* The summarized consolidated financial statements contained herein are unaudited; however, in the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of such financial statements have been included.

Forward Looking Statements

This quarterly report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 2 of Part I of this report, contains forward-looking statements that involve risks, uncertainties and assumptions. Forward-looking statements discuss matters that are not historical facts. Because they

discuss future events or conditions, forward-looking statements may include words such as anticipate, believe, expect, estimate, intend, could, should, would, may, seek, plan or similar expressions. Do not unduly rely on forward-looking statements. They give our expectations about the future and are not guarantees, and speak only as of the date they are made. Such statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievement to be materially different from the results of operations or plan expressed or implied by such forward-looking statements. While we cannot predict all of the risks and uncertainties, they include, but are not limited to, those described in Item 1A Risk Factors of our annual report on Form 10-K for the year ended December 31, 2006 as updated herein. Accordingly, such information should not be regarded as representations that the results or conditions described in such statements or that our objectives and plans will be achieved. Additionally, a description of our critical accounting estimates is included in the management's discussion and analysis section in our annual report on Form 10-K for the year ended December 31, 2006. There has been no significant change in our critical accounting estimates.

As used in this quarterly report on Form 10-Q, the terms we, us and our include W. P. Carey & Co. LLC, its consolidated subsidiaries and predecessors, unless otherwise indicated.

W. P. Carey 6/30/2007 10-Q 5

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS***(in thousands, except share and per share amounts)****Note 1. Business***

W. P. Carey & Co. LLC is a real estate and advisory company that invests in commercial properties leased to companies domestically and internationally, and earns revenue as the advisor to the following publicly registered affiliated real estate investment trusts (CPA REITs) that each make similar investments: Corporate Property Associates 14 Incorporated (CPA:14), Corporate Property Associates 15 Incorporated (CPA5) and Corporate Property Associates 16 Global Incorporated (CPA6 Global) and served in this capacity for Corporate Property Associates 12 Incorporated (CPA:12) until its merger with CPA:14 in December 2006. As of June 30, 2007, we own and manage over 850 commercial properties domestically and internationally including our own portfolio, which is comprised of our full or partial ownership interest in 181 commercial properties net leased to 109 tenants and totaling approximately 18 million square feet (on a pro rata basis), with an occupancy rate of 96.2%. We also own 13 domestic self-storage properties totaling approximately 0.9 million square feet.

Primary Business Segments

Investment Management We provide services to the CPA REITs in connection with structuring and negotiating investment and debt placement transactions (structuring revenue) and provide on-going management of the portfolio (asset-based management and performance revenue). Asset-based management and performance revenues for the CPA REITs are determined based on real estate related assets under management. As funds available to the CPA REITs are invested, the asset base from which we earn revenue increases. We may elect to receive revenue in cash or restricted shares of the CPA REITs. We may also earn incentive and disposition revenue and receive termination payments in connection with providing liquidity alternatives to CPA REIT shareholders.

Real Estate Ownership We invest in commercial properties that are then leased to companies domestically and internationally, primarily on a triple net leased basis. We also invest in domestic self-storage real estate properties.

Note 2. Basis of Presentation

Our unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the United States Securities and Exchange Commission (SEC). Accordingly, they do not include all information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair statement of the results of the interim periods presented have been included. The results of operations for the interim periods are not necessarily indicative of results for the full year. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2006.

Basis of Consolidation

The consolidated financial statements include all our accounts and our majority-owned and/or controlled subsidiaries. The portion of these entities not owned by us is presented as minority interest as of and during the periods consolidated. All material inter-entity transactions have been eliminated.

When we obtain an economic interest in an entity, we evaluate the entity to determine if the entity is deemed a variable interest entity (VIE), and if we are deemed to be the primary beneficiary, in accordance with Financial Accounting Standards Board (FASB) Interpretation No. 46R, Consolidation of Variable Interest Entities (FIN 46R). We consolidate (i) entities that are VIEs and of which we are deemed to be the primary beneficiary and (ii) entities that are non-VIEs which we control. Entities that we account for under the equity method (i.e. at cost, increased or decreased by our share of earnings or losses, less distributions) include (i) entities that are VIEs and of which we are not deemed to be the primary beneficiary and (ii) entities that are non-VIEs which we do not control, but over which we have the ability to exercise significant influence. We will reconsider our determination of whether an entity is a VIE and who the primary beneficiary is if certain events occur that are likely to cause a change in the original determinations.

In determining whether we control a non-VIE, our consideration includes using the Emerging Issues Task Force (EITF) Consensus on Issue No. 04-05, Determining Whether a General Partner, or the General Partners as a Group,

Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights (EITF 04-05). The scope of EITF 04-05 is limited to limited partnerships or similar entities that are not variable interest entities under FIN 46R. The EITF reached a consensus that the general partners in a limited partnership (or similar entity) are presumed to control the entity regardless of the level of their ownership and, accordingly, may be required to consolidate the entity. This presumption may be overcome if the agreements provide the limited

W. P. Carey 6/30/2007 10-Q 6

Table of Contents**Notes to Consolidated Financial Statements**

partners with either (a) the substantive ability to dissolve (liquidate) the limited partnership or otherwise remove the general partners without cause or (b) substantive participating rights. If it is deemed that the limited partners' rights overcome the presumption of control by a general partner of the limited partnership, the general partner shall account for its investment in the limited partnership using the equity method of accounting.

We have several interests in joint ventures that are consolidated and have minority interests that have finite lives and were considered mandatorily redeemable non-controlling interests prior to the issuance of Staff Position No. 150-3 (FSP 150-3). As a result of the deferral provisions of FSP 150-3, these minority interests have been reflected as liabilities.

We formed Corporate Property Associates 17 Global Incorporated (CPA[®]17) in February 2007 for the purpose of investing in a diversified portfolio of income-producing commercial properties and other real estate related assets, both domestically and outside the United States. We filed a registration statement on Form S-11 with the SEC during February 2007 to raise up to \$2,475,000 of common stock of CPA[®]:17 (including amounts under a dividend reinvestment plan) and expect to commence fundraising during 2007. As of and during the three and six months ended June 30, 2007, the financial statements of CPA[®]:17, which had no operations during these periods, were included in our consolidated financial statements, as we owned all of CPA[®]:17's outstanding common stock.

Reclassifications and Revisions

Certain prior period amounts have been reclassified to conform to the current period financial statement presentation. The financial statements included in this Form 10-Q have been adjusted to reflect the disposition (or planned disposition) of certain properties as discontinued operations for all periods presented.

Adoption of New Accounting Pronouncements*SFAS 155*

FASB Statement No. 155, Accounting for Certain Hybrid Financial Instruments an Amendment of FASB No. 133 and 140 (SFAS 155) was issued to simplify the accounting for certain hybrid financial instruments by permitting fair value re-measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation. SFAS 155 also eliminates the restriction on passive derivative instruments that a qualifying special-purpose entity may hold. We adopted SFAS 155 as required on January 1, 2007 and the initial application of this statement did not have a material impact on our financial position or results of operations.

FIN 48

FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48) clarifies the accounting for uncertainty in income tax positions. This Interpretation requires that we not recognize in our consolidated financial statements the impact of a tax position that fails to meet the more likely than not recognition threshold based on the technical merits of the position. We adopted FIN 48 as required on January 1, 2007 (Note 12).

Recent Accounting Pronouncements*SFAS 157*

In September 2006, the FASB issued Statement No. 157, Fair Value Measurements (SFAS 157). SFAS 157 provides guidance for using fair value to measure assets and liabilities. This statement clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing the asset or liability. SFAS 157 establishes a fair value hierarchy, giving the highest priority to quoted prices in active markets and the lowest priority to unobservable data. SFAS 157 applies whenever other standards require assets or liabilities to be measured at fair value. This statement is effective for our 2008 fiscal year. We do not believe that the adoption of SFAS 157 will have a material impact on our financial position or results of operations.

SFAS 159

In February 2007, the FASB issued Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159), which gives entities the option to measure eligible financial assets, financial liabilities and firm commitments at fair value on an instrument-by-instrument basis, that are otherwise not permitted to be accounted for at fair value under other accounting standards. The election to use the fair value option is available when an entity first recognizes a financial asset or financial liability or upon entering into a firm commitment. Subsequent changes

(i.e., unrealized gains and losses) in fair value must be recorded in earnings. Additionally, SFAS 159 allows for a one-time election for existing positions upon adoption, with the transition adjustment recorded to beginning retained earnings. This statement is effective for our 2008 fiscal year. We are currently assessing the potential impact that the adoption of SFAS 159 will have on our financial position and results of operations.

W. P. Carey 6/30/2007 10-Q 7

Table of Contents**Notes to Consolidated Financial Statements***SOP 07-1*

In June 2007, the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants (AICPA) issued Statement of Position 07-1, Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies (SOP07-1). SOP 07-1 addresses when the accounting principles of the AICPA Audit and Accounting Guide Investment Companies must be applied by an entity and whether investment company accounting must be retained by a parent company in consolidation or by an investor in the application of the equity method of accounting. In addition, SOP 07-1 includes certain disclosure requirements for parent companies and equity method investors in investment companies that retain investment company accounting in the parent company s consolidated financial statements or the financial statements of an equity method investor. SOP 07-1 is effective for our fiscal year beginning January 1, 2008. We have determined that we are not an investment company under the provisions of SOP 07-1 and do not expect to retain specialized investment company accounting for any of our consolidated or equity method investments where the investment entity may be deemed an investment company. Accordingly, we do not expect the adoption of SOP 07-1 to have a material impact on our financial position and results of operations.

Note 3. Transactions with Related Parties**Advisory Services**

Directly and through a wholly-owned subsidiary, we earn revenue as the advisor (advisor) to the CPAREITs. Under the advisory agreements with the CPA® REITs, we perform various services, including but not limited to the day-to-day management of the CPA® REITs and transaction-related services. We earn asset management revenue totaling 1% per annum of average invested assets, as calculated pursuant to the advisory agreements for each CPA® REIT, of which 1/2 of 1% (performance revenue) is contingent upon specific performance criteria for each CPA® REIT. We are also reimbursed for certain costs, primarily broker/dealer commissions paid on behalf of the CPA® REITs and marketing and personnel costs. The advisory agreements allow us to elect to receive restricted stock for any revenue due from each CPA® REIT. For the three months ended June 30, 2007 and 2006, total asset-based revenue earned was \$30,204 and \$14,752, respectively, while reimbursed costs totaled \$3,244 and \$19,894, respectively. For the six months ended June 30, 2007 and 2006, total asset-based revenue earned was \$45,238 and \$29,114, respectively, while reimbursed costs totaled \$6,719 and \$22,892, respectively. Asset-based revenue for the three and six months ended June 30, 2007 includes amounts recognized in connection with CPA®:16 Global s achievement of its performance criterion (as described below). In 2007 and 2006, we elected to receive all performance revenue from the CPA® REITs as well as the asset management revenue payable by CPA®:16 Global in restricted shares.

