DIRECTOR COMPENSATION

Cash Compensation

Directors who are not employees are paid each year:

A retainer of \$55,000 (\$40,000 for board service, \$15,000 for all committee service).

\$2,500 for attendance at the company's strategic planning conference.

\$2,500 for attendance at the company's annual planning conference.

Compensation for other activities, like visits to TI facilities and attendance at certain company events, is \$1,000 per day. In 2002, the company made payments (an aggregate of \$4,908) relating to premiums for life, medical, dental, travel and accident insurance policies covering directors.

Deferral Election

Subject to some limitations, directors can choose to have all or part of their compensation deferred until they leave the board (or certain other specified times). The deferred amounts are credited to either a cash account or stock unit account. Cash accounts earn interest from the company at a rate (currently based on published interest rates on certain corporate bonds) determined by the Board Organization and Nominating Committee. Stock unit accounts fluctuate in value with the underlying shares of company common stock, which will be issued after the deferral period.

Restricted Stock Units

Under the company's restricted stock unit plan for directors, new non-employee directors are given 2,000 restricted stock units, each representing one share of company common stock. The restricted stock units provide for issuance of company common stock at the time of retirement from the board, or upon earlier termination of service from the board after completing eight years of service or because of death or disability.

Stock Options

Edgar Filing: TEXAS INSTRUMENTS INC - Form DEF 14A

Under the company's stock option plan for non-employee directors, non-employee directors are annually granted a 10-year option to purchase 10,000 shares of the company's common stock. The purchase price of the shares is 100% of the fair market value on the date of grant. These nonqualified options become exercisable in four equal annual installments beginning on the first anniversary date of the grant and also may become fully exercisable in the event of a change in control (as defined in the plan) of the company.

The company's stock option plan for non-employee directors expires by its terms in April 2003. The final grants under the plan were made in January 2003. The board is proposing to combine that plan with the directors' deferred compensation and restricted stock unit plans. See PROPOSAL TO APPROVE THE TEXAS INSTRUMENTS 2003 DIRECTOR COMPENSATION PLAN on page 17.

Director Award Program

Each director whose service commenced prior to June 20, 2002, is eligible to participate in the company's Director Award Program. This program was established to promote the company's interest in supporting charitable institutions. Under the program, the company may contribute a total of \$500,000 per eligible director to up to three educational institutions recommended by the director and approved by the company. The contributions will be made in five annual installments of \$100,000 each following the director's death. Directors receive no financial benefit from the program, and all charitable deductions belong to the company. On June 20, 2002, the board discontinued the program for all future directors who were not members of the board on that date.

Table of Option Grants in 2002

The following table shows stock options granted to the named executive officers in 2002. Additionally, in accordance with the rules of the Securities and Exchange Commission, the table shows the hypothetical gains or option spreads that would exist for the respective options. These gains are based on assumed rates of annual compound stock appreciation of 5% and 10% from the date the options were granted over the full option term. The options have a 10-year term and generally are exercisable within 30 days following the termination of an optionee's employment. The options become fully exercisable in the event of a change in control (as defined in the options) of the company. In some cases, the exercise price may be paid by delivery of already-owned shares and tax withholding obligations related to exercise may be paid in shares.

The table below shows the approximate annual benefits relating to the company's U.S. pension plan that would be payable as of December 31, 2002, to employees in higher salary classifications for the average credited earnings and years of credited service indicated. It assumes retirement at age 65. Benefits are based on eligible earnings. Eligible earnings include salary and bonus as shown in the summary compensation table. Other elements of compensation shown in the summary compensation table or referred to in the footnotes to that table are not included in eligible earnings.

