CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

#### INVESTMENT OBJECTIVES & STRATEGY

The Chartwell Dividend and Income Fund's [the "Fund"] primary investment objective is to seek high current income. Capital appreciation is a secondary objective. The Fund will seek to achieve its objectives by investing, under normal circumstances, at least 50% of its total assets in income generating equity securities, including dividend paying common stocks, convertible securities, preferred stocks and other equity-related securities. In addition, the Fund may invest the balance of its total assets in non-convertible debt securities, consisting primarily of corporate bonds. The Fund attempts to minimize individual security risk by diversifying across many industries and asset classes. The Fund is a closed-end management investment company which trades on the New York Stock Exchange under the symbol CWF.

#### HIGH-YIELD CORPORATE BONDS

High-yield bonds are non-investment grade corporate debt obligations rated "Bal" or lower by Moody's Investors Service, Inc. or "BB+" or lower by Standard and Poor's Ratings Group; they typically have a higher risk level than investment-grade bonds. These securities have historically compensated investors with higher levels of income for that risk. Prices usually are less sensitive to

interest rate fluctuations than higher rated bonds because of the high income levels. However, the prices of these bonds are more sensitive to changes in the economy.

#### CONVERTIBLE SECURITIES

The Fund can invest in both convertible preferred stock and convertible bonds. Both pay fixed rates of income, but because they can be converted into common stock, they are indirectly tied to the common stock's performance. As a result, convertible securities generally offer higher income than common stocks and an opportunity for price appreciation when the value of the underlying security rises. The Fund buys convertibles when the underlying common stock offers strong growth potential as well.

#### COMMON STOCK

The Fund invests in the common stocks of utility companies, Real Estate Investment Trusts (REITs) and other industrial and financial companies as well as other equity securities. Both utilities and REITs tend to offer a premium dividend yield with steady growth that can lead to capital appreciation. Industrial and financial stocks are primarily purchased for capital appreciation based on the fundamental value of the underlying company.

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

#### LETTER TO SHAREHOLDERS

Both the equity and fixed income segments of the Fund gained modestly during the six month period ending May 31, 2004. The period was characterized by continued evidence that the U.S. economic recovery is broadening. Sharp gains in corporate earnings and a pick up in corporate hiring are visible indications of improving economic conditions. At the same time, these signs of a strengthening economy spurred forecasts that the Federal Reserve may have to raise interest rates more aggressively than desired. Investor concern over the potential impact of higher interest rates contributed to some price weakness in the high-yield bond market. However, the Fund fared well over the last six months due to the balanced nature of the Fund assets, which were weighted more heavily in higher-yielding equities (56% of assets) than high-yield bonds (42% of assets). The combination of higher-yielding equities and high-yield bonds serves the Fund's primary investment objective to provide income, and secondarily to provide capital gains potential to the Fund's investors.

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

The Fund ended this period at a market price of \$9.11, a 7.9% premium to net asset value (NAV) of \$8.44. Due to the split in assets between dividend-paying stocks and high-yield bonds, the return of the Fund will be a mixture of those two asset classes. For the six months ending May 31, 2004, the S&P 500 equity index had a total return of 6.8%. The Fund's high-yield benchmark, the Merrill Lynch High-Yield Cash Pay Index, returned 2.2%. The NAV return of the Fund was 4.9%, while the total market returns to shareholders for the six month period was -2.3%. The Fund's stock was volatile during the six months ranging from a discount of 3.3% to a premium of 18.0% versus the NAV. We attribute some of the weakness in the market return to investor concern over the potential impact of rising interest rates on high-yield bonds going forward. We believe interest rates will rise at a moderate pace over the next year.

Our stock market outlook for the remainder of 2004 remains guardedly optimistic. We believe continued improvement in the economy will produce positive corporate earnings momentum and moderate equity returns. However, international events and the threat of terrorism remain risks that could lead to substantial market volatility at any time. Similarly, we remain constructive on the total return potential of the high-yield bond market. A gradual increase in rates, coupled with a stronger economy and lower default rates, should deliver high-yield returns competitive with other domestic fixed income markets.

Over the six month period Doster J. Esh resigned as one of the Fund's Equity Portfolio Managers. We are pleased to welcome Colleen Smith who will join Bernie Schaffer in overseeing the equity portion of the Fund. Ms. Smith has worked as an Equity Analyst/Portfolio Manager with Chartwell Investment Partners over the last four years. Thank you for your continuing support of the portfolio management team and of the Chartwell Dividend and Income Fund.

