Item 1.01. Entry Into a Material Definitive Agreement

On October 26, 2009, TAL Advantage III, LLC, an indirect wholly owned subsidiary of TAL International Group, Inc., entered into a \$75 million asset backed credit facility, which facility may be increased to \$100 million under certain circumstances. Funds are available under the facility on a revolving basis until October 25, 2011, after which the notes issued under the facility convert to term notes with a maturity date of October 25, 2015. The term notes amortize on a level basis over the four year period to 60% of the outstanding balance. The interest rate on the notes is LIBOR plus 4.25% during the two-year revolving period. If the facility is not refinanced before the end of the revolving period, then at the end of the revolving period the interest rate will increase. The facility contains customary affirmative and negative covenants, financial covenants, representations and warranties, and events of default, which are subject to various exceptions and qualifications. The proceeds will be used to finance the acquisition of equipment and for other general corporate purposes.
