2018 Annual Results Announcement

CHAIRMAN'S STATEMENT

Dear shareholders,

History cruises through magnificent waves, the tide of times surges endlessly. The year of 2018 was an exceptional twelve months for CNOOC Limited, and we are ready to seize key opportunities in 2019.

The global economy faced strong headwinds during 2018, with international oil prices fluctuating and falling sharply after a rebound. However, facing a variety of uncertainties, CNOOC Limited continued to focus on its own development, expanded its oil and gas reserves and production at a steady pace, strengthened its cost control and achieved remarkable results.

The past year for CNOOC Limited was both a period of pioneering and innovative development and a year of growth and prosperity. In 2018, we successfully achieved our production targets, with our net oil and gas production reaching 475 million barrels of oil equivalent (BOE). In terms of exploration, 17 commercial discoveries were made and 17 successful appraisals of oil and gas structures were achieved. In offshore China, multiple high-quality mid-to-large size oil and gas fields, including Bozhong 19-6 and Bozhong 29-6, were successfully appraised. Going forward, Bozhong 19-6 gas field is expected to play an important role in ensuring a clean energy supply in the Bohai Rim Region. In overseas, 12 discoveries in total were made in the Stabroek block in Guyana. CNOOC Limited's reserve

replacement ratio reached 126% and its reserve life improved to 10.5 years in 2018. These further strengthened the Company's resource foundation for sustainable development in the future.

In 2018, CNOOC Limited's profitability further enhanced. The Company's oil and gas sales revenue amounted to RMB185.9 billion, with the net profit reaching RMB52.7 billion. In order to share our remarkable results with our shareholders, the Board of Directors recommended the payment of a final dividend of HK\$0.40 (tax inclusive) per share for 2018.

History nurtures those who are determined, progressive, and committed to fight against adversity. China National Offshore Oil Corporation, our parent company, was established and has flourished during the period of China's Reform and Opening. As a sustainable energy supplier and shareholder value creator, CNOOC Limited inherited the powerful traits of its parent company to forge forward.

It's our responsibility and inherent dynamics to provide energy for the development of society. It has been our primary goal to expand reserves and production. Our net production jumped from less than 300,000 BOE per day when we were listed in 2001 to approximately 1.3 million BOE per day in 2018. Net proved reserves increased from 1.8 billion BOE to 4.96 billion BOE and total assets increased from RMB44.3 billion to RMB678.8 billion. The Company's scope of operation and scale of assets also expanded steadily, and our overall strength resulted in healthy growth across the oil price cycles.

The rapid pace of our growth over the years has won numerous acclaims. We will, however, continue to ensure that the increase in production volume would not affect our pursuit of high quality development. As a daring and pioneering Company, CNOOC Limited launched the "Year of Quality and Efficiency" program in early 2014, which focuses on cost control through technological and management innovation. Five years later, with the support of all the employees, our efforts from the programme have yielded positive results. In 2018, we achieved cost reduction for the fifth consecutive year, with all-in cost of US\$30.39 per BOE. Looking forward, we are confident and ready to take on bigger challenges. We will continue to promote the long-term mechanism of quality and efficiency enhancement, strengthen our core competitiveness, and facilitate the collaborative and simultaneous promotion of quality and scale to accomplish synergetic development.

"High Quality Development", "Winning the Blue Sky Defense Battle" and "Stabilizing Bohai's Production at 30 million tons for Another Decade", etc. are just some popular slogans in 2018 of the Company you may have aware. We are committed to defining our own future and embarking on the road to success through continuous hard work. In order to accomplish its core missions, CNOOC Limited will continue to explore mid-to-large size oil and gas fields and make efforts on both oil and gas exploration, aiming at making bigger and more discoveries in China and overseas. We will also adhere to green and low-carbon concepts to ensure the development of new oil and gas fields, deepen our reforms and innovation and continue to improve our operation efficiency.

We used to be proud of being an offshore "special economic zone". Today, we are at a critical moment as we are facing more challenges when we ascend on our path towards the further development of the Company. We have faced many challenges during the course of our development over the past three decades and we have dealt with them by maintaining high quality development and resolving problems with effective reforms. We will continue to do so in the future.

