Income Trust

SEMIANNUAL REPORT ON PERFORMANCE AND OUTLOOK

3-31-02

[SCALE LOGO OMITTED]

FROM THE TRUSTEES

[GRAPHIC OMITTED: PHOTO OF JOHN A. HILL AND GEORGE PUTNAM III]

Dear Fellow Shareholder:

Given the dramatic events that aggravated an already troubled economic environment, it is encouraging to report that Putnam Master Intermediate Income Trust closed the first half of fiscal 2002 with a slight gain. On the following pages, your management team's report will provide a full discussion of the reasons behind these results.

The team's report will also afford you a good understanding of what has been driving your fund's performance as well as offer its view of the outlook for fiscal 2003. Since the economic recovery is likely to be gradual, we counsel patience as you view your fund's progress in the months ahead.

As you read this report, you may notice that we are now listing the team that manages your fund. We do this to reflect more accurately how your fund is managed as well as Putnam's firm belief in the value of team management. The individuals who comprise the management team are shown at the end of Management's discussion of performance.

We know that Putnam Investments values its relationship with you and its other shareholders and appreciates your loyalty during these times of restructuring of staff and products in the pursuit of superior investment performance for the future.

Respectfully yours,

/S/ JOHN A. HILL

/S/ GEORGE PUTNAM, III

John A. Hill  
Chairman of the Trustees  
May 8, 2002

George Putnam, III  
President of the Funds

REPORT FROM FUND MANAGEMENT

This fund is managed by the Putnam Core Fixed-Income Team

Thanks to positions in high-yield and emerging-market bonds, which benefited from increased optimism about economic recovery, Putnam Master Intermediate Income Trust generated a solid return at net asset value for the six months ended March 31, 2002, while its stronger return at market value reflected strong investor enthusiasm for fixed-income investments. Your fund outperformed its benchmark, the Lehman

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

Intermediate Government Credit Index, as well as an additional comparative index, the Salomon Smith Barney Non-U.S. World Government Bond Index. However, your fund underperformed the CSFB High Yield Index, primarily because the fund does not invest solely in high-yield bonds (all based on performance at net asset value). The primary reason for the fund's generally strong relative performance was its high-yield and emerging-market emphasis.

Total return for 6 months ended 3/31/02

NAV	Market price
5.16%	5.74%

Past performance does not indicate future results. Performance based on market prices for the shares will vary from performance based on the portfolio's net asset value. Performance information for longer periods begins on page 6.

### \* INVESTORS FAVORED HIGHER-YIELDING BONDS AMID SIGNS OF RECOVERY

The fixed-income markets have been volatile in the past six months, due to changing economic expectations, equity market volatility, and geopolitical turmoil. As the fourth quarter of 2001 began, investors were still jittery in the wake of the terrorist attacks but a series of encouraging economic reports sparked a major shift in investor sentiment towards the end of the year. Overcoming their risk aversion, investors sold off investment-grade bonds and reallocated funds into riskier asset classes, such as equities and high-yield bonds. Meanwhile, emerging-market bonds performed well despite Argentina's default. As with the U.S., international bonds in developed markets lost steam toward the end of 2001, as positive economic data suggested that the fourth quarter of 2001 might represent the bottom of the current recession cycle, causing interest rates to begin moving upward in 2002.

### TOP FIVE COUNTRY ALLOCATIONS (INTERNATIONAL SECTOR)\*

Germany	5.2%
Russia	3.5%
Brazil	3.0%
Mexico	2.4%
Canada	2.2%

Footnote reads:

\*Based on net assets as of 3/31/02. Holdings will vary over time.

However, central banks remained cautious and continued to lower interest rates through the end of 2001. The Federal Reserve Board cut rates three times during the period, leaving the Fed funds rate at a 40-year low of 1.75%. As a result, the yield curve continued to steepen, as yields on short-term bonds declined as a result of the Fed's rate cuts.

