VANECK VECTORS ETFs

September 30, 2018 (unaudited)

Dear Shareholders:

We are pleased to present this annual report, which affords us the opportunity to provide a review of the economic backdrop for the last 12 months. But first, in light of the many developments that occurred across global markets over that period, we want to reemphasize VanEck's corporate mission and its implications to you as our valued shareholders.

As you may know, VanEck has a history of looking beyond the financial markets to identify historical, political, and/or technological trends that are likely to create or impact investment opportunities. We were one of the first U.S. asset managers to offer investors access to international markets, which set the tone for our drive to identify promising asset classes and trends. In this respect, our unconventional (at the time) efforts to introduce investors to gold investing in 1968, emerging markets (including China) in 1993, and ETFs in 2006, are now considered mainstream, permanently shaping the investment management industry as we now know it.

Today, we offer both active and passive strategies with compelling exposures supported by well-designed investment processes. Our firm's capabilities range from strategies designed to strengthen core investment allocations, to more specialized exposures that enhance portfolio diversification and reduce volatility.

Putting clients' interests first in all market environments is at the heart of the firm's mission and has been since our founding in 1955. We will, as always, continue to seek out and evaluate the most attractive opportunities for you as shareholders.

As we wrote in our Market Insights research, which can be found at www.vaneck.com/blogs/market-insights, we went into the last stretch of 2017 with rising U.S. interest rates, the "grind trade" in commodities, and the passing of "Old China" and birth of "New China" very much on our minds. We began 2018 by noting that global growth had gone from "ticking up" to "firmly in place" and that, while central banks were tightening, Europe remained "two years" behind the U.S. in this trend and had a trickier task. Further, our base case was for 10-year interest rates to rise to 3.5% with the curve not inverting. In its third longest bull market ever, we remained bullish on U.S. equities in the short-term, but were prepared for a correction. And, finally, we believed that investors should not be underweight commodities as global growth was supporting the bullish "grind trade" narrative from supply cutbacks.

The big shock to this growth story came in the second quarter of 2018, with concerns about European and Chinese growth. This led to U.S. dollar strength, commodity weakness, and emerging markets equity weakness.

We generally hold with our outlook for 2018 from the end of last year: 1) U.S. equities continue in the third longest bull market ever, but earnings are growing and the policy mix is supportive; 2) for commodities, global growth is strong enough and supply limits persist-the bullish “grind trade” continues.

To keep you informed on an ongoing basis, we encourage you to stay in touch with us through the videos, email subscriptions, and research blogs available on our website, www.vaneck.com. Should you have any questions regarding fund performance, please contact us at 800.826.2333 or visit www.vaneck.com.

Please read the prospectus and summary prospectus carefully before investing.

Management Discussion (unaudited)

Biotech – *Not helped initially by State of the Union address*

Biotech stocks had a lackluster 12 months, returning 2.00%. Following highs through mid-October, biotech stocks subsequently fell over the next three months to end 2017 down on the quarter. Despite some recovery through the end of January, stocks were not helped by President Trump's mention of "fixing the injustice" of the high prices of U.S. drugs in his State of the Union address,¹ nor the announcement of a prospective joint health care venture between Amazon.com, Berkshire Hathaway, and JPMorgan Chase & Co.² The selloff at the end of the month and into the first week of February saw biotech stocks plummet. The recovery thereafter through the first six months of the reporting period was minimal and biotech stocks continued to fall through early May. Thereafter, however, they rose, to end the 12 month period having clawed back their earlier losses.

Positive contributions to the Fund's performance came mainly from three companies: Illumina, Neurocrine Biosciences, and Amgen (5.1%, 3.1%, and 8.1% of Fund net assets respectively). The companies that detracted most from performance were Celgene, Incyte, and Nektar Therapeutics (5.0%, 4.0%, and 2.9% of Fund net assets, respectively).

Environmental Services – *Stocks gain significantly after May*

The Fund returned a strong 13.36% for the 12 month period under review, with environmental services companies in general performing strongly. Having hit a low in early February 2018, environmental services stocks essentially moved sideways for a couple of months before climbing through May, and thereafter, to end the year up significantly.

While large-, medium-, and small-cap stocks all provided positive total returns, small-caps contributed the least to the total return of the Fund. STERIS (10.1% of Fund net assets), Waste Management (10.0% of Fund net assets), and Tetra Tech (3.6% of Fund net assets) were the top three contributors to positive total returns. Tenneco (3.3% of Fund net assets), ABM Industries (3.4% of Fund net assets), and Stericycle (3.4% of Fund net assets) detracted the most from performance.

Gaming – *Gaming stocks flounder as Macau's growth slows*

The Fund posted a loss of 4.51% for the 12 month period. The fourth quarter of 2017 was strong with gaming stocks on an upward trajectory through the end of the fiscal year. In Macau, China—the world’s biggest gaming hub—the improvement in the gaming industry’s fortunes over the final three months of 2017 was impressive. In each of these months, the gross revenue from “Games of Fortune” (as the Macau authorities describe them) was higher than that recorded in the same month in the prior year. In October, November, and December 2017, they were 22.1%, 22.6%, and 14.6%, respectively, higher than in the same months in 2016.⁴ While 2018 started very strongly, with revenues in January, February, and March up 36.4%, 5.7%, and 22.2%, respectively, over 2017, after April (another strong month), and with the exception of August, the monthly growth in revenues weakened markedly. Growth in September, year over year, was just 2.8%.⁵

In Nevada, the narrative for the last quarter of 2017 and the start of 2018 was not as rosy. While the “gaming win” in both October and December may have increased incrementally year over year, the gaming win for November decreased 2.3% compared with that in November 2016.⁷ While January 2018’s win was 2.05% down on that of January 2017, from February through June, year over year, gaming wins were up each month.⁸ July and August, however, once again saw decreases year over year.⁹

Australia listed companies were by far the leading contributors to performance. Eight countries detracted from performance, with the U.S. and companies listed in China (Hong Kong) detracting the most.

Generic Drugs – Still a tough, but positive, environment

The Fund had an excellent 12 months, ending the period up 14.85%. Following steady gains through the fourth quarter 2017, generic drugs stocks (perhaps somewhat surprisingly) also faced a significant sell-off in early February 2018. Recovering thereafter, they suffered yet another dip in early May. However from then until the end of the reporting period, generic drugs stocks staged a comeback. In an encouraging sign for the industry, some of

VANECK VECTORS ETFs

(unaudited) (continued)

the major players have, for example, taken measures to reduce their debt burdens using free cash flow and closed unprofitable drug production in the U.S. On a regulatory front, 2018 could, also, turn out to be yet another record year for generic approvals by the U.S. Food and Drug Administration.¹⁰

The biotechnology, life sciences tools & services, and pharmaceuticals sectors contributed the vast majority of the Fund's positive performance. The majority of negative performance was provided by the chemicals sector. In terms of individual companies, South Korean company Celltrion (8.2% of Fund net assets) was the single largest contributor to performance. South African company Aspen Pharmacare Holdings (1.5% of Fund net assets) was the single largest detractor from performance.

Pharmaceutical – Helped by second half comeback

Pharmaceutical stocks had a varied 12 months, but, in contrast with biotech stocks, finished the period returning a healthy 13.42%. After a lackluster first six months, during which they lost 1.24%, on the back of successful clinical studies, rising demand, and robust earnings, pharma stocks rose steadily, despite one or two hiccups, to end the period positively.¹¹ The industry was also helped by 2017's tax law changes in the U.S!²

While Bausch Health Companies and Zoetis (4.8% and 4.5% of Fund net assets, respectively) were the two largest positive contributors to performance, U.S. companies Akorn and Perrigo Co. (0.7% and 4.2% of Fund net assets, respectively) were the Fund's two largest detractors.

Retail – Retail sales remains firm

The Fund returned a substantial 39.01% for the 12 month period under review. Retail sales (excluding automobiles, gasoline stations, and restaurants) in the U.S. over the last three months of 2017 proved to be robust. Following retail sales up 4.3% in October,¹³ in November and December, sales increased 5.5% over 2016 to reach \$691.9 billion.¹⁴ This included some \$138.4 billion in online and other non-store sales, up 11.5% over 2016.¹⁵ These sales results beat the National Retail Federation forecast range of approximately between \$678 billion and \$682 billion. The 5.5% increase was the largest since that of 5.2% seen in 2010.¹⁶ 2018 started strongly with retail sales (excluding automobiles, gasoline stations, and restaurants) in January, up 5.4% on 2017.¹⁷ Although growth in February was a little slower, 4.4% year over year and 0.3% (seasonally adjusted) up on January.¹⁸ Thereafter, through July, retail sales growth remained strong, increasing both month over month (seasonally adjusted) and year over year on an unadjusted basis. In mid-August, however, National Retail Federation Chief Economist Jack Kleinhenz sounded a word of

caution: “Consumer spending is the backbone of the current economic expansion but the fly in the ointment is uncertainty regarding tariffs ... If they escalate, they will no doubt weigh on confidence and household spending.”¹⁹

While businesses involved in Internet and catalog retailing, in particular Amazon.com (20.3% of Fund net assets), and specialty retailing contributed by far the most to the positive performance of the Fund, consumer staples retailers also made a useful contribution to performance. Health care providers and services companies (involved, for example, in pharmaceuticals distribution) detracted from performance, but only very minimally.

