MARKET VECTORS MUNICIPAL INCOME ETFS

(unaudited)

Dear Shareholder:

On October 31 of this year, assets under management in the Market Vectors Municipal Income ETFs reached a record level of US\$2.6 billion, surpassing the previous high of US\$2.3 billion recorded in February 2013.

Meeting the market's demand for municipal bonds in which to invest has become a challenge. Even by October 2014, reinvestment demand, as measured by calls, maturities and coupons, had outpaced new issuance supply from the primary market by approximately 33%.

Through the end of October, there was only about \$264 billion in new bonds to meet reinvestment demand of around \$351 billion; that does not even take into consideration either new investors or non-traditional buyers such as investors shifting assets from high-yield corporate bonds because of the more attractive yields in high-yield munis.

This imbalance of supply versus demand has been a big theme this year, and has been the primary driver of continuing very strong performance which, in many instances, has exceeded the expectations analysts may have had at the start to the year.

\$351 Billion in Demand from Bonds Being Called, Bonds Maturing, and Coupon Payments through 10/31/2014

Management Discussion (unaudited)

Market Review

During the six month period ended October 31, 2014, the municipal bond market (munis) continued to demonstrate its resilience in the face of a number of challenges. For example, despite the extension of the Federal Reserve Bank's (the "Fed") "taper" program, which itself ended at the end of the period under review, and building on the momentum they developed during the first three months 2014, munis continued to experience inflows. In stark contrast to negative performance across the board for the year ended April 30, 2014, in the six months to October 31, 2014 all the Market Vectors Municipal Income ETFs performed positively.

Source: Van Eck Global. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Investment returns and ETF share values will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. ETF returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Current performance may be lower or higher than performance data quoted.

Short Municipal Index ETF/Pre-Refunded Municipal Index ETF

Among short munis, the state general obligation and transportation sectors contributed most to the total return of the Short Municipal Index ETF. All other nine sectors contributed positive performance, but the industrial development revenue/pollution control revenue (IDR/PCR) and pre-refunded sectors contributed the least. In terms of state/U.S. territory, New York and California contributed the most to the total return of the Fund, while Puerto Rico was the single detractor from performance.

Munis from California contributed by far the most to the total return of the Pre-Refunded Municipal Index ETF. Grouped by state/U.S. territory, only munis from Maryland actually detracted from performance, and then only minimally.

Intermediate Municipal Index ETF

Munis from California and New York contributed the most to the total return of the Fund, while, when grouped by state/U.S. territory, those from Puerto Rico were the only detractors from performance. The sectors with the largest and second largest average weightings in the index, state general obligation and local general obligation, were the two largest contributors to the Fund's performance. While no sectors detracted from performance, the pre-refunded and health care facilities sectors contributed the least over the period under review.

MARKET VECTORS MUNICIPAL INCOME ETFS

(unaudited)

Long Municipal Index ETF

All sectors contributed positively to the Fund's total return, with the hospital sector being the greatest contributor. Municipal bonds issued by New York contributed by far the most to performance. Grouped by state/U.S. territory, municipal bonds issued by Puerto Rico were the only detractors from performance.

Short High-Yield Municipal Index ETF/High-Yield Municipal Index ETF

The Short High-Yield Municipal Index ETF traded for the full six month period to October 31, 2014. While the hospital and IDR/PCR sectors contributed most to performance, the electric sector was the one detractor from performance. Every single state/U.S. territory represented in the Fund, except for New Hampshire, Louisiana, and Puerto Rico, contributed positively to the Fund's total return, with munis from Texas and New Jersey contributing the most to performance.

In the High-Yield Municipal Index ETF, every sector except one – electric – contributed to overall performance. While the hospital and IDR/PCR sectors contributed by far the most to total return, the pre-refunded and housing sectors contributed the least. Munis from Florida made the greatest contribution to performance and those from Oklahoma, Nevada, and Puerto Rico detracted most from performance.

CEF Municipal Income ETF

Over the six months under review, the average discount at which municipal closed-end funds (CEFs) traded at the beginning of the period continued to widen inexorably, if choppily. From a starting point of approximately -5.9% on May 1, the average discount had widened to approximately -8.3% by October 31. Since many municipal CEFs use leverage, and short-term rates remained low during the period under review, the cost of leverage, too, remained relatively low. This was, therefore, beneficial to the municipal closed-end fund market.

CEF MUNICIPAL INCOME ETF

PERFORMANCE COMPARISON

October 31, 2014 (unaudited)

Total Return	Share Price ¹	NAV	CEFMXTR ²
Six Months	4.96 %	5.00 %	5.20 %
One Year	15.83 %	15.51 %	15.99 %
Life* (annualized)	7.08 %	7.05 %	7.47 %
Life* (cumulative)	25.37 %	25.25 %	26.88 %

**since 7/12/11*

Commencement date for the Market Vectors CEF Municipal Income ETF (XMPT) was 7/12/11.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (7/12/11) to the first day of secondary market trading in shares of the Fund (7/13/11), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.60% / Net Expense Ratio 0.40%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding interest expense, offering costs, trading expenses, taxes, extraordinary expenses and Acquired Fund Fees and Expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

S-Network Municipal Bond Closed-End Fund IndexSM is calculated and maintained by S-Network Global Indexes, LLC. S-Network does not sponsor, endorse, or promote the Fund and bears no liability with respect to the Fund or any security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

S-Network Municipal Bond Closed-End Fund IndexSM (CEFMXTR) is composed of shares of municipal closed-end funds listed in the United States that are principally engaged in asset management processes designed to produce federally tax-exempt annual yield.

HIGH-YIELD MUNICIPAL INDEX ETF

PERFORMANCE COMPARISON

October 31, 2014 (unaudited)

Total Return	Share Price ¹	NAV	LMEHTR ²
Six Months	5.43 %	5.68 %	5.53 %

Five Year	6.00 %	6.36 %	7.98 %
Life* (annualized)	9.61 %	9.63 %	10.88 %
Life* (cumulative)	69.30 %	69.44 %	80.87 %

*since 2/4/09

Commencement date for the Market Vectors High-Yield Municipal Index ETF (HYD) was 2/4/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/4/09) to the first day of secondary market trading in shares of the Fund (2/5/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Annual Fund Operating Expenses 0.35%

The Investment Management Agreement between Market Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Funds or security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays Municipal Custom High Yield Composite Index (LMEHTR) is made up of a 25%/75% blend of investment grade triple-B and non-investment grade munis, and draws 75% of its holdings from bonds issued as part of transaction sizes of \$100 million or more. To be included in the Index, bonds must have an outstanding par value of at least \$3 million for non-investment grade and \$7 million for investment grade; 25% of index in investment-grade triple-B bonds issued as part of transaction sizes of at least \$100 million in value; 50% of index in non-investment grade bonds issued as part of transaction of at least \$100 million; 25% of index in non-investment grade bonds issued as part of transaction of \$20-\$100 million in size; fixed rate; nominal maturity of greater than one year; dated-date after 12/31/1990.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Fund or security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays Municipal High Yield Short Duration Index (BMHYTR) is a market size weighted index composed of publicly traded municipal bonds that cover the U.S. dollar denominated high yield short-term tax-exempt bond market. The majority of the Index’s constituents are from the revenue sector, with some constituents being from the general obligation sector. The revenue sector is divided into industry sectors that consist of but may not be limited to electric, health care, transportation, education, water & sewer, resource recovery, leasing and special tax. As of December 31, 2013, the Index consisted of approximately 1,619 bonds and 497 issuers.

SHORT MUNICIPAL INDEX ETF

PERFORMANCE COMPARISON

October 31, 2014 (unaudited)

Total Return	Share Price ¹	NAV	LMT1TR ²
Six Months	0.99 %	0.82 %	1.25 %
One Year	1.82 %	1.59 %	2.23 %
Five Year	2.30 %	2.44 %	3.03 %
Life* (annualized)	2.96 %	2.97 %	3.57 %
Life* (cumulative)	21.53 %	21.62 %	26.47 %

*since 2/22/08

Commencement date for the Market Vectors Short Municipal Index ETF (SMB) was 2/22/08.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/22/08) to the first day of secondary market trading in shares of the Fund (2/26/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Annual Fund Operating Expenses 0.20%

The Investment Management Agreement between Market Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Fund or security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays AMT-Free Short Continuous Municipal Index (LMT1TR) is comprised of bonds that must be rated investment-grade (Baa3/BBB- or higher) by at least two of the following ratings agencies: Moody’s, S&P, Fitch. If only two of the three agencies rate the security, the lower rating is used to determine index eligibility. If only one of the three agencies rates a security, the rating must be investment-grade. They must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must be fixed rate, have a dated-date within the last five years, and must be at least one year but less than six years from their maturity date. Remarketed issues, taxable municipal bonds, AMT municipal bonds, bonds with floating rates, and derivatives, are excluded from the benchmark.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the period, May 1, 2014 to October 31, 2014.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as fees on purchase payments. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Beginning	Ending	Annualized	Expenses Paid

Expenses are equal to the Fund's annualized expense ratio (for the six months ended October 31, 2014) multiplied * by the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

** Assumes annual return of 5% before expenses

(a) Commencement of operations

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period,

- (b) reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

(c) Not Annualized

(d) Annualized

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

October 31, 2014 (unaudited)

Note 1—Fund Organization—Market Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of October 31, 2014, offers fifty nine investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: CEF Municipal Income ETF (“CEF Municipal”), High-Yield Municipal Index ETF (“High-Yield”), Intermediate Municipal Index ETF (“Intermediate”), Long Municipal Index ETF (“Long”), Pre-Refunded Municipal Index ETF (“Pre-Refunded”), Short High-Yield Municipal Index ETF (“Short High-Yield”) and Short Municipal Index ETF (“Short”), each a “Fund” and collectively the “Funds”. Each Fund’s investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its Index. The Funds (except CEF Municipal) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the “Adviser”) uses quantitative analysis to select bonds and other securities that represent a sample of securities in the Index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in the Index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund’s investment objective. CEF Municipal seeks to achieve its objectives through a portfolio of securities in substantially the same weighting as its index.