Sincerely,

/s/ Winthrop S. Jessup

#### FIXED INCOME RESULTS

High yield corporate bonds returned 2.19% during the six months ended May 31, 2004 (Merrill Lynch High Yield Cash Pay Index). A number of factors weighed on the market including rising interest rates, weak technicals, and continued geopolitical concerns. The interest rate headwind materialized as the yield on the 10-year Treasury increased from 4.33% to 4.65% during the period. In addition, investors have withdrawn roughly \$9 billion from public high yield mutual funds year to date. As an important offset to these technical factors, the U.S. economy appeared strong with some evidence that the current recovery is broadening. The high yield portion of the Fund outperformed the benchmark, largely due to strong credit selection and overweights in consumer products and cyclically sensitive issuers.

| CWF | (as a % of) Total | Investments |
|-----|-------------------|-------------|
|     | As of May 31,     | 2004        |
|     | Equities          | 56%         |
|     | Fixed Income      | 42%         |
|     | Cash              | 2%          |

Total Return
Six Months Ended May 31, 2004
CWF High Yield 2.75%
Merrill Lynch, High Yield
Cash Pay Index 2.19%

The spread between high yield bonds and the reference 10-year Treasury was relatively stable over the last six months, narrowing 18 basis points. At 383 basis points, we believe that today's spread (i.e. risk premium) is consistent with current macro conditions, namely strong economic growth and declining default rates.

```

Recent additions to the fixed income side of the Fund include CHESAPEAKE ENERGY CORPORATION, FRIENDLY ICE CREAM CORPORATION ("FRIENDLY'S"), and OREGON STEEL MILLS, INC. Chesapeake Energy Corporation is a core holding that has taken advantage of high natural gas prices to hedge a significant portion of their production. Friendly's is a leader in casual dining, generates stable cash flow, has a manageable balance sheet, and is a good relative value in our view. Oregon Steel Mills, Inc. is on pace to have record profits this year and should benefit from a strong economy. Each of these recent buys is consistent with our focus on B and BB-rated issuers with improving credit profiles. Top performers over the last six months included BETTER MINERALS & AGGREGATES COMPANY, KNOWLES ELECTRONICS, INC., MMI PRODUCTS, INC., TOM BROWN INC., and VERTIS INC., while the Fund lost money in PORTOLA PACKAGING, INC., RHODIA, and SERVICE CORPORATION INTERNATIONAL. Generally speaking, cyclical sectors outperformed defensive sectors over the period.

7 -----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

#### OUTLOOK:

Our outlook for the high yield bond market remains constructive. Gathering momentum in the U.S. economy will likely continue to force interest rates higher. From this point though, we expect the increase in rates to be gradual, recognizing that rates have already increased significantly with the yield on

the 10-year Treasury roughly 1.6% higher than it was a year ago. Notwithstanding higher interest rates, a strong economy and lower default rates generally benefit issuers of high yield bonds. Under this scenario we believe that high yield bonds should outperform most other domestic fixed income categories while delivering absolute returns in line with the market coupon. The fixed income side of the Fund remains overweighted in cyclically sensitive B rated securities, which should outperform in the current environment due to their greater sensitivity to an improving economy and reduced sensitivity to interest rates (relative to BB's). In addition, the portfolio carries a higher average coupon and a shorter average duration than the benchmark. As always, solid credit research and bond picking will be the key driver of relative performance in the high yield bond market.

Total Return
Six Months ended May 31, 2004
S&P 500 6.8%
Dow Jones
Industrial Average 6.3%
CWF Equities 3.7%

During the six months ending May 31, 2004, equity markets as measured by the S&P 500 and the Dow Jones Industrial Average advanced 6.82% and 6.31%, respectively. The equity portion of the Fund returned 3.7%. This six month period was characterized by solid, broad-based corporate earnings results. Market returns slowed to a more gradual pace after a strong 2003 and were tempered by commentary that an improving economic outlook may encourage the Federal Reserve to raise short term interest rates very soon. As a result, the large cap equity market rotated to a more "defensive" posture during the period with the Energy, Telecommunication and Utility sectors leading, while the Technology and Consumer Discretionary sectors lagged the market.

#### [LINE CHART GRAPHIC OMITTED]

S&P 500 Total Return By Sector (6 Month Period Ending May 31, 2004)

| Energy                 | 22% |
|------------------------|-----|
| Telecommunication      | 10% |
| Utilities              | 9%  |
| Industrials            | 9%  |
| Healthcare             | 8%  |
| Consumer Staples       | 8%  |
| S&P 500                | 7%  |
| Financials             | 7%  |
| Materials              | 6%  |
