(Exact name of registrant as specified in charter)

335 Madison Avenue, New York, NY 10017  
(Address of principal executive offices) (Zip code)

Van Eck Associates Corporation  
335 MADISON AVENUE, NEW YORK, NY 10017  
(Name and address of agent for service)

Registrant's telephone number, including area code: (212) 293-2000

Date of fiscal year end: APRIL 30

Date of reporting period: OCTOBER 31, 2013

**Explanatory Note**

The Registrant is filing this amendment to its Form N-CSRS for the period ended October 31, 2013, originally filed with the Securities and Exchange Commission on January 7, 2014 (Accession Number 0000930413-14-000060), to amend Item 1, "Report to Stockholders." The purpose of the amendment to Item 1 is to supplement the Registrant's Semi-Annual Report to include material inadvertently omitted.

**SUPPLEMENT DATED JANUARY 27, 2014 TO THE  
SEMI-ANNUAL REPORT FOR THE PERIOD ENDED OCTOBER 31, 2013 OF  
MARKET VECTORS ETF TRUST**

This Supplement updates certain information contained in the Semi-Annual Report for the period ended October 31, 2013 (the “Semi-Annual Report”) for Market Vectors BDC Income ETF, Market Vectors Emerging Markets High Yield Bond ETF, Market Vectors Emerging Markets Local Currency Bond ETF, Market Vectors Fallen Angel High Yield Bond ETF, Market Vectors International High Yield Bond ETF, Market Vectors Investment Grade Floating Rate ETF, Market Vectors Emerging Markets Aggregate Bond ETF (prior to December 10, 2013, Market Vectors LatAm Aggregate Bond ETF), Market Vectors Mortgage REIT Income ETF, Market Vectors Preferred Securities ex Financials ETF, Market Vectors Renminbi Bond ETF and Market Vectors Treasury-Hedged High Yield Bond ETF (the “Funds”), each a series of the Trust. You may obtain copies of the Funds’ Semi-Annual Report free of charge, upon request, by calling toll-free 1.888.MKT.VCTR or by visiting the Van Eck website at [www.marketvectorsetfs.com](http://www.marketvectorsetfs.com).

The following disclosure regarding the basis for the Trust’s Board of Trustees’ approval of the Funds’ investment management agreement is hereby added to the section titled “Approval of Investment Management Agreement (unaudited)” beginning on page 82 of the Funds’ Semi-Annual Report:

At a meeting held on June 6, 2013 (the “Renewal Meeting”), the Board of Trustees (the “Board”) of Market Vectors ETF Trust (the “Trust”), including all of Trustees that are not interested persons of the Trust (the “Independent Trustees”), approved the continuation of the investment management agreements between the Trust and Van Eck Associates Corporation (the “Adviser”) (the “Investment Management Agreements”) with respect to the Market Vectors Asia ex-Japan Aggregate Bond ETF, BDC Income ETF, Defaulted & Distressed Bond ETF, Emerging Markets Aggregate Bond ETF, Emerging Markets High Yield Bond ETF, Emerging Markets Local Currency Bond ETF, Emerging Markets USD Aggregate Bond ETF, European High Yield Bond ETF, European Sovereign Bond ETF, Fallen Angel High Yield Bond ETF, Fixed Income I ETF, Fixed Income II ETF, Global Fallen Angel Bond ETF, Global High Yield Bond ETF, Global High Yield US\$ Bond ETF, Greater China Corporate Bond ETF, Greater China High Yield Bond ETF, International High Yield Bond ETF, International US\$ High Yield Bond ETF, Investment Grade Floating Rate ETF, Japanese Bond ETF, Emerging Markets Aggregate Bond ETF (as of the Renewal Meeting, LatAm Aggregate Bond ETF), Mortgage REIT Income ETF, Non-Agency RMBS ETF, Preferred Securities ex Financials ETF and Renminbi Bond ETF and Treasury-Hedged High Yield Bond ETF (collectively, the “Funds”).

The Board’s approval of the Investment Management Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 7, 2013. At that meeting, the Trustees discussed the information the Adviser and Lipper Inc. (“Lipper”), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and (where applicable) the Funds’ peer funds (other index-based exchange-traded funds (“ETFs”)), information about the advisory services provided to the Funds and the personnel

providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser's relationship with the Funds. In reviewing performance and expense information for certain of the Funds against their peer groups, the Trustees considered that some of the Funds generally invest in a different group of issuers than some or all of the other funds in a Fund's designated peer group. For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds. The Trustees noted that the information provided by Lipper did not contain information for Market Vectors BDC Income ETF and Treasury-Hedged High Yield Bond ETF as the Fund had only recently commenced operations and therefore had no meaningful operational history.

The Independent Trustees' consideration of the Investment Management Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and the May 7, 2013 meeting and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreements, including, where applicable, the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time.

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds' portfolios, especially in light of the performance of those Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"). In evaluating each Operating Fund's performance, the Trustees assessed the Operating Funds' performance based on how well the performance of the Operating Fund tracked the performance of its benchmark index, using a variety of measurements in this regard, including a measure of tracking error that takes into account the fair value of the securities in the index. Based on discussions with the Adviser, the Trustees concluded that the investment performance of the Funds was satisfactory. The Trustees did not consider performance information with respect to Market Vectors BDC Income ETF and Treasury-Hedged High Yield Bond ETF because, as noted above, the Fund had only recently commenced operations as of the date of the Renewal Meeting.

The Trustees also considered information relating to the financial condition of the Adviser, the current status, as they understood it, of the Adviser's compliance environment and the Adviser's views of the Trust's other service providers.

As noted above, the Trustees were also provided various data from Lipper comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund for which peer group information was available had an expense ratio (after the effect of any applicable expense limitation) below the average and median of its respective peer group of funds. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received. The Trustees noted that this comparative data, while generally helpful, was limited in its usefulness in many cases due to the lack of a large number of directly comparable ETFs.

