PROXY STATEMENT

This proxy statement is furnished to you by the Board of Directors of Ingram Micro (the Board) and contains information related to the 2010 annual meeting of our shareholders to be held on Wednesday, June 9, 2010, beginning at 10:00 a.m., local time, at our Santa Ana campus, 1600 East Saint Andrew Place, Santa Ana, California 92705, and at any postponements or adjournments thereof. The enclosed form of proxy is solicited by our Board. The date of this proxy statement is April 20, 2010. It is first being mailed to our shareholders on April 20, 2010.

References in this proxy statement to we, us, our, the Company and Ingram Micro refer to Ingram Micro Inc.

ABOUT THE MEETING

Purpose of the 2010 Annual Meeting

The purpose of the 2010 annual meeting is:

- (1) To adopt an amendment to our Certificate of Incorporation to declassify the Board of Directors, and if such amendment is adopted, and following the filing of such amendment with the Secretary of State of the State of Delaware, to remove each of the directors of the Company without cause such that the terms of all directors expire at the 2010 annual meeting, and the election of nine Board nominees, each to serve a one-year term ending on the date of the 2011 annual meeting;
- (2) If the above proposal is not approved, to elect three Board nominees as Class III directors at the annual meeting to serve a three-year term expiring on the date of the 2013 annual meeting of shareholders;
- (3) To ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current year; and
- (4) To transact any other business that properly comes before the meeting.

Quorum

A quorum is the minimum number of shares required to hold and transact business at a meeting. The presence in person or by proxy of the holders of a majority of the outstanding shares of common stock will constitute a quorum for the transaction of business at the meeting. Votes cast by proxy or in person at the meeting will be counted by the persons appointed by the Company to act as election inspectors for the meeting. The election inspectors will treat shares represented by proxies that reflect abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum. Abstentions, however, do not constitute a vote for or against any matter and thus will be disregarded in the calculation of a plurality or of votes cast.

The election inspectors will treat shares referred to as broker nonvotes (*i.e.*, shares held by brokers or nominees over which the broker or nominee lacks discretionary power to vote and for which the broker or nominee has not received specific voting instructions from the beneficial owner) as shares that are present and entitled to vote for purposes of determining the presence of a quorum.

Who May Vote

Holders of record of our Class A common stock at the close of business on April 5, 2010 (Record Date) may vote at the annual meeting. As of the Record Date, the Company had 165,395,494 issued and outstanding shares of Class A common stock. Each share of Ingram Micro common stock that you own entitles you to one vote.

How to Vote

You may vote in person at the meeting or by proxy. We recommend that you vote by proxy even if you plan to attend the meeting. You can always change your vote at the meeting.

If you are a registered shareholder (meaning your name is included on the shareholder file maintained by our transfer agent, Computershare Trust Company, N.A.), you can vote by proxy in any of the following ways:

By Internet. If you have Internet access, you may submit your proxy from any location in the world by following the To vote over the Internet instructions on the proxy card. The deadline for voting electronically is 3:00 a.m. (Pacific Time) on June 9, 2010.

By Telephone. You may submit your proxy by following the To vote by telephone instructions on the proxy card. The deadline for voting by telephone is 3:00 a.m. (Pacific Time) on June 9, 2010.

In Writing. You may do this by signing your proxy card, or for shares held in street name, the voting instruction card included by your broker, bank or other nominee, and mailing it in the accompanying enclosed, pre-addressed envelope. If you provide specific voting instructions, your shares will be voted as you instruct. If you sign, but do not provide instructions, we will vote your shares in favor of the director candidates. The deadline for voting by mail is 3:00 a.m. (Pacific Time) on June 9, 2010 (your proxy card must be received by that time).

If your shares are held in the name of a bank, broker or other nominee, you will receive instructions from such nominee that you must follow in order for your shares to be voted.

If you participate in our 401(k) Investment Savings Plan, you may vote an amount of shares of common stock equivalent to the interest in common stock credited to your account as of the Record Date. You may vote by instructing Fidelity Investments, the trustee of the plan, pursuant to the instruction card being mailed with this proxy statement to plan participants. The trustee will vote your shares in accordance with your duly executed instructions if they are received by May 28, 2010. If you do not provide the trustee with your voting instructions, the trustee will not vote on your behalf.

How Proxies Work

Our Board of Directors is asking for your proxy. Giving us your proxy means you authorize us to vote your shares at the meeting in the manner you direct. You may abstain from voting from any of the proposals. With respect to the nominees proposed to be elected at the meeting, you may vote for all, some or none of our director candidates. However, if you sign your proxy card but do not provide instructions, we will vote your shares in favor of the director candidates.

Proposals You Are Asked To Vote On and the Board's Voting Recommendation

If you properly fill in your proxy card and send it to us in time to vote, or vote by the Internet or telephone, one of the individuals named on your proxy card will vote your shares as your proxy and as you have directed. If you sign the proxy card but do not make specific choices, your proxy will follow the Board's recommendations and vote your shares:

FOR the adoption of an amendment to our Certificate of Incorporation to declassify the Board of Directors, and if the amendment to our Certificate of Incorporation to declassify the Board of Directors has been adopted and following the filing of the amendment to our Certificate of Incorporation to declassify the Board of Directors with the Secretary of State of the State of Delaware, FOR the removal of each of the directors of the Company without cause such that the terms of all directors expire at the 2010 annual meeting, and FOR the election of the Declassified Board Nominees (as defined herein), each to serve a one-year term ending on the date of the 2011 annual meeting (see Proposal 1 Adoption of Amendment to Certificate of Incorporation to Declassify the Board of Directors, the Removal of All Directors without Cause and the Election of Declassified Slate of Directors).

Table of Contents

If the above proposal to declassify our Board of Directors is not approved at the shareholder meeting, FOR the election of three Board nominees to serve as Class III directors for a three-year term expiring on the date of the 2013 annual meeting of shareholders (see Proposal 2 Election of Class III Directors Only if Proposal 1 Is Not Approved).

FOR ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current year (see Proposal 3 Ratification of the Selection of PricewaterhouseCoopers LLP as Our Independent Registered Public Accounting Firm).

If any other matter is properly presented at the meeting, your proxy will vote in accordance with the best judgment of the individual voting your shares as your proxy. At the time this proxy statement went to press, we knew of no other matters to be acted on at the meeting.

