#### MARKET VECTORS MUNICIPAL INCOME ETFs

Dear Shareholder:

The Market Vectors suite of municipal ("muni") bond fund ETFs has grown dramatically since the first one launched, with total assets under management (AUM) of \$2.3 billion as of April 2013. We believe this growth is attributable not only to strong performance and attractive taxable equivalent yields offered by munis in general, but also specifically to the flexibility of our ETF lineup and its low cost relative to other ETFs and mutual funds.

Over the past twelve months, demand for municipal bonds has remained strong, driven by low interest rates and investors' appetite for yield. Another driver of demand came at the beginning of 2013 when the American Taxpayer Relief Act was signed into law on the second day of the new year, increasing the top U.S. marginal tax bracket from 35% to 39.6%. This effectively made munis even more attractive to the country's highest earners.

2012 marked five years since the first municipal bond ETFs hit the marketplace. Among the first-to-market funds was our Market Vectors Intermediate Municipal Index ETF (ITM). At this milestone, we took the opportunity to engage the independent research firm, Municipal Market Advisors (MMA), to conduct a study on the products' evolution. I believe the research shows that muni ETFs are being fully embraced and have revolutionized the way investors target tax-exempt income.

During these five years, an interesting shift emerged in how investors have chosen to hold municipals. Over a two-year period, bonds held directly by individuals declined by 10.4% while municipal mutual funds and ETFs assets increased by 19.5% and 61.8%, respectively. The substantial growth of ETF assets in a relatively short period of time is particularly stark. The graph below shows a comparison of the first 23 quarters of muni ETFs' existence versus that of muni mutual funds' existence. While ETF assets grew to \$12B during that time period, mutual fund assets only grew to \$5B in their initial 23 quarter period.

Source: MMA

A couple of key factors stood out behind the sustained growth of muni ETFs:

1.

Muni ETFs are generally lower cost than mutual funds. The average expense ratio for muni ETFs is 0.25%, compared to 0.97% for tax-exempt mutual funds, MMA reported.<sup>2</sup>

2. **Financial advisors are shifting investors' municipal allocations to ETFs.** The MMA study documented that in the six largest muni ETFs, an advisor was recorded as the "holder" of 97% of assets.

You can download a copy of this study by visiting: http://www.vaneck.com/muni-whitepaper

#### MARKET VECTORS MUNICIPAL INCOME ETFs

Market Vectors is proud to be in the forefront of this high-growth investment segment, which has now become a viable alternative to tax-exempt mutual funds for many advisors and investors. On the following pages, you will find the performance record of each of the funds for the annual period ended April 30, 2013. You will also find their financial statements and portfolio information. We value your ongoing confidence in us and look forward to helping you meet your investment goals in the future.

Jan F. van Eck Trustee and President Market Vectors ETF Trust

#### Market Review

This was an eventful period for the municipal market and investors during which: 1) U.S. income tax rates increased on high-income taxpayers; 2) the fiscal condition of state governments continued to show modest improvements; and 3) headlines focused on a few high-profile municipalities involved in defaults or downgrades.

Municipal investors have continued to reap steady returns and enjoy relatively stable yields. For the twelve month period ending April 30, 2013, the Barclays Municipal Bond Index<sup>4</sup> returned 5.19%. The long end of the muni yield curve was even more rewarding, with the 20 year (17-22) component of the Barclay's Municipal Bond Index returning 6.87%. High-yield (non-investment grade) bonds led 2012 full-year performance for the muni market, returning 12.82% on a total return basis, according to Barclays.<sup>6</sup>

During this period, muni market trends moved through four phases driven by shifting investor sentiment and supply/demand characteristics.

From May through November 2012, strong performance was driven by investment inflows and reports of improving 1.economic and fiscal conditions in many states. The Federal Reserve's announced increased mortgage bond-buying ("QE3") in September 2012, pushed interest rates lower and increased fixed income investors' confidence.