In 1997, the company's U.S. employees were given the option of continuing to participate in the pension plan or participating in a new defined contribution retirement plan. Mr. Templeton chose to participate in the new plan. Accordingly, his benefits under the pension plan (discussed in footnote 1) were frozen as of December 31, 1997. Contributions to the defined contribution retirement plan for Mr. Templeton's benefit are included in the summary compensation table. Mr. Delfassy transferred to the company's U.S. payroll in 1999 and participates in the defined contribution retirement plan. Contributions to the plan for Mr. Delfassy's benefit are included in the summary compensation table.

- (3) The benefits under the pension plan are computed as a single life annuity beginning at age 65. The amounts shown in the table reflect the offset provided in the pension plan under the pension formula adopted July 1, 1989, to comply with social security integration requirements. The integration offset is \$4,437 for 15 years of credited service, \$5,917 for 20 years of credited service, \$7,396 for 25 years of credited service, \$8,875 for 30 years of credited service, \$10,354 for 35 years of credited service, \$10,354 for 40 years of credited service and \$10,354 for 45 years of credited service.

expiration of the plan on April 16, 2003. Under the restricted stock unit plan for directors, restricted stock units are granted only upon the election of a new director. The number of shares issuable in connection with the director deferred compensation plan depends on the amount of compensation directors defer to stock unit accounts.

At its regularly scheduled meeting in January 2003, the board adopted a long-term incentive plan for non-management employees of TI. There are 240,000,000 shares available for issuance under the plan. Executive officers and approximately 400 managers are ineligible to receive awards under this plan.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the board of directors has furnished the following report on executive compensation paid or awarded to executive officers for 2002:

The company's executive compensation program is administered by the Compensation Committee of the board of directors (the Committee), which is composed of the individuals listed below, all of whom are independent directors of the company. The program consists of base salaries, annual performance awards and long-term compensation. At higher management levels, the mix of compensation is significantly weighted more to the performance-based components—annual performance awards and long-term compensation.

In determining the compensation of the executive officers, the Committee considered compensation practices of competitor companies (based on the best available data from as many competitor companies as practicable) and the relative performance of TI and competitor companies. The competitor companies are major high-technology competitors of the company. While many of these companies are included in the S&P Information Technology Index appearing in the graph regarding total shareholder return on page 15, these companies are not the same as the companies comprising that index. The Committee also considered the contribution of each executive officer toward achieving the company's prior year and long-term strategic objectives, as well as the retention value of the officer's long-term compensation.

In its considerations, the Committee did not assign quantitative relative weights to different factors or follow mathematical formulae. Rather, the Committee exercised its discretion and made a judgment after considering the factors it deemed relevant. The Committee's decisions regarding 2002 executive compensation were designed to: (1) align the interests of executive officers with the interests of the stockholders by providing performance-based awards; and (2) allow the company to compete for and retain executive officers critical to the company's success by providing an opportunity for compensation that is comparable to the levels offered by competitor companies.

Section 162(m) of the Internal Revenue Code generally denies a deduction to any publicly held corporation for compensation paid in a taxable year to the company's CEO and four other highest compensated officers to the extent that the officer's compensation (other than qualified performance-based compensation) exceeds \$1 million. The Committee intends to award executive compensation that meets the Section 162(m) deductibility requirements, subject to the Committee's exercising its discretion to award non-deductible compensation when it considers it in the best interests of the company and stockholders to do so.

Compensation Components and Determination

After considering each executive officer's contribution to the prior year and long-term strategic objectives, the CEO made recommendations to the Committee regarding the components of each executive officer's compensation package except his own.

Compensation decisions for 2002 were made such that TI executive officers receive a level of total annual compensation that, when compared to the total annual compensation of executives at competitor companies, reflects the company's performance relative to those competitor companies. In order to weight more of total compensation to performance-based components, the

Edgar Filing: TEXAS INSTRUMENTS INC - Form DEF 14A

Committee's base salary decisions are intended to provide salaries somewhat lower than the median level of salaries for similarly situated executive officers of competitor companies, or of divisions within competitor companies, of similar size (in terms of total revenues and market capitalization). Decisions regarding annual performance awards for 2002 were primarily driven by the company's relative performance on

Table of Contents

four measures – profit from operations as a percent of revenues for the year, changes in net revenues and market share from the prior year, and total shareholder return for the year – and each individual’s contribution toward that performance.