Vote Necessary to Approve Proposals

Assuming the presence of a quorum in person or by proxy at the annual meeting, the adoption of the proposed amendment to our Certificate of Incorporation to declassify the Board of Directors, or Proposal 1a, requires the affirmative vote by the holders of two-thirds of the voting power of all the outstanding shares of common stock of the Company entitled to vote generally in the election of directors. Abstentions and broker nonvotes will have the effect of a vote against this proposal.

If the shareholders of the Company adopt the amendment to our Certificate of Incorporation to declassify the Board of Directors above, the proposal to remove all of the directors of the Company without cause, or Proposal 1b requires the affirmative vote by the holders of a majority of the voting power of all the outstanding shares of capital stock of the Company entitled to vote generally in the election of directors. Abstentions and broker nonvotes will have the effect of a vote against this proposal.

Directors are elected by a plurality, and the nominees who receive the most votes will be elected. If the shareholders of the Company adopt the amendment to our Certificate of Incorporation to declassify the Board of Directors above, the nine nominees receiving the most votes will be elected to the Board of Directors to serve terms ending at our 2011 Annual Shareholders Meeting. If the shareholders of the Company do not adopt the amendment to our Certificate of Incorporation to declassify the Board of Directors, under Proposal 2 the three Class III director nominees with the most votes will be elected as Class III directors to serve terms ending at our 2013 Annual Shareholders Meeting. Abstentions and broker nonvotes will not be taken into account in determining the outcome of the election. We did not receive any nominations from any shareholders.

Approval of the ratification of the selection of our independent registered public accounting firm requires the affirmative vote of the majority of the shares of common stock present or represented by proxy with respect to such proposal. For the proposal ratifying the selection of our independent registered public accounting firm, abstentions are treated as shares present or represented and voting, so abstaining has the same effect as a negative vote.

Under current New York Stock Exchange (NYSE) rules, if your broker holds your shares in its name, your broker is not permitted to vote your shares on Proposals 1a, 1b, 1c and 2 if it does not receive voting instructions from you. Accordingly, such broker nonvotes will have the effect of a vote against these proposals.

Revoking Your Proxy

You may revoke your proxy by: (1) sending in another signed proxy card with a later date; (2) providing subsequent Internet or telephone voting instructions; (3) notifying our Secretary in writing before the meeting that you have revoked your proxy; or (4) voting in person at the meeting.

Proxy Solicitation Costs

The Company will bear the costs of soliciting proxies.

PROPOSAL 1

**ADOPTION OF AMENDMENT TO
CERTIFICATE OF INCORPORATION
TO DECLASSIFY THE BOARD OF DIRECTORS,
THE REMOVAL OF ALL DIRECTORS WITHOUT CAUSE
AND THE ELECTION OF DECLASSIFIED SLATE OF DIRECTORS**

Introduction

Clause (c) of Article Eighth of the Certificate of Incorporation of the Company establishes three (3) classes of Directors (Class I, Class II and Class III) with terms of three years each. Generally, absent the earlier resignation or removal of a Class member, the terms of the classes are staggered and one Class stands for re-election at each annual meeting of shareholders. Our Governance Committee has recommended to the Board, and a majority of the Board approved and declared advisable, and is submitting to a vote of the shareholders, an amendment to the Certificate of Incorporation to declassify the Board, remove the class designations for each of the director's terms and institute annual voting for each director to serve a one-year term as set forth on Annex A hereto (the "Declassification Amendment"). In the event the Declassification Amendment is adopted by the shareholders at the annual meeting, we will postpone the annual meeting until such time as the Declassification Amendment has been filed with the Secretary of State of the State of Delaware. As soon as practical after the filing of the Declassification Amendment, we will resume the annual meeting to consider the following proposals.

Our Governance Committee has further recommended to the Board, and a majority of the Board approved, and is submitting to a vote of the shareholders as soon as practical after the Declassification Amendment has been filed with the Secretary of State of the State of Delaware, a proposal to (i) remove all directors serving on the Board without cause such that the terms of all directors expire at the 2010 annual meeting and (ii) elect nominees for such declassified Board, each to serve a one-year term ending on the date of the 2011 annual meeting. The Board has proposed a slate of nine nominees for such declassified Board, each to serve a one-year term (the "Declassified Board Nominees") ending on the date of the 2011 annual meeting.

Recommendation of the Board of Directors

*The Board of Directors recommends that you vote **FOR** the adoption of the Declassification Amendment, and if the Declassification Amendment has been adopted and following the filing of the Declassification Amendment with the Secretary of State of the State of Delaware, **FOR** the removal of each of the directors of the Company without cause such that the terms of all directors expire at the 2010 annual meeting and **FOR** the election of the Declassified Board Nominees, each to serve a one-year term ending on the date of the 2011 annual meeting, which proposals are designated as Proposals 1a, 1b and 1c, respectively, on the enclosed proxy card.*

Declassification Amendment

The Board believes that shareholders should have the opportunity to vote on all directors each year and that elimination of the classified board structure will both enhance the Company's corporate governance practices and be an effective way to maintain and enhance the accountability of the Board. Under our current classified board structure, a majority of the Board may be replaced only after at least two annual elections. Under a declassified board structure, the entire Board may be replaced each year. If the shareholders adopt the Declassification Amendment, each Declassified Board Nominee who is elected at the 2010 annual meeting will be elected for a one-year term that will

expire on the date of the 2011 annual meeting.

The Declassification Amendment has been approved by a majority of the members of the Board. Assuming the presence of a quorum in person or by proxy at the annual meeting, the adoption of the Declassification Amendment requires the affirmative vote by the holders of two-thirds of the voting power of all the outstanding shares of capital stock of the Company entitled to vote generally in the election of directors. Abstentions and broker nonvotes will have the effect of a vote against this proposal.

If the Declassification Amendment is adopted, our Certificate of Incorporation would be amended as set forth in Annex A hereto.

Table of Contents

Removal of Directors without Cause if the Declassification Amendment Is Adopted

If the shareholders adopt the Declassification Amendment, we will adjourn the annual meeting until such time as the Declassification Amendment has been filed with the Secretary of State of the State of Delaware. As soon as practical after the filing of the Declassification Amendment, we will reconvene the annual meeting to consider the following proposals.