Looking ahead, CNOOC Limited will continue to adhere to low-carbon development strategies: vigorously develop our natural gas business and actively explore opportunities of renewable energy such as offshore wind power. This is not only a new requirement of the construction of "Beautiful China", but is also an integral part of CNOOC Limited's development strategy. As we have entered the digital era, ensuring a successful digital transformation is an important requirement for each and every enterprise. Applying new technologies such as big data, cloud computing, and artificial intelligence to cultivate new kinetic energy will help to break bottlenecks that we have not been able to crack for many years. We will work hard to turn challenges into opportunities and turn every incoming storm into a driving force to propel us forward.

At the same time, CNOOC Limited will always make health, safety and environmental protection its top priority and actively fulfil its social responsibilities. As the scale of production continues to increase, our occupational safety record maintained at a high level while ensuring production safety remains an important part of our corporate culture. Moreover, we have always been a responsible corporate citizen and have endeavoured to giving back to the society with solid actions as demonstrated by our strong presence in many areas, including medical care, marine rescue and marine development. In 2018, CNOOC Limited ranked sixth in Forbes' Global 2000 list of the World's Best Employers. It is the only energy company and the only Chinese company among the top 10 entries, reflecting a wide recognition of the Company by our employees and the society.

In 2018, Mr. Liu Jian resigned as the Vice Chairman and a Non-executive Director of the Company. Mr. Wu Guangqi resigned as a Non-executive Director and Mr. Wang Dongjin was appointed as the Vice Chairman and a Non-executive Director of the Company. On behalf of the Board of Directors, I would like to express my gratitude to Mr. Liu and Mr. Wu for their contributions to the Company's development during their tenure and welcome Mr. Wang to the Board of Directors.

Only those who are dedicated can go far, and only those who have an inquisitive mind can innovate. When the new dawn emerges from the eastern horizon, CNOOC Limited has already set sail on a new journey, leading the way to overcome difficulties, meet challenges, and chart the brightest passage for the future of the Company.

NOTES

31 DECEMBER 2018

(All amounts expressed in millions of Renminbi unless otherwise stated)

1. CORPORATE INFORMATION

CNOOC Limited (the “Company”) was incorporated in the Hong Kong Special Administrative Region (“Hong Kong”) of the People’s Republic of China (the “PRC”) on 20 August 1999 to hold the interests in certain entities thereby creating a group comprising the Company and its subsidiaries (hereinafter collectively referred to as the “Group”). During the year, the Group was principally engaged in the exploration, development, production and sale of crude oil and natural gas.

The registered office address of the Company is 65/F, Bank of China Tower, 1 Garden Road, Hong Kong.

In the opinion of the directors of the Company (the “Directors”), the parent and the ultimate holding company of the Company is China National Offshore Oil Corporation, a company established in the PRC.

2.1 STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standards Board (the “IASB”), Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”), the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) and the Companies Ordinance (Cap. 622 of the Laws of Hong Kong) (the “Companies Ordinance”).

The financial information relating to the years ended 31 December 2018 and 2017 included in this announcement does not constitute the Company’s statutory annual consolidated financial statements for those years but is derived from those financial statements. Further information relating to these statutory financial statements required to be disclosed in accordance with section 436 of the Companies Ordinance is as follows:

The Company has delivered the financial statements for the year ended 31 December 2017 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Companies Ordinance and will deliver the financial statements for the year ended 31 December 2018 in due course.

The Company's auditor has reported on the financial statements of the Group for both years. The auditor's reports were unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its reports; and did not contain a statement under sections 406(2), 407(2) or (3) of the Companies Ordinance.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The IASB has issued a number of new and amendments to IFRSs that are first effective for the current accounting year commencing 1 January 2018 or later but available for early adoption. The equivalent new and amendments to HKFRSs consequently issued by the HKICPA have the same effective dates as those issued by the IASB and are in all material aspects identical to the pronouncements issued by the IASB.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

The accounting policies adopted are consistent with those of the year ended 31 December 2017, except for the first time adoption of the new and amendments to IFRSs/HKFRSs effective for the Group's financial year beginning on 1 January 2018. Except as described below, the application of the new and amendments to IFRSs/HKFRSs in the current year has had no material impact on the accounting policies, the disclosures or the amounts recognised in the consolidated financial statements of the Group.