The Trustees also considered any other benefits received by the Adviser from serving as adviser to the Funds and from providing certain administrative services to the Funds, and from an affiliate of the Adviser serving as distributor for the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees noted that the Funds were still relatively new products, which therefore made it difficult to quantify the potential variability in net assets and thus determine the sustainability of any potential economies of scale which may exist. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser in respect of the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Trustees did not consider historical information about the profitability to the Adviser of Market Vectors Asia ex-Japan Aggregate Bond ETF, Defaulted & Distressed Bond ETF, Emerging Markets Aggregate Bond ETF, Emerging Markets USD Aggregate Bond ETF, European High Yield Bond ETF, European Sovereign Bond ETF, Fixed Income I ETF, Fixed Income II ETF, Global Fallen Angel Bond ETF, Global High Yield Bond ETF, Global High Yield US\$ Bond ETF, Greater China Corporate Bond ETF, Greater China High Yield Bond ETF, International US\$ High Yield Bond ETF, Japanese Bond ETF and Non-Agency RMBS ETF because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees also did not consider historical information about the profitability to the Adviser of Market Vectors BDC Income ETF and Treasury-Hedged High Yield Bond ETF because, as noted above, the Fund only recently commenced operations as of the date of the Renewal Meeting. The Trustees could not consider the historical performance or the quality of services previously provided to each of these Funds although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 7, 2013 meeting, as part of their consideration of the Investment Management Agreements.

In voting to approve the continuation of the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the interest of each Fund and such Fund's shareholders.

MARKET VECTORS INCOME ETFs

Dear Shareholder:

We are pleased to present this semi-annual report for income-oriented exchange-traded funds of the Market Vectors ETF Trust for the six months ending October 31, 2013.

Over the summer, when “Taper Talk” spurred the selloff of U.S. Treasuries, hedged high yield outperformed bank loan strategies.

**Cumulative Return: Market Vectors US Treasury-Hedged High Yield Bond Index**

02/04/2013 (Index Inception) to 10/31/2013

Source: FactSet. Data as of 10/31/2013 since 02/04/2013. Past performance is no guarantee of future results. Refer to footnotes for index descriptions and disclosure notes.

A long high-yield bond/short U.S. Treasury positioning was more responsive to changes in credit spreads and tended to outperform bank loan strategies when credit spreads narrowed. (However, when credit spreads widened significantly and interest rates fell slightly, hedged high yield underperformed bank loan strategies.)

The Market Vectors Treasury-Hedged High Yield Bond ETF (THHY), launched on March 21, 2013, combines long positions in the more liquid portion of the high-yield universe with short positions in 5-year U.S. Treasury notes, or futures contracts on such notes. Together, the long and short portfolios offer a combination of both income generation and protection against rising interest rates.

On or about December 10, 2013, Market Vectors LatAm Aggregate Bond ETF (BONO) will change its ticker, fund name, and investment strategy, and will be renamed Market Vectors Emerging Markets Aggregate Bond ETF (EMAG). This will reflect its new investment objective, which will be to seek to track, before fees and expenses, the price and yield performance of the Market Vectors EM Aggregate Bond Index (MVEMAG).

With EMAG, we are introducing an efficient means for investors to gain access to a broad exposure of emerging markets bonds in a single ETF. A key benefit of the MVEMAG index is that it has a relatively balanced exposure to both local currency and hard currency debt. We expect that this will allow the ETF to maintain broadly diversified

exposure within the emerging markets debt universe, presenting an attractive option to investors who are not able to devote significant resources to researching either currencies or credit ratings.

1

MARKET VECTORS INCOME ETFs

Going forward, we will, as always, continue to seek out and evaluate the most attractive opportunities for you as a shareholder, and we encourage you stay in touch with us through the videos, email subscriptions and podcasts available on our website (<http://www.vaneck.com>). Should you have any questions, please contact us at 1.888.MKT.VCTR or visit [www.marketvectorsetfs.com](http://www.marketvectorsetfs.com).

Thank you for participating in the Market Vectors ETF Trust. On the following pages, you will find the performance comparison of each of the funds for the six months ended October 31, 2013. You will also find their financial statements. We value your continuing confidence in us and look forward to helping you meet your investment goals in future.

*Jan F. van Eck  
Trustee and President  
Market Vectors ETF Trust*

*November 25, 2013*

Represents the opinions of the investment adviser. Past performance is no guarantee of future results. Not intended to be a forecast of future events, a guarantee of future results or investment advice. Current market conditions may not continue.

All indices listed are unmanaged indices and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS/A

Market Vectors U.S. Treasury-Hedged High Yield Bond Index (MVTHHY) is comprised of long positions in below-investment grade corporate bonds, denominated in U.S. dollars, and an equivalent amount of short positions in Treasury notes and bonds.

S&P/LSTA U.S. Leveraged Loan 100 Index seeks to mirror the market-weighted performance of the largest institutional leveraged loans, as determined by criteria, based upon market weightings, spreads, and interest payments.

2

### *Management Discussion*

The suite of Market Vectors Income ETFs can most accurately be divided into three groupings: equity income, international bonds, and corporate bonds. Over the six months ended October 31, 2013, the performances of individual funds were varied. However, while two of the three ETFs in the equity income group and two of the five ETFs in the international bonds group posted negative total returns, all three ETFs in the corporate bond group posted positive total returns.

Source: Van Eck Global. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

## **EQUITY INCOME**

### *Business Development Companies (BDCs)*

As BDCs typically lend to, and invest in, small, privately held companies, they are susceptible to concerns over the creditworthiness of those companies and fluctuations in the capital markets used to finance such transactions. Over the six-month period ended October 31, 2013, BDCs underperformed relative to the broader market as measured by the S&P<sup>®</sup> 500 Index<sup>‡</sup>. The industry ended the period offering a dividend yield of 7.76% as measured by the Market Vectors<sup>®</sup> US Business Development Index<sup>i</sup>.

### *Mortgage REITs*

Since mortgage REITs are very sensitive to rises in rates, they were particularly hard hit when interest rates began to rise in May. They continued to suffer until September 18, when the Fed stated that, in the absence of evidence of sustainable improvement in the economy, it would maintain the pace of monthly bond buying, after which they enjoyed a major rally<sup>ii</sup> and outperformed the S&P 500 that month<sup>iii</sup>. Mortgage REITs ended the period offering a dividend yield of 12.93% as measured by the Market Vectors<sup>®</sup> Global Mortgage REITs Index<sup>iv</sup>.

### *Preferred Securities ex Financials*

Preferred securities are considered hybrid securities because they have features of both debt and equity securities. Historically, a company's preferred securities have offered higher yield than its common stock and senior debt. The Wells Fargo® Hybrid and Preferred Securities ex Financials Index excludes traditional financial companies which have been more volatile than other sectors historically. Over the six-month period ended October 31, 2013, the non-financial "preferreds" market was driven primarily by automobile manufacturers and steel. Specialized REITs and electric utilities were the main detractors. The industry ended the period offering a dividend yield of 7.26% as measured by the Wells Fargo® Hybrid and Preferred Securities ex Financials Index<sup>v</sup>.