Semiconductor – Industry sales continue to boom

The Fund returned a solid 15.61% for the 12 month period under review. Global sales for 2017 of \$412.2 billion were 21.6% higher than those in 2016. In addition, at that time, sales for December 2017 (\$38.0 billion) and the fourth quarter 2017 (\$114.0 billion) were the highest monthly and quarterly sales respectively ever recorded.²⁰ Thereafter semiconductor sales in the first quarter of 2018 also remained strong, reaching \$111.1 billion, an increase of 20% compared to the first quarter of 2017.²¹ The second half also saw increased sales. In July, the global semiconductor industry posted its then highest-ever monthly sales of \$39.5 billion,²² only to have this record beaten in August, when monthly sales topped \$40 billion.²³

Large-capitalization stocks continued to be key drivers of SMH’s returns. Advanced Micro Devices, NVIDIA, and Intel (4.2%, 8.2% and 10.4% of Fund net assets, respectively) were the three best performing companies. NXP Semiconductors, Applied Materials, and Lam Research (4.2%, 4.4%, and 4.2% of Fund net assets, respectively) detracted most from the Fund’s performance.

⁶ Or “gross revenue,” defined (in short) as: the total of all:

(a) Cash received as winnings;

(b) Cash received in payment for credit extended by a licensee to a patron for purposes of gaming; and

Compensation received for conducting any game, or any contest or tournament in conjunction with interactive gaming, in which the licensee is not party to a wager, less the total of all cash paid out as losses to patrons, those amounts paid to fund periodic payments and any other items made deductible as losses by NRS 463.3715. For the purposes of this section, cash or the value of noncash prizes awarded to patrons in a contest or tournament are not losses, except that losses in a contest or tournament conducted in conjunction with an inter-casino linked system may be deducted to the extent of the compensation received for the right to participate in that contest or tournament. MVIS[®] US Listed Retail 25 Index (MVRTHTR) is a rules based, modified capitalization weighted, float adjusted index intended to give investors a means of tracking the overall performance of companies involved in the retail industry. Retail includes companies engaged primarily in retail distribution; wholesalers; online, direct mail and TV retailers; multi-line retailers; specialty retailers, such as apparel, automotive, computer and electronics, drug, home improvement and home furnishing retailers; and food and other staples retailers.

**Hypothetical Growth of
\$10,000 (Since
Inception)**

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares.

See "About Fund Performance" on page 13 for more information.

VANECK VECTORS ETF TRUST

ABOUT FUND PERFORMANCE

(unaudited)

The price used to calculate market return (Share Price) is determined by using the closing price listed on its primary listing exchange. Since the shares of each Fund did not trade in the secondary market until after each Fund's commencement, for the period from commencement to the first day of secondary market trading in shares of each Fund, the NAV of each Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for each Fund reflects temporary waivers of expenses and/or fees. Had each Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of each Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect reinvestment of dividends and capital gains distributions. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Shares may trade at a premium or discount to their NAV in the secondary market.

The net asset value (NAV) of each VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of each fund; it is calculated by taking the total assets of each fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAVs are not necessarily the same as each ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell fund shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Certain indices may take into account withholding taxes. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses. Past performance is no guarantee of future results.

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

The Biotech Index, Gaming Index, Pharmaceutical Index, Retail Index, and Semiconductor Index are published by MV Index Solutions GmbH (MVIS®), which is a wholly owned subsidiary of the Adviser, Van Eck Associates Corporation. The Environmental Services Index is published by ICE Data Indices, LLC (ICE Data). The Generic Drugs Index is published by Indxx, LLC.

MVIS, Indxx, and ICE Data are referred to herein as the “Index Providers.” The Index Providers do not sponsor, endorse, or promote the Funds and bear no liability with respect to the Funds or any security.

Premium/discount information regarding how often the closing trading price of the Shares of each Fund were above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund for each of the four previous calendar quarters and the immediately preceding five years (if applicable) can be found at www.vaneck.com.

VANECK VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, April 1, 2018 to September 30, 2018.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During the Period.”

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expenses are equal to the Fund's annualized expense ratio (for the six months ended September 30, 2018) multiplied * by the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

** Assumes annual return of 5% before expenses

During the year ended September 30, 2018, transfers of securities from Level 1 to Level 2 were \$475,800, and transfers of securities from Level 2 to Level 1 were \$961,961. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

Portfolio turnover rate (c) 24 % 20 % 40 % 19 % 13 %

(a) Calculated based upon average shares outstanding

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

(b) Portfolio turnover rates exclude securities received or delivered as a result of processing in-kind capital share transactions.

(c) Amount represents less than \$0.005 per share

The amount shown for a share outstanding does not correspond with the aggregate net gain (loss) on investments

(d) for the period due to the timing of sales and repurchases of shares in relation to fluctuating market values of the investments of the Fund.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

September 30, 2018

Note 1—Fund Organization—VanEck Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of September 30, 2018, offers fifty-five investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Biotech ETF, Environmental Services ETF, Gaming ETF, Generic Drugs ETF, Pharmaceutical ETF, Retail ETF and Semiconductor ETF (each a “Fund” and, together, the “Funds”). Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index published by Indxx LLC, ICE Data Indices, LLC or MV Index Solutions GmbH (“MVIS”), a wholly owned subsidiary of Van Eck Associates Corporation (the “Adviser”).

The Funds’ respective indices are presented below:

Fund	Index
Biotech ETF	MVIS® US Listed Biotech 25 Index*
Environmental Services ETF	NYSE Arca Environmental Services Index
Gaming ETF	MVIS® Global Gaming Index*
Generic Drugs ETF	Indxx Global Generics & New Pharma Index
Pharmaceutical ETF	MVIS® US Listed Pharmaceutical 25 Index*
Retail ETF	MVIS® US Listed Retail 25 Index*
Semiconductor ETF	MVIS® US Listed Semiconductor 25 Index*

*Published by MV Index Solutions GmbH

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification (“ASC”) 946 Financial Services - Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (as described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as when a particular foreign market is closed but the Fund is open. Short-term debt securities with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. The Pricing Committee of the Adviser provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments or other assets. If market quotations for a security or other asset are not readily available, or if the Adviser believes it does not otherwise reflect the fair value of a security or asset, the security or asset will be fair valued by the Pricing Committee in accordance with the Funds' valuation policies and

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

procedures. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, periodic comparisons to valuations provided by other independent pricing services, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis, which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

C. Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid annually by each Fund (except for dividends from net investment income on Pharmaceutical ETF, which are declared and paid quarterly). Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may

differ from such amounts determined in accordance with GAAP.

Effective in the current reporting period, it is no longer required to separately present distributions from net investment income and distributions from net realized capital gains. Additionally, undistributed net investment income included in net assets is no longer disclosed separately in the Statement of Changes in Net Assets. The September 30, 2017 sources of distributions and undistributed net investment income were as follows:

Fund	Dividends to shareholders: Dividends from net investment income	Undistributed net investment income
Biotech ETF	\$ 1,715,606	\$2,529,843
Environmental Services ETF	132,750	122,134
Gaming ETF	586,300	604,910
Generic Drugs ETF	19,400	20,513
Pharmaceutical ETF	5,854,105	1,067,099
Retail ETF	1,772,514	851,261
Semiconductor ETF	4,764,060	7,500,486

Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day as quoted by one or more sources. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments **D.** that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Such amounts are included with the net realized and unrealized gains and losses on investment securities in the Statements of Operations. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the **E.** securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

Repurchase Agreements—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the **F.** repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of September 30, 2018 are reflected in the Schedules of Investments.

Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that **G.** counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds present securities lending and repurchase agreement assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Collateral held at September 30, 2018 is presented in the Schedules of Investments. Refer to related disclosures in Note 2F (Repurchase Agreements) and Note 9 (Securities Lending).

Components of Capital—Effective with the current reporting period, net unrealized appreciation, undistributed net **H.** investment income, and accumulated net realized gain (loss) are all included in Total distributable earnings in the Statement of Assets and Liabilities.

I. Other—Security transactions are accounted for on trade date. Realized gains and losses are determined based on the specific identification method. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date. Interest income, including

amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund’s average daily net assets. The Adviser has agreed, until at least February 1, 2019, to waive management fees and assume expenses to prevent each Fund’s total annual operating expenses (excluding acquired fund fees and expenses, interest expense, trading expenses, taxes and extraordinary expenses) from exceeding the expense limitations listed in the table below. Refer to the Statements of Operations for the amounts waived/assumed by the Adviser for the year ended September 30, 2018.

The current expense limitations and management fee rates are as follows:

Fund	Expense Limitations	Management Fee Rates
Biotech ETF	0.35 %	0.35 %
Environmental Services ETF	0.55	0.50
Gaming ETF	0.65	0.50
Generic Drugs ETF	0.55	0.50
Pharmaceutical ETF	0.35	0.35
Retail ETF	0.35	0.35
Semiconductor ETF	0.35	0.35

During the year ended September 30, 2016, the Adviser voluntarily reimbursed the Semiconductor ETF \$340,000 for transactional losses. The per share and total return impact to the Fund is reflected in the Financial Highlights.