Just as the overall market began to embrace the idea of an economic

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

turnaround at the start of 2002, a new bout of investor risk aversion took hold in response to the bankruptcy of Enron. Questionable corporate accounting practices and credit concerns following the Enron collapse resulted in solid performance for the higher-quality bond sectors. However, increasingly robust economic data in January and February once again turned investors' attention toward the prospect of a strong economic rebound. In response, the investment-grade sector saw a sharp sell-off during March, with expectations that the Fed, having left interest rates unchanged at its January meeting, was positioning itself for a possible rate increase later this year. High-yield bonds, however, were buoyed by the improvement in investor sentiment and evidence of economic growth.

International bond markets, pressured by signs of a global economic recovery that could lead to higher interest rates, advanced only modestly. However, the improved economic outlook, rising oil prices, and attractive valuations of emerging-market bonds boosted returns in this sector. These events continue to underscore the value of diversifying across the different sectors of the fixed-income universe, as your fund has always been designed to do.

### \* HIGHER-QUALITY SECTORS LAGGED HIGH-YIELD POSITIONS

The fund's emphasis on high yield, the strongest-performing sector for the semiannual period, benefited its performance overall. Within the fund's investment-grade holdings, our exposure to U.S. government bonds dampened performance somewhat, while positions in mortgage-backed securities made a positive contribution. With the end of the Federal Reserve's easing cycle, higher-quality bonds have become much more sensitive to a potential increase in interest rates, which is typically the case after a long easing cycle. As reports on the economy through the first quarter of 2002 indicated that stronger growth was occurring, interest rates rose and prices for higher-quality bonds, were negatively affected. Your fund's focus on shorter-maturity issues was a positive for performance, as interest rates rose and these issues performed better than longer-term securities.

### Fund Profile

Putnam Master Intermediate Income Trust seeks high current income and relative stability by investing in the intermediate-maturity, investment-grade, and high-yield bond sectors, as well as in foreign bond markets. The fund's diversification among these markets and sectors is designed to provide more stable returns over time. The fund is designed for investors seeking high current income, asset class diversification, or both.

Strong performance from the fund's holdings of emerging-market bonds boosted performance. In particular, positions in Russia, Mexico, and Brazil and the avoidance of Argentina were positive for the fund's performance. Bonds in the international developed markets had a mixed impact on results. The U.S. dollar strengthened against most of the major foreign currencies, which was a negative factor for the international sector.

### \* A MODEST RECOVERY APPEARED UNDERWAY AT END OF PERIOD

The recession appears to have been much milder than both economists and investors thought it would be. A modest recovery is under way, due in large part to the deep tax and interest-rate cuts in 2001. Also, significant reductions in corporate inventories led to robust growth during the first quarter as companies restocked. However, we believe

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

that growth in the second half of 2002 will be more moderate. Consumer spending should remain solid this year, although there is more uncertainty around business investments.

[GRAPHIC OMITTED: TOP THREE HOLDINGS PER SECTOR]

### TOP THREE HOLDINGS PER SECTOR

#### HIGH-YIELD BONDS

Allied Waste Industries, Inc.,  
company guaranty Series B, 10%, 2009

Hanvit Bank 144A  
sub. notes, 11.75%, 2010 (South Korea)

Echostar Broadband Corp.,  
Senior notes, 10.375%, 2007

#### FOREIGN BONDS

Germany (Federal Republic of)  
bonds, Series 95, 7.375%, 2005

Brazil (Federal Republic of)  
government guaranty, FRB, 3.25%, 2012

United Mexican States  
notes, Series A, 9.875%, 2010

#### U.S. INVESTMENT-GRADE SECURITIES

Federal National Mortgage Association,  
pass-through certificates, 7.25%,  
January 15, 2010

3.5%, November 15, 2006

Federal National Mortgage Association  
pass-through certificates, 6.5%, with  
due dates from August 1, 2010, to  
February 1, 2032.

#### Footnote reads:

These holdings represent 22.3% of the fund's net assets as of 3/31/02.  
Portfolio holdings will vary over time.

We are expecting that inflation will remain low, which should keep the Fed from raising interest rates at least until the end of summer. We will continue to monitor these developments closely, and, as always, focus on securities with positive fundamentals and attractive valuations.