The Funds’ commencement of operations dates and their respective Indices are presented below:

Fund	Commencement of Operations	Index
CEF Municipal	July 12, 2011	S-Network Municipal Bond Closed-End Fund Index SM
High-Yield	February 4, 2009	Barclays Municipal Custom High Yield Composite Index
Intermediate	December 4, 2007	Barclays AMT-Free Intermediate Continuous Municipal Index
Long	January 2, 2008	Barclays AMT-Free Long Continuous Municipal Index
Pre-Refunded	February 2, 2009	Barclays Municipal Pre-Refunded-Treasury-Escrowed Index
Short High-Yield	January 13, 2014	Barclays Municipal High Yield Short Duration Index
Short	February 22, 2008	Barclays AMT-Free Short Continuous Municipal Index

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standard Codification (“ASC”) 946 Financial Services - Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities for which market quotations are readily available are valued on the basis of quotations furnished by an independent pricing service approved by the Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and/or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code B. applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

C.

Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund. Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund’s Schedule of Investments.

Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (“OTC”) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments

to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments during the period ended October 31, 2014.

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date.

F. The Funds record distributions received in excess of income from underlying investments as a reduction of cost of investments and/or an increase in realized gain. Such amounts are based upon estimates if actual amounts are not available, and actual amounts of income, realized gain and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The High Yield, Intermediate, Long, Pre-Refunded, Short High-Yield and Short Funds utilize a unitary management fee where the Adviser is responsible for all expenses of the Funds, except the fee payment under the Investment Advisory Agreement, interest expenses, offering costs, trading expenses, taxes and extraordinary expenses. For CEF Municipal, the Adviser voluntarily waived its fees and assumed certain fund expenses during this period to limit total annual operating expenses to the expense limitation listed below.

The current management fee rate, expense limitation and the amounts waived/assumed by the Adviser for the period ended October 31, 2014 are as follows:

Fund	Expense Limitation	Management Fee Rate	Waiver of Management Fees
CEF Municipal*	0.40%	0.40%	\$35,709

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

The Adviser has agreed, at least until September 1, 2015, to voluntarily waive or limit its fees and to assume as its *own expense certain expenses otherwise payable by the Fund so that the Fund's total annual operating expenses do not exceed the expense limitation, excluding acquired fund fees and expenses, interest expense, offering cost, trading expenses, taxes and extraordinary expenses.

Fund	Unitary Management Fee Rate	
High-Yield	0.35	%
Intermediate	0.24	
Long	0.24	
Pre-Refunded	0.24	
Short High-Yield	0.35	
Short	0.20	

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' Distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Note 4—Investments—For the period ended October 31, 2014, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
CEF Municipal	\$1,017,840	\$1,026,443
High-Yield	379,495,134	47,838,919
Intermediate	147,108,089	6,877,150
Long	11,925,109	2,329,912
Pre-Refunded	6,361,732	6,295,229
Short High-Yield	54,343,100	9,574,607
Short	30,477,005	2,770,200

Note 5—Income Taxes—As of October 31, 2014, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

Fund	Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
CEF Municipal	\$39,207,563	\$108,073	\$(1,543,363)	\$(1,435,290)
High-Yield	1,265,302,791	60,480,040	(29,036,030)	31,444,010
Intermediate	747,519,426	23,456,555	(1,016,058)	22,440,497
Long	84,035,697	4,477,465	(222,130)	4,255,335
Pre-Refunded	26,424,024	355,698	(43,318)	312,380
Short High-Yield	69,905,500	1,283,556	(382,888)	900,668
Short	262,262,172	2,122,523	(377,838)	1,744,685

The tax character of dividends paid to shareholders during the year ended April 30, 2014 was as follows:

Fund	Tax-Exempt Dividends	Ordinary Income	Long-Term Capital
------	-------------------------	--------------------	----------------------

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

	April 30, 2014	April 30, 2014	Gains April 30, 2014
CEF Municipal	\$1,478,186	\$13,829	\$—
High-Yield	48,957,547	850,630	2,771,483
Intermediate	16,046,500	97,850	—
Long	3,656,495	30,085	—
Pre-Refunded	382,660	—	—
Short High-Yield	74,410	590	—
Short	3,032,010	53,310	—

The tax character of current year distributions will be determined at the end of the current fiscal year.

At April 30, 2014, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

Fund	No Expiration Short-Term Capital Losses	No Expiration Long-Term Capital Losses	Amount Expiring in the Year Ended December 31		
			April 2019	April 2018	April 2017
CEF Municipal	\$637,819	\$6,218	\$—	\$—	\$—
High-Yield	1,213,722	—	—	—	—
Intermediate	209	—	—	—	—
Long	310,787	—	78,825	1,554,202	603,978
Pre-Refunded	244,986	344,688	—	—	—
Short High-Yield	92,436	—	—	—	—
Short	32,634	20,219	—	—	—

During the year ended April 30, 2014 Short utilized \$1,523 of prior year capital loss carryforwards.

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken

on return filings for open tax years (tax years ended April 30, 2011 - 2014), or expected to be taken in the Funds' current tax year. Therefore, no provision for income tax is required in the Funds' financial statements.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period ended October 31, 2014, the Funds did not incur any interest or penalties.

Note 6—Capital Share Transactions—As of October 31, 2014, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 100,000 shares, except for CEF Municipal, which has Creation Units consisting of 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended October 31, 2014, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
CEF Municipal	\$5,423,936	\$258,107
High-Yield	17,990,216	38,842,745
Intermediate	114,050,283	113,503,890
Long	10,076,505	9,935,636
Pre-Refunded	4,903,113	12,147,463
Short High-Yield	4,783,730	4,945,293
Short	38,656,997	38,635,091

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect gross shareholder transactions including any cash component of the transactions.

Note 7—Concentration and Other Risks—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a “passive” or index approach to achieve each Fund's investment objective. The Funds (except CEF Municipal) use a sampling approach in which the Adviser uses quantitative analysis to select bonds that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. Each Fund is classified as a non-diversified fund under the 1940 Act. Non-diversified funds

generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. Investments in municipal securities involve risks similar to those of investing in any fund of fixed income securities traded on exchanges, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices.

High-Yield and Short High-Yield invest in non-investment grade securities, often referred to as “junk bonds.” Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. High-Yield and Short High-Yield may not be able to sell bonds at desired prices and that large purchases or sales of certain high-yield bond issues may cause substantial fluctuations in share price, yield and total return.

CEF Municipal invests in closed-end funds that may trade at a discount or premium to their net asset value. A closed-end fund may be leveraged as part of its investment strategy. As a result, the Fund may be indirectly exposed to the effects of leverage through its investment in the underlying funds. Investments in underlying funds that use leverage may cause the value of the Fund’s shares to be more volatile than if the Fund invested in underlying funds that do not utilize leverage.

Note 8–Trustee Deferred Compensation Plan–The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Effective September 1, 2010, High Yield, Intermediate, Long, Pre-Refunded and Short Funds adopted a unitary management fee where the Adviser is responsible for all expenses of the Funds. Therefore, the expense for the Plan for these Funds and for Short High-Yield are included in “Management fees”. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities for amounts accrued through September 1, 2010 and in “Due to Adviser” for amounts accrued after September 1, 2010.

For CEF Municipal, the expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

Note 9—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (“Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended October 31, 2014, the following Funds borrowed under this facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate
High-Yield	7	2,094,106	1.49
Intermediate	5	858,192	1.48
Pre-Refunded	32	72,383	1.49
Short High-Yield	33	374,288	1.49
Short	5	151,965	1.49

As of October 31, 2014, the Funds had no outstanding loan balances.

Note 10—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended October 31, 2014, there were no offsets to the custodian fees.

