policies and procedures" link on the left side of the page), or by going to the Securities and Exchange Commission's web site at www.sec.gov, or by calling Alliance Capital at (800) 227-4618.

AllianceBernstein Investment Research and Management, Inc., is an affiliate of Alliance Capital Management L.P., the manager of the funds, and is a member of the NASD.

June 25, 2004

Semi-Annual Report

This report provides management's discussion of fund performance for Alliance National Municipal Income Fund (the "Fund") for the semi-annual reporting period ended April 30, 2004.

Investment Objective and Policies

The Fund is a closed-end management investment company designed for investors who seek high current income exempt from regular federal income tax. Under normal conditions, the Fund will invest at least 80%, and normally substantially all, of its assets in municipal securities paying interest that is exempt from regular federal income tax. In addition, the Fund normally invests at least 75% of its assets in investment grade municipal securities.

Investment Results

The following table provides performance data for the Fund and its benchmark, the Lehman Brothers (LB) Municipal Index, for the six- and 12-month periods ended April 30, 2004. For comparison, returns for the Lipper General Municipal Debt Funds (Leveraged) Average (the "Lipper Average") are also included. The funds that comprise the Lipper Average have generally similar investment objectives to the Fund, although some may have different investment policies and sales and management fees.

INVESTMENT RESULTS*

Periods Ended April 30, 2004

	Returns	
	6 Months	12 Months
Alliance National Municipal Income Fund (NAV)	3.02%	5.32%
Lehman Brothers Municipal Index	1.19%	2.68%
Lipper General Municipal Debt Funds (Leveraged) Average	2.21%	4.97%

The Fund's market price per share on April 30, 2004 was \$13.34. For additional Financial Highlights, please see pages 24-25.

* The Fund's investment results are for the periods shown and are based on the

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSR

net asset value (NAV) as of April 30, 2004. All fees and expenses related to the operation of the Fund have been deducted. Performance assumes reinvestment of distributions and does not account for taxes. Past performance is no guarantee of future results.

The unmanaged Lehman Brothers (LB) Municipal Index does not reflect fees and expenses associated with the active management of a mutual fund portfolio. The Index is

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 1

a total return performance benchmark for the long-term, investment grade, tax-exempt bond market. For the six- and 12-month periods ended April 30, 2004, the Lipper General Municipal Debt Funds (Leveraged) Average consisted of 65 and 64 funds, respectively. These funds have generally similar investment objectives to Alliance National Municipal Income Fund, although some may have different investment policies and sales and management fees. An investor cannot invest directly in an index or average, and their results are not indicative of the performance for any specific investment, including Alliance National Municipal Income Fund.

For the six-month period ended April 30, 2004, the municipal bond market posted positive returns even though long municipal rates rose by 0.13%. During this period, the Fund outperformed its benchmark, the LB Municipal Index. The Fund's stronger relative performance was largely the result of certain holdings being advance refunded as well as security selection in the insured and tobacco settlement sectors. In addition, the Fund's leveraged structure benefited its performance, primarily because of historically low borrowing costs. During the six-month reporting period, the Fund also outperformed its peer group, as represented by the Lipper Average.

Market Review and Investment Strategy

From October 31, 2003 to April 30, 2004, long-term municipal bond yields increased by approximately 13 basis points. Over that time period, the long municipal bond market slightly underperformed the taxable bond market on a pre-tax basis, but outperformed on an after-tax basis. For example, the LB Municipal Index gained 1.19% during the six-month period ended April 30, 2004 while the LB U.S. Aggregate Index, representing taxable bonds, generated a pre-tax return of 1.25% over the same period. The Treasury bond component of the aggregate index posted a lower pre-tax return of 0.75%. As of April 30, 2004, 30-year municipal bonds were yielding approximately 95% of comparable maturity Treasury bonds.

Continued weak economic conditions, as well as minimal concern for inflation, contributed to declining municipal bond yields through early March 2004. As signs of economic recovery emerged in the latter part of March and into early April, municipal bond yields started to rise in concert with taxable yields. In anticipation of a more imminent reaction by the U.S. Federal Reserve to the stronger economic indicators, the market began to push shorter maturity bond yields higher at a faster pace than longer maturity bonds. As a result, the difference between 30-year and five-year short-term municipal bond yields declined by 0.43%. The yield curve, a plot of bond yields sorted by ascending maturity, normally slopes upward for longer maturity bonds. When the difference in yield between short- and long-term bonds declines, the change in the shape of the curve is referred to as a "flattening." When the curve flattens, the cost, as measured by the decline in yield, of reducing interest rate sensitivity by moving from longer maturity bonds to shorter maturity bonds, declines.

