NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION AND STOCK-BASED COMPENSATION

BASIS OF PRESENTATION

The accompanying financial data as of September 30, 2006 and for the three months ended September 30, 2006 have been prepared by China Wireless Communications, Inc. (the "Company"), without audit. Certain

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. However, the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and the notes thereto of the Company, included in the Company's form 10-KSB for the year ended December 31, 2005.

In the opinion of the management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows of the Company have been made. The results of operations for the three and nine months ended September 30, 2006 are not necessarily indicative of the operating results for the full year.

STOCK-BASED COMPENSATION

Effective July 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised), "Share-Based Payment" (SFAS No. 123R), which requires the use of the fair value method of accounting for all stock-based compensation, including stock options. The statement was adopted using the modified prospective method of application. Under this method, in addition to reflecting compensation expense for new share-based awards, expense is also recognized to reflect the remaining vesting period of awards that had been included in pro-forma disclosures in prior periods. The Company did not have any outstanding options on December 31, 2005 or September 30, 2006. Compensation cost for common stock issued as compensation was recorded at fair value at the time it was issued.

2. ORGANIZATION

On May 24, 2005, the Company acquired 51% of the stock of Tianjin Create IT Company Ltd. (the "Tianjin Create Co."), a systems integration and information technology company located in Tianjin, China. Tianjin Create Co. was established in 2002 by Frank Li, a former professor of engineering at NanKai University, the oldest university in China. On May 18, 2006, the Company entered into an amended agreement whereby it agreed to further pay \$105,307 in cash to the founders of Tianjin Create Co., by August 31, 2006 in connection with the acquisition of Tianjin Create Co. On October 25, 2006, the Company and Mr. Li entered into a further amended agreement whereby the Company agreed to a cash payment of \$10,531 as well as 6,318,404 shares of China Wireless common stock to take place on December 31, 2006 in lieu of the previous amount to complete the acquisition.

Tianjin Create Co. was acquired by China Wireless in part because of its strategic location in Tianjin City, the third largest city in China. Also, as an established, young, forward-looking company with a customer base in the education, oil & gas, banking, brokerage, commercial and government sectors, Tianjin Create Co. provides a solid base for China Wireless to build its presence in China.

3. CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. In applying the accounting principles, management must often make individual estimates and assumptions regarding expected outcomes or uncertainties. As a result, the actual results or outcomes might generally be different from the estimated or assumed results or outcomes. These differences are included in the consolidated financial statements as soon as they are known. Management's estimates, judgments and assumptions are continually evaluated based on available information and experience. Because of the use of estimates inherent in the financial reporting process, actual results could differ materially from those estimates.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the financial information of the Company and all of its subsidiaries, namely Tianjin Create Co. and CW Communications. All material inter-company balances and transactions have been eliminated on consolidation.

FOREIGN CURRENCIES

Transactions involving foreign currencies are translated at the rates of exchange ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated at the rates of exchange ruling at that date.

On consolidation, the balance sheets of overseas subsidiaries denominated in foreign currencies are translated at the rates of exchange ruling at the balance sheet date while the statements of operations are translated at average rates for the period. All exchange differences arising on consolidation are included in other comprehensive income.

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

REVENUE RECOGNITION

Revenue is recognized when it is probable that the economic benefits will flow to the Company and when the revenue and cost, if applicable, can be measured reliably and on the following bases. Service revenue is recognized in the period when services are rendered.

Page 7

CHINA WIRELESS COMMUNICATIONS, INC. NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

REVENUE RECOGNITION (CONTINUED)

Sale of goods is recognized on transfer of risks and rewards of ownership, which generally coincides with the time when goods are delivered to customers and title has passed.

4. PREPARATION OF FINANCIAL STATEMENTS

The Company is in the process of rebuilding its business to execute on its new business plan, which is focused on acquiring unique and innovative technologies to market in China. The Company has incurred losses of \$12,331,897 since inception, which raises substantial doubt about the Company's ability to continue as a going concern. The continuation of the Company as a going concern is dependent upon the successful implementation of its business plan and ultimately achieving profitable operations. However, there can be no assurance that the business plan will be successfully implemented. The inability of the Company to implement the business plan successfully could adversely impact the Company's business and prospects. Details of the plans of operations of the Company are set out in Item 2 of this Form 10-QSB under the heading "Plan of Operation".

5. LOSS PER COMMON STOCK

The weighted average number of shares of common stock outstanding used in the calculation of basic loss per share for the three months ended September 30, 2006 is 131,955,613 shares.