(i) IFRS 15/HKFRS 15 Revenue from Contracts with Customers

The Group has applied IFRS 15/HKFRS 15 for the first time in the current year. IFRS 15/HKFRS 15 superseded IAS 18/HKAS 18 Revenue, IAS 11/HKAS 11 Construction Contracts and the related interpretations.

The Group has applied IFRS 15/HKFRS 15 retrospectively with the cumulative effect of initially applying this standard recognised at the date of initial application, 1 January 2018. Any difference as at the date of initial application has been recognised as an adjustment to the opening retained earnings and comparative information has not been restated. Furthermore, in accordance with the transition provisions in IFRS 15/HKFRS 15, the Group has elected to apply the standard retrospectively only to contracts that were not completed at 1 January 2018. Accordingly, certain comparative information may not be comparable as comparative information was prepared under IAS 18/HKAS 18 Revenue and the related interpretations.

The Group's major sources of revenues are revenues from oil and gas sales and marketing revenues.

The major change identified is the accounting for revenues relating to oil and gas sales in which the Group has an interest with joint operation partners. Oil and gas lifted and sold by the Group above or below the Group's participating interests in the production sharing contracts results in overlifts and underlifts. From 1 January 2018, the Group has ceased recording these transactions in accordance with the entitlement method. The Group recognises revenues when sales are made to customers.

The Group has entered into natural gas sale contracts with customers, which contain take-or-pay clauses. Under these contracts, the Group makes a long term supply commitment in return for a commitment from the customer to pay for minimum quantities, whether or not the customer takes delivery. Payments received from customers for natural gas not yet taken are recorded as contract liabilities.

Summary of effects arising from initial application of IFRS 15/HKFRS 15

The following table summarises the impact of transition to IFRS 15/HKFRS 15 on retained earnings as at 1 January 2018.

	Impact of IFRS 15/HKFRS 15 application at 1 January 2018

(ii) IFRS 9/HKFRS 9 Financial Instruments

In the current year, the Group has applied expected credit losses (“ECL”) model for financial assets in accordance with IFRS 9/HKFRS 9 Financial Instruments and the related consequential amendments to other IFRSs/HKFRSs.

The Group has applied IFRS 9/HKFRS 9 in accordance with the transition provisions set out in IFRS 9/HKFRS 9, i.e. applying the relevant requirements (other than those early adopted by the Group in previous year) retrospectively to instruments that have not been derecognised as at 1 January 2018 (the date of initial application) and not applying the requirements to instruments that have already been derecognised as at 1 January 2018. The difference between carrying amounts as at 31 December 2017 and the carrying amounts as at 1 January 2018 is recognised in the opening retained earnings, without restating comparative information.

The application of IFRS 9/HKFRS 9 does not have any material impact on the consolidated financial statements of the Group.

4. SEGMENT INFORMATION

(a) Segment results

The Group is engaged worldwide in the upstream operating activities of the conventional oil and gas, shale oil and gas, oil sands and other unconventional oil and gas business. The Group reports the business through three operating and reporting segments: exploration and production ("E&P"), trading business and corporate. The division of these operating segments is made because the Group's chief operating decision makers make decisions on resource allocation and performance evaluation by reviewing the financial information of these operating segments. The geographical information is separately disclosed in (b).

The following table presents the segment financial information of the Group for the years ended 31 December 2018 and 2017.

MANAGEMENT'S DISCUSSION AND ANALYSIS

DEVELOPMENT STRATEGY

As one of the largest independent oil and gas exploration and production companies, we mainly engage in the exploration, development, production and sales of oil and natural gas. The principal components of our strategy are as follows:

Focus on reserve and production growth

As an upstream company specializing in the exploration, development, production and sales of oil and natural gas, we consider reserve and production growth as our top priorities. We plan to increase our reserves and production through drill bits and value-driven acquisitions. We will continue to concentrate our independent exploration efforts on major operating areas, especially offshore China. In the meantime, we will continue to cooperate with our partners through production sharing contracts to lower capital requirements and exploration risks.