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSR

 2 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

The prolonged low rate environment has resulted in an increased demand for lower-rated bonds that carry higher yields. As demand for those higher yielding bonds increased, the incremental difference in yield compared to better quality bonds declined. As a result, higher yielding bonds, in general, generated strong relative performance over the period.

Given their lower credit profiles, the health care and industrial development sectors led the market in performance over the past six months. Two of the weakest performing sectors, pre-refunded bonds and housing bonds, were high credit quality sectors. Pre-refunded bonds typically have very short effective maturities so rising short-term rates hurt the performance of those securities. Continued concerns regarding increased refinancing activity limited price improvement in municipal housing bonds. Municipal housing bonds are secured by homeowners' mortgages. As homeowners prepay their mortgages, municipal housing bonds are redeemed at par (100% of face value). Typically, lower yields cause bond prices to increase, but if the market anticipates that a bond may be redeemed in the near term, it is unlikely to value the bonds at a price much above par.

16 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

NOTES TO FINANCIAL STATEMENTS

April 30, 2004 (unaudited)

NOTE A

Significant Accounting Policies

Alliance National Municipal Income Fund, Inc. (the "Fund"), was incorporated in the state of Maryland on November 9, 2001 and is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

1. Security Valuation

In accordance with Pricing Policies adopted by the Board of Directors of the Fund (the "Pricing Policies") and applicable law, portfolio securities are valued at current market value or at fair value. The Board of Directors has delegated to Alliance Capital Management, L.P. (the "Adviser"), subject to the Board's continuing oversight, certain responsibilities with respect to the implementation of the Pricing Policies. Pursuant to the Pricing Policies, securities for which market quotations are readily available are valued at their current market value. In general, the market value of these securities is determined as follows:

Securities listed on a national securities exchange or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. If no bid or asked prices are quoted on such day, then the security is valued in good faith at fair value in accordance with the Pricing Policies. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities not listed on an exchange but traded on The Nasdaq Stock Market, Inc. ("NASDAQ") are valued in accordance with the NASDAQ Official Closing Price; listed put or call options are valued at the last sale price. If there has been no sale on that day, such securities will be valued at the closing bid prices on that day; open futures contracts and options thereon are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSR

there are no quotations available for the day of valuations, the last available closing settlement price is used; securities traded in the over-the-counter market, (but excluding securities traded on NASDAQ) are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable sources; U.S. Government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less, or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including mortgage backed and asset backed securities, may be valued on the basis of prices

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 17

provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer quotes are obtained, the Pricing Policies provide that the Adviser may establish procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security; and OTC and other derivatives are valued on the basis of a quoted bid price or spread from a major broker/dealer in such security.

Securities for which market quotations are not readily available are valued at fair value in accordance with the Pricing Policies. The Fund fair values a security that it holds when a significant event (e.g., an earthquake or a major terrorist attack) occurs after the time that the latest market quotation was established, and, as a result, such market quotation cannot be said to represent the current market value of the security as of the time the Fund prices its shares. Fair valuing securities is imprecise, and there is no assurance that the Fund could dispose of the security at the price used for determining the Fund's net asset value.

2. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required.

3. Investment Income and Investment Transactions

Interest income is accrued daily. Investment transactions are accounted for on the trade date the securities are purchased or sold. Investment gains and losses are determined on the identified cost basis. The Fund amortizes premiums and accretes original issue discounts and market discounts as adjustments to interest income.

4. Dividends and Distributions

Dividends and distributions to shareholders, if any, are recorded on the ex-dividend date. Income dividends and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with accounting principles generally accepted in the United States. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

NOTE B

Advisory Fee and Other Transactions with Affiliates

Under the terms of an investment advisory agreement, the Fund pays the Adviser

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSR

an advisory fee at an annual rate of .65 of 1% of the Fund's average daily net assets applicable to common and preferred shareholders. Such fee is accrued daily and paid monthly. The Adviser has voluntarily agreed to waive a portion of its

 18 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

fees or reimburse the Fund for expenses in the amount of 0.25% of the Fund's average daily net assets applicable to common and preferred shareholders for the first 5 full years of the Fund's operations, 0.20% of the Fund's average daily net assets applicable to common and preferred shareholders in year 6, 0.15% in year 7, 0.10% in year 8, and 0.05% in year 9. For the six months ended April 30, 2004, the amount of such fees waived was \$643,319.

Under the terms of a Shareholder Inquiry Agency Agreement with Alliance Global Investor Services, Inc. (AGIS), an affiliate of the Adviser, the Fund reimburses AGIS for costs relating to servicing phone inquiries for the Fund. During the six months ended April 30, 2004, there was no reimbursement paid to AGIS.