In connection with structuring and negotiating investments and related mortgage financing for the CPA® REITs, the advisory agreements provide for structuring revenue based on the cost of investments. Under each of the advisory agreements, we may receive acquisition revenue of up to an average of 4.5% of the total cost of all investments made by each CPA® REIT. A portion of this revenue (generally 2.5%) is paid when the transaction is completed while the remainder (generally 2%) is payable in equal annual installments ranging from three to eight years, subject to the relevant CPA® REIT meeting its performance criterion. Unpaid installments bear interest at annual rates ranging from 5% to 7%. We may be entitled to loan refinancing revenue of up to 1% of the principal amount refinanced in connection with structuring and negotiating investments. This loan refinancing revenue, together with the acquisition revenue, is referred to as structuring revenue. We earned structuring revenue of \$53,448 and \$2,462 during the three months ended June 30, 2007 and 2006, respectively and \$58,031 and \$12,354 during the six months ended June 30, 2007 and 2006, respectively. Structuring revenue for the three and six months ended June 30, 2007 includes amounts recognized in connection with CPA®:16 Global s achievement of its performance criterion (as described below). In addition, we may also earn revenue related to the disposition of properties, subject to subordination provisions, and will only recognize such revenue as the subordination provisions are achieved.

CPA®:16 Global Performance Criterion

In June 2007, CPA®:16 Global met its performance criterion (a non-compounded cumulative distribution return of 6% per annum), as defined in its advisory agreement, and as a result, we recognized previously deferred revenue

totaling \$45,919 (consisting of asset based revenue of \$11,945, structuring revenue of \$31,674 and interest income on the previously deferred structuring revenue of \$2,300). In addition, as a result of CPA[®]:16 Global meeting its performance criterion, we recognized and paid to certain employees incentive and commission compensation of \$6,191 and interest thereon of \$434 that had previously been deferred.

The deferred asset-based revenue of \$11,945 was paid in July 2007 by CPA[®]:16 Global in the form of 1,194,549 shares of CPA[®]:16 Global's restricted common stock while the deferred structuring revenue of \$31,674 and interest thereon of \$2,300 are payable in cash beginning in January 2008. CPA[®]:16 Global will pay the deferred structuring revenue in three annual installments of \$28,259 in January 2008 (including the accrued interest), \$4,663 in January 2009 and \$1,052 in January 2010. Interest will accrue on amounts outstanding at the rate of 5% per annum.

W. P. Carey 6/30/2007 10-Q **8**

Table of Contents**Notes to Consolidated Financial Statements****Merger of CPA[®]:12 and CPA[®]:14**

One of our subsidiaries has agreed to indemnify CPA[®]:14 if CPA[®]:14 suffers certain losses arising out of a breach by CPA[®]:12 of its representations and warranties under the merger agreement and having a material adverse effect on CPA[®]:14 after the CPA[®]:12 and CPA[®]:14 merger (the CPA[®]:12/14 Merger), up to the amount of fees received by our subsidiary in connection with the CPA[®]:12/14 Merger. We have evaluated the exposure related to this indemnification and have determined the exposure to be minimal.

Other Transactions

We own interests in entities which range from 5% to 60%, with the remaining interests generally held by affiliates, and own common stock in each of the CPA[®] REITs. We have a significant influence in these investments, which are accounted for under the equity method of accounting.

We are the general partner in a limited partnership that leases our home office space and participates in an agreement with certain affiliates, including the CPA[®] REITs, for the purpose of leasing office space used for the administration of our operations, the operations of our affiliates and for sharing the associated costs. During the three months ended June 30, 2007 and 2006, we recorded income from minority interest partners of \$624 and \$601, respectively, related to reimbursements from these affiliates. During the six months ended June 30, 2007 and 2006, we recorded income from minority partners of \$872 and \$1,008, respectively. Our estimated minimum annual lease payments on the office lease, inclusive of minority interest, as of June 30, 2007 approximates \$2,868 through 2016.

Included in other liabilities in the consolidated balance sheets at June 30, 2007 and December 31, 2006 are amounts due to affiliates totaling \$1,097 and \$1,239, respectively, comprised primarily of amounts due in connection with the office sharing agreement and deferred acquisition fees.

One of our directors and officers is the sole shareholder of Livho, Inc. (Livho), one of our lessees. We consolidate the accounts of Livho in our consolidated financial statements in accordance with FIN 46R as it is a VIE of which we are the primary beneficiary.

Family members of one of our directors have an ownership interest in certain companies that own minority interests in our French majority-owned subsidiaries. These ownership interests are subject to substantially the same terms as all other ownership interests in the subsidiary companies.

Two employees own a minority interest in W. P. Carey International LLC (WPCI), a subsidiary company that structures net lease transactions on behalf of the CPA[®] REITs outside of the United States.

We have the right to loan funds to affiliates under our unsecured credit facility. Such loans bear interest at comparable rates to our credit facility. During June 2006, we loaned \$84,000 to CPA[®]:15 to facilitate the early repayment of a mortgage obligation in connection with their sale of a property. The loan was repaid within the next few business days.

Note 4. Real Estate

Real estate, which consists of land and buildings leased to others, at cost, and accounted for as operating leases, is summarized as follows:

	June 30, 2007	December 31, 2006
Cost	\$ 618,647	\$ 620,472
Less: Accumulated depreciation	(87,162)	(79,968)
	\$ 531,485	\$ 540,504

W. P. Carey 6/30/2007 10-Q **9**

Table of Contents**Notes to Consolidated Financial Statements**

Operating real estate, which consists of our Livho subsidiary and self-storage facilities, at cost, is summarized as follows:

	June 30, 2007	December 31, 2006
Cost ⁽¹⁾	\$ 79,516	\$ 41,275
Less: Accumulated depreciation	(7,467)	(7,669)
	\$ 72,049	\$ 33,606

(1) Includes \$4,618 of costs incurred through June 30, 2007 in connection with renovations to the hotel facility at our Livho subsidiary which are scheduled for completion in 2008.

In November 2006, we formed a subsidiary (Carey Storage) for the purpose of investing in self-storage real estate properties and their related businesses within the United States. During the six months ended June 30, 2007, Carey Storage used a portion of the proceeds from our initial contribution and loans along with borrowings totaling \$20,080 under its \$105,000 credit facility to acquire seven self-storage properties in several states totaling \$35,000.

Borrowings under the credit facility are fixed at an annual fixed interest rate of 7.6% for the first month of borrowing and at an annual variable interest rate equal to the one-month LIBOR plus a spread which ranges from 175 to 235 basis points thereafter, depending on the aggregate debt yield for the collateralized asset pool. As of June 30, 2007, borrowings under the credit facility bear interest at a variable rate of 7.57% and mature in December 2008. Carey Storage's results of operations are included in other real estate income and other real estate expenses in the consolidated financial statements.

Note 5. Equity Investments in Real Estate

Our equity investments in real estate, which are accounted for under the equity method, are summarized below for our CPA[®] REITs and interests in joint venture properties.

CPA[®] REITs

We own interests in three CPA[®] REITs with which we have advisory agreements. Our interests in the CPA[®] REITs are accounted for under the equity method due to our ability to exercise significant influence as the advisor to the CPA[®] REITs. The CPA[®] REITs are publicly registered and file financial statements with the SEC. We have elected, in certain cases, to receive restricted shares of common stock in the CPA[®] REITs rather than cash in connection with earning asset management and performance revenue (Note 3).

Information about our investments in the CPA[®] REITs is as follows:

Fund	% of Outstanding Shares	Carrying Amount of Investment
-------------	--------------------------------	--

	June 30, 2007	December 31, 2006	June 30, 2007	December 31, 2006
CPA [®] :14	6.09%	5.65%	\$ 58,182	\$ 53,200
CPA [®] :15	4.01%	3.53%	51,872	45,030
CPA [®] :16 Global ⁽¹⁾	2.14%	0.78%	27,224	9,161
			\$ 137,278	\$ 107,391

(1) Our interest in the outstanding shares of CPA[®]:16 Global at June 30, 2007 includes 1,194,549 shares which were issued to us in July 2007 in connection with CPA[®]:16 Global meeting its performance criterion.

Combined summarized financial information of the CPA[®] REITs (for the entire entities, not our proportionate share) is presented below:

	June 30, 2007	December 31, 2006
Assets (primarily real estate)	\$ 8,243,272	\$ 6,785,186
Liabilities (primarily mortgage notes payable)	(4,435,615)	(3,663,396)
Shareholder s equity	\$ 3,807,657	\$ 3,121,790

W. P. Carey 6/30/2007 10-Q **10**

Table of Contents**Notes to Consolidated Financial Statements**

	Six months ended June 30,	
	2007	2006
Revenues (primarily rental income and interest income from direct financing leases)	\$ 288,570	\$ 251,242

Net income	\$ 8,791	\$ 4,366
Our share of net income from equity investments in real estate	\$ 2,399	\$ 1,185

Note 6. Assets Held for Sale and Discontinued Operations

Tenants from time to time may vacate space due to lease buy-outs, elections not to renew, company insolvencies or lease rejections in the bankruptcy process. In such cases, we assess whether the highest value is obtained from re-leasing or selling the property. In addition, in certain cases, we may elect to sell a property that is occupied if it is considered advantageous to do so. When it is determined that the probable outcome will be a sale, the asset is reclassified as an asset held for sale.

Table of Contents**Notes to Consolidated Financial Statements****Discontinued Operations**

During the six months ended June 30, 2007, we completed the sale of two domestic properties for \$6,014, net of selling costs and, in addition, received lease termination proceeds of \$1,905. Impairment charges totaling \$2,507 were recognized in prior periods to write down the value of one of these properties to its estimated net sales proceeds. In connection with these sales, we recorded a net gain of \$962, exclusive of impairment charges recognized in prior periods.

During the six months ended June 30, 2006, we incurred impairment charges of \$3,357 to write down the value of certain properties to their estimated fair value.

In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the results of operations, impairment charges and gain or loss on sale of real estate for properties held for sale are reflected in the consolidated financial statements as discontinued operations for all periods presented and are summarized as follows:

	Three months ended June		Six months ended June	
	30, 2007	2006	30, 2007	2006
Revenues (primarily rental revenues and other operating income)	2,006	452	2,250	1,186
Expenses (primarily depreciation and property expenses)	(216)	(1,105)	(608)	(2,373)
Gain on sales of real estate, net	962		962	
Impairment charges on assets held for sale				(3,357)
Income (loss) from discontinued operations	2,752	(653)	2,604	(4,544)

Note 7. Intangibles

In connection with our acquisition of properties, we have recorded net lease intangibles of \$36,330. These intangibles are being amortized over periods generally ranging from 19 months to 31 years. Amortization of below-market and above-market rent intangibles are recorded as an adjustment to revenue.

Intangibles are summarized as follows:

	June 30, 2007	December 31, 2006
Amortized Intangibles:		
Management contracts	\$ 32,765	\$ 32,765
Less: accumulated amortization	(19,329)	(17,943)
	\$ 13,436	\$ 14,822
Lease Intangibles:		
In-place lease	\$ 18,602	\$ 18,345
Tenant relationship	10,030	8,783
Above-market rent	9,707	9,707
Less: accumulated amortization	(15,634)	(11,890)
	\$ 22,705	\$ 24,945

Below-market rent	\$	(2,009)	\$	(2,009)
Less: accumulated amortization		379		325
	\$	(1,630)	\$	(1,684)
Unamortized Goodwill and Indefinite-Lived Intangible Assets:				
Goodwill	\$	63,607	\$	63,607
Trade name		3,975		3,975
	\$	67,582	\$	67,582

Net amortization of intangibles was \$2,620 and \$2,393 for the three months ended June 30, 2007 and 2006, respectively and \$5,076 and \$4,805 for the six months ended June 30, 2007 and 2006, respectively.