Stock options constitute TI’s primary long-term incentive vehicle. Stock options granted in 2002 were granted at 100% of fair market value on the date of grant, have a 10-year term, and become exercisable in four equal annual installments beginning one year after grant. Any value actually realized by executive officers from option grants depends completely upon increases in the price of TI common stock. As a result, the grants focus the executive officers on building value for stockholders.

Guidelines for grants of stock options under TI’s long-term incentive program were set with the intention of providing TI executive officers with grants for a comparable number of shares and value to those granted by competitor companies. The Committee, in its discretion, adjusted the awards considering each executive officer’s individual contribution to the implementation of the strategic plan of the company as well as the retention value of the officer’s long-term compensation.

The Committee also awarded restricted stock units to certain executive officers in 2002. The restricted stock units have a vesting period of at least three years from the date of grant and then are paid to the grantee in shares of TI common stock. The awards were made primarily to increase the retention value of TI’s long-term compensation for certain executive officers.

Base Salary

The Committee reviewed base salaries for executive officers of competitor companies and set base salaries for its executive officers somewhat lower than competitive levels. Accordingly, Mr. Engibous’ annual salary during 2002 was below the median annual salary of CEOs of competitor companies.

Annual Performance Award

The annual performance award varies significantly based on the company’s profitability, revenue and market share growth, and total shareholder return; the achievement of the strategic objectives of the company; and each individual’s contribution toward that performance. The Committee considered rankings of estimates of competitor companies’ 2002 performance compared to the company’s performance, and granted annual performance awards to executive officers to approximate total annual cash compensation of executive officers in similarly performing competitor companies. As a result, Mr. Engibous received an annual performance award of \$500,000.

Long-Term Compensation

The Committee made long-term compensation determinations in January 2002, for one executive officer in July 2002, and for certain other executive officers in December 2002. In connection with its determinations, the Committee reviewed the officers’ continuing contributions to achieving the strategic objectives of the company and followed the guidelines for stock options and

restricted stock units.

Considering Mr. Engibous' continuing contribution to execution of the strategic plan for the company, the Committee granted Mr. Engibous options for a total of 1,050,000 shares, resulting in a total long-term compensation opportunity comparable to those of CEOs of competitor companies.

The ranking of total compensation (annual plus long-term) for Mr. Engibous as compared to the total compensation of CEOs of competitor companies was intended to approximate the estimated ranking of TI performance compared to the performance of competitor companies.

COMPARISON OF TOTAL SHAREHOLDER RETURN

This graph compares TI's total shareholder return with the S&P 500 Index and the S&P Information Technology Index over a five-year period, beginning December 31, 1997, and ending December 31, 2002. The total shareholder return assumes \$100 invested at the beginning of the period in TI common stock, the S&P 500 Index and the S&P Information Technology Index. It also assumes reinvestment of all dividends.

* Assumes that the value of the investment in TI common stock and each index was \$100 on December 31, 1997, and that all dividends were reinvested.

** The S&P Information Technology Index is the index corresponding to the S&P Technology Sector Index (used by the company in prior proxy statements) following an index reclassification by Standard & Poors effective December 31, 2001.

PROPOSAL TO APPROVE THE TEXAS INSTRUMENTS

2003 DIRECTOR COMPENSATION PLAN

The company currently has in effect three director compensation plans: the Texas Instruments Stock Option Plan for Non-Employee Directors, the Texas Instruments Restricted Stock Unit Plan for Directors and the Texas Instruments Directors Deferred Compensation Plan. These plans were designed to attract and retain qualified individuals to serve as directors of the company and to increase the proprietary and vested interest of directors in the growth and performance of the company. The board of directors believes that the director plans have been effective in achieving these objectives and that it is appropriate to continue to have similar plans in place.