We increase our production primarily through the development of proved undeveloped reserves. As of 31 December 2018, approximately 58.0% of our proved reserves were classified as proved undeveloped, which provides a solid resource base for maintaining increasing production in the future.

Develop natural gas business

We will continue to develop the natural gas market, and continue to explore and develop natural gas fields. In the event that we invest in businesses and geographic areas where we have limited experience and expertise, we plan to structure our investments in the form of alliances or partnerships with partners possessing the relevant experience and expertise.

The Company adopts the low-carbon development concept and proactively expands the natural gas business. In 2018, Bozhong 19-6 gas field was successfully appraised and proved to contain proved in-place volume of condensate over 100 million cubic meters and natural gas over 100 billion cubic meters. In addition, Lingshui 17-2 gas field, the first self-operated major deep-water natural gas field discovery in offshore China, entered into its development and construction stage. The project is expected to effectively promote the development of deep-water natural gas in the South China Sea and will be an important growth driver for natural gas production of the Company in the future.

Maintain a prudent financial policy

We will continue to maintain our prudent financial policy. As an essential part of our corporate culture, we continue to promote cost consciousness among both our management team and employees. Also, in our performance evaluation system, cost control has been one of the most important key performance indicators.

In 2018, we continued our efforts to lower costs and enhance efficiency through innovation in technology and management. All-in cost decreased for the fifth consecutive year. Under the environment of oil price fluctuations, we attached more importance to cash flow management and maintained a healthy financial position.

2018 OVERVIEW

In 2018, the momentum of world economic growth slowed down, and challenges and variables continued to increase. As tax cuts and fiscal expansion stimulated demand, the US economy expanded rapidly. The Eurozone economy also continued to improve, with its growth slowing down. In 2018, the Chinese economy was steady and moved in the right direction on the whole, with GDP growing by approximately 6.6%.

International oil prices fluctuated and fell sharply after a rebound in 2018. In the beginning of the year, as a result of OPEC's effective implementation of their obligations under a production cut agreement and US sanctions on Iran and other countries, international oil prices fluctuated and eventually picked up, reaching the year's record high in October. Thereafter, with concerns about the lacking of supply and demand, international oil prices began to fall, and the sharp drop in global stock markets further exacerbated the decline in oil prices. In 2018, the WTI crude oil price averaged US\$64.95 per barrel, representing a year-on-year increase of 27.9%, while the Brent crude oil price averaged at US\$71.69 per barrel, representing a year-on-year increase of 30.9%.

In 2018, the Company realized a net production of 475 million BOE, which achieved the annual production target. In terms of exploration, the Company made breakthroughs domestically and overseas, consolidating its resources base for sustainable development. Key projects both in China and overseas progressed smoothly. The performance of HSE maintained stable.

The Company maintained a solid financial condition in 2018. Oil and gas sales were RMB185,872 million (US\$28,076.9 million, with the exchange rates applicable for 2018 at US\$1=RMB6.6201), representing an increase of 22.4% over the previous year. Net profit was RMB52,688 million (US\$7,958.8 million), representing a significant increase over the previous year.

As at 31 December 2018, the Company's basic and diluted earnings per share were RMB1.18 and RMB1.18, respectively. The board of directors has recommended the payment of a final dividend of HK\$0.40 per share (tax inclusive).

Looking ahead to 2019, the growth of the global economy is under pressure, and international oil prices will still be subject to many uncertainties amid a general rebound. The external operating environment is likely to remain challenging. To this end, the Company further strengthened its operating strategies, which mainly include: steadily increasing oil and gas reserve and production levels, promoting high-quality development, improving core business enhancement with digital transformation, maintaining prudent financial policy and investment decision-making, and pursuing a green, low-carbon and environmentally-friendly development model. The Company will remain confident and calmly deal with the challenges to meet its production and operational targets.

