that had been determined to have incurred an "other than temporary" impairment.

During the third quarter of 2002, the Company recorded investment impairment charges of \$4.9, primarily related to European marketable securities and certain venture funds that had been determined to have incurred an "other than temporary" impairment. During the second quarter of 2002, the Company recorded investment impairment charges of \$16.2, primarily relating to certain investments of OWW.

The determination as to impairment was largely based on the entity's current and projected operating results.

7. New Accounting Standards

In December 2002, SFAS 148, "Accounting for Stock-Based Compensation --- Transition and Disclosure (an Amendment of SFAS 123)" ("SFAS 148") was issued. SFAS 148 provides alternative methods of transition for making a voluntary change to fair value-based accounting for stock-based compensation. The Company continues to account for its stock option plans under the intrinsic value recognition and measurement principles of APB 25, "Accounting for Stock Issued to Employees" and related interpretations. Effective for interim periods beginning after December 15, 2002, SFAS 148 also requires disclosure of pro forma results on a quarterly basis as if the Company had applied the fair value recognition provisions of SFAS No. 123. This disclosure requirement did not have an impact on our consolidated results of operations or financial position. The FASB recently indicated that they will issue a new accounting standard that will require stock-based employee compensation to be recorded as a charge to earnings.

During 2003, FIN 46, "Consolidation of Variable Interest Entities - An Interpretation of ARB No. 51" ("FIN 46") was issued. FIN 46 addresses the consolidation by business enterprises of variable interest entities, as defined in FIN 46 and is based on the concept that companies that control another entity through interests other than voting interests should consolidate the controlled entity. The consolidation requirements apply immediately to FIN 46 interests held in variable interest entities created after January 31, 2003 and to interests held in variable interest entities that existed prior to February 1, 2003 and remain in existence as of July 1, 2003. On October 9, 2003, the FASB released FASB Staff Position 46-6, which deferred the effective date for the consolidation guidance of FIN 46 from July 1, 2003 to December 31, 2003 for variable interest entities existing prior to February 1, 2003. Pursuant to the transition requirements of FSP 46-6, the Company will adopt the consolidation guidance as of December 31, 2003. As a result of the emerging interpretations of and amendments to FIN 46, the Company is continuing to evaluate the impact of FIN 46 and its related guidance. Their application, however, is not expected to have an impact on, or result in additional disclosure in, the Company's consolidated results of operations or financial position.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

During 2003, SFAS 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS 150") was issued. SFAS 150 establishes standards for classification and measurement of certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in certain cases). The provisions of SFAS 150 are effective for instruments entered into or modified after May 31, 2003 and pre-existing instruments as of July 1, 2003. On October 29, 2003, the FASB voted to indefinitely defer the effective date of SFAS 150 for mandatorily redeemable instruments as they relate to minority interests in consolidated finite-lived entities through the issuance of FASB Staff Position 150-3. The standard was adopted effective the third quarter of 2003, as modified by FSP 150-3, and did not have a material impact on its consolidated results of operations or financial position.

In April 2003, SFAS 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS 149") was issued. SFAS 149 amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement No. 133 ("SFAS 133"), "Accounting for Derivative Instruments and Hedging Activities". This statement is effective for contracts entered into or modified after June 30, 2003. The adoption of this statement did not have a material impact on the Company's consolidated financial statements.

8. Derivative and Hedging Instruments

Hedges of Net Investments

On August 15, 2003, the Company repaid approximately \$36.5 in the Yen borrowings under its \$375.0 Five-Year Revolving Credit Facility that had been designated as a hedge of a net investment.

Forward Contracts

As of September 30, 2003, the Company had short-term contracts covering approximately \$7.5 of notional amount of currency. As of September 30, 2003, the fair value of the forward contracts was negligible.

Other

The Company has two embedded derivative instruments under the terms of the 4.5% Convertible Senior Notes due 2023 ("the 4.5% Notes") issued in March 2003. At September 30, 2003, the fair value of these derivatives was negligible.

9. Segment Information

The Company is organized into four global operating groups together with several stand-alone agencies. The four global operating groups are: a) McCann-Erickson WorldGroup ("McCann"), b) the FCB Group ("FCB"), c) The Partnership and d) Interpublic Sports and Entertainment Group ("SEG"). Each of the four groups and the stand-alone agencies has its own management structure and reports to senior management of the Company on the basis of this structure. McCann, FCB, The Partnership and the stand-alone agencies provide a full complement of global marketing services including advertising and media management, marketing communications including direct marketing, public relations, sales promotion, event marketing, on-line

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

marketing and healthcare marketing in addition to specialized marketing services. SEG includes OWW (for sports marketing), Motorsports (for its motorsports business), and Jack Morton Worldwide (for specialized marketing services including corporate events, meetings and training/learning).

Prior to the second quarter of 2003, the Company had maintained a fifth global operating group, Advanced Marketing Services ("AMS"). In connection with the disposal of NFO (see Note 10), AMS was disbanded and its remaining components became stand-alone agencies.

Each of McCann, FCB, The Partnership, SEG and the various stand-alone agencies operates with the same business objective, which is to provide clients with a wide variety of services that contribute to the delivery of a message and to the maintenance or creation of a brand. However, the Partnership and the entities included in the former AMS historically have had lower gross margins than the Company average. The four global operating groups share numerous clients, have similar cost structures, provide services in a similar fashion and draw their employee base from the same sources. The annual margins of each of the four groups may vary due to global economic conditions, client spending and specific circumstances such as the Company's restructuring activities. However, based on the respective future prospects of McCann, FCB, The Partnership and the entities included in the former AMS, the Company believes that the long-term average gross margin of each of these agencies will converge over time and, given the similarity of their operations, these entities have been aggregated.

SEG revenue is not material to the Company as a whole. However, due to the recording of long-lived asset impairment charges, operating difficulties and resulting higher costs principally from its Motorsports business, SEG has incurred significant operating losses. Based on the fact that the book value of long-lived assets relating to Motorsports and other substantial contractual obligations may not be fully recoverable and revised projections for OWW, the Company no longer expects that margins of SEG will converge with those of the rest of the Company and accordingly, reports SEG as a separate reportable segment. Other than the impairment charges discussed in Note 5 above and the commitments discussed under Note 13 below, the operating results of SEG are not material to those of the Company, and therefore are not discussed in detail below. The Company is currently evaluating the manner in which SEG and its component parts are managed and reported.

In accordance with SFAS 131, "Disclosures about Segments of an Enterprise and Related Information", the Company has two reportable segments. The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies. Management evaluates performance based upon operating earnings before interest and income taxes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Amounts in Millions, Except Per Share Amounts) (Unaudited)

At September 30, 2003 the assets of the reportable segments have not changed materially from those levels reported at December 31, 2002. Summary financial information concerning the Company's reportable segments for the three months ended and nine months ended September 30 is shown in the following table:

10. Acquisitions, Dispositions and Deferred Payments

Acquisitions

During the first nine months of 2003, the Company completed two acquisitions for \$4.0 in cash. Additionally, the Company paid \$45.2 in cash and \$4.6 in stock for additional ownership interests in companies in which a previous investment had been made.

During the first nine months of 2002, the Company completed nine acquisitions for \$48.9 in cash and \$1.1 in stock. Additionally, the Company paid \$30.6 in cash and \$10.4 in stock for additional ownership interests in companies in which a previous investment had been made.

Deferred Payments

During the first nine months of 2003, the Company paid \$126.2 in cash and \$45.7 in stock as deferred payments on acquisitions that had closed in prior years. During the first nine months of 2002, the Company paid \$166.9 in cash and \$56.7 in stock as deferred payments on acquisitions that had closed in prior years.

Deferred payments (or "earn-outs") generally tie the aggregate price ultimately paid for an acquisition to its performance and are recorded as an increase to goodwill and other intangibles.

As of September 30, 2003, the Company's estimated liability for earn-outs, including less than majority-owned affiliates, is as follows:

	2003 ----	2004 ----	2005 ----	2006 and thereafter -----	Total -----
Cash	\$35.9	\$76.4	\$43.7	\$23.4	\$179.4
Stock	6.6	13.1	18.9	8.3	46.9
	-----	-----	-----	-----	-----
TOTAL	\$42.5 =====	\$89.5 =====	\$62.6 =====	\$31.7 =====	\$226.3 =====

The amounts above are estimates based on the current projections as to the amount that will be paid and are subject to revisions as the earn-out periods progress.

Put and Call Options

In addition to the estimated liability for earn-outs, the Company has entered into agreements that require the Company to purchase additional equity interests in certain companies (put options). In many cases, the Company also has the option to purchase the additional equity interests (call options) in certain circumstances.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Amounts in Millions, Except Per Share Amounts) (Unaudited)

The total estimated amount of potential payments under put options is \$142.9, of which \$6.5 is payable in stock. Exercise of the put options would require cash payments to be made as follows:

2003	\$17.4
2004	\$30.7
2005	\$39.7
2006 and thereafter	\$48.6

The actual amount to be paid is contingent upon the achievement of projected operating performance targets and the satisfaction of other conditions as specified in the relevant agreement.

The Company also has call options to acquire additional equity interests in companies in which it already has an ownership interest. The total estimated amount of potential payments under call options is \$99.2, of which \$2.4 is payable in stock. Exercise of the call options would require cash payments to be made as follows:

2003	\$13.8
2004	\$ 6.5
2005	\$12.6
2006 and thereafter	\$63.9

The actual amount to be paid is contingent upon the achievement of projected operating performance targets and the satisfaction of other conditions as specified in the relevant agreement.

Other Payments

During the first nine months of 2003, the Company paid \$19.1 in cash and \$0.1 in stock to settle, principally, loan notes and guarantees that have been previously recognized on the balance sheet. During the first nine months of 2002, \$11.6 in cash was paid for such items.

Dispositions

On July 10, 2003, the Company completed the sale of NFO to TNS. The consideration for the sale was \$415.6 in cash and approximately 11.7 million ordinary shares of TNS valued, for gain calculation purposes, at approximately \$29. (The approximate market value of the shares on November 10, 2003 was \$42.8). The Company has agreed, subject to specified conditions, to hold half of the TNS shares until at least December 2003 and the remainder until at least March 2004. TNS will pay the Company an additional \$10 in cash approximately one year following the closing of this divestiture contingent on the market price per TNS ordinary share continuing to exceed 146 pence (equivalent to approximately \$2.45 at current exchange rates) during a specified averaging period one year from closing. The portion of the consideration consisting of ordinary shares of TNS will be admitted for trading on the London Stock Exchange. As a result of this sale, the Company recognized a pre-tax gain of \$99.1 (\$89.1 net of tax) in the third quarter, after certain post closing adjustments.