- 2. In December 2012, muni flows reversed as investor demand declined. Yields increased and bond prices dropped, in part due to concerns over the "fiscal cliff" debate in Washington.
- Munis rallied in January and February 2013 on resolution of the fiscal cliff, higher federal income tax rates, and 3. increased investors demand. Standard & Poor's raised California's general obligation bond rating in January following the state's widely-applauded fiscal belt-tightening initiatives?
- In March and April, the market weakened mainly on the traditional tax time selling pressure and increased new issue supply and, including a \$2.7 billion offering by California. Standard & Poor's downgraded bonds of Puerto Rico's aqueduct and sewer authority to below investment-grade. This had a mildly negative impact on funds and managed portfolios that own Puerto Rico's bonds, which are attractive to hold due to their triple tax-exempt status. Finally, the market addressed a troublesome proposal contained in the Obama Administration's 2014 budget proposal, which would cap the value of tax-exempt municipal bond interest at 28%.

In the bigger picture, it has now been almost five years since the 2008 financial crisis, and municipals have been strong performers relative to other asset classes over this period. On a taxable equivalent return basis, Barclays reported that municipals returned 9.10% annually over the five-year period ending April 30, 2013. This was better than all equity asset classes measured and trailed only U.S. high yield bonds (11.11%). High yield municipals provided a taxable equivalent return that outperformed all other asset classes, period. (See graph below.)<sup>11</sup>

# **Annualized Returns for the Five-Year Period Ending April 30, 2013**

Source: Bloomberg, Barclays Research

#### MARKET VECTORS MUNICIPAL INCOME ETFS

#### **High-Yield (HY) Municipals**

High-yield (HY) municipal investments came into their own as a significant asset class in 2012 based on strong performance and competitive yields, which drove demand. The spread between HY munis and investment-grade munis narrowed over the course of the year. As shown in the graph below, the spread stood at 325 basis points on April 30, 2013, near its lowest point since the financial crisis of 2008.<sup>12</sup>

Source: Barclays Municipal Credit Research

According to Barclays, the best performing sectors of the HY muni universe in 2012 were industrial development revenue/pollution control revenue (IDR/PCR) at 24.7%, education at 15.0%, and housing at 14.7%. The worst performing sector for the year was resource recovery at 6.9%. In the first four months of 2013, the strongest performing sector was water & sewer at 2.6% and the worst was electric at 0.05%. For 2012 and the first four months of 2013, performance for all sectors of the HY universe tracked by Barclays were positive.<sup>13</sup>

Performance in Market Vectors **HYD** was driven by the spread contraction between high yield and investment grade municipal bonds. The spread between the Barclays High Yield Municipal Index to the Barclays Investment Grade Municipal Index narrowed from 365 bps to 325 bps over this annual period. Several sectors such as tobacco, where our portfolio had higher exposure as a result of index concentration, posted double digit returns during that one-year period.

#### **Municipals by Maturity**

For the twelve month period ending April 30, 2013, investors were rewarded for their exposure to longer muni maturities. However, over the last three months of this period, the best returns were in the seven to ten year maturity range, according to Barclays. As of April 15, 2013, the most attractive muni yield ratios to Treasuries were in short-term issues, as shown in the table below.<sup>14</sup>

Munis Attractive at Ratios ≥ 100% of U.S. Treasuries

#### **Maturity Yield Ratios**

1 Year 172.40% 2 Year 126.09% 5 Year 105.71% 10 Year 100.00% 20 Year 113.51% 30 Year 100.69%

Source: Bloomberg as of 4/15/13. Ratio of U.S. Treasury yields to AAA municipal yields.

Investment grade municipal bonds held by Market Vectors **MLN, ITM, SMB** and **PRB** benefitted during this period from falling rates. This was evident across the yield curve. For example, from April 30, 2012 to April 30, 2013, 5-year muni bond yields were down 26 bps and 30-year muni bond yields down 41 bps. Also, there was significant compression of yields in muni bonds with maturities between 10-15 years. Spreads narrowed from 64 bps to 56 bps year over year, which contributed to performance returns specifically in the intermediate muni bonds held by **ITM**.

#### **Summary**

The municipal market has shown resiliency in bouncing back from the financial crisis of 2008, and we can now see clear trends in favor of advisor-supported strategies and managed funds. We believe these will be healthy for maintaining investment demand and market stability. Although the municipal market has had somewhat muted performance since the start of 2012, we believe investors who remain committed to municipal bonds may stand to benefit from historical low volatility, low correlation and taxable equivalent yields offered by the asset class.

To stay up-to-date on trends in the muni market, subscribe to *Muni Nation*, our weekly blog written by portfolio manager and senior municipal strategist Jim Colby, by calling 888.MKT.VCTR.