| Consumer Discretionary | 4%  |
| Technology             | 0%  |

CONTRIBUTING PERFORMERS: Among the best performing stocks in the portfolio during the six month time period were several financial stocks. Our holdings in WASHINGTON MUTUAL (WM), HARTFORD FINANCIAL SERVICES GROUP, INC. (HIG), LINCOLN NATIONAL CORPORATION (LNC) and BANK OF AMERICA CORPORATION (BAC) were solid performers. These stocks benefited from improved earnings revisions tied to the economic recovery and cheap relative valuations. Additionally, our energy stocks, including HALLIBURTON COMPANY (HAL), DIAMOND OFFSHORE DRILLING, INC. (DO) and OCCIDENTAL PETROLEUM (OXY), performed well due to upwardly revised

9 -----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

expectations for oil and natural gas prices. Other stocks that performed well include SL GREEN REALTY CORPORATION (SLG), ACE LIMITED (ACE) and INTERNATIONAL BUSINESS MACHINES CORPORATION (IBM).

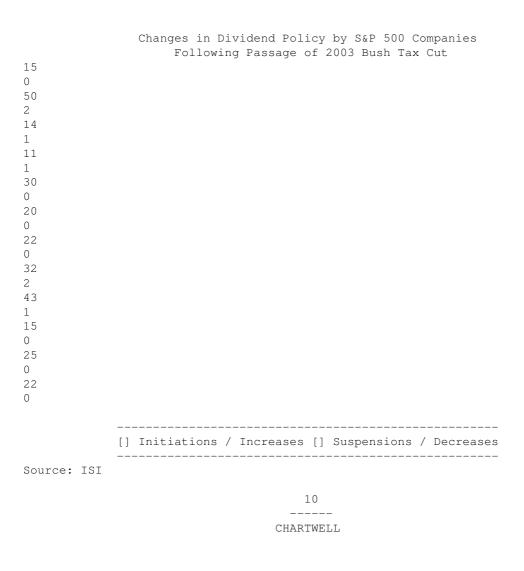

LAGGING PERFORMERS: Our holdings in the Consumer Staples sector demonstrated the least favorable performance. Despite improving fundamentals, negative litigation developments in the tobacco group impacted our holdings in ALTRIA GROUP, INC. (MO), R.J. REYNOLDS TOBACCO HOLDINGS, INC. (RJR) and CAROLINA GROUP (CG). Some of our technology stocks also underperformed due to a rotation to a more conservative position in the large cap equity market which caused many technology stocks to decline. NOKIA OYJ (NOK), LSI LOGIC CORPORATION (LSI) and SOLECTRON CORPORATION (SLR) were among the weakest performers of our technology stocks during the six month period. We continue to believe that many of these stocks will benefit from an improved capital spending cycle among US businesses,

which appears to have just recently begun.

#### STOCK MARKET OUTLOOK:

Over the long term, we believe U.S. equities are likely to revert to more historical total return levels, which have averaged between 8-12%. The primary foundation for equities is favorable given the combination of good earnings growth and reasonable valuation. Further, we believe that interest rates are likely to increase at a relatively modest and measured pace. In addition, the universe of above average dividend paying stocks has begun to keep pace with the broad market, a trend which we hope continues during the year. Companies have increasingly recognized dividend payments as an important aspect of equity ownership, and more companies are announcing initial dividends or increasing dividends. We believe the equity portion of the Fund is well positioned to benefit from this trend. As always, our primary goal is to continue utilizing our fundamental equity framework to research undervalued, high income-producing equities of quality companies.

#### DEFINITION OF THE COMPARATIVE INDICES

DOW JONES INDUSTRIAL AVERAGE is an unmanaged price-weighted average of 30 blue-chip stocks that are generally the leaders in their industry.

S&P 500 INDEX is an unmanaged capitalization-weighted index of 500 stocks designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.

MERRILL LYNCH HIGH YIELD CASH PAY INDEX is an unmanaged index of corporate bonds that pay cash coupons, meet a minimum size threshold, and have a Merrill Lynch composite rating lower than BBB3.

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

#### UTILIZATION OF LEVERAGE

The Chartwell Dividend and Income Fund has utilized leverage through the issuance of commercial paper. As of May 31, 2004, the Fund had \$55 million in leverage outstanding (out of \$60 million available) in the form of commercial paper rated A1/P1 by Moody's Investors Service, Inc./Standard & Poor's Ratings Group. These ratings should enhance the marketability and reduce the interest costs associated with the issuance of the commercial paper. However, it must be noted that the utilization of leverage involves the risk of lower portfolio returns if the cost of leverage is higher than the resulting yields on assets or

if the Fund experiences capital losses in excess of the yield spread, if any. Therefore, the addition of leverage also increases the potential volatility of the Fund. The Fund has the ability to leverage to a maximum of 33% of the Fund's gross assets.

The Fund utilizes leveraging to seek to enhance the yield and net asset value of its common stock. However, these objectives cannot be achieved in all interest rate environments. To leverage, the Fund issues commercial paper, which is issued at a discount equivalent to short-term interest rates, and invests the proceeds in long-term securities. The interest earned on these investments is paid to common stock shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of the Fund's common stock. However, in order to benefit common stock shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit common stock shareholders. IF EITHER OF THESE CONDITIONS CHANGE, THEN THE RISKS OF LEVERAGING WILL BEGIN TO OUTWEIGH THE BENEFITS.