The results of NFO are classified as discontinued operations in accordance with SFAS 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" and, accordingly, the results of operations and cash flows of NFO have been removed from the Company's results of continuing operations and cash flows for all periods presented in this document.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

In addition to the gain discussed above, income from discontinued operations consists of the following:

Pre-tax income from discontinued operations	\$ --	\$11.8

The results of operations of NFO for the ten days ended July 10, 2003 were not material and, accordingly, the Company accounted for the disposition as of June 30, 2003.

11. Debt and Certain Liquidity Matters

Revolving Credit Agreements

On June 27, 2000, the Company entered into a revolving credit facility with a syndicate of banks providing for a term of five years and for borrowings of up to \$375.0 (the "Five-Year Revolving Credit Facility"). On May 16, 2002, the Company entered into a revolving credit facility with a syndicate of banks providing for a term of 364 days and for borrowings of up to \$500.0 (the "Old 364-Day Revolving Credit Facility"). The Company replaced the Old 364-Day Revolving Credit Facility with a new 364-day revolving credit facility, which it entered into with a syndicate of banks on May 15, 2003 (the "New 364-Day Revolving Credit Facility" and, together with the Five-Year Revolving Credit Facility, the "Revolving Credit Facilities"). The New 364-Day Revolving Credit Facility provides for borrowings of up to \$500.0, \$200.0 of which are available to the Company for the issuance of letters of credit. The New 364-Day Revolving Credit Facility expires on May 13, 2004. However, the Company has the option to extend the maturity of amounts outstanding on the termination date under the New 364-Day Revolving Credit Facility for a period of one year, if EBITDA for the four fiscal quarters most recently ended was at least \$831.0 (for purposes of this EBITDA calculation, only \$125.0 of non-recurring restructuring charges may be added back to EBITDA). The Revolving Credit Facilities are used for general corporate purposes. As of September 30, 2003, \$151.4 was utilized under the New 364-Day Revolving Credit Facility for the issuance of letters of credit and there were no borrowings under the Five-Year Revolving Credit Facility.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

The Revolving Credit Facilities bear interest at variable rates based on either LIBOR or a bank's base rate, at the Company's option. The interest rates on base rate loans and LIBOR loans under the Revolving Credit Facilities are affected by the facilities' utilization levels and the Company's credit ratings. In connection with the New 364-Day Revolving Credit Facility, the Company agreed to new pricing under the Revolving Credit Facilities that increased the interest spread payable on loans by 25 basis points. Based on the Company's current credit ratings, interest rates on loans under the New 364-Day Revolving Credit Facility are currently calculated by adding 175 basis points to either the applicable bank base rate (in the case of base rate loans) or LIBOR (in the case of LIBOR loans), and interest rates on loans under the Five-Year Revolving Credit Facility are currently calculated by adding 170 basis points to these rates.

The Company's Revolving Credit Facilities include financial covenants that set (i) maximum levels of debt as a function of EBITDA, (ii) minimum levels of EBITDA as a function of interest expense and (iii) minimum levels of EBITDA (in each case, as defined in those agreements). In connection with entering into the New 364-Day Revolving Credit Facility, the definition of EBITDA in the Revolving Credit Facilities was amended to include (i) up to \$161.4 of non-cash, non-recurring charges taken in the fiscal year ended December 31, 2002; (ii) up to \$200.0 of non-recurring restructuring charges (up to \$175.0 of which may be cash charges) taken in the fiscal quarters ended March 31, 2003, June 30, 2003 and September 30, 2003; (iii) up to \$70.0 of non-cash, non-recurring charges taken with respect to the impairment of the remaining book value of the Company's Motorsports business; and (iv) all impairment charges taken with respect to capital expenditures made on or after January 1, 2003 with respect to the Company's Motorsports business, and to exclude the gain realized by the Company upon the sale of NFO. The corresponding financial covenant ratio levels in the Revolving Credit Facilities were also amended.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Amounts in Millions, Except Per Share Amounts) (Unaudited)

As of September 29, 2003, these additions to the definition of EBITDA were replaced with the following items: (i) up to \$161.4 of non-cash, non-recurring charges taken in the fiscal year ended December 31, 2002; (ii) up to \$275.0 of non-recurring restructuring charges (up to \$240.0 of which may be cash charges) taken in the fiscal quarters ended March 31, 2003, June 30, 2003, September 30, 2003, December 31, 2003 and March 31, 2004; (iii) up to \$70.0 of non-cash, non-recurring charges taken with respect to the impairment of the remaining book value of the Company's Motorsports business; (iv) all impairment charges taken with respect to capital expenditures made on or after January 1, 2003 with respect to the Company's Motorsports business; (v) up to \$300.0 of non-cash, non-recurring goodwill or investment impairment charges taken in the fiscal periods ending September 30, 2003, December 31, 2003, March 31, 2004, June 30, 2004 and September 30, 2004; (vi) up to \$135.0 in payments made by the Company (up to \$40.0 of which may be in cash) with respect to the fiscal periods ending September 30, 2003, December 31, 2003 and March 31, 2004, relating to the settlement of certain litigation matters; (vii) \$24.8 in respect of the early repayment by the Company of all amounts outstanding under each of its five Note Purchase Agreements with The Prudential Insurance Company of America dated as of May 26, 1994, April 28, 1995, October 31, 1996, August 19, 1997 and January 21, 1999, respectively, with respect to the fiscal quarter ending September 30, 2003; and (viii) non-cash charges related to the adoption by the Company of the fair value based method of accounting

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

for stock-based employee compensation in accordance with Statement of Financial Accounting Standards No. 123 and Statement of Financial Accounting Standards No. 148. In determining the Company's compliance with the financial covenants as of September 30, 2003, the following charges were added back to the definition of EBITDA: (i) \$137.0 of restructuring charges (\$122.1 of which were cash charges), (ii) \$9.4 of non-cash charges with respect to the impairment of the remaining book value of the Company's Motorsports business, (iii) \$250.7 of goodwill or investment impairment charges and (iv) \$115.0 of charges (primarily non-cash) relating to certain litigation matters. Since these charges and payments were added back to the definition of EBITDA, they do not affect the ability of the Company to comply with its financial covenants. Any charges incurred by the Company as a result of its restructuring program during periods after March 31, 2004 will not be added back to EBITDA in determining whether the Company is in compliance with its financial covenants.

The definition of EBITDA has also been separately amended to give the Company flexibility to settle its commitments under certain leasing and motorsports event contractual arrangements.

The Company paid a fee of 10 basis points on the total commitments under each of the Revolving Credit Facilities in consideration for these amendments to the definition of EBITDA. As of September 30, 2003, the Company was in compliance with all of the covenants (including the financial covenants, as amended) contained in the Five-Year Revolving Credit Facility and the New 364-Day Revolving Credit Facility.

The Company currently expects to be in compliance with both its applicable financial and other covenants in the Revolving Credit Facilities without having to obtain any additional waivers or amendments, except such non-financial covenants as may be necessary in connection with possible capital markets transactions if the Company should choose to enter into such transactions.

The terms of the Revolving Credit Facilities restrict the Company's ability to declare or pay dividends, repurchase shares of common stock, make cash acquisitions or investments and make capital expenditures, as well as the ability of the Company's domestic subsidiaries to incur additional debt. Certain of these limitations were modified upon the Company's issuance on March 13, 2003 of 4.5% Convertible Senior Notes due 2023 (the "4.5% Notes") in an aggregate principal amount of \$800.0, from which the Company received net cash proceeds equal to approximately \$778.0. In addition, pursuant to a tender offer that expired on April 4, 2003, the Company purchased \$700.5 in aggregate principal amount at maturity of its Zero-Coupon Convertible Senior Notes due 2021 (the "Zero-Coupon Notes"). As a result of these transactions, the Company's permitted level of annual cash acquisition spending has increased to \$100.0 and the permitted level of annual share buybacks and dividend payments has increased to \$25.0. All limitations on dividend payments and share buybacks expire when earnings before interest, taxes, depreciation and amortization are at least \$1,300.0 for four consecutive quarters. The Company's permitted level of annual capital expenditures is \$175.0.

Uncommitted Facilities

At September 30, 2003 the Company also had \$731.7 of uncommitted lines of credit, 65.1% of which were provided by banks that participate in the

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

Revolving Credit Agreements. At September 30, 2003, approximately \$83.5 was outstanding under these uncommitted lines of credit. The Company's uncommitted borrowings are repayable upon demand.

Prudential Agreements

On May 26, 1994, April 28, 1995, October 31, 1996, August 19, 1997 and January 21, 1999, the Company entered into five note purchase agreements, respectively, with The Prudential Insurance Company of America (the "Prudential Agreements"). The notes issued pursuant to the Prudential Agreements were repayable on May 2004, April 2005, October 2006, August 2007 and January 2009, respectively, and had interest rates of 10.01%, 9.95%, 9.41%, 9.09% and 8.05%, respectively.

Due to the high interest rates on the notes issued under the Prudential Agreements and the restrictive financial covenants contained in these agreements, the Company repaid the total principal amount and interest outstanding under the Prudential Agreements on August 8, 2003, including a prepayment penalty that resulted in a net charge of approximately \$24.8.

The Prudential Agreements contained the same restrictions on the Company's ability to declare or pay dividends, repurchase shares of common stock, make cash acquisitions or investments and make capital expenditures, as well as the ability of the Company's domestic subsidiaries to incur additional debt, as the new terms of the Revolving Credit Agreements described above.

Other Debt Instruments-- Convertible Senior Notes - 4.5%

In March 2003, the Company completed the issuance and sale of \$800 aggregate principal amount of the 4.5% Notes. In April 2003, the Company used \$581.3 of the net proceeds of this offering to repurchase the Zero-Coupon Notes tendered in its concurrent tender offer and is using the remaining proceeds for the repayment of other indebtedness, general corporate purposes and working capital. The 4.5% Notes are unsecured, senior securities that may be converted into common shares if the price of the Company's common stock reaches a specified threshold, at an initial conversion rate of 80.5153 shares per one thousand dollars principal amount, equal to a conversion price of \$12.42 per share, subject to adjustment. This threshold will initially be 120% of the conversion price and will decline 1/2% each year until it reaches 110% at maturity in 2023.