Generally, absent the earlier resignation or removal of a Class member, the terms of the classes are staggered and one Class stands for re-election at each annual meeting of shareholders. The term of each Class I director expires on the date of the 2011 annual meeting of shareholders, the term of each Class II director expires on the date of the 2012 annual meeting of shareholders and the term of each Class III director expires on the date of the 2010 annual meeting of shareholders. In connection with the adoption of the Declassification Amendment, the Board has nominated a slate of directors, each to serve a one-year term beginning on the date of the annual meeting, in the proposal below entitled

Declassified Board Nominees. In order to provide that all directors serve one-year terms ending on the date of the 2011 annual meeting, the shareholders will be required to remove all of the current directors of the Company such that their terms expire as of the date of the 2010 annual meeting.

Our Governance Committee has recommended to the Board, and a majority of the Board approved, and is submitting to a vote of the shareholders a proposal to remove all directors serving on the Board without cause such that the terms of all directors will expire on the date of the 2010 annual meeting. Assuming the presence of a quorum in person or by proxy at the annual meeting, the adoption of this proposal requires the affirmative vote by the holders of a majority of the voting power of all the outstanding shares of capital stock of the Company entitled to vote generally in the election of directors. Abstentions and broker nonvotes will have the effect of a vote against this proposal.

If the shareholders do not adopt the Declassification Amendment, our Certificate of Incorporation will continue to provide for a classified Board of Directors. Under Delaware Law and our current Certificate of Incorporation of the Company, the shareholders do not have the authority to remove directors without cause. Accordingly, without the adoption of the Declassification Amendment, this Proposal 1b will have no effect and will be superseded by Proposal 2.

Declassified Board Nominees

The Board has voted to nominate Howard I. Atkins, Leslie Stone Heisz, John R. Ingram, Orrin H. Ingram II, Dale R. Laurance, Linda Fayne Levinson, Michael T. Smith, Gregory M.E. Spierkel, and Joe B. Wyatt for election at the annual meeting, provided that the Declassification Amendment is adopted.

Unless authority to vote for any of these nominees is withheld, the shares represented by the enclosed proxy will be voted **FOR** the election of each of the Declassified Board Nominees as directors. In the event that any nominee becomes unable or unwilling to serve, the shares represented by the enclosed proxy will be voted for the election of such other person as the Board may recommend in his or her place. We have no reason to believe that any nominee will be unable or unwilling to serve as a director.

Directors are elected by a plurality, and the nine nominees who receive the most votes will be elected. Abstentions and broker nonvotes will not be taken into account in determining the outcome of the election. We did not receive any nominations from any shareholders.

If the shareholders do not adopt the Declassification Amendment, our Certificate of Incorporation will continue to provide for a classified Board of Directors. Accordingly, this proposal will have no effect and will be superseded by Proposal 2.

Set forth below are each Declassified Board Nominee's name and age as of the Annual Meeting date and his or her principal occupation, business history and public company directorships held during the past five years. All of our nominees are seasoned leaders who bring to the Board a vast array of public company, financial services, private company, public sector, and other business experience, the majority as senior executives in industries different from that of Ingram Micro. Each has been chosen to stand for election in part because of his or her ability and willingness to ask difficult questions, understand Ingram Micro's challenges and evaluate the strategies proposed by

Table of Contents

management, as well as their implementation. Each of the nominees has a long record of professional integrity, a dedication to his or her profession, a strong work ethic that includes coming fully prepared to meetings and being willing to spend the time and effort needed to fulfill one's professional obligations, the ability to maintain a collegial environment, and the experience of having served as a board member of a sophisticated global company. Specific experience, qualifications, attributes and skills of each nominee are described in each nominee's biography below.

experience on audit committees of other public companies, Mr. Smith brings strong accounting and financial skills important in the understanding and oversight of our financial reporting and corporate governance matters.

Gregory M.E. Spierkel

Director since June 2005

Mr. Spierkel, age 53, has been our Chief Executive Officer since June 2005. He previously served as President from March 2004 to June 2005, as Executive Vice President and President of Ingram Micro Europe from June 1999 to March 2004, and as Senior Vice President and President of Ingram Micro Asia-Pacific from July 1997 to June 1999. Prior to joining Ingram Micro, Mr. Spierkel was Vice President of Global Sales and Marketing at Mitel Inc., a manufacturer of telecommunications and semiconductor products, from March 1996 to June 1997 and was President of North America at Mitel from April 1992 to March 1996. Mr. Spierkel is a member of the Board of Directors of PACCAR. As a seasoned executive and chief executive officer of Ingram Micro, Mr. Spierkel brings in-depth knowledge of Ingram Micro business operations and strategy that is important to the Board's oversight of long-term strategy, succession planning, enterprise risk management, compensation and corporate governance practices for the Company.

Joe B. Wyatt

Director since October 1996

Mr. Wyatt, age 74, has been Chancellor Emeritus of Vanderbilt University in Nashville, Tennessee, since his retirement as Chancellor of Vanderbilt University, a position that he held from 1982 to 2000. Mr. Wyatt has also been a principal of The Washington Advisory Group since August 2000. Mr. Wyatt was previously a Director of Ingram Industries from April 1990 through October 1996. He also serves as Chairman of the Universities Research Association. He previously served on the Board of Directors of Hercules Incorporated from August 2001 to November 2008 and El Paso Corporation from October 1999 to May 2009. As one of the Company's most tenured directors, and as former chair of our Audit Committee for many years, Mr. Wyatt provides a focused historical perspective of the Board and the Company, and deep understanding of Ingram Micro's business and operations, corporate governance, enterprise risk management and financial accounting requirements.

PROPOSAL 2

**ELECTION OF CLASS III DIRECTORS
ONLY IF PROPOSAL 1 IS NOT APPROVED**

PROPOSAL 2 WILL NOT BE ADOPTED IF SHAREHOLDERS APPROVE PROPOSAL NO. 1.

Recommendation of the Board of Directors

*The Board of Directors recommends that you vote **FOR** the election of each of the nominees for election as directors described below, which proposal is designated as Proposal 2 on the enclosed proxy card.*

Our Certificate of Incorporation currently provides for a classified Board of Directors. Each person elected as a Class III director at the annual meeting will serve a three-year term expiring on the date of the 2013 annual meeting of shareholders. Our Board has nominated ONLY in the event Proposal No. 1 is **NOT APPROVED** and the Board remains classified Orrin H. Ingram II, Michael T. Smith, Gregory M.E. Spierkel and Joe B. Wyatt for election at the annual meeting. We did not receive any nominations from any shareholders.