To illustrate these concepts, assume a fund's common stock capitalization of \$100 million and the issuance of commercial paper for an additional \$50 million, creating a total value of \$150 million available for investment in long-term securities. If prevailing short-term interest rates are approximately 3% and long-term interest rates are approximately 6%, the yield curve has a strongly positive slope. The fund pays a discount on the \$50 million of commercial paper based on the lower short-term interest rates. At the same time, the fund's total portfolio of \$150 million earns the income based on long-term interest rates.

In this case, the discount paid to commercial paper holders is significantly lower than the income earned on the Fund's long-term investments, and therefore the common stock shareholders are the beneficiaries of the incremental yield. However, IF SHORT-TERM INTEREST RATES RISE, narrowing the differential between short-term and long-term interest rates, THE INCREMENTAL YIELD PICK-UP ON THE COMMON STOCK WILL BE REDUCED OR ELIMINATED COMPLETELY. At the same time, the market value on the Fund's common stock (that is, its price as listed on the New York Stock Exchange), may, as a result, decline. Furthermore, IF LONG-TERM INTEREST RATES RISE, THE COMMON STOCK'S NET ASSET VALUE WILL REFLECT THE FULL DECLINE IN THE PRICE OF THE PORTFOLIO'S INVESTMENTS, SINCE THE VALUE OF THE FUND'S COMMERCIAL PAPER DOES NOT FLUCTUATE. In addition to the decline in net asset value, the market value of the Fund's common stock may also decline.

29 -----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

#### NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

Chartwell Dividend and Income Fund, Inc. (the "Fund") was incorporated under the laws of the State of Maryland on April 6, 1998 and is registered under the Investment Company Act of 1940 as amended, (the "Act"), as a closed-end, diversified management investment company. The Fund had no operations until June 17, 1998 when it sold 6,667 shares of Common Stock for \$100,005 to Chartwell Investment Partners, L.P. (the "Manager"). Investment operations commenced on June 29, 1998. The Fund's primary investment objective is to seek high current income. Capital appreciation is a secondary objective.

#### NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

USE OF ESTIMATES: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

SECURITY VALUATION: Investment securities of the Fund that are listed on a securities exchange, except for debt securities, and for which market quotations are readily available, are valued at the last quoted sales price at the close of trading on the New York Stock Exchange (normally 4:00 p.m., Eastern Time). Investment securities of the Fund that are quoted on the NASDAQ market system are valued at the official closing price, or if there is none, at the last sales price. If there is no reported sale, these securities and unlisted securities for which market quotations are not readily available are valued at last bid price. Debt securities are priced based upon valuations provided by independent, third-party pricing agents, if available. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities at an evaluated bid price by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Debt obligations with remaining maturities of sixty days or less may be valued at their amortized cost, which approximates market value. Prices for most securities held in the Fund are provided daily by recognized independent pricing agents. If a security price cannot be obtained from an independent, third-party pricing agent, the Fund seeks to obtain a bid price

from at least one independent broker. Short-term investments having a maturity of less than 60 days are valued at amortized

30 -----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

cost, which approximates market value. All securities and assets for which quotations are not readily available, of which there were none as of May 31, 2004, are valued in accordance with Fair Value Procedures established by the Fund's Board of Directors. The Fund's Fair Value Procedures are implemented through a Fair Value Committee (the "Committee") designated by the Fund's Board of Trustees. Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include, among other things: the security's trading has been halted or suspended; the security has been de-listed from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; or the security's primary pricing source is not able or willing to provide a price. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee.

CASH AND CASH EQUIVALENTS: Idle cash is swept into a money market fund at Wachovia Bank, N.A., (the "Custodian"), and is classified as cash on the Statement of Assets and Liabilities. Amounts so invested are generally available on the same business day.

WRITTEN OPTIONS: When the Fund writes a covered call option, an amount equal to the premium received by the Fund is included in the Fund's Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written.