Based on the intangible assets as of June 30, 2007, annual net amortization of intangibles for each of the next five years is as follows: 2007 \$8,873; 2008 \$7,245; 2009 \$6,639; 2010 \$5,716, 2011 \$2,696 and 2012 \$1,989.

W. P. Carey 6/30/2007 10-Q **12**

Table of Contents**Notes to Consolidated Financial Statements*****Note 8. Unsecured Credit Facility***

In June 2007, we entered into an unsecured credit facility for a \$250,000 revolving line of credit to replace our previous \$175,000 line of credit that was due to expire in July 2007. The credit facility, which matures in June 2011, can be increased up to \$300,000 upon satisfaction of certain conditions and carries a one-year extension option subject to the satisfaction of certain conditions and the payment of an extension fee equal to 0.125% of the total commitments under the facility at that time.

The credit facility has an annual interest rate of either (i) LIBOR plus a spread which ranges from 75 to 120 basis points depending on our leverage or (ii) the greater of the lender's prime rate and the Federal Funds Effective Rate plus 50 basis points. At June 30, 2007, the average interest rate on advances on the credit facility was 6.125%. In addition, we pay an annual fee ranging between 12.5 and 20 basis points of the unused portion of the credit facility, depending on our leverage ratio. Based on our leverage at June 30, 2007, we pay interest at LIBOR plus 75 basis points and pay 12.5 basis points on the unused portion of the credit facility.

The credit facility has financial covenants that among other things require us to maintain a minimum equity value and meet or exceed certain operating and coverage ratios. As of June 30, 2007, we had drawn down \$28,000 under this facility, which was used to repay our previous credit facility.

Note 9. Commitments and Contingencies

As of June 30, 2007, we were not involved in any material litigation.

In March 2004, following a broker-dealer examination of Carey Financial, LLC (Carey Financial), our wholly-owned broker-dealer subsidiary, by the staff of the SEC, Carey Financial received a letter from the staff of the SEC alleging certain infractions by Carey Financial of the Securities Act of 1933, the Securities Exchange Act of 1934, the rules and regulations thereunder and those of the National Association of Securities Dealers, Inc. (NASD).

The staff alleged that in connection with a public offering of shares of CPA®:15, Carey Financial and its retail distributors sold certain securities without an effective registration statement. Specifically, the staff alleged that the delivery of investor funds into escrow after completion of the first phase of the offering (the Phase I Offering), completed in the fourth quarter of 2002 but before a registration statement with respect to the second phase of the offering (the Phase II Offering) became effective in the first quarter of 2003, constituted sales of securities in violation of Section 5 of the Securities Act of 1933. In addition, in the March 2004 letter the staff raised issues about whether actions taken in connection with the Phase II offering were adequately disclosed to investors in the Phase I Offering. In the event the Commission pursues these allegations, or if affected CPA®:15 investors bring a similar private action, CPA®:15 might be required to offer the affected investors the opportunity to receive a return of their investment. It cannot be determined at this time if, as a consequence of investor funds being returned by CPA®:15, Carey Financial would be required to return to CPA®:15 the commissions paid by CPA®:15 on purchases actually rescinded. Further, as part of any action against us, the SEC could seek disgorgement of any such commissions or different or additional penalties or relief, including without limitation, injunctive relief and/or civil monetary penalties, irrespective of the outcome of any rescission offer. We cannot predict the potential effect such a rescission offer or SEC action may ultimately have on our operations or those of Carey Financial. There can be no assurance that the effect, if any, would not be material.

The staff also alleged in the March 2004 letter that the prospectus delivered with respect to the Phase I Offering contained material misrepresentations and omissions in violation of Section 17 of the Securities Act of 1933 and Section 10(b) of the Securities Exchange Act of 1934 and Rule 10b-5 thereunder in that the prospectus failed to disclose that (i) the proceeds of the Phase I Offering would be used to advance commissions and expenses payable with respect to the Phase II Offering, and (ii) the payment of dividends to Phase II shareholders whose funds had been held in escrow pending effectiveness of the registration statement resulted in significantly higher annualized rates of return than were being earned by Phase I shareholders. Carey Financial has reimbursed CPA®:15 for the interest cost of advancing the commissions that were later recovered by CPA®:15 from the Phase II Offering proceeds.

In June 2004, the Division of Enforcement of the SEC (Enforcement Staff) commenced an investigation into compliance with the registration requirements of the Securities Act of 1933 in connection with the public offerings of shares of CPA®:15 during 2002 and 2003. In December 2004, the scope of the Enforcement Staff's inquiries

broadened to include broker-dealer compensation arrangements in connection with CPA[®]:15 and other REITs managed by us, as well as the disclosure of such arrangements. At that time we and Carey Financial received a subpoena from the Enforcement Staff seeking documents relating to payments by us, Carey Financial and REITs managed by us to (or requests for payment received from) any broker-dealer, excluding selling commissions and selected dealer fees. We and Carey Financial subsequently received additional subpoenas and requests for information from the

W. P. Carey 6/30/2007 10-Q **13**

Table of Contents

Notes to Consolidated Financial Statements

Enforcement Staff seeking, among other things, information relating to any revenue sharing agreements or payments (defined to include any payment to a broker-dealer, excluding selling commissions and selected dealer fees) made by us, Carey Financial or any of our managed REITs in connection with the distribution of such REITs or the retention or maintenance of REIT assets. Other information sought by the SEC includes information concerning the accounting treatment and disclosure of any such payments, communications with third parties (including other REIT issuers) concerning revenue sharing, and documents concerning the calculation of underwriting compensation in connection with the REIT offerings under applicable NASD rules.

In response to the Enforcement Staff's subpoenas and requests, we and Carey Financial have produced documents relating to payments made to certain broker-dealers both during and after the offering process, for certain of the REITs managed by us (including Corporate Property Associates 10 Incorporated (CPA[®]:10), Carey Institutional Properties Incorporated (CIP[®]), CPA[®]:12, CPA[®]:14 and CPA[®]:15), in addition to selling commissions and selected dealer fees. Among the payments reflected on documents produced to the Staff were certain payments, aggregating in excess of \$9,600, made to a broker-dealer which distributed shares of the REITs. The expenses associated with these payments, which were made during the period from early 2000 through the end of 2003, were borne by and accounted for on the books and records of the REITs. Of these payments, CPA[®]:10 paid in excess of \$40; CIP[®] paid in excess of \$875; CPA[®]:12 paid in excess of \$2,455; CPA[®]:14 paid in excess of \$4,990; and CPA[®]:15 paid in excess of \$1,240. In addition, other smaller payments by the REITs to the same and other broker-dealers have been identified aggregating less than \$1,000.

We and Carey Financial are cooperating fully with this investigation and have provided information to the Enforcement Staff in response to the subpoenas and requests. Although no formal regulatory action has been initiated against us or Carey Financial in connection with the matters being investigated, we expect that the SEC may pursue such an action against either or both entities. The nature of the relief or remedies the SEC may seek cannot be predicted at this time. If such an action is brought, it could have a material adverse effect on us, and the magnitude of that effect would not necessarily be limited to the payments described above but could include other payments and civil monetary penalties.

Several state securities regulators have sought information from Carey Financial and CPA[®]:15 relating to the matters described above. While one or more states may commence proceedings against Carey Financial in connection with these inquiries, we do not currently expect that these inquiries and proceedings will have a material effect on us incremental to that caused by any SEC action.

In October 2006, a revised complaint was filed in the Los Angeles Superior Court in an action that had named a wholly-owned indirect subsidiary, and other unrelated parties, in a state court action by a private plaintiff alleging various claims under the California False Claims Act that focus on alleged conduct by the Los Angeles Unified School District in connection with its direct application and invoicing for school development and construction funding for a new high school, for which our subsidiary acted as the development manager. We and another of our subsidiaries were named for the first time in the revised complaint, by virtue of an alleged relationship to the subsidiary that was a party to the development agreement, but were not served. In February 2007, the judge dismissed the action against our wholly-owned indirect subsidiary, as well as other defendants, following various substantive and procedural motions. However, the plaintiff has filed a notice of appeal and may still seek to serve us and our other subsidiary in this action. Although no assurance can be given that the dismissal will be sustained if appealed, or that the claims alleged by plaintiff against us and our subsidiaries, if proven, would not have a material effect on us, we believe, based on the information currently available to us, that we and our subsidiaries have meritorious defenses to such claims.

We have provided indemnification in connection with divestitures. These indemnities address a variety of matters including environmental liabilities. Our maximum obligations under such indemnification cannot be reasonably estimated. We are not aware of any claims or other information that would give rise to material payments under such indemnifications.

Note 10. Risk Management and Use of Derivative Financial Instruments

Risk Management

In the normal course of our on-going business operations, we encounter economic risk. There are three main components of economic risk: interest rate risk, credit risk and market risk. We are subject to interest rate risk on our interest-bearing liabilities. Credit risk is the risk of default on our operations and tenants' inability or unwillingness to make contractually required payments. Market risk includes changes in the value of the properties and related loans we hold due to changes in interest rates or other market factors. In addition, we transact business in Europe and are also subject to the risks associated with changing foreign exchange rates. We manage foreign currency exchange rate movements by generally placing both our debt obligation to the lender and the tenant's rental obligation to us in the local currency but remain subject to such movements to the extent of any difference.

W. P. Carey 6/30/2007 10-Q **14**

Table of Contents**Notes to Consolidated Financial Statements**

We do not generally use derivative financial instruments to manage foreign currency rate risk exposure and do not use derivative instruments to hedge credit/market risks or for speculative purposes.

Concentration of Credit Risk

Concentrations of credit risk arise when a number of tenants are engaged in similar business activities, or conduct business in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations, including those to us, to be similarly affected by changes in economic conditions. We regularly monitor our portfolio to assess potential concentrations of credit risk. We believe our portfolio is reasonably well diversified and does not contain any unusual concentration of credit risks.

The majority of our directly owned real estate properties and related loans are located in the United States, with Texas (14%) and California (12%) representing the only significant geographic concentration (greater than 10% of current annualized lease revenue). Our directly owned real estate properties in France accounted for 10% of current annualized lease revenue. No individual tenant accounted for more than 10% of current annualized lease revenue. Our directly owned real estate properties contain significant concentrations in the following asset types as of June 30, 2007: industrial (38%), office (37%) and warehouse/distribution (14%) and the following tenant industries as of June 30, 2007: telecommunications (14%) and business and commercial services (14%).

Note 11. Members' Equity and Stock Based and Other Compensation**Stock Based Compensation**

Effective January 1, 2006, we adopted the fair value recognition provisions of FASB Statement 123(R), Share-Based Payment using the modified prospective application method and therefore have not restated prior periods' results. The total compensation expense (net of forfeitures) for these plans was \$1,405 and \$920 for the three months ended June 30, 2007 and 2006, respectively, and \$2,328 and \$1,639 for the six months ended June 30, 2007 and 2006, respectively. The tax benefit recognized in the three months ended June 30, 2007 and 2006 related to stock-based compensation plans totaled \$630 and \$407, respectively, and \$1,041 and \$725 for the six months ended June 30, 2007 and 2006, respectively.