CEF MUNICIPAL INCOME ETF (XMPT)

#### PERFORMANCE COMPARISON

April 30, 2013 (unaudited)

	Total Re	eturn		
	Share Price <sup>1</sup>	NAV	CEFMX	KTR <sup>2</sup>
One Year	6.96 %	7.28 %	7.67	%
Life* (annualized)	12.92%	12.81 %	13.28	%
Life* (cumulative)	24.48%	24.28 %	25.20	%
* since 7/12/11				

**Hypothetical Growth of \$10,000 (Since Inception)** 

Commencement date for the Market Vectors CEF Municipal Income ETF was 7/12/11.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (7/12/11) to the first day of secondary market trading in shares of the Fund (7/13/11), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 1.03% / Net Expense Ratio 0.40%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extentnecessary to prevent the operating expenses of the Fund (excluding interest expense, offering costs, trading expenses, taxes, extraordinary expenses and Acquired Fund Fees and Expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2013. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

S-Network Municipal Bond Closed-End Fund Index<sup>SM</sup> is calculated and maintained by S-Network Global Indexes, LLC. S-Network does not sponsor, endorse, or promote the Fund and bears no liability with respect to the Fund or any security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

S-Network Municipal Bond Closed-End Fund Index<sup>SM</sup> (CEFMXTR) is composed of shares of municipal closed-end <sup>2</sup>funds listed in the United States that are principally engaged in asset management processes designed to produce federally tax-exempt annual yield.

**Hypothetical Growth of \$10,000 (Since Inception)** 

Commencement date for the Market Vectors High-Yield Municipal Index ETF was 2/4/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/4/09) to the first day of secondary market trading in shares of the Fund (2/5/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Annual Fund Operating Expenses 0.35%

The Investment Management Agreement between Market Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Funds or security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays Municipal Custom High Yield Composite Index (LMEHTR) is made up of a 25%/75% blend of investment grade triple-B and non-investment grade munis, and draws 75% of its holdings from bonds issued as part of transaction sizes of \$100 million or more. To be included in the Index, bonds must have an outstanding par value of at least \$3 million for non-investment grade and \$7 million for investment grade; 25% of index in investment-grade triple-B bonds issued as part of transaction sizes of at least \$100 million in value; 50% of index in non-investment grade bonds issued as part of transaction of at least \$100 million; 25% of index in non-investment grade bonds issued as part of transaction of \$20-\$100 million in size; fixed rate; nominal maturity of greater than one year; dated-date after 12/31/1990.

**Hypothetical Growth of \$10,000 (Since Inception)** 

Commencement date for the Market Vectors Intermediate Municipal Index ETF was 12/4/07.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (12/4/07) to the first day of secondary market trading in shares of the Fund (12/6/07), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Annual Fund Operating Expenses 0.24%

The Investment Management Agreement between Market Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Fund or security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays AMT-Free Intermediate Continuous Municipal Index (LMT2TR) is comprised of bonds that must be rated investment-grade (Baa3/BBB- or higher) by at least two of the following ratings agencies: Moody's, S&P, Fitch. If only two of the three agencies rate the security, the lower rating is used to determine index eligibility. If only one of the three agencies rates a security, the rating must be investment-grade. They must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must be fixed rate, have a dated-date within the last five years, and must be at least six years but less than seventeen years from their maturity date. Remarketed issues, taxable municipal bonds, AMT municipal bonds, bonds with floating rates, and derivatives, are excluded from the benchmark.

Life* (cumulative)	27.99%	28.34%	39.45 %
*since 1/2/08			

**Hypothetical Growth of \$10,000 (Since Inception)** 

#### Commencement date for the Market Vectors Long Municipal Index ETF was 1/2/08.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (1/2/08) to the first day of secondary market trading in shares of the Fund (1/7/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Annual Fund Operating Expenses 0.24%

The Investment Management Agreement between Market Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Fund or security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays AMT-Free Long Continuous Municipal Index (LMT3TR) is comprised of bonds that must be rated investment-grade (Baa3/BBB- or higher) by at least two of the following ratings agencies: Moody's, S&P, Fitch. If only two of the three agencies rate the security, the lower rating is used to determine index eligibility. If only one of the three agencies rates a security, the rating must be investment-grade. They must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must be fixed rate, have a dated-date within the last five years, and must be at least seventeen years from their maturity date. Remarketed issues, taxable municipal bonds, AMT municipal bonds, bonds with floating rates, and derivatives, are excluded from the benchmark.