In addition, Van Eck Securities Corporation (the “Distributor”), an affiliate of the Adviser, acts as the Funds’ distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Note 4—Investments—For the year ended September 30, 2018, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
-------------	--	---

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Biotech ETF	\$157,681,406	\$158,450,063
Environmental Services ETF	5,029,258	6,924,934
Gaming ETF	12,395,117	11,656,131
Generic Drugs ETF	560,948	606,861
Pharmaceutical ETF	48,828,994	50,205,510
Retail ETF	12,815,846	13,591,143
Semiconductor ETF	270,083,475	279,441,425

Note 5—Income Taxes—As of September 30, 2018, for Federal income tax purposes, the identified cost of investments owned, gross unrealized appreciation, gross unrealized depreciation and net unrealized appreciation (depreciation), of investments were as follows:

Fund	Tax Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized (Depreciation)	Net Unrealized Appreciation (Depreciation)
Biotech ETF	\$512,022,407	\$51,042,110	\$(64,167,990)	\$(13,125,880)
Environmental Services ETF	20,733,289	3,986,953	(467,177)	3,519,776
Gaming ETF	32,750,965	1,067,903	(6,850,032)	(5,782,129)
Generic Drugs ETF	3,540,431	774,385	(469,033)	305,352
Pharmaceutical ETF	333,814,838	11,173,974	(66,750,806)	(55,576,832)
Retail ETF	133,975,763	10,935,895	(7,283,452)	3,652,443
Semiconductor ETF	1,370,328,025	5,371,247	(115,089,942)	(109,718,695)

42

At September 30, 2018, the components of distributable earnings (loss) on a tax basis, for each Fund, were as follows:

Fund	Undistributed Ordinary Income*	Accumulated Capital Losses	Other Temporary Differences	Net Unrealized Appreciation (Depreciation)	Total Distributable Earnings
Biotech ETF	\$ 1,454,370	\$(25,745,904)	\$(40,654)	\$(13,125,880)	\$(37,458,068)
Environmental Services ETF	61,352	(6,194,166)	(2,555)	3,519,777	(2,615,592)
Gaming ETF	748,796	(7,851,538)	(6,598)	(5,782,394)	(12,891,734)
Generic Drugs ETF	888	(231,318)	(20)	305,379	74,929
Pharmaceutical ETF	998,331	(8,073,407)	(24,154)	(55,576,830)	(62,676,060)
Retail ETF	702,433	(3,216,400)	(5,409)	3,652,443	1,133,067
Semiconductor ETF	10,550,932	(7,322,989)	(28,957)	(109,718,694)	(106,519,708)

*Includes short-term capital gains (if any)

The tax character of dividends paid to shareholders during the years ended September 30, 2018 and September 30, 2017 were as follows:

Fund	2018		2017	
	Ordinary Income	Dividends	Ordinary Income	Dividends
Biotech ETF	\$ 3,276,012		\$ 1,715,606	
Environmental Services ETF	155,000		132,750	
Gaming ETF	700,050		586,300	
Generic Drugs ETF	55,050		19,400	
Pharmaceutical ETF	4,703,830		5,854,105	
Retail ETF	1,030,346		1,772,514	
Semiconductor ETF	10,499,228		4,764,060	

At September 30, 2018, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

Fund	Short-Term Capital Losses with No Expiration	Long-Term Capital Losses with No Expiration	Total
	Biotech ETF	\$—	
Environmental Services ETF	(405,261)	(5,788,905)	(6,194,166)
Gaming ETF	(2,861,307)	(4,990,231)	(7,851,538)

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Generic Drugs ETF	(115,044)	(116,274)	(231,318)
Pharmaceutical ETF	(1,242,010)	(6,831,397)	(8,073,407)
Retail ETF	(1,355,030)	(1,861,370)	(3,216,400)
Semiconductor ETF	(6,896,994)	(425,995)	(7,322,989)

During the year ended September 30, 2018, Environmental Services ETF utilized \$105,509 and expired \$479,375 of its accumulated capital loss carryforwards.

During the year ended September 30, 2018, Pharmaceutical ETF utilized \$4,005,615 of its accumulated capital losses available from previous years.

During the period ended September 30, 2018 as a result of permanent book to tax differences, primarily due to the expiration of capital loss carryforwards and the treatment of tax gains / (losses) on in-kind redemptions, the Funds incurred a reclassification between distributable earnings / (loss) and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

Fund	Increase (Decrease) in Distributable Earnings / (Loss)	Increase (Decrease) in Aggregate Paid in Capital
Biotech ETF	\$(23,287,782)	\$23,287,782
Environmental Services ETF	(576,562)	576,562
Gaming ETF	(2,773,343)	2,773,343
Generic Drugs ETF	—	—
Pharmaceutical ETF	(26,532,349)	26,532,349
Retail ETF	(11,533,609)	11,533,609
Semiconductor ETF	(262,239,621)	262,239,621

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds’ financial statements. However, certain Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended September 30, 2018, the Funds did not incur any interest or penalties.

Note 6—Capital Share Transactions—As of September 30, 2018, there was an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Fund shares are not individually redeemable and are issued and redeemed at their net asset value per share only through certain authorized broker-dealers (“Authorized Participants”) in blocks of shares (“Creation Units”), consisting of 50,000 shares, or multiples thereof.

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds’ underlying index (“Deposit Securities”) plus a balancing cash component to equate the transaction to the net asset value per share of the Fund on the transaction date. Cash may also be substituted in an amount equivalent to the value of certain Deposit Securities, generally as a result of market circumstances, or when the securities are not available in sufficient quantity for delivery, or are not eligible for trading by the Authorized Participant. The Funds may issue Creation Units in advance of receipt of Deposit Securities

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

subject to various conditions, including a requirement to maintain on deposit at the Custodian for the benefit of the Funds, collateral consisting of cash in the form of U.S. dollars at least equal to 115% of the daily marked to market value of the missing Deposit Securities.

Authorized Participants purchasing and redeeming Creation Units may pay transaction fees directly to The Bank of New York Mellon. In addition, the Funds may impose certain variable fees for creations and redemptions with respect to transactions in Creation Units for cash, or on transactions effected outside the clearing process, which are treated as increases in capital. These variable fees, if any, are reflected in share transactions in the Statements of Changes in Net Assets.

For the year ended September 30, 2018, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
Biotech ETF	\$84,158,140	\$317,085,004
Environmental Services ETF	9,157,312	2,868,503
Gaming ETF	39,399,336	34,392,144
Generic Drugs ETF	—	—
Pharmaceutical ETF	396,557,838	439,931,514
Retail ETF	130,850,507	75,205,055
Semiconductor ETF	19,913,621,084	19,641,427,005

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect gross shareholder transactions including any cash component of the transactions.

Note 7—Principal Risks—Each of the Funds is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

A more complete description of risks is included in each Fund’s Prospectus and Statement of Additional Information.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds’ custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. Daily market fluctuations could cause the value of loaned securities to be more or less than the value of the collateral received. When this occurs, the collateral is adjusted and settled on the next business day. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower and/or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders’, administrative and custodial fees in connection with a loan of its securities. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds’ behalf by the lending agent and is invested in repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at September 30, 2018 are presented on a gross basis in the Schedules of Investments

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

and Statements of Assets and Liabilities.

The following table presents repurchase agreements held as collateral by type of security on loan as of September 30, 2018:

Fund	Gross Amount of Recognized Liabilities for Securities Loaned in the Statements of Assets and Liabilities* Equity Securities
Biotech ETF	\$16,178,176
Environmental Services ETF	25,857
Gaming ETF	957,024
Pharmaceutical ETF	2,572,067
Retail ETF	1,354,307
Semiconductor ETF	45,163,129

*Remaining contractual maturity of the agreements: overnight and continuous

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

Note 10—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended September 30, 2018, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of September 30, 2018
Biotech ETF	128	\$560,489	2.95 %	\$—
Gaming ETF	190	157,262	3.13	123,921
Pharmaceutical ETF	264	651,825	2.95	—
Retail ETF	115	126,791	3.02	387,081
Semiconductor ETF	286	1,945,916	2.93	—

Note 11—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. Offsets to custodian expense, if any, are reflected in custody fees in the Statements of Operations.

Note 12—Recent Accounting Pronouncements—The Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13 *Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU 2018-13”), a final guidance that eliminates, adds and modifies certain disclosure requirements for fair value measurements. Entities will no longer be required to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy. Public companies will be required to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. The ASU 2018-13 is effective for fiscal years beginning after 15 December 2019 and for interim periods within those fiscal years. Early adoption is permitted of either the entire standard or only the provisions that eliminate or modify the requirements. Management is currently evaluating the potential impact of this new guidance to the financial statements.

Note 13—Subsequent Events—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

VANECK VECTORS ETF TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Trustees of VanEck Vectors ETF Trust

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of VanEck Vectors Biotech ETF, VanEck Vectors Environmental Services ETF, VanEck Vectors Gaming ETF, VanEck Vectors Generic Drugs ETF, VanEck Vectors Pharmaceutical ETF, VanEck Vectors Retail ETF and VanEck Vectors Semiconductor ETF (collectively referred to as the “Funds”) (seven of the funds constituting VanEck Vectors ETF Trust (the “Trust”)), including the schedules of investments, as of September 30, 2018, and the related statements of operations, changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds (seven of the funds constituting VanEck Vectors ETF Trust) at September 30, 2018, and the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting the VanEck Vectors ETF Trust	Statement of operations	Statements of changes in net assets	Financial highlights
Biotech ETF Environmental Services ETF Gaming ETF	For the year ended September 30, 2018	For each of the two years in the period ended September 30, 2018	For each of the five years in the period ended September 30, 2018
Generic Drugs ETF	For the year ended September 30, 2018	For each of the two years in the period ended September 30, 2018	For each of the two years in the period ended September 30, 2018 and the period from January 12, 2016 (commencement of operations) through September 30, 2016
Pharmaceutical ETF Retail ETF Semiconductor ETF	For the year ended September 30, 2018	For each of the two years in the period ended September 30, 2018	For each of the five years in the period ended September 30, 2018

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2018, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more of the VanEck investment companies since 1999.