The proposed Texas Instruments 2003 Director Compensation Plan (the Plan) consolidates the three current director compensation plans and provides for (1) the annual grant of stock options to directors, (2) the grant of restricted stock units to newly elected directors, (3) the authority to grant other stock-based awards to directors, and (4) the opportunity for directors to defer compensation into cash or stock unit accounts.

The terms of the Plan are substantially similar to those of the current director plans. The current director stock option plan will expire by its terms on April 16, 2003. If the Plan is adopted, the current director deferred compensation and restricted stock unit plans will also be terminated. If the stockholders do not approve the Plan, it will not be adopted.

Texas Instruments 2003 Director Compensation Plan

The full text of the proposed Plan is shown on Exhibit A to this proxy statement. The principal features of the Plan are summarized below.

Under the Plan, non-employee directors of the company will be eligible to receive awards and to defer compensation.

The aggregate number of shares of common stock available for issuance under the Plan will be 2,000,000 shares, subject to adjustment by the Administrator (defined below) for stock splits and other events as set forth in the Plan.

The Plan will be administered by the board or a committee of directors designated by the board (the Administrator). The Administrator will have, among other powers, the power to interpret and construe any provision of and instrument relating to the plan, to adopt rules and regulations for administering the plan, and to perform other acts relating to the plan and its administration.

The Plan provides that each non-employee director will receive an annual grant of a nonqualified option to purchase 15,000 shares of TI common stock. The options will become exercisable in four equal annual installments commencing on the first anniversary date of the grant and expire not more than ten years after the date of grant. The purchase price per share of shares deliverable

upon the exercise of such options will be 100% of the fair market value per share of company common stock on the date the option is granted.

In addition, each eligible director who is initially elected or appointed after the effective date of the Plan will receive a one-time grant of 2,000 restricted stock units under the Plan. Each restricted stock unit will be paid or settled by the issuance of one share of TI common stock upon termination of service as a director of the company, provided that such termination occurs (i) due to ineligibility to stand for reelection under the company's by-laws, (ii) after at least eight years of service as a director, (iii) as a result of death or disability, or (iv) in connection with or as a result of a change in control (as defined in the Plan). Notwithstanding the foregoing, in no event will shares be issued if a director's service terminates within six months after the grant of restricted stock units for any reason other than death or disability.

Table of Contents

The Administrator will be authorized to grant to directors such other awards deemed by the Administrator to be consistent with the purposes of the Plan (including, without limitation, stock appreciation rights and rights to dividends and dividend equivalents) denominated or payable in, valued in whole or in part by reference to, or otherwise based on or related to, shares of company common stock.

Each director will be able to elect, with respect to any year, that all or any portion of his or her eligible cash compensation be deferred in accordance with the terms of the Plan. Each director will be able to elect that his or her deferred compensation for any year be credited to a cash account, a stock unit account or any combination thereof.

If the Administrator determines that a dividend or other distribution, recapitalization, stock split or other corporate event or transaction (as described in the Plan) affects the shares such that an adjustment is appropriate in order to prevent dilution or enlargement of the benefits under the Plan, the Administrator may adjust outstanding awards and shares available for awards. The Administrator may not take any other action to reduce the exercise price of any option as established at the time of grant.

The board of directors may amend, alter, suspend, discontinue or terminate the Plan, including, without limitation, the number of shares that are subject to option and restricted stock unit awards. However, the board of directors cannot increase the aggregate number of shares eligible for awards (except as described in the paragraph above) or permit options to be granted at a per-share exercise price of less than the fair market value of company common stock on the date the option is granted.

No award may be granted or compensation deferred under the Plan after the seventh anniversary of the effective date of the Plan.