**Hypothetical Growth of \$10,000 (Since Inception)** 

Commencement date for the Market Vectors Pre-Refunded Municipal Index ETF was 2/2/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/2/09) to the first day of secondary market trading in shares of the Fund (2/3/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Annual Fund Operating Expenses 0.24%

The Investment Management Agreement between Market Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Fund or security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays Municipal Pre-Refunded–Treasury-Escrowed Index (LMPETR) is comprised of pre-refunded and escrowed-to-maturity municipal securities secured by an escrow or trust account containing obligations that are directly issued or unconditionally guaranteed by the U.S. government. The escrowed securities consist solely of U.S. Treasury obligations. To be included in the Index, bonds must have a nominal maturity of 1-30 years; outstanding par value of at least \$7 million; issued as part of transaction of at least \$75 million in value; fixed rate coupon and denominated in U.S. dollars.

**Hypothetical Growth of \$10,000 (Since Inception)** 

#### Commencement date for the Market Vectors Short Municipal Index ETF was 2/22/08.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/22/08) to the first day of secondary market trading in shares of the Fund (2/26/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Annual Fund Operating Expenses 0.20%

The Investment Management Agreement between Market Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Fund or security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays AMT-Free Short Continuous Municipal Index (LMT1TR) is comprised of bonds that must be rated investment-grade (Baa3/BBB- or higher) by at least two of the following ratings agencies: Moody's, S&P, Fitch. If only two of the three agencies rate the security, the lower rating is used to determine index eligibility. If only one of the three agencies rates a security, the rating must be investment-grade. They must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must be fixed rate, have a dated-date within the last five years, and must be at least one year but less than six years from their maturity date. Remarketed issues, taxable municipal bonds, AMT municipal bonds, bonds with floating rates, and derivatives, are excluded from the benchmark.

MARKET VECTORS ETF TRUST

**EXPLANATION OF EXPENSES** 

(unaudited)

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2012 to April 30, 2013.

#### **Actual Expenses**

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period".

#### **Hypothetical Example for Comparison Purposes**

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as fees on purchase payments. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

# (a) Commencement of operations

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period,

- (c) Not annualized
- (d) Annualized
- (e) Amount represents less than \$0.005 per share
- (f) On October 24, 2008, the Fund effected a share split as described in the Notes to Financial Statements. Per share data prior to this date has been adjusted to give effect to the share split.

See Notes to Financial Statements

<sup>(</sup>b) reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

#### MARKET VECTORS ETF TRUST

#### NOTES TO FINANCIAL STATEMENTS

**Note 1–Fund Organization**–Market Vectors ETF Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of April 30, 2013, offers fifty two investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: CEF Municipal Income ETF ("CEF Municipal"), High-Yield Municipal Index ETF ("High-Yield"), Intermediate Municipal Index ETF ("Intermediate"), Long Municipal Index ETF ("Long"), Pre-Refunded Municipal Index ETF ("Pre-Refunded") and Short Municipal Index ETF ("Short"), each a "Fund" and collectively the "Funds". Each Fund's investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its Index. The Funds (except CEF Municipal) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the "Adviser") uses quantitative analysis to select bonds and other securities that represent a sample of securities in the Index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in the Index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective. CEF Municipal seeks to achieve its objectives through a portfolio of securities in substantially the same weighting as its index.

The Funds' commencement of operations dates and their respective indices are presented below:

Fund	Commencement	Index				
Tullu	of Operations	HIUCX				
<b>CEF Municipal</b>	July 12, 2011	S-Network Municipal Bond Closed-End Fund Index <sup>SM</sup>				
High-Yield	February 4, 2009	Barclays Capital Municipal Custom High Yield Composite Index				
Intermediate	December 4, 2007	Barclays Capital AMT-Free Intermediate Continuous Municipal Index				
Long	January 2, 2008	Barclays Capital AMT-Free Long Continuous Municipal Index				
Pre-Refunded	February 2, 2009	Barclays Capital Municipal Pre-Refunded-Treasury-Escrowed Index				
Short	February 22, 2008	Barclays Capital AMT-Free Short Continuous Municipal Index				

**Note 2–Significant Accounting Policies**—The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAO Stock Market are valued at the NASDAO official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities for which market quotations are readily available are valued on the basis of quotations furnished by an independent pricing service approved by the Board of Trustees or provided by securities dealers. The pricing services may use valuation A. models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Closed-end publicly listed fund investments are valued at their official market closing price and are categorized as Level 1 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from 76

securities, dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends and security specific information are used to determine the fair value for these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

**Federal Income Taxes**—It is each Fund's policy to comply with the provisions of the Internal Revenue Code B. applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

- **Dividends and Distributions to Shareholders**—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund. Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.
- D. Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses

attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain loss on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

**Restricted Securities**—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the E. securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an F. instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter ("OTC") derivatives) or they may be listed and

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments outstanding during the year ended April 30, 2013.