TAX INFORMATION

(unaudited)

The information set forth below relates to distributions paid during each Fund's current fiscal year as required by federal laws. Shareholders, however, must report dividends on a calendar year basis for income tax purposes, which may include dividends for portions of two fiscal years of a Fund.

Accordingly, the information needed by shareholders for calendar year 2018 income tax purposes will be sent to them in early 2019. Please consult your tax advisor for proper treatment of this information.

The following information is provided with respect to the distributions paid during the taxable year ended September 30, 2018:

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

September 30, 2018 (unaudited)

At a meeting held on June 22, 2018 (the “Renewal Meeting”), the Board of Trustees (the “Board”) of VanEck Vectors ETF Trust (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), approved the continuation of the investment management agreements between the Trust and Van Eck Associates Corporation (the “Adviser”) (the “Investment Management Agreements”) with respect to the VanEck Vectors Asia ex Japan Equal Weight ETF, Australia Equal Weight ETF, Australia Hedged Equal Weight ETF, Biotech ETF, Brazil Equal Weight ETF, China Equal Weight ETF, Environmental Services ETF, Europe Equal Weight ETF, Europe Hedged Equal Weight ETF, Gaming ETF, Generic Drugs ETF, Germany Equal Weight ETF, Global Chemicals ETF, Hong Kong Equal Weight ETF, India Equal Weight ETF, Italy Equal Weight ETF, Japan Equal Weight ETF, Japan Hedged Equal Weight ETF, Mexico Equal Weight ETF, Morningstar Durable Dividend ETF (formerly Morningstar High Dividend ETF), Morningstar Global Wide Moat ETF, Morningstar International Moat ETF, Morningstar Wide Moat ETF, NDR CMG Long/Flat Allocation ETF, Pharmaceutical ETF, Retail ETF, Russia Equal Weight ETF, Semiconductor ETF, South Africa Equal Weight ETF, South Korea Equal Weight ETF, Spain Equal Weight ETF, Spin-Off ETF, Taiwan Equal Weight ETF and United Kingdom Equal Weight ETF (each, a “Fund” and together, the “Funds”).

The Board’s approval of the Investment Management Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on June 6, 2018. At that meeting, the Trustees discussed the information the Adviser and Broadridge Financial Solutions, Inc. (“Broadridge”), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance and expenses (for those Funds which had begun operations) of the Funds and the Funds’ peer funds (other index-based exchange-traded funds (“ETFs”)), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser’s relationship with the Funds. In reviewing performance information for the Funds against their peer groups, the Trustees considered that each Fund seeks to track a different index than the funds in its designated peer group and, therefore, each Fund’s performance will differ from its peers. They also considered the fact that VanEck Vectors NDR CMG Long/Flat Allocation ETF had only recently commenced operations and therefore had a limited operational history that could be used for comparative purposes, since the expense information prepared by Broadridge was based on estimated amounts for the Fund and the performance comparisons provided by Broadridge covered approximately a four month period (October 4, 2017 (the date operations commenced for the Fund) through February 28, 2018). In addition, as noted below, the Trustees reviewed certain performance information for each Fund which was not provided by Broadridge and which did not compare each Fund’s performance to the performance of its peer group. For these and other reasons, the Trustees noted that the peer group performance information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Investment Management Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and with the Adviser at the June 6, 2018 meeting regarding the management of the Funds and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreements, including, where applicable, the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time.

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (*i.e.*, measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any systematic fair value adjustments to the underlying securities. Based on the foregoing, the Trustees concluded that the investment performance of the Operating Funds was satisfactory.

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

September 30, 2018 (unaudited) (continued)

The Trustees also considered information relating to the financial condition of the Adviser and the current status, as they understood it, of the Adviser's compliance environment.

As noted above, the Trustees were also provided various data from Broadridge comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had management fees (after the effect of any applicable fee waiver) below the average and median of its respective peer group of funds, except for each of VanEck Vectors Gaming ETF, Morningstar International Moat ETF and Morningstar Wide Moat ETF, which had management fees (after the effect of any applicable fee waiver) greater than the average and/or median of its peer group of funds. The Trustees also noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below the average and median of its respective peer group of funds, except for each of VanEck Vectors Gaming ETF, Generic Drugs ETF, Morningstar International Moat ETF, Morningstar Wide Moat ETF and NDR CMG Long/Flat Allocation ETF, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and median of its peer group of funds. With respect to these Operating Funds, the Trustees reviewed the amount by which these Operating Funds' management fees and/or total expense ratios (after the effect of any applicable expense limitation) exceeded the average and median of their respective peer groups and information provided by the Adviser providing context for these comparisons. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received.

The Trustees also considered the benefits, other than the fees under the Investment Management Agreements, received by the Adviser from serving as adviser to the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Operating Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees considered the volatility of the asset classes in which certain of the Operating Funds invest, potential variability in the net assets of these Funds and the sustainability of any potential economies of scale which may exist given where fees are currently set. The Trustees also evaluated the extent to which management fees for the Operating Funds effectively incorporate the benefits of economies of scale. The Trustees noted that the Adviser has capped expenses on each Operating Fund since its inception. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Operating Fund is reasonable and appropriate in relation to the current asset size of each Operating Fund and the other factors discussed above and that the advisory fee rate for each Operating Fund currently reflects an appropriate sharing with shareholders of any economies of scale which may exist. The Trustees also determined that the profits earned by the Adviser with respect to the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability to the Adviser of VanEck Vectors Asia ex Japan Equal Weight ETF, Australia Equal Weight ETF, Australia Hedged Equal Weight ETF, Brazil Equal Weight ETF, China Equal Weight ETF, Europe Equal Weight ETF, Europe Hedged Equal Weight ETF, Germany Equal Weight ETF, Global Chemicals ETF, Hong Kong Equal Weight ETF, India Equal Weight ETF, Italy Equal Weight ETF, Japan Equal Weight ETF, Japan Hedged Equal Weight ETF, Mexico Equal Weight ETF, Morningstar Durable Dividend ETF (formerly Morningstar High Dividend ETF), Morningstar Global Wide Moat ETF, Russia Equal Weight ETF, South Africa Equal Weight ETF, South Korea Equal Weight ETF, Spain Equal Weight ETF, Taiwan Equal Weight ETF and United Kingdom Equal Weight ETF because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees also could not consider the historical performance or actual management fees or operating expenses of, or the quality of services previously provided to, each of these Funds, although they concluded that the nature, quality and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their June 6, 2018 meeting as part of their consideration of the Investment Management Agreements.

In voting to approve the continuation of the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

VanEck Vectors Video Gaming and eSports ETF (the "Fund")

At a meeting held on June 22, 2018 (the "Meeting"), the Board of Trustees (the "Board") of VanEck Vectors ETF Trust (the "Trust"), including all of the Trustees that are not interested persons of the Trust (the "Independent Trustees"), considered and approved an investment management agreement between the Trust and Van Eck Associates Corporation (the "Adviser") (the "Investment Management Agreement") with respect to the Fund.

The Board's approval of the Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of the Meeting, the Trustees received materials from the Adviser, including expense information for other funds. The Adviser provided the Trustees with information regarding, among other things, the various aspects of the Fund's proposed investment program, fee arrangements and service provider arrangements. The Independent Trustees' consideration of the Investment Management Agreement was based, in part, on their review of information obtained through discussions with the Adviser at the Meeting regarding the management of the Fund, information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others proposed to be involved in the management and administration of the Fund. The Trustees also considered the terms and scope of services that the Adviser would provide under the Investment Management Agreement, including the Adviser's commitment to waive certain fees and/or pay expenses of the Fund to the extent necessary to prevent the operating expenses of the Fund from exceeding agreed upon limits for a period of at least one year following the effective date of the Fund's registration statement.

The Trustees considered the benefits, other than the fees under the Investment Management Agreement, that the Adviser would receive from serving as adviser to the Fund. The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability of the Fund to the Adviser because the Fund had not yet commenced operations. In addition, because the Fund had not yet commenced operations, the Trustees could not consider the historical performance or actual management fees or operating expenses of, or the quality of services previously provided to, the Fund by the Adviser, although they concluded that the nature, quality, and extent of the

services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Meeting as part of their consideration of the Investment Management Agreement.

In voting to approve the Investment Management Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that the Investment Management Agreement is in the best interest of the Fund and the Fund's shareholders.

VANECK VECTORS ETFs

September 30, 2018 (unaudited)

Dear Shareholders:

We are pleased to present this annual report, which affords us the opportunity to provide a review of the economic backdrop for the last 12 months. But first, in light of the many developments that occurred across global markets over that period, we want to reemphasize VanEck's corporate mission and its implications to you as our valued shareholders.

As you may know, VanEck has a history of looking beyond the financial markets to identify historical, political, and/or technological trends that are likely to create or impact investment opportunities. We were one of the first U.S. asset managers to offer investors access to international markets, which set the tone for our drive to identify promising asset classes and trends. In this respect, our unconventional (at the time) efforts to introduce investors to gold investing in 1968, emerging markets (including China) in 1993, and ETFs in 2006, are now considered mainstream, permanently shaping the investment management industry as we now know it.

Today, we offer both active and passive strategies with compelling exposures supported by well-designed investment processes. Our firm's capabilities range from strategies designed to strengthen core investment allocations, to more specialized exposures that enhance portfolio diversification and reduce volatility.