Unless authority to vote for any of these nominees is withheld, the shares represented by the enclosed proxy will be voted **FOR** the election of Orrin H. Ingram II, Michael T. Smith, Gregory M.E. Spierkel and Joe B. Wyatt as Class III directors. In the event that any nominee becomes unable or unwilling to serve, the shares represented by the enclosed

proxy will be voted for the election of such other person as the Board may recommend in his or her place. We have no reason to believe that any nominee will be unable or unwilling to serve as a director.

Directors are elected by a plurality, and the four nominees who receive the most votes will be elected. Abstentions and broker nonvotes will not be taken into account in determining the outcome of the election.

As an experienced board member with complex global companies, Mr. Schulmeyer brings strong accounting and financial skills important in the understanding and oversight of our financial reporting and enterprise risk management matters.

If Proposal 1 is approved by the shareholders, this Proposal 2 will not be adopted, notwithstanding shareholder approval, as it will be superseded by Proposal 1 and will not be necessary.

BOARD OF DIRECTORS

The Board of Directors held nine meetings during fiscal year 2009. All directors attended more than 75% of the total number of meetings of the Board and the committees on which he or she served in 2009. The Board and its committees regularly hold executive sessions of non-management directors without management present. As a matter of policy, directors are encouraged and expected to attend the annual meeting of shareholders. All directors, with the exception of Martha Ingram (who retired from the Board effective June 3, 2009), attended Ingram Micro's 2009 annual meeting of shareholders on June 3, 2009.

Compensation of Board of Directors

Ingram Micro pays directors who are not employed by the Company (non-management directors) an annual award which may consist of a combination of cash, stock options or restricted stock/restricted stock units and meeting fees for attending meetings of the Board and Board committees on which they serve.

Annual Award. The mix of cash, stock options and restricted stock/restricted stock units for the annual award must be selected by each non-management director before December 31 of each year prior to the start of the new

Table of Contents

calendar year or within 30 days of initial appointment or election to the Board, as the case may be. If a Board member does not file an election form with respect to a calendar year by the specified date, the Board member will be deemed to have elected to receive the compensation in the manner elected by the Board member in his or her last valid election, or if there had been no prior election, will be deemed to have elected to receive the eligible compensation in the form of nonqualified stock options. The award is prorated for partial year service. In addition, the mix of cash, stock options and restricted stock/restricted stock units for the annual award is subject to the following assumptions and restrictions:

Cash. If cash is selected as a component of compensation, the amount that may be selected by directors other than Committee Chairs and the non-executive Chairman of the Board ranges from \$0 to \$70,000. Committee Chairs are paid a minimum of \$15,000 cash and may elect a maximum amount of \$85,000. The Audit Committee Chair is paid a minimum of \$20,000 in cash and may elect a maximum of \$90,000. The non-executive Chairman of the Board (NEC) may select cash compensation ranging from \$0 to \$170,000. Board members are allowed to defer 100% of their cash compensation in accordance with Section 409A (Section 409A) of the Internal Revenue Code of 1986, as amended (the Code) and Department of Treasury regulations and other interpretive guidance issued thereunder.

Equity-based Compensation. Equity-based compensation must be selected as a component of compensation. The equity-based compensation may consist of stock options, restricted stock/restricted stock units or a combination thereof and must have a value of at least \$110,000 (\$260,000 for the NEC). The sum of the cash retainer and the value of the equity-based compensation selected may not exceed \$180,000 (\$195,000 for Committee Chairs, \$200,000 for the Audit Committee Chair and \$430,000 for the NEC).

Option Awards. Options are granted as nonqualified stock options at the time of the annual stock option grant made to our management each year (the management grant date). For 2009 awards, the management grant date was March 2, 2009 and number of options granted was based on the dollar value of the amount of stock options selected, divided by the value per share of the Company's stock utilizing the closing price on the 15th of the month prior to grant date as the stock value to determine the appropriate Black-Sholes value per option, rounded up to the next whole share. The value per share was determined in accordance with Statement of Financial Accounting Standards No. 123R, Share-Based Payment (ASC 718). The options have an exercise price equal to the closing price of our common stock on the NYSE on the date of grant, vest one-tenth per month and have a term of ten years less one day.

Restricted Stock/Restricted Stock Units. Restricted stock/restricted stock units are also granted on the management grant date. The number of shares granted are equal to the dollar value of the amount of restricted stock selected divided by the closing price of our common stock on the NYSE on the date of grant rounded up to the next whole share. Restrictions on the shares granted in 2009 lapsed on December 31, 2009. Restricted stock units may be deferred in accordance with Section 409A and Department of Treasury regulations and other interpretive guidance issue thereunder.

Meeting Fees. Meeting fees were suspended in 2009.

2009 Compensation of Non-Management Directors. The following table lists the 2009 non-management director compensation which is comprised of: (1) an annual Board retainer payable in cash, stock options, restricted stock, restricted stock units or a combination thereof, based on each Board member's election and (2) additional compensation for the non-executive Chairman of the Board and for Committee Chairs. The Board suspended the payment of meeting fees for attendance at meetings of the Board and Board committees in 2009.