## **INTERNATIONAL BOND**

### *Emerging Markets Local Currency Bonds*

Over the six months ended October 31, 2013, in contrast with developed market debt, emerging market sovereign bonds still offered relatively attractive yields according to the J.P. Morgan GBI-EMG Core Index\*. The J.P.Morgan GBI-EM family

## MARKET VECTORS INCOME ETFs

of indices tracks the performance of bonds denominated in the local currencies of 16 emerging market countries that are actually quite large and relatively liquid themselves. These local governments have evolved tremendously and now almost 90% of the bonds in these indices have an investment grade credit rating from at least one rating agency.

In terms of local currency, bonds denominated in the Hungarian Forint and Romanian New Leu contributed most to the fund's total return, while the bonds denominated in the Indonesian Rupiah and Brazilian Real were the greatest detractors from performance.

### *Latin American Bonds*

Over the six months ended October 31, 2013, Latin American bonds offered investors a number of opportunities to invest in both high yield and investment grade corporate and sovereign bonds. Three countries contributed positively to the fund's total return: Argentina, Jamaica, and the Dominican Republic. Brazil and Mexico were the greatest detractors from performance. While the quasi and foreign government sector and telecommunications subsector both posted positive returns, the sovereign sector (with the highest sectorial weighting) was the largest detractor from performance.

### *Renminbi Bonds*

Chinese Renminbi-denominated bonds, both issued and traded outside China, constitute what is known as the "dim sum bond market". Dim sum bonds provide an alternative way of accessing China's currency and market, rather than non-deliverable forward contracts and/or QFII, which may not be practical. Investors in this market not only receive bond interest payments, but also gain access to China's currency which, according to the U.S. Treasury at least, is undervalued<sup>viii</sup>.

The Chinese Renminbi currency as a whole has exhibited strong performance. Financial sector bonds were the best performers during the six-month period ended October 31, 2013, while bonds in the sovereign and telecommunications subsectors were the only detractors from performance during the period.

## **CORPORATE BOND**

### *Emerging Markets High Yield Bonds*

Overall, emerging market corporate bonds constitute one of the fastest growing asset classes and, as an asset class, it is now comparable in size to the U.S. high yield corporate bond market. High yield emerging market corporate and

quasi-sovereign bonds denominated in U.S. dollars currently have had higher yields than both high yield emerging market sovereign and high yield U.S. corporate bonds<sup>ix</sup>. Additionally, high yield emerging market corporate bonds, historically, have had lower default rates than high-yield U.S. corporate bonds<sup>x</sup>.

While Argentinian and Russian bonds posted the highest returns, and Indonesian and Ukrainian bonds the lowest, on a sectorial level, quasi and foreign government bonds were the greatest contributors to total return and the industrial sector was the greatest detractor from performance.

#### *Fallen Angel Bonds*

“Fallen angels” are high yield corporate bonds that were once investment grade, but have been downgraded to non-investment grade. Fallen angels tend to have a higher rate of ascension to investment grade than original issue high yield bonds. The default rate in this segment has averaged 3.82% historically, below the 4.41% average for all U.S. high yields. The financial, basic materials and consumer, non-cyclical sectors contributed the most return toward the fund. The only two sectors whose performance detracted from that of the fund were energy and communications.

#### *International High Yield Bonds*

International high yield bonds have continued to experience lower default rates than U.S. high yield bonds. Non-U.S. high yield bonds, which now constitute over a third of the global high yield market, have also continued to provide an opportunity to diversify not only geographically, but also in terms of currency, with bonds denominated, for example, in Euros, Sterling and Canadian dollars. Europe now accounts for over 60% of global high yield corporate bond market value, and emerging markets represent about 30%. In addition, non-U.S. debt has provided exposure to those regions of the world, for example, the emerging markets, with the highest rates of high yield market growth.

Each of the fund’s three sectors, financial, industrial and utility, posted positive returns, with only the energy and healthcare subsectors in any way detracting from overall fund performance. Euro-denominated bonds were the greatest contributors to fund total return, while U.S.-dollar denominated bonds were the largest detractors from fund performance.

#### *Investment Grade Floating Rate Notes*

Floating rate notes (FRN) are investment grade-rated corporate debt issues with variable coupons that reset to current interest rates, based on a benchmark. The coupons on these securities fluctuate with that benchmark. The combination

of near-zero duration<sup>xi</sup> and floating interest rates creates the potential for relatively low price fluctuations. In addition, as short-term interest rates rise, portfolio securities reset to higher yields. The floating rate feature is intended to act as protection against loss of principal when interest rates rise.

The fund's assets are all investment grade credit quality, and the average allocation tends to be toward the lower end of the investment grade quality scale (between A and BBB rating). Approximately two-thirds of the fund's holdings are further out on the maturity curve than the FRN market is on average, resulting in 2.76 average years to maturity. Because of the higher weightings to longer maturities, the underlying index and fund tend to have a higher yield than they would if weighted purely by market capitalization. The greatest source of positive contribution came from exposure to A- average rated bonds. Exposure to bonds with an average rating of A+ was the greatest detractor from the performance of the fund.

#### *Treasury-Hedged High Yield Bonds*

The Treasury-hedged high yield bond fund combines the more liquid portion of the high yield universe with short positions in 5-year U.S. Treasury notes, or futures on such notes, to help hedge against the risk of rising interest rates. Together, the long high yield and short Treasuries portfolios also offer a combination of income generation and protection against rising interest rates.

The main drivers of returns in this strategy are interest rates and credit spreads. Rising interest rates and narrowing credit spreads positively contribute to performance, while declining interest rates and widening credit spreads detract from the fund's returns.

Overall, the fund outperformed unhedged high yield bond strategies, having benefited from the U.S. Treasury market selloff (rising interest rates) over the summer, spurred on by Ben Bernanke's comments on potentially tapering the bond buying program. The Federal Reserve's inaction in September caused Treasuries to rally (interest rates to decline), eroding some of the summer gains. While interest rates declined slightly in October, negatively affecting the fund's performance, credit spreads also narrowed, which favorably impacted the fund.