FINANCIAL RESULTS

Consolidated net profit

Our consolidated net profit increased 113.5% to RMB52,688 million (US\$7,958.8million) in 2018 from RMB24,677 million in 2017, primarily as a result of the increase in profitability under the higher international oil price environment, at the same time, the cost control through taking efficient measures brings about the increase in profitability.

Revenues

Our oil and gas sales, realized prices and sales volume in 2018 are as follows:

	2018	2017	Change Amount	%
Oil and gas sales (RMB million)	185,872	151,888	33,984	22.4 %
Crude and liquids	165,939	135,256	30,683	22.7 %

Overseas	166.0	167.4	(1.4)	(0.8 %)

*

Excluding our interest in equity-accounted investees.

In 2018, our net production was 475.0 million BOE (including our interest in equity-accounted investees), representing an increase of 1.0% from 470.2 million BOE in 2017. The increase in crude and liquids sales was primarily due to higher international oil price in 2018. The increase in natural gas sales was primarily due to the gradual release of production capacity of high-priced gas fields arising from natural gas demand growth in China, which pulled up the gas price and sales volume simultaneously.

Operating expenses

Our operating expenses decreased 0.1% to RMB24,251 million (US\$3,663.2 million) in 2018 from RMB24,282 million in 2017, the operating expenses per BOE decreased 0.4% to RMB53.4 (US\$8.07) per BOE in 2018 from RMB53.6 (US\$7.93) per BOE in 2017. Operating expenses per BOE offshore China decreased 2.0% to RMB48.2 (US\$7.28) per BOE in 2018 from RMB49.2 (US\$7.29) per BOE in 2017. Overseas operating expenses per BOE increased 3.4% to RMB64.5 (US\$9.74) per BOE in 2018 from RMB62.4 (US\$9.23) per BOE in 2017. Through refined management, strict costs control and enhancing conservation, our operating expenses per BOE remained stable.

Taxes other than income tax

Our taxes other than income tax increased 26.6% to RMB9,127 million (US\$1,378.7 million) in 2018 from RMB7,210 million in 2017, mainly due to the increase in oil and gas sales.

Exploration expenses

Our exploration expenses increased 87.8% to RMB12,924 million (US\$1,952.2 million) in 2018 from RMB6,881 million in 2017, mainly because of impairment provision RMB5,387 million related to certain exploration and evaluation assets in North America, resulting from its further development uncertainty.

Depreciation, depletion and amortization

Our total depreciation, depletion and amortization decreased 17.3% to RMB50,640 million (US\$7,649.4 million) in 2018 from RMB61,257 million in 2017.

The dismantlement-related depreciation, depletion and amortization costs increased 237.6% to RMB1,293 million (US\$195.4 million) in 2018 from RMB383 million in 2017. Our average dismantling costs per BOE increased 235.3% to RMB2.85 (US\$0.43) per BOE in 2018 from RMB0.85 (US\$0.13) per BOE in 2017, primarily due to the increase of the present value of asset retirement obligations brought by the decrease of US bond interest rate in the international market.

Our depreciation, depletion and amortization, excluding the dismantlement-related depreciation, depletion and amortization, decreased 18.9% to RMB49,347 million (US\$7,454.1 million) in 2018 from RMB60,874 million in 2017. Our average depreciation, depletion and amortization per BOE, excluding the dismantlement-related depreciation, depletion and amortization, decreased 19.1% to RMB108.7 (US\$16.42) per BOE in 2018 from RMB134.4 (US\$19.89) per BOE in 2017, primarily due to the increase of reserve by optimizing the development plan of producing oil and gas fields to control natural decline and improve production performance.

Impairment and provision

Our impairment and provision decreased 93.8% to RMB567 million (US\$85.6 million) in 2018 from RMB9,130 million in 2017. The vast majority of impairment and provision in 2018 was related to raw material inventory provision, while RMB8,639 million of oil and gas assets impairment was recognized in 2017.