Putting clients' interests first in all market environments is at the heart of the firm's mission and has been since our founding in 1955. We will, as always, continue to seek out and evaluate the most attractive opportunities for you as shareholders.

As we wrote in our Market Insights research, which can be found at www.vaneck.com/blogs/market-insights, we went into the last stretch of 2017 with rising U.S. interest rates, the "grind trade" in commodities, and the passing of "Old China" and birth of "New China" very much on our minds. We began 2018 by noting that global growth had gone from "ticking up" to "firmly in place" and that, while central banks were tightening, Europe remained "two years" behind the U.S. in this trend and had a trickier task. Further, our base case was for 10-year interest rates to rise to 3.5% with the curve not inverting. In its third longest bull market ever, we remained bullish on U.S. equities in the short-term, but were prepared for a correction. And, finally, we believed that investors should not be underweight commodities as global growth was supporting the bullish "grind trade" narrative from supply cutbacks.

The big shock to this growth story came in the second quarter of 2018, with concerns about European and Chinese growth. This led to U.S. dollar strength, commodity weakness, and emerging markets equity weakness.

We generally hold with our outlook for 2018 from the end of last year: 1) U.S. equities continue in the third longest bull market ever, but earnings are growing and the policy mix is supportive; 2) for commodities, global growth is strong enough and supply limits persist-the bullish “grind trade” continues.

To keep you informed on an ongoing basis, we encourage you to stay in touch with us through the videos, email subscriptions, and research blogs available on our website, www.vaneck.com. Should you have any questions regarding fund performance, please contact us at 800.826.2333 or visit www.vaneck.com.

Management Discussion (unaudited)

Morningstar International Moat

Launched over three years ago as a means to capture moat-based opportunities abroad, VanEck Vectors Morningstar International Moat ETF (NYSE Arca: MOTI[®]) seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the Morningstar[®] Global ex-US Moat Focus IndexSM (MGEUMFUN). The index is intended to track the overall performance of wide and narrow moat rated companies in developed and emerging markets outside the U.S. with sustainable competitive advantages at attractive prices according to Morningstar's equity research team. The index contains at least 50 stocks reviewed each quarter.

For the 12 month period under review, the Fund returned -1.14%.* Several sectors detracted from performance led by negative returns in the healthcare sector. Of several sectors contributing positively to performance, the utilities sector contributed the most, but together their performance was not sufficient to offset those sectors detracting from performance. While companies in Japan contributed the most to performance, those in Germany detracted the most.

MOTI was assigned an overall 4 star rating from Morningstar in the US Fund Foreign Large Blend category for the period ended September 30, 2018. It was also ranked in the top decile in the category for the three-year period ended September 30, 2018.†

Morningstar Wide Moat

VanEck Vectors Morningstar Wide Moat ETF (NYSE Arca: MOAT[®]), now over six-years old, seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the Morningstar[®] Wide Moat Focus IndexSM (MWMFTR). The index targets U.S. companies with sustainable competitive advantages, *i.e.* "moats," and attractive valuations in the view of Morningstar's team of more than 100 equity analysts!

According to the forward-looking process of Morningstar's Equity Research group, companies with moats have the potential to create above-average returns for longer periods of time. The index's approach to investing in U.S. companies with wide economic moats when they are attractively priced has resulted in long-term outperformance versus the broad U.S. equity market.

The Fund returned 17.11%* for the 12 month period under review. The primary driver of performance was the Fund's exposure to the healthcare sector. In addition, stocks in the consumer discretionary sector contributed solid positive returns. The industrial sector was the single sector to detract from the Fund's performance and then, only minimally.

MOAT was assigned an overall 4 star rating from Morningstar™ in the US Fund Large Blend category for the period ended September 30, 2018. It was also ranked in the top percentile in the category for the three-year period ended September 30, 2018 based on total return.†

NDR CMG Long/Flat Allocation

VanEck Vectors® NDR CMG Long/Flat Allocation ETF (NYSE Arca: LFEQ®), launched on October 4, 2017, takes a guided allocation approach designed to help investors manage risk in the U.S. equity market. The Fund seeks to track the Ned Davis Research CMG US Large Cap Long/Flat Index (ticker: NDRCMGLF) from Ned Davis Research (NDR), a world-renowned provider of institutional quality research. It is a rules-based index that follows a proprietary model, called Market Pulse, developed by NDR and CMG Capital Management Group, Inc. (CMG).

Market Pulse measures the overall health of the market through an evaluation of market breadth. In this case, market breadth refers to advancing and declining price trends and countertrends at the GICS®² industry group level. The model computes a robust moving average score daily to capture multi-industry and multi-term trend and countertrend measures to gauge overall market health. It then calculates the score's directional trend to see if it is improving or declining. Collectively, the score and its directional trend determine the equity allocation of either 100%, 80%, 40%, or 0%. At 0%, the allocation would be entirely to cash.³

By September 30, 2018, the end of the period under review, the Fund had traded for a little under 12 months and was up 13.25%,* with the Fund's exposure to the U.S. equity market providing the most to its positive return.

VANECK VECTORS ETFs

(unaudited) (continued)

The Fund's allocation to equities changed four times during the period. In light of deteriorating market health, the Fund's exposure to equities was reduced from 100% to 80% on November 22, 2017.⁴ However, on December 27, 2017, reacting quickly to increasing market health, the Fund's allocation to equities returned to 100%.⁵ On April 10, 2018, negative price action associated with an embattled technology sector and unknowns associated with escalating trade tariffs triggered a trade signal to step incrementally out of the market to an 80% equity allocation.⁶ On August 29, however, following an improvement in market breadth, the Fund once again allocated to a 100% equity investment.⁷

Returns based on NAV. The performance data quoted represent past performance. Past performance is not a guarantee of future results. Performance information for the Funds reflects temporary waivers of expenses and/or *fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

Morningstar Ratings: ©Morningstar, Inc. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. † Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results.

For each fund with at least a 3-year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5-, and 10-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results. For the overall, 3-year, and 5-year periods ended September 30, 2018, MOAT received 4, 5, and 3 stars and was rated among 1,196, 1,196, 1,058 funds, respectively. MOAT was ranked in the top percentile for the 3-year period ended September 30, 2018 or 5 out of 1,196 funds, based on total return. Past performance is no guarantee of future results. For the overall and 3-year periods ended September 30, 2018, MOTI received 4 and 4 stars and was rated among 655 and 655 funds, respectively. MOTI was ranked in the top decile for the 3-year period ended September 30, 2018 or 46 out of 655 funds, based on total return. Past performance is no guarantee of future results.

¹ Equity analysts referred to are part of Morningstar's Equity Research group which consists of various wholly-owned subsidiaries of Morningstar, Inc., including but not limited to, Morningstar Research Services LLC.

² Global Industry Classification Standard (GICS®) is a widely accepted equity securities classification system developed by Morgan Stanley Capital International (MSCI) and Standard & Poor's.

*Commencement of Fund: 7/13/15; First Day of Secondary Market Trading: 7/14/15.

Morningstar[®] Global ex-US Moat Focus IndexSM (MGEUMFUN) is a rules-based index intended to offer exposure to companies that Morningstar, Inc. determines have sustainable competitive advantages based on a proprietary methodology that considers quantitative and qualitative factors (“wide and narrow moat companies”).

**Hypothetical Growth of
\$10,000 (Since
Inception)**

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund’s benchmark.

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares.

See “About Fund Performance” on page 8 for more information.

VANECK VECTORS NDR CMG LONG/FLAT ALLOCATION ETF

PERFORMANCE COMPARISON

September 30, 2018 (unaudited)

Average Annual Total Returns		Cumulative Total Returns	
Share Price	NAV	Share Price	NAV
13.17%	25%	14.00%	14.00%

*Commencement of Fund: 10/04/17; First Day of Secondary Market Trading: 10/05/17.

The Ned Davis Research CMG US Large Cap Long/Flat Index (the “NDR CMG Index”) (NDRCMGLF) is a rules-based index that follows a proprietary model developed by Ned Davis Research, Inc. (“NDR”) in conjunction with CMG Capital Management Group, Inc. (“CMG”). To help limit potential loss associated with adverse market conditions, the model produces trade signals to dictate the NDR CMG Index’s equity allocation ranging from 100% fully invested (i.e., “long”) to 100% in cash (i.e., “flat”). When the NDR CMG Index is long, or 100% fully invested, it will be allocated to the S&P 500 Index. When the NDR CMG Index is flat, or 100% cash, it will be allocated to the Solactive 13-week U.S. T-bill Index. The Solactive 13-week U.S. T-bill Index invests in one 13-week U.S. Treasury bill at a time, and a maximum of five U.S. Treasury bills in a calendar year. When the NDR CMG Index is not completely long or flat, either 80% or 40% of it will be allocated to the S&P 500 Index with the remaining allocated portion (20% or 60%) to the Solactive 13-week U.S. T-bill Index.

Hypothetical Growth of \$10,000 (Since Inception)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund’s benchmark.

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares.

VANECK VECTORS ETF TRUST

ABOUT FUND PERFORMANCE

(unaudited)

The price used to calculate market return (Share Price) is determined by using the closing price listed on its primary listing exchange. Since the shares of each Fund did not trade in the secondary market until after each Fund's commencement, for the period from commencement to the first day of secondary market trading in shares of each Fund, the NAV of each Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for each Fund reflects temporary waivers of expenses and/or fees. Had each Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of each Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect reinvestment of dividends and capital gains distributions. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Shares may trade at a premium or discount to their NAV in the secondary market.