All indices listed are unmanaged indices and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made.

‡ S&P® 500 Index, calculated with dividends reinvested, consists of 500 widely held common stocks covering industrial, utility, financial and transportation sectors.

\* J.P. Morgan Government Bond Index–Emerging Markets Global Core (GBIEMCOR) is designed to track the performance of bonds issued by emerging market governments and denominated in the local currency of the issuer. The Index is designed to be investible and includes only those countries that are accessible by most of the international investor base.

i Market Vectors® US Business Development Companies Index (MVBIZDTG) includes companies which are treated as Business Development Companies. To be eligible for the Index and qualify as a BDC, a company must be organized under the laws of, and have its principal place of business in the U.S., be registered with the Securities Exchange Commission and have elected to be regulated as a BDC under the Investment Company Act of 1940. As of October 31, 2013, the 30-day SEC subsidized yield for Market Vectors BDC Income ETF was 7.53%; the unsubsidized yield was 6.88%.

ii Barron's: Fed Sends Mortgage REITs Soaring; CYS Up 5.1%,

iii ThinkAdvisor: REITs Outperformed S&P 500 in September,  
<http://www.thinkadvisor.com/2013/10/18/reits-outperformed-sp-500-in-september>

iv Market Vectors® Global Mortgage REITs Index (MVMORTTR) is a rules-based index intended to give investors a means of tracking the overall performance of publicly traded U.S. and non-U.S. mortgage REITs that derive at least 50% of their revenues from mortgage-related activity. As of October 31, 2013, the 30-day SEC subsidized yield for Market Vectors Mortgage REIT Income ETF was 10.88%; the unsubsidized yield was 10.55%.

v Wells Fargo® Hybrid and Preferred Securities ex Financials Index (WHPSL) is a rules-based index designed to track the performance of convertible or exchangeable and non-convertible preferred securities, issued by U.S. or foreign issuers that are not financial services companies or banks and that are listed on U.S. national securities exchanges. As of October 31, 2013, the 30-day SEC subsidized yield for Market Vectors Preferred Securities ex Financials ETF was 6.17%; the unsubsidized yield was 5.93%.

viii Euromoney: US Treasury renminbi undervaluation claim disputed,  
<http://www.euromoney.com/Article/3273631/US-Treasury-renminbi-undervaluation-claim-disputed.html>

ix As represented by The BofA Merrill Lynch High Yield U.S. Emerging Markets Liquid Corporate Plus Index for USD-denominated EM high-yield corporate bonds, The BofA Merrill Lynch USD Emerging Markets Sovereigns Index for USD-denominated EM high-yield sovereign bonds and The BofA Merrill Lynch U.S. High Yield Master Index II for U.S. high-yield corporate bonds.

x The FX G10 Source: Standard & Poor's Global Fixed Income Research and Standard & Poor's CreditPro®, 2011 Annual Global Corporate Default Study and Rating Transitions.

xi Effective Duration measures a bond's sensitivity to interest rate changes that reflects the change in a bond's price given a change in yield. This duration measure is appropriate for bonds with embedded options.

BDC INCOME ETF (BIZD)

## PERFORMANCE COMPARISON

October 31, 2013 (unaudited)

Total Return	Share Price <sup>1</sup>	NAV	MVBIZDTG <sup>2</sup>	
Six Months	1.84%	1.69%	1.88	%
Life* (cumulative)	6.92%	6.56%	6.87	%

\*since 2/11/13

**Commencement date for the Market Vectors BDC Income ETF (BIZD) was 2/11/13.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/11/13) to the first day of secondary market trading in shares of the Fund (2/12/13), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting [marketvectorsetfs.com](http://marketvectorsetfs.com).**

Gross Expense Ratio 0.96% / Net Expense Ratio 0.40%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2014. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and

sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors US Business Development Companies Index (MVBIZDTG) (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors BDC Income ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® US Business Development Companies Index (MVBIZDTG) (the “Index”) includes companies which are treated as Business Development Companies. To be eligible for the Index and qualify as a BDC, a company must be organized under the laws of, and have its principal place of business in the U.S., be registered with the Securities Exchange Commission and have elected to be regulated as a BDC under the Investment Company Act of 1940.

## EMERGING MARKETS HIGH YIELD BOND ETF (HYEM)

## PERFORMANCE COMPARISON

October 31, 2013 (unaudited)

Total Return	Share Price <sup>1</sup>	NAV	EMHY <sup>2</sup>
Six Months	(1.58 )%	(1.26 )%	(1.50 )%
One Year	3.64 %	4.36 %	4.81 %
Life* (annualized)	7.85 %	7.97 %	8.66 %
Life* (cumulative)	11.85%	12.04%	13.10%

\*since 5/8/12

**Commencement date for the Market Vectors Emerging Markets High Yield Bond ETF (HYEM) was 5/8/12.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (5/8/12) to the first day of secondary market trading in shares of the Fund (5/9/12), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.**

Gross Expense Ratio 0.50% / Net Expense Ratio 0.40%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2014. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Mortgage REIT Income ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors Global Mortgage REITs Index (MVMORTTR) is a rules-based index intended to give investors a means of tracking the overall performance of publicly traded U.S. and non-U.S. mortgage REITs that derive at least 50% of their revenues from mortgage-related activity.

## PREFERRED SECURITIES EX FINANCIALS ETF (PFXF)

## PERFORMANCE COMPARISON

October 31, 2013 (unaudited)

Total Return	Share Price <sup>1</sup>	NAV	WHPSL <sup>2</sup>
Six Months	(2.94)%	(3.15)%	(3.03)%
One Year	(0.14)%	0.12 %	0.42 %
Life* (annualized)	3.37 %	3.08 %	3.33 %
Life* (cumulative)	4.38 %	4.00 %	4.33 %

\*since 7/16/12

**Commencement date for the Market Vectors Preferred Securities ex Financials ETF was 7/16/12.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (7/16/12) to the first day of secondary market trading in shares of the Fund (7/17/12), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.**

Gross Expense Ratio 0.50% / Net Expense Ratio 0.41%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2014. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

The Fund is not issued, sponsored, endorsed or advised by Wells Fargo & Company, Wells Fargo Securities, LLC or their subsidiaries and affiliates (collectively, “Wells Fargo”). Wells Fargo makes no representation or warranty, express or implied, to the Fund’s investors or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of any data supplied by Wells Fargo or the Index to track financial instruments comprising the Index or any trading market. Wells Fargo’s only relationship to the Adviser is the licensing of certain trademarks and trade names of Wells Fargo and of the data supplied by Wells Fargo that is determined, composed and calculated by Wells Fargo or a third party index calculator, without regard to the Fund or its shareholders. Wells Fargo has no obligation to take the needs of the Fund or the Fund’s shareholders into consideration when determining, composing or calculating the data. Wells Fargo has no obligation or liability in connection with the administration, marketing or trading of the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

<sup>2</sup> Wells Fargo® Hybrid and Preferred Securities ex Financials Index (WHPSL) is designed to track the performance of convertible or exchangeable and non-convertible preferred securities listed on U.S. exchanges.