Other-Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date.

G. The Funds record distributions received in excess of income from underlying investments as a reduction of cost of investments and/or an increase in realized gain. Such amounts are based upon estimates if actual amounts are not available, and actual amounts of income, realized gain and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3-Investment Management and Other Agreements-The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The High Yield, Intermediate, Long, Pre-Refunded and Short Funds utilize a unitary management fee where the Adviser is responsible for all expenses of the Funds, except the fee payment under the Investment Management Agreement, interest expenses, offering costs, trading expenses, taxes and extraordinary expenses. For CEF Municipal, the Adviser voluntarily waived its fees and assumed certain fund expenses during the year to limit total annual operating expenses to the expense cap listed below.

The current management fee rate, expense cap and the amounts waived/assumed by the Adviser for the year ended April 30, 2013 are as follows:

Fund Expense Management Waiver of Expenses

Cap Fee Rate Management Assumed

Fees by the Adviser
CEF Municipal \* 0.40% 0.40% \$63,047 \$36,749

The current unitary management fee rate for the year ended April 30, 2013 are as follows:

	Unitary	
Fund	Managen	nent
	Fee Rate	
High-Yield	0.35	%
Intermediate	0.24	
Long	0.24	
Pre-Refunded	0.24	
Short	0.20	

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' Distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

<sup>\*</sup> The Adviser has agreed, at least until September 1, 2013, to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Fund so that the Fund's total annual operating expenses do not exceed the expense cap, excluding interest expense.

**Note 4–Investments**–For the year ended April 30, 2013, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments	Proceeds from		
Fund	Purchased	Investments Sold		
<b>CEF Municipal</b>	\$ 510,475	\$3,213,461		
High-Yield	700,589,996	105,792,570		
Intermediate	335,860,370	7,573,683		
Long	42,298,671	3,581,497		
Pre-Refunded	9,678,147	6,447,987		
Short	90,861,738	17,452,290		

**Note 5–Income Taxes**–As of April 30, 2013, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

		Gross	Gross	Net Unrealized
Fund	Cost of Investments	Unrealized	Unrealized	Appreciation
		Appreciation	Depreciation	(Depreciation)
<b>CEF Municipal</b>	\$ 26,143,021	\$4,348	\$(720,346)	\$ (715,998)
High-Yield	1,051,647,766	75,732,589	(11,657,791)	64,074,798
Intermediate	703,848,767	33,873,755	(1,133,924)	32,739,831
Long	112,869,643	7,467,596	(626,211)	6,841,385
Pre-Refunded	31,665,178	886,329	(1,911 )	884,418
Short	199,900,124	3,142,913	(129,928)	3,012,985

At April 30, 2013, the components of accumulated earnings (deficit) on a tax basis, for each Fund, were as follows:

Fund	Undistributed Tax Exempt Income	Ord Inco	Long-Term inary Capital	Accumulated Capital Losses	Qualified Late-Year Losses	Other Temporary Difference*	Unrealized Appreciation (Depreciation)	Total
CEF Municipal	\$122,359	\$	\$-	\$(215,513)	\$-	\$(157)	\$(715,998)	\$(809,309)
High-Yield	3,508,696	-	2,771,483	-	-	(16,876)	64,074,797	70,338,100
Intermediate	1,489,980	-	-	-	(14,645)	(14,526)	32,739,831	34,200,640

Pre-Refunded	46,392	-	-	(129,222 )	(270)	(1,897)	884,418	799,421

Short 239,731 - - (54,376) - (5,335) 3,012,987 3,193,007

Qualified late-year losses comprised of post-October capital losses incurred after October 31, 2012, and certain late-year ordinary losses. Late-year ordinary losses represent ordinary losses incurred after December 31, 2012 and \*specified losses incurred after October 31, 2012. These losses are deemed to arise on the first day of the Fund's next taxable year. For the year ended April 30, 2013, the Funds intend to defer to May 1, 2013 for federal tax purposes the above listed post-October capital losses.