NOTE C

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the period ended April 30, 2004, were as follows:

	Purchases	Sales
Investment securities (excluding U.S. government securities)	\$ 69,574,467	\$ 68,537,101
U.S. government securities	-0-	-0-

The cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes. Accordingly, gross unrealized appreciation and unrealized depreciation (excluding swap transactions) are as follows:

Gross unrealized appreciation	\$ 15,541,678
Gross unrealized depreciation	(2,194,803)

Net unrealized appreciation	\$ 13,346,875
	=====

1. Swap Agreements

The Fund may enter into swaps to protect itself from interest rate fluctuations on the underlying debt instruments and for investment purposes. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net interim payment to be received by the Fund, and/or the termination value at the end of the contract. Therefore, the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSR

in the value of the underlying securities.

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 19

The Fund accrues for the interim payments on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities. Once the interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon the termination of swaps contracts on the statement of operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation/depreciation of investments.

NOTE D

Common Stock

The Fund has 1,999,992,200 shares of \$.001 par value common stock authorized. There are 20,471,667 shares of common stock outstanding at April 30, 2004.

NOTE E

Preferred Stock

The Fund has authorized, issued and outstanding 7,800 shares of Auction Preferred Stock, consisting of 1,950 shares each of Series M, Series T, Series W and Series TH. The preferred shares have a liquidation value of \$25,000 per share plus accumulated, unpaid dividends. The dividend rate on the Auction Preferred Stock may change generally every 7 days as set by the auction agent for Series T and W. The dividend rate on the Series M is 1.06% effective through May 3, 2004. The dividend rate on the Series T is 1.45% effective through March 8, 2004. The dividend rate on the Series W is 1.079% effective through May 5, 2004. The dividend rate on the Series TH is 1.70% effective through August 4, 2005.

At certain times, the Preferred Shares are redeemable by the Fund, in whole or in part, at \$25,000 per share plus accumulated, unpaid dividends.

Although the Fund will not ordinarily redeem the Preferred Shares, it may be required to redeem shares if, for example, the Fund does not meet an asset coverage ratio required by law or to correct a failure to meet a rating agency guideline in a timely manner. The Fund voluntarily may redeem the Preferred Shares in certain circumstances.

The Preferred Shareholders, voting as a separate class, have the right to elect at least two Directors at all times and to elect a majority of the Directors in the event two years' dividends on the Preferred Shares are unpaid. In each case, the remaining Directors will be elected by the Common Shareholders and Preferred Shareholders voting together as a single class. The Preferred Shareholders will vote as a separate class on certain other matters as required under the Fund's Charter, the Investment Company Act of 1940 and Maryland law.

20 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

NOTE F

Distributions To Common Shareholders

The tax character of distributions to be paid to common shareholders for the year ending October 31, 2004 will be determined at the end of the current

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSR

fiscal year. The tax character of distributions paid to common shareholders during the fiscal periods ended October 31, 2003 and October 31, 2002 were as follows:

	2003	2002
	-----	-----
Distributions paid from:		
Ordinary income	\$ 56,946	\$ 26,652
Tax exempt income	17,845,503	11,365,824
	-----	-----
Total distributions paid	\$ 17,902,449	\$ 11,392,476 (a)
	=====	=====

As of October 31, 2003, the components of accumulated earnings/(deficit) applicable to common shareholders on a tax basis were as follows:

Undistributed tax exempt income	\$ 4,039,444
Accumulated capital and other losses	(3,829,443) (b)
Unrealized appreciation/(depreciation)	17,185,598

Total accumulated earnings/(deficit)	\$ 17,395,599

(a) Total distributions paid differ from the statement of changes in net assets applicable to common shareholders because for tax purposes dividends are recognized when actually paid.

(b) On October 31, 2003, the Fund had a net capital loss carryforward of \$ 3,829,443, of which \$1,199,398 expires in the year 2010 and \$2,630,045 expires in the year 2011. To the extent future capital gains are offset by capital loss carryforward, such gains will not be distributed.

NOTE G

Risks Involved in Investing in the Fund

Interest Rate Risk and Credit Risk--Interest rate risk is the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income debt securities such as bonds or notes. Increases in interest rates may cause the value of the Fund's investments to decline. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty to a derivative contract, will be unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. The degree of risk for a particular security may be reflected in its credit risk rating. Credit risk is greater for medium quality and lower-rated securities. Lower-rated debt securities and similar unrated securities (commonly known as "junk bonds") have speculative elements or are predominantly speculative risks.

In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss thereunder to be remote.

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 21

NOTE H

Legal Proceedings

As has been previously reported in the press, the Staff of the U.S. Securities and Exchange Commission ("SEC") and the Office of the New York Attorney General

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSR

("NYAG") have been investigating practices in the mutual fund industry identified as "market timing" and "late trading" of mutual fund shares. Certain other regulatory authorities have also been conducting investigations into these practices within the industry and have requested that Alliance Capital Management L.P. ("Alliance Capital"), the Fund's Adviser, provide information to them. Alliance Capital has been cooperating and will continue to cooperate with all of these authorities. The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing and late trading practices that are the subject of the investigations mentioned above or the lawsuits described below. Please see below for a description of the agreements reached by Alliance Capital and the SEC and NYAG in connection with the investigations mentioned above.