## RENMINBI BOND ETF (CHLC)

## PERFORMANCE COMPARISON

October 31, 2013 (unaudited)

Total Return	Share Price <sup>1</sup>	NAV	MVCHLC <sup>®2</sup>
Six Months	2.50 %	1.47 %	1.74 %
One Year	4.71 %	5.09 %	6.07 %

Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.**

Gross Expense Ratio 2.43% / Net Expense Ratio 0.39%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.39% of the Fund's average daily net assets per year until at least September 1, 2014. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors Renminbi Bond Index is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Renminbi Bond ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors Renminbi Bond Index (MVCHLC<sup>®</sup>) is designed to track the performance of fixed-rate, Chinese Renminbi (“RMB”)-denominated bonds that are available to market participants outside of mainland China issued by Chinese or non-Chinese corporate, governmental, quasi-governmental or supranational issuers (“RMB Bonds”).

## TREASURY-HEDGED HIGH YIELD BOND ETF (THHY)

## PERFORMANCE COMPARISON

October 31, 2013 (unaudited)

Total Return	Share Price <sup>1</sup>	NAV	MVTHHY <sup>2</sup>	
Six Months	(0.41)%	1.46%	2.08	%

Gross Expense Ratio 2.72% / Net Expense Ratio 1.63%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.50% of the Fund's average daily net assets per year until at least September 1, 2014. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and

sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors US Treasury-Hedged High Yield Bond Index is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Treasury-Hedged High Yield Bond ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® US Treasury-Hedged High Yield Bond Index (MVTHHY) is comprised of long positions in below-investment grade corporate bonds, denominated in U.S. dollars, and an equivalent amount of short positions in Treasury notes and bonds.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, May 1, 2013 to October 31, 2013.

**Actual Expenses**

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period.”

**Hypothetical Example for Comparison Purposes**

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as fees on purchase payments. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

- (c) Callable Security - the redemption date shown is when the security may be redeemed by the issuer
- (s) Step Bond - coupon increases periodically based upon a predetermined schedule. The rate shown reflects the rate in effect at the end of the reporting period.
- † Security fully or partially on loan. Total market value of securities on loan is \$290,951.
- # Indicates a fair valued security which has not been valued utilizing an independent quote, but has been valued pursuant to guidelines established by the Board of Trustees. The aggregate value of fair valued securities is \$32,245 which represents 0.3% of net assets.
- Reg S Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.
- 144A Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$860,075, or 7.1% of net assets.
- ® Security in default

## MARKET VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

October 31, 2013 (unaudited)

**Note 1—Fund Organization**—Market Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of October 31, 2013, offers fifty-three investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: BDC Income ETF (“BDC Income”), Emerging Markets High Yield Bond ETF (“Emerging Markets High Yield”), Emerging Markets Local Currency Bond ETF (“Emerging Markets Local Currency”), Fallen Angel High Yield Bond ETF (“Fallen Angel”), International High Yield Bond ETF (“International High Yield”), Investment Grade Floating Rate ETF (“Investment Grade”), LatAm Aggregate Bond ETF (“LatAm”), Mortgage REIT Income ETF (“Mortgage REIT”), Preferred Securities ex Financials ETF (“Preferred Securities”), Renminbi Bond ETF (“Renminbi”) and Treasury-Hedged High Yield Bond ETF (“Treasury-Hedged”), each a “Fund” and collectively the “Funds”. Each Fund’s investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its index. The Funds (except BDC Income, Mortgage REIT and Preferred Securities) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the “Adviser”) uses quantitative analysis to select bonds and other securities that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in the index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund’s investment objective. BDC Income, Mortgage REIT and Preferred Securities seek to achieve their investment objective through a portfolio of securities in substantially the same weighting as their index.

The Funds’ commencement of operations dates and their respective indices are presented below:

Fund	Commencement of Operations	Index
BDC Income	February 11, 2013	Market Vectors® U.S. Business Development Companies Index*
Emerging Markets High Yield	May 8, 2012	The BofA Merrill Lynch High Yield US Emerging Markets Liquid Corporate Plus Index
Emerging Markets Local Currency	July 22, 2010	JP Morgan Government Bond Index-Emerging Markets Global Core
Fallen Angel	April 10, 2012	The BofA Merrill Lynch US Fallen Angel High Yield Index
International High Yield	April 2, 2012	The BofA Merrill Lynch Global Ex-US Issuers High Yield Constrained Index
Investment Grade LatAm	April 25, 2011	Market Vectors® Investment Grade Floating Rate Index*
	May 11, 2011	The BofA Merrill Lynch Broad Latin America Bond Index

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS/A

Mortgage REIT	August 16, 2011	Market Vectors® Global Mortgage REITs Index*
Preferred Securities	July 16, 2012	Wells Fargo® Hybrid & Preferred Securities ex Financials Index
Renminbi	October 11, 2011	Market Vectors® Renminbi Bond Index*
Treasury-Hedged	March 21, 2013	Market Vectors® U.S. Treasury-Hedged High Yield Bond Index*

\* Owned by Market Vectors Index Solutions GmbH, an indirect, wholly owned subsidiary of the Adviser.

**Note 2—Significant Accounting Policies**—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed by the Funds.

**Security Valuation**—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. Debt securities for which market quotations are readily available are valued on the basis of quotations furnished by an independent pricing service approved by the Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Futures contracts generally are valued at the settlement price on the primary exchange on which they trade. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds’ investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds’ Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

**Federal Income Taxes**—It is each Fund’s policy to comply with the provisions of the Internal Revenue Code **B.** applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

**Dividends and Distributions to Shareholders**—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund (except Mortgage REIT and BDC Income which are declared and **C.** paid quarterly). Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.