Note 11–Subsequent Events–The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

The following dividends from net investment income were declared and paid subsequent to October 31, 2014:

Fund	Ex-Date	Record Date	Payable Date	Per Share
CEF Municipal	11/3/14	11/5/14	11/7/14	\$0.1150
High-Yield	11/3/14	11/5/14	11/7/14	\$0.1200
Intermediate	11/3/14	11/5/14	11/7/14	\$0.0475
Long	11/3/14	11/5/14	11/7/14	\$0.0608
Pre-Refunded	11/3/14	11/5/14	11/7/14	\$0.0164
Short High-Yield	11/3/14	11/5/14	11/7/14	\$0.0686
Short	11/3/14	11/5/14	11/7/14	\$0.0171
CEF Municipal	12/1/14	12/3/14	12/5/14	\$0.1200
High-Yield	12/1/14	12/3/14	12/5/14	\$0.1109
Intermediate	12/1/14	12/3/14	12/5/14	\$0.0467
Long	12/1/14	12/3/14	12/5/14	\$0.0556
Pre-Refunded	12/1/14	12/3/14	12/5/14	\$0.0136
Short High-Yield	12/1/14	12/3/14	12/5/14	\$0.0622
Short	12/1/14	12/3/14	12/5/14	\$0.0160

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited)

At a meeting held on June 6, 2014 (the “Renewal Meeting”), the Board of Trustees (the “Board”) of Market Vectors ETF Trust (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), approved (i) the continuation of the investment management agreements (the “Municipal Investment Management Agreements”) between the Trust and Van Eck Associates Corporation (the “Adviser”) with respect to the Market Vectors California Long Municipal Index ETF, High-Yield Municipal Index ETF, Intermediate Municipal Index ETF, Long Municipal Index ETF, Massachusetts Municipal Index ETF, New Jersey Municipal Index ETF, New York Long Municipal Index ETF, Ohio Municipal Index ETF, Pennsylvania Municipal Index ETF, Pre-Refunded Municipal Index ETF, Puerto Rico Municipal Index ETF, Short High-Yield Municipal Index ETF and Short Municipal Index ETF (the “Municipal Funds”) and (ii) the continuation of the investment management agreement between the Trust and the Adviser (the “CEF Investment Management Agreement”) with respect to Market Vectors CEF Municipal Income ETF (the “CEF Muni Fund” and together with the Municipal Funds, the “Funds”). The Municipal Investment Management Agreements and the CEF Investment Management Agreement are collectively referred to as the “Investment Management Agreements.”

The Board’s approval of the Investment Management Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 9, 2014. At that meeting, the Trustees discussed the information the Adviser and Lipper Inc. (“Lipper”), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and (where applicable) the Funds’ peer funds (other index-based exchange-traded funds (“ETFs”)), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser’s relationship with the Funds. In reviewing performance and expense information for certain of the Funds against their peer groups, the Trustees considered that some of the Funds generally invest in a different group of issuers than some or all of the other funds in a Fund’s designated peer group. They also considered the fact that Market Vectors Short High-Yield Municipal Index ETF had only recently commenced operations and therefore had no meaningful operational history that could be used for comparative purposes, since the expense information prepared by Lipper was based on estimated amounts and the performance comparisons provided by Lipper covered approximately a one-month period (January 13, 2014 (the date operations commenced for the Fund) through February 28, 2014). For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Investment Management Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and the May 9, 2014 meeting and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreements, including, with respect to the CEF Muni Fund, the Adviser's commitment to waive certain fees and/or pay expenses of the CEF Muni Fund to the extent necessary to prevent the operating expenses of the CEF Muni Fund from exceeding agreed upon limits for a period of time and, with respect to the Municipal Funds, the Adviser's agreement to pay all of the direct expenses of the Municipal Funds (excluding interest expense, offering costs, trading expenses, taxes and extraordinary expenses).

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance over relevant periods of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (i.e., measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any fair value adjustments to the underlying securities. Based on the foregoing, the Trustees concluded that the investment performance of the Operating Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser and the current status, as they understood it, of the Adviser's compliance environment.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited) (continued)

As noted above, the Trustees were also provided various data from Lipper comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund, except the CEF Muni Fund, had a total expense ratio (after the effect of any applicable expense limitation) below the average and the median of its respective peer group of funds. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received. The Trustees noted that this comparative data, while generally helpful, was limited in its usefulness in many cases due to the lack of a large number of directly comparable ETFs and, as noted above, the very limited operating history of Market Vectors Short High-Yield Municipal Index ETF.

The Trustees also considered any other benefits received by the Adviser from serving as adviser to the Funds and from providing certain administrative services to the Funds, and from an affiliate of the Adviser serving as distributor for the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees noted that certain Funds were still relatively new products, which therefore made it difficult to quantify the potential variability in net assets and thus determine the sustainability of any potential economies of scale which may exist. The Trustees also considered, with respect to the Municipal Funds, the risks being assumed by the Adviser under the unitary fee structure arrangement and the potential expense stability that may inure to the benefit of shareholders of the Municipal Funds. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser in respect of the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Trustees did not consider historical information about the profitability to the Adviser of Market Vectors California Long Municipal Index ETF, Massachusetts Municipal Index ETF, New Jersey Municipal Index ETF, New York Long Municipal Index ETF, Ohio Municipal Index ETF, Pennsylvania Municipal Index ETF and Puerto Rico Municipal Index ETF because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees could not consider the historical performance or the quality of services previously provided to each of these Funds although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 9, 2014 meeting, as part of their consideration of the Investment Management Agreements.

In voting to approve the continuation of the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a Market Vectors ETF Trust (the "Trust") Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus contains this and other information about the investment company. Please read the prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 1.888.MKT.VCTR, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at <http://www.sec.gov>.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at <http://www.sec.gov> and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1.202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 1.888.MKT.VCTR or by visiting vaneck.com.

Dear Shareholder:

Emerging markets bonds, as an asset class, have evolved significantly over the past 20 years, growing in size, diversity, and liquidity. We believe that while these bonds deserve a permanent place in investor portfolios, many investors are just not aware of the full breadth of choices they have.

Improved economic policies, financial positions (especially growing reserves), and credit profiles have helped usher in “new worlds” within the asset class. This has created a diverse mix of hard and local currency bonds issued by both sovereigns and corporations.

The market is approximately six times as large as it was in 2004, and roughly twice the size of the U.S. high yield market. It offers investors more income, capital appreciation, and diversification potential through a variety of country, credit and maturity exposures: 60 countries, 20 currencies, and over 600 corporate issuers.

U.S. dollar-denominated sovereign debt tends to be how many investors get exposure to emerging markets bonds, but these bonds actually account for less than 20% of the total emerging markets bond universe.

Emerging Markets Bond Markets Continue to Grow

Source: EM Local Sov — J.P. Morgan GBI-EM Global Diversified Index, EM USD Sov — J.P. Morgan EMBI Global Diversified Index; EM USD Corp — J.P. Morgan CEMBI Broad Index. Data as of September 30, 2014. Not intended to be a forecast of future events, a guarantee of future results or investment advice. Current market conditions may not continue.

Market Vectors Emerging Markets Aggregate Bond ETF (NYSE Arca: EMAG), together with the other emerging markets debt-focused offerings in our ETF family, Market Vectors Emerging Markets High Yield Bond ETF (NYSE Arca: HYEM) and Market Vectors Emerging Markets Local Currency Bond ETF (NYSE Arca: EMLC), are all there

to help give investors flexibility in tailoring their approach to emerging markets debt exposure.

EMAG in particular provides an efficient means for investors to gain access to a broad exposure of emerging markets bonds in a single ETF, while offering two key benefits: currency and credit quality diversification. In these uncertain times, the former may help reduce volatility, the latter may help reduce risk.

Going forward, we will, as always, continue to seek out and evaluate the most attractive opportunities for you as a shareholder, and we encourage you stay in touch with us through the videos and email subscriptions available on our website (<http://www.vaneck.com>). Should you have any questions, please contact us at 1.888.MKT.VCTR or visit www.marketvectorsetfs.com.

Management Discussion (unaudited)

The suite of Market Vectors Income ETFs can most accurately be divided into three groups: equity income, international bonds, and corporate bonds. Over the six months ended October 31, 2014, the performances of individual funds were mostly positive, with only three funds posting negative returns. All three equity income ETFs posted positive total returns, two out of the three ETFs in the corporate bond group posted positive returns, and three out of the five ETFs in the international bond group posted positive total returns, as shown below.