The 4.5% Notes may also be converted, regardless of the price of the Company's common stock, if: (i) the credit ratings assigned to the 4.5% Notes by any two of Moody's Investors Service, Inc., Standard & Poor's Ratings Services and Fitch Ratings are lower than Ba2, BB and BB, respectively, or the 4.5% Notes are no longer rated by at least two of these ratings services, (ii) the Company calls the 4.5% Notes for redemption, (iii) the Company makes specified distributions to shareholders or (iv) the Company becomes a party to a consolidation, merger or binding share exchange pursuant to which its common stock would be converted into cash or property (other than securities).

The Company, at the investor's option, may be required to redeem the 4.5% Notes for cash on March 15, 2008.

The Company may also be required to redeem the 4.5% Notes at the investor's option on March 15, 2013 and March 15, 2018, for cash or common stock or a combination of both, at the Company's election. Additionally, investors may require the Company to redeem the 4.5% Notes in the event of certain change of control events that occur prior to May 15, 2008, for cash or common stock or a combination of both, at the Company's election. The Company at its option may redeem the 4.5% Notes on or after May 15, 2008 for cash. The redemption price in each of these instances will be 100% of the principal

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

amount of the notes being redeemed, plus accrued and unpaid interest, if any.

If at any time on or after March 13, 2003 the Company pays cash dividends on its common stock, the Company will pay contingent interest per 4.5% Note in an amount equal to 100% of the per share cash dividend paid on the common stock multiplied by the number of shares of common stock issuable upon conversion of a 4.5% Note.

Other

On March 7, 2003, Standard & Poor's Ratings Services downgraded the Company's senior secured credit rating to BB+ with negative outlook from BBB-. On May 14, 2003, Fitch Ratings downgraded the Company's senior unsecured credit rating to BB+ with negative outlook from BBB-. The remaining senior unsecured credit rating is Baa3 with stable outlook; however, as reported by Moody's Investors Services, Inc., on May 8, 2003, this rating was placed on review for possible downgrade.

Since July 2001, the Company has not repurchased its common stock in the open market.

Through December 2002, the Company had paid cash dividends quarterly with the most recent quarterly dividend paid in December 2002 at a rate of \$0.095 per share. The determination of dividend payments is made by the Company's Board of Directors on a quarterly basis. However, as previously discussed, the Company's ability to declare or pay dividends is currently restricted by new terms of its Revolving Credit Facilities, and the Company has not declared or paid a dividend in 2003.

The Company believes that cash flow from operations and proceeds from the sale of NFO, together with its availability under existing lines of credit and expected refinancings thereof and cash on hand, will be sufficient to fund the Company's working capital needs (including disbursements related to its ongoing restructuring program) and other obligations for the next twelve months. In the event additional funds are required, the Company believes it will have sufficient resources, including borrowing capacity and access to capital markets, to meet such requirements. Unanticipated decreases in cash flow from operations as a result of decreased demand for our services and other developments may require the Company to seek other sources of liquidity (including the disposition of certain assets) and modify its operating strategies.

During the third quarter of 2003, the Company filed a universal shelf registration in the amount of \$1,800. The Company intends to act opportunistically in accessing the capital markets as the need for additional funding arises.

12. Income Taxes

The Company's effective income tax rate for the nine months ended September 30, 2003 was negatively impacted by the restructuring charges, long-lived asset impairment charges and non-deductible investment impairment charges relating to unconsolidated affiliates, as well as the establishment of valuation allowances on certain deferred tax assets. In addition, the increased tax rate in 2003 reflects losses incurred in non-US jurisdictions with tax benefits at rates lower than the US statutory rates. All of these factors contributed to the Company's recording a tax provision of \$36.3 on

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

a pre-tax loss of \$392.5 for the nine months ended September 30, 2003.

As required by SFAS 109 "Accounting for Income Taxes", the Company evaluates the adequacy of its valuation allowances relating to deferred tax assets. The Company's cumulative loss in the most recent three year period, inclusive of the significant loss for the quarter ended September 30, 2003, represents sufficient negative evidence to require a valuation allowance with respect to certain of its deferred tax assets. As a result, the Company determined that certain of its deferred tax assets required the establishment of a valuation allowance. The deferred tax assets for which an allowance was established relate primarily to foreign loss carryforwards. As a result of the evaluation, a charge of \$48.7 was recorded in the third quarter of 2003 to increase the Company's valuation allowance. The total valuation allowance as of September 30, 2003 was \$118.0.

The valuation allowance that has been established will be maintained until there is sufficient positive evidence to conclude that it is "more likely than not" that such assets will be realized.

Legal Matters

Federal Securities Class Action

Thirteen federal securities purported class actions were filed against Interpublic and certain of its present and former directors and officers by a purported class of purchasers of Interpublic stock shortly after the Company's August 13, 2002 announcement regarding the restatement of its previously reported earnings for the periods January 1, 1997 through March 31, 2002. These actions, which were all filed in the United States District Court for the Southern District of New York, were consolidated by the court and lead counsel appointed for all plaintiffs

(Amounts in Millions, Except Per Share Amounts)
(Unaudited)

on November 8, 2002. A consolidated amended complaint was filed thereafter on January 10, 2003. The purported class consists of Interpublic shareholders who purchased Interpublic stock in the period from October 1997 to October 2002. Specifically, the consolidated amended complaint alleges that Interpublic and certain of its present and former directors and officers allegedly made misleading statements to its shareholders between October 1997 and October 2002, including the alleged failure to disclose the existence of additional charges that would need to be expensed and the lack of adequate internal financial controls, which allegedly resulted in an overstatement of Interpublic's financial results during those periods. The consolidated amended complaint alleges that such false and misleading statements constitute violations of Sections 10(b) and 20(a) of the Exchange Act of 1934 and Rule 10b-5 promulgated thereunder. The consolidated amended complaint also alleges violations of Sections 11 and 15 of the Securities Act of 1933, as amended (the "Securities Act") in connection with Interpublic's acquisition of True North Communications, Inc. ("True North") on behalf of a purported class of True North shareholders who acquired Interpublic stock. No amount of damages is specified in the consolidated amended complaint. On February 6, 2003, defendants filed a motion to dismiss the consolidated amended complaint in its entirety. On February 28, 2003, plaintiffs filed their opposition to defendants' motion and, on March 14, 2003, defendants filed their reply to plaintiff's opposition to defendants' motion. On May 29, 2003, the United States District Court for the Southern District of New York denied the

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

motion to dismiss as to the Company and granted the motion, in part, as to the present and former directors and officers named in the consolidated amended complaint. On June 30, 2003, defendants filed an answer to the consolidated amended complaint. On November 6, 2003, the Court granted plaintiffs' motion to certify a class consisting of persons who purchased Interpublic stock between October 28, 1997 and October 16, 2002 and a class consisting of persons who acquired shares of Interpublic stock in exchange for shares of True North stock.

State Securities Class Actions

Two state securities purported class actions were filed against the Company and certain of its present and former directors and officers by a purported class of purchasers of Interpublic stock shortly after the Company's November 13, 2002 announcement regarding the restatement of its previously reported earnings for the periods January 1, 1997 through March 31, 2002. The purported classes consist of Interpublic shareholders who acquired Interpublic stock on or about June 25, 2001 in connection with Interpublic's acquisition of True North. These lawsuits allege that Interpublic and certain of its present and former directors and officers allegedly made misleading statements in connection with the filing of a registration statement on May 9, 2001 in which Interpublic issued 67,644,272 shares of its common stock for the purpose of acquiring True North, including the alleged failure to disclose the existence of additional charges that would need to be expensed and the lack of adequate internal financial controls, which allegedly resulted in an overstatement of Interpublic's financial results at that time. The suits allege that such misleading statements constitute violations of Sections 11 and 15 of the Securities Act of 1933. No amount of damages is specified in the complaints. These actions were filed in the Circuit Court of Cook County, Illinois. On December 18, 2002, defendants removed these actions from Illinois state court to the United States District Court for the Northern District of Illinois. Thereafter, on January 10, 2003, defendants moved to transfer these two actions to the Southern District of New York. Plaintiffs moved to remand these actions. On April 15, 2003, the United States District Court for the Northern District of Illinois granted plaintiffs' motions to remand these actions to Illinois state court and denied defendants' motion to transfer. On June 18, 2003, the Company moved to dismiss and/or stay these actions. On September 10, 2003, the Illinois state court stayed these actions and on September 24, 2003, plaintiffs filed a notice that they will appeal the stay.

Derivative Actions

In addition to the lawsuits above, several shareholder derivative suits have been filed. On October 24, 2002, a shareholder derivative suit was filed in Delaware Court of Chancery, New Castle County, by a single shareholder acting on behalf of the Company against the Board of Directors. The suit alleges a breach of fiduciary duties to Interpublic's shareholders. On November 15, 2002, another suit was filed in Delaware Court of Chancery, New Castle County, by a single shareholder acting on behalf of the Company against the Board of Directors. On December 18, 2002, defendants moved to dismiss these actions. In lieu of a response, plaintiffs consolidated the actions and filed an Amended Consolidated Complaint on January 10, 2003, again alleging breach of fiduciary duties to Interpublic's shareholders. The Amended Consolidated Complaint does not state a specific amount of damages. On January 27, 2003, defendants filed motions to dismiss the Amended Consolidated Complaint. On June 30, 2003, after the plaintiffs informed the court that they had decided to dismiss the Delaware litigation, the court entered an order dismissing the Delaware action with prejudice to plaintiffs only.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Amounts in Millions, Except Per Share Amounts) (Unaudited)

On September 4, 2002, a shareholder derivative suit was filed in New York Supreme Court, New York County, by a single shareholder acting on behalf of the Company against the Board of Directors and against the Company's auditors. This suit alleged a breach of fiduciary duties to Interpublic's shareholders. On November 26, 2002, another shareholder derivative suit, alleging the same breaches of fiduciary duties, was filed in New York Supreme Court, New York County. The plaintiffs from these two shareholder derivative suits filed an Amended Derivative Complaint on January 31, 2003. On March 18, 2003, plaintiffs filed a motion to dismiss the Amended Derivative Complaint without prejudice. On April 16, 2003, the Amended Derivative Complaint was dismissed without prejudice. On February 24, 2003, plaintiffs also filed a Shareholders' Derivative Complaint in the United States District Court for the Southern District of New York. On May 2, 2003, plaintiffs filed an Amended Derivative Complaint. This action alleges the same breach of fiduciary duties claim as the state court actions, and adds a claim for contribution and forfeiture against two of the individual defendants pursuant to Section 21D of the Exchange Act and Section 304 of the Sarbanes-Oxley Act. On July 11, 2003, plaintiffs filed a Second Amended Derivative Complaint, asserting the same claims. The complaint does not state a specific amount of damages. On August 12, 2003, defendants moved to dismiss this action.