**Securities Sold Short**—Treasury-Hedged may invest in securities sold short. A short sale occurs when a Fund sells a security, which it does not own, by borrowing it from a broker. Proceeds from securities sold short are reported as liabilities in the Statements of Assets and Liabilities and are marked to market daily in accordance with the fair value methodology described in Note 2A. Gains and losses are classified as realized when short positions are closed. In the event that the value of the security which the Fund sold short declines, the Fund will gain as it repurchases the security in the market at the lower price. If the price of the security increases, the Fund will suffer a loss, as it will have to repurchase the security at the higher price. Short sales may incur higher transaction costs than regular securities transactions. Interest on securities sold short is recorded as an expense by the Fund on the interest payment date. Cash as collected is deposited in a segregated account with brokers, maintained by the Fund, for its open short sales. Until the Fund replaces the borrowed security, the Fund maintains securities or permissible liquid assets in a segregated account with a broker or custodian sufficient to cover its short positions. At October 31, 2013, Treasury-Hedged held no securities sold short.

**Currency Translation**—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations. The total net realized gains or losses from fluctuations on foreign exchange rates on investments and other foreign currency denominated assets and liabilities are disclosed in Note 5 — Income Taxes.

**Restricted Securities**—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund’s Schedule of Investments.

**Repurchase Agreements**—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller.

**H. Use of Derivative Instruments**—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (“OTC”))

derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments.

73

## MARKET VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

(continued)

**Futures Contracts**—The Funds may purchase or sell futures contracts to gain exposure or to hedge against interest rate movements. Using futures contracts involves various market risks, including interest rate and equity risk as well as the risks that there may be an illiquid market or that a change in the value of the contract may not correlate with changes in the value of the underlying securities.

Upon entering into a futures contract, a Fund is required to deliver to a broker an amount of cash and/or government securities equal to a certain percentage of the contract amount. This amount is known as the “initial margin”. Subsequent payments, known as “variation margin”, generally are made or received by the Portfolio each day depending on the fluctuations in the value of the underlying futures contracts, except that in the case of certain futures contracts payments may be made or received at settlement. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the futures contract is closed or expires, at which time the net gain or loss is reclassified to realized gain or loss on futures. Futures contracts held by Treasury-Hedged at October 31, 2013 are reflected in the Schedule of Investments. Treasury-Hedged held futures contracts for one month during the period ended October 31, 2013 of which the notional amount reflected in the Schedules of Investments is indicative of the average volume of the futures contracts for that one month period.

At October 31, 2013, the Funds held the following derivative instruments:

<b>Liabilities Derivatives</b>	
<b>Interest Rate Risk</b>	
Treasury-Hedged	
Futures contracts <sup>1</sup>	\$ 64,313

<sup>1</sup>Statements of Assets and Liabilities location: Variation Margin on futures contracts

The impact of transactions in derivative instruments, during the period ended October 31, 2013, were as follows:

<b>Interest Rate Risk</b>	
Treasury-Hedged	
Net change in unrealized appreciation (depreciation):	
Futures contracts <sup>1</sup>	\$ (64,313 )

<sup>1</sup>Statements of Operations location: Net change in unrealized appreciation (depreciation) on futures contracts

**Offsetting Assets and Liabilities**—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting agreements or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds do not offset securities lending or repurchase agreement assets and liabilities subject to enforceable master netting agreements or other similar agreements in the Statements of Assets and Liabilities.

The tables below present both gross and net information about the derivative instruments, securities lending transactions and repurchase agreements eligible for offset in the Statement of Assets and Liabilities, subject to master netting agreement or similar agreement, as well as financial collateral received or pledged (including cash collateral and margin) as of October 31, 2013. Collateral is disclosed up to 100% of the net amount of unrealized gain/loss or market value of the respective financial instruments. In general, collateral received or pledged exceeds the net amount of the unrealized gain/loss or market value of financial instruments. Refer to the Schedules of Investments and Statements of Assets and Liabilities for collateral received or pledged as of October 31, 2013, as well as the related disclosures in Note 9 (Securities Lending) and Note 2G. (Repurchase Agreements).

\* Gross amounts not offset in the Statements of Assets and Liabilities

**J. Other**—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date. The Funds record distributions received in excess of income from underlying investments as a reduction of cost of investments and/or an increase in realized gain. Such amounts are based upon estimates if actual amounts are not

available, and actual amounts of income, realized gain and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

**Note 3—Investment Management and Other Agreements**—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The Adviser has agreed, at least until September 1, 2014, for the Funds to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense caps, excluding interest expense on securities sold short, listed in the table below:

## MARKET VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

Treasury-Hedged	0.50	0.45	22,801	32,485

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' Distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

**Note 4—Investments**—For the period ended October 31, 2013, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

<b>Fund</b>	<b>Cost of Investments Purchased</b>	<b>Proceeds from Investments Sold</b>
BDC Income	\$3,037,570	\$2,139,156
Emerging Markets High Yield	40,286,997	13,988,747
Emerging Markets Local Currency	105,909,483	135,598,154
Fallen Angel	3,353,225	2,622,848
International High Yield	23,015,234	34,165,063
Investment Grade	58,958,374	1,450,000

LatAm	516,451	13,003,936
Mortgage REIT	13,693,212	6,996,423
Preferred Securities	14,651,120	16,981,154
Renminbi	248,808	432,416
Treasury-Hedged	2,362,104	12,147,120

For the period ended October 31, 2013, proceeds of short sales and the cost of purchases of short sale covers for Treasury-Hedged aggregated \$2,774,309 and \$12,358,525, respectively.