Source: Van Eck Global. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Bonds and bond funds will decrease in value as interest rates rise. Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

EQUITY INCOME

Business Development Companies (BDCs)

BDCs typically lend to, and invest in, small privately held companies. An improving economy and increased lending benefit the industry, as do active buy-out and IPO markets.¹ Having been hit particularly hard in September, BDCs continued to fall through the middle of October, but recovered somewhat to end the month higher than they began. While giving back nearly all gains made in the first four months of the six-month period, they ended the half year on October 31, 2014 posting a positive performance of 1.49%. They underperformed relative to the broader market as measured by the S&P 500® Index, which posted a return of 8.22%.[‡](A continuing driver of this underperformance was the decision, at the end of February 2014, by S&P to exclude BDCs from its U.S. indices,² a decision Russell Indices also took, at the beginning of March, negatively impacting the industry thereafter.³) The industry ended the period offering a dividend yield of 8.76% as measured by the Market Vectors US Business Development Index⁴.

MARKET VECTORS INCOME ETFs

(unaudited)

Mortgage REITs

Since December 2013, when the Federal Reserve Bank (the “Fed”) announced the start of its “taper” program with a reduction of \$10 billion in its monthly bond purchases, there have been six further such reductions of \$10 billion. In mid-September the Fed announced that it planned to end, in October, its bond-buying program, after a final purchase of \$15 billion.⁵ The end of its bond buying was confirmed at the Fed’s meeting on October 29, 2014.⁶ In the meantime, however, the Fed continues to signal its commitment to low interest rates.⁷ The six months ended October 31, 2014 continued to be an unsettled time for mortgage REITS. September, in particular, was challenging, as, during the month, they gave back gains made in the previous four months. October, however, saw mortgage REITS clawing their way back and posting a positive performance for the six-month period under review. Mortgage REITs ended the period offering a dividend yield of 10.45% as measured by the Market Vectors Global Mortgage REITs Index.⁸

Preferred Securities ex Financials

Preferred securities are considered hybrid securities because they have features of both debt and equity securities. Historically, a company’s preferred securities have offered higher yields than its common stock and senior debt. The Wells Fargo® Hybrid and Preferred Securities ex Financials Index excludes traditional financial companies which have been more volatile than other sectors historically.⁹ For the six-month period ended October 31, 2014 the Fund posted a positive performance. All economic sectors except two – industrials and materials – contributed positive returns, with performance driven primarily by REITs. The industry ended the period offering a dividend yield of 6.27% as measured by the Wells Fargo Hybrid and Preferred Securities ex Financials Index.

INTERNATIONAL BOND

Emerging Markets Local Currency Bonds

Despite the Fed continuing to taper its bond buying program throughout the six months under review, from the beginning of May to just before the last week of July, local currency bonds recorded modest gains. However, on the back of concerns about prospects of lower emerging markets economic growth and a strengthening U.S. dollar, the period from the last week in July through the months of August and September saw these bonds shed all those gains, and more. While October was a choppy month (and marked the end of the U.S. governments bond buying program), and local currency bonds ended the month slightly higher than they started it, the Fund posted a negative return for the entire six-month period ended October 31, 2014.

In terms of local currency, bonds denominated in Brazilian Real and Thai Baht contributed most to the Fund’s total return, while the bonds denominated in Russian Ruble and Polish Zloty were the greatest detractors from performance.

Emerging Markets Aggregate Bonds

Both sovereign and corporate bonds denominated in hard currency contributed positively to performance, with corporates performing better than sovereigns, local currency corporates and sovereigns both detracted from performance, with local currency sovereigns detracting the most from returns. The Fund's U.S. dollar allocation contributed most to returns, and Russian bonds were the largest detractor from performance.

Emerging Markets High Yield Bonds

Overall, emerging markets corporate bonds continue to be a fast growing asset class. Emerging markets corporate debt is now nearly as large as the U.S. high yield corporate debt market.

While Chinese and Russian bonds were the greatest contributors to the Fund's total return, Venezuelan bonds were by far the greatest detractors. On a sector level, financial bonds were the greatest contributors to total return and, among all the other sectors, only energy sector bonds detracted from performance.

International High Yield Bonds

Non-U.S. high-yield bonds have continued to provide an opportunity to diversify not only geographically, but also in terms of currency, with bonds denominated, for example, in Euros, Sterling and Canadian dollars. Europe accounts for around 60% of global ex-U.S. high-yield corporate bond market value, and emerging markets represent about 30%.

Technology was the single sector to contribute positively to overall Fund performance, with the financial sector detracting most from performance. Only U.S. dollar-denominated bonds contributed positively to Fund total return. And while both Sterling- and Canadian dollar-denominated bonds detracted from Fund performance, Euro-denominated bonds performed far worse than bonds in either of these two currencies.

Renminbi Bonds

Chinese Renminbi-denominated bonds, both issued and traded outside China, constitute what is known as the “dim sum bond market”. Dim sum bonds provide an alternative way of gaining exposure to China’s currency and market, rather than non-deliverable forward contracts and/or QFII (Qualified Foreign Institutional Investor), which may not be practical. Investors in this market not only receive bond interest payments, but also gain exposure to China’s currency.

All sectors contributed positively to performance. While financial and utilities bonds were the best performers during the six-month period ended October 31, 2014, energy and communications bonds contributed the least to returns.

CORPORATE BOND

Fallen Angel Bonds

“Fallen angels” are high-yield corporate bonds that were once investment grade, but have been downgraded to noninvestment grade. They warrant distinction for an embedded value proposition that is not common to all of high yield: fallen angels tend to have a higher rate of ascension to investment grade than original issue high yield bonds. The default rate in this segment has averaged 3.71% historically, below the 4.60% average for all U.S. high yield.¹⁰

Communications and energy were the two best performing sectors during the period under review. While all sectors performed positively, the industrial and technology sectors contributed least to the Fund’s total return. Over the six-month period, fallen angel bonds outperformed broad market high-yield bonds by more than double.

El Paso Energy 7.75% 01/15/32 bond (2.3% of Fund net assets) and Embarq 8.00% 06/01/36 bond (2.5% of Fund net assets) were the top two performing bonds, while Avon Products 4.60% 03/15/23 bond (1.4% of Fund net assets) and Cliffs Natural Resources 4.88% 10/01/20 bond (1.0% of Fund net assets) were the bottom two performing bonds.

Investment Grade Floating Rate Notes

Floating rate notes (FRNs) are investment grade-rated corporate debt issues with variable coupons that reset to current interest rates, based on a particular benchmark. The coupons on these securities fluctuate with that benchmark. The combination of low average years to maturity, typically in the 1-5 year range, and floating interest rates creates the potential for relatively low price fluctuations. In addition, as short-term interest rates rise, portfolio securities reset to higher yields.

The top two performing notes were AA- rated General Electric Capital Corp. FRN 0.62% 05/05/26 (1.0% of Fund net assets)† and BBB+ rated Citigroup, Inc. FRN 1.93% 05/15/18 (1.9% of Fund net assets)†. The bottom two performing notes were both A rated and from American Express Credit Corp.: FRN 0.50% 06/05/17 (1.3% of Fund net assets)† and FRN 0.78% 03/18/19 (1.2% of Fund net assets)†.¹¹

Treasury-Hedged High Yield Bonds

The Treasury-Hedged High Yield Bond ETF tracks an index that combines the more liquid portion of the high-yield universe with short positions in 5-year U.S. Treasury notes. The Fund uses futures on such notes to help hedge against the risk of rising interest rates. Together, the long high-yield bond and short comparable U.S. Treasury portfolios offer a combination of income generation and protection against rising interest rates.

The main drivers of returns in this strategy are interest rates and credit spreads. Rising interest rates and narrowing credit spreads positively contribute to performance, while declining interest rates and widening credit spreads detract from the Fund's returns.

The Fund underperformed unhedged high yield bond strategies as interest rates declined, negatively contributing to the short portfolio of futures contracts on 5-year U.S. Treasuries. The top performing bonds were El Paso Energy Corp. 7.75% 01/15/32 bond (1.3% of Fund net assets)† and Ally Financial Inc. 8.00% 11/01/31 bond (2.5% of Fund net assets)†. The bottom performing bonds were both Caesars Entertainment Operating Co., Inc.: 11.25% 12/05/14 bond (0.8% of Fund net assets)† and 10.0% 12/05/14 bond (0.1% of Fund net assets)†.

†All Fund assets referenced are Total Net Assets as of October 31, 2014.

All indices listed are unmanaged indices and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made.

‡Standard & Poor's (S&P) 500® Index, calculated with dividends reinvested, consists of 500 widely held common stocks covering the industrial, utility, financial, and transportation sectors.

Market Vectors[®] US Business Development Companies Index (MVBIZDTG) includes companies which are treated as Business Development Companies. To be eligible for the Index and qualify as a BDC, a company must be organized under the laws of a state that have its principal place of business in the U.S., be registered with the Securities Exchange Commission and have elected to be regulated as a BDC under the Investment Company Act of 1940. As of October 31, 2014, the 30-day SEC yield for Market Vectors BDC Income ETF was 8.66%. 30-Day SEC Yield is calculated as of the most recent month end, and is a standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest and dividends earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last twelve months assuming the most recent NAV. In the absence of temporary expense waivers or reimbursements, the 30-Day SEC Yield for Market Vectors BDC Income ETF would have been 8.31% on October 31, 2014.