We remain cautiously optimistic on the high-yield market, which appears poised for solid performance in a recovering economic environment. Other positive factors for high-yield bonds include strong demand and manageable supply, an emphasis by companies on reducing debt, and evidence that default rates are beginning to decline. In the short term, the market may be susceptible to any signs of economic weakness, so we

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

will proceed with caution.

We also remain positive on the mortgage-backed sector, as it continues to offer attractive valuations relative to Treasuries.

Finally, we continue to find value in the international developed bond markets, while we are neutral toward emerging-market bonds. These securities remain attractive, as continued strong demand and evidence of a global economic recovery are offsetting the negative impact of specific countries.

The views expressed here are exclusively those of Putnam Management. They are not meant as investment advice. Although the described holdings were viewed favorably as of 3/31/02, there is no guarantee the fund will continue to hold these securities in the future. International investing involves certain risks, such as currency fluctuations, economic instability, and political developments. Lower-rated bonds may offer higher yields in return for more risk. Government securities guarantee principal and interest; mutual funds that invest in these securities are not guaranteed. Mortgage-backed securities are subject to prepayment risk.

This fund is managed by the Putnam Core Fixed-Income Team. The members of this team are Kevin Cronin, Rob Bloemker, Andrea Burke, Joanne Driscoll, D. William Kohli, Krishna Memani, James Prusko, and David Waldman.

### PERFORMANCE SUMMARY

This section provides information about your fund's performance, which should always be considered in light of its investment strategy.

### TERMS AND DEFINITIONS

Total return shows how the value of the fund's shares changed over time, assuming you held the shares through the entire period and reinvested all distributions in the fund.

Net asset value (NAV) is the value of all your fund's assets, minus any liabilities, divided by the number of outstanding common shares.

Market price is the current trading price of one share of the fund. Market prices are set by transactions between buyers and sellers on the New York Stock Exchange.

### COMPARATIVE BENCHMARKS

Lehman Intermediate Government Credit Index\* is an unmanaged index of government bonds with maturities between 1 and 10 years.

Salomon Smith Barney Non-U.S. World Government Bond Index\* is an unmanaged index of government bonds from 10 countries.

Credit Suisse First Boston (CSFB) High Yield Index\* is an unmanaged index of high-yield debt securities.

Consumer price index (CPI) is a commonly used measure of inflation; it does not represent an investment return.

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

Lipper Inc. is a third-party industry ranking entity that ranks funds (without sales charges) with similar current investment styles or objectives as determined by Lipper.

\*Indexes assume reinvestment of all distributions and do not account for fees. Securities and performance of a fund and an index will differ. You cannot invest directly in an index.

### A NOTE ABOUT DUPLICATE MAILINGS

In response to investors' requests, the SEC has modified mailing regulations for proxy statements, semiannual and annual reports, and prospectuses. Putnam is now able to send a single copy of these materials to customers who share the same address. This change will automatically apply to all shareholders except those who notify us. If you would prefer to receive your own copy, please call Putnam at 1-800-225-1581.

### A GUIDE TO THE FINANCIAL STATEMENTS

These sections of the report, as well as the accompanying Notes, constitute the fund's financial statements.

The fund's portfolio lists all the fund's investments and their values as of the last day of the reporting period. Holdings are organized by asset type and industry sector, country, or state to show areas of concentration and diversification.

Statement of assets and liabilities shows how the fund's net assets and share price are determined. All investment and noninvestment assets are added together. Any unpaid expenses and other liabilities are subtracted from this total. The result is divided by the number of shares to determine the net asset value per share, which is calculated separately for each class of shares. (For funds with preferred shares, the amount subtracted from total assets includes the net assets allocated to remarketed preferred shares.)

Statement of operations shows the fund's net investment gain or loss. This is done by first adding up all the fund's earnings -- from dividends and interest income -- and subtracting its operating expenses to determine net investment income (or loss). Then, any net gain or loss the fund realized on the sales of its holdings -- as well as any unrealized gains or losses over the period -- is added to or subtracted from the net investment result to determine the fund's net gain or loss for the fiscal period.

Statement of changes in net assets shows how the fund's net assets were affected by distributions to shareholders and by changes in the number of the fund's shares. It lists distributions and their sources (net investment income or realized capital gains) over the current reporting period and the most recent fiscal year-end. The distributions listed here may not match the sources listed in the Statement of operations because the distributions are determined on a tax basis and may be paid in a different period from the one in which they were earned.