The tax character of dividends paid to shareholders during the years ended April 30, 2013 and April 30, 2012 were as follows:

	Tax-Exempt Dividends		Ordinary Income		Long-Term Capital Gains	
Fund	April 30,	April 30,	April 30,	April 30,	April 30,	April 30,
Tulid	2013	2012	2013	2012	2013	2012
CEF Municipal	\$751,369	\$213,566	\$5,039	\$3,914	\$ 3,427	\$ -
High-Yield	43,970,570	17,486,728	571,631	215,812	-	-
Intermediate	15,867,110	9,711,970	19,690	30	65,310	-
Long	4,054,246	2,807,385	27,494	13,940	-	-
Pre-Refunded	518,140	467,040	-	-	-	-
Short	2,443,328	2,028,885	738	-	108,284	1,270

On December 22, 2010 the Regulated Investment Company Modernization Act of 2010 (the "Act") was enacted, which changed various technical rules governing the tax treatment of regulated investment companies. The changes are generally effective for taxable years beginning after the date of enactment. One of the more prominent changes addresses capital loss carryforwards. Under the Act, each Fund will be permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized

### MARKET VECTORS ETF TRUST

#### NOTES TO FINANCIAL STATEMENTS

(continued)

prior to the losses incurred in the pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under previous regulation.

At April 30, 2013, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

	Post-Effective-	Post-Effective-	Amount E	Expiring in		
	No Expiration	No Expiration	the Year E	Ended April 30	),	
Fund	Short-Term Long-Term		2019	2018	2017	
rulia	Capital Losses	Capital Losses	2019	2018	2017	
<b>CEF Municipal</b>	215,513	-	\$-	\$-	\$-	
Long	261,318	-	78,825	1,554,202	603,978	
Pre-Refunded	129,222	-	-	-	-	
Short	32,634	21,742	-	-	-	

During the year ended April 30, 2013, as a result of permanent book to tax differences, primarily due to the tax treatment of market discount on tax exempt instruments, equalization and in-kind share transactions, the Fund's incurred differences that affected undistributed net investment income, accumulated net realized gain (loss) on investments and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase (Decrease) in Undistributed Net Investment Income (Loss)		(Decrease) in Accumulated Realized Gain (Loss)		Increase in Aggregate Paid in Capital
CEF Municipal	\$ (148	)	\$ (387,479	)	\$387,627
High-Yield	(1,288,612	)	(5,256,110	)	6,544,722
Intermediate	4,399		(2,814,200	)	2,809,801
Long	-		(1,786,664	)	1,786,664
Pre-Refunded	1,532		(151,029	)	149,497
Short	(66	)	(679,841	)	679,907

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and

has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended April 30, 2010-2012), or expected to be taken in the Funds' current tax year. Therefore, no provision for income tax is required in the Funds' financial statements.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended April 30, 2013, the Funds did not incur any interest or penalties.

Note 6-Capital Share Transactions—As of April 30, 2013, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 100,000 shares, except for CEF Municipal, which has Creation Units consisting of 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the year ended April 30, 2013, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind	In-Kind	
rulia	Contributions	Redemptions	
<b>CEF Municipal</b>	\$26,786,161	\$6,136,350	
High-Yield	4,467,118	73,465,784	
Intermediate	44,391,456	94,260,845	
Long	18,274,664	19,896,850	
Pre-Refunded	4,718,420	6,999,170	
Short	34,887,155	35,402,916	
80			

Note 7–Concentration and Other Risks–The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a "passive" or index approach to achieve each Fund's investment objective. The Funds (except CEF Municipal) use a sampling approach in which the Adviser uses quantitative analysis to select bonds that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. Each Fund is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. Investments in municipal securities involve risks similar to those of investing in any fund of fixed income securities traded on exchanges, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices.

High-Yield invests in non-investment grade securities, often referred to as "junk bonds." Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. High-Yield may not be able to sell bonds at desired prices and that large purchases or sales of certain high yield bond issues may cause substantial fluctuations in share price, yield and total return.