When a covered written call option expires on its stipulated expiration date, or if the Fund enters into a closing purchase transaction, the Fund will realize a gain (or loss if the cost of the closing purchase transaction exceeds the premium received when the call option was written) without regard to any unrealized gain or loss on the underlying security, and the liability related to such option will be extinguished. When a covered written call option is exercised, the Fund will realize a gain or loss from the sale of the underlying security and the proceeds of the sale are increased by the premium originally received. The Fund as writer of an option has no control over whether the underlying securities may be sold (called) and as a result bears the market risk of an unfavorable change in the price of the securities underlying the written option.

DIVIDENDS AND DISTRIBUTIONS: The Fund will declare and pay dividends to shareholders on a monthly basis. Long-term capital gains, if any, in excess of loss carryforwards are distributed to shareholders annually. Dividends from net investment income and capital gain distributions are determined in accordance with U.S. Federal income tax regulations, which may differ from generally accepted accounting principles. Dividends and distributions to shareholders are recorded on the ex-dividend date.

31
----

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

\_\_\_\_\_

The Fund currently intends to distribute a monthly fixed amount to shareholders. The Fund's final distribution for each calendar year may exceed that amount, however, to the extent necessary for the Fund to have distributed all of its net investment company taxable income and net capital gains recognized during the year, if any. If, for any calendar year, the total distributions exceed net investment company taxable income and net capital gain, the excess, distributed from the Fund's assets, will generally be treated as a tax-free return of capital and will result in a reduction in the shareholder's basis. The Board of Directors reserves the right to change the aforementioned dividend policy from time to time.

SECURITIES PURCHASED ON A WHEN-ISSUED BASIS: Delivery and payment for securities that have been purchased by the Fund on a forward commitment or when-issued basis can take place up to a month or more after the transaction date. The purchase of securities on a when-issued or forward commitment basis may increase the volatility of the Fund's net asset value if the Fund makes such investments while remaining substantially fully invested. As of May 31, 2004, there were no securities purchased on a when-issued basis.

BORROWINGS: The Fund issues short-term commercial paper at a discount from par. The discount is amortized to interest expense over the life of the commercial paper using the straight line method.

SECURITY TRANSACTIONS AND INVESTMENT INCOME: Security transactions are recorded on the trade date. Realized gains and losses on sales of securities are calculated on the identified cost basis.

Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The Fund accretes original issue discount on securities using the effective interest method.

# NOTE 2. INVESTMENT MANAGEMENT, ADMINISTRATION, CUSTODIAN AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund has entered into an investment management agreement with the Manager. The Manager manages the Fund's portfolio and makes investment decisions. For these services, the Fund pays the Manager a monthly fee at an annual rate of 0.95% of the Fund's Managed Assets. "Managed Assets" are the average weekly value of the Fund's total assets minus the sum of the Fund's liabilities, excluding debt related to leveraging, short-term debt and the aggregate liquidation preference of any outstanding preferred stock. The Manager has agreed to limit the investment management fee paid to it by the Fund to 0.85% of the Fund's Managed Assets. This waiver is voluntary and may be changed at any time.

The Fund has entered into an administration agreement with SEI Investments Global Funds Services (the "Administrator"). Under such agreement, the

32
----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

-----

Administrator performs or arranges for the performance of certain administrative services necessary for the operation of the Fund. For these services, the Fund pays a fee to the Administrator based on the Fund's Managed Assets according to the following rates: 0.10% on the first \$250 million of such Managed Assets and 0.09% on such Managed Assets in excess of \$250 million, subject to a minimum annual fee of \$180,000, which includes fees under this agreement and fees received by the Administrator from the Chartwell Large Cap Value and Chartwell Small Cap Value Funds. The allocation of the minimum will be assessed based upon Managed Assets of the Fund and net assets of the Chartwell Large Cap Value and Chartwell Small Cap Value Funds.

Certain officers and/or directors of the Fund are officers and/or directors of the Manager. The Fund pays to each director who is not an "affiliated person" as defined in the Act a fee of \$6,000 per year, plus \$1,000 per year for audit committee members and an additional fee of \$250 per year for the chairman of the audit committee.