Financial highlights provide an overview of the fund's investment results, per-share distributions, expense ratios, net investment income ratios, and portfolio turnover in one summary table, reflecting the five most recent reporting periods. In a semiannual report, the highlight table also includes the current reporting period. For open-end funds, a separate table

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

is provided for each share class.

SHORT-TERM INVESTMENTS (4.6%) (a)  
PRINCIPAL AMOUNT

---

\$	970,000 U.S. Treasury Notes zero %, June 13, 2002 (SEG)
	12,191 Short-term investments held as collateral for loaned securities with yields ranging from 1.80% to 2.19% and due dates ranging from April 1, 2002 to May 13, 2002 (d)
	29,646,000 Interest in \$715,000,000 joint tri-party repurchase agreement dated March 28, 2002 with Goldman Sachs & Co. due April 1, 2002 with respect to various U.S. Government obligations -- maturity value of \$29,652,325 for an effective yield of 1.92%
	Total Short-Term Investments (cost \$30,624,804)
	Total Investments (cost \$728,381,911) (b)

---

(a) Percentages indicated are based on net assets of \$659,748,443.

(b) The aggregate identified cost on a tax basis is \$731,358,719, resulting in gross unrealized appreciation and depreciation of \$24,562,495 and \$78,019,236, respectively, or net unrealized depreciation of \$53,456,741.

(NON) Non-income-producing security.

(STP) The interest rate and date shown parenthetically represent the new interest rate to be paid and the date the fund will begin accruing interest at this rate.

(RES) Restricted, excluding 144A securities, as to public resale. The total market value of restricted securities held at March 31, 2002 was \$19,632,682 or 3.0% of net assets.

(DEF) Security is in default of principal and interest.

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

- (PIK) Income may be received in cash or additional securities at the discretion of the issuer.
- (SEG) This security was pledged and segregated with the custodian to cover margin requirements for futures contracts at March 31, 2002.
- (R) Real Estate Investment Trust.
- (d) See footnote 1 to the financial statements.

144A after the name of a security represents those exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

The rates shown on Floating Rate Bonds (FRB) and Floating Rate Notes (FRN) are the current interest rates shown at March 31, 2002, which are subject to change based on the terms of the security.

NOTES TO FINANCIAL STATEMENTS  
March 31, 2002 (Unaudited)

Note 1  
Significant accounting policies

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

Putnam Master Intermediate Income Trust (the "fund") is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company and is authorized to issue an unlimited number of shares. The fund's investment objective is to seek, with equal emphasis, high current income and relative stability of net asset value, by allocating its investments among the U.S. investment grade sector, high-yield sector and international sector.

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

A) Security valuation Investments for which market quotations are readily available are stated at market value, which is determined using the last reported sales price on its principal exchange, or if no sales are reported -- as in the case of some securities traded over-the-counter -- the last reported bid price. Securities quoted in foreign currencies are translated into U.S. dollars at the current exchange rate. Short-term investments having remaining maturities of 60 days or less are stated at amortized cost, which approximates market value. Other investments, including restricted securities, are stated at fair value following procedures approved by the Trustees. Market quotations are not considered to be readily available for certain debt obligations; such investments are stated at fair value on the basis of valuations furnished by an independent pricing service or dealers, approved by the Trustees, which determine valuations for normal institutional-size trading units of such securities using methods based on market transactions for comparable securities and variable relationships, generally recognized by institutional traders, between securities.

B) Joint trading account The fund may transfer uninvested cash balances, including cash collateral received under security lending arrangements, into a joint trading account along with the cash of other registered investment companies and certain other accounts managed by Putnam Investment Management, LLC ("Putnam Management"), the fund's manager, an indirect wholly-owned subsidiary of Putnam, LLC. These balances may be invested in one or more repurchase agreements and/or short-term money market instruments.