New Plan Benefits

<u>Texas Instruments 2003 Director Compensation Plan</u>	<u>Number of Shares Subject to Options</u>
Non-Executive Director Group	120,000(1)

- (1) Each non-executive director would have received an option to purchase 15,000 shares of TI common stock had the Plan been in effect in 2002. During 2002, four non-executive directors deferred a total of \$209,609 of their cash compensation into stock unit accounts under the current director deferred compensation plan. Cash dividends and dividend equivalents on restricted stock units in the amount of \$7,439 were paid into non-executive director stock unit accounts during 2002. The Plan also provides for additional benefits in the form of other stock-based awards. To date, these types of awards have not been utilized and the non-executive directors would not have been eligible for automatic grant of any such awards. Therefore, the related benefits the non-executive directors may have received or will in the future receive under these terms of the Plan are not determinable.

Tax Matters

Edgar Filing: TEXAS INSTRUMENTS INC - Form DEF 14A

Counsel for the company has advised that a participant who receives a grant of an option or a restricted stock unit will not be in receipt of taxable income under the Internal Revenue Code upon the making of the grant. A participant who receives an option under the Plan will generally recognize ordinary income at the time of exercise in the amount of the excess, if any, of the fair market value of the stock on the date of exercise over the option price. Upon payment or settlement of a restricted stock unit award in cash or stock, the participant will recognize ordinary income equal to the value of any cash and shares received.

Counsel for the company has also advised that the company will not be allowed any deduction for federal income tax purposes upon the grant of options or restricted stock units. The company will be

Table of Contents

entitled to a deduction for federal income tax purposes in an amount equal to the ordinary income, if any, realized by a participant who exercises an option. Also, the company will be entitled to a deduction for federal income tax purposes at the same time as, and in an amount equal to, the recognition of ordinary income by a participant in respect of restricted stock unit awards under the Plan and the settlement thereof.

Counsel for the company has further advised that a participant will not be deemed to have received any taxable income under the Internal Revenue Code as a result of a deferral election until the participant receives a distribution. When a distribution is made from a cash account or stock unit account, the participant will recognize ordinary income equal to the value of any cash and shares received. The company will be entitled to a deduction for federal income tax purposes at the time a distribution is made from a cash account or stock unit account in an amount equal to the income recognized by the participant.

The board of directors recommends a vote FOR the Texas Instruments 2003 Director Compensation Plan.

**PROPOSAL TO RATIFY
APPOINTMENT OF INDEPENDENT AUDITORS**

In accordance with the recommendation of its Audit Committee, the board has appointed Ernst & Young LLP to be the company's independent auditors for 2003.

The board asks the stockholders to ratify the appointment of Ernst & Young. If the stockholders do not ratify the appointment, the board will consider whether it should appoint other independent auditors.

Representatives of Ernst & Young are expected to be present, and to be available to respond to appropriate questions, at the annual meeting. They have the opportunity to make a statement if they desire to do so; they have indicated that, as of this date, they do not.

The company paid fees to Ernst & Young for the following services in 2002:

Audit Fees. Ernst & Young's fees for our 2002 annual audit and review of interim financial statements were \$3,196,000.

Financial Information Systems Design and Implementation Fees. Ernst & Young did not render any professional services to us in 2002 with respect to financial information systems design and implementation.

All Other Fees. Ernst & Young's fees for all other professional services rendered during 2002 were \$5,215,000, including audit-related services of \$2,075,000 and non-audit services of \$3,140,000. Audit-related services included fees for statutory audits, employee benefit plan audits, a business interruption assessment, due diligence on an acquisition, and accounting consultations. Non-audit services included fees for expatriate administration and tax preparation, preparation of non-U.S. tax returns and tax consultations.

The board of directors recommends a vote **FOR** ratification of the appointment of Ernst & Young LLP as independent auditors for 2003.

STOCKHOLDER PROPOSALS

If you wish to submit a proposal for possible inclusion in the company's 2004 proxy material, we must receive your notice, in accordance with rules of the Securities and Exchange Commission, on or before November 2, 2003.

