Item 2. SALE OF INTEREST IN TALON TECHNOLOGY

On December 20, 2001 Ultradata completed the sale of its interest in Navman NZ Limited, which was formerly known as "Talon Technology Limited." Ultradata transferred the Talon shares to Emerald Capital Partners Limited. In exchange for the Talon shares, Ultradata received \$930,000 cash and two promissory notes.

The promissory notes, identical but for the signer, were made by Peter Maire and Lionel Rogers, who are principals of Navman. Each note provides for the payment to Ultradata of \$150,000 plus accrued interest, if any. No interest will accrue on the notes until December 12, 2004. From December 12, 2004 through December 11, 2006 interest will accrue at a rate of five percent per annum. The notes are payable on the earlier of (a) December 11, 2006 (on which date \$165,000 would be payable) or (b) the date on which the signer sells twenty percent of his Navman shares or (c) the date on which Navman is acquired by or merged into another entity, or (d) the date on which Navman sells equity to the public.

Item 5. AMENDMENT TO CONVERTIBLE NOTES AND WARRANTS

On December 11, 2001 Ultradata entered into an Agreement with the two institutions which are holders of its 11.25% Senior Subordinated Secured Convertible Promissory Notes (the "Notes") and of Warrants to purchase 478,506

Edgar Filing: ULTRADATA SYSTEMS INC - Form 8-K

shares of Ultradata Common Stock (the "Warrants"). The Agreement provided that the \$930,000 cash payment that Ultradata has received from the sale of its Talon shares would be paid directly to the holders of the Notes to reduce Ultradata's liability under the Notes. The Agreement also amended the terms of the Notes as follows:

1. The 10% special interest payment that would have been due on the outstanding balance of the Notes at June 1, 2002 has been waived.
2. The required monthly payment on account of the Notes has been reduced from \$90,000 to \$15,000.
3. The total number of shares into which the Notes may be converted during any 90 day period has been increased to 28% (previously 20%) of the cumulative trading volume for the 66 trading days preceding the date of conversion.
4. Ultradata will no longer be required to maintain an effective registration statement covering the shares into which the Notes are convertible, provided that Ultradata is not in default under the Notes.

In addition, the Agreement reduced the exercise price of the Warrants from \$1.50 to \$.50 per share.