The Company intends to vigorously defend the actions discussed above. However, as with all litigation, these proceedings contain elements of uncertainty and the final resolution of these actions could have a material impact on the Company's financial position, cash flows or results of operations. The Company is presently attempting to settle the litigations described above. The Company cannot give any assurances that any attempts will result in a settlement agreement, that any such agreement will receive the approval of the court or as to the amount or type of consideration that the Company might agree to pay in connection with any settlement.

Litigation Charges

During the three months ended September 30, 2003, the Company has recorded litigation charges of \$127.6 for various legal matters, including principally the matters discussed above. The principal amount of the charge relates to the Company's current estimate of amounts that may be payable, which the Company currently believes would be paid primarily in Interpublic common stock.

Other Legal Matters

The Company is involved in other legal and administrative proceedings of various types. While any litigation contains an element of uncertainty, the Company has no reason to believe that the outcome of such other proceedings or claims will have a material effect on the financial condition of the Company.

Tax Matters

On April 21, 2003, the Company received a notice from the Internal Revenue Service ("IRS") proposing adjustments to the Company's taxable income that would result in additional taxes, including conforming adjustments to state and local returns, of \$41.5 (plus interest) for the taxable years 1994 to 1996. The Company believes that the tax positions that the IRS has challenged comply with applicable law, and it intends to defend those positions vigorously. The Company filed a Protest with the IRS Appeals Office on July 21, 2003. Although the ultimate resolution of these matters will likely require the Company to pay additional taxes, any such payments will not have a material effect on the Company's financial position, cash

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

flows or results of operations.

SEC Investigation

The Company was informed in January 2003 by the Securities and Exchange Commission staff that the SEC has issued a formal order of investigation related to the Company's restatements of earnings for periods dating back to 1997. The matters had previously been the subject of an informal inquiry. The Company is cooperating fully with the investigation.

Other Contingencies

The Company continues to have commitments under certain leasing and motorsports event contractual arrangements. As of September 30, 2003, the Company is committed to remaining payments under these arrangements of approximately \$460. This amount relates to undiscounted payments through 2015 principally under an executory contract and an operating lease and assumes payments over the maximum remaining term of the relevant agreements. This obligation has not been reduced by any future operating results to be generated from

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Amounts in Millions, Except Per Share Amounts) (Unaudited)

the arrangements. The Company is continuing to explore various options with respect to these commitments, at least one of which may involve a cash payment. The Company has obtained amendments of certain definitions contained in its Revolving Credit Agreements (as discussed in Note 11) to give it flexibility to settle these commitments. Additionally, the book value of long-lived assets relating to Motorsports is approximately \$60 at September 30, 2003 and this amount may not be fully recoverable depending upon the exit strategy ultimately followed.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Dollars in Millions, Except Per Share Amounts)

Item 2. RESULTS OF OPERATIONS

When comparing performance between years, The Interpublic Group of Companies, Inc. ("Interpublic") or ("the Company") discusses non-GAAP financial measures such as the impact that foreign currency rate changes, acquisitions/dispositions and organic growth have on reported results. As the Company derives significant revenue from international operations, changes in foreign currency rates between the years may have a significant impact on reported results. Reported results are also impacted by the Company's acquisition and disposition activity. Management believes that discussing the impact of currency fluctuations and acquisitions/dispositions provides a better understanding of the reported results.

The impact of foreign currency is the difference between prior year results converted to US Dollars at prior year exchange rates and prior year results converted to US Dollars at current year exchange rates (constant currency). The impact of acquisitions and dispositions relates to the results of acquisitions and dispositions that occurred since January 1st of the prior year. Organic revenue is calculated as revenue in constant currency eliminating acquisitions and dispositions.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

The Company's results of operations are dependent upon: a) maintaining and growing its revenue, b) the ability to retain and gain new clients, c) the continuous alignment of its costs to its revenue and d) retaining and attracting key personnel. Revenue is also highly dependent on overall economic and political conditions. For a further discussion of these and other factors that could affect the Company's results of operations and financial conditions, see "Cautionary Statement."

As discussed in Note 9 to the consolidated financial statements, the Company is comprised of two reportable segments: the Interpublic Sports and Entertainment Group ("SEG") and Interpublic excluding SEG. SEG was formed during the second quarter of 2002 through a carve-out from the Company's other operating groups and is primarily comprised of the operations of Octagon Worldwide ("OWW"), for the Company's sports marketing business, Motorsports, for the Company's motorsports business, and Jack Morton Worldwide, for specialized marketing services including corporate events, meeting and training/learning.

SEG revenue is not material to the Company as a whole. However, due to the recording of long-lived asset impairment charges, operating difficulties and resulting higher costs principally from its Motorsports business, SEG has incurred significant operating losses. Based on the fact that the book value of long-lived assets relating to Motorsports and other substantial contractual obligations may not be fully recoverable and revised projections for OWW, the Company no longer expects that margins of SEG will converge with those of the rest of the Company and, accordingly, reports SEG as a separate reportable segment. Other than the impairment charges which are discussed below and the commitments discussed in "Other Matters", the operating results of SEG are not material to those of the Company, and therefore are not discussed in detail below.

Discontinued Operations

As discussed in Note 10 to the consolidated financial statements, on July 10, 2003, the Company completed the sale of its NFO WorldGroup ("NFO") research unit to Taylor Nelson Sofres PLC ("TNS"). The results of NFO are classified as discontinued operations in accordance with SFAS 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" and, accordingly, the results of operations and cash flows of NFO have been removed from the Company's results of continuing operations and cash flow for all periods presented in this document.

Continuing Operations

Three Months Ended September 30, 2003 Compared to Three Months Ended September 30, 2002

The Company reported a net loss of \$327.1, or \$0.85 diluted loss per share, which is comprised of a \$1.08 loss per share from continuing operations and \$0.23 earnings per share from discontinued operations for the three months ended September 30, 2003. This compares to a net loss of \$89.6, or \$0.24 diluted loss per share, comprised of \$0.26 loss per share from continuing operations and \$0.02 earnings per share from discontinued operations for the three months ended September 30, 2002. Net loss in the third quarter of 2003 includes a pre-tax restructuring charge of \$48.0, a pre-tax long-lived asset impairment charge of \$222.7 primarily related to the write-down of goodwill at OWW, pre-tax investment impairment charge of \$29.7 related to unconsolidated affiliates, an accrual for estimated litigation settlement charges of \$127.6 primarily in connection with the shareholder suits related to the restatement of earnings for prior years, a debt prepayment penalty of \$24.8 incurred in retiring the Company's term loans and a

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

(Dollars in Millions, Except Per Share Amounts)

\$48.7 increase to the valuation allowance for deferred income tax assets. Net earnings in the third quarter of 2002 include a pre-tax restructuring charge of \$12.1, a pre-tax impairment charge of \$118.7 related to the long-lived assets of the Company's Motorsports business and a pre-tax investment impairment charge of \$4.9.

The following summarizes certain financial information for purposes of management's discussion and analysis:

Some of the key factors driving the financial results in the third quarter of 2003 were:

- Higher exchange rates for the third quarter of 2003, primarily the Euro and Sterling, reflected higher U.S. dollar revenue and expenses in comparison to the third quarter of 2002;
- While there are signs of economic improvement, there is still softness in demand for the Company's advertising and marketing communications services by current clients, particularly in public relations and other project-based businesses in international markets;
- Restructuring charges of \$48.0 were recorded in the third quarter. In connection with the Company's restructuring program, a charge of \$9.1 was also recorded in office and general expenses related to the amortization of leasehold improvements on properties to be vacated as part of the 2003 restructuring program. The Company expects that the total cost of its restructuring initiatives underway will not exceed \$250.0 and will be completed during the first six months of 2004;
- A long-lived asset impairment charge of \$221.0 was recorded related to the goodwill of OWW, the Company's sports marketing business.
- An investment impairment charge of \$29.7 was recorded in the third quarter related to unconsolidated, principally international, affiliates.
- A charge of \$127.6 anticipated to be funded principally with Interpublic stock, was recorded primarily related to various legal matters including the shareholder suits.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

- A debt prepayment penalty of \$24.8 was recorded as a result of retiring all of the Company's outstanding borrowings under the Prudential Agreements.
- A charge of \$48.7 was recorded in the third quarter to increase the Company's valuation allowance for deferred income tax assets primarily relating to foreign loss carryforwards.

A pre-tax gain on the sale of NFO of \$99.1 (\$89.1 after tax) was recorded to reflect the closing of the sale in the third quarter.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Dollars in Millions, Except Per Share Amounts)

REVENUE

The Company is a worldwide global marketing services company, providing clients with communications expertise in three broad areas: a) advertising and media management, b) marketing communications, which includes client relationship management (direct marketing), public relations, sales promotion, event marketing, on-line marketing, corporate and brand identity and healthcare marketing, and c) specialized marketing services, which includes sports and entertainment marketing, corporate meetings and events, retail marketing and other marketing and business services.

Worldwide revenue for the three months ended September 30, 2003 was \$1,418.9, an increase of \$32.1 or 2.3% from the three months ended September 30, 2002. Domestic revenue, which represented 56% of revenue in the three months ended September 30, 2003, decreased \$7.3 or 0.9% from the same period in 2002. International revenue, which represented 44% of revenue in the three months ended September 30, 2003, increased \$39.4 or 6.8% from the same period in 2002. International revenue would have decreased 4.2% excluding the effects of changes in foreign currency of \$66.4. The increase in worldwide revenue was primarily a result of the effects of higher exchange rates offset by continued softness in the demand for advertising and marketing services by current clients due to the weak economy primarily in international markets. The components of the total revenue change of 2.3% were: impact of foreign currency changes 4.7%, net acquisitions/divestitures (0.7)%, and organic revenue decline (1.7)%. Organic changes in revenue reflect increases or decreases in net new business activity and increases or decreases in activity from existing client accounts.

