AMVESCAP to Acquire PowerShares Capital Management
Family of 36 ETFs to be Distributed by AIM Investments
Initial Purchase Price of \$60 million for 100% of Fully Diluted Equity

Atlanta, GA--January 23, 2006-- AMVESCAP PLC today announced it has signed a definitive agreement to acquire PowerShares Capital Management LLC, a leading provider of exchange-traded funds (ETFs). PowerShares, based in Wheaton, IL, currently manages more than \$3.5 billion in assets in a family of 36 different ETFs. The initial purchase price of \$60 million is payable at closing for 100% of the fully diluted equity of PowerShares Capital Management. Subsequent earn-out provisions for the business are described in the transaction summary below. The transaction, subject to certain conditions including approvals from the Board of Directors and the shareholders of PowerShares' ETFs, is expected to close in the second or third quarters of 2006.

"The addition of PowerShares ETFs is a natural extension of our core mission to provide a broad range of investment management solutions to our diverse clients across the globe," said Marty Flanagan, president and chief executive officer of AMVESCAP. "Our combination with PowerShares, one of the fastest-growing companies in today's financial marketplace, immediately establishes AMVESCAP as a significant emerging player in exchange-traded funds. PowerShares ETFs and our broad range of actively managed investment products will provide our clients with one of the industry's most robust and comprehensive product lines."

"PowerShares ETFs and the AIM mutual funds will serve as complementary investment solutions for investors and their advisors," said Mark Williamson, president and chief executive officer of AIM Investments. AIM expects to begin distribution of PowerShares ETFs following completion of certain required regulatory steps. "We are very excited about the possibilities PowerShares products will provide our customers and are very proud to be at the forefront in bringing this unique combination of investment opportunities for advisors to use in intelligent portfolio construction for their clients."

ETFs represent one of the most compelling growth opportunities today in the asset management sector with recent annual growth far in excess of that experienced by most other asset management products. Since their inception in 1993, ETFs in the United States have grown to \$289 billion (as of November 30, 2005) according to the Investment Company Institute.

"AMVESCAP is an outstanding organization and an excellent fit for PowerShares. We are very excited about our future together," said H. Bruce Bond, president and chief executive officer of PowerShares Capital Management. "This is a very important event for investors because, for the first time, a leading investment management company with tremendous institutional and retail distribution capabilities is embracing ETFs. I believe the result will be a tremendous opportunity for PowerShares, AMVESCAP, and our clients."

An ETF is an investment company with shares that trade intraday on stock exchanges at market-determined prices. Investors may buy or sell ETF shares through a broker or in a brokerage account, just as they would the shares of any listed publicly traded company.

"PowerShares ETFs are distinctive in the marketplace in that they are based on intelligent investment indexes, which seek to select the stocks with the

Edgar Filing: AMVESCAP PLC/LONDON/ - Form 6-K

greatest investment merit within a specified universe," said John Southard, managing director of PowerShares. "This approach is very different from that of market-weighted benchmark indexes, which simply seek to be barometers of stock groups without regard to the investment value of the underlying securities."

AMVESCAP PLC obtained financial advice regarding the transaction from De Guardiola Advisors and Merrill Lynch & Co. A.G. Edwards served as financial advisor to PowerShares Capital Management LLC.

Transaction summary:

- |X| \$60 million payable in cash at closing for 100% of the fully-diluted equity
- |X| First Contingent Payment
- |X| \$40 million, payable in cash when management fees (as defined in the acquisition agreement) for any 30-day period total \$17.5mm on an annualized basis
- |X| Second Contingent Payment
- |X| \$130 million payable when aggregate management fees total \$50 million or more in any consecutive 12 month period in Years 1-4
- |X| Third Contingent Payment
- |X| Calculated at the end of Year 5 based on compound annual growth in management fees from an assumed base of \$17.5 million at closing; Year 5 management fees reduced by \$50million if Second Contingent Payment is earned
- |X| For a compound annual growth rate (CAGR) in Year 5 between 15% and 75%, \$5 million for each CAGR point above 15%, for a maximum payment of \$300 million for a 75% CAGR
- |X| For a CAGR in Year 5 between 75% and 100%, \$300 million, plus an additional \$8 million for each CAGR point above 75%, for a maximum total payment of \$500 million for a 100% CAGR
- |X| The transaction is expected to be neutral to slightly accretive to earnings in 2006
- |X| At AMVESCAP's option, up to 35% of the Second and Third Contingent payments are payable in AVZ stock