If you wish to submit a proposal at the 2004 annual meeting (but not seek inclusion of the proposal in the company's proxy material), we must receive your notice, in accordance with the company's by-laws, on or before January 19, 2004.

Suggestions from stockholders concerning the company's business are welcome and all will be carefully considered by the company's management. So that your suggestions receive appropriate review, the Stockholder Relations and Public Policy Committee from time to time reviews correspondence from stockholders and management's responses. This way, stockholders are given access at the board level without having to resort to formal stockholder proposals. Generally, the board prefers you present your views in this manner rather than through the process of formal stockholder proposals.

A stockholder submitted the following proposal for consideration at the 2003 annual meeting. The name and address of the stockholder will be furnished upon request made to the company. The board of directors opposes the proposal for the reasons stated after the Statement of Support.

Stockholder Proposal

Resolved, that the shareholders of Texas Instruments (Company) request that the Board of Directors adopt an executive compensation policy that all future stock option grants to senior executives shall be performance-based. For the purposes of this resolution, a stock option is performance-based if the option exercise price is indexed or linked to an industry peer group stock performance index so that the options have value only to the extent that the Company's stock price performance exceeds the peer group performance level.

Statement of Support

As long-term shareholders of the Company, we support executive compensation policies and practices that provide challenging performance objectives and serve to motivate executives to achieve long-term corporate value maximization goals. While salaries and bonuses compensate management for short-term results, the grant of stock and stock options has become the primary vehicle for focusing management on achieving long-term results. Unfortunately, stock option grants can and do often provide levels of compensation well beyond those merited. It has become abundantly clear that stock option grants without specific performance-based targets often reward executives for stock price increases due solely to a general stock market rise, rather than to extraordinary company performance.

Edgar Filing: TEXAS INSTRUMENTS INC - Form DEF 14A

The resolution advocates performance-based stock options. It defines performance-based stock options as indexed options whose exercise price moves with an appropriate peer group index composed of a company's primary competitors. It should be noted that there are other forms of indexed options that use other types of market indices. The resolution requests that the Company's Board ensure that grants under existing and future Company stock option plans link the options exercise price to an industry performance index associated with a peer group of companies selected by the Board, such as those companies used in the Company's proxy statement to compare 5 year stock price performance.

Table of Contents

Implementing an indexed stock option plan would mean that our Company's participating executives would receive payouts only if the Company's stock price performance was better than that of the peer group average. By tying the exercise price to a market index, indexed options reward participating executives for outperforming the competition. Indexed options would have value when our Company's stock price rises in excess of its peer group average or declines less than its peer group average stock price decline. By downwardly adjusting the exercise price of the option during a downturn in the industry, indexed options remove pressure to reprice stock options. In short, superior performance would be rewarded.

At present, stock options granted by the Company are not indexed to peer group performance standards. We feel strongly that our Company would benefit from the implementation of this proposal. In response to strong negative public and shareholder reactions to the excessive financial rewards provided executives by non-performance based option plans, a growing number of shareholder organizations, executive compensation experts, and companies are supporting the implementation of performance-based stock option plans such as that advocated in this resolution. We urge your support for this important governance reform.

The board of directors recommends a vote **AGAINST** the above stockholder proposal for the following reasons:

Stock options are an important element of executive compensation and the company's principal vehicle for providing long-term incentives to its senior executives. The Compensation Committee of the board, a committee of independent directors, sets the terms of stock option grants in accordance with the company's long-term incentive plan and the company's need to recruit and retain key employees.

The policy advocated by the resolution would deny the Compensation Committee the flexibility it needs to set competitive terms for the company's stock options. The company's success depends in large part on its ability to recruit and retain highly qualified individuals. It competes intensely for such individuals with other companies, the overwhelming majority of which grant non-indexed stock options to their senior executives. If the board were to adopt the proposed policy, the company would be at a significant competitive disadvantage in its efforts to recruit and retain senior executives.