- (1) Since the information required to be disclosed under these columns are the amounts equal to the grant date fair value of the awards determined pursuant to ASC 718, these amounts may not conform to the exact dollar value of equity awards selected by our Board members. See notes 2 and 12 to Ingram Micro's consolidated financial statements on our Company's Annual Report on Form 10-K for the fiscal year ended January 2, 2010, which was filed with the SEC on March 2, 2010, for a discussion of the estimated forfeiture rate which is not required to be taken into account for these ASC 718 values. Unless noted otherwise, restricted stock or restricted stock units disclosed under "Stock Awards" were granted on March 2, 2009 and restrictions lapsed on December 31, 2009. The closing price of Ingram Micro stock on March 2, 2009 was \$10.62. Stock options disclosed under "Option Awards" were granted on March 2, 2009 with an exercise price of \$10.62 per share, vest one-tenth per month over a ten-month period commencing March 2, 2009 and expire ten years less one day from grant date. The \$3.11 per share fair value of the March 2, 2009 stock option award was determined in accordance with ASC 718 using a Black-Scholes model and the following assumptions: stock price volatility of 31.8%; expected option life of 4.5 years; dividend yield of 0%; and risk free interest rate of 1.72%.
- (2) Mr. Atkins was eligible to receive annual Board compensation in the amount of \$180,000, of which he elected to receive \$70,000 in cash and \$110,000 in restricted stock. The cash portion was paid in four equal quarterly installments.
- (3) Ms. Heisz was eligible to receive annual Board compensation in the amount of \$191,667 (\$11,667 more than non-chair Board members due to her service as Chair of the Audit Committee commencing June 2009) of which she elected to receive \$81,667 in cash and \$110,000 in restricted stock units. Ms. Heisz deferred receipt of restricted stock units until she retires from the Board. The cash portion was paid in four equal quarterly installments.

- (4) Mr. J. Ingram was eligible to receive annual Board compensation in the amount of \$180,000, of which he elected to receive \$70,000 in cash and \$110,000 in stock options. The cash portion was paid in four equal quarterly installments.
- (5) Mrs. Ingram retired from the Board on June 3, 2009 and was eligible to receive annual Board compensation in the amount of \$75,000, of which she elected to receive \$29,167 in cash and \$45,833 in stock options. The cash portion was paid in two installments.
- (6) Mr. O. Ingram was eligible to receive annual Board compensation in the amount of \$180,000, of which he elected to receive \$70,000 in cash and \$110,000 in stock options. The cash portion was paid in four equal quarterly installments.
- (7) Dr. Laurance was eligible to receive annual Board compensation in the amount of \$430,000 (\$250,000 more than non-chair members due to his service as Chairman of the Board), of which he elected to receive \$430,000 in restricted stock units. Dr. Laurance deferred receipt of his restricted stock units until his retirement from the Board.
- (8) Ms. Fayne Levinson was eligible to receive annual Board compensation in the amount of \$195,000 (\$15,000 more than non-chair Board members due to her service as Chair of the Human Resources Committee), of which she elected to receive \$85,000 in cash and \$110,000 in restricted stock units. The cash portion of Ms. Fayne Levinson's annual Board compensation was paid in four quarterly installments. Ms. Levinson elected to defer receipt of her restricted stock units until January 30, 2011.
- (9) Mr. Schulmeyer was eligible to receive annual Board compensation in the amount of \$191,250 (\$11,250 more than non-chair Board members due to his service as Chair of the Executive and Finance Committee through September 2009). Mr. Wyatt elected to receive \$75,000 in cash and \$120,000 in stock options. The cash portion was paid in four equal quarterly installments.

Stock Ownership Requirement. Each director is required to achieve and maintain ownership of at least 15,000 shares of our common stock (with vested but unexercised stock options counted as owned shares) beginning five years from the date of his or her election to the Board. All current directors meet this stock ownership requirement.

Other Information. Each director is also reimbursed for expenses incurred in attending meetings of the Board and Board committees. Each director is also able to elect to defer his or her cash compensation through a nonqualified deferral plan. Directors who defer cash compensation may elect to have earnings, or losses, credited to their deferrals as if their deferrals were invested in the various investment options available under the Company's Supplemental Investment Savings Plan, a nonqualified deferred compensation plan (Supplemental Plan). Directors are not credited with above-market or preferential interest.

Committees of the Board of Directors

Our Board of Directors has standing Audit, Executive, Governance and Human Resources Committees. The Board Committees frequently meet in executive session with no members of management present. Copies of the charters for each of these Committees are available by using the Investor Relations and then Corporate Governance links on the Company's website at www.ingrammicro.com. The following table lists members of the Committees as of the date of the Proxy Statement.

Audit Committee 12 meetings in 2009. The Audit Committee assists our Board's oversight of (1) the integrity of our financial reporting processes, financial statements and systems of internal controls regarding finance, accounting, legal and ethical compliance, (2) our compliance with legal and regulatory requirements, (3) the independence and qualification of our independent registered public accounting firm and (4) the performance of our independent auditors and internal audit department. In addition, the Audit Committee is charged with providing an avenue of open communication among our independent registered public accounting firm, management, our internal audit department, and our Board. The Audit Committee also appoints our independent registered public accounting firm, discusses and reviews in advance the scope of and the fees to be paid in connection with the annual audit and reviews the results of the audit with our independent registered public accounting firm, reviews our compliance with applicable major accounting and financial reporting policies, reviews the adequacy of our financial organization, reviews management's procedures and policies relating to the adequacy of our internal accounting controls and compliance with applicable laws relating to accounting practices and reviews our draft annual report on Form 10-K, quarterly reports on Form 10-Q, and annual financial statements and other key accounting and/or reporting matters, and the activities and recommendations of our internal audit department. The Audit Committee discusses the Company's earnings press releases, as well as financial information and earnings guidance provided to

analysts and rating agencies. A detailed list of the Audit Committee's functions is included in its charter, which can be accessed by using the Investor Relations and then Corporate Governance links on the Company's website at www.ingrammicro.com.

Executive Committee – No meetings in 2009. The Board established the Executive Committee in 2009. The purpose of the Executive Committee is to act when necessary on behalf of the full Board between regularly scheduled Board meetings, usually when timing is critical. The Executive Committee has and may exercise all of the powers and authority of the Board, subject to such limitations as the Board and/or applicable law may from time to time impose. A detailed list of the Executive Committee's functions is included in its charter, which can be accessed by using the Investor Relations and then Corporate Governance links on the Company's website at www.ingrammicro.com.

Governance Committee – Five meetings in 2009. The Governance Committee is responsible for developing and recommending to the Board a set of corporate governance principles applicable to the Company, and thereafter recommending such changes as it deems appropriate to maintain effective corporate governance. In addition, the Governance Committee is responsible for identifying candidates for election to the Board of Directors, developing and reviewing background information for candidates, making recommendations to the Board regarding such candidates, reviewing and making recommendations to the Board with respect to candidates for directors proposed by shareholders, and recommending the members of Board committees, as well as Board committee chair positions for election by the Board. The Governance Committee also reviews and recommends for consideration and approval by the Board the form and amounts of compensation for non-management directors, including equity-based awards, and oversees the annual self-evaluations of the Board and its committees, as well as director performance and board dynamics. A detailed list of the Committee's functions is included in its charter, which can be accessed by using the Investor Relations and then Corporate Governance links on the Company's website at www.ingrammicro.com.