We have several stock-based compensation plans including the 1997 Share Incentive Plan, Non-Employee Directors Plan, Employee Share Purchase Plan, Carey Management Warrants, Partnership Equity Plan Unit, Profit-Sharing Plan and WPCI Stock Option Plan. There have been no significant changes to the terms and conditions of any of these plans during 2007.

In January 1998, the predecessor of Carey Management was granted warrants to purchase 2,284,800 shares of our common stock exercisable at \$21 per share and 725,930 shares exercisable at \$23 per share as compensation for investment banking services in connection with structuring the consolidation of the CPA® Partnerships. During the six months ended June 30, 2007, warrants totaling 1,500,000 were exercised at \$21 per share in a cashless exercise for which 567,164 shares were issued.

Earnings Per Share

Basic and diluted earnings per share were calculated as follows:

	Three months ended June		Six months ended June 30,	
	2007	2006	2007	2006
Net income basic	\$ 42,030	\$ 17,304	\$ 52,830	\$ 28,369
Income effect of dilutive securities, net of taxes	1,885		1,985	
Net income diluted	\$ 43,915	\$ 17,304	\$ 54,815	\$ 28,369
Weighted average shares outstanding basic	38,308,202	37,876,079	38,120,532	37,802,340
Effect of dilutive securities	1,696,177	1,470,458	1,773,880	992,574

Weighted average shares outstanding	diluted	40,004,379	39,346,537	39,894,412	38,794,914
-------------------------------------	---------	------------	------------	------------	------------

Securities included in our diluted earnings per share determination consist of stock options and warrants and restricted stock. Securities totaling 454,073 shares for the six months ended June 30, 2006 were excluded from the earnings per share computations above as their effect would have been anti-dilutive. There were no such anti-dilutive securities for the three and six months ended June 30, 2007 and the three months ended June 30, 2006. Certain securities of our subsidiary WPCI are held by employees who have rights to exchange such WPCI securities for our securities, generally beginning in 2012. The calculation of the dilutive effective of such rights is based on a periodic valuation of WPCI that is performed by a third party and includes various assumptions, as well as on our

W. P. Carey 6/30/2007 10-Q **15**

Table of Contents**Notes to Consolidated Financial Statements**

current common stock price. Actual dilution will be dependent on the valuation of WPCI and on our common stock price at the time the rights are exercised. This valuation may differ from, as well as be based on different assumptions than, the current valuation.

Share Repurchase Program

In June 2007, our board of directors approved a \$20,000 share repurchase program. Under this program, we may repurchase up to \$20,000 of our common stock in the open market through December 31, 2007 as conditions warrant. Through June 30, 2007, we repurchased shares totaling \$2,038 under this program.

Note 12. Income Taxes

We have elected to be treated as a partnership for U.S. Federal income tax purposes and conduct our real estate ownership operations through partnership or limited liability companies electing to be treated as partnerships for U.S. Federal income tax purposes. As partnerships, we and our partnership subsidiaries are generally not directly subject to tax. We conduct our investment management services through wholly owned taxable corporations. These operations are subject to federal, state, local and foreign taxes as applicable. We conduct business in the United States and Europe, and as a result, we or one or more of our subsidiaries file income tax returns in the U.S. Federal jurisdiction and various state and certain foreign jurisdictions. With few exceptions, we are no longer subject to U.S. Federal, state and local, or non-U.S. income tax examinations for years before 2003.

We adopted FIN 48 on January 1, 2007. As a result of the implementation we recognized a \$1,050 decrease to reserves for uncertain tax positions. This decrease in reserves was accounted for as an adjustment to the beginning balance of retained earnings on the balance sheet. Including the cumulative effect decrease in reserves, at the beginning of 2007, we had approximately \$830 of total gross unrecognized tax benefits. Of this total, \$440 (net of the federal benefit on state issues) represents the amount of unrecognized tax benefits that, if recognized, would favorably affect the effective income tax rate in any future periods.

We recognize interest and penalties related to uncertain tax positions in income tax expense. As of June 30, 2007, we have approximately \$488 of accrued interest and penalties related to uncertain tax positions. The tax years 2003-2006 remain open to examination by the major taxing jurisdictions to which we are subject.

Included in income taxes in the consolidated balance sheets as of June 30, 2007 and December 31, 2006 are accrued income taxes totaling \$3,048 and \$21,935, respectively, and deferred income taxes totaling \$61,696 and \$41,527, respectively.

Note 13. Segment Reporting

We evaluate our results from operations by our two major business segments as follows:

Investment Management

This business segment includes investment management services performed for the CPA[®] REITs pursuant to advisory agreements. This business line also includes interest on deferred revenue and earnings from unconsolidated investments in the CPA[®] REITs accounted for under the equity method, which were received in lieu of cash for certain payments due under the advisory agreements. In connection with maintaining our status as a publicly traded partnership, this business segment is carried out largely by corporate subsidiaries that are subject to federal, state, local and foreign taxes as applicable. Our financial statements are prepared on a consolidated basis including these taxable operations and include a provision for current and deferred taxes on these operations.

Real Estate Ownership

This business segment includes the operations of properties under operating leases, properties under direct financing leases, real estate under construction and development, operating real estate, assets held for sale and equity investments in real estate in ventures accounted for under the equity method. Because of our legal structure, these operations are generally not subject to federal income taxes; however, they may be subject to certain state, local and foreign taxes.

Table of Contents**Notes to Consolidated Financial Statements**

A summary of comparative results of these business segments is as follows:

	Three months ended June		Six months ended June

(1)

Includes interest income, income from equity investments in real estate, minority interest and gains and losses on sales and foreign currency transactions.

- (2) Includes investments in France and Germany that accounted for lease revenues (rental income and interest income from direct financing leases) of \$2,230 and \$2,057 for the three months ended June 30, 2007 and 2006, respectively, and \$4,331 and \$4,044 for the six months ended June 30, 2007 and 2006, respectively, and income from equity investments in real estate of \$943 and \$229 for the three months ended June 30, 2007 and 2006, respectively, and \$1,192 and \$431 for the six months ended June 30, 2007 and 2006, respectively.

These investments also accounted for long-lived assets as of June 30, 2007 and December 31, 2006 of \$95,410 and \$90,888, respectively.

- (3) Includes real estate, net investment in direct financing leases, equity investments in real estate, operating real estate and intangible assets related to management contracts.

Note 14. Subsequent Event

In July 2007, we entered into an agreement to sell two domestic properties for approximately \$17,575, net of estimated selling costs. If the sale is consummated, we expect to recognize a gain of approximately \$1,690. The sale is subject to customary due diligence requirements and there is no guarantee that the sale will be completed in accordance with the above terms or at all.

W. P. Carey 6/30/2007 10-Q 17

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS***(in thousands, except share and per share amounts)*

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the consolidated financial statements and notes thereto as of June 30, 2007.

Executive Overview**Business Overview**

We are a publicly traded limited liability company. Our stock is listed on the New York Stock Exchange. We operate in two operating segments, investment management and real estate ownership. Within our investment management segment, we are currently the advisor to the following affiliated publicly-owned, non-traded real estate investment trusts: Corporate Property Associates 14 Incorporated (CPA:14), Corporate Property Associates 15 Incorporated (CPA:15) and Corporate Property Associates 16 Global Incorporated (CPA:16 Global) and served in this capacity for Corporate Property Associates 12 Incorporated (CPA:12) until its merger with CPA:14 in December 2006 (collectively, the CPA REITs). Under the advisory agreements with the CPA REITs, we perform services related to the day-to-day management of the CPA REITs and transaction-related services. As of June 30, 2007, we own and manage over 850 commercial properties domestically and internationally including our own portfolio, which is comprised of our full or partial ownership interest in 181 commercial properties net leased to 109 tenants and totaling approximately 18 million square feet (on a pro rata basis) with an occupancy rate of 96.2%. We also own 13 domestic self-storage properties totaling approximately 0.9 million square feet.

Our primary business segments are:

Investment Management We provide services to the CPA REITs in connection with structuring and negotiating investment and debt placement transactions (structuring revenue) and provide on-going management of the portfolio (asset-based management and performance revenue). Asset-based management and performance revenues for the CPA REITs are determined based on real estate related assets under management. As funds available to the CPA REITs are invested, the asset base for which we earn revenue increases. We may elect to receive fees in cash or restricted shares of the CPA REITs. We may also earn incentive and disposition revenue and receive termination payments in connection with providing liquidity alternatives to CPA REIT shareholders.

Real Estate Ownership We invest in commercial properties that are then leased to companies domestically and internationally, primarily on a triple net leased basis. We currently have investments in the United States and Europe. We also invest in domestic self-storage real estate properties.

Current Developments and Trends

Current developments include:

Managed Portfolio Update:

CPA:16 Global Performance Criterion In June 2007, CPA:16 Global met its performance criterion (a non-compounded cumulative distribution return of 6% per annum), as defined in its advisory agreement, and as a result, we recognized previously deferred revenue totaling \$45,919 (consisting of asset management revenue of \$11,945, structuring revenue of \$31,674 and interest income on the previously deferred structuring revenue of \$2,300). In addition, as a result of CPA:16 Global meeting its performance criterion, we recognized and paid to certain employees incentive and commission compensation of \$6,191 and interest thereon of \$434 that had previously been deferred.

The deferred asset-based revenue of \$11,945 was paid in July 2007 by CPA:16 Global in the form of 1,194,549 shares of CPA:16 Global's restricted common stock while the deferred structuring revenue of \$31,674 and interest thereon of \$2,300 are payable in cash beginning in January 2008. CPA:16 Global will pay the deferred structuring revenue in three annual installments of \$28,259 in January 2008 (including the accrued interest), \$4,663 in January 2009 and \$1,052 in January 2010. Interest will accrue on amounts outstanding at the rate of 5% per annum.

Acquisition Activity We earn revenue from the acquisition and disposition of properties on behalf of the CPA REITs. During the three months ended June 30, 2007, we structured investments totaling approximately \$493,000 on behalf of the CPA REITs, a significant portion of which relates to an investment in Germany totaling approximately \$429,590. Approximately 95% of these investments were for international transactions.

Table of Contents**Company and Owned Portfolio Update:**

Share Repurchase Program In June 2007, our board of directors approved a \$20,000 share repurchase program. Under this program, we may repurchase up to \$20,000 of our common stock in the open market through December 31, 2007 as conditions warrant. Through June 30, 2007 we repurchased shares totaling \$2,038 under this program.

Corporate Restructuring In May 2007, our board of directors approved a plan to transfer our real estate assets into a wholly owned REIT subsidiary. We currently expect this restructuring to be completed by the end of 2007.

Credit Facility In June 2007, we entered into an unsecured credit facility for a \$250,000 revolving line of credit to replace our previous \$175,000 line of credit that was due to expire in July 2007. The credit facility, which matures in June 2011, can be increased to up to \$300,000 upon satisfaction of certain conditions. As of June 30, 2007, we had drawn down \$28,000 under this facility, which was used to repay our previous credit facility (see Financial Condition below).

Financing Activity In June 2007, a venture in which we and an affiliate each hold 50% interests completed the refinancing of a limited recourse mortgage of \$2,483 for \$35,350 and distributed the proceeds to the venture partners. The new limited recourse mortgage financing carries a fixed annual interest rate of 6.2% versus 8.125% for the prior financing. The new financing matures in July 2017.