OPERATING EXPENSES

Salaries and Related Expenses

The Company's expenses related to employee compensation and various employee incentive and benefit programs amount to approximately 57% of revenue for the three months ended September 30, 2003. Salaries and related expenses for the three months ended September 30, 2003 decreased \$2.3 or 0.3% to \$810.9 compared to the three months ended September 30, 2002. The decrease was primarily due to the effect of higher exchange rates for the third quarter of 2003, primarily the Euro and Sterling, in comparison to the third quarter of 2002, partially offset by a reduction in severance expense and salary expense resulting from previous headcount reductions and the Company's restructuring program. The Company's headcount was reduced to 43,500 at September 30, 2003 compared with 46,900 at December 31, 2002 and 47,500 at September 30, 2002. The components of the total change of (0.3)% were: impact of foreign currency changes 4.5%, net acquisitions/divestitures (0.2)% and decreases in salaries and related expenses from existing operations (4.6)%.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

Office and General Expenses

Office and general expenses were \$506.6 in the three months ended in September 30, 2003 and \$519.0 in the three months ended September 30, 2002, a decrease of \$12.4 or 2.4 %. The decrease in office and general expenses was primarily due to reduction in occupancy and overhead costs as a result of the restructuring program partially offset by the effects of higher exchange rates and higher bad debt expense. The components of the total change of (2.4)% were: impact of foreign currency changes 5.5%, net acquisitions/divestitures (1.8)% and decreases in office and general expenses from existing operations (6.1)%.

Amortization of Intangible Assets

Amortization of intangible assets was \$1.8 in the three months ended September 30, 2003 compared with \$2.1 in the three months ended September 30, 2002. The decrease relates primarily to the write-off of intangible assets in the third quarter of 2002 at the Company's Motorsports business.

OTHER INCOME (EXPENSE)

Interest Expense

Interest expense was \$43.5 in the third quarter of 2003 compared with \$36.7 in the third quarter of 2002. The increase was a result of the issuance of \$800 4.5% Convertible Notes on March 13, 2003. These proceeds were invested until early April, at which time the proceeds were used for the settlement of the tender offer for the Zero-Coupon Notes.

Debt Prepayment Penalty

During the third quarter of 2003, the Company repaid all of its outstanding borrowings under the Prudential Agreements. This transaction required repaying \$142.5 principal amount of its outstanding debt. In connection with this transaction a prepayment penalty of \$24.8 was recorded.

Interest Income

Interest income was \$9.5 for the three months ended September 30, 2003 compared with \$5.9 in the same period of 2002. The increase in 2003 is primarily due to the higher cash balances resulting from the proceeds of the sale of NFO.

Other Income

Other income primarily consists of investment income, gains from the sale of businesses and gains (losses) from the sale of investments, primarily marketable securities classified as available-for-sale. Other income was \$1.2 for the three months ended September 30, 2003 compared with income of \$2.7 for the three months ended September 30, 2002. The gain in the third quarter of 2003 reflects the sale of an advertising business in South America. Included in the third quarter of 2002 was a gain on the sale of an unconsolidated affiliate in the US.

Investment Impairment

During the third quarter of 2003, the Company recorded investment impairment charges of \$29.7 relating primarily to international investments that had been determined to have incurred an "other than temporary" impairment.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

During the third quarter of 2002, the Company recorded investment impairment charges of \$4.9, primarily relating to marketable securities and certain venture funds that had been determined to have incurred an "other than temporary" impairment.

Litigation Charges

During the three months ended September 30, 2003, the Company has recorded litigation charges of \$127.6 for various legal matters, including principally the matters discussed in Note 13 to the consolidated financial statements. The principal amount of the charge relates to the Company's current estimate of amounts that may be payable, which the Company currently believes would be paid primarily in Interpublic common stock.

OTHER ITEMS

Effective Income Tax Rate

The Company's effective income tax rate for the third quarter of 2003 was negatively impacted by the restructuring charges, long-lived asset impairment charges and non-deductible investment impairment charges relating to unconsolidated affiliates, as well as the establishment of valuation allowances on certain deferred tax assets. In addition, the increased tax rate in 2003 reflects losses incurred in non-US jurisdictions with tax benefits at rates lower than the US statutory rates. All of these factors contributed to the Company's recording of a tax provision of \$19.5 on a pre-tax loss of \$386.0 in the third quarter.

Valuation Allowance

As required by SFAS 109 "Accounting for Income Taxes", the Company evaluates the adequacy of its valuation allowances relating to deferred tax assets. The Company's cumulative loss in the most recent three year period, inclusive of the significant loss for the quarter ended September 30, 2003, represents sufficient negative evidence to require a valuation allowance with respect to certain of its deferred tax assets. As a result, the Company determined that certain of its deferred tax assets required the establishment of a valuation allowance. The deferred tax assets for which an allowance was established relate primarily to foreign loss carryforwards. As a result of the evaluation, a charge of \$48.7 was recorded in the third quarter of 2003 to increase the Company's valuation allowance. The total valuation allowance as of September 30, 2003 was \$118.0.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Dollars in Millions, Except Per Share Amounts)

The valuation allowance that has been established will be maintained until there is sufficient positive evidence to conclude that it is "more likely than not" that such assets will be realized.

Minority Interest

Income applicable to minority interests was \$10.4 in the third quarter of 2003 compared to \$7.9 in the third quarter of 2002. The increase in the third quarter of 2003 was primarily due to higher operating results of certain operations in Asia Pacific and an increase in minority interest recorded in certain operations in the U.S.

Unconsolidated Affiliates

Equity in net income of unconsolidated affiliates, virtually unchanged, was a loss of \$0.3 in the third quarter of 2003 compared to a loss of \$0.2 in the third quarter of 2002.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

Nine Months Ended September 30, 2003 Compared to Nine Months Ended September 30, 2002

The Company reported a net loss of \$349.2, or \$0.91 diluted loss per share which is comprised of a \$1.17 loss per share from continuing operations and \$0.26 earnings per share from discontinued operations for the nine months ended September 30, 2003. This compares to net earnings of \$79.2, or \$0.21 diluted earnings per share, which is comprised of \$0.15 earnings per share from continuing operations and \$0.05 earnings per share from discontinued operations for the nine months ended September 30, 2002. Net loss in the nine months ended September 30, 2003 includes a pre-tax restructuring charge of \$142.4, a pre-tax long-lived asset impairment charge of \$244.8 related to the fixed assets of the Company's Motorsports business and write-down of goodwill at OWW, a pre-tax investment impairment charge of \$42.2 related to unconsolidated affiliates, primarily international, an accrual for estimated litigation settlement charges of \$127.6 primarily in connection with the shareholder suits related to the restatement of earnings for prior years and a debt prepayment penalty of \$24.8 incurred in retiring the Company's term loans. Net earnings in the first nine months of 2002 includes a pre-tax restructuring charge of \$12.1, a pre-tax impairment charge of \$118.7 related to the long-lived assets of the Company's Motorsports business and a pre-tax investment impairment charge of \$21.1 primarily related to OWW.

REVENUE

Worldwide revenue for the nine months ended September 30, 2003 was \$4,234.0, an increase of \$37.8 or 0.9% from the nine months ended September 30, 2002. Domestic revenue, which represented 57% of revenue in the nine months ended September 30, 2003, increased \$1.1 or 0.0% from the same period in 2002. International revenue, which represented 43% of revenue in the nine months ended September 30, 2003, increased \$36.7 or 2.1% from the same period in 2002. International revenue would have decreased 7.7% excluding the effects of changes in foreign currency. The increase in worldwide revenue was primarily a result of the effects of higher exchange rates offset by continued softness in the demand for advertising and marketing services by current clients due to the weak economy, particularly in international markets. The components of the total revenue change of 0.9% were: impact of foreign currency changes 4.3%, net acquisitions/divestitures (0.2)%, and organic revenue decline (3.2)%. Organic changes in revenue reflect increases or decreases in net new business activity and increases or decreases in activity from existing client accounts.

OPERATING EXPENSES

Salaries And Related Expenses

The Company's expenses related to employee compensation and various employee incentive and benefit programs amount to approximately 60% of revenue for the first nine months ended September 30, 2003. Salaries and related expenses for the nine months ended September 2003 increased \$69.9 or 2.8% to \$2,544.0 compared to the nine months ended September 30, 2002. The increase was primarily due to the effect of higher exchange rates partially offset by a reduction in salary expense resulting from previous headcount reductions and the restructuring program. The Company's headcount was reduced to 43,500 at September 30, 2003 compared with 46,900 at December 31, 2002 and 47,500 at September 30, 2002. The components of the total change of 2.8% were: impact of foreign currency changes 4.3%, net acquisitions/divestitures 0.0% and decreases in salaries and related expenses from existing operations (1.5)%.

Office and General Expenses

Office and general expenses were \$1,392.1 in the nine months ended September 30, 2003 and \$1,328.4 in the nine months ended September 30, 2002, an increase of \$63.7 or 4.8%. The increase in office and general expenses was primarily due to the effects of higher exchange rates, higher professional fees resulting from the litigation and SEC investigation and debt financing costs partially offset by a reduction in occupancy and overhead costs as a result of the restructuring program. The components of the total change of 4.8% were: impact of foreign currency changes 5.3%, net acquisitions/divestitures (1.0)% and increases in office and general expenses from existing operations 0.5%.

Amortization of Intangible Assets

Amortization of intangible assets was \$9.1 in the nine months ended September 30, 2003 compared with \$6.5 in the first nine months of 2002. The increase was primarily due to the amortization of higher identifiable intangible assets resulting from the adoption of SFAS 141 and 142.

same period of 2002. The increase in 2003 is primarily due to the higher cash balances resulting from the issuance of the 4.5% Notes in early April, in addition to the proceeds from the sale of NFO in July.

Other Income

Other income primarily consists of investment income, gains (losses) from the sale of businesses and gains (losses) from the sale of investments, primarily marketable securities classified as available-for-sale. Other income was \$1.3 for the first nine months of 2003 compared with income of \$9.6 for the first nine months of 2002. Investment Impairment

During the nine months ended September 30, 2003, the Company recorded investment impairment charges of \$42.2 primarily relating to certain international investments in unconsolidated affiliates that had been determined to have incurred an "other than temporary" impairment.

