Explanatory Note: This Amendment No. 1 to the Form 10-Q of Wells Real Estate Investment Trust, Inc. (the Company ) for the period ended September 30, 2002 amends the Form 10-Q previously filed, by amending the Consolidated Statements of Income for the three and nine months ended September 30, 2002 and Notes 1(k) and 2 to the Condensed Notes to Financial Statements and the Results of Operations subsection of the Management's Discussion and Analysis of Financial Condition and Results of Operations. This amendment is necessary in order to restate the presentation of certain operating costs of the Company reimbursed by tenants as revenue and the gross property operating costs as expenses pursuant to a FASB Emerging Issues Task Force release issued in November 2001. In addition, interest income and interest expense related to certain bonds held by the Company have been restated to reflect such amounts on a gross basis consistent with this revised presentation. The comparative financial information for prior periods has been reclassified to conform with this revised presentation. Since this presentation does not impact the amount of reimbursements or interest income received by the Company or the property operating costs or interest expense incurred and requires equal adjustments to revenues and expenses, the adoption of this guidance will have no impact on the financial position, net income, earnings per share or cash flows of the Company.

See accompanying condensed notes to financial statements.

\* These financial statement line items have been amended and restated as described in the accompanying Note 1(k).

**Condensed Notes to Financial Statements****1. Summary of Significant Accounting Policies**

Following is new Note 1(k) to be inserted immediately following Note 1(j) in the Condensed Notes to Consolidated Financial Statements:

**(k) Reclassifications and Change in Presentation**

The Company has historically reported property operating costs net of reimbursements from tenants as an expense in its Consolidated Statements of Income. These costs include property taxes, property insurance, utilities, repairs and maintenance, management fees and other expenses related to the ownership and operation of the Company's properties that are required to be reimbursed by the properties' tenants in accordance with the terms of their leases. In response to a FASB Emerging Issues Task Force release issued in November 2001, the Company will now present the reimbursements received from tenants as revenue and the gross property operating costs as expenses commencing in the first quarter of 2002. Consequently, the accompanying Consolidated Statements of Income for the three and nine months ended September 30, 2002 have been amended and restated to reflect the effects of this revised presentation. In addition, the comparative financial information for prior periods has been reclassified to conform to the presentation in the 2002 financial statements.

Since this presentation does not impact the amount of reimbursements received or property operating costs incurred and requires equal adjustments to revenues and expenses, the adoption of this guidance will have no impact on the financial position, net income, earnings per share or cash flows of the Company.

**2. Investments in Joint Ventures**

Following is the amended and restated Note 2(b) to the Condensed Notes to Consolidated Financial Statements:

**(b) Summary of Operations**

The following information summarizes the results of operations of the unconsolidated joint ventures in which the Company, through Wells OP, had ownership interests as of September 30, 2002 and 2001, respectively. There were no additional investments in joint ventures made by the Company during the three and nine months ended September 30, 2002.

Total revenues for the three and nine months ended September 30, 2002 presented above have been amended and restated to include operating cost reimbursements as revenue, consistent with the presentation described in Note 1(k).

## Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

Following is the amended and restated Results of Operations section of Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations:

### Results of Operations

Gross revenues were \$87.9 million and \$38.5 million for the nine months ended September 30, 2002 and 2001, respectively. Gross revenues for the nine months ended September 30, 2002 and 2001 were attributable to rental income, operating cost reimbursements, interest income earned on funds held by the Company prior to the investment in properties, and income earned from joint ventures. The increase in revenues in 2002 was primarily attributable to the purchase of \$805.5 million in additional properties during 2002 and the purchase of \$114.1 million in additional properties during the fourth quarter of 2001 which were not owned for the first three quarters of 2001. The purchase of additional properties also resulted in an increase in expenses, which totaled \$48.1 million for the nine months ended September 30, 2002, as compared to \$24.1 million for the nine months ended September 30, 2001. Expenses in 2002 and 2001 consisted primarily of depreciation, operating costs, interest expense, management and leasing fees and general and administrative costs. As a result, the Company s net income also increased from \$14.4 million for the nine months ended September 30, 2001 to \$39.8 million for the nine months ended September 30, 2002.

Earnings per share for the nine months ended September 30, 2002 decreased from \$0.33 per share for the nine months ended September 30, 2001 to \$0.31 per share for the nine months ended September 30, 2002. Earnings per share for the third quarter decreased from \$0.11 per share for the three months ended September 30, 2001 to \$0.09 per share for the three months ended September 30, 2002. These decreases were primarily due to the substantial increase in the number of shares outstanding as a result of capital raised in 2002 which was not completely matched by a corresponding increase in net income because such capital proceeds were not fully invested in properties.
