NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The accompanying consolidated financial statements include the accounts of PECO II, Inc. (the Company) and its wholly owned subsidiaries. In the opinion of management, the accompanying unaudited interim condensed consolidated financial statements reflect all adjustments, of a normal and recurring nature, necessary to present fairly the results for the interim periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. The December 31, 2000 balance sheet data was derived from audited financial statements, but does not include all disclosures required by generally accepted accounting principles. It is suggested that these condensed statements be read in conjunction with the Company's most recent Annual Report on Form 10-K.

This Form 10-Q contains forward-looking statements, which involve risks and uncertainties. The Company's actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause the Company's actual results or activities to differ materially from these forward-looking statements include but are not limited to the statements under Forward Looking Statements and other sections in the Company's Form 10-K filed with the Securities and Exchange Commission and press releases.

Results for the interim period are not necessarily indicative of the results that may be expected for the entire year.

ITEM 2.

PECO II, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Edgar Filing: PECO II INC - Form 10-Q

Net sales declined slightly to \$34.9 million, for the three months ended March 31, 2001, from \$35.0 million, in the corresponding prior year period. This decrease was primarily due to decreased demand for systems integration and power distribution equipment offset partially by increased demand for power systems. As of March 31, 2001, our sales backlog, which represents total dollar volume of firm sales orders not yet recognized as revenue, was \$22.4 million, an 8% decline, from \$24.2 million at December 31, 2000.

Gross margin was \$10.6 million for the three months ended March 31, 2001 as compared to \$11.1 million for the three months ended March 31, 2000. Gross margin as a percentage of net sales declined to 30.4% for the three months ended March 31, 2001 compared to 31.8% in the comparable prior year period. The margin percentage was lower in the first quarter of 2001, due primarily to unabsorbed overhead costs attributable to lower volume and incremental costs related to the 144,000 square foot addition in Galion coming into production.

Research development and engineering expense decreased to \$2.3 million, in the three months ended March 31, 2001, from \$2.6 million for the three months ended March 31, 2000. As a percentage of net sales, research, development and engineering expense was 6.7% for the three months ended March 31, 2001 compared to 7.3% in the comparable prior year period.

Selling, general and administrative expense was \$4.4 million for the quarter ended March 31, 2001, an increase of \$0.2 million, from the three months ended March 31, 2000. The increase resulted from an expansion of our international and field sales forces and the addition of administrative staff throughout 2000 and the first quarter of 2001. The increase was offset partially by higher stock compensation costs of \$0.2 million in the first three months of the prior year period. As a percentage of net sales, selling, general and administrative expense was 12.8% for the three months ended in March 31, 2001 compared to 11.9% in the comparable prior year period.

Net interest income (expense) was \$0.6 million and (\$0.4) million, respectively, in the three months ended March 31, 2001 and 2000. The increase in interest income in the current quarter of 2001 was due to investment income of the Company's funds received from the August 2000 initial public offering and reduced levels of debt.

In the first quarter of 2001, our effective income tax rate declined marginally to 39.5% from 40.0% in the first quarter of the prior year.

Liquidity and Capital Resources

Our primary liquidity needs are for working capital, capital expenditures and investments, including strategic acquisitions. In August 2000 we completed an initial public offering of 5.75 million shares of common stock at \$15 per share, generating net proceeds of approximately \$78.3 million. A portion of these proceeds was used to repay bank indebtedness. At March 31, 2001 cash invested in marketable securities approximated \$49.7 million.

PECO II, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Cont.)

Working capital was \$91.9 million at March 31, 2001 compared to \$98.5 million at December 31, 2000. The current ratio was 5.0 to 1 at March 31, 2001 and December 31, 2000, respectively. As we continue to grow, our working capital needs will continue to increase. Our investment in inventories and accounts receivables was \$60.0 million at March 31, 2001 and \$63.9 million at December 31, 2000. Our capital expenditures were \$10.7 million for the three months ended March 31, 2001 principally related to the opening of a new regional operating center in Aurora, Colorado. We have budgeted \$25 million in 2001 in connection with capital expenditures principally related to new and expanded regional operating centers and machinery and equipment.