Acquisition Activity During the three months ended June 30, 2007, we obtained a 5% interest in a venture, the remaining interests in which are held by our affiliated CPA[®] REITs, which made a loan (the note receivable) to the holder of a 75.26% interest in a limited partnership owning 37 properties throughout Germany at a total cost of \$335,981. In connection with this transaction, the venture obtained limited recourse financing of \$284,932 having a fixed rate of 5.49% per annum and a term of 10 years. All amounts are based on the exchange rate of the Euro at the date of acquisition (see Aggregate Contractual Agreements below).

In addition, during the three months ended June 30, 2007, our subsidiary Carey Storage acquired two domestic self-storage properties totaling \$9,000. These acquisitions were funded in part through borrowings totaling \$4,930 under Carey Storage's secured credit facility (see Financial Condition below).

Disposition Activity During the three months ended June 30, 2007, we completed the sale of two domestic vacant properties for \$6,014, net of selling costs and, in addition, received lease termination proceeds of \$1,905. In connection with these sales, we recorded a net gain of \$962, exclusive of impairment charges of \$2,507 recognized in prior periods.

Quarterly Distribution In June 2007, our board of directors approved and increased the 2007 second quarter distribution to \$0.467 per share payable in July 2007 to shareholders of record as of June 29, 2007.

SEC Investigation As previously reported, we and Carey Financial, LLC, our wholly-owned broker-dealer subsidiary, are currently subject to an SEC investigation into payments made to third party broker-dealers in connection with the distribution of REITs managed by us and other matters. Although no regulatory action has been initiated against us or Carey Financial in connection with the matters being investigated, we expect that the SEC may pursue an action in the future. The potential timing of any action and the nature of the relief or remedies the SEC may seek cannot be predicted at this time. If an action is brought, it could materially affect us and the REITs we manage.

Senior Management As previously reported in a Report on Form 8K dated June 14, 2007, Thomas Ridings, an executive director, was appointed chief accounting officer. Mr. Ridings succeeds Claude Fernandez, who resigned from his position as chief accounting officer in June. Mr. Fernandez will continue in his capacity as managing director.

Directors Effective April 2007, Trevor Bond was appointed to our board of directors and serves as an independent director. In June 2007, Robert E. Mittelstaedt, Jr. was elected to our board of directors and serves as an independent director.

The following development occurred subsequent to our second quarter:

Disposition Activity In July 2007, we entered into an agreement to sell two domestic properties for approximately \$17,575, net of estimated selling costs. If the sale is consummated, we expect to recognize a gain of approximately \$1,690. The sale is subject to customary due diligence requirements and there is no guarantee that the sale will be completed in accordance with the above terms or at all.

Table of Contents

Current trends include:

We continue to see intense competition in both the domestic and international markets for triple net leased properties, as capital continues to flow into real estate, in general, and triple net leased real estate, in particular. We believe that relatively low long-term interest rates by historical standards have created greater investor demand for yield-based investments, such as triple net leased real estate, thus creating increased capital flows and a more competitive investment environment. We currently expect these trends to continue in 2007 but believe that we have competitive strengths that will enable us to continue to find attractive investment opportunities, both domestically and internationally. In addition to our competitive strengths, we currently believe that several factors may also provide us with continued investment opportunities. These factors include significant merger and acquisition activity, which may provide additional sale-leaseback opportunities as a source of funding, a continued desire of corporations to divest themselves of real estate holdings and increasing opportunities for sale-leaseback transactions in the international market, which continues to make up a large portion of our investment opportunities.

For the six months ended June 30, 2007, international investments accounted for 71% of total investments made on behalf of the CPA® REITs. For the year ended December 31, 2006, international investments accounted for 48% of total investments. We currently expect international commercial real estate to continue to comprise a significant portion of the investments we make on behalf of the CPA® REITs, although the percentage of international investments in any given period may vary substantially.

Commercial real estate values have risen significantly in recent years. We benefit from increases in the valuations of the CPA® REIT portfolios through our ownership of shares in the CPA® REITs and increased management fees. To the extent that disposing of properties fits with our strategic plans, we may look to take advantage of the increase in real estate prices by selectively disposing of properties in our owned portfolio.

Increases in long term interest rates would likely cause the value of our owned and managed assets to decrease, which would create lower revenues from managed assets and lower investment performance for the managed funds.

Increases in interest rates may also have an impact on the credit quality of certain tenants. To the extent that the Consumer Price Index (CPI) increases, additional rental income streams may be generated for leases with CPI adjustment triggers and partially offset the impact of declining property values. In addition, we constantly evaluate our debt exposure, and to the extent that opportunities exist to refinance and lock in lower interest rates over a longer term, we may be able to reduce our exposure to short term interest rate fluctuation.

We have seen a shift in the capital markets during the second quarter. Spreads on corporate obligations and mortgages have widened, in part, based upon investor concerns about credit quality and potential defaults. We have experienced some widening on the mortgage spreads on our limited recourse borrowings which we utilize for our investing activity. Furthermore, a decrease in credit availability might increase the default rates that we experience with our tenants. On the other hand, we believe that we may find more attractive investment opportunities at potentially wider spreads during a time of stricter credit. In addition, we utilize moderate leverage and do not believe the current environment will materially impact our ability to borrow, at favorable rates, on a limited recourse basis.

Companies in automotive related industries (manufacturing, parts, services, etc.) continue to experience a challenging environment, which has resulted in several companies filing for bankruptcy protection in recent years. We currently have several automotive industry related tenants in the portfolios we manage, including our own portfolio. Some of these tenants have filed voluntary petitions of bankruptcy. As of June 30, 2007, tenants in the automotive industry in our portfolio and the portfolios we manage represented less than 1% and 5% of the asset carrying value of total real estate assets, respectively. If conditions in this industry worsen, additional tenants may file for bankruptcy protection and may disaffirm their leases as part of their bankruptcy reorganization plans. The net result of these trends may have an adverse impact on our asset management revenue. Despite these conditions, we continue to evaluate opportunities in these industries as we believe there still may be attractive investment opportunities.

How Management Evaluates Results of Operations

Management evaluates our results of operations with a primary focus on increasing and enhancing the value, quality and amount of assets under management by our investment management segment and seeking to increase value in our real estate ownership. Management focuses its efforts on improving underperforming assets through re-leasing efforts, including negotiation of lease renewals, or selectively selling such assets in order to increase value in our real estate

portfolio. The ability to increase assets under management by structuring investments on behalf of the CPA[®] REITs is affected, among other things, by the CPA[®] REITs' ability to raise capital and our ability to identify appropriate investments.

Management's evaluation of operating results includes our ability to generate necessary cash flow in order to fund distributions to our shareholders. As a result, management's assessment of operating results gives less emphasis to the effects of unrealized gains and losses, which may cause fluctuations in net income for comparable periods but have no impact on cash flows, and to other non-cash

W. P. Carey 6/30/2007 10-Q **20**

Table of Contents

charges such as depreciation and impairment charges. Management does not consider unrealized gains and losses resulting from short-term foreign currency fluctuations when evaluating our ability to fund distributions. Management's evaluation of our potential for generating cash flow includes an assessment of the long-term sustainability of both our real estate portfolio and the assets we manage on behalf of the CPA® REITs. Management considers cash flows from operations, cash flows from investing activities and cash flows from financing activities to be important measures in the evaluation of our results of operations, liquidity and capital resources. Cash flows from operations are sourced primarily by revenues earned from structuring investments and providing asset-based management services on behalf of the CPA® REITs we manage and long-term lease contracts from our real estate ownership. Management's evaluation of the amount and expected fluctuation of cash flows from operations is essential in evaluating our ability to fund operating expenses, service debt and fund distributions to shareholders. Management considers cash flows from operating activities plus cash distributions from equity investments in real estate in excess of equity income as a supplemental measure of liquidity in evaluating our ability to sustain distributions to shareholders. Management considers this measure useful as a supplemental measure to the extent the source of distributions in excess of equity income is the result of non-cash charges, such as depreciation and amortization, because it allows management to evaluate such cash flows from consolidated and unconsolidated investments in a comparable manner. In deriving this measure, cash distributions from equity investments in real estate that are sourced from sales of equity investee's assets or refinancing of debt are excluded because they are deemed to be returns of investment.

Management focuses on measures of cash flows from investing activities and cash flows from financing activities in its evaluation of our capital resources. Investing activities typically consist of the acquisition or disposition of investments in real property and the funding of capital expenditures with respect to real properties. Financing activities primarily consist of the payment of distributions to shareholders, borrowings and repayments under our lines of credit and the payment of mortgage principal amortization.

Results of Operations

We evaluate our results of operations by our two major business segments—investment management and real estate ownership. A summary of comparative results of these business segments is as follows:

Investment Management

	Three months ended June 30,			Six months ended June 30,		
	2007	2006	Change	2007	2006	Change

W. P. Carey 6/30/2007 10-Q 21

Table of Contents**Asset Management Revenue**

We earn asset management revenue (asset-based management and performance revenue) from the CPA[®] REITs based on assets under management. As funds available to the CPA[®] REITs are invested, the asset base for which we earn revenue increases. The asset management revenue that we earn may increase or decrease depending upon (i) increases in the CPA[®] REIT asset bases as a result of new investments; (ii) decreases in the CPA[®] REIT asset bases resulting from sales of investments; or (iii) increases or decreases in the asset valuations of CPA[®] REIT funds (which are not recorded for financial reporting purposes). The availability of funds for new investments is substantially dependent on our ability to raise funds for investment by the CPA[®] REITs.

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, asset management revenue increased \$15,452 and \$16,124, respectively, primarily due to the recognition of \$11,945 of previously deferred asset management revenue from CPA[®]:16 Global during the second quarter of 2007 following the achievement of its performance criterion, and \$2,186 of performance revenue that was earned in the current quarter. A portion of the asset management revenue we earn from the CPA[®] REITs is based on each CPA[®] REIT meeting specific performance criteria and is earned only if the criteria are achieved. Because CPA[®]:16 Global had not achieved its performance criterion at June 30, 2006, no performance revenue was recognized from CPA[®]:16 Global for the three and six months ended June 30, 2006. The increase is also attributable to a net increase in our assets under management as a result of recent investment activity of the CPA[®] REITs and increases in the annual asset valuations of CPA[®]:14 and CPA[®]:15, which were performed as of December 31, 2006.

These increases were partially offset by a reduction in revenue resulting from our acquisition of properties from CPA[®]:12 (the CPA[®]:12 Acquisition) for \$126,006 and the sale of properties by CPA[®]:12 to third parties prior to its merger with CPA[®]:14 (the CPA[®]:12/14 Merger) in December 2006. While we expect an overall increase in asset management revenue during 2007 as a result of CPA[®]:16 Global meeting its performance criterion, recent investment activity and expected activity during the remainder of 2007, the CPA[®]:12 Acquisition will have a negative impact on asset management revenue of approximately \$1,300 during 2007.

Structuring Revenue

Structuring revenue includes current and deferred acquisition revenue from structuring investments and financing on behalf of the CPA[®] REITs. Investment activity is subject to significant period-to-period variation.