Market Vectors[®] Global Mortgage REITs Index (MVMORTTR) is a rules-based index intended to give investors a means of tracking the overall performance of publicly traded U.S. and non-U.S. mortgage REITs that derive at least 50% of their revenue from mortgage-related activity. As of October 31, 2014, the 30-day SEC yield for Market Vectors Mortgage REIT Income ETF was 10.50%. 30-Day SEC Yield is calculated as of the most recent month end, and is a standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest and dividends earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last twelve months assuming the most recent NAV. In the absence of temporary expense waivers or reimbursements, the 30-Day SEC Yield for Market Vectors Mortgage REIT Income ETF would have been 10.25% on October 31, 2014.

⁹ Wells Fargo[®] Hybrid and Preferred Securities ex Financials Index (WHPSL) is a rules-based index designed to track the performance of convertible or exchangeable and non-convertible preferred securities, issued by U.S. or foreign issuers that are financial services companies or banks and that are listed on U.S. national securities exchanges. As of October 31, 2014, the 30-day SEC yield for Market Vectors Preferred Securities ex Financials ETF was 5.97%. 30 Day SEC Yield is calculated as of the most recent month end, and is a standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest and dividends earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last six months assuming the most recent NAV. In the absence of

temporary expense waivers or reimbursements, the 30-Day SEC Yield for Market Vectors Preferred Securities ex Financials would have been 5.78% on October 31, 2014.

BDC INCOME ETF

PERFORMANCE COMPARISON

October 31, 2014 (unaudited)

Total Return	Share Price ¹	NAV	MVBIZDTG ²	
Six Months	1.37 %	1.41 %	1.49	%
One Year	1.46 %	1.66 %	1.91	%
Life* (annualized)	4.85 %	4.77 %	5.09	%
Life* (cumulative)	8.48 %	8.33 %	8.90	%

*since 2/11/13

Commencement date for the Market Vectors BDC Income ETF (BIZD) was 2/11/13.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/11/13) to the first day of secondary market trading in shares of the Fund (2/12/13), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.59% / Net Expense Ratio 0.41%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors US Business Development Companies Index (MVBIZDTG) (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors BDC Income ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors[®] US Business Development Companies Index (MVBIZDTG) (the “Index”) includes companies which are treated as Business Development Companies. To be eligible for the Index and qualify as a BDC, a company must be organized under the laws of, and have its principal place of business in the U.S., be registered with the Securities Exchange Commission and have elected to be regulated as a BDC under the Investment Company Act of 1940.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (4/25/11) to the first day of secondary market trading in shares of the Fund (4/26/11), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.49% / Net Expense Ratio 0.19%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.19% of the Fund's average daily net assets per year until at least September 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors Investment Grade Floating Rate ETF (the “Fund”) is not sponsored, issued or advised by Wells Fargo & Company, Wells Fargo Securities, LLC or any of their affiliates (together, “Wells Fargo”). The Market Vectors US Investment Grade Floating Rate Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (the “Index Provider”), which has contracted with Wells Fargo to create and maintain and with Interactive Data Pricing and Reference Data, Inc. (the “Index Calculator”) to calculate the Index. Neither Wells Fargo nor the Index Calculator guarantees the accuracy and/or completeness of the Index or of any data supplied by it or its agents or makes any warranty as to the results to be obtained from investing in the Fund or tracking the Index. The Index is calculated by Interactive Data Pricing and Reference Data, Inc., which is not an adviser for or fiduciary to the Fund, and, like Wells Fargo, is not responsible for any direct, indirect or consequential damages associated with indicative optimized portfolio values and/or indicative intraday values. The Fund is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors[®] US Investment Grade Floating Rate Index (MVFLTR) is comprised of U.S. dollar-denominated floating rate notes issued by corporate issuers or similar commercial entities that are public reporting companies in the U.S. and rated investment grade by at least one of three rating services: Moody’s Investors Service, Inc.

(“Moody’s”), Standard & Poor’s Rating Services (“S&P”) or Fitch International Rating Agency (“Fitch”). Investment grade securities are those rated Baa3 or higher by Moody’s or rated BBB- or higher by S&P or Fitch.

Life* (cumulative)	41.71 %	41.77 %	28.06 %

*since 8/16/11

Commencement date for the Market Vectors Mortgage REIT Income ETF (MORT) was 8/16/11.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (8/16/11) to the first day of secondary market trading in shares of the Fund (8/17/11), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.53% / Net Expense Ratio 0.41%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors Global Mortgage REITs Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Mortgage REIT Income ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® Global Mortgage REITs Index (MVMORTTR) is a rules-based index intended to give investors a means of tracking the overall performance of publicly traded U.S. and non-U.S. mortgage REITs that derive at least 50% of their revenues from mortgage-related activity.

Market Vectors US Treasury-Hedged High Yield Bond Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (the “Index Provider”), which has contracted with Interactive Data Pricing and Reference Data, LLC. (the “Calculation Agent”) to calculate the Index. The Calculation Agent is not an adviser for or a fiduciary to any account, fund or ETF managed by Van Eck Associates Corporation. The Calculation Agent is not responsible for any direct, indirect, or consequential damages associated with indicative optimized portfolio values and/or indicative intraday values. Market Vectors Treasury-Hedged High Yield Bond ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by the Index Provider, which makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® US Treasury-Hedged High Yield Bond Index (MVTHHY) is comprised of long positions in below-investment grade corporate bonds, denominated in U.S. dollars, and an equivalent amount of short positions in Treasury notes and bonds.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the period, May 1, 2014 to October 31, 2014.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period.”

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as fees on purchase payments. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

SCHEDULE OF INVESTMENTS

(unaudited) (continued)

- (c) Callable Security – the redemption date shown is when the security may be redeemed by the issuer
- † Security fully or partially on loan. Total market value of securities on loan is \$301,301.
- Reg Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.
- S Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise 144A restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$15,294,754, or 16.5% of net assets.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

October 31, 2014 (unaudited)

Note 1—Fund Organization—Market Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of October 31, 2014, offers fifty-nine investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: BDC Income ETF (“BDC Income”), Emerging Markets Aggregate Bond ETF (“Emerging Markets Aggregate”), Emerging Markets High Yield Bond ETF (“Emerging Markets High Yield”), Emerging Markets Local Currency Bond ETF (“Emerging Markets Local Currency”), Fallen Angel High Yield Bond ETF (“Fallen Angel”), International High Yield Bond ETF (“International High Yield”), Investment Grade Floating Rate ETF (“Investment Grade”), Mortgage REIT Income ETF (“Mortgage REIT”), Preferred Securities ex Financials ETF (“Preferred Securities”), Renminbi Bond ETF (“Renminbi”) and Treasury-Hedged High Yield Bond ETF (“Treasury-Hedged”), each a “Fund” and collectively the “Funds”. Each Fund’s investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its index. The Funds (except BDC Income, Mortgage REIT and Preferred Securities) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the “Adviser”) uses quantitative analysis to select bonds and other securities that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in the index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund’s investment objective. BDC Income, Mortgage REIT and Preferred Securities seek to achieve their investment objective through a portfolio of securities in substantially the same weighting as their index.

The Funds’ commencement of operations dates and their respective indices are presented below:

Fund	Commencement of Operations	Index
BDC Income	February 11, 2013	Market Vectors® U.S. Business Development Companies Index*
Emerging Markets Aggregate	May 11, 2011	Market Vectors® EM Aggregate Bond Index*
Emerging Markets High Yield	May 8, 2012	The BofA Merrill Lynch High Yield US Emerging Markets Liquid Corporate Plus Index
Emerging Markets Local Currency	July 22, 2010	JP Morgan Government Bond Index-Emerging Markets Global Core
Fallen Angel	April 10, 2012	The BofA Merrill Lynch US Fallen Angel High Yield Index
International High Yield	April 2, 2012	The BofA Merrill Lynch Global Ex-US Issuers High Yield Constrained Index
Investment Grade	April 25, 2011	Market Vectors® US Investment Grade Floating Rate Index*
Mortgage REIT	August 16, 2011	Market Vectors® Global Mortgage REITs Index*

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Preferred Securities	July 16, 2012	Wells Fargo® Hybrid & Preferred Securities ex Financials Index
Renminbi	October 11, 2011	Market Vectors® Renminbi Bond Index*
Treasury-Hedged	March 21, 2013	Market Vectors® US Treasury-Hedged High Yield Bond Index*

*Owned by Market Vectors Index Solutions GmbH, an indirect, wholly owned subsidiary of the Adviser.

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standard Codification (“ASC”) 946 Financial Services – Investment Companies.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities for which market quotations are readily available are valued on the basis of quotations furnished by an independent pricing service approved by the Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and/or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds’ investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds’ Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Federal Income Taxes—It is each Fund’s policy to comply with the provisions of the Internal Revenue Code B. applicable to regulated investment companies and to distribute all of its taxable income to its shareholders.