Implementation of the proposed policy could also have adverse accounting consequences for the company. Under current accounting rules relating to indexed stock options, the company would be required to reflect in its quarterly earnings statements a compensation expense adjustment that varies according to the difference between the market price of the company's common stock and the exercise price of any outstanding indexed options. The grant of stock options at a fixed exercise price does not have this variable accounting result. The reporting of a variable compensation expense would negatively affect the company's reported financial performance as compared to other companies in the semiconductor industry and could increase the volatility of the company's common stock.

The company's current option terms provide appropriate incentives to senior executives. In accordance with the company's long-term incentive plan, stock options are granted at no less than 100% of the fair market value of the company's common stock on the date of the option grant. Any value realized by senior executives from option grants depends entirely on increases in the price of TI common stock that benefit all stockholders. As a result, the grants focus the senior executives on building value for stockholders.

Edgar Filing: TEXAS INSTRUMENTS INC - Form DEF 14A

In summary, the board believes that the terms of the company's stock options are appropriate and that the policy advocated by the proposal is against the interest of the company, its employees and its stockholders.

Certain Business Relationships

Joseph F. Hubach, senior vice president, secretary and general counsel of the company, is the brother of Francis P. Hubach, Jr., partner in charge of the Dallas office of the law firm of Jones Day. The company, whose relationship with Jones Day precedes Mr. J. Hubach's employment, engaged the services of Jones Day during 2002. Mr. F. Hubach provides no services to the company.

Cost of Solicitation

The solicitation is made on behalf of the board of directors of the company. The company will pay the cost of soliciting these proxies. We will reimburse brokerage houses and other custodians, nominees and fiduciaries for reasonable expenses they incur in sending these proxy materials to you if you are a beneficial holder of our shares.

Without receiving additional compensation, officials and regular employees of the company may solicit proxies personally, by telephone, fax or e-mail from some stockholders if proxies are not promptly received. We have also hired Georgeson Shareholder Communications Inc. to assist in the solicitation of proxies at a cost of \$12,000 plus out-of-pocket expenses.

Quorum Requirement

A quorum of stockholders is necessary to hold a valid meeting. If at least a majority of the shares of TI stock issued and outstanding and eligible to vote are present in person or by proxy, a quorum will exist.

Vote Required

The eight nominees receiving the greatest number of votes cast by those entitled to vote will be elected.

For all other matters submitted at the meeting (including the board proposals to approve a Texas Instruments 2003 Director Compensation Plan and to ratify the appointment of the company's independent auditors for 2003, and the stockholder proposal), an affirmative vote of the majority of the shares present in person or by proxy is necessary for approval.

We do not expect any matters to be presented for a vote at the annual meeting other than (1) the election of directors, (2) the proposal to approve a Texas Instruments 2003 Director Compensation Plan, (3) the proposal to ratify the appointment of Ernst & Young LLP as the company's independent auditors for 2003 and (4) the stockholder proposal. If you grant a proxy, the persons named in the proxy will have the discretion to vote your shares on any additional matters properly presented for a vote at the

meeting.

Under Delaware law and the company's Restated Certificate of Incorporation and By-Laws, the aggregate number of votes entitled to be cast by all stockholders present in person or represented by proxy at the meeting, whether those stockholders vote FOR or AGAINST or abstain from voting, will be counted for purposes of determining the minimum number of affirmative votes required for approval of such matters. The total number of votes cast FOR each of these matters will be counted for purposes of determining whether sufficient affirmative votes have been cast. An abstention from voting on a matter by a stockholder present in person or represented by proxy at the meeting has the same legal effect as a vote AGAINST the matter even though the stockholder or interested parties analyzing the results of the voting may interpret such a vote differently.