As of September 30, 2006, 9,022,684 shares in total could be issued pursuant to the outstanding convertible debt, stock warrants and stock options of the Company. No diluted loss per share is presented because their effects would be anti-dilutive.

6. RELATED PARTY

During the first five months of 2006, Henry Zaks, a director, loaned the Company \$23,217 and on May 3, 2006, the Company issued a promissory note in such amount to Mr. Zaks payable in full on October 2, 2006. At the request of Henry Zaks, the note in the amount of \$23,217 was converted to Company restricted stock on October 30, 2006. The total amount converted, including interest, was \$24,127. The amount of shares issued for this note was 482,542 shares of restricted common stock at a rate of \$0.05 per share based on the convertible note agreement.

During the 2nd Quarter of 2006, Henry Zaks, a director, loaned the Company \$2,000 and on June 16, 2006, the Company issued a promissory note in such amount to Mr. Zaks payable in full on December 1, 2006.

Also, during the 2nd Quarter of 2006, Henry Zaks, a director, loaned the Company \$7,680 and on June 26, 2006, the Company issued a

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

promissory note in such amount to Mr. Zaks payable in full on December 1, 2006.

During the first five months of 2006, Pedro E. Racelis, the Company's CEO/President/director loaned the Company \$15,500 and on May 3, 2006, the Company issued a promissory note in such amount to Mr. Racelis payable in full on July 2, 2006. At the request of Pedro E. Racelis III, the note in the amount of \$15,500 was converted to Company restricted stock on October 5, 2006. The total amount converted to Company restricted stock was \$15,500. The amount of shares issued for this note was 300,000 shares.

During the 2nd Quarter of 2006, Pedro E. Racelis, the Company's CEO/President/director loaned the Company \$3,612 and on May 30, 2006, the Company issued a promissory note in such amount to Mr. Racelis payable in full on December 1, 2006.

Page 8

CHINA WIRELESS COMMUNICATIONS, INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

RELATED PARTY (CONTINUED)

During the first five months of 2006, Michael Bowden, the Company's COO and a director, loaned the Company \$73,059 and on May 3, 2006, the Company issued a promissory note in such amount to Mr. Bowden payable in full on July 2, 2006 and on July 5, 2006 Mr. Bowden forgave the note in full.

During the 2nd Quarter of 2006, Michael Bowden, the Company's COO and a director, loaned the Company \$1,612 and on June 16, 2006, the Company issued a promissory note in such amount to Mr. Bowden payable in full on December 1, 2006.

Also, during the 2nd Quarter of 2006, Michael Bowden, the Company's COO and a director, loaned the Company \$10,000 and on June 26, 2006, the Company issued a promissory note in such amount to Mr. Bowden payable in full on December 31, 2006.

During the 3rd Quarter of 2006, Henry Zaks, a director, loaned the Company \$4,708 and on September 28, 2006, the Company issued a promissory note in such amount to Mr. Zaks payable in full on March 1, 2007. The note will convert to 174,370 shares of common stock on March 1, 2007.

During the 3rd Quarter of 2006, Michael Bowden, the Company's COO and a director, loaned the Company \$6,300 and on July 27, 2006, the Company issued a promissory note in such amount to Mr. Bowden payable in full on January 31, 2007.

Mr. Bowden made an additional loan to the Company for \$5,000 and on September 26, 2006, the Company issued a promissory note in such amount to Mr. Bowden payable in full on January 31, 2007.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

FORWARD-LOOKING STATEMENTS

Included in this report are various forward-looking statements, which can be identified by the use of forward looking terminology such as "may", "will," "expect," "anticipate," "estimate," "continue," "believe," or similar words. We have made forward-looking statements with respect to the following, among others: our goals and strategies; our expectations related to growth of our broadband internet, content and wireless access and transport in China and the performance under our agreements; our ability to obtain and operate licenses and permits to operate in China; our ability to earn sufficient revenues in China; the importance and expected growth of satellite communications, broadband internet, content and wireless access and transport in China and the demand for these services in China; our ability to continue as a going concern; and our future performance and our results of operations. These statements are forward looking and reflect our current expectations. We are subject to a number of risks and uncertainties, including but not limited to, changes in the economic and political environments in China, economic and political uncertainties affecting the capital markets, changes in technology, changes in satellite communications, broadband internet, content and wireless access and transport in the marketplace in China, competitive factors and other risks described in our annual report on Form 10-KSB filed with the United States Securities and Exchange Commission on May 19, 2006. In light of the many risks and uncertainties surrounding the Company, China, and the satellite communications, broadband internet, content and wireless access and the transport marketplace in China, you should keep in mind that we cannot guarantee that the forward-looking statements described in this report will transpire and you should not place undue reliance on forward-looking statements.