In addition, numerous lawsuits have been filed against Alliance Capital and certain other defendants in which plaintiffs make claims purportedly based on or related to the same practices that are the subject of the SEC and NYAG investigations referred to above. Some of these lawsuits name the Fund as a party. Management of the Fund's Adviser believes that these private lawsuits are not likely to have a material adverse effect on the results of operations or financial condition of the Fund.

On December 18, 2003, Alliance Capital confirmed that it had reached terms with the SEC and the NYAG for the resolution of regulatory claims relating to the practice of "market timing" mutual fund shares in some of the Alliance Bernstein Mutual Funds. The agreement with the SEC is reflected in an Order of the Commission ("SEC Order"). The agreement with the NYAG is subject to final, definitive documentation. Among the key provisions of these agreements are the following:

(i) Alliance Capital agreed to establish a \$250 million fund (the "Reimbursement Fund") to compensate mutual fund shareholders for the adverse effects of market timing attributable to market timing relationships described in the SEC Order. According to the SEC Order, the Reimbursement Fund is to be paid, in order of priority, to fund investors based on (i) their aliquot share of losses suffered by the fund due to market timing, and (ii) a proportionate share of advisory fees paid by such fund during the period of such market timing;

22 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

(ii) Alliance Capital agreed to reduce the advisory fees it receives from some of the Alliance Bernstein long-term, open-end retail funds, commencing January 1, 2004, for a period of at least five years; and

(iii) Alliance Capital agreed to implement changes to its governance and compliance procedures. Additionally, the SEC Order contemplates that Alliance Capital's registered investment company clients, including the Fund, will introduce governance and compliance changes.

The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing practices described in the SEC Order and are not expected to participate in the Reimbursement Fund. Since the Fund is a closed-end fund, it will not have its advisory fee reduced pursuant to the terms of the agreements mentioned above.

Asset coverage ratio

257%

See footnote summary on page 25.

24 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

(a) Commencement of operations. Net asset value immediately after the closing of the first public offering was \$14.30.

(b) Based on average shares outstanding.

(c) Net of fees waived by the Adviser.

(d) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of the period. Total investment return calculated for a period of less than one year is not annualized.

(e) These expense and net investment income ratios do not reflect the effect of dividend payments to preferred shareholders.

(f) Annualized.

We also offer Exchange Reserves,+ which serves as the money market fund exchange vehicle for the AllianceBernstein mutual funds.

For more complete information on any AllianceBernstein mutual fund, including investment objectives and policies, sales charges, expenses, risks and other matters of importance to prospective investors, visit our web site at www.alliancebernstein.com or call us at (800) 227-4618 for a current prospectus. Please read the prospectus carefully before you invest or send money.

* Formerly Growth Investors Fund.

** Formerly Conservative Investors Fund.

+ An investment in the Fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Fund.

28 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

SUMMARY OF GENERAL INFORMATION

Shareholder Information

Daily market prices for the Fund's shares are published in the New York Stock Exchange Composite Transaction Section of newspapers each day, under the designation "ACMMSI." The Fund's NYSE trading symbol is "AFB". Weekly comparative net asset value (NAV) and market price information about the Fund is published each Monday in The Wall Street Journal, each Sunday in The New York Times and each Saturday in Barron's and other newspapers in a table called "Closed-End Bond Funds."

Dividend Reinvestment Plan

A Dividend Reinvestment Plan provides automatic reinvestment of dividends and capital gains in additional Fund shares.

For questions concerning shareholder account information, or if you would like a brochure describing the Dividend Reinvestment Plan, please call Equiserve Trust Company at (800) 219-4218.

ITEM 9. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may
recommend nominees to the Fund's Board of Directors since the Fund last
provided disclosure in response to the requirements of Item 7(d)(2)(ii)(G) of
Schedule 14A in its proxy statement filed with the Commission on February 23,
2004.

ITEM 10. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive officer and principal financial
officer have concluded that the registrant's disclosure controls and procedures
(as defined in Rule 30a-2(c) under the Investment Company Act of 1940, as
amended) are effective at the reasonable assurance level based on their
evaluation of these controls and procedures as of a date within 90 days of the
filing date of this document.

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSR

(b) There were no significant changes in the registrant's internal controls that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

ITEM 11. EXHIBITS.

The following exhibits are attached to this Form N-CSR:

EXHIBIT NO.	DESCRIPTION OF EXHIBIT
11 (b) (1)	Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