For the three and six months ended June 30, 2007 and 2006 versus the comparable 2006 periods, structuring revenue increased \$50,986 and \$45,677, respectively, primarily due to the recognition of \$35,210 of structuring revenue from CPA[®]:16 Global during the second quarter of 2007 following the achievement of its performance criterion, \$31,674 of which had been previously deferred. The increase in structuring revenue is also attributable to an increase in investment volume. We structured investments totaling \$493,000 and \$660,000, respectively, for the three and six months ended June 30, 2007 as compared with \$83,000 and \$338,000, respectively, for the comparable prior year periods.

As discussed above, a portion of the CPA[®] REIT structuring revenue is based on each CPA[®] REIT meeting specific performance criteria and is earned only if the criteria are achieved. Because CPA[®]:16 Global had not achieved its performance criterion as of June 30, 2006, no deferred structuring revenue was recognized from CPA[®]:16 Global for the three and six months ended June 30, 2006.

Reimbursed and Reimbursable Costs

Reimbursed costs from affiliates (revenue) and reimbursable costs (expenses) represent costs incurred by us on behalf of the CPA[®] REITs, primarily broker-dealer commissions and marketing and personnel costs, which are reimbursed by the CPA[®] REITs. Revenue from reimbursed costs from affiliates is offset by corresponding charges to reimbursable costs and therefore has no impact on net income.

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, reimbursed and reimbursable costs decreased \$16,650 and \$16,173, respectively, primarily due to a decrease in broker-dealer commissions and marketing costs related to CPA[®]:16 Global's second public offering, which commenced in March 2006 and was completed in December 2006.

General and Administrative

For the three months ended June 30, 2007 and 2006, general and administrative expenses increased by \$12,847, primarily due to increases in compensation related costs. Compensation related costs increased by \$11,589 primarily due to CPA[®]:16 Global achieving its performance criterion in June 2007 as well as an increase in investment volume. As a result of CPA[®]:16 Global achieving its performance criterion, we recognized \$6,625 of previously deferred compensation costs in the second quarter of 2007. We also recognized compensation related to current quarter acquisitions, which totaled \$493,000 while in the second quarter of 2006, investments totaled \$83,000, and a significant portion of the compensation relating to those investments was deferred as CPA[®]:16 Global had not yet met its performance criterion.

For the six months ended June 30, 2007 and 2006, general and administrative expenses increased by \$13,344, primarily due to the same factors as described above. Compensation related costs increased by \$11,232, primarily due to the recognition of \$6,625 of previously deferred compensation costs in connection with CPA[®]:16 Global achieving its performance criterion and an increase in

W. P. Carey 6/30/2007 10-Q **22**

Table of Contents

investment volume. Year-to-date investments totaled \$660,000 compared to \$338,000 for the comparable prior year period. In addition, general and administrative expenses also increased \$1,348 as a result of increases in professional fees including costs incurred in studying various corporate restructuring alternatives and other legal and consulting fees.

Depreciation and Amortization

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, depreciation and amortization expense decreased by \$424 and \$833, respectively. The decrease is primarily due to accelerated amortization on intangible assets related to a management contract with CPA®:12 that was terminated as a result of the CPA®:12/14 Merger in December 2006.

Other Interest Income

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, other interest income increased by \$2,764 and \$2,749, respectively, primarily due to the recognition of \$2,725 of interest income on deferred structuring revenue from CPA®:16 Global during the second quarter of 2007 following CPA®:16 Global's achievement of its performance criterion, \$2,300 of which had been previously deferred.

Minority Interest in (Income) Loss

For the three and six months ended June 30, 2007, we recognized minority interest in income of \$2,783 and \$2,716, respectively, as compared to minority interest in losses of \$729 and \$283 for the three and six months ended June 30, 2006, respectively. Two employees own a minority interest in our subsidiary W. P. Carey International LLC that had a significant increase in net income as a result of the recognition of previously deferred asset management and structuring revenue from CPA®:16 Global following CPA®:16 Global's achievement of its performance criterion in June 2007, as well as an increase in investment volume.

Provision for Income Taxes

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, our provision for income taxes increased \$26,480 and \$26,086, respectively, primarily as a result of revenue recognized in connection with CPA®:16 Global achieving its performance criterion in June 2007. The effective tax rate for the second quarter of 2007 and 2006 was 48.6% and 41.5%, respectively. The year-to-date effective tax rate for 2007 and 2006 was 50% and 44.1%, respectively. The effective tax rate increased in both periods because performance and asset management revenues in respect of CPA®:12's assets that had been paid directly to us were, subsequent to the acquisition of those assets by CPA®:14 in the CPA®:12/14 Merger, paid to a taxable, wholly owned subsidiary which is the advisor to CPA®:14. In addition, investment management income presented above excludes income that has been eliminated in consolidation but is subject to taxation. The adoption of FIN 48 did not have a material impact on our income tax provision during the first quarter of 2007 (Note 12).

Net Income from Investment Management

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, net income from investment management increased by \$26,618 and \$23,278, respectively, primarily due to increases in revenue attributable to CPA®:16 Global achieving its performance criterion and increases in investment volume and assets under management. As a result of CPA®:16 Global achieving its performance criterion, we recognized \$45,919 in previously deferred revenue in June 2007. These increases were partially offset by increases in our provision for income taxes as a result of the revenue increase and increases in general and administrative expenses. General and administrative expenses increased primarily due to the recognition of deferred compensation totaling \$6,625 in connection with CPA®:16 Global achieving its performance criterion and in connection with significant increases in investment volume. These variances are described above.

CPA®:12 real
estate interests
acquired in
December 2006.

- (e) We acquired our
interest in this
property in 2006.

Lease Revenues

For the three months ended June 30, 2007 and 2006, lease revenues (rental income and interest income from direct financing leases) increased by \$1,713 primarily due to lease revenues earned on properties acquired in the CPA®:12 Acquisition in December 2006, which contributed \$1,181, and rent increases and rent from new tenants at existing properties, which contributed \$650 of the increase. These increases were partially offset by the impact of lease expirations during 2007 and 2006.

For the six months ended June 30, 2007 and 2006, lease revenues increased by \$3,218 primarily due to the same factors described above. Lease revenues earned on properties acquired in the CPA®:12 Acquisition contributed \$2,370 of the increase, while rent increases and rent from new tenants at existing properties contributed an additional \$1,587 of the increase. These increases were partially offset by the impact of lease expirations during 2007 and 2006.

Our net leases generally have rent increases based on formulas indexed to increases in the CPI or other indices for the jurisdiction in which the property is located, sales overrides or other periodic increases, which are designed to increase lease revenues in the future.

Other Real Estate Income

Other real estate income generally consists of revenue from Carey Storage, a subsidiary that invests in domestic self-storage properties and Livho, a subsidiary that operates a Radisson hotel franchise in Livonia, Michigan. Other real estate income also includes lease termination payments and other non-rent related revenues from real estate ownership including, but not limited to, settlements of claims against former lessees. We receive settlements in the ordinary course of business; however, the timing and amount of settlements cannot always be estimated.

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, other real estate income increased by \$1,092 and \$1,883, respectively, primarily from the results of operations from Carey Storage which commenced operations in December 2006 and contributed increases of \$1,476 and \$2,567, respectively. Other real estate income also increased for each comparable period as a result of increases in reimbursable tenant costs, which are recorded as both revenue and expense and therefore have no impact on net income. These increases were partially offset by a reduction in income from Livho, whose operations have been impacted by the commencement of renovation work at the hotel in late 2006.

General and Administrative

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, general and administrative expenses increased by \$538 and \$1,120, respectively, primarily due to increases in compensation related costs and professional fees. Professional fees include auditing and consulting services associated with our real estate ownership as well as investor related services.

Table of Contents**Depreciation and Amortization**

For the three months ended June 30, 2007 and 2006, depreciation and amortization expense increased by \$1,367, primarily from recent investment activity, including the CPA[®]:12 Acquisition in December 2006 and our recent self-storage acquisitions.

For the six months ended June 30, 2007 and 2006, depreciation and amortization expense increased by \$2,750 primarily due to recent investment activity which contributed \$1,914 of the increase as well as the acceleration of depreciation on certain Livho assets.

Property Expenses

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, property expenses increased by \$548 and \$300, respectively, primarily due to an increase in reimbursable tenant costs and other property related expenses in connection with our recent investment activity. Actual recoveries of reimbursable tenant costs are recorded as both revenue and expense and therefore have no impact on net income.

Other Real Estate Expenses

For the three months ended June 30, 2007 and 2006, other real estate expenses decreased \$165, primarily due to a reduction in operating expenses incurred by our Livho subsidiary, whose operations have been impacted by renovation work at its hotel facility. This decrease was partially offset by operating expenses of our self-storage properties, which we began acquiring in December 2006.

For the six months ended June 30, 2007 and 2006, other real estate expenses increased \$792, primarily due to operating expenses of our self-storage properties as described above. This increase was partially offset by reductions in operating expenses of our Livho subsidiary as described above.

Income from Equity Investments in Real Estate

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, income from equity investments in real estate increased by \$819 and \$1,214, respectively, primarily due to recent investment activity, including the impact of the CPA[®]:12 Acquisition.

Gain on Sale of Securities, Foreign Currency Transactions and Other Gains, Net

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, gain on sale of securities, foreign currency transactions and other gains, net decreased by \$5,024 and \$5,088, respectively. The decrease is primarily due to the recognition in May 2006 of a gain of \$4,800 from the sale of our common stock holdings of Meristar Hospitality Corp. Impairment charges totaling \$11,345 were recognized in prior periods to write down the value of this investment to its estimated fair value.

Interest Expense

For the three and six months ended June 30, 2007 versus the comparable 2006 periods, interest expense increased \$1,128 and \$1,603, respectively, primarily due to additional borrowings under our credit facilities which were used for investments and other recurring operating activities as well as the impact of new mortgage financing obtained in 2007 and 2006, including the mortgage obligations assumed in connection with the CPA[®]:12 Acquisition in December 2006.

Income from Continuing Operations

For the three months ended June 30, 2007 and 2006, income from continuing operations decreased \$5,297. This decrease primarily relates to the recognition in the second quarter of 2006 of a \$4,800 gain on sale of our common stock holdings of Meristar Hospitality Corp. In addition, interest expense increased \$1,128 primarily due to increases in the amounts outstanding under our credit facilities. Property level operating results, which benefited from recent acquisitions including the CPA[®]:12 Acquisition and self-storage properties as well as rent increases at existing properties, partially offset these reductions to income from continuing operations. These variances are described above.

For the six months ended June 30, 2007 and 2006, income from continuing operations decreased \$5,965 primarily due to the same factors described above. Interest expense increased \$1,603 over the comparable 2006 period. In addition, depreciation expense increased as a result of accelerated depreciation on certain Livho assets. These variances are described above.

Discontinued Operations

Edgar Filing: CAREY W P & CO LLC - Form 10-Q

For the three and six months ended June 30, 2007, we earned income from the operations of discontinued properties of \$2,752 and \$2,604, respectively, which is primarily comprised of lease termination revenue of \$1,905 and a net gain of \$962 from the sale of two domestic properties during the second quarter of 2007.

W. P. Carey 6/30/2007 10-Q 27

Table of Contents

For the three months ended June 30, 2006, we incurred a loss from the operations of discontinued properties of \$653. For the six months ended June 30, 2006, we incurred a loss from discontinued operations of \$4,544 primarily due to the recognition of impairment charges totaling \$3,357.