CEF Municipal invests in closed-end funds that may trade at a discount or premium to their net asset value. A closed-end fund may be leveraged as part of its investment strategy. As a result, the Fund may be indirectly exposed to the effects of leverage through its investment in the underlying funds. Investments in underlying funds that use leverage may cause the value of the Fund's shares to be more volatile than if the Fund invested in underlying funds that do not utilize leverage.

**Note 8–Trustee Deferred Compensation Plan**—The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

Effective September 1, 2010, High-Yield, Intermediate, Long, Pre-Refunded and Short Funds adopted a unitary management fee where the Adviser is responsible for all expenses of the Funds. Therefore, the expense for the Plan for these Funds are included in "Management fees" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities for amounts accrued through September 1, 2010 and in "Due to Adviser" for amounts accrued after September 1, 2010.

For CEF Municipal, the expense for the Plan is included in "Trustees' fees and expenses" in the Statement of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statement of Assets and Liabilities.

Note 9-Securities Lending-To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds' custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in the Bank of New York Overnight Government Fund and/or the Bank of New York Institutional Cash Reserve. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. As of April 30, 2013, there were no loans outstanding.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

**Note 10–Share Split**–On October 10, 2008, the Board of Trustees of the Market Vectors ETF Trust approved a split of the shares for Intermediate, Long, and Short. The share splits took place for shareholders of record as of the close of business on October 21, 2008, and were payable on October 23, 2008. Fund shares began trading on a split-adjusted basis on October 24, 2008. Intermediate and Long split their shares five-for-one and Short split its shares three-for-one.

**Note 11–Bank Line of Credit**—Certain Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended April 30, 2013, the following Funds borrowed under this facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of April 30, 2013
High-Yield	63	\$ 1,398,762	1.82 %	\$ -
Intermediate	13	883,384	1.83	-
Long	60	462,900	1.72	301,000

**Note 12–Custodian Fees**–The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the year ended April 30, 2013, there were no offsets to custodian fees.

Note 13–Recent Accounting Pronouncements–The Funds have adopted Accounting Standards Update ("ASU No. 2011-04") "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards." ASU No. 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU No. 2011-04 requires reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy: quantitative information about the unobservable inputs used in the fair value measurement, the valuation processes used by the reporting entity and a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs. In addition, ASU No. 2011-04 requires reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new disclosures have been implemented for annual and interim periods beginning after December 15, 2011 and can be found in Note 2 to the financial statements and the Schedule of

Investments, if applicable.

In January 2013, Accounting Standards Update 2013-01 ("ASU 2013-01"), Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities, replaced Accounting Standards Update 2011-11 ("ASU 2011-11"), Disclosures about Offsetting Assets and Liabilities. ASU 2013-01 is effective for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods. ASU 2011-11 was intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. ASU 2013-01 limits the scope of the new balance sheet offsetting disclosures to derivative instruments, repurchase agreements and securities lending transactions to the extent that they are (1) offset in the financial statements or (2) subject to an enforceable master netting arrangement or similar agreement. Management is currently evaluating the application of ASU 2013-01 and its impact, if any, on the Funds' financial statements.

**Note 14–Subsequent Events**—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

The following dividends from net investment income were declared and paid subsequent to April 30, 2013:

Fund	Ev_Date	Record Date	Payable Date	Per
Tunu	LA-Date	Record Date	Tayable Date	Share
<b>CEF Municipal</b>	5/1/13	5/3/13	5/7/13	\$0.1260
High-Yield	5/1/13	5/3/13	5/7/13	\$0.1283
Intermediate	5/1/13	5/3/13	5/7/13	\$0.0468
Long	5/1/13	5/3/13	5/7/13	\$0.0637
Pre-Refunded	5/1/13	5/3/13	5/7/13	\$0.0320
Short	5/1/13	5/3/13	5/7/13	\$0.0200
<b>CEF Municipal</b>	6/3/13	6/5/13	6/7/13	\$0.1220
High-Yield	6/3/13	6/5/13	6/7/13	\$0.1388

#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of Market Vectors ETF Trust

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of CEF Municipal Income ETF, High-Yield Municipal Index ETF, Intermediate Municipal Index ETF, Long Municipal Index EFF, Pre-Refunded Municipal Index ETF and Short Municipal Index ETF (six of the series constituting Market Vectors ETF Trust) (the "Funds") as of April 30, 2013, and the related statements of operations, the statements of changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of April 30, 2013, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of CEF Municipal Income ETF, High-Yield Municipal Index ETF, Intermediate Municipal Index ETF, Long Municipal Index EFF, Pre-Refunded Municipal Index ETF and Short Municipal Index ETF (six of the series constituting Market Vectors ETF Trust) at April 30, 2013, the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

New York, New York June 19, 2013

### TAX INFORMATION

(unaudited)

The information set forth below is for each Fund's fiscal year as required by federal laws. Shareholders, however, must report dividends on a calendar year basis for income tax purposes, which may include dividends for portions of two fiscal years of a Fund.