The net asset value (NAV) of each VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of each fund; it is calculated by taking the total assets of each fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAVs are not necessarily the same as each ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell fund shares at NAV.

Index returns are not Fund returns and do not reflect any management fees or brokerage expenses. Certain indices may take into account withholding taxes. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses. Index returns assume that dividends have been reinvested.

Premium/discount information regarding how often the closing trading price of the Shares of each Fund were above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund for each of the four previous calendar quarters and the immediately preceding five years (if applicable) can be found at www.vaneck.com.

VANECK VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, April 1, 2018 to September 30, 2018.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During the Period.”

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Beginning	Ending	Annualized	Expenses
Account	Account	Expense	Paid

	Value	Value	Ratio		During the Period* April 1, 2018 — September 30, 2018
	April 1, 2018	September 30, 2018	During Period

Expenses are equal to the Fund's annualized expense ratio (for the six months ended September 30, 2018)

* multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

** Assumes annual return of 5% before expenses

Expenses are equal to the Fund's annualized expense ratio (for the period from April 9, 2018 (commencement of *** operations) to September 30, 2018) multiplied by the average account value over the period, multiplied by the number of days since commencement of operations divided by the number of days in the fiscal year.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

September 30, 2018

Note 1—Fund Organization—VanEck Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of September 30, 2018, offers fifty-five investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Morningstar International Moat ETF, Morningstar Wide Moat ETF, NDR CMG Long/Flat Allocation ETF, and Real Asset Allocation ETF, (each a “Fund” and, together, the “Funds”). Each Fund, except for Real Asset Allocation ETF, was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index sponsored, licensed or managed by Morningstar, Inc. or Ned Davis Research, Inc. The Real Asset Allocation ETF seeks to achieve its investment objective by investing primarily in exchange traded products (the “ETPs”) that provide exposure to real assets, which include commodities, real estate, natural resources, and infrastructure, using a proprietary, rules-based real asset allocation model.

The indices of the Funds designed to track an index are presented below:

Fund	Index
Morningstar International Moat ETF	Morningstar® Global ex-US Moat Focus Index ^{SM(1)}
Morningstar Wide Moat ETF	Morningstar® Wide Moat Focus Index ^{SM(1)}
NDR CMG Long/Flat Allocation ETF	Ned Davis Research CMG US Large Cap Long/Flat Index ⁽²⁾

(1) Published by Morningstar, Inc.

(2) Published by Ned Davis Research, Inc.

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and follow accounting and reporting requirements of Accounting Standards Codification (“ASC”) 946 Financial Services—Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign market is closed but the Fund is open. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. The Pricing Committee of the Van Eck Associate Corporation (the "Adviser") provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments or other assets. If market quotations for a security or other asset are not readily available, or if the Adviser believes it does not otherwise reflect the fair value of a security or asset, the security or asset will be fair valued by the Pricing Committee in accordance with the Funds' valuation

24

policies and procedures. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, periodic comparisons to valuations provided by other independent pricing services, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis, which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

B. Basis for Consolidation—The Real Asset Allocation ETF invests in certain ETPs through a wholly-owned subsidiary organized under the laws of the Cayman Islands (the "Subsidiary"). The Fund's investment in the Subsidiary may not exceed 25% of the value of the Fund's total assets at each quarter-end of the Fund's fiscal year. Consolidated financial statements of the Fund present the financial position and results of operations for the Fund and its wholly-owned Subsidiary. All interfund account balances and transactions between the Fund and Subsidiary have been eliminated in consolidation.

C. Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

D. Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid annually by each Fund. Income dividends

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Effective in the current reporting period, it is no longer required to separately present distributions from net investment income and distributions from net realized capital gains. Additionally, undistributed net investment income included in net assets is no longer disclosed separately in the Statement of Changes in Net Assets. The September 30, 2017 sources of distributions and undistributed net investment income were as follows:

Fund	Dividends to shareholders: Dividends from net investment income	Undistributed net investment income
Morningstar International Moat ETF	\$407,000	\$1,245,849
Morningstar Wide Moat ETF	9,710,400	12,305,911

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day as quoted by one or more sources. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments **E.** that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Such amounts are included with the net realized and unrealized gains and losses on investment securities in the Statement of Operations. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the **F.** securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

Repurchase Agreements—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the **G.** repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of September 30, 2018 are reflected in the Schedules of Investments.

Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that **H.** counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds present securities lending and repurchase agreement assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Collateral held at September 30, 2018 is presented in the Schedules of Investments. Refer to related disclosures in Note 2G (Repurchase Agreements) and Note 9 (Securities Lending).

Components of Capital—Effective with the current reporting period, net unrealized appreciation, undistributed net **I.** investment income, and accumulated net realized gain (loss) are all included in Total distributable earnings in the Statement of Assets and Liabilities.

J. Other—Security transactions are accounted for on trade date. Realized gains and losses are determined based on the specific identification method. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—Van Eck Associates Corporation (“VEAC”) is the investment adviser to the Morningstar International Moat ETF, Morningstar Wide Moat ETF and NDR CMG Long/Flat ETF. Van Eck Absolute Return Advisers Corporation (“VEARA”) is the investment adviser to the Real Asset Allocation ETF and its Cayman Subsidiary. VEARA is a wholly-owned subsidiary of VEAC, and collectively with VEAC is referred

to as the “Adviser.” The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund’s average daily net assets. The Adviser has agreed, until at least February 1, 2019 (February 1, 2020 for Real Asset Allocation ETF), to waive management fees and assume expenses to prevent each Fund’s total annual operating expenses (excluding acquired fund fees and expenses, interest expense, trading expenses, taxes and extraordinary expenses) from exceeding expense limitations listed in the table below.

The current management fee rate and expense limitations for the year ended September 30, 2018, are as follows:

Fund	Management Expense	
	Fee Rate	Limitations
Morningstar International Moat ETF	0.50 %	0.56 %
Morningstar Wide Moat ETF	0.45	0.49
NDR CMG Long/Flat Allocation ETF	0.50	0.55
Real Asset Allocation ETF	0.50	0.55

Refer to Statements of Operations for the amounts waived/assumed by the Adviser.

The Adviser reduces the management fees it charges the Funds by the amount it collects for management fees from affiliated underlying fund investments. For the year ended September 30, 2018, the Adviser reduced management fees charged by \$7,791 due to affiliated investments held in the Real Asset Allocation ETF.

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds’ distributor (“the Distributor”). Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Note 4—Investments—For the year ended September 30, 2018, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of	Proceeds from
	Investments Purchased	Investments Sold
Morningstar International Moat ETF	\$103,418,621	\$104,445,412
Morningstar Wide Moat ETF	780,416,554	786,436,486
NDR CMG Long/Flat Allocation ETF	6,860,231	6,647,912

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Real Asset Allocation ETF	8,885,422	15,205,489
---------------------------	-----------	------------

*Represents consolidated cost of investments purchased and proceeds from investments sold.

Note 5—Income Taxes—As of September 30, 2018, for Federal income tax purposes, the identified cost, gross unrealized appreciation, gross unrealized depreciation, and net unrealized appreciation (depreciation) of investments owned were as follows:

Fund	Tax Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized (Depreciation)	Net Unrealized Appreciation (Depreciation)
Morningstar International Moat ETF	\$94,602,385	\$2,771,015	\$(4,130,373)	\$(1,359,359)
Morningstar Wide Moat ETF	1,516,357,924	148,480,776	(35,697,629)	112,783,147
NDR CMG Long/Flat Allocation ETF	49,848,504	2,253,752	—	2,253,752
Real Asset Allocation ETF	15,184,261	77,507	(19,864)	57,643

At September 30, 2018, the components of distributable earnings (loss) on a tax basis, for each Fund, were as follows:

Fund	Undistributed Ordinary Income	Undistributed Realized Gains / Accumulated Capital (Losses)	Other Temporary Differences	Net Unrealized Appreciation (Depreciation)	Total Distributable Earnings
Morningstar International Moat ETF	\$2,432,230	\$—	\$(294)	\$(1,363,742)	\$1,068,194
Morningstar Wide Moat ETF	19,655,847	(153,190,715)	(38,343)	112,783,147	(20,790,064)
NDR CMG Long/Flat Allocation ETF	353,747	(450,517)	(27)	2,253,752	2,156,955
Real Asset Allocation ETF	33,336	(157,401)	(1)	58,019	(66,047)

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

The tax character of dividends paid to shareholders during the years ended September 30, 2018 and September 30, 2017 was as follows:

Fund	2018 Dividends and Distributions		2017 Dividends
	Ordinary Income*	Long-term Capital Gains	Ordinary Income
Morningstar International Moat ETF	\$4,016,200	\$285,950	\$407,000
Morningstar Wide Moat ETF	14,227,200	—	9,710,400
NDR CMG Long/Flat Allocation ETF	20,000	—	—

*Includes short-term capital gains (if any)

At September 30, 2018, the following Funds had capital loss carryforwards available to offset future capital gains:

Fund	Short-Term Capital Losses with No Expiration	Long-Term Capital Losses with No Expiration	Total
	Morningstar Wide Moat ETF	\$(91,283,694)	\$(61,907,021)
NDR CMG Long/Flat Allocation ETF	(450,517)	—	(450,517)
Real Asset Allocation ETF	(157,401)	—	(157,401)

During the period ended September 30, 2018 as a result of permanent book to tax differences, primarily due to the treatment of income and capital gains associated with fund redemptions and the treatment of the tax gains / losses on in-kind redemptions, the Funds incurred reclassification between distributable earnings / (loss) and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase (Decrease) in Distributable Earnings / (Loss)	Increase (Decrease) in Aggregate Paid in Capital
------	--	--

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Morningstar International Moat ETF	\$(2,117,214)	\$2,117,214
Morningstar Wide Moat ETF	(171,284,902)	171,284,902
NDR CMG Long/Flat Allocation ETF	(296,565)	296,565
Real Asset Allocation ETF	42,669	(42,669)

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds’ financial statements. However, certain Funds may be subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended September 30, 2018, the Funds did not incur any interest or penalties.