OVERVIEW

We were originally incorporated in Nevada on March 8, 1999 under the name AVL SYS International Inc ("AVL SYS"). On March 9, 2000, AVL SYS changed its name to I-Track, Inc ("ITI").

On March 22, 2003, ITI acquired all of the issued and outstanding shares of Strategic Communications Partners, Inc., a Wyoming corporation ("SCP"), pursuant to the terms of a Share Exchange Agreement. A total of 19,000,000 restricted shares of ITI's common stock were issued to the shareholders of SCP, resulting in the SCP shareholders as a group owning approximately 88.4% of the outstanding shares of common stock. At this time, SCP became a wholly owned subsidiary. On March 24, 2003, in connection with our acquisition of SCP, ITI's name was changed to China Wireless Communications, Inc.

Our business plan has been to evaluate opportunities to acquire companies in the information technology industry and to provide both wireless and wired high-speed data and telecommunication systems to our customers. As part of our business plan, we acquired an interest in Tianjin Create Co., a systems integration and information technology company located in Tianjin, China. On May 24, 2005, we entered into a letter of agreement to acquire 51% of the stock of Tianjin Create Co. for total consideration of \$53,840, comprised of cash in the

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

amount of \$40,380 and 448,665 shares of our common stock valued at \$0.03 per share, (a total of \$13,460 in our common stock). We have since paid \$13,460 in common stock and cash of \$8,000 to the founders of Tianjin Create Co. On May 18, 2006, we entered into an amended agreement whereby we agreed to further pay \$105,307 in cash to the founders of Tianjin Create Co. by August 31, 2006. On October 25, 2006, China Wireless and Frank Li further amended the purchase agreement whereby we agreed to a cash payment of \$10,530.70 as well as 6,318,404 shares of China Wireless common stock to take place on December 31, 2006 in lieu of the previous purchase price to complete the acquisition.

Additionally in the 3rd quarter of 2006, we formed a new venture in the area of video surveillance design, engineering and installation, CW Communications, Inc. ("CW Communications"), a wholly owned subsidiary. CW Communications operates in north Texas and we intend to leverage the technical and sales opportunities presented by the IT side of our business. We intend to market the products and services of China Wireless, Tianjin Create Co, and CW Communications together where possible in order to provide the customer with options in information technology, systems engineering, low voltage power, backup systems for data network equipment, data and video cabling and video surveillance equipment. In addition, the Company and its subsidiaries can provide wireless connectivity for data and video surveillance networks.

Page 10

GOING CONCERN

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of us as a going concern. We incurred a net loss for the nine months ended September 30, 2006 of \$2,133,349 and a net loss of \$1,960,714 for the year ended December 31, 2005. At September 30, 2006, we had an accumulated deficit of \$12,331,897 and a working capital deficit of \$547,861. These conditions raise substantial doubt as to our ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions; however, we believe that our estimates, including those for the above-described items, are reasonable.

FOREIGN CURRENCIES

Transactions in foreign currencies are translated at the rates of exchange on

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

the dates of transactions. Monetary assets and liabilities denominated in foreign currencies at year-end are translated at the approximate rates ruling at the balance sheet date. Non-monetary assets and liabilities are translated at the rates of exchange prevailing at the time the asset or liability was acquired.

RESULTS OF OPERATIONS

In the quarter ended September 30, 2006 we formed CW Communications, Inc. to focus on the design and install of video surveillance systems.

Operating expenses for the three months ended September 30, 2006, were \$109,607 compared to \$438,322 for the three months ended September 30, 2005. Operating expenses for the three months ended September 30, 2006 showed a reduction due to the implementation of better cost controls and reduced consulting fees of \$318,516 compared to the prior year. Net losses for the three months ended September 30, 2006 and 2005 were \$104,416 and \$422,932, respectively.

Operating expenses for the nine months ended September 30, 2006, were \$2,163,322, as compared to \$1,379,940 for the nine months ended September 30, 2005. Net losses for the nine months ended September 30, 2006 and 2005 were \$2,133,349 and \$1,355,632, respectively. Operating expenses for the nine months ended September 30, 2006 included \$1,853,265 related to the issuance of stock for compensation versus \$1,361,228 for nine months ended September 30, 2005, an increase of \$492,037.