Accordingly, the information needed by shareholders for calendar year 2013 income tax purposes will be sent to them in early 2014. Please consult your tax advisor for proper treatment of this information.

Of the dividends and distributions paid by the Funds, the corresponding percentages represent the amount of such dividends which are tax exempt for regular Federal income tax purposes.

#### Fund

CEF Municipal 98.89 % High-Yield 98.72 % Intermediate 99.47 % Long 99.33 % Pre-Refunded 100.00 % Short 95.73 %

For CEF Municipal, 0.66% of the dividends and distributions paid were from ordinary income and 0.45% were paid from long-term capital gains. For High-Yield, 1.28% of the dividends and distributions paid were from ordinary income. For Intermediate, 0.12% of the dividends and distributions paid were from ordinary income and 0.41% paid were from long-term capital gains. For Long, 0.67% of the dividends and distributions paid were from ordinary income. For Short, 0.03% of the dividends and distributions paid were from ordinary income and 4.24% were paid from long-term capital gains.

**MUNIAR** 

Item 2. CODE OF ETHICS.

- (a) The Registrant has adopted a code of ethics (the "Code of Ethics") that applies to the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) No response required.
- (c) The Registrant has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Registrant has not granted a waiver or an implicit waiver from a provision of its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (e) Not applicable.
- (f) The Registrant's Code of Ethics is attached as an Exhibit hereto.

#### Item 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that David H. Chow, R. Alastair Short and Richard D. Stamberger, members of the Audit and Corporate Governance Committees, are "audit committee financial experts" and "independent" as such terms are defined in the instructions to Form N-CSR Item 3(a)(2).

Item 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) Audit Fees

Ernst & Young, as principal accountant for the Market Vectors ETF Trust, billed audit fees of \$296,770 for the period ending April 30, 2013 and \$196,000 for the period ending April 30, 2012 for CEF Municipal Income ETF, High-Yield Municipal Index ETF, Intermediate Municipal Index ETF, Long Municipal Index ETF, Pre-Refunded Municipal Index ETF, and Short Municipal Index ETF.

(b) Audit-Related Fees

Ernst & Young billed audit-related fees of \$16,000 for the period ending April 30, 2013 and \$0 for the period ending April 30, 2012.

(c) Tax Fees

Ernst & Young billed tax fees of \$111,847 for the period ending April 30, 2013 and \$62,196 for the period ending April 30, 2012.

(d) All Other Fees

None.

(e) The Audit Committee will pre-approve all audit and non-audit services, to be provided to the Fund, by the independent accountants as required by Section 10A of the Securities Exchange Act of 1934. The Audit Committee has authorized the Chairman of the Audit Committee to approve, between meeting dates, appropriate non-audit services.

The Audit Committee after considering all factors, including a review of

independence issues, will recommend to the Board of Trustees the independent auditors to be selected to audit the financial statements of the Funds.

(f) Not applicable. (g) Not applicable. (h) Not applicable. Item 5. AUDIT COMMITTEE OF LISTED REGISTRANTS. Not applicable. Item 6. SCHEDULE OF INVESTMENTS. Information included in Item 1. Item 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 8. PORTFOLIO MANAGER OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 9. PURCHASE OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS. Not applicable. Item 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS. None. Item 11. CONTROLS AND PROCEDURES. (a) The Chief Executive Officer and the Chief Financial Officer have concluded the Market Vectors ETF Trust disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act, provide reasonable assurances that material information relating to the Market Vectors Trust is made to them by the appropriate persons, based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this report. (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting. Item 12. EXHIBITS. (a)(1) The code of ethics is attached as EX-99.CODE ETH (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Act (17 CFR 270.30a-2) is attached as Exhibit 99.CERT. (b) Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 is furnished as Exhibit 99.906CERT.