During the nine months ended September 30, 2002, the Company recorded investment impairment charges of \$21.1, primarily relating to certain investments of OWW that had been determined to have incurred an "other than temporary" impairment.

Litigation Charges

During the nine months ended September 30, 2003, the Company has recorded litigation charges of \$127.6 for various legal matters, including principally the matters discussed in Note 13. The Company's effective income tax rate for the nine months ended September 30, 2003 was negatively impacted by the restructuring charges, long-lived asset impairment charges and non-deductible investment impairment charges relating to unconsolidated affiliates, as well as the establishment of valuation allowances on certain deferred tax assets in the third quarter of 2003. In addition, the increased tax rate in 2003 reflects losses incurred in non-US jurisdictions with tax benefits at rates lower than the US statutory rates. All of these factors contributed to the Company's recording of a tax provision of \$36.3 on a pre-tax loss of \$392.5 for the nine months ended September 30, 2003.

Valuation allowance

See "Valuation Allowance" in discussion of the three months ended September 30, 2003, above.

Minority Interest

Income applicable to minority interests was \$19.4 in the first nine months of 2003 compared to \$22.1 in the first nine months of 2002. The reduction in the first nine months of 2003 was primarily due to lower operating results of certain operations in Europe partially offset by an increase in minority interest recorded in certain operations in the US.

Unconsolidated Affiliates

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

Equity in net income (loss) of unconsolidated affiliates was a loss of \$(2.2) in the first nine months of 2003 compared to income of \$3.1 in the first nine months of 2002. The reduction is primarily due to the reduced earnings of unconsolidated affiliates in Europe and Brazil.

Restructuring Charges

During the three and nine months ended September 30, 2003, the Company recorded restructuring charges of \$48.0 and \$142.4, respectively, in connection with the 2003 and 2001 restructuring programs as discussed below. During the three months ended September 30, 2002, the Company recorded restructuring charges of \$12.1 in connection with the 2001 restructuring program.

The Company expects that the restructuring charges recorded to date will result in cash payments of \$136.2 to be paid in 2003 (\$101.1), 2004 (\$22.4) and 2005 and thereafter (\$12.7). Further actions in the 2003 restructuring program will be undertaken in the fourth quarter of 2003 and the first half of 2004.

2003 Program

During the second quarter of 2003, the Company announced that it would undertake restructuring initiatives in response to softness in demand for advertising and marketing services. The restructuring initiatives include severance and lease terminations. The total amount of pre-tax charges the Company expects to incur, through the first half of 2004, is up to approximately \$250.0.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Dollars in Millions, Except Per Share Amounts)

During the nine months ended September 30, 2003, the Company recorded pre-tax restructuring charges of \$142.4 (\$95.4 after tax). The pre-tax restructuring charge was composed of severance costs of \$103.4 and lease terminations costs of \$39.0. Included in the \$39.0 of lease termination costs was \$4.8 related to the write-off of leasehold improvements on vacated properties and \$12.4 related to additional losses on properties vacated as part of the 2001 restructuring program. See below for further discussion of the 2001 restructuring program. The charges related to leases terminated as part of the 2003 program are recorded at net present value and are net of estimated sublease income amounts. In addition, a charge of \$9.1 has been incurred in the three months ended September 30, 2003 related to acceleration of amortization of leasehold improvements on premises which are to be vacated in the future. The charge related to such amortization is included in office and general expenses in the accompanying consolidated statement of operations.

A summary of the remaining liability for restructuring charges related to the 2003 restructuring plan is as follows:

	Second Quarter Charges -----	Third Quarter Charges -----	Non-cash Charges -----	2003 Cash Payments -----	En Bala Sep 30, ---
TOTAL BY TYPE					
Severance and termination costs	\$66.0	\$ 37.4	\$1.4	\$54.5

Total	\$82.0	\$ 48.0	\$6.2	\$56.9	
	=====	=====	=====	=====	

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

The severance and termination costs recorded to date relate to a reduction in workforce of approximately 2,200 employees worldwide. The employee groups affected include all levels and functions across the Company: executive, regional and account management and administrative, creative and media production personnel. Approximately 35% of the charge relates to severance in the US, 15% to severance in the UK, 10% to severance in France with the remainder largely relating to the rest of Europe, Asia and Latin America.

Lease termination costs, net of estimated sublease income, relate to the offices that have been or will be vacated as part of the restructuring. Approximately 35 locations are to be vacated with substantially all actions to be completed by March 31, 2004; however, the cash portion of the charge will be paid out over a period of several years. The majority of the offices to be vacated are located in the US, with approximately one third in overseas markets, principally in Europe.

2001 Program

Following the completion of the True North acquisition in June 2001, the Company executed a wide-ranging restructuring plan that included severance, lease terminations and other actions. The total amount of the charges incurred in 2001 in connection with the plan was \$634.5.

A summary of the remaining liability for restructuring and other merger related costs related to the 2001 restructuring plan is as follows:

	Liability at December 31, 2002 -----	2003 Charge -----	Cash paid through September 30, 2003 -----	Liability at September 30, 2003 -----

LONG-LIVED ASSET IMPAIRMENT

During the three and nine months ended September 30, 2003, the Company recorded charges of \$222.7 and \$244.8, respectively, related to the impairment of long-lived assets at OWW and its Motorsports businesses. These amounts include \$1.7 and \$14.4, respectively, of current capital expenditure outlays that the Company is contractually required to spend to upgrade and maintain certain of its existing Motorsports racing facilities, as well as an impairment of assets at other Motorsports entities.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Dollars in Millions, Except Per Share Amounts)

During the third quarter of 2003, the Company performed its annual impairment review for goodwill and other intangible assets and recorded a non-cash charge of \$221.0, which is reflected as a component of "Long-lived asset impairment" in the accompanying consolidated statement of operations. The charge was required

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

to reduce the carrying value of goodwill at the Company's OWW reporting unit. OWW is separate from Motorsports and offers a variety of sports marketing services including athlete representation, TV rights distribution and other marketing and consulting services.

The OWW charges reflect the reporting unit's lower than expected performance in 2003 and revised future projections indicating that the factors behind the poor 2003 performance are likely to persist. Specifically, during 2003 it became apparent that there was significant pricing pressure in both overseas domestic TV rights distribution. Further, declining athlete pay scales are expected to result in significantly lower fees from athlete representation, and proceeds from events (including ticket revenue and sponsorship) to which the Company is committed will be lower than amounts that had been anticipated when the event rights were acquired. Various factors, including the operating loss incurred at OWW in 2003, have indicated that lower revised growth projections are required, reflecting lower projected gross margins than OWW has earned historically.

In 2002, the Motorsports businesses experienced significant operational difficulties, including significantly lower than anticipated attendance at the marquee British Grand Prix race in July 2002. These events and a change in management at Motorsports in the third quarter of 2002 led the Company to begin assessing its long-term strategy for Motorsports. Based on valuations of the Motorsports businesses, the Company determined that the goodwill and the book value of certain asset groupings at Motorsports were significantly higher than their expected future cash flows and that an impairment had occurred.

Accordingly, the Company recognized a non-cash impairment loss and related charge of \$118.7 (\$83.8, net of tax) as of September 30, 2002. The charges included \$82.1 of goodwill impairment, \$24.6 of fixed asset write-offs, and \$12.0 to record the fair value of an associated put option.

DERIVATIVE AND HEDGING INSTRUMENTS

Hedges of Net Investments

On August 15, 2003, the Company repaid approximately \$36.5 in the Yen borrowings under its \$375.0 Five-Year Revolving Credit Facility that had been designated as a hedge of a net investment.

Forward Contracts

As of September 30, 2003, the Company had short-term contracts covering approximately \$7.5 of notional amount of currency. As of September 30, 2003, the fair value of the forward contracts was negligible.

Other

The Company has two embedded derivative instruments under the terms of the 4.5% Convertible Senior Notes due 2023 ("the 4.5% Notes") issued in March 2003. At September 30, 2003, the fair value of these derivatives was negligible.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2003, cash and cash equivalents were \$695.5, a decrease of \$237.5 from the December 31, 2002 balance of \$933.0. The Company collects funds from clients on behalf of media outlets resulting in cash receipts and disbursements at levels substantially exceeding its revenue. Therefore, the working capital amounts reported on its balance sheet and cash flows from operating activities reflect the "pass-through" of these items.

During the third quarter of 2003, the Company filed a universal shelf registration in the amount of \$1,800. The Company intends to act opportunistically in accessing the capital markets as the need for additional funding arises.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Dollars in Millions, Except Per Share Amounts)

Operating Activities

Net cash used in operating activities was \$138.1 for the nine months ended September 30, 2003 and net cash provided by operations was \$241.1 for the nine months ended September 30, 2002, respectively. The increase in cash used for the first nine months of 2003 was primarily attributable to the lower earnings level in 2003 resulting from continued softness in client demand for advertising and marketing communication services and the Company's restructuring program.

Investing Activities

Historically the Company has pursued acquisitions to complement and enhance its service offerings. In addition, the Company has also sought to acquire businesses similar to those already owned to expand its geographic scope to better serve new and existing clients. Acquisitions have historically been funded using stock, cash or a combination of both. Currently, the Company is restricted from making acquisitions or investments by the terms of its Revolving Credit Facilities. See "Financing Activities" for further discussion.

During the first nine months of 2003 and 2002, the Company paid \$194.0 and \$252.2, respectively, in cash for new acquisitions and earn out payments for previous acquisitions including payments for a number of specialized marketing and communications services companies to complement its existing agency systems and to optimally position itself in the ever-broadening communications market place. The reduction in payments in 2003 reflects the Company's reduced level of acquisition activity.

The Company's capital expenditures in the first nine months of 2003 were \$94.2 compared to \$116.6 in the first nine months of 2002. The primary purposes of these expenditures were to upgrade computer and telecommunications systems and to modernize offices. Currently, the Company is restricted in making capital expenditures by the terms of its Revolving Credit Facilities. The Company's permitted level of annual capital expenditures is \$175.0. See "Financing Activities" for further discussion.