Note 6—Capital Share Transactions—As of September 30, 2018, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Fund shares are not individually redeemable and are issued and redeemed at their net asset value per share only through certain authorized broker-dealers (“Authorized Participants”) in blocks of shares (“Creation Units”), consisting of 50,000 shares, or multiples thereof.

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds’ underlying index (“Deposit Securities”) plus a balancing cash component to equate the transaction to the net asset value per share of the Fund on the transaction date. Cash may also be substituted in an amount equivalent to the value of certain Deposit Securities, generally as a result of market circumstances, or when the securities are not available in sufficient quantity for delivery, or are not eligible for trading by the Authorized Participant. The Funds may issue Creation Units in advance of receipt of Deposit Securities subject to various conditions, including a requirement to maintain on deposit at the Custodian for the benefit of the Funds, collateral consisting of cash in the form of U.S. dollars at least equal to 115% of the daily marked to market value of the missing Deposit Securities.

Authorized Participants purchasing and redeeming Creation Units may pay transaction fees directly to The Bank of New York Mellon. In addition, the Funds may impose certain variable fees for creations and redemptions with respect to transactions in Creation Units for cash, or on transactions effected outside the clearing process, which are treated as increases in capital. These variable fees, if any, are reflected in share transactions in the Statements of Changes in Net Assets.

For the year ended September 30, 2018, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
Morningstar International Moat ETF	\$ 35,475,985	\$21,373,621
Morningstar Wide Moat ETF	808,020,528	716,842,311
NDR CMG Long/Flat Allocation ETF	58,910,702	9,120,639
Real Asset Allocation ETF	14,200,108	2,549,100

This table represents the accumulation of each Fund's daily net in-kind shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect shareholder transactions including any cash component of the transactions.

Note 7—Principal Risks—Each Fund is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. Certain Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

NDR CMG Long/Flat Allocation ETF may invest in shares of other funds, including ETFs, that track the S&P 500 Index. As a result, the Fund will indirectly be exposed to the risks of an investment in the underlying funds. Shares of other funds have many of the same risks as direct investments in common stocks or bonds. In addition, the market value of the Fund's shares is expected to rise and fall as the value of the underlying index or bond rises and falls. The market value of such funds' shares may differ from the net asset value of the particular fund.

Real Asset Allocation ETF may concentrate its investments in ETPs that invest directly in, or have exposure to, equity and debt securities, as well as indirectly in real asset categories such as commodities, real estate, natural resources and

infrastructure. Such investments may subject the ETPs to greater volatility than investments in traditional securities. The Fund is dependent on the performance of underlying funds and is subject to the risks of those funds. Changes in laws or government regulations by the United States and/or the Cayman Islands could adversely affect the operations of the Fund.

A more complete description of risks is included in each Fund's prospectus and Statement of Additional Information.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds’ custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. Daily market fluctuations could cause the value of loaned securities to be more or less than the value of the collateral received. When this occurs, the collateral is adjusted and settled on

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

the next business day. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower and/or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral at September 30, 2018 are presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

The following table presents repurchase agreements held as collateral by type of security on loan as of September 30, 2018:

Fund	Gross Amount of Recognized Liabilities for Securities Loaned in the Statements of Assets and Liabilities* Equity Securities
Morningstar International Moat ETF	\$3,396,272
Morningstar Wide Moat ETF	60,743,753

*Remaining contractual maturity of the agreements: overnight and continuous

Note 10—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or

redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended September 30, 2018, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of September 30, 2018
Morningstar International Moat ETF	267	\$368,384	3.07 %	\$ 581,924
Morningstar Wide Moat ETF	285	2,234,455	2.96	—
Real Asset Allocation ETF	4	349,547	3.32	—

Note 11—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. Offsets to custodian expense, if any, are reflected in custody fees in the Statements of Operations.

Note 12—Recent Accounting Pronouncements—The Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13 *Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU 2018-13”), a final guidance that eliminates, adds and modifies certain disclosure requirements for fair value measurements. Entities will no longer be required to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy. Public companies will be required to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. The ASU 2018-13 is effective for fiscal years beginning after 15 December 2019 and for interim periods within those fiscal years. Early adoption is permitted of either the entire standard or only the provisions that eliminate or modify the requirements. Management is currently evaluating the potential impact of this new guidance to the financial statements.

Note 13—Subsequent Event Review—The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Trustees of VanEck Vectors ETF Trust

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities (consolidated as it relates to VanEck Vectors Real Asset Allocation ETF) of VanEck Vectors Morningstar International Moat ETF, VanEck Vectors Morningstar Wide Moat ETF, VanEck Vectors NDR CMG Long/Flat Allocation ETF and VanEck Vectors Real Asset Allocation ETF (collectively referred to as the “Funds”) (four of the funds constituting VanEck Vectors ETF Trust (the “Trust”)), including the schedules of investments (consolidated as it relates to VanEck Vectors Real Asset Allocation ETF), as of September 30, 2018, and the related statements of operations (consolidated as it relates to VanEck Vectors Real Asset Allocation ETF), changes in net assets (consolidated as it relates to VanEck Vectors Real Asset Allocation ETF), and the financial highlights (consolidated as it relates to VanEck Vectors Real Asset Allocation ETF) for each of the periods indicated in the table below and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position (consolidated as it relates to VanEck Vectors Real Asset Allocation ETF) of each of the Funds (four of the funds constituting VanEck Vectors ETF Trust) at September 30, 2018, and the results of their operations (consolidated as it relates to VanEck Vectors Real Asset Allocation ETF), changes in net assets (consolidated as it relates to VanEck Vectors Real Asset Allocation ETF) and financial highlights (consolidated as it relates to VanEck Vectors Real Asset Allocation ETF) for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on each of the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

VANECK VECTORS ETF TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

(continued)

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2018, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more of the VanEck investment companies since 1999.

TAX INFORMATION

(unaudited)

The information set forth below relates to distributions paid during each Fund's current fiscal year as required by federal laws. Shareholders, however, must report dividends on a calendar year basis for income tax purposes, which may include dividends for portions of two fiscal years of a Fund.

Accordingly, the information needed by shareholders for calendar year 2018 income tax purposes will be sent to them in early 2019. Please consult your tax advisor for proper treatment of this information.

Additionally, Morningstar International Moat ETF hereby designates an additional \$317,302 of long term capital gains for the taxable year ended September 30, 2018.

The following information is provided with respect to the distributions paid during the taxable year ended September 30, 2018:

	Morningstar International Moat ETF	Morningstar Wide Moat ETF	NDR CMG Long/Flat Allocation ETF
Record Date	12/19/2017	12/19/2017	12/28/2017

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

September 30, 2018 (unaudited)

At a meeting held on June 22, 2018 (the “Renewal Meeting”), the Board of Trustees (the “Board”) of VanEck Vectors ETF Trust (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), approved the continuation of the investment management agreements between the Trust and Van Eck Associates Corporation (the “Adviser”) (the “Investment Management Agreements”) with respect to the VanEck Vectors Asia ex Japan Equal Weight ETF, Australia Equal Weight ETF, Australia Hedged Equal Weight ETF, Biotech ETF, Brazil Equal Weight ETF, China Equal Weight ETF, Environmental Services ETF, Europe Equal Weight ETF, Europe Hedged Equal Weight ETF, Gaming ETF, Generic Drugs ETF, Germany Equal Weight ETF, Global Chemicals ETF, Hong Kong Equal Weight ETF, India Equal Weight ETF, Italy Equal Weight ETF, Japan Equal Weight ETF, Japan Hedged Equal Weight ETF, Mexico Equal Weight ETF, Morningstar Durable Dividend ETF (formerly Morningstar High Dividend ETF), Morningstar Global Wide Moat ETF, Morningstar International Moat ETF, Morningstar Wide Moat ETF, NDR CMG Long/Flat Allocation ETF, Pharmaceutical ETF, Retail ETF, Russia Equal Weight ETF, Semiconductor ETF, South Africa Equal Weight ETF, South Korea Equal Weight ETF, Spain Equal Weight ETF, Spin-Off ETF, Taiwan Equal Weight ETF and United Kingdom Equal Weight ETF (each, a “Fund” and together, the “Funds”).

The Board’s approval of the Investment Management Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on June 6, 2018. At that meeting, the Trustees discussed the information the Adviser and Broadridge Financial Solutions, Inc. (“Broadridge”), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance and expenses (for those Funds which had begun operations) of the Funds and the Funds’ peer funds (other index-based exchange-traded funds (“ETFs”)), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser’s relationship with the Funds. In reviewing performance information for the Funds against their peer groups, the Trustees considered that each Fund seeks to track a different index than the funds in its designated peer group and, therefore, each Fund’s performance will differ from its peers. They also considered the fact that VanEck Vectors NDR CMG Long/Flat Allocation ETF had only recently commenced operations and therefore had a limited operational history that could be used for comparative purposes, since the expense information prepared by Broadridge was based on estimated amounts for the Fund and the performance comparisons provided by Broadridge covered approximately a four month period (October 4, 2017 (the date operations commenced for the Fund) through February 28, 2018). In addition, as noted below, the Trustees reviewed certain performance information for each Fund which was not provided by Broadridge and which did not compare each Fund’s performance to the performance of its peer group. For these and other reasons, the Trustees noted that the peer group performance information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Investment Management Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and with the Adviser at the June 6, 2018 meeting regarding the management of the Funds and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreements, including, where applicable, the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time.