**Note 5—Income Taxes**—As of October 31, 2013, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

<b>Fund</b>	<b>Cost of Investments</b>	<b>Gross Unrealized Appreciation</b>	<b>Gross Unrealized Depreciation</b>	<b>Net Unrealized Appreciation (Depreciation)</b>
BDC Income	\$22,223,038	\$592,829	\$(273,612 )	\$319,217
Emerging Markets High Yield	283,269,494	2,518,469	(9,137,436 )	(6,618,967 )
Emerging Markets Local Currency	1,155,582,139	11,707,996	(99,342,910)	(87,634,914)
Fallen Angel	16,041,450	849,668	(74,120 )	775,548
International High Yield	115,640,617	4,338,551	(2,588,847 )	1,749,704
Investment Grade	75,000,280	211,512	(32,649 )	178,863
LatAm	12,832,213	147,126	(904,230 )	(757,104 )
Mortgage REIT	119,873,658	1,052,115	(23,325,275)	(22,273,160)
Preferred Securities	153,353,512	5,153,737	(12,437,265)	(7,283,528 )
Renminbi	5,089,269	169,436	(4,418 )	165,018
Treasury-Hedged	9,907,593	133,912	(115,811 )	18,101

The tax character of dividends paid to shareholders during the year ended April 30, 2013 was as follows:

<b>Fund</b>	<b>Ordinary Income April 30, 2013</b>	<b>Long-Term Capital Gains April 30, 2013</b>	<b>Return of Capital April 30, 2013</b>
BDC Income	\$60,056	\$ 2,044	\$ –
Emerging Markets High Yield	1,453,260	–	–
Emerging Markets Local Currency	46,699,890	110,066	1,604,444
Fallen Angel	668,160	–	–
International High Yield	6,222,480	–	–
Investment Grade	86,220	–	–
LatAm	474,290	4,800	–
Mortgage REIT	8,583,960	559,710	–
Preferred Securities	4,266,300	–	–
Renminbi	111,280	–	–

The tax character of current year distributions will be determined at the end of the current fiscal year.

On December 22, 2010 the Regulated Investment Company Modernization Act of 2010 (the “Act”) was enacted, which changed various technical rules governing the tax treatment of regulated investment companies. The changes are generally effective for taxable years beginning after the date of enactment. One of the more prominent changes addresses capital loss carryforwards. Under the Act, each Fund is permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in the pre-enactment taxable years,

which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under previous regulation.

At April 30, 2013, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

Fund	Post Effective- No Expiration Short-Term Capital Losses	Post Effective- No Expiration Long-Term Capital Losses
Investment Grade	\$ –	\$ 4,093
Preferred Securities	8,886	–
Renminbi	882	–
Treasury-Hedged	10,100	–

Realized gains or losses attributable to fluctuations in foreign exchange rates on investments and other foreign currency denominated assets and liabilities result in permanent book to tax differences which may affect the tax character of distributions and undistributed net investment income at the end of the Funds' fiscal year.

## MARKET VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

(continued)

For the period May 1, 2013 to October 31, 2013, the net realized gains and (losses) from foreign currency translations were as follows:

Emerging Markets Local Currency	\$(22,856,256)
International High Yield	3,738,570
LatAm	(582,463 )
Renminbi	22,676

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended April 30, 2010-2013), or expected to be taken in the Funds’ current tax year. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds’ financial statements.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period ended October 31, 2013, the Funds did not incur any interest or penalties.

**Note 6—Capital Share Transactions**—As of October 31, 2013, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, or multiple thereof, as follows:

Fund	Creation Units
BDC Income	50,000
Emerging Markets High Yield	200,000
Emerging Markets Local Currency	200,000
Fallen Angel	200,000
International High Yield	200,000
Investment Grade	100,000
LatAm	100,000
Mortgage REIT	50,000
Preferred Securities	50,000
Renminbi	100,000
Treasury-Hedged	200,000

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended October 31, 2013, the Funds had in-kind contributions and redemptions as follows:

Fund	<b>In-Kind Contributions</b>	<b>In-Kind Redemptions</b>
BDC Income	\$ 13,050,879	\$ 2,759,311
Emerging Markets High Yield	17,213,842	30,215,893
Emerging Markets Local Currency	–	191,412,570
Fallen Angel	4,417,060	–
International High Yield	5,158,133	162,309,263
LatAm	102,494	17,210,432
Mortgage REIT	37,647,467	49,607,151
Preferred Securities	17,454,561	26,080,113

**Note 7—Concentration and Other Risks**—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a “passive” or index approach to achieve each Fund’s investment objective. The Funds use a sampling approach in which the Adviser uses quantitative analysis to select bonds that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. Each Fund is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. Investments in the Funds involve risks similar to those of investing in any

bond fund, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices.

BDC Income, Fallen Angel, International High Yield and Treasury-Hedged may directly or indirectly invest in non-investment grade securities, often referred to as “junk bonds.” Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. BDC Income, International High Yield and Treasury-Hedged may not be able to sell bonds at desired prices and large purchases or sales of certain high-yield bond issuers may cause substantial fluctuations in share price, yield and total return.

BDC Income invests in business development companies which generally invest in less mature private companies or thinly traded U.S. public companies which involve greater risk than well-established publicly-traded companies.

Emerging Markets High Yield, Emerging Markets Local Currency, Fallen Angel, International High Yield, Investment Grade, LatAm, and Renminbi invest in foreign securities. Investments in foreign securities may involve a greater degree of risk than investments in domestic securities due to political, economic or social instability. Foreign investments may also be subject to foreign taxes and settlement delays. Since the Funds may have significant investments in foreign debt securities, they may be subject to greater credit and interest risks and greater currency fluctuations than portfolios with significant investments in domestic debt securities.

Mortgage REIT invests directly in mortgage REITs and is exposed to the risks specific to the real estate market as well as the risks that relate specifically to the way in which mortgage REITs are organized and operated. Mortgage REITs receive principal and interest payments from the owners of the mortgaged properties. Accordingly, mortgage REITs are subject to the credit risk of the borrowers to whom they extend credit. To the extent that a mortgage REIT invests in mortgage-backed securities, it may be subject to default risk or interest rate risk.

Mortgage REIT may invest in mortgage REITs that may trade at a discount or premium to their net asset value.

Preferred Securities invests in preferred securities which are essentially contractual obligations that declare distributions but permit the issuer to defer or suspend distributions. This may require the Fund to account for the distribution that has been deferred or suspended for tax purposes, even though it may not have received this income. Accordingly, preferred securities are subject to credit risk. Credit risk refers to the possibility that the issuer of a

security will be unable and/or unwilling to make timely distributions of dividends. In addition, preferred securities are subject to interest rate risk. Preferred securities interest rates may move in an inverse direction to that of general interest rates.

Treasury-Hedged invests directly in securities sold short and futures contracts which are designed to hedge against the price sensitivity of the below investment grade corporate bonds. A risk of hedging is the imperfect correlation between price movement of the securities sold short and the price movement of the Fund's investments.

At October 31, 2013, the Adviser owned approximately 50% of Renminbi.