C) Repurchase agreements The fund, or any joint trading account, through its custodian, receives delivery of the underlying securities, the market value of which at the time of purchase is required to be in an amount at least equal to the resale price, including accrued interest. Collateral for certain tri-party repurchase agreements is held at the counterparty's custodian in a segregated account for the benefit of the fund and the counterparty. Putnam Management is responsible for determining that the value of these underlying securities is at all times at least equal to the resale price, including accrued interest.

D) Security transactions and related investment income Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Gains or losses on securities sold are determined on the identified cost basis.

Interest income is recorded on the accrual basis. Dividend income is

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

recorded on the ex-dividend date. Non-cash dividends, if any, are recorded at the fair market value of the securities received. All premiums/discounts are amortized /accreted on a yield-to-maturity basis.

E) Foreign currency translation The accounting records of the fund are maintained in U.S. dollars. The market value of foreign securities, currency holdings, and other assets and liabilities are recorded in the books and records of the fund after translation to U.S. dollars based on the exchange rates on that day. The cost of each security is determined using historical exchange rates. Income and withholding taxes are translated at prevailing exchange rates when accrued or incurred. The fund does not isolate that portion of realized or unrealized gains or losses resulting from changes in the foreign exchange rate on investments from fluctuations arising from changes in the market prices of the securities. Such gains and losses are included with the net realized and unrealized gain or loss on investments. Net realized gains and losses on foreign currency transactions represent net realized exchange gains or losses on closed forward currency contracts, disposition of foreign currencies and the difference between the amount of investment income and foreign withholding taxes recorded on the fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized appreciation and depreciation of assets and liabilities in foreign currencies arise from changes in the value of open forward currency contracts and assets and liabilities other than investments at the period end, resulting from changes in the exchange rate. Investments in foreign securities involve certain risks, including those related to economic instability, unfavorable political developments, and currency fluctuations, not present with domestic investments.

F) Forward currency contracts The fund may engage in forward currency contracts, which are agreements between two parties to buy and sell currencies at a set price on a future date. These contracts are used to protect against a decline in value relative to the U.S. dollar of the currencies in which its portfolio securities are denominated or quoted (or an increase in the value of a currency in which securities a fund intends to buy are denominated, when a fund holds cash reserves and short-term investments). The U.S. dollar value of forward currency contracts is determined using current forward currency exchange rates supplied by a quotation service. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is "marked-to-market" daily and the change in market value is recorded as an unrealized gain or loss. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The fund could be exposed to risk if the value of the currency changes unfavorably, if the counterparties to the contracts are unable to meet the terms of their contracts or if the fund is unable to enter into a closing position.

G) Futures and options contracts The fund may use futures and options contracts to hedge against changes in the values of securities the fund owns or expects to purchase. The fund may also write options on securities it owns or in which it may invest to increase its current returns.

The potential risk to the fund is that the change in value of futures and options contracts may not correspond to the change in value of the hedged instruments. In addition, losses may arise from changes in the value of the underlying instruments, if there is an illiquid secondary market for the contracts, or if the counterparty to the contract is unable to perform. When the contract is closed, the fund records a

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Realized gains and losses on purchased options are included in realized gains and losses on investment securities.

Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade. The Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin". Exchange traded options are valued at the last sale price, or if no sales are reported, the last bid price for purchased options and the last ask price for written options. Options traded over-the-counter are valued using prices supplied by dealers.

H) Interest rate swap contracts The fund may engage in interest rate swap agreements, which are arrangements between two parties to exchange cash flows based on a notional principal amount. The fund may enter into interest rate swap agreements, to manage the funds exposure to interest rates. Interest rate swaps are marked to market daily based upon quotations from market makers and the change, if any, is recorded as unrealized gain or loss. Payments made or received are included as part of interest income. Payments received or made upon early termination are recorded as realized gain or loss. The fund could be exposed to credit or market risk due to unfavorable changes in the fluctuation of interest rates or that the counterparty may default on its obligation to perform.

