**Comments and Perspectives :**

CGG Chairman & CEO, Robert BRUNCK, commented: *With a strong fourth quarter as anticipated, the CGG Group has exceeded one billion dollars in revenues in 2005, while increasing significantly its operating profitability.*

*We enter into 2006 with a reinforced position in Marine, with a sound balance sheet, after having fully completed the refinancing of our Exploration Resources acquisition, and a record high backlog. In a very favourable market trend impacting positively all segments of our activities, CGG's financial performance should mark a significant improvement in 2006.*