**Note 8—Trustee Deferred Compensation Plan**—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

For each Fund, the expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

**Note 9—Securities Lending**—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds’ custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower or earning interest on the investment

## MARKET VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

(continued)

of the cash collateral. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities and shares the interest earned on the collateral and borrowing fees received with the securities lending agent. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in the Bank of New York Overnight Government Fund, the Bank of New York Institutional Cash Reserve, or repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. As of October 31, 2013, the loans outstanding and the collateral received are included in value of securities on loan and collateral for securities loaned, respectively, in the Statements of Assets and Liabilities.

**Note 10—Bank Line of Credit**—Certain Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended October 31, 2013, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of October 31, 2013
Emerging Markets Local Currency	19	\$2,297,526	1.59 %	\$—
Fallen Angel	1	109,000	1.58	—
International High Yield	17	1,909,753	1.59	—
Investment Grade	7	1,140,142	1.58	—
LatAm	22	1,330,591	1.60	—
Mortgage REIT	76	1,415,648	1.59	—
Preferred Securities	142	787,177	1.59	522,473

**Note 11—Custodian Fees**—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended October 31, 2013, there were no offsets to custodian fees.

**Note 12—Recent Accounting Pronouncements**—The Funds have adopted Accounting Standards Update (“ASU”) No. 2011-11, Balance Sheet (Topic 210) Disclosures about Offsetting Assets and Liabilities, as clarified by ASU No. 2013-01 “Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities” which requires entities to disclose gross and net information about derivative instruments, repurchase and reverse-repurchase agreements, and securities borrowing and lending transactions that are either: (1) offset in accordance with GAAP, or (2) subject to enforceable master netting arrangement or similar agreements, irrespective of whether they are offset in accordance with GAAP. In addition, ASU No. 2011-11 requires disclosure of collateral received and posted in connection with master netting agreements or similar arrangements. Additional disclosure requirements of ASU No. 2011-11 and ASU No. 2013-01 are reflected in Note 2 to the Funds’ financial statements.

**Note 13—Subsequent Events**—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

The following dividends from net investment income were declared and paid subsequent to October 31, 2013:

Fund	Ex-Date	Record Date	Payable Date	Per Share
Emerging Markets High Yield	11/1/13	11/5/13	11/7/13	\$0.1430
Emerging Markets Local Currency	11/1/13	11/5/13	11/7/13	\$0.1100
Fallen Angel	11/1/13	11/5/13	11/7/13	\$0.1270
International High Yield	11/1/13	11/5/13	11/7/13	\$0.3100
Investment Grade	11/1/13	11/5/13	11/7/13	\$0.0138
Preferred Securities	11/1/13	11/5/13	11/7/13	\$0.0593
Renminbi	11/1/13	11/5/13	11/7/13	\$0.0800
Treasury-Hedged	11/1/13	11/5/13	11/7/13	\$0.0700
Emerging Markets High Yield	12/2/13	12/4/13	12/6/13	\$0.1245
Emerging Markets Local Currency	12/2/13	12/4/13	12/6/13	\$0.1100
Fallen Angel	12/2/13	12/4/13	12/6/13	\$0.1270
International High Yield	12/2/13	12/4/13	12/6/13	\$0.1550
Investment Grade	12/2/13	12/4/13	12/6/13	\$0.0101
LatAm	12/2/13	12/4/13	12/6/13	\$0.0900
Preferred Securities	12/2/13	12/4/13	12/6/13	\$0.1000
Renminbi	12/2/13	12/4/13	12/6/13	\$0.1300

Effective December 10, 2013, LatAm changed its name from LatAm Aggregate Bond ETF to Emerging Markets Aggregate Bond ETF. The Fund also changed its index from the BofA Merrill Lynch Broad Latin America Bond Index to Market Vectors EM Aggregate Bond Index. Additionally, shares will now be issued and redeemed by the Fund in Creation Units or multiples of 200,000.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

(unaudited)

At a meeting held on September 11, 2013, (the “Meeting”), the Board of Trustees (the “Board”) of Market Vectors ETF Trust (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), approved an investment management agreement between the Trust and Van Eck Associates Corporation (the “Adviser”) (the “Investment Management Agreement”) with respect to the Market Vectors Puerto Rico Municipal Index ETF (the “Fund”).

The Board’s approval of the Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of the Meeting, the Trustees received materials from the Adviser, including expense information for other funds. The Adviser provided the Trustees with information regarding, among other things, the various aspects of the Fund’s proposed investment program, fee arrangements and service provider arrangements. The Independent Trustees’ consideration of the Investment Management Agreement was based, in part, on information obtained through discussions with management of the Fund and the Adviser at the Meeting, information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others proposed to be involved in the management of the Fund. In evaluating the terms of the Investment Management Agreement and the proposal for the Fund to adopt a unitary fee structure, the Trustees considered the risks being assumed by the Adviser under the unitary fee structure arrangement and the potential expense stability that may inure to the benefit of shareholders of the Fund. The Trustees also considered the terms and scope of services that the Adviser would provide under the Investment Management Agreement, including the Adviser’s agreement to pay all of the direct expenses of the Fund (excluding interest expense, offering costs, trading expenses, taxes and extraordinary expenses).

In addition, the Trustees were given data on the exchange-traded fund market and expense ratios of other funds. The Trustees considered the benefits, other than the fees under the Investment Management Agreement, that the Adviser would receive from serving as adviser to the Fund, including any it may receive from providing administrative services to the Fund and from an affiliate of the Adviser serving as distributor to the Fund. The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability of the Fund to the Adviser because the Fund had not yet commenced operations. In addition, because the Fund had not yet commenced operations, the Trustees could not consider the historical performance or the quality of services previously provided to the Fund, although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees’ knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Meeting as part of their consideration of the Investment Management Agreement.

In voting to approve the Investment Management Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreement are reasonable and fair in light of the services to be performed, the fees paid by certain other funds, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that the Investment Management Agreement is in the interest of the Fund and the Fund's shareholders.

## Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS/A

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a Market Vectors ETF Trust (the "Trust") Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus contains this and other information about the investment company. Please read the prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 1.888.MKT.VCTR, or by visiting [vaneck.com](http://vaneck.com), or on the Securities and Exchange Commission's website at <http://www.sec.gov>.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at <http://www.sec.gov> and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1.202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 1.888.MKT.VCTR or by visiting [vaneck.com](http://vaneck.com).