For the six months ended May 31, 2004, the Fund incurred a legal expense of \$64,338\$ for services provided by Drinker Biddle & Reath LLP, counsel for the Fund. A partner of the firm is an officer of the Fund.

Wachovia Bank, N.A. serves as the custodian for the Fund. The Custodian plays no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

#### NOTE 3. PURCHASE AND SALES OF INVESTMENTS

For the six months ended May 31, 2004, purchases and sales of investments, excluding short-term investments, totaled \$100,433,236 and \$94,593,553, respectively.

The following table summarizes the Fund's call options written for the six months ended May 31, 2004.

|                                       | NUMBER OF |                     |
|---------------------------------------|-----------|---------------------|

#### NOTE 4. COMMERCIAL PAPER

As of May 31, 2004, \$55,000,000 of commercial paper was outstanding with an amortized cost of \$54,915,193. The average discount rate of commercial

33 -----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

\_\_\_\_\_

paper outstanding at May 31, 2004, was 0.53%. The average daily balance of commercial paper outstanding for the six months ended May 31, 2004, was \$53,202,584 at a weighted average discount rate of 1.35%. The maximum face amount of commercial paper outstanding at any time during the six months ended May 31, 2004, was \$55,000,000. In conjunction with the issuance of the commercial paper, the Fund has entered into a line of credit arrangement with a bank for \$30,000,000. Interest on borrowing is based on market rates in effect at the time of borrowing. The commitment fee is computed at the rate of 0.30% per annum on the unused balance. There were no borrowings under this arrangement during the six months ended May 31, 2004,

#### NOTE 5. CAPITAL STOCK

There are 100,000,000 shares of \$0.01 par value common stock authorized. Of the 16,429,467 shares of common stock outstanding at May 31, 2004, the Manager owned 12,832 shares.

For the six months ended May 31, 2004, and the year ended November 30, 2003, the Fund issued 103,952 and 252,752 shares, respectively, in connection with the Fund's dividend reinvestment plan.

#### NOTE 6. MARKET AND CREDIT RISKS

The Fund may invest in high-yielding fixed-income securities, which carry ratings of BB or lower by S&P and/or Bal or lower by Moody's. Investments in these higher-yielding securities may be accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower-rated securities may be more susceptible to adverse economic and competitive industry conditions than investment-grade securities. The Fund may invest up to 15% of its total assets in illiquid securities and other securities which may not be readily marketable. In addition, the Fund may purchase securities sold in reliance of Rule 144A of the Securities Act of 1933. The relative illiquidity of some of the Fund's portfolio securities may adversely affect the ability of the Fund to dispose of such securities in a timely manner and at a fair price at times when it might be necessary or advantageous for the Fund to liquidate portfolio securities.

#### NOTE 7. FEDERAL TAX INFORMATION

It is the Fund's intention to continue to meet the requirements under Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to shareholders. Therefore, no provision for Federal income tax or excise tax is required.

The tax character of dividends and distributions paid during the last two fiscal years were as follows:

| INCOME   | CAPITAL   | TOTALS |
|----------|-----------|--------|
| ORDINARY | RETURN OF |        |

| 2003 | \$ 9,929,830 | \$6,254,835 | \$16,184,665 |
|------|--------------|-------------|--------------|
| 2002 | 10,544,215   | 7,287,730   | 17,831,945   |
|      |              | 2.4         |              |
|      |              |             |              |

-----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

As of November 30, 2003, the components of Accumulated Losses were as follows:

| Capital loss carryforwards  | \$(75,776,129) |
|-----------------------------|----------------|
| Net unrealized appreciation | 10,656,380     |
| Other temporary differences | (244,106)      |
|                             |                |
| Total accumulated losses    | \$(65,363,855) |
|                             | ==========     |

The following summarizes the capital loss carryforwards as of November 30, 2003. These capital loss carryforwards are available to offset future gains.

35 -----

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

#### AUTOMATIC DIVIDEND REINVESTMENT PLAN (UNAUDITED)

Pursuant to the Fund's Automatic Dividend Reinvestment Plan (the "Plan"), unless a shareholder otherwise elects, all dividend and capital gains distributions will be automatically reinvested in additional shares of common stock of the Fund by PFPC Inc., as agent for shareholders in administering the Plan (the "Plan Agent"). Shareholders who elect not to participate in the Plan will receive all dividends and distributions in cash, paid by check mailed directly to the shareholder of record (or, if the shares are held in street or other nominee name, then to such nominee) by PFPC Inc., as dividend paying agent. Such participants may elect not to participate in the Plan and to receive all distributions of dividends and capital gains in cash by sending written instructions to PFPC Inc., as dividend paying agent, at the address set forth below.

Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by written notice if received by the Plan Agent not less than ten days prior to any dividend record date. Otherwise such termination will be effective with respect to any subsequently declared dividend or distribution.

Whenever the Fund declares a distribution, an ordinary income dividend or a capital gain dividend (collectively referred to as "dividends") payable either in shares or in cash, non-participants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common stock. The shares will be acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized shares of common stock from the Fund or (ii) by purchase of outstanding shares of common stock on the open market on the NYSE or elsewhere. If on the payment date of the dividend, the net asset value per share of the common stock is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participant. The number of newly issued shares of common stock to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value (such condition being referred to herein as "market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases.

In the event of a market discount on the dividend payment date, the Plan Agent will have until the last business day before the next date on which the shares trade on the "ex-dividend" basis or in no event more than 30 days after the dividend payment date to invest the dividend amount in shares acquired in

36 -----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

open-market purchases. If, before the Plan Agent has completed its open-market purchases, the market price of a share of common stock exceeds the net asset value per share, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Fund's shares, resulting in the acquisition of fewer shares than if the dividend had been paid in newly issued shares on the dividend payment date. The Plan provides that if the Plan Agent is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to market premium during the purchase period, the Plan Agent will cease making open-market purchases and will invest the uninvested portion of the dividend amount in newly issued shares at the close of business on the last purchase date.

The Plan Agent maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Plan Agent on behalf of the Plan participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan. The Plan Agent will forward all proxy solicitation materials to participants and vote proxies for shares held pursuant to the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners who are to participate in the Plan.

There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gain distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with reinvestment of dividends.

The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends.

Shareholders participating in the Plan may receive benefits not available to shareholders not participating in the Plan. If the market price plus commissions of the Fund's shares is above the net asset value, participants in the Plan will receive shares of the Fund at less than they could otherwise purchase them and will have shares with a cash value greater than the value of any cash

distribution they would have received on their shares. If the market price plus commissions is below the net asset value, participants will receive distributions

37 -----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

in shares with a net asset value greater than the value of any cash distribution they would have received on their shares. However, there may be insufficient shares available in the market to make distributions in shares at prices below the net asset value. Also, since the Fund does not redeem its shares, the price

on resale may be more or less than the net asset value.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence concerning the Plan should be directed to the Plan Agent at PFPC Inc., P.O. Box 43027, Providence, RI 02940-3027, Attn: Closed-End Department.

#### FEDERAL TAX INFORMATION (UNAUDITED)

Information for Federal income tax purposes is presented as an aid to shareholders in reporting the dividend distributions for the six months ended May 31, 2004.

#### ADDITIONAL INFORMATION (UNAUDITED)

During the period, there have been no material changes in the Fund's investment objective or fundamental policies that have not been approved by the shareholders. There have been no changes in the Fund's charter or By-Laws that would delay or prevent a change in control of the Fund which have not been approved by the shareholders. There have been no changes in the principal risk factors associated with investment in the Fund.