Selling and administrative expenses

Our selling and administrative expenses increased 6.2% to RMB7,286 million (US\$1,100.6 million) in 2018 from RMB6,861 million in 2017. Our selling and administrative expenses per BOE increased 5.9% to RMB16.05 (US\$2.43) per BOE in 2018 from RMB15.15 (US\$2.24) per BOE in 2017, due to the increase of scientific research expenses, arising from the active implementation of the “innovation-driven” strategy, the reform of science and technology system, which increase in the technological investment.

Finance costs/Interest income

Our finance costs were RMB5,037 million (US\$760.9 million) in 2018 and in line with RMB5,044 million in 2017. Our interest income increased 21.9% to RMB796 million (US\$120.2 million) in 2018 from RMB653 million in 2017, primarily due to the higher proportion of long-term deposits in China.

Exchange losses/gains, net

Our net exchange losses changed to RMB141 million (US\$21.3 million) in 2018, while there was net exchange gains of RMB356 million in 2017, primarily arising from RMB fluctuation against the US dollars and Hong Kong dollars.

Investment income

Our investment income increased 53.0% to RMB3,685 million (US\$556.6 million) in 2018 from RMB2,409 million in 2017, primarily attributable to the higher interest rates and increased average stock of corporate wealth management products.

Share of losses/profits of associates and a joint venture

Our share of losses of associates and a joint venture changed to RMB5,187 million (US\$783.5 million) in 2018, while in 2017 our shared profits was RMB855 million, mainly due to depreciation of the value of the assets in Argentina owned by the joint venture, BC ENERGY INVESTMENTS CORP., as a result of the huge depreciation of the Argentina peso against the U.S. dollar and the sharp increase of interest rate.

Income tax expense

Our income tax expense increased 92.5% to RMB22,489 million (US\$3,397.1 million) in 2018 from RMB11,680 million in 2017, mainly because our overall profitability increased in 2018.

Capital Resources and Liquidity**Overview**

Our primary source of cash during 2018 was cash flows from operating activities. We used cash primarily to fund capital expenditure and dividends. The changes are as follows:

	2018 RMB million	US\$ million	2017 RMB million	Change RMB million	%
Generated from operating activities	123,883	18,713.2	94,734	29,149	30.8 %
Used in investing activities	(94,861)	(14,329.2)	(64,411)	(30,450)	47.3 %
Used in financing activities	(27,370)	(4,134.4)	(31,271)	3,901	(12.5%)

Cash generated from operating activities

The cash inflow from operating activities increased 30.8% to RMB123,883 million (US\$18,713.2 million) in 2018 from RMB94,734 million in 2017, primarily attributable to the increase in oil and gas sales cash inflows caused by the increase of international oil price for the current period.

Cash used in investing activities

In 2018, our capital expenditure payment increased 5.6% to RMB50,411 million (US\$7,614.8 million) from 2017. Our development expenditures in 2018 were primarily related to the capital expenditure of OML130 project, Iraq technical service contract project, deep-water Gulf of Mexico and shale oil and gas in U.S., as well as the expenses incurred for improving recovery factors of the oil and gas fields in producing. The Company had no significant acquisition during the year.

In addition, our cash used in investing activities was also attributable to the purchase of corporate wealth management products and money market funds of RMB178,100 million (US\$26,902.9 million). Our cash generated from investing activities was mainly from the proceeds from the sales of corporate wealth management products and money market funds in the amount of RMB127,903 million (US\$19,320.4 million), and the decrease in our time deposits with maturity over three months in the amount of RMB1,620 million (US\$244.7 million).

Cash used in financing activities

In 2018, the net cash outflow from financing activities was mainly due to the repayment of bank loans of RMB5,888 million (US\$889.4 million), repayment of guaranteed notes of RMB4,976 million (US\$750.0 million) and the payment of dividends of RMB23,523 million (US\$3,553.3 million), partially offset by the issuance of guaranteed notes of RMB9,952 million (US\$1,450.0 million) and the proceeds of bank loans of RMB2,212 million (US\$334.1 million).