Section 16(a) Beneficial Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires certain persons, including the company's directors and executive officers, to file reports with the Securities and Exchange Commission regarding beneficial ownership of certain equity securities of the company. During 2002, two executive officers, Mr. Gregg Lowe and Mr. Philip Ritter, each filed an amendment to his Form 3 to reflect ownership of an additional 24,000 restricted stock units and 94.47 shares, respectively. Another executive officer, Mr. Hubach, in March 2000, sold 7,068 shares to pay taxes in connection with the vesting of restricted stock units. This sale was reported on Form 5 in February 2002.

The telephone and Internet voting procedures are designed to authenticate stockholders' identities, to allow stockholders to give their voting instructions and to confirm that stockholders' instructions have been recorded properly. The company has been advised by counsel that the telephone and Internet voting procedures that have been made available through ADP Investor Communication Services are consistent with the requirements of applicable law. Stockholders voting via the Internet should understand that there may be costs associated with electronic access, such as usage charges from telephone companies and Internet access providers, that must be borne by the stockholder.

Multiple Stockholders Sharing the Same Address

To reduce the expenses of delivering duplicate proxy materials, we are taking advantage of the SEC's householding rules that permit us to deliver only one set of proxy materials to stockholders who share an address unless otherwise requested. Electronic Delivery of Proxy Materials

As an alternative to receiving printed copies of these materials in future years, we are pleased to offer stockholders the opportunity to receive proxy mailings electronically. To request electronic delivery, please vote via the Internet at www.proxyvote.com and, when prompted, enroll to receive or access proxy materials electronically in future years.

After the meeting date, stockholders holding shares through a broker or bank may request electronic delivery by visiting www.icsdelivery.com/ti and entering information for each account held by a bank or broker. the Board deems it necessary or desirable to qualify or comply or (ii) the consent of the affected Participant, if such action would adversely affect the rights of such Participant under any outstanding Award; and *provided further*, that no such amendment or alteration shall increase the aggregate number of shares that may be issued under the Plan except as provided in Section 5(e). Notwithstanding any other provision of the Plan or any Award Agreement, no such amendment, alteration, suspension, discontinuation or termination shall be made that would (1) permit Options to be granted with a per Share exercise price of less than the Fair Market Value of a Share on the date of grant thereof or (2) except as provided in Section 5(e), reduce the exercise price of any Option established at the time of grant thereof.

- (b) *Correction of Defects, Omissions and Inconsistencies.* The Administrator may correct any defect, supply any omission, or reconcile any inconsistency in the Plan or any Award in the manner and to the extent it shall deem desirable to carry the Plan into effect.

- (b) *Limits of Transfer of Awards.* No Award and no right under any such Award, shall be assignable, alienable, saleable or transferable by a Participant otherwise than by will or by the laws of descent and distribution. During the Participant's lifetime, rights under an Award shall be exercisable only by the Participant, or if permissible under applicable law, by the Participant's guardian or legal representative.
- (c) *No Limit on Other Compensation Arrangements.* Nothing contained in the Plan shall prevent the Company from adopting or continuing in effect other or additional compensation arrangements, and such arrangements may be either generally applicable or applicable only in specific cases.
- (d) *Governing Law.* The validity, construction, and effect of the Plan and any rules and regulations relating to the Plan shall be determined in accordance with the laws of the State of Delaware and applicable federal law.
- (e) *Severability.* If any provision of the Plan or any Award Agreement is or becomes or is deemed to be invalid, illegal, or unenforceable in any jurisdiction, or as to any person, Award or Account, or would disqualify the Plan or any Award under any law deemed applicable by the Administrator, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Administrator, materially altering the intent of the Plan or the Award, such provision shall be stricken as to such jurisdiction, person or Award, and the remainder of the Plan and any such Award shall remain in full force and effect.
- (f) *No Trust or Fund Created.* Neither the Plan nor any Award or Account shall create or be construed to create a trust or separate fund of any kind or a fiduciary relationship between the Company and a Participant or any other person.
