NEWS RELEASE

Enbridge Issues \$400 Million of Long Term Debt

CALGARY, ALBERTA May 14, 2009 Enbridge Inc. (TSX: ENB, NYSE:ENB) today announced that it has completed a \$400 million 7-year term debt issuance in the Canadian debt capital markets. The issuance yields 5.18% and was placed with over 60 institutional investors.

The large over subscription to this offering further illustrates the ability of Enbridge and its subsidiaries to successfully complete debt issuances at favourable terms and we believe that it highlights investor confidence in Enbridge's financial strength and our growth outlook, said J. Richard Bird, Executive Vice President, Chief Financial Officer and Corporate Development, Enbridge Inc., "We continue to enjoy strong investment grade credit ratings, supported by a sound balance sheet.

Enbridge has a very substantial liquidity surplus, which provides us with considerable flexibility to take advantage of attractive new opportunities," continued Mr. Bird. "We continue to carry a significant amount of unutilized credit facilities. After completing this issuance, committed credit facilities for Enbridge and its subsidiaries totaled \$6.7 billion of which \$2.8 billion is either drawn or is allocated to backstop commercial paper programs. The remaining \$3.9 billion of unutilized capacity is available to provide bridge funding for our capital programs prior to putting in place permanent financing, or to accommodate additional investment opportunities.