Financial Condition**Uses of Cash during the Period**

There has been no material change in our financial condition since December 31, 2006. Cash and cash equivalents totaled \$19,050 as of June 30, 2007, a decrease of \$3,058 from the December 31, 2006 balance. We believe that we will generate sufficient cash from operations and, if necessary, from the proceeds of limited recourse mortgage loans, unused capacity on our credit facility, unsecured indebtedness and the issuance of additional equity securities to meet our short-term and long-term liquidity needs. We assess our ability to access capital on an ongoing basis. Our use of cash during the period is described below.

Operating Activities During the six months ended June 30, 2007, a significant portion of our cash flows from operations were used to pay taxes totaling approximately \$21,000 on revenue earned in the fourth quarter of 2006 in connection with the CPA[®]:12/14 Merger and deferred compensation totaling \$6,625 in connection with CPA[®]:16 Global achieving its performance criterion in June 2007. Existing cash resources and borrowings under our unsecured credit facility were used along with our cash flows from operations to fund distributions to shareholders of \$35,202. Operating cash flow fluctuates on a quarterly basis due to factors that include the timing of the receipt of transaction-related revenue, the timing of certain compensation costs and tax payments and receipt of the annual installment of deferred acquisition revenue and interest thereon in the first quarter.

During the six months ended June 30, 2007, we received revenue of \$13,510 from providing asset-based management services on behalf of the CPA[®] REITs, exclusive of that portion of such revenue being satisfied by the CPA[®] REITs through the issuance of their restricted common stock rather than paying cash (see below). We also received revenue of \$16,182 in connection with structuring investments on behalf of the CPA[®] REITs. In January 2007, we received an annual installment of deferred acquisition revenue from CPA[®]:14 and CPA[®]:15 totaling \$16,701, including interest. In June 2007, CPA[®]:16 Global met its cumulative performance criterion and as a result we recognized previously deferred asset-based and structuring revenue totaling \$45,919. CPA[®]:16 Global paid us deferred asset-based revenue of \$11,945 in July 2007 in the form of 1,194,549 shares of CPA[®]:16 Global's restricted common stock. CPA[®]:16 Global will pay the deferred structuring revenue in three annual installments of \$28,259 in January 2008 (including accrued interest), \$4,663 in January 2009 and \$1,052 in January 2010.

For 2007, we have elected to continue to receive all performance revenue from the CPA[®] REITs as well as the asset management revenue payable by CPA[®]:16 Global in restricted shares rather than cash. We expect that the election to receive restricted shares will continue to have a negative impact on cash flows during 2007, as this election is annual. During the six months ended June 30, 2007, our real estate ownership provided cash flows (contractual lease revenues, net of property-level debt service) of approximately \$25,423. During this period, the properties we acquired from CPA[®]:12 generated lease revenue and cash flow, inclusive of minority interest, of approximately \$2,370 and \$1,987, respectively, and equity income of \$971. This additional cash flow was partially offset by lower asset management revenue of approximately \$650 as a result of CPA[®]:12 selling several properties to us and third parties in connection with the CPA[®]:12/14 Merger.

Investing Activities Our investing activities are generally comprised of real estate transactions (purchases and sales) and capitalized property related costs. During the six months ended June 30, 2007, we used \$40,381 to make investments including acquiring several domestic self-storage properties and an equity investment. We also used \$7,361 to make capital improvements to existing properties. During the six months ended June 30, 2007, cash inflows included distributions from equity investments in real estate in excess of equity income of \$21,716 and net proceeds of \$6,014 from the sale of two vacant domestic properties. Distributions from equity investments in real estate are primarily comprised of our share of the proceeds from a limited recourse mortgage obtained by a venture in which we have a 50% interest and distributions from the CPA[®] REITs. We received distributions from the CPA[®] REITs totaling \$3,809 as a result of our ownership of shares in the CPA[®] REITs, with \$1,841 included in cash flows from investing activities, representing an amount in excess of the income recognized on the CPA[®] REIT investments for financial reporting purposes.

Financing Activities During the six months ended June 30, 2007, we paid distributions to shareholders of \$35,202 and made scheduled mortgage principal payments totaling \$7,719. We incurred gross borrowings of \$93,000 and \$20,080 on our unsecured and secured credit facilities, respectively, and obtained \$5,537 of mortgage financing, which were used for several purposes in the normal course of business, including the acquisition of several self-storage properties. During this period, we made repayments of \$67,000 on our unsecured facility which has increased overall by \$26,000 since December 31, 2006. Included in the gross borrowings and

W. P. Carey 6/30/2007 10-Q **28**

Table of Contents

repayments above is \$28,000 borrowed under our new \$250,000 unsecured credit facility which was used to repay our previous credit facility. In connection with our current share repurchase program, we repurchased shares totaling \$2,038.

Summary of Financing

The table below summarizes our mortgage notes payable and credit facilities as of June 30, 2007 and 2006, respectively.

	2007	2006
Balance:		
Fixed rate	\$ 202,386	\$ 202,488
Variable rate ⁽¹⁾	119,858	53,424
	\$ 322,244	\$ 255,912
 Percent of total debt:		
Fixed rate	63%	79%
Variable rate ⁽¹⁾	37%	21%
	100%	100%
 Weighted average interest rate at end of period:		
Fixed rate	6.44%	6.54%
Variable rate ⁽¹⁾	4.87%	4.90%

(1) Included in variable rate debt as of June 30, 2007 is (i) \$35,581 outstanding under our secured credit facility, (ii) \$28,000 outstanding under our unsecured credit facility, and (iii) \$56,277 in mortgage obligations which are currently fixed rate but which have interest rate reset

features which may change the interest rates to then prevailing market fixed rates at certain points in their term.

Cash Resources

At June 30, 2007, our cash resources consisted of the following:

Cash and cash equivalents totaling \$19,050, of which \$5,722 was held in foreign bank accounts to maintain local capital requirements;

Unsecured credit facility with unused capacity of up to \$222,000, which may also be used to loan funds to our affiliates;

Secured credit facility with unused capacity of up to \$69,419, available to a wholly owned subsidiary to finance self-storage acquisitions; and

We can also borrow against our currently unleveraged properties which have a carrying value of \$278,455, subject to meeting certain financial ratios on our unsecured credit facility.

Our cash resources can be used for working capital needs and other commitments and may be used for future investments. We continue to evaluate fixed-rate financing options, such as obtaining limited recourse financing on our unleveraged properties. Any financing obtained may be used for working capital objectives and may be used to pay down existing debt balances. A summary of our secured and unsecured credit facilities is provided below:

	June 30, 2007		December 31, 2006	
	Outstanding Balance	Maximum Available	Outstanding Balance	Maximum Available
Unsecured credit facility	\$ 28,000	\$ 250,000	\$ 2,000	\$ 175,000
Secured credit facility	35,581	105,000	15,501	105,000
	\$ 63,581	\$ 355,000	\$ 17,501	\$ 280,000

Unsecured credit facility

In June 2007, we entered into an unsecured credit facility for a \$250,000 revolving line of credit to replace our previous \$175,000 line of credit that was due to expire in July 2007. The credit facility, which matures in June 2011, can be increased up to \$300,000 upon satisfaction of certain conditions and carries a one-year extension option subject to the satisfaction of certain conditions and the payment of an extension fee equal to 0.125% of the total commitments under the facility at that time.

Table of Contents

The credit facility has an annual interest rate of either (i) LIBOR plus a spread which ranges from 75 to 120 basis points depending on our leverage or (ii) the greater of the lender's prime rate and the Federal Funds Effective Rate plus 50 basis points. In addition, we pay an annual fee ranging between 12.5 and 20 basis points of the unused portion of the credit facility, depending on our leverage ratio. Based on our leverage at June 30, 2007, we pay interest at LIBOR plus 75 basis points and pay 12.5 basis points on the unused portion of the credit facility. The credit facility has financial covenants that among other things require us to maintain a minimum equity value and meet or exceed certain operating and coverage ratios. We are in compliance with these covenants as of June 30, 2007.

Secured credit facility

The secured credit facility matures in December 2008 and is collateralized by any self-storage real estate assets acquired by Carey Storage with proceeds from the facility. Advances from this facility bear interest at an annual fixed interest rate of 7.6% for the first month of borrowing and at an annual variable interest rate equal to the one-month LIBOR plus a spread which ranges from 175 to 235 basis points thereafter depending on the aggregate debt yield for the collateralized asset pool. Advances can be prepaid at any time, however advances prepaid prior to March 8, 2008 are subject to a prepayment penalty of 1.25% of the principal amount of the loan being prepaid. This facility has financial covenants requiring Carey Storage, among other things, to meet or exceed certain operating and coverage ratios. Carey Storage is in compliance with these covenants as of June 30, 2007.

Cash Requirements

During the next twelve months, cash requirements will include paying distributions to shareholders, scheduled mortgage principal payments, including mortgage balloon payments totaling \$15,541 of which \$6,041 is due in August 2007 and \$9,500 is due in December 2007 and making distributions to minority partners, as well as other normal recurring operating expenses. We may also seek to use our cash to invest in new properties and maintain cash balances sufficient to meet working capital needs. We may issue additional shares in connection with investments when it is consistent with the objectives of the seller.

We have budgeted capital expenditures of \$10,348 at various properties during the next twelve months. The capital expenditures will primarily be for tenant and property improvements in order to enhance a property's cash flow or marketability for re-leasing or sale.

We expect to meet our capital requirements to fund future investments, any capital expenditures on existing properties and scheduled debt maturities on limited recourse mortgages through use of our cash reserves or unused amounts on our credit facilities.

Aggregate Contractual Obligations

The table below summarizes our contractual obligations as of June 30, 2007 and the effect that these obligations are expected to have on our liquidity and cash flow in future periods.

	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Mortgage notes payable Principal	\$ 258,663	\$ 26,022	\$ 61,181	\$ 38,451	\$ 133,009
Mortgage notes payable Interest ⁽¹⁾	76,495	14,833	24,203	16,947	20,512

\$ 446,889 \$ 59,045 \$ 131,000 \$ 90,757 \$ 166,087

- (1) Interest on variable rate debt obligations was calculated using the variable interest rate and balance outstanding as of June 30, 2007.
- (2) Operating lease obligations consist primarily of the total minimum rents payable on the lease for our principal offices. We are reimbursed by affiliates for their share of the future minimum rents under an office cost-sharing agreement. These amounts are allocated among the entities based on gross revenues and are adjusted quarterly.
- (3) Represents remaining commitments to fund certain property improvements.
- (4) Represents a commitment to contribute capital to an investment in

India.

Amounts related to our foreign operations are based on the exchange rate of the Euro at June 30, 2007.

W. P. Carey 6/30/2007 10-Q **30**

Table of Contents

We have employment contracts with certain senior executives. These contracts provide for severance payments in the event of termination under certain conditions including a change of control.

As of June 30, 2007, we have no material capital lease obligations for which we are the lessee, either individually or in the aggregate.