Therefore, no federal income tax provision is required.

Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund (except BDC Income and Mortgage REIT which are declared and paid quarterly). Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Securities Sold Short—Treasury-Hedged may invest in securities sold short. A short sale occurs when a Fund sells a security, which it does not own, by borrowing it from a broker. Proceeds from securities sold short are reported as liabilities in the Statements of Assets and Liabilities and are marked to market daily in accordance with the fair value methodology described in Note 2A. Gains and losses are classified as realized when short positions are closed. In the event that the value of the security which the Fund sold short declines, the Fund will gain as it repurchases the security in the market at the lower price. If the price of the security increases, the Fund will suffer a loss, as it will have to repurchase the security at the higher price. Short sales may incur higher transaction costs than regular securities transactions. Interest on securities sold short is recorded as an expense by the Fund on the interest payment date. Cash as collected is deposited in a segregated account with brokers, maintained by the Fund, for its open short sales. Until the Fund replaces the borrowed security, the Fund maintains securities or permissible liquid assets in a segregated account with a broker or custodian sufficient to cover its short positions. At October 31, 2014, Treasury-Hedged held no securities sold short.

Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

Repurchase Agreements—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus

accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of October 31, 2014 are reflected in the Schedules of Investments.

Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. **H.** Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (“OTC”) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree

83

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments.

Futures Contracts—The Funds may purchase or sell futures contracts to gain exposure or to hedge against interest rate movement. Using futures contracts involves various market risks, including interest rate and equity risk as well as the risks that there may be an illiquid market or that a change in the value of the contract may not correlate with changes in the value of the underlying securities.

Upon entering into a futures contract, a Fund is required to deliver to a broker an amount of cash and/or government securities equal to a certain percentage of the contract amount. This amount is known as the “initial margin”. Subsequent payments, known as “variation margin”, generally are made or received by the Portfolio each day depending on the fluctuations in the value of the underlying futures contracts, except that in the case of certain futures contracts payments may be made or received at settlement. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the futures contract is closed or expires, at which time the net gain or loss is reclassified to realized gain or loss on futures. Treasury-Hedged held futures contracts for six months during the period ended October 31, 2014 of which the average market value of the futures contracts for that six month period was \$9,696,883. Futures contracts held by Treasury-Hedged at October 31, 2014 are reflected in the Schedule of Investments.

At October 31, 2014, Treasury-Hedged held the following derivatives instruments:

	Liability Derivatives
	Interest Rate Risk
Futures contracts ¹	\$52,796

¹ Statements of Assets and Liabilities location: Variation margin on futures contracts

For Treasury-Hedged, the impact of transactions in derivative instruments during the period ended October 31, 2014, was as follows:

	Interest Rate Risk
Net change in unrealized appreciation (depreciation):	
Futures contracts ²	\$(81,976)

Realized gain (loss):	
Futures contracts ³	\$(51,251)

² Statements of Operations location: Net change in unrealized appreciation (depreciation) on futures contracts

³ Statements of Operations location: Net realized gain (loss) on futures contracts

Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds do not offset securities lending or repurchase agreement assets and liabilities subject to enforceable master netting agreements or other similar agreements in the Statements of Assets and Liabilities.

The table below presents both gross and net information about the derivative instruments eligible for offset in the Statements of Assets and Liabilities, subject to master netting or similar agreements, as well as financial collateral received or pledged (including cash collateral and margin) as of October 31, 2014. Collateral is disclosed up to 100% of the net amount of unrealized gain/loss or market value of the respective financial instruments. In general, collateral received or pledged exceeds the net amount of the unrealized gain/loss or market value of financial instruments. Refer to the Schedules of Investments and Statements of Assets and Liabilities for collateral received or pledged as of October 31, 2014.

Fund	Description	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amounts of Liabilities Presented in the Statement of Assets and Liabilities	Financial Instruments and Cash Collateral Pledged*	Net Amount
Treasury-Hedged	Futures Contracts	\$52,796	\$ —	\$52,796	\$(52,796)	\$ —

*Gross amounts not offset in the Statements of Assets and Liabilities

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date.

J. The Funds record distributions received in excess of income from underlying investments as a reduction of cost of investments and/or an increase in realized gain. Such amounts are based upon estimates if actual amounts are not available, and actual amounts of income, realized gain and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The Adviser has agreed, at least until September 1, 2015, for the Funds to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense limitation (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) listed in the table below.

The current management fee rate/expense limitation and the amounts waived/assumed by the Adviser for the period ended October 31, 2014 are as follows:

Fund	Expense Limitation	Management Fee Rate	Waiver of Management Fees	Expenses Assumed by the Adviser
------	--------------------	---------------------	---------------------------	---------------------------------

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Note 4—Investments—For the period ended October 31, 2014, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
BDC Income	\$6,575,311	\$4,250,972
Emerging Markets Aggregate	2,272,363	5,372,252
Emerging Markets High Yield	73,448,990	50,902,694
Emerging Markets Local Currency	183,250,360	109,018,098
Fallen Angel	3,586,285	3,545,044
International High Yield	51,614,105	34,095,016
Investment Grade	18,057,457	13,085,454
Mortgage REIT	32,941,953	7,469,607
Preferred Securities	19,206,090	21,049,416
Renminbi	386,223	808,932
Treasury-Hedged	2,119,451	2,270,953

Note 5—Income Taxes—As of October 31, 2014, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

Fund	Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
BDC Income	\$56,560,337	\$ 317,005	\$(2,811,709)	\$(2,494,704)

Treasury-Hedged	10,115,429	214,381	(158,390)	55,991

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

The tax character of dividends paid to shareholders during the year ended April 30, 2014 was as follows:

Fund	Ordinary Income	Long-Term Capital Gains	Return of Capital
	April 30, 2014	April 30, 2014	April 30, 2014
BDC Income	\$1,559,010	\$ —	\$ —
Emerging Markets Aggregate	507,063	3,567	472,970
Emerging Markets High Yield	13,759,920	—	—
Emerging Markets Local Currency	38,448,228	—	15,121,732
Fallen Angel	823,240	45,240	—
International High Yield	12,147,040	—	—
Investment Grade	398,830	—	—
Mortgage REIT	10,623,350	—	2,500,000
Preferred Securities	9,173,790	—	—
Renminbi	192,600	—	—
Treasury-Hedged	432,400	—	—

The tax character of current year distributions will be determined at the end of the fiscal year.

At April 30, 2014, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

Fund	No Expiration Short-Term Capital Losses	No Expiration Long-Term Capital Losses
BDC Income	\$ 101,590	\$ —
Emerging Markets Aggregate	1,403,942	155,658
Emerging Markets High Yield	833,054	393,421
Emerging Markets Local Currency	3,391,602	—
International High Yield	240,924	5,140
Investment Grade	—	1,180
Mortgage REIT	941,991	—
Preferred Securities	2,091,234	417,398
Renminbi	39	—

During the year ended April 30, 2014, Investment Grade, Renminbi and Treasury-Hedged utilized \$2,913, \$843 and \$10,100 of prior year capital carryforwards, respectively.

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended April 30, 2011-2014), or expected to be taken in the Funds’ current tax year. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds’ financial statements.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period ended October 31, 2014, the Funds did not incur any interest or penalties.

Note 6—Capital Share Transactions—As of October 31, 2014, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, or multiple thereof, as follows:

Fund	Creation Units
BDC Income	50,000
Emerging Markets Aggregate	200,000
Emerging Markets High Yield	200,000

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Emerging Markets Local Currency	200,000
Fallen Angel	200,000
International High Yield	200,000
Investment Grade	100,000
Mortgage REIT	50,000
Preferred Securities	50,000
Renminbi	100,000
Treasury-Hedged	200,000

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended October 31, 2014, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
BDC Income	\$15,097,780	\$4,145,492
Emerging Markets High Yield	85,502,902	4,280,510
Emerging Markets Local Currency	88,657,412	13,588,859
International High Yield	37,242,129	—
Investment Grade	4,249,806	14,365,526
Mortgage REIT	—	7,809,726
Preferred Securities	27,748,352	9,972,088

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect gross shareholder transactions including any cash component of the transactions.

Note 7—Concentration and Other Risks—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a “passive” or index approach to achieve each Fund's investment objective. The Funds (except BDC Income, Mortgage REIT, and Preferred Securities) use a sampling approach in which the Adviser uses quantitative analysis to select bonds that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. Each Fund is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. Investments in the Funds involve risks similar to those of investing in any bond fund, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices.

The Funds (except Investment Grade, Mortgage REIT, Preferred Securities and Renminbi) may directly or indirectly invest in non-investment grade securities, often referred to as “junk bonds.” Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. These Funds may not be able to sell bonds at desired prices and large purchases or sales of certain high-yield bond issues may cause substantial fluctuations in share price, yield and total return.