At the end of 2018, our total interest-bearing outstanding debt was RMB139,521 million (US\$21,075.4 million), compared to RMB132,250 million at the end of 2017. The increase in debt in 2018 was primarily attributable to the issuance of guaranteed notes and impact of changes in the exchange rate of the US dollar and RMB. Our gearing ratio, which is defined as interest-bearing debts divided by the sum of interest-bearing debts plus equity, was 25.1%, lower than that of 25.8% in 2017. The main reason was the increased scale of equity.

As a Chinese Resident Enterprise, the Company may be liable to pay taxes on the deemed interest income for the funding provided to its overseas subsidiaries starting from 1 January 2008. The Company has prepared contemporaneous documentation in accordance with applicable PRC tax laws and regulations and is currently awaiting confirmation from its local tax authority.

The Group is subject to tax in numerous jurisdictions around the world. There are audits in progress and items under review. Difference in positions taken by taxation authorities over the interpretation and application of tax laws and regulations may increase the Group's tax liability. Management of the Company has assessed the possible future

outcome of matters that are currently under dispute. Management of the Company believes that an adequate provision for future tax liability has been included in the consolidated financial statements based on available information.

In addition to the matters mentioned above, the Group is dealing with a number of lawsuits and arbitrations that arise in the ordinary course of business. While the results of these legal proceedings cannot be ascertained at this stage, management of the Company believes these proceedings are not expected to have a material effect on the consolidated financial statements.

STATEMENT ON CORPORATE GOVERNANCE AS REQUIRED BY SECTION 303A.11 OF THE NEW YORK STOCK EXCHANGE LISTED COMPANY MANUAL

The Company is incorporated under the laws of Hong Kong and the principal trading market for the ordinary shares of the Company is The Stock Exchange of Hong Kong Limited. In addition, because the Company's ordinary shares are registered with the United States Securities and Exchange Commission and are listed on the New York Stock Exchange (the "NYSE"), the Company is subject to certain corporate governance requirements of NYSE. However, many of the corporate governance rules in the NYSE Listed Company Manual (the "NYSE Standards") do not apply to the Company as a "foreign private issuer" and the Company is permitted to follow its home country corporate governance practices in lieu of most corporate governance standards contained in the NYSE Standards. Section 303A.11 of the NYSE Listed Company Manual requires NYSE listed foreign private issuers to describe the significant differences between their corporate governance practices and the corporate governance standards applicable to U.S. domestic companies listed on the NYSE. The Company has posted a brief summary of such significant differences on its website, which may be accessed through the following web page:

<http://www.cnooc ltd.com/encnooc ltd/gsgz/socg>

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

For the year ended 31 December 2018, the Company has complied with the provisions of the Corporate Governance Code and Corporate Governance Report ("CG Code") as set out in Appendix 14 of the Listing Rules, except for the deviation from the code provision A.4.1 of the CG Code. The following summarises the requirement under the above-mentioned code provision A.4.1 and the reason for such deviation.

CG Code Provision A.4.1

Under CG Code provision A.4.1, non-executive directors should be appointed for a specific term and be subject to re-election.

None of the existing Independent Non-executive Directors of the Company is appointed for a specific term. This constitutes a deviation from the CG Code provision A.4.1. However, all the Directors are subject to the retirement provisions under article 97 of the Articles of Association of the Company ("Article 97"). According to Article 97, one-third of the Directors for the time being must retire from the office by rotation at each annual general meeting. The Company has observed the need for good corporate governance practices. All Independent Non-executive Directors of the Company have retired from the office by rotation and have been re-elected in the past three years. The

Company considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less exacting than those in the CG Code.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has adopted a Code of Ethics for Directors and Senior Management ("Code of Ethics") which has incorporated the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 to the Listing Rules. All Directors have confirmed that they complied, during the year ended 31 December 2018, with the Company's Code of Ethics and the required standards set out in the Model Code.

PUBLICATION OF ANNUAL RESULTS AND ANNUAL REPORT

The electronic version of this announcement is published on the website of The Stock Exchange of Hong Kong Limited (<http://www.hkex.com.hk>) and on the Company's website (<http://www.cnoocld.com>). The annual report for the year ended 31 December 2018, containing all the information required by Appendix 16 to the Listing Rules, will be dispatched to shareholders of the Company and published on the website of The Stock Exchange of Hong Kong Limited and the Company's website in due course.