I) TBA purchase commitments The fund may enter into "TBA" (to be announced) purchase commitments to purchase securities for a fixed unit price at a future date beyond customary settlement time. Although the unit price has been established, the principal value has not been finalized. However, the amount of the commitments will not fluctuate more than .01% from the principal amount. The fund holds, and maintains until settlement date, cash or high-grade debt obligations in an amount sufficient to meet the purchase price, or the fund may enter into offsetting contracts for the forward sale of other securities it owns. Income on the securities will not be earned until settlement date. TBA purchase commitments may be considered securities in themselves, and involve a risk of loss if the value of the security to be purchased declines prior to the settlement date, which risk is in addition to the risk of decline in the value of the fund's other assets. Unsettled TBA purchase commitments are valued at the current market value of the underlying securities, according to the procedures described under "Security valuation" above.

Although the fund will generally enter into TBA purchase commitments with the intention of acquiring securities for their portfolio or for delivery pursuant to options contracts it has entered into, the fund may dispose of a commitment prior to settlement if Putnam Management deems it appropriate to do so.

J) TBA sale commitments The fund may enter into TBA sale commitments to hedge its portfolio positions or to sell mortgage-backed securities it owns under delayed delivery arrangements. Proceeds of TBA sale commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment deliverable on or before the sale commitment date, are held as "cover" for the transaction.

Unsettled TBA sale commitments are valued at the current market value of the underlying securities, generally according to the procedures

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

described under "Security valuation" above. The contract is "marked-to-market" daily and the change in market value is recorded by the fund as an unrealized gain or loss. If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the fund realizes a gain or loss. If the fund delivers securities under the commitment, the fund realizes a gain or a loss from the sale of the securities based upon the unit price established at the date the commitment was entered into.

K) Security lending The fund may lend securities, through its agent Citibank N.A., to qualified borrowers in order to earn additional income. The loans are collateralized by cash and/or securities in an amount at least equal to the market value of the securities loaned. The market value of securities loaned is determined daily and any additional required collateral is allocated to the fund on the next business day. The risk of borrower default will be borne by Citibank N.A., the fund will bear the risk of loss with respect to the investment of the cash collateral. Income from securities lending is included in investment income on the Statement of operations. At March 31, 2002, the value of securities loaned amounted to \$10,402. The fund received cash collateral of \$12,180 which is pooled with collateral of other Putnam funds into 35 issuers of high grade short-term investments.

L) Federal taxes It is the policy of the fund to distribute all of its income within the prescribed time and otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. It is also the intention of the fund to distribute an amount sufficient to avoid imposition of any excise tax under Section 4982 of the Internal Revenue Code of 1986, as amended. Therefore, no provision has been made for federal taxes on income, capital gains or unrealized appreciation on securities held nor for excise tax on income and capital gains.

At September 30, 2001, the fund had a capital loss carryover of approximately \$71,656,000 available to offset future capital gains, if any. The amount of the carryover and the expiration dates are:

Loss Carryover	Expiration
\$ 7,035,000	September 30, 2003
2,793,000	September 30, 2004
1,555,000	September 30, 2005
10,040,000	September 30, 2007
25,640,000	September 30, 2008
24,593,000	September 30, 2009

### M) Distributions to shareholders

Distributions to shareholders from net investment income are recorded by the fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid at least annually. The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations.

### Note 2

Management fee, administrative services and other transactions

Compensation of Putnam Management, for management and investment

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

advisory services is paid quarterly based on the average net assets of the fund. Such fee is based on the following annual rates: 0.75% of the first \$500 million of average weekly net assets, 0.65% of the next \$500 million, 0.60% of the next \$500 million, and 0.55% thereafter.

The fund reimburses Putnam Management an allocated amount for the compensation and related expenses of certain officers of the fund and their staff who provide administrative services to the fund. The aggregate amount of all such reimbursements is determined annually by the Trustees.

Custodial functions for the fund's assets are provided by Putnam Fiduciary Trust Company (PFTC), a wholly-owned subsidiary of Putnam, LLC. Investor servicing agent functions are provided by Putnam Investor Services, a division of PFTC.

The fund has entered into an arrangement with PFTC whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the fund's expenses. For the six months ended March 31, 2002, the fund's expenses were reduced by \$20,386 under these arrangements.

Each independent Trustee of the fund receives an annual Trustee fee, of which \$988 has been allocated to the fund, and an additional fee for each Trustees meeting attended. Trustees receive additional fees for attendance at certain committee meetings.