BDC Income invests in business development companies which generally invest in less mature private companies or thinly traded U.S. public companies which involve greater risk than well-established publicly-traded companies.

Emerging Markets Aggregate, Emerging Markets High Yield, Emerging Markets Local Currency, Fallen Angel, International High Yield, Investment Grade and Renminbi invest in foreign securities. Investments in foreign securities may involve a greater degree of risk than investments in domestic securities due to political, economic or social instability. Foreign investments may also be subject to foreign taxes and settlement delays. Since the Funds may have significant investments in foreign debt securities, they may be subject to greater credit and interest risks and

greater currency fluctuations than portfolios with significant investments in domestic debt securities.

Mortgage REIT invests directly in mortgage REITs and is exposed to the risks specific to the real estate market as well as the risks that relate specifically to the way in which mortgage REITs are organized and operated. Mortgage REITs receive principal and interest payments from the owners of the mortgaged properties. Accordingly, mortgage REITs are subject to the credit risk of the borrowers to whom they extend credit. To the extent that a mortgage REIT invests in mortgage-backed securities, it may be subject to default risk or interest rate risk.

Mortgage REIT may invest in mortgage REITs that may trade at a discount or premium to their net asset value.

Preferred Securities invests in preferred securities which are essentially contractual obligations that declare distributions but permit the issuer to defer or suspend distributions. This may require the Fund to account for the distribution that has been deferred or suspended for tax purposes, even though it may not have received this income. Additionally, preferred securities are subject to credit risk. Credit risk refers to the possibility that the issuer of a security will be unable and/or unwilling to make timely distributions of dividends. In addition, preferred securities are subject to interest rate risk. Preferred securities interest rates may move in an inverse direction to that of general interest rates.

Treasury-Hedged invests directly in securities sold short and futures contracts which are designed to hedge against the price sensitivity of the below investment grade corporate bonds. A risk of hedging is the imperfect correlation between price movement of the securities sold short and the price movement of the Fund's investments.

Certain Funds may invest directly in the Russian local market. As a result of recent events involving Ukraine and the Russian Federation, the United States and the European Union have imposed sanctions on certain Russian individuals

and companies. These sanctions do not currently impact any of the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers' held, if any, by the Funds.

At October 31, 2014, the Adviser owned approximately 53% of Emerging Markets Aggregate as well as 50% of Renminbi.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

For each Fund, the expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds’ custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders’, administrative and custodial fees in connection with a loan of its securities and shares the interest earned on the collateral and borrowing fees received with the securities lending agent. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds’ behalf by the lending agent and is invested in the Bank of New York Overnight Government Fund, the Bank of New York Institutional Cash Reserve, or repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at October 31, 2014 are presented on a gross basis in the Schedules of Investments and

Statements of Assets and Liabilities.

Note 10—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended October 31, 2014, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of October 31, 2014
BDC Income	145	\$ 244,726	1.49 %	\$151,662
Emerging Markets Aggregate	18	155,219	1.49	—
Emerging Markets High Yield	5	504,947	1.49	—
Emerging Markets Local Currency	57	2,224,230	1.49	—
Fallen Angel	19	184,356	1.49	—
International High Yield	2	444,870	1.49	—

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Note 11—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended October 31, 2014, there were no offsets to the custodian fees.

Note 12—Subsequent Events—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

The following dividends from net investment income were declared and paid subsequent to October 31, 2014:

Fund	Ex-Date	Record Date	Payable Date	Per Share
Emerging Markets Aggregate	11/3/14	11/5/14	11/7/14	\$0.0900
Emerging Markets High Yield	11/3/14	11/5/14	11/7/14	\$0.1360
Emerging Markets Local Currency	11/3/14	11/5/14	11/7/14	\$0.1000
Fallen Angel	11/3/14	11/5/14	11/7/14	\$0.1300
International High Yield	11/3/14	11/5/14	11/7/14	\$0.1160
Investment Grade	11/3/14	11/5/14	11/7/14	\$0.0129
Preferred Securities	11/3/14	11/5/14	11/7/14	\$0.0600
Renminbi	11/3/14	11/5/14	11/7/14	\$0.1000
Treasury-Hedged	11/3/14	11/5/14	11/7/14	\$0.1000
Emerging Markets Aggregate	12/1/14	12/3/14	12/5/14	\$0.0850
Emerging Markets High Yield	12/1/14	12/3/14	12/5/14	\$0.1280
Emerging Markets Local Currency	12/1/14	12/3/14	12/5/14	\$0.1012
Fallen Angel	12/1/14	12/3/14	12/5/14	\$0.1050
International High Yield	12/1/14	12/3/14	12/5/14	\$0.1100
Investment Grade	12/1/14	12/3/14	12/5/14	\$0.0134
Preferred Securities	12/1/14	12/3/14	12/5/14	\$0.0700
Renminbi	12/1/14	12/3/14	12/5/14	\$0.1000
Treasury-Hedged	12/1/14	12/3/14	12/5/14	\$0.0930
Renminbi	12/9/14	12/11/14	12/15/14	\$0.6043

The following distribution from long-term capital gains was declared and paid subsequent to October 31, 2014:

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Fund	Ex-Date	Record Date	Payable Date	Per Share
Renminbi	12/9/14	12/11/14	12/15/14	\$0.0120

Effective November 5, 2014, the expense limitation for Investment Grade was reduced from 0.19% to 0.14%. Additionally, effective December 12, 2014, shares are now issued and redeemed by Treasury-Hedged in Creation Units of 100,000 or multiples thereof.

The Board of Trustees of Market Vectors ETF Trust approved the liquidation and dissolution of Renminbi. A final distribution will be paid out to shareholders of record on December 22, 2014, payable on December 23, 2014.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited)

At a meeting held on June 6, 2014 (the “Meeting”), the Board of Trustees (the “Board”) of Market Vectors ETF Trust (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), considered and approved a sub-advisory agreement (the “Sub-Advisory Agreement”) between Van Eck Associates Corporation (the “Adviser”) and China Asset Management (Hong Kong) Limited (the “Sub-Adviser”) with respect to Market Vectors Renminbi Bond ETF (the “Fund”).

The Board’s approval of the Sub-Advisory Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of the Meeting, the Trustees received materials from the Adviser and the Sub-Adviser, as discussed below. Information provided to the Trustees from the Adviser and the Sub-Adviser included various aspects of the proposed changes to the Fund’s investment strategies, the rationale for retaining a sub-adviser that has been granted a quota under the Renminbi Qualified Institutional Investors Scheme (“RQFII quota”) and the RQFII program generally. The Independent Trustees’ consideration of the Sub-Advisory Agreement was based, in part, on information obtained through discussions with the Adviser and the Sub-Adviser at the Meeting regarding the management of the Fund and/or based on their review of the materials provided by the Adviser and the Sub-Adviser, including the background and experience of the portfolio managers, the Sub-Adviser’s affiliate, China Asset Management Co., Ltd. and others involved or proposed to be involved on behalf of the Sub-Adviser in the management of the Fund. The Trustees noted that the Sub-Adviser is a wholly-owned subsidiary of China Asset Management Co., China’s largest asset management company measured by fund assets under management. The Trustees took into account the Sub-Adviser’s experience and investment management process with respect to RQFII funds, including Market Vectors ChinaAMC A-Share ETF, currently managed by the Sub-Adviser and the experience of its affiliate, China Asset Management Co., Ltd. The Trustees also considered the terms of, and scope of services that the Sub-Adviser would provide under, the Sub-Advisory Agreement and information with respect to the Sub-Adviser’s compliance program.

In addition, the Trustees were given information regarding the expected benefits to the Fund that could be achieved by investing directly in renminbi-denominated bonds issued in mainland China via the Sub-Adviser’s RQFII quota. The Trustees took into account the unique legal and operational aspects of the Fund and the RQFII program. The Trustees also considered materials relating to the sub-advisory fees to be paid to the Sub-Adviser by the Adviser, the advisory fees to be retained by the Adviser and information provided by the Sub-Adviser with respect to the tracking error of other RQFII funds that it manages and the fees it charges those funds. The Trustees concluded that the nature, quality and extent of the services to be provided by the Sub-Adviser were appropriate.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

The Independent Trustees were advised by and met in executive session with their independent counsel at the Meeting as part of their consideration of the Sub-Advisory Agreement.

In voting to approve the Sub-Advisory Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Sub-Advisory Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees also concluded that the sub-advisory fees were reasonable in light of the services to be provided. The Trustees further concluded that Sub-Advisory Agreement is in the best interest of the Fund and the Fund's shareholders.