Financing Activities

Revolving Credit Agreements

On June 27, 2000, the Company entered into a revolving credit facility with a syndicate of banks providing for a term of five years and for borrowings of up to \$375.0 (the "Five-Year Revolving Credit Facility"). On May 16, 2002, the Company entered into a revolving credit facility with a syndicate of banks providing for a term of 364 days and for borrowings of up to \$500.0 (the "Old 364-Day Revolving Credit Facility"). The Company replaced the Old 364-Day Revolving Credit Facility with a new 364-day revolving credit facility, which it entered into with a syndicate of banks on May 15, 2003 (the "New 364-Day Revolving Credit Facility" and, together with the Five-Year Revolving Credit Facility, the "Revolving Credit Facilities"). The New 364-Day Revolving Credit Facility provides for borrowings of up to \$500.0, \$200.0 of which are available to the Company for the issuance of letters of credit. The New 364-Day Revolving Credit Facility expires on May 13, 2004. However, the Company has the option to extend the maturity of amounts outstanding on the termination date under the New 364-Day Revolving Credit Facility for a period of one year, if EBITDA for the four fiscal quarters most recently ended was at least \$831.0 (for purposes of this EBITDA calculation, only \$125.0 of non-recurring restructuring charges may be added back to EBITDA). The Revolving Credit Facilities are used for general corporate purposes. As of September 30, 2003, \$151.4 was utilized under the New 364-Day Revolving Credit Facility for the issuance of letters of credit and there were no borrowings under the Five-Year Revolving Credit Facility.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

The Revolving Credit Facilities bear interest at variable rates based on either LIBOR or a bank's base rate, at the Company's option. The interest rates on base rate loans and LIBOR loans under the Revolving Credit Facilities are affected by the facilities' utilization levels and the Company's credit ratings. In connection with the New 364-Day Revolving Credit Facility, the Company agreed to new pricing under the Revolving Credit Facilities that increased the interest spread payable on loans by 25 basis points. Based on the Company's current credit ratings, interest rates on loans under the New 364-Day Revolving Credit Facility are currently calculated by adding 175 basis points to either the applicable bank base rate (in the case of base rate loans) or LIBOR (in the case of LIBOR loans), and interest rates on loans under the Five-Year Revolving Credit Facility are currently calculated by adding 170 basis points to these rates.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Dollars in Millions, Except Per Share Amounts)

The Company's Revolving Credit Facilities include financial covenants that set (i) maximum levels of debt as a function of EBITDA, (ii) minimum levels of EBITDA as a function of interest expense and (iii) minimum levels of EBITDA (in each case, as defined in those agreements). In connection with entering into the New 364-Day Revolving Credit Facility, the definition of EBITDA in the Revolving Credit Facilities was amended to include (i) up to \$161.4 of non-cash, non-recurring charges taken in the fiscal year ended December 31, 2002; (ii) up to \$200.0 of non-recurring restructuring charges (up to \$175.0 of which may be cash charges) taken in the fiscal quarters ended March 31, 2003, June 30, 2003 and September 30, 2003; (iii) up to \$70.0 of non-cash, non-recurring charges taken with respect to the impairment of the remaining book value of the Company's Motorsports business; and (iv) all impairment charges taken with respect to capital expenditures made on or after January 1, 2003 with respect to the Company's Motorsports business, and to exclude the gain realized by the Company upon the sale of NFO. The corresponding financial covenant ratio levels in the Revolving Credit Facilities were also amended.

As of September 29, 2003, these additions to the definition of EBITDA were replaced with the following items: (i) up to \$161.4 of non-cash, non-recurring charges taken in the fiscal year ended December 31, 2002; (ii) up to \$275.0 of non-recurring restructuring charges (up to \$240.0 of which may be cash charges) taken in the fiscal quarters ended March 31, 2003, June 30, 2003, September 30, 2003, December 31, 2003 and March 31, 2004; (iii) up to \$70.0 of non-cash, non-recurring charges taken with respect to the impairment of the remaining book value of the Company's Motorsports business; (iv) all impairment charges taken with respect to capital expenditures made on or after January 1, 2003 with respect to the Company's Motorsports business; (v) up to \$300.0 of non-cash, non-recurring goodwill or investment impairment charges taken in the fiscal periods ending September 30, 2003, December 31, 2003, March 31, 2004, June 30, 2004 and September 30, 2004; (vi) up to \$135.0 in payments made by the Company (up to \$40.0 of which may be in cash) with respect to the fiscal periods ending September 30, 2003, December 31, 2003 and March 31, 2004, relating to the settlement of certain litigation matters; (vii) \$24.8 in respect of the early repayment by the Company of all amounts outstanding under each of its five Note Purchase Agreements with The Prudential Insurance Company of America dated as of May 26, 1994, April 28, 1995, October 31, 1996, August 19, 1997 and January 21, 1999, respectively, with respect to the fiscal quarter ending September 30, 2003; and (viii) non-cash charges related to the adoption by the Company of the fair value based method of accounting for stock-based employee compensation in accordance with Statement of Financial Accounting Standards No. 123 and Statement of Financial Accounting Standards No. 148. In determining the Company's compliance with the financial covenants as of September 30, 2003, the

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

following charges were added back to the definition of EBITDA: (i) \$137.0 of restructuring charges (\$122.1 of which were cash charges), (ii) \$9.4 of non-cash charges with respect to the impairment of the remaining book value of the Company's Motorsports business, (iii) \$250.7 of goodwill or investment impairment charges and (iv) \$115.0 of charges (primarily non-cash) relating to certain litigation matters. Since these charges and payments were added back to the definition of EBITDA, they do not affect the ability of the Company to comply with its financial covenants. Any charges incurred by the Company as a result of its restructuring program during periods after March 31, 2004 will not be added back to EBITDA in determining whether the Company is in compliance with its financial covenants.

The definition of EBITDA has been separately amended to give the Company flexibility to settle its commitments under certain leasing and motorsports event contractual arrangements.

The Company paid a fee of 10 basis points on the total commitments under each of the Revolving Credit Facilities in consideration for these amendments to the definition of EBITDA. As of September 30, 2003, the Company was in compliance with all of the covenants (including the financial covenants, as amended) contained in the Five-Year Revolving Credit Facility and the New 364-Day Revolving Credit Facility.

The Company currently expects to be in compliance with both its applicable financial and other covenants in the Revolving Credit Facilities without having to obtain any additional waivers or amendments, except such non-financial covenants as may be necessary in connection with possible capital markets transactions if the Company should choose to enter into such transactions.

The terms of the Revolving Credit Facilities restrict the Company's ability to declare or pay dividends, repurchase shares of common stock, make cash acquisitions or investments and make capital expenditures, as well as the ability of the Company's domestic subsidiaries to incur additional debt. Certain of these limitations were modified upon the Company's issuance on March 13, 2003 of 4.5% Convertible Senior Notes due 2023 (the "4.5% Notes") in an

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Dollars in Millions, Except Per Share Amounts)

aggregate principal amount of \$800.0, from which the Company received net cash proceeds equal to approximately \$778.0. In addition, pursuant to a tender offer that expired on April 4, 2003, the Company purchased \$700.5 in aggregate principal amount at maturity of its Zero-Coupon Convertible Senior Notes due 2021 (the "Zero-Coupon Notes"). As a result of these transactions, the Company's permitted level of annual cash acquisition spending has increased to \$100.0 and the permitted level of annual share buybacks and dividend payments has increased to \$25.0. All limitations on dividend payments and share buybacks expire when earnings before interest, taxes, depreciation and amortization are at least \$1,300.0 for four consecutive quarters. The Company's permitted level of annual capital expenditures is \$175.0.

Uncommitted Facilities

At September 30, 2003 the Company also had \$731.7 of uncommitted lines of credit, 65.1% of which were provided by banks that participate in the Revolving Credit Agreements. At September 30, 2003, approximately \$83.5 was outstanding under these uncommitted lines of credit. The Company's uncommitted borrowings are repayable upon demand.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

Prudential Agreements

On May 26, 1994, April 28, 1995, October 31, 1996, August 19, 1997 and January 21, 1999, the Company entered into five note purchase agreements, respectively, with The Prudential Insurance Company of America (the "Prudential Agreements"). The notes issued pursuant to the Prudential Agreements were repayable on May 2004, April 2005, October 2006, August 2007 and January 2009, respectively, and had interest rates of 10.01%, 9.95%, 9.41%, 9.09% and 8.05%, respectively.

Due to the high interest rates on the notes issued under the Prudential Agreements and the restrictive financial covenants contained in these agreements, the Company repaid the total principal amount and interest outstanding under the Prudential Agreements on August 8, 2003, including a prepayment penalty that resulted in a net charge of approximately \$24.8.

The Prudential Agreements contained the same restrictions on the Company's ability to declare or pay dividends, repurchase shares of common stock, make cash acquisitions or investments and make capital expenditures, as well as the ability of the Company's domestic subsidiaries to incur additional debt, as the new terms of the Revolving Credit Agreements described above.

Other Debt Instruments-- Convertible Senior Notes - 4.5%

In March 2003, the Company completed the issuance and sale of \$800 aggregate principal amount of the 4.5% Notes. In April 2003, the Company used \$581.3 of the net proceeds of this offering to repurchase the Zero-Coupon Notes tendered in its concurrent tender offer and is using the remaining proceeds for the repayment of other indebtedness, general corporate purposes and working capital. The 4.5% Notes are unsecured, senior securities that may be converted into common shares if the price of the Company's common stock reaches a specified threshold, at an initial conversion rate of 80.5153 shares per one thousand dollars principal amount, equal to a conversion price of \$12.42 per share, subject to adjustment. This threshold will initially be 120% of the conversion price and will decline 1/2% each year until it reaches 110% at maturity in 2023.

The 4.5% Notes may also be converted, regardless of the price of the Company's common stock, if: (i) the credit ratings assigned to the 4.5% Notes by any two of Moody's Investors Service, Inc., Standard & Poor's Ratings Services and Fitch Ratings are lower than Ba2, BB and BB, respectively, or the 4.5% Notes are no longer rated by at least two of these ratings services, (ii) the Company calls the 4.5% Notes for redemption, (iii) the Company makes specified distributions to shareholders or (iv) the Company becomes a party to a consolidation, merger or binding share exchange pursuant to which its common stock would be converted into cash or property (other than securities).