The fund has adopted a Trustee Fee Deferral Plan (the "Deferral Plan") which allows the Trustees to defer the receipt of all or a portion of Trustees Fees payable on or after July 1, 1995. The deferred fees remain invested in certain Putnam funds until distribution in accordance with the Deferral Plan.

The fund has adopted an unfunded noncontributory defined benefit pension plan (the "Pension Plan") covering all Trustees of the fund who have served as a Trustee for at least five years. Benefits under the Pension Plan are equal to 50% of the Trustee's average total retainer and meeting fees for the three years preceding retirement. Pension expense for the fund is included in Compensation of Trustees in the Statement of operations. Accrued pension liability is included in Payable for compensation of Trustees in the Statement of assets and liabilities.

### Note 3

#### Purchases and sales of securities

During the six months ended March 31, 2002, cost of purchases and proceeds from sales of investment securities other than U.S. government obligations and short-term investments aggregated \$394,094,903 and \$318,636,193, respectively. Purchases and sales of U.S. government obligations aggregated \$625,100,281 and \$646,044,770, respectively.

Written option transactions during the period are summarized as follows:

	Contract Amounts	Premiums Received
-----		
Written options outstanding at beginning of year	\$           --	\$           --
-----		
Options opened	4,378,014	15,797
-----		
Options expired	(4,378,000)	(7,982)

Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

Options closed	--	--
Written options outstanding at end of period	\$ 14	\$ 7,815

Note 4

Share repurchase program

In November 1994, the Trustees authorized the fund to repurchase up to 1,950,000 of its shares in the open market. Repurchases will only be made when the fund's shares are trading at less than net asset value and at such times and amounts as is believed to be in the best interest of the fund's shareholders. Any repurchases of shares will have the effect of increasing the net asset value per share of remaining shares outstanding.

For the six months ended March 31, 2002, the fund repurchased no shares.

As of September 30, 2001, 570,000 shares have been repurchased since the inception of the program.

Note 5

New accounting pronouncement

As required, effective January 1, 2001, the fund has adopted the provisions of the AICPA Audit and Accounting Guide, Audits of Investment Companies. This Guide requires that the fund amortize premium and accrete discount on all fixed-income securities, and classify as interest income gains and losses realized on paydowns on mortgage-backed securities. Prior to January 1, 2001, the fund did not amortize premium and accrete discounts for certain fixed income securities and characterized as realized gains and losses paydowns on mortgage backed securities. Adopting these accounting principles will not affect the fund's net asset value, but will change the classification of certain amounts between interest income and realized and unrealized gain/loss in the Statement of operations. The adoption of this principle is not material to the financial statements.

AMENDMENT TO BYLAWS

(Unaudited)

On March 9, 2001, the Trustees amended the fund's Bylaws to require advance notice of shareholder Trustee nominations and shareholder proposals fixing the number of Trustees. Shareholders wishing to propose one or more nominees for election as Trustees or wishing to make a proposal fixing the number of Trustees at an annual meeting of shareholders must provide written notice to the fund (including all required information) so that such notice is received in good order by the fund not less than sixty (60) nor more than ninety (90) days prior to the anniversary date of the immediately preceding annual meeting. An exception applies in the case of the annual meeting to be held in calendar year 2001, to the effect that the notice described above to be timely must be received in good order by the fund not less than thirty (30) days prior to that anniversary date. A further exception to the notice deadline applies in the event the date of the annual meeting is substantially advanced or delayed from that anniversary date. Copies of these amendments to the Bylaws have been filed with the Securities and Exchange Commission and are available from its public reference

## Edgar Filing: PUTNAM MASTER INTERMEDIATE INCOME TRUST - Form N-30D

facilities.

### FUND INFORMATION

#### ABOUT PUTNAM INVESTMENTS

One of the largest mutual fund families in the United States, Putnam Investments has a heritage of investment leadership dating back to Judge Samuel Putnam, whose Prudent Man Rule has defined fiduciary tradition and practice since 1830. Founded 65 years ago, Putnam Investments was built around the concept that a balance between risk and reward is the hallmark of a well-rounded financial program. We presently manage over 100 mutual funds in growth, value, blend, fixed income, and international.
