**SIMCERE PHARMACEUTICAL GROUP REPORTS UNAUDITED SECOND QUARTER 2009 RESULTS  
AND ANNOUNCES SHARE REPURCHASE**

NANJING, CHINA, August 17, 2009 Simcere Pharmaceutical Group ( Simcere or the Company ) (NYSE: SCR), a leading manufacturer and supplier of branded generic and innovative pharmaceuticals in China, today reported unaudited financial results for the quarter ended June 30, 2009.

**Highlights**

<sup>2</sup> **Total revenue** was RMB424.4 million (US\$62.1 million) for the second quarter of 2009, a decrease of 2.7% from RMB436.2 million for the same period in 2008.

<sup>2</sup> **Income from operations** was RMB37.9 million (US\$5.5 million) for the second quarter of 2009, a decrease of 61.4% from RMB98.1 million for the same period in 2008.

<sup>2</sup> **Net income attributable to Simcere** was RMB37.2 million (US\$5.5 million) for the second quarter of 2009, a decrease of 60.9% from RMB95.2 million for the same period in 2008.

<sup>2</sup> **Gross margin** for the second quarter of 2009 was 82.3%, compared to 81.7% for the same period in 2008.

<sup>2</sup> The Company's board of directors approved a new share repurchase program under which Simcere Pharmaceutical Group may purchase up to US\$50 million worth of its issued and outstanding American depositary shares ("ADSs"). The new program is in addition to the share repurchase program announced in November 2008.

Mr. Jinsheng Ren, Chairman and Chief Executive Officer of Simcere Pharmaceutical Group, commented: While gross margin was stable in the second quarter, total revenues declined slightly. Sales of edaravone products, our single largest revenue contributor, saw solid growth for the quarter, while performance of Endu and other generic drugs was slower than expected. We were encouraged, however, by the strong performance of other first-to-market drugs, especially Sinofuan which saw exceptional growth during the quarter.

Looking forward, we will continue efforts to build our sales force as we invest in sales, marketing and R&D to support Simcere's middle-and-long-term sustainable growth, Mr. Ren continued.

In the second quarter, Simcere completed the acquisition of a 37.5% stake in Jiangsu Yanshen Biological Technology Stock Co., Ltd., a China-based developer and manufacturer of vaccines. Also, Shanghai Celgen Bio-Pharmaceutical Co., Ltd. ( Shanghai Celgen ), in which Simcere entered into a share purchase agreement to acquire an approximately 35% equity interest in May 2009, is preparing for the launch of its major biogeneric etanercept drug, which is waiting for approval from the PRC State Food and Drug Administration ( SFDA ). The acquisition of Shanghai Celgen is expected to be completed in the third quarter this year.

**Research and development expenses** for the second quarter of 2009 totaled RMB25.0 million (US\$3.7 million), an increase of 89.1% from RMB13.2 million for the same period in 2008. This increase was primarily due to increased research and development headcount as the Company continued to expand its research and development activities. As a percentage of total revenue, research and development expenses were 5.9% in the second quarter of 2009, compared to 3.0% for the same period in 2008. For the first six months of 2009, research and development expenses totaled RMB50.0 million (US\$7.3 million), compared to RMB31.0 million for the same period in 2008.

As a percentage of total revenue, sales, marketing and distribution expenses were 55.5% for the second quarter of 2009, compared to 45.4% for the same period in 2008. This increase was primarily due to hiring of additional staff and the increased sales, marketing and distribution expenses for promoting the Company's major products such as Bicun and Sinofuan. For the first six months of 2009, sales, marketing and distribution expenses were RMB455.3 million (US\$66.7 million), which represented an increase of 25.6% from RMB362.5 million for the same period in 2008.

## **Table of Contents**

**Income from operations** was RMB37.9 million (US\$5.5 million) for the second quarter of 2009, which represented a decrease of 61.4% from RMB98.1 million for the same period in 2008. **Income tax benefit** for the second quarter of 2009 was RMB3.4 million (US\$0.5 million), compared to an income tax expense of RMB18.1 million for the same period in 2008. The decrease in income tax expense for the second quarter of 2009 was primarily due to lower taxable income, the reduced income tax rates for certain operating subsidiaries effective from 2009 and the recognition of deferred tax benefits by certain operating subsidiaries as a result of the tax losses incurred in the second quarter of 2009. For the first six months of 2009, income tax expense was RMB4.2 million (US\$0.6 million) compared to RMB34.9 million for the same period in 2008.

**Net income attributable to Simcere** was RMB37.2 million (US\$5.5 million) for the second quarter of 2009, compared to RMB95.2 million for the same period in 2008. Net income margin was 8.8% for the second quarter of 2009, compared to 21.8% for the second quarter of 2008. For the first six months of 2009, net income was RMB85.4 million (US\$12.5 million), which represented a decrease of 58.8% from RMB207.3 million for the same period in 2008. Net margin for the first six months of 2009 was 9.9% as compared to 24.9% for the same period in 2008.

Basic and diluted earnings per ADS for the first six months of 2009 were RMB1.44 (US\$0.21) and RMB1.43 (US\$0.21) respectively. One ADS represents two ordinary shares of the Company.

As of June 30, 2009, the Company had **cash, cash equivalents and restricted cash** of RMB636.3 million (US\$93.2 million), compared to RMB813.8 million as of December 31, 2008.

### **Share Repurchase Program**

In November 2008, the Company's board of directors authorized a share repurchase program, under which the Company may repurchase up to US\$50.0 million of issued and outstanding ADSs from the open market or in block trades. As of June 30, 2009, 5.8 million ADSs have been repurchased. The Company will continue to repurchase issued and outstanding ADSs depending on market conditions, the trading price of its ADSs and other factors.

In addition to the share repurchase program announced in November 2008, the board of directors has approved a new share repurchase program. Under the terms of the new share repurchase program, Simcere Pharmaceutical Group may purchase up to US\$50 million worth of its issued and outstanding ADSs. The repurchases will be made from time to time on the open market at prevailing market prices or in block trades and subject to restrictions relating to volume, price and timing. The Company may effect buyback transactions pursuant to Rule 10b5-1 under the Securities Exchange Act of 1934, as amended. The timing and extent of any purchases will depend upon market conditions, the trading price of its ADSs and other factors. The Company expects to implement this share repurchase program in a manner consistent with market conditions and the interest of the shareholders. The Company's board of directors will review the share repurchase program periodically, and may authorize adjustment of its terms and size accordingly. The Company plans to fund repurchases made under this program from its available cash balance.
