PRESS RELEASE

CVRD successfully completes take-over bid for Canico

Rio de Janeiro, December 9, 2005 Companhia Vale do Rio Doce (CVRD) announces that its offer to acquire all of the issued and outstanding common shares of Canico Resource Corp. (Canico) (TSX:CNI.TO) expired at 8:00 p.m. (Toronto time) on December 8, 2005. Between 8:00 p.m. (Toronto time) on November 28, 2005 and the expiry time of the offer, CVRD took up an additional 2,748,366 common shares of Canico, including shares deposited by guaranteed delivery, for CAD\$20.80 in cash per Canico share which when aggregated with the Canico shares previously acquired by CVRD under the take-over bid, represents 99.2% of the Canico common shares outstanding on a fully-diluted basis.

Payment for such Canico common shares is expected to be made on or prior to December 12, 2005, and will represent a disbursement by CVRD of approximately CAD\$57 million.

CVRD intends, as soon as permitted, to acquire the remaining Canico common shares by means of a statutory compulsory acquisition under Section 300 of the *British Columbia Business Corporation Act* at the same price as the offer price, and to de-list the shares.

Canico owns the Onça Puma nickel laterite project, a ferro-nickel deposit located in the Brazilian state of Pará. According to the feasibility studies, the plant will have a nominal capacity to produce 57,000 tons of nickel per year and its development will demand investments of US\$1.1 billion. Production start up of the first module is scheduled for 2008.

CVRD will review the Canico Onça Puma nickel laterite project in order to maximize the synergies with its current and future operations, and, therefore the return to CVRD's shareholders.

The acquisition of Canico and the Onça Puma project is an important step taken by CVRD to become one of the global leading players in the non-ferrous metals business in the future. At the same time, it is consistent with Company's strategic goal of a continuous shareholder value creation.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