#### EFFECTS OF LEVERAGE (UNAUDITED)

Leverage of \$60 million in commercial paper was initially sold by the Fund on July 28, 1999. Through May 31, 2004, interest paid on the commercial paper outstanding ranged from 1.17% to 1.22%. As of May 31, 2004, the Fund had \$25 million outstanding at 1.17% per annum maturing on July 6, 2004, and \$30 million at 1.22% per annum maturing on August 3, 2004. All interest rates include fees due to the broker-dealer. The Fund must experience an annual return of 0.35% to cover interest payments on the commercial paper.

The following table explains the potential effects of leverage on the equity returns of common shareholders:

Assumed return on portfolio

| (net of expenses)              | -10.00% | -5.00% | 0.00%  | 5.00% | 10.00% |
|--------------------------------|---------|--------|--------|-------|--------|
| Corresponding return to common |         |        |        |       |        |
| stockholder                    | -14.33% | -7.40% | -0.48% | 6.44% | 13.37% |

38 -----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2004

-----

Assumes \$130 million assets attributable to common shareholders; \$50 million aggregate leverage with an average interest rate of 1.25%. All figures appearing above are hypothetical returns generated to assist investors in understanding the effects of leverage. Actual returns may be greater or less than those appearing in the table.

HOW TO OBTAIN A COPY OF THE FUND'S PROXY VOTING POLICIES

A description of the policies and procedures that are used by the Fund's investment adviser to vote proxies relating to the Fund's portfolio securities is available (i) without charge, upon request, by calling the Fund toll-free at (866) 585-6552; (ii) on the Fund's website at www.chartwellip.com; and (iii) on the SEC's website at http://www.sec.gov. In addition, the Fund will be required to file new Form N-PX, with its complete proxy voting record for the 12 months ended June 30th, no later than August 31st of each year. The first such filing is due no later than August 31, 2004, for the twelve months ended June 30, 2004. Once filed, the Fund's Form N-PX filing will be available (i) without charge, upon request, by calling the Fund toll-free at (866) 585-6552, (ii) on the Fund's website at www.chartwellip.com; and (iii) on the SEC's website at www.sec.gov.

#### SUPPLEMENTAL PROXY INFORMATION (UNAUDITED)

The Annual Meeting of Shareholders of the Chartwell Dividend and Income Fund, Inc. was held on April 21, 2004 at the offices of PFPC Inc., 103 Bellevue Parkway, Wilmington, Delaware. The description of the proposal and number of shares voted at the meeting are as follows:

This report, including the financial statements herein, is transmitted to the shareholders of Chartwell Dividend and Income Fund, Inc. It is not a prospectus, circular or representation intended for use in the purchase of shares of the Fund or any securities mentioned in the report. Past performance results should not be considered a representation of future performance. Statements and other information contained in this report are as dated and are subject to change.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase, from time to time, shares of its common stock in the open market.

Item 2. Code of Ethics.

Not applicable for semi-annual report.

Item 3. Audit Committee Financial Expert.

Not applicable for semi-annual report.

Item 4. Principal Accountant Fees and Services.

Not applicable for semi-annual report.

Item 5. Audit Committee of Listed Registrants.

Not applicable for semi-annual report.

Item 6. Schedule of Investments

Form N-CSR disclosure requirement not yet effective with respect to registrant.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Not applicable for semi-annual report

Item 8. Purchasers of Equity Securities by Closed-End Management Company and Affiliated Purchasers.

Form N-CSR disclosure requirement not yet effective with respect to registrant.

Item 9. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Directors since the Fund last provided disclosure in response to the requirements of Item 7(d)(2)(ii)(G) of Schedule 14A in its proxy statement filed with the Commission on March 22, 2004.

Item 10. Controls and Procedures.

(a) The certifying officers, whose certifications are included herewith, have evaluated the registrant's disclosure controls and procedures within 90 days of the filing date of this report. In their opinion, based on their evaluation, the registrant's disclosure controls and procedures are adequately designed, and are operating effectively to ensure, that information required to be disclosed by the registrant in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time

periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no significant changes in the registrant's internal controls or in other factors that could affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Items 11. Exhibits.

- (a) (1) Not applicable for semi-annual report.
- (a)(2) A separate certification for the principal executive officer and the principal financial officer of the registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940, as amended (17 CFR 270.30a-2(a)), are filed herewith.
- (b) Officer certifications as required by Rule 30a-2(b) under the Investment Company Act of 1940, as amended (17 CFR 270.30a-2(b)) also accompany this filing as an Exhibit.