During the nine months ended September 30, 2006, the Company generated sales revenues of \$265,793 compared with \$300,118 for the nine months ended September 30, 2005.

LIQUIDITY AND CAPITAL RESOURCES

For the nine months ended September 30, 2006, we used \$274,084 in cash for operating activities. The most significant adjustment to reconcile the net loss to net cash used in operations was common stock issued as compensation amounting to \$1,853,265. Financing activities provided cash of \$283,097 through issuances of our common stock and increases in

Page 11

notes payable through borrowings. Our directors loaned the Company a total of \$36,630 including \$16,008 in Notes Payable during the quarter ended September 30, 2006.

At September 30, 2006, we had current assets of \$171,204 and current liabilities of \$719,065, resulting in a working capital deficit of \$547,861, as compared to a deficit of \$395,921 at December 31, 2005.

PLAN OF OPERATION

We are focusing our efforts on becoming a viable information technology company. We believe that the information technology business is beginning to develop quickly in China and that we can play a role in its development. Additionally, we have identified several North American technologies that we believe can be marketed to business customers in China through our subsidiary, Tianjin Create Co. As the Company begins to execute its business plan, we will utilize the leadership of Tianjin Create Co. to oversee and manage the operations in China. Staffing levels in China will be increased only as required.

Tianjin Create Co. is the foundation to building our broad base information

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

technology, products and services in China, including computer installation and maintenance, broadband transport service, server installation maintenance and support, internet services, broadband transport redundancy, video surveillance, fixed wireless transport and information hosting.

Tianjin Create Co. operates in Tianjin, the third largest city in China. Comparable in many respects to Chicago, Illinois in the United States, Tianjin has a population of approximately ten million people and is a major import and export center for China. Major industries and markets located in Tianjin include educational, industrial, international shipping port, medical, manufacturing and government. Tianjin is Beijing's gateway to the sea and has over 25 ten thousand ton ship berths. Tianjin's harbor is geographically the second largest in China. Tianjin is home to 31 of China's universities, including Tianjin University, China's first neoteric university. The Tianjin area also includes the Tanggu Economic Development Area, located where the Haihe River meets the Bohai Sea.

Through Tianjin Create Co., we provide information technology and IP services to customers in China. Our customer base includes Nankia University, Tianjin Sea Transportation Company, Tianjin Gas Company, DaGang Oil Field and Tianjin North Food Company. Additionally, 20 of Tianjin City's 31 universities utilize products or services provided by Tianjin Create Co. We are also able to offer a broad base of information technologies ranging from video surveillance, wireless broadband, and Wi-Fi to "last mile" transport connections.

The design and construction of fixed wireless broadband network systems will be part of our overall information technology strategy. Each of our subsidiaries has sufficient telephony and broadband access capabilities to meet their business objectives. However, we plan to broaden our scope to become a systems solutions company that will provide a broad base of information technologies through our partnership companies. These technologies include, but are not limited to, engineering design, implementation of Wi-Fi, fixed broadband wireless, systems integration, network security, data storage, and voice/video/data telecommunications services. We are exploring opportunities in technology equipment manufacturing and network/computer security

The Board and management team believe the best path to establish profitability, and improve the Company's stock performance is to focus on growing revenue in our core competencies of information technology solutions and our new video surveillance business and to assess acquisition opportunities that may be favorable to revenue and cash flow as they arise.

We intend to expand our Tianjin Create Co. operation by adding to the sales force in order to better take advantage of system integration opportunities available. The focus of our systems integration efforts has been in the educational, transportation, natural gas and manufacturing markets and our goal is to expand into other industries. In addition, the pool of highly skilled engineering, marketing, sales, and operations personnel in China is key to our success in growing our business.

Our wholly owned subsidiary, CW Communications, Inc., will focus on the design and installation of video surveillance systems. Its current area of operation is in the north Texas area around Dallas - Fort Worth. We believe that there are

business opportunities in the design and installation of video surveillance that are complementary to our information technology business. We believe that CW

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

Communications, Inc.'s business model can also be employed in the Chinese market by Tianjin Create Co. as an additional service.

ITEM 3. CONTROLS AND PROCEDURES

CONTROLS AND PROCEDURES

The Company's Chief Executive Officer / Chief Financial Officer has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of September 30, 2006. Based on such evaluation, such officer has concluded that the Company's disclosure controls and procedures are effective.

CHANGES IN INTERNAL CONTROLS

There has been no change in the Company's internal control over financial reporting identified in connection with our evaluation as of the end of the fiscal quarter ended September 30, 2006, that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.