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (*i.e.*, measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any systematic fair value adjustments to the underlying securities. Based on the foregoing, the Trustees concluded that the investment performance of the Operating Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser and the current status, as they understood it, of the Adviser's compliance environment.

As noted above, the Trustees were also provided various data from Broadridge comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had management fees (after the effect of any applicable fee waiver) below the average and median of its respective peer group of funds, except for each of VanEck Vectors Gaming ETF, Morningstar International Moat ETF and Morningstar Wide Moat ETF, which had management fees (after the effect of any applicable fee waiver) greater than the average and/or median of its peer group of funds. The Trustees also noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below the average and median of its respective peer group of funds, except for each of VanEck Vectors Gaming ETF, Generic Drugs ETF, Morningstar International Moat ETF, Morningstar Wide Moat ETF and NDR CMG Long/Flat Allocation ETF, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and median of its peer group of funds. With respect to these Operating Funds, the Trustees reviewed the amount by which these Operating Funds' management fees and/or total expense ratios (after the effect of any applicable expense limitation) exceeded the average and median of their respective peer groups and information provided by the Adviser providing context for these comparisons. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received.

The Trustees also considered the benefits, other than the fees under the Investment Management Agreements, received by the Adviser from serving as adviser to the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Operating Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees considered the volatility of the asset classes in which certain of the Operating Funds invest, potential variability in the net assets of these Funds and the sustainability of any potential economies of scale which may exist given where fees are currently set. The Trustees also evaluated the extent to which management fees for the Operating Funds effectively incorporate the benefits of economies of scale. The Trustees noted that the Adviser has capped expenses on each Operating Fund since its inception. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Operating Fund is reasonable and appropriate in relation to the current asset size of each Operating Fund and the other factors discussed above and that the advisory fee rate for each Operating Fund currently reflects an appropriate sharing with shareholders of any economies of scale which may exist. The Trustees also determined that the profits earned by the Adviser with respect to the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability to the Adviser of VanEck Vectors Asia ex Japan Equal Weight ETF, Australia Equal Weight ETF, Australia Hedged Equal Weight ETF, Brazil Equal Weight ETF, China Equal Weight ETF, Europe Equal Weight ETF, Europe Hedged Equal Weight ETF, Germany Equal Weight ETF, Global Chemicals ETF, Hong Kong Equal Weight ETF, India Equal Weight ETF, Italy Equal Weight ETF, Japan Equal Weight ETF, Japan Hedged Equal Weight ETF, Mexico Equal Weight ETF, Morningstar Durable Dividend ETF (formerly Morningstar High Dividend ETF), Morningstar Global Wide Moat ETF, Russia Equal Weight ETF, South Africa Equal Weight ETF, South Korea Equal Weight ETF, Spain Equal Weight ETF, Taiwan Equal Weight ETF and United Kingdom Equal Weight ETF because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees also could not consider the historical performance or actual management fees or operating expenses of, or the quality of services previously provided to, each of these Funds, although they concluded that the nature, quality and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their June 6, 2018 meeting as part of their consideration of the Investment Management Agreements.

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

September 30, 2018 (unaudited) (continued)

In voting to approve the continuation of the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

VanEck Vectors Real Asset Allocation ETF (the "Fund")

At a meeting held on June 22, 2018 (the "Renewal Meeting"), the Board of Trustees (the "Board") of VanEck Vectors ETF Trust (the "Trust"), including all of the Trustees that are not interested persons of the Trust (the "Independent Trustees"), approved the continuation of the investment management agreement between the Trust and Van Eck Absolute Return Advisers Corporation (the "Adviser") (the "Investment Management Agreement") with respect to the Fund.

The Board's approval of the Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on June 6, 2018. At that meeting, the Trustees discussed the information the Adviser and Broadridge Financial Solutions, Inc. ("Broadridge"), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the expenses of the Fund and the Fund's peer funds (other exchange-traded funds ("ETFs")), information about the advisory services provided to the Fund and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser's relationship with the Fund. They also considered the fact that the Fund had only recently commenced operations and therefore did not have a track record long enough to evaluate properly.

The Independent Trustees' consideration of the Investment Management Agreement was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and with the Adviser at the June 6, 2018 meeting regarding the management of the Fund and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the

portfolio managers and others involved in the management and administration of the Fund. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreement, including, where applicable, the Adviser's commitment to waive certain fees and/or pay expenses of the Fund to the extent necessary to prevent the operating expenses of the Fund from exceeding agreed upon limits for a period of time.

The Trustees also considered information relating to the financial condition of the Adviser and the current status, as they understood it, of the Adviser's compliance environment.

As noted above, the Trustees were also provided various data from Broadridge comparing the Fund's expenses to that of other ETFs. The Trustees noted that the information provided showed that the Fund had management fees greater than the average and median of its peer group of funds. The Trustees also noted that the information provided showed that the Fund had a total expense ratio greater than the average and median of its peer group of funds. The Trustees reviewed the amount by which the Fund's management fee and total expense ratio exceeded the average and median of its peer group and information provided by the Adviser providing context for these comparisons, including the Fund's brief operating history and limited assets. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Fund were reasonable in light of the quality of services received.

The Trustees also considered the benefits, other than fees under the Investment Management Agreement, received by the Adviser from serving as adviser to the Fund.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and the fact that the Adviser did not earn any profits from managing the Fund. The Trustees reviewed the Fund's asset size and expense ratio and noted that the Investment Management Agreement does not include breakpoints in the advisory fee rates as asset levels in the Fund increase. The Trustees considered the potential variability in the net assets of the Fund and the sustainability of any potential economies of scale which may exist given where fees are currently set.
The

Trustees also evaluated the extent to which management fees for the Fund effectively incorporate the benefits of economies of scale. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for the Fund is reasonable and appropriate in relation to the current asset size of the Fund and the other factors discussed above and that the advisory fee rate for the Fund currently reflects an appropriate sharing with shareholders of any economies of scale which may exist.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their June 6, 2018 meeting as part of their consideration of the Investment Management Agreement.

In voting to approve the continuation of the Investment Management Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that the Investment Management Agreement is in the best interest of the Fund and the Fund's shareholders.

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Item 2. CODE OF ETHICS.

- (a) The Registrant has adopted a code of ethics (the "Code of Ethics") that applies to the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) The Registrant's code of ethics is reasonably described in this Form N-CSR.
- (c) The Registrant has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Registrant has not granted a waiver or an implicit waiver from a provision of its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (e) Not applicable.
- (f) The Registrant's Code of Ethics is attached as an Exhibit hereto.

Item 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that David Chow, R. Alastair Short, Peter Sidebottom and Richard Stamberger, members of the Audit and Governance Committees, are "audit committee financial experts" and "independent" as such terms are defined in the instructions to Form N-CSR Item 3(a)(2).

Item 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The principal accountant fees disclosed in Item 4(a), 4(b), 4(c), 4(d) and 4(g) are for the Funds of the Registrant for which the fiscal year end is September 30.

- (a) Audit Fees. The aggregate Audit Fees of Ernst & Young for professional services billed for the audits of the financial statements, or services that are normally provided in connection with statutory and regulatory filings or engagements for the fiscal years ended September 30, 2018 and September 30, 2017, were \$281,240 and \$253,930 respectively.
- (b) Audit-Related Fees. Not applicable.
- (c) Tax Fees. The aggregate Tax Fees of Ernst & Young for professional services billed for the review of Federal, state and excise tax returns and other tax compliance consultations for the fiscal years ended September 30, 2018 and September 30, 2017, were \$267,089 and \$282,757 respectively.
- (d) All Other Fees

None.
- (e) The Audit Committee will pre-approve all audit and non-audit services, to be provided to the Fund, by the independent accountants as required by Section 10A of the Securities Exchange Act of 1934. The Audit Committee has authorized the Chairman of the Audit Committee to approve, between meeting dates, appropriate non-audit services.

The Audit Committee after considering all factors, including a review of independence issues, will recommend to the Board of Trustees the independent auditors to be selected to audit the financial statements of

the Funds.

(f) Not applicable. (g) Not applicable. (h) Not applicable. Item 5. AUDIT COMMITTEE OF LISTED REGISTRANTS. The Registrant's Board has an Audit Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)) consisting of four Independent Trustees. Messrs. Chow, Short, Sidebottom and Stamberger currently serve as members of the Audit Committee. Mr. Short is the Chairman of the Audit Committee. Item 6. SCHEDULE OF INVESTMENTS. Information included in Item 1. Item 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 8. PORTFOLIO MANAGER OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 9. PURCHASE OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS. Not applicable. Item 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS. None. Item 11. CONTROLS AND PROCEDURES. (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3 (c)) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15 (b)). (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a(d)) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting. Item 12. DISCLOSURE OF SECURITIES LENDING ACTIVITIES FOR CLOSED-END MANAGEMENT COMPANIES. Not applicable. Item 13. EXHIBITS. (a)(1) The code of ethics is attached as EX-99.CODE ETH (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2) is attached as Exhibit 99.CERT. (b) Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 is furnished as Exhibit 99.906CERT.