Human Resources Committee – Eight meetings in 2009. The Human Resources Committee, comprised of independent directors, assists the Board in overseeing and establishing the compensation of all executive officers and administering all stock-related and long-term executive incentive plans applicable to management. The Human Resources Committee reviews and reports to the Board on our key strategic and operational human resource issues, ensuring that investments in human assets provide maximum return to all partners – shareholders, associates, customers, and vendors. The Committee's oversight areas include executive compensation strategy, succession planning processes and key leader succession planning, and work environment assessment and improvement. A detailed list of the Human Resources Committee's functions is included in its charter and can be accessed by using the Investor Relations and then Corporate Governance links on the Company's website at www.ingrammicro.com.

Outside Advisors to the Human Resources Committee. The Human Resources Committee's executive compensation advisor in 2008 and 2009 was Frederic W. Cook & Co., Inc. (Cook), an executive compensation consulting firm which reports solely to the Human Resources Committee. No member of the Human Resources Committee or of management has any affiliation with Cook. The Human Resources Committee periodically seeks input from Cook on a range of external market factors, including evolving executive compensation trends and general observations on the Company's executive compensation programs. Cook also advises the Governance Committee of the Board of Directors on Board compensation matters for non-executive Board members. Cook provides no other services to the Company.

Management Input to the Human Resources Committee. The Human Resources Committee frequently requests management to assist in accomplishing its work, including requests for specific analyses to assist with decision making. The Ingram Micro Human Resources, Finance, and Legal departments work with the Human Resources Committee Chair to help set meeting agendas and to coordinate the distribution of materials to the Committee in advance of its meetings. Generally, our CEO, President and

Chief Operating Officer, Senior Executive Vice President and Chief Financial Officer, Executive Vice President, Secretary and General Counsel, and Executive Vice President of Human Resources attend Committee meetings. Management does not make any recommendations to the Human Resources Committee on compensation of the CEO. In addition, no members of management are present during the Human Resources Committee's deliberations on CEO compensation. The Human

Resources Committee frequently meets in executive session with no members of management present.

Human Resources Committee Meetings. Generally, at the first Human Resources Committee meeting of each fiscal year, the following actions are reviewed and approved:

The Performance Share Program (performance-vesting restricted stock units) design and metrics for the performance measurement period (three-year or less) commencing with the current fiscal year. Actual threshold, target, and maximum performance goals are established by the Committee based on the Company's three-year strategic plan approved by our Board of Directors and various historical external market comparison factors.

The equity vehicles and equity award values to be granted for each executive officer and our CEO on the first trading day of March in the current fiscal year.

The actual number of each type of equity (stock options and/or performance-vesting restricted stock units) to be awarded is determined by procedures and calculations previously adopted by the Human Resources Committee.

Generally, at the last Human Resources Committee meeting of each fiscal year, the following actions are approved or reviewed:

Base pay levels for the executive officers and our CEO to be effective the first full pay period of the next fiscal year.

The general design and metrics for the annual Executive Incentive Award Program (annual bonus) for the next fiscal year and the target incentive award value for each executive officer as a percentage of their base salary paid during the fiscal year. Actual threshold, target, and maximum performance goals are determined by the Human Resources Committee early in the new fiscal year following approval of the Company's annual operating plan by our Board of Directors.

Compensation Committee Interlocks and Insider Participation. None of the members of the Human Resources Committee had any interlock relationship to report during our fiscal year ended January 2, 2010.

Executive and Finance Committee. In 2009, the Board, on the recommendation of the Governance Committee, disbanded the Executive and Finance Committee, and reallocated its former duties among the new Executive Committee, the Audit Committee and the full Board.

Corporate Governance

Code of Conduct. Our code of conduct applies to all members of the Board of Directors, all executives of the Company and all other Ingram Micro associates and codifies our commitment to the highest standards of corporate governance. If we make any amendment to the code of conduct or grant any waiver, including any implicit waiver, from a provision of the code of conduct to our Chief Executive Officer, Chief Financial Officer or Controller, we will disclose the nature of the amendment or waiver at www.ingrammicro.com or on a current report on Form 8-K.

Corporate Governance Guidelines. Effective corporate governance that ensures management follows the highest ethical standards is not a new concept to the Company. It is an important principle that is embraced at all levels of the

Company, beginning with how our Board operates and in our Corporate Governance Guidelines (the Guidelines). Members of our Board of Directors are kept informed about our business through discussions with the Chief Executive Officer, President and Chief Operating Officer, Chief Financial Officer and other key members of management, by reviewing materials provided to them, and by participating in meetings of the Board of Directors and its committees. Our Board members provide feedback to management on a regular basis and meet in executive session, without any members of management, at each regular meeting.

The Guidelines address important corporate governance policies and procedures, including those relating to (1) composition of the Board and membership criteria; (2) director qualifications (such as independence, simultaneous service on other Boards and conflicts of interests); (3) Board member responsibilities (including attendance

Table of Contents

at annual shareholder meetings); (4) establishment of Board agenda; (5) establishment of a lead director position; (6) regularly scheduled meetings of non-management Board members; (7) Board size; (8) Board committees; (9) Board member access to management and independent advisors; (10) director compensation; (11) director orientation and continuing education; (12) management evaluation and management succession; and (13) annual performance evaluation of the effectiveness of the Board and its committees.

Our Board expects to consider further amendments to the Guidelines from time to time as rules and standards are revised and/or finalized by various regulatory agencies, including the SEC and the NYSE, and to address any changes in our operations, organization or environment.

Board Leadership Structure. The positions of Chairman of the Board and Chief Executive Officer of the Company have been separated since June 2005. We believe this leadership structure is appropriate at this time because it allows the Company to fully benefit from the leadership ability, industry experience and history with the Company that each of these individuals possess. The Guidelines further provide that non-management directors shall choose a Lead Director when the Chairman of the Board is not independent of management and that the Chairman of the Board shall perform the duties of the Lead Director when the Chairman is independent of management. As non-executive Chairman of the Board, Dr. Laurance is our Lead Director and as such, presided at executive sessions of the Company's non-management directors since his election as Chairman on June 6, 2007.