The words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "should", "believe", "plans", "intends" and similar expressions are intended to identify such forward-looking statements. These statements are based on assumptions and analyses made by the Company in light

of its experience and its perception of historical trends, current conditions and expected future developments, as well as other factors the Company believes are appropriate under the circumstances. However, whether actual results and developments will meet the expectations and predictions of the Company depends on a number of risks and uncertainties which could cause the actual results, performance and financial condition to differ materially from the Company's expectations, including but not limited to those associated with fluctuations in crude oil and natural gas prices, the exploration or development activities, the capital expenditure requirements, the business strategy, whether the transactions entered into by the Group can complete on schedule pursuant to its terms and timetable or at all, the highly competitive nature of the oil and natural gas industries, the foreign operations, environmental liabilities and compliance requirements, and economic and political conditions in the People's Republic of China. For a description of these and other risks and uncertainties, please see the documents the Company files from time to time with the United States Securities and Exchange Commission, including the Annual Report on Form 20-F filed in April of the last fiscal year. Consequently, all of the forward-looking statements made in this announcement are qualified by these cautionary statements. The Company cannot assure that the results or developments anticipated will be realised or, even if substantially realised, that they will have the expected effect on the Company, its business or operations.

Exhibit 99.2

CNOOC Limited

For Immediate Release

Reserves and Production Steadily Expanded

Net Profit Significantly Increased

(Hong Kong, March 21, 2019) - CNOOC Limited (the “Company”, SEHK: 00883, NYSE: CEO, TSX: CNU) today announced its 2018 annual results for the year ended December 31, 2018.

In 2018, CNOOC Limited expanded its oil and gas reserves and production at a steady pace, strengthened its cost control and achieved remarkable results. Total net oil and gas production of the Company achieved 475 million barrels of oil equivalent (“BOE”), successfully meeting the annual target set at the year beginning. During the year, the Company made 17 commercial discoveries and successfully appraised 17 oil and gas structures. In offshore China, multiple high quality mid-to-large size oil and gas fields, including Bozhong 19-6 and Bozhong 29-6, were successfully appraised. In overseas, 5 new world-class discoveries were made in the Stabroek block in Guyana. CNOOC Limited’s reserve replacement ratio reached 126% and its reserve life improved to 10.5 years. At the end of 2018, the net proved reserves of CNOOC Limited were 4.96 billion BOE, reaching a historic high. Therefore, the Company’s resource foundation for sustainable development in the future was further strengthened.

In 2018, the Company’s average realized oil price was US\$67.22 per barrel, representing an increase of 27.7% year-over-year (YoY). The average realized natural gas price was US\$6.41 per thousand cubic feet, representing an increase of 9.8% YoY. In addition, the Company’s oil and gas sales revenue was RMB185.9 billion, an increase of 22.4% YoY. The Company focused on technological and management innovation to fuel quality and efficiency enhancements, and achieved cost reduction for the fifth consecutive year. In 2018, the Company’s all-in cost decreased to US\$30.39 per BOE by 6.6% YoY, and maintained its cost competitiveness. Due to higher international oil prices and improvements in cost control, the Company’s net profit increased significantly to RMB52.7 billion, representing

an increase of 113.5% YoY.

During the year, the Company maintained a healthy financial position and had abundant free cash flow. The capital expenditures were RMB62.6 billion.

In 2018, the Company's basic earnings per share was RMB1.18. The Board of Directors has proposed a year-end dividend of HK\$0.40 per share (tax inclusive).

Mr. Yang Hua, Chairman of CNOOC Limited, said: "In 2018, facing the complex external environment, CNOOC Limited focused on high-quality development, and maintained strong cost competitiveness. The Company steadily expanded the oil and gas reserves and production, achieved a significant growth in net profit. In the future, the Company will continue to increase oil and gas reserves and production, actively implement low-carbon development strategies, speed up the transformation and upgrading, and continuously create value for shareholders."