* * *

At a meeting held on June 6, 2014 (the "Renewal Meeting"), the Board of Trustees (the "Board") of Market Vectors ETF Trust (the "Trust"), including all of Trustees that are not interested persons of the Trust (the "Independent Trustees"), approved the continuation of the investment management agreements between the Trust and Van Eck Associates Corporation (the "Adviser") (the "Investment Management Agreements") with respect to the Market Vectors Asia ex-Japan Aggregate Bond ETF, BDC Income ETF, Business Development Company/Specialty Finance ETF, Defaulted & Distressed Bond ETF, Emerging Markets Aggregate Bond ETF, Emerging Markets High Yield Bond ETF, Emerging Markets Local Currency Bond ETF, Emerging Markets Short-Term Corporate Bond ETF, European High Yield Bond ETF, European Sovereign Bond ETF, Fallen Angel High Yield Bond ETF, Fixed Income I ETF, Fixed Income II ETF, Global Fallen Angel Bond ETF, Global High Yield Bond ETF, Global High Yield US\$ Bond ETF, Greater China Corporate Bond ETF, Greater China High Yield Bond ETF, International High Yield Bond ETF, International US\$ High Yield Bond ETF,

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited) (continued)

Investment Grade Floating Rate ETF, Japanese Bond ETF, Mortgage REIT Income ETF, MV Emerging Markets Aggregate Bond ETF, Non-Agency RMBS ETF, Preferred Securities ex Financials ETF, Renminbi Bond ETF, Treasury-Hedged High Yield Bond ETF and USD Emerging Markets Aggregate Bond ETF (collectively, the “Funds”).

The Board’s approval of the Investment Management Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 9, 2014. At that meeting, the Trustees discussed the information the Adviser and Lipper Inc. (“Lipper”), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and (where applicable) the Funds’ peer funds (other index-based exchange-traded funds (“ETFs”)), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser’s relationship with the Funds. In reviewing performance and expense information for certain of the Funds against their peer groups, the Trustees considered that some of the Funds generally invest in a different group of issuers than some or all of the other funds in a Fund’s designated peer group. For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees’ consideration of the Investment Management Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and the May 9, 2014 meeting and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreements, including, where applicable, the Adviser’s commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time.

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds’ portfolios. In evaluating the performance over relevant periods of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the “Operating Funds”), the Trustees reviewed various performance metrics but relied principally on a comparison of the “gross” performance of each Operating Fund (i.e., measured without regard

to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any fair value adjustments to the underlying securities. Based on discussions with the Adviser, the Trustees concluded that the investment performance of the Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser and the current status, as they understood it, of the Adviser's compliance environment.

As noted above, the Trustees were also provided various data from Lipper comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below or equal to the average and/or median of its respective peer group of funds, except for each of Market Vectors BDC Income ETF, Mortgage REIT Income ETF and Treasury-Hedged High Yield Bond ETF which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and median of its peer group of funds. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received. The Trustees noted that this comparative data, while generally helpful, was limited in its usefulness in many cases due to the lack of a large number of directly comparable ETFs.

The Trustees also considered any other benefits received by the Adviser from serving as adviser to the Funds and from providing certain administrative services to the Funds, and from an affiliate of the Adviser serving as distributor for the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees noted that certain Funds were still relatively new products, which therefore made it difficult to quantify the potential variability in net assets and thus determine the sustainability of any potential economies of scale which may exist. The Trustees noted that the Adviser has capped expenses on each Operating Fund since its inception. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser in respect of the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Trustees did not consider historical information about the profitability to the Adviser of Market Vectors Asia ex-Japan Aggregate Bond ETF, Defaulted & Distressed Bond ETF, Emerging Markets Aggregate Bond ETF, Emerging Markets Short-Term Corporate Bond ETF, European High Yield Bond ETF, European Sovereign Bond ETF, Fixed Income I ETF, Fixed Income II ETF, Global High Yield Bond ETF, Greater China Corporate Bond ETF, Greater China High Yield Bond ETF and Non-Agency RMBS ETF because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees could not consider the historical performance or the quality of services previously provided to each of these Funds although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 9, 2014 meeting as part of their consideration of the Investment Management Agreements.

In voting to approve the continuation of the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

* * *

At a meeting (the "Meeting") held on September 4, 2014, the Board of Trustees (the "Board") of Market Vectors ETF Trust (the "Trust"), including all of the Trustees that are not interested persons of the Trust (the "Independent Trustees"),

considered and approved an investment management agreement (the “Investment Management Agreement”) between the Trust and Van Eck Associates Corporation (the “Adviser”) and a sub-advisory agreement (the “Sub-Advisory Agreement”) between the Adviser and China Asset Management (Hong Kong) Limited (the “Sub-Adviser”) with respect to Market Vectors China Bond ETF (the “Fund”). The Investment Management Agreement and Sub-Advisory Agreement are together referred to as the “Agreements.”

The Board’s approval of each Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of the Meeting, the Trustees received materials from the Adviser and the Sub-Adviser as discussed below. Information provided to the Trustees from the Adviser and the Sub-Adviser included various aspects of the Fund’s proposed investment program, fee arrangements and service provider arrangements as well as the rationale for retaining a sub-adviser that has been granted a quota under the Renminbi Qualified Institutional Investors Scheme (“RQFII quota”) and the RQFII program generally. The Independent Trustees’ consideration of each Agreement was based, in part, on information obtained through discussions with the Adviser at the Meeting regarding the management of the Fund, information obtained at other meetings of the Trustees respecting the Adviser and the Sub-Adviser and/or based on their review of the materials provided by the Adviser and the Sub-Adviser, including the background and experience of the portfolio managers, the Sub-Adviser’s affiliate, China Asset Management Co., Ltd. and others involved or proposed to

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited) (continued)

be involved on behalf of the Adviser and the Sub-Adviser in the management of the Fund. The Trustees also considered the terms of, and scope of services that the Adviser and the Sub-Adviser would provide under each Agreement, including the Adviser's commitment to waive certain fees and/or pay expenses of the Fund to the extent necessary to prevent the operating expenses of the Fund from exceeding agreed upon limits for a period of at least one year following the effective date of the Fund's respective registration statement. The Trustees noted that the Sub-Adviser is a wholly-owned subsidiary of China Asset Management Co., China's largest asset management company measured by fund assets under management. The Trustees took into account the Sub-Adviser's experience and investment management process with respect to RQFII funds, including Market Vectors ChinaAMC A-Share ETF and Market Vectors ChinaAMC SME-ChiNext ETF, currently managed by the Sub-Adviser and the experience of its affiliate, China Asset Management Co., Ltd. The Trustees also considered information with respect to the overall business of the Adviser and the Sub-Adviser, and the Adviser's views of the proposed service providers.

In addition, the Trustees were given data on the exchange-traded fund ("ETF") market with the Adviser noting that, at the time of the Meeting, there were no U.S.-listed ETFs that provided exposure to bonds issued in mainland China. The Trustees took into account the unique legal and operational aspects of the Fund and the RQFII program. The Trustees considered the sub-advisory fees to be paid to the Sub-Adviser by the Adviser, and the advisory fees to be retained by the Adviser. The Trustees considered the benefits, other than the fees under the Investment Management Agreement, that the Adviser would receive from serving as adviser to the Fund, including any it may receive from providing administrative services to the Fund and from an affiliate of the Adviser serving as distributor to the Fund. The Trustees did not consider historical information about the cost of the services provided by the Adviser and the Sub-Adviser or the profitability of the Fund to the Adviser and the Sub-Adviser because the Fund had not yet commenced operations. However, the Adviser agreed to provide the Trustees with profitability information in connection with future proposed continuances of the Investment Management Agreement, which will permit the Trustees to consider in the future the extent to which economies of scale may exist and whether the fees paid to the Adviser reflect these economies of scale for the benefit of shareholders. In addition, because the Fund has not yet commenced operations, the Trustees could not consider the historical performance or the quality of services previously provided to the Fund by the Adviser and the Sub-Adviser, although they concluded that the nature, quality and extent of the services to be provided by the Adviser and the Sub-Adviser were appropriate based on the Trustees' knowledge of the Adviser and the Sub-Adviser and their personnel and the operations of the other series of the Trust (in the case of the Sub-Adviser, Market Vectors ChinaAMC A-Share ETF and Market Vectors ChinaAMC SME-ChiNext ETF as having served in such capacity since January 2014 and July 2014, respectively).

The Independent Trustees were advised by and met in executive session with their independent counsel at the Meeting as part of their consideration of the Agreements.

In voting to approve the Agreements, the Trustees, including the Independent Trustees, concluded that the terms of the Agreements are reasonable and fair in light of the services to be performed, the fees paid by other funds, expenses to

be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees also concluded that the advisory and sub-advisory fees were reasonable in light of the services to be provided. The Trustees further concluded that each Agreement is in the best interest of the Fund and the Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a Market Vectors ETF Trust (the "Trust") Prospectus and Summary Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus and summary prospectus contains this and other information about the investment company. Please read the prospectus and summary prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 1.888.MKT.VCTR, or by visiting marketvectorsetfs.com, or on the Securities and Exchange Commission's website at <http://www.sec.gov>.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at <http://www.sec.gov> and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1.202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.