Board's Role in Risk Oversight. Management, which is responsible for day-to-day risk management, continually monitors the material enterprise risks facing the Company, including strategic risks, operational risks, financial risks and legal and compliance risks. Management has, since 2007, conducted an annual risk assessment of our business through an Enterprise Risk Management (ERM) process to assist the Board in conducting its oversight of the Company's risks. The ERM risk assessment process is global in nature and has been developed to identify and assess the Company's risks, including inherent risks of our business, as well as to identify steps to mitigate and manage risks.

The Board of Directors is responsible for exercising oversight of management's identification and management of, and planning for, those risks. The Board has delegated to certain Committees oversight responsibility for those risks that are directly related to their area of focus (see descriptions of our Audit Committee, Human Resources Committee and Governance Committee's areas of responsibilities discussed under Audit Committee, Human Resources Committee and Governance Committee above). The Board and its Committees exercise their risk oversight function by carefully evaluating the reports they receive from management and by making inquiries of management with respect to areas of particular interest to the Board. Board oversight of risk is enhanced by the fact that our Chairman of the Board attends virtually all Committee meetings and that Committee reports are provided to the full Board following each regular quarterly Committee meeting. In addition the full Board receives periodic updates and in-depth information specifically related to the Company's enterprise risk management.

Information on Compensation Risk Assessment. At the request of the Human Resources Committee of the Board of Directors, management conducted an extensive audit and review of the Company's incentive compensation programs at all levels within the organization. The results of this study were reviewed by the Human Resources Committee and the Human Resources Committee's independent advisor, Frederic W. Cook & Co., Inc. Based on the findings of this study, the Human Resources Committee believes that risks arising from the Company's compensation policies and programs are not reasonably likely to have a material adverse effect on the Company.

Independence Determination for Directors

The Board of Directors adopted director independence standards as part of the Guidelines. These Guidelines include the independence requirements of the NYSE Listing Standards. Pursuant to the Guidelines, the Board undertook its annual review of director independence in March 2010. During this review, the Board considered any transactions and

relationships between each director or any member of his or her immediate family and the Company and its subsidiaries and affiliates, including holdings of stock of the Company by John and Orrin Ingram and certain arm s-length commercial relationships between Ingram Micro and Wells Fargo (where Mr. Atkins serves as Chief Financial Officer), which are immaterial in amount and nature to both Wells Fargo and Ingram Micro and did not create conflicts of interests under Ingram Micro s Code of Conduct, relating to (i) a sublease between Ingram Micro Canada and a Wells Fargo subsidiary in Canada, (ii) ordinary course lease financing

provided by a Wells Fargo finance subsidiary to certain of Ingram Micro's end-user customers pursuant to which Ingram Micro U.S. has received immaterial customary referral fees, (iii) customary factoring fees paid to a Wells Fargo subsidiary in 2007 and 2008, (iv) immaterial bank fees to Wachovia Bank, a subsidiary of Wells Fargo for certain bank accounts for a North American business division, and (iv) immaterial payments to Wells Fargo for cash management services and trust and custodial services. The Board also considered Ms. Heisz's position as a managing director at Lazard Freres & Co. and the ownership of Ingram Micro common stock by Lazard Asset Management LLC, together with Ms. Heisz's representation that she had no investment authority, or decision-making responsibility, with respect to Lazard Asset Management LLC's position in Ingram Micro common stock.

The purpose of this review was to determine whether any such relationships or transactions were inconsistent with a determination that the director is independent.

As a result of this review, the Board determined that all of the directors nominated for election at the annual meeting, as well as all other directors serving on the Board are independent of the Company and its management under the standards set forth in the Guidelines, as well as under Audit Committee independence requirements of the SEC and the NYSE, with the exception of Gregory Spierkel. Mr. Spierkel is considered an inside director because of his current employment as a senior executive of the Company. All of the members of the Human Resources, Audit and Governance Committees are independent.

Audit Committee Financial Qualifications

Our Board of Directors has determined that each member of the Audit Committee: (1) meets the independence criteria prescribed by applicable law and rules of the SEC for Audit Committee membership and (2) is an independent director within the meaning of NYSE listing standards and the standards established by the Company. Each member of the Audit Committee also meets the NYSE's financial literacy requirements. No member of our Audit Committee serves on more than three audit committees of public corporations.

In addition, the Board of Directors has designated each of Michael Smith, Leslie Heisz and Howard Atkins as an audit committee financial expert as such term is defined in Item 407(d)(5)(ii) of Regulation S-K promulgated by the SEC. The Board has also determined that they meet the NYSE's accounting or related financial management expertise requirements through experience gained, for Mr. Smith, in previous positions as former Chairman of the Board and Chief Executive Officer of Hughes Electronics Corporation, Vice Chairman of Hughes Electronics and Chairman of Hughes Aircraft Company, as Senior Vice President and Chief Financial Officer of Hughes Electronics, and in nearly 20 years with General Motors Corporation in a variety of financial management positions; for Ms. Heisz, as an experienced investment banking and finance executive, and currently as a managing director of the Los Angeles office of Lazard Freres & Co., where she provides strategic financial advisory services for clients in a variety of industries, as managing director of the Los Angeles office of Dresdner Kleinwort Wasserstein (and its predecessor Wasserstein Perella & Co.) for six years, specializing in mergers and acquisitions as well as leveraged finance, as a vice president at Salomon Brothers, and as a senior consultant at Price Waterhouse; and for Mr. Atkins, as a seasoned finance and accounting executive, including in his current role as Senior Executive Vice President and Chief Financial Officer of Wells Fargo & Company in San Francisco, California, in his prior roles as Executive Vice President and Chief Financial Officer of New York Life Insurance Company in New York and as Executive Vice President and Chief Financial Officer of New Jersey-based Midlantic Corporation.

Director Nominations

General Criteria and Process. In identifying and evaluating director candidates, the Governance Committee does not set specific criteria for directors. As expressed in the Governance Committee charter, in nominating candidates, the Governance Committee shall comply with the requirements of the Company's Bylaws and take into consideration such

other factors as it deems appropriate. These factors may include judgment, skill, diversity, experience with businesses and other organizations of comparable size, the interplay of the candidate's experience with the experience of other Board members, and the extent to which the candidate would be a desirable addition to the Board and any committees of the Board. The Governance Committee may use and pay for assistance from consultants, including obtaining background checks, and advice from outside counsel, to assist its review and evaluation.

