Item 1.02 Termination of a Material Definitive Agreement.

Item 2.04. Triggering Events That Accelerate or Increase a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement.

On March 9, 2009, the Company received a notice from Kiewit Energy Company cancelling the engineering, construction and procurement contracts for “phase I” of the Company’s Aurora West and Mt. Vernon ethanol projects effective as of March 6, 2009, referencing the Company’s failure to make a recent payment under the change order agreements dated December 31, 2008. As a result, all remaining payments due to Kiewit and its sub-contractors totaling \$24.4 million at February 28, 2009 are due and payable. In addition, we are responsible for certain costs and expenses of Kiewit in connection with the termination. We are not aware of any such expenses at this time and therefore such costs are not presently estimable. Non-payment of the amounts owed to Kiewit causes its associated liens to violate the limitation on liens covenant contained in the Company’s outstanding 10% senior notes due 2017. Unless such default is cured through payment, the release of the liens, a negotiated resolution or otherwise, the existence of the liens constitutes a default under the notes as a result of which the principal amount thereof may be accelerated upon 60 days notice.

SIGNATURE