The Company, at the investor's option, may be required to redeem the 4.5% Notes for cash on March 15, 2008. The Company may also be required to redeem the 4.5% Notes at the investor's option on March 15, 2013 and March 15, 2018, for cash or common stock or a combination of both, at the Company's election. Additionally, investors may require the Company to redeem the 4.5% Notes in the event of certain change of control events that occur prior to May 15, 2008, for cash or common stock or a combination of both, at the Company's election. The Company at its option may redeem the 4.5% Notes on or after May 15, 2008 for cash. The redemption price in each of these instances will be 100% of the principal amount of the notes being redeemed, plus accrued and unpaid interest, if any.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Dollars in Millions, Except Per Share Amounts)

If at any time on or after March 13, 2003 the Company pays cash dividends on its

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

common stock, the Company will pay contingent interest per 4.5% Note in an amount equal to 100% of the per share cash dividend paid on the common stock multiplied by the number of shares of common stock issuable upon conversion of a 4.5% Note.

Other

On March 7, 2003, Standard & Poor's Ratings Services downgraded the Company's senior secured credit rating to BB+ with negative outlook from BBB-. On May 14, 2003, Fitch Ratings downgraded the Company's senior unsecured credit rating to BB+ with negative outlook from BBB-. The remaining senior unsecured credit rating is Baa3 with stable outlook; however, as reported by Moody's Investors Services, Inc., on May 8, 2003, this rating was placed on review for possible downgrade.

Since July 2001, the Company has not repurchased its common stock in the open market.

Through December 2002, the Company had paid cash dividends quarterly with the most recent quarterly dividend paid in December 2002 at a rate of \$0.095 per share. The determination of dividend payments is made by the Company's Board of Directors on a quarterly basis. However, as previously discussed, the Company's ability to declare or pay dividends is currently restricted by new terms of its Revolving Credit Facilities, and the Company has not declared or paid a dividend in 2003.

The Company believes that cash flow from operations and proceeds from the sale of NFO, together with its availability under existing lines of credit and expected refinancings thereof and cash on hand, will be sufficient to fund the Company's working capital needs (including disbursements related to its ongoing restructuring program) and other obligations for the next twelve months. If additional funds are required to meet the Company's operating activities and to execute on its long term business strategy the Company believes it will have sufficient resources, including borrowing capacity and access to capital markets. However, there can be no assurance such additional funding will be available to the Company on terms it considers favorable, if at all. Unanticipated decreases in cash flow from operations as a result of decreased demand for our services and other developments may require the Company to seek other sources of liquidity (including the disposition of certain assets) and modify its operating strategies.

In October 2003, the Company received a federal tax refund of approximately \$90 as a result of its carryback of its 2002 loss for US federal income tax purposes, and certain capital losses, to earlier periods.

Acquisitions, Dispositions and Deferred Payments

Acquisitions

During the first nine months of 2003, the Company completed two acquisitions for \$4.0 in cash. Additionally, the Company paid \$45.2 in cash and \$4.6 in stock for additional ownership interests in companies in which a previous investment had been made.

During the first nine months of 2002, the Company completed nine acquisitions for \$48.9 in cash and \$1.1 in stock. Additionally, the Company paid \$30.6 in cash and \$10.4 in stock for additional ownership interests in companies in which a previous investment had been made.

Deferred Payments

During the first nine months of 2003, the Company paid \$126.2 in cash and \$45.7 in stock as deferred payments on acquisitions that had closed in prior years. During the first nine months of 2002, the Company paid \$166.9 in cash and \$56.7 in stock as deferred payments on acquisitions that had closed in prior years.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

Deferred payments (or "earn-outs") generally tie the aggregate price ultimately paid for an acquisition to its performance and are recorded as an increase to goodwill and other intangibles.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Dollars in Millions, Except Per Share Amounts)

As of September 30, 2003, the Company's estimated liability for earn-outs, including less than majority-owned affiliates, is as follows:

	2003	2004	2005	2006 and thereafter	Total
Cash	\$35.9	\$76.4	\$43.7	\$23.4	\$179.4
Stock	6.6	13.1	18.9	8.3	46.9
	-----	-----	-----	-----	-----
TOTAL	\$42.5	\$89.5	\$62.6	\$31.7	\$226.3
	=====	=====	=====	=====	=====

The amounts above are estimates based on the current projections as to the amount that will be paid and are subject to revisions as the earn-out periods progress.

Put and Call Options

In addition to the estimated liability for earn-outs, the Company has entered into agreements that require the Company to purchase additional equity interests in certain companies (put options). In many cases, the Company also has the option to purchase the additional equity interests (call options) in certain circumstances.

The total estimated amount of potential payments under put options is \$142.9, of which \$6.5 is payable in stock. Exercise of the put options would require cash payments to be made as follows:

2003	\$17.4
2004	\$30.7
2005	\$39.7
2006 and thereafter	\$48.6

The actual amount to be paid is contingent upon the achievement of projected operating performance targets and the satisfaction of other conditions as specified in the relevant agreement.

The Company also has call options to acquire additional equity interests in companies in which it already has an ownership interest. The total estimated amount of potential payments under call options is \$99.2, of which \$2.4 is payable in stock. Exercise of the call options would require cash payments to be made as follows:

2003	\$13.8
2004	\$ 6.5
2005	\$12.6
2006 and thereafter	\$63.9

The actual amount to be paid is contingent upon the achievement of projected operating performance targets and the satisfaction of other conditions as specified in the relevant agreement.

Other Payments

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

During the first nine months of 2003, the Company paid \$19.1 in cash and \$0.1 in stock to settle, principally, loan notes and guarantees that have been previously recognized on the balance sheet. During the first nine months of 2002, \$11.6 in cash was paid for such items.

Dispositions

On July 10, 2003, the Company completed the sale of NFO to TNS. The consideration for the sale was \$415.6 in cash and approximately 11.7 million ordinary shares of TNS valued, for gain calculation purposes, at approximately \$29. (The approximate market value of the shares on November 10, 2003 was \$42.8. The Company has agreed, subject to specified conditions, to hold half of the TNS shares until at least December 2003 and the remainder until at least March 2004. TNS will pay the Company an additional \$10 in cash approximately one year following the closing of this divestiture contingent on the market price per TNS ordinary share continuing to exceed 146 pence (equivalent to approximately \$2.45 at current exchange rates) during a specified averaging period one year from closing. The portion of the consideration consisting of ordinary shares of TNS will be admitted for trading on the London Stock Exchange. As a result of this sale, the Company recognized a pre-tax gain of \$99.1 (\$89.1 net of tax) in the third quarter, after certain post closing adjustments.

THE INTERPUBLIC GROUP OF COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Dollars in Millions, Except Per Share Amounts)

The results of NFO are classified as discontinued operations in accordance with SFAS 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" and, accordingly, the results of operations and cash flows of NFO have been removed from the Company's results of continuing operations and cash flows for all periods presented in this document.

OTHER MATTERS

New Accounting Standards

In December 2002, SFAS 148, "Accounting for Stock-Based Compensation --- Transition and Disclosure (an Amendment of SFAS 123)" ("SFAS 148") was issued. SFAS 148 provides alternative methods of transition for making a voluntary change to fair value-based accounting for stock-based compensation. The Company continues to account for its stock option plans under the intrinsic value recognition and measurement principles of APB 25, "Accounting for Stock Issued to Employees" and related interpretations. Effective for interim periods beginning after December 15, 2002, SFAS 148 also requires disclosure of pro forma results on a quarterly basis as if the Company had applied the fair value recognition provisions of SFAS No. 123. This disclosure requirement did not have an impact on our consolidated results of operations or financial position. The FASB recently indicated that they will issue a new accounting standard that will require stock-based employee compensation to be recorded as a charge to earnings.

During 2003, FIN 46, "Consolidation of Variable Interest Entities - An Interpretation of ARB No. 51" ("FIN 46") was issued. FIN 46 addresses the consolidation by business enterprises of variable interest entities, as defined in FIN 46 and is based on the concept that companies that control another entity through interests other than voting interests should consolidate the controlled entity. The consolidation requirements apply immediately to FIN 46 interests held in variable interest entities created after January 31, 2003 and to interests held in variable interest entities that existed prior to February 1, 2003 and remain in existence as of July 1, 2003. On October 9, 2003, the FASB released FASB Staff Position 46-6, which deferred the effective date for the consolidation guidance of FIN 46 from July 1, 2003 to December 31, 2003 for

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form 10-Q/A

variable interest entities existing prior to February 1, 2003. Pursuant to the transition requirements of FSP 46-6, the Company will adopt the consolidation guidance as of December 31, 2003. As a result of the emerging interpretations of and amendments to FIN 46, the Company is continuing to evaluate the impact of FIN 46 and its related guidance. Their application, however, is not expected to have an impact on, or result in additional disclosure in, the Company's consolidated results of operations or financial position.

During 2003, SFAS 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS 150") was issued. SFAS 150 establishes standards for classification and measurement of certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in certain cases). The provisions of SFAS 150 are effective for instruments entered into or modified after May 31, 2003 and pre-existing instruments as of July 1, 2003. On October 29, 2003, the FASB voted to indefinitely defer the effective date of SFAS 150 for mandatorily redeemable instruments as they relate to minority interests in consolidated finite-lived entities through the issuance of FASB Staff Position 150-3. The standard was adopted effective the third quarter of 2003, as modified by FSP 150-3, and did not have a material impact on its consolidated results of operations or financial position.

In April 2003, SFAS 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS 149") was issued. SFAS 149 amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement No. 133 ("SFAS 133"), "Accounting for Derivative Instruments and Hedging Activities". This statement is effective for contracts entered into or modified after June 30, 2003. The adoption of this statement did not have a material impact on the Company's consolidated financial statements.

SEC Investigation

The Company was informed in January 2003 by the Securities and Exchange Commission staff that the SEC has issued a formal order of investigation related to the Company's restatements of earnings for periods dating back to 1997. The matters had previously been the subject of an informal inquiry. The Company is cooperating fully with the investigation.

Other Contingencies

The Company continues to have commitments under certain leasing and motorsports event contractual arrangements. As of September 30, 2003, the Company is committed to remaining payments under these arrangements of approximately \$460. This amount relates to undiscounted payments through 2015 principally under an executory contract and an operating lease and assumes payments over the maximum remaining term of the relevant agreements. This obligation has not been reduced by any future operating results to be generated from the arrangements. The Company is continuing to explore various options with respect to these commitments, at least one of which may involve a cash payment. The Company has obtained amendments of certain definitions contained in its Revolving Credit Agreements (as discussed in Note 11) to give it flexibility to settle these commitments. Additionally, the book value of long-lived assets relating to Motorsports is approximately \$60 at September 30, 2003 and this amount may not be fully recoverable depending upon the exit strategy ultimately followed.