We have investments in unconsolidated joint ventures that own single-tenant properties net leased to corporations. All of the underlying investments are owned with affiliates. Summarized financial information for these ventures (for the entire venture, not our proportionate share) at June 30, 2007 is presented below:

Principal Tenant	Ownership	Total	Total Third	Maturity
	Interest	Assets	Party	
			Debt	Date
The Retail Distribution Group	40%	\$ 11,847	\$ 5,567	9/2009
Federal Express Corporation	40%	51,707	41,710	1/2011
Information Resources, Inc.	33.33%	50,729	23,128	1/2011
Childtime Childcare, Inc.	33.93%	10,543	6,757	1/2011
Carrefour France, S.A. ⁽¹⁾	49.63%	165,127	120,863	12/2014
Consolidated Systems, Inc.	60%	18,312	11,917	11/2016
Hellweg Die Profi-Baumarkte GmbH & Co. KG ⁽¹⁾⁽²⁾	5%	338,026	287,643	4/2017
Sicor, Inc. ⁽³⁾	50%	17,309	35,350	7/2017
Medica France, S.A. ⁽¹⁾	35%	55,478	41,848	10/2017
Hologic, Inc.	36%	29,256	16,448	5/2023
		\$ 748,334	\$ 591,231	

(1) Amounts shown are based on the exchange rate of the Euro at June 30, 2007.

(2) In April 2007, we acquired a 5% interest in a venture, the remaining interests in which are held by our affiliated CPA[®] REITs, which made a loan (the note receivable) to the holder of a 75.26% interest in a limited partnership (the

partner) owning
37 properties
throughout
Germany at a
total cost of
\$335,981. In
connection with
this transaction,
the venture
obtained limited
recourse
financing of
\$284,932 having
a fixed rate of
5.49% per
annum and a
term of 10 years.
All amounts are
based on the
exchange rate of
the Euro at the
date of
acquisition.
Under the terms
of the note
receivable, the
venture will
receive an
interest that
approximates
75.26% of all
income earned
by the limited
partnership, less
adjustments.

In connection
with this
transaction, a
second venture,
which is wholly
owned by our
affiliated CPA[®]
REITs, (the
property
venture)
acquired the
remaining
24.74% interest
in the limited
partnership. The

property venture
agreed to an
option
agreement which
gives the
property venture
the right to
purchase, from
the partner, the
remaining 75%
interest in the
limited
partnership no
later than
December 2010
at a price which
will equal the
principal amount
of the note
receivable at the
time of purchase.
As a result of
this purchase,
our share of the
note receivable
would be repaid
to us and we
would not have a
continuing
interest in the
limited
partnership. The
property venture
has also agreed
to a second
assignable
option
agreement to
acquire the
remaining 0.26%
interest in the
limited
partnership by
December 2012.
If the property
venture does not
exercise its
option
agreements, the
partner has
option

agreements to put its remaining interests in the limited partnership to the property venture during 2014 at a price which will equal the principal amount of the note receivable at the time of purchase.

- (3) In June 2007, this venture completed the refinancing of a limited recourse mortgage of \$2,483 for \$35,350 based on the appraised value of the underlying real estate of the venture and distributed the proceeds to the venture partners.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK***(in thousands)***Market Risks**

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates and equity prices. In pursuing our business plan, the primary risks to which we are exposed are interest rate risk and foreign currency exchange risk.

We do not generally use derivative financial instruments to manage foreign currency exchange risk exposure and do not use derivative instruments to hedge credit/market risks or for speculative purposes. We account for our derivative instruments in accordance with SFAS No. 133 Accounting for Derivative Instruments and Hedging Activities, as amended.

Interest Rate Risk

The value of our real estate and related fixed debt obligations is subject to fluctuations based on changes in interest rates. The value of our real estate is also subject to fluctuations based on local and regional economic conditions and changes in the creditworthiness of lessees, all of which may affect our ability to refinance property-level mortgage debt when balloon payments are scheduled.

Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political conditions, and other factors beyond our control. An increase in interest rates would likely cause the value of our owned and managed assets to decrease, which would create lower revenues from managed assets and lower investment performance for the managed funds. Increases in interest rates may also have an impact on the credit quality of certain tenants.

We are exposed to the impact of interest rate changes primarily through our borrowing activities. To limit this exposure, we attempt to obtain mortgage financing on a long-term, fixed-rate basis. However, from time to time, we or our venture partners may obtain variable rate mortgage loans and may enter into interest rate swap agreements with lenders, which effectively convert the variable rate debt service obligations of the loan to a fixed rate. Our objective in using derivatives is to limit our exposure to interest rate movements. Interest rate swaps are agreements in which a series of interest rate flows are exchanged over a specific period. The notional amount on which the swaps are based is not exchanged. Interest rate swaps may be designated as cash flow hedges, with changes in fair value included as a component of other comprehensive income in shareholders' equity, or as fair value hedges, with changes in fair value reflected in earnings.

At June 30, 2007, a significant portion of our long-term debt either bears interest at fixed rates or is at a fixed rate that converts to variable rates during the term. The fair value of these instruments is affected by changes in market interest rates. The following table presents principal cash flows based upon expected maturity dates of our debt obligations and the related weighted-average interest rates by expected maturity dates for our fixed rate debt. The annual interest rates on our fixed rate debt at June 30, 2007 ranged from 4.87% to 8.8%. The annual interest rates on our variable rate debt at June 30, 2007 ranged from 3.86% to 6.61%. Both our secured and unsecured lines of credit bear interest at variable rates based on LIBOR plus a spread, which can range from 75 to 235 basis points.

	2007	2008	2009	2010	2011	Thereafter	Total	Fair value
Fixed rate debt	\$ 19,172	\$ 7,777	\$ 34,794	\$ 12,555	\$ 25,711	\$ 102,377	\$ 202,386	\$ 197,644
Weighted average interest rate	7.84%	7.03%	7.23%	7.19%	7.32%	5.55%		
Variable rate debt	\$ 1,491	\$ 43,901	\$ 3,564	\$ 3,662	\$ 31,821	\$ 35,419	\$ 119,858	\$ 119,858

A change in interest rates of 1% would increase or decrease the combined fair value of our fixed rate debt by an aggregate of \$6,950. Annual interest expense on our variable rate debt that does not currently bear interest at fixed rates would increase or decrease by \$636 for each 1% change in annual interest rates. As more fully described in Summary of Financing above, a significant portion of the debt classified as variable rate debt in the tables above currently bears interest at fixed rates but has interest rate reset features which may change the interest rates to variable rates at certain points in their term. Such debt is generally not subject to short-term fluctuations in interest rates.

W. P. Carey 6/30/2007 10-Q **32**

Table of Contents

Foreign Currency Exchange Rate Risk

We have foreign operations and transact business in Europe and as a result are subject to risk from the effects of exchange rate movements of the Euro, which may affect future costs and cash flows. We manage foreign exchange movements by generally placing both our debt obligation to the lender and the tenant's rental obligation to us in the local currency. For the Euro we are a net receiver of the foreign currency (we receive more cash than we pay out) and therefore our foreign operations benefit from a weaker U.S. dollar and are adversely affected by a stronger U.S. dollar relative to the Euro. Net realized foreign currency translation gains were \$18 and \$17 for the three months ended June 30, 2007 and 2006, respectively and \$44 and \$101 for the six months ended June 30, 2007 and 2006, respectively. Net unrealized foreign currency translation gains were \$170 and \$400 for the three months ended June 30, 2007 and 2006, respectively and \$330 and \$553 for the six months ended June 30, 2007 and 2006, respectively. Such gains are included in the consolidated financial statements and are primarily due to changes in the Euro on accrued interest receivable on notes receivable from wholly-owned subsidiaries.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our disclosure controls and procedures include our controls and other procedures designed to provide reasonable assurance that information required to be disclosed in this and other reports filed under the Securities Exchange Act of 1934, as amended (the Exchange Act) is accumulated and communicated to our management, including our chief executive officer and acting chief financial officer, to allow timely decisions regarding required disclosure and to ensure that such information is recorded, processed, summarized and reported, within the required time periods specified in the SEC's rules and forms. It should be noted that no system of controls can provide complete assurance of achieving a company's objectives, and that future events may impact the effectiveness of a system of controls. Our management, with the participation of our chief executive officer and acting chief financial officer, has conducted a review of our disclosure controls and procedures as of June 30, 2007. Based upon this review, our chief executive officer and acting chief financial officer have concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) were effective as of June 30, 2007 at a reasonable level of assurance and procedures to ensure that the information required to be disclosed in the reports we file under the Exchange Act is recorded, processed, summarized and reported within the required time periods specified in the SEC's rules and forms.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

W. P. Carey 6/30/2007 10-Q 33

Table of Contents**PART II*****Item 1. Legal Proceedings***

Refer to Note 9, Commitments and Contingencies, of the consolidated financial statements for information regarding legal proceedings.

Item 1A. Risk Factors

The risk factors described in our annual report on Form 10-K for the year ended December 31, 2006 are updated as follows:

Proposed legislation may prevent us from qualifying for treatment as a partnership for U.S. federal income tax purposes, which may significantly increase our tax liability and may affect the market value of our shares.

Members of the United States Congress have introduced legislation that would, if enacted, preclude us from qualifying for treatment as a partnership for U.S. federal income tax purposes under the publicly traded partnership rules. If this or any similar legislation or regulation were to be enacted and to apply to us, we would incur a material increase in our tax liability and the market value of our shares could decline materially.

On June 14, 2007, the Chairman and the Ranking Republican Member of the United States Senate Committee on Finance introduced legislation that would tax as corporations publicly traded partnerships that directly or indirectly derive any amount of income from investment advisor or related asset management services. As explained in the technical explanation accompanying the proposed legislation:

Under the bill, the exception from corporate treatment for a publicly traded partnership does not apply to any partnership that, directly or indirectly, has any item of income or gain (including capital gains or dividends), the rights to which are derived from services provided by any person as an investment advisor, as defined in the Investment Advisers Act of 1940, or as a person associated with an investment advisor, as defined in that Act. Further, the exception from corporate treatment does not apply to a partnership that, directly or indirectly, has any item of income or gain (including capital gains or dividends), the rights to which are derived from asset management services provided by an investment advisor, a person associated with an investment advisor, or any person related to either, in connection with the management of assets with respect to which investment advisor services were provided. For purposes of the bill, these determinations are made without regard to whether the person is required to register as an investment advisor under the Investment Advisers Act of 1940.

While we are not required to register as an investment advisor under the Investment Advisers Act of 1940, and currently pay income taxes at corporate rates on a substantial portion of our investment advisory income, certain of our income or gains could, in the absence of any de minimis or threshold provisions in the proposed legislation, subject us to taxation as a corporation under that legislation. If enacted, the proposed legislation would be effective as of the date it was introduced. However, under a transition rule contained in the proposed legislation, it would only begin to apply to us with respect to our taxable year beginning January 1, 2013. A version of this legislation subsequently introduced by Congressman Welch of Vermont would eliminate this transition period and make the legislation effective as of June 20, 2007. If either of the proposed bills survived the legislative and executive process in its proposed form or a substantially similar form and were enacted into law, we would incur a material increase in our tax liability when such legislation begins to apply to us. If we were taxed as a corporation, our effective tax rate could increase significantly. The federal statutory rate for corporations is currently 35%, and the state and local tax rates, net of the federal benefit, aggregate approximately 6%. If a variation of this proposed legislation or any other change in the tax laws, rules, regulations or interpretations preclude us from qualifying for treatment as a partnership for U.S. federal income tax purposes under the publicly traded partnership rules, our tax liability would be materially increased and the value of our shares could decline materially.