Cash flows generated from operating activities for the first quarter of 2001 increased \$4.4 million in comparison with the prior year first quarter, due primarily to lower levels of accounts receivable resulting from improved collections and a decline in sales volume from the fourth quarter of 2000.

As of March 31, 2001, \$8,000 was borrowed on our unsecured \$20 million loan agreement. At March 31, 2001, we complied with the covenants under the borrowing agreement.

We do not currently plan to pay dividends, but rather to retain earnings for use in the operation of our business and to fund future growth.

We anticipate significant increases in working capital in the future primarily as a result of increased sales. We will also continue to spend significant amounts of capital on property and equipment related to the expansion of our corporate headquarters, regional operating centers, manufacturing machinery and equipment and research, development and engineering costs to support our growth. In addition we will expand cash funds to acquire selective strategic acquisitions to increase our product and service offerings.

Edgar Filing: PECO II INC - Form 10-Q

We believe that cash and cash equivalents on hand, anticipated cash flow from operations and our credit facilities will be sufficient to fund our working capital and capital expenditure requirements for at least the next 24 months.

Recent Accounting Pronouncements

In June 1998, the FASB issued SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended by SFAS No. 138. This Statement establishes accounting and reporting standards for derivative instruments and for hedging activities. It requires companies to recognize all derivatives on the balance sheet as assets and liabilities, measured at fair value. Gains or losses resulting from changes in the values of those derivatives would be accounted for depending on the use of the derivative and whether it qualifies for hedging accounting. The Company is currently not involved in any derivative or hedging activities.

ITEM 3. Qualitative and Quantitative Disclosure About Market Risk

We are exposed to the impact of interest rate changes. We have not entered into interest rate transactions for speculative purposes or otherwise. Our foreign currency exposures were immaterial as of March 31, 2001. Our primary interest rate risk exposure has resulted from floating rate debt related to our revolving loan facility. If interest rates were to increase 100 basis points (1%) from March 31, 2001 rates, and assuming no changes in long-term debt from the March 31, 2001 levels, the additional annual expense to us would be immaterial to our results of operations. We currently do not hedge our exposure to floating interest rate risk.

PECO II, INC.

PART II. OTHER INFORMATION

ITEM 2(c) Recent Sales of Unregistered Securities

During the first quarter of 2001, we sold unregistered securities in the amount, at the times and for the aggregate amount of consideration as listed below. The securities were sold to purchasers directly by us and the sales did not involve any underwriter.

From January 1, 2001 to March 31, 2001, certain of our employees and directors exercised options to purchase 101,586 common shares for an aggregate consideration of \$456,130. The options exercised were issued under compensatory benefit plans in a transaction exempt under Section 4(2) of the Securities Act of 1933 and Rule 701 under the Securities Act of 1933.

Of the 101,586 common shares issued to employees from January 1, 2001 to March 31, 2001 from the exercise of options, options to purchase 9,750 common shares were granted on July 8, 1996; options to purchase 17,686 common shares were granted on July 14, 1997; options to purchase 32,250 common shares were granted on July 13, 1998; options to purchase 5,250 common shares were granted on February 15, 1999; options to purchase 11,300 common shares were granted on July 22, 1999; options to purchase 5,000 common shares were granted on September 13, 1999; options to purchase 3,000 common shares were granted on December 22, 1999; and options to purchase 20,000 common shares were granted on February 7, 2000.

ITEM 2(d) Use of Proceeds

On August 17, 2000, the SEC declared effective a Registration Statement on Form S-1 (File No. 333-37566) filed by us in connection with an initial public offering of 5,000,000 of our common shares, without par value. From the date of receipt of the proceeds from the offering through March 31, 2001, of the \$78.3 million in net proceeds, \$14.4 million was used to repay bank indebtedness and \$15.2 million was used for capital expenditures, including the purchase of the Denver regional operating center in February 2000. The remaining net proceeds has been invested in short-term, interest-bearing, investment grade securities or guaranteed obligations of the U.S. government.

ITEM 6(a) Exhibits

None

ITEM 6(b) Reports on Form 8-K

No current reports on Form 8-K were filed during the quarter ended March 31, 2001.