Table of Contents

In evaluating candidates, the Governance Committee considers a wide variety of qualifications, attributes and other factors and recognizes that a diversity of viewpoints and practical experiences can enhance the effectiveness of the Board. Accordingly, as part of its evaluation of each candidate, the Governance Committee takes into account how that candidate's background, experience, qualifications, attributes and skills may complement, supplement or duplicate those of other prospective candidates.

Shareholder Nominations. Shareholders who wish to recommend nominees for consideration by the Governance Committee may submit their nominations in writing to our Corporate Secretary at the address set forth below under Annual Report. The Governance Committee may consider such shareholder recommendations when it evaluates and recommends nominees to the Board of Directors for submission to the shareholders at each annual meeting. In addition, shareholders may nominate directors for election by complying with the eligibility, advance notice and other provisions of the policy. Under the policy, the shareholder must provide timely notice of the nomination to us to be considered by the Governance Committee in connection with the Company's next annual meeting of shareholders. To be timely, the Corporate Secretary must receive the shareholder's nomination and the information required in the policy on or before December 30th of the year immediately preceding such annual meeting. A copy of the policy is available on the Investor Relations section of the Company's website, *www.ingrammicro.com*.

Contacting the Board and Further Information on Corporate Governance

Any interested person who desires to communicate with the Company's non-management directors may so do as follows:

confidentially or anonymously through the Company's Hotline, 1 (877) INGRAM2, or 1 (877) 464-7262; or

by writing to the Board of Directors. The Corporate Secretary will promptly forward such interested person communications so received to the Company's Board of Directors, to the individual director or directors to whom the communication was addressed or other appropriate departments or outside advisors, depending on the nature of the concern. Interested persons who wish to communicate directly with the Board of Directors may do so by writing to our Corporate Secretary, Worldwide Legal Department, Ingram Micro Inc., 1600 East Saint Andrew Place, Santa Ana, California 92705.

Our code of conduct, the Guidelines, and shareholder nominations policy and committee charters are accessible by following the links to Corporate Governance on the Company's website at *www.ingrammicro.com*. Furthermore, upon request to our Corporate Secretary at the address set forth below under Annual Report, we will provide copies of our code of conduct, the Guidelines, shareholder nominations policy and committee charters without charge.

Section 16(a) Beneficial Ownership Reporting Compliance

Based upon a review of filings with the SEC and/or written representations that no other reports were required, we believe that all of our directors and executive officers complied during fiscal year 2009 with the reporting requirements of Section 16(a) of the Securities Exchange Act of 1934.

Transactions with Related Persons

The Board adopted the Company's Related Person Transaction Policy in November 2007, which policy is in writing, to assist the Board in reviewing and taking appropriate action concerning related person transactions and assist the Company in preparing the disclosure that the Securities and Exchange Commission rules require to be included in the Company's applicable filings as required by the Securities Act of 1933 and the Securities Exchange Act of 1934 and their related rules. This Policy is intended to supplement, and not to supersede, the Company's other policies that may be applicable to or involve transactions with related persons, such as our policies for determining director independence and the Company's Code of Conduct and Conflicts of Interests policies. The Policy covers any financial transaction, arrangement or relationship or any series of similar transactions, arrangements or relationships (including indebtedness and guarantees of indebtedness and transactions involving employment and similar relationships) involving the Company and any director, nominee or executive officer, or any immediate family member thereof, or any 5% or greater beneficial owner of the Company's voting securities, in each case, having a direct or indirect material interest in such transaction. Any such transaction must be approved or ratified by the Board or a designated committee thereof consisting solely of independent directors, which unless the Board designates otherwise, shall be the Governance Committee of the Board or the Chair of the Governance Committee in between regular meetings of the Committee. No material related person transactions were identified during fiscal year 2009.

REPORT OF THE HUMAN RESOURCES COMMITTEE

The following Report of the Human Resources Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Ingram Micro filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent we specifically incorporate this Report by reference therein.

The Human Resources Committee of the Board of Directors has furnished the following report.

The Human Resources Committee has reviewed and discussed the Compensation Discussion and Analysis section of the proxy statement with management of Ingram Micro, and based on this review and discussion, recommended to the

Board of Directors of Ingram Micro that such Compensation Discussion and Analysis be included in Ingram Micro's proxy statement for the 2010 annual meeting of shareholders for filing with the SEC.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS****Executive Summary**

In this section we provide an explanation and analysis of the material elements of the compensation provided to our Chief Executive Officer (CEO), our Chief Financial Officer and our three other most highly compensated officers (collectively, the Named Executive Officers, or NEOs) as determined under the rules of the SEC and set forth in the Summary Compensation Table. The NEOs in 2009 are as follows:

2009 NEOs	Position as of the end of fiscal year 2009
Gregory M.E. Spierkel	Chief Executive Officer
William D. Humes	Senior Executive Vice President and Chief Financial Officer
Alain Monié	President and Chief Operating Officer
Shailendra Gupta	Senior Executive Vice President and President Ingram Micro Asia Pacific
Alain Maquet	Senior Executive Vice President and President Ingram Micro Europe, Middle East, and Africa (EMEA)

The economic downturn in late 2008 and 2009 influenced decisions the Human Resources Committee of the Board of Directors (the Committee) made with regard to the pay of the NEOs during 2009. Although worldwide sales in 2009 decreased 14% from fiscal year 2008, the Company reported worldwide operating income in 2009 of \$295.9 million which was up from the operating loss of \$332.2 million reported for 2008.

Base Pay. In November 2008 the Committee decided that there would be no increase in base salary to any NEO during the annual review in January 2009 except for Mr. Gupta who received an increase to partially mitigate the elimination of his housing and goods and services allowances. This was consistent with the Company's decision not to increase base salaries for any of its executives except where mandated by local labor law. The Committee met in November 2009 and again approved no increase in base salary to any Section 16 reporting officer during the annual review in January 2010. This was also consistent with the Company's decision not to increase base salaries for any of its executives except where mandated by local labor law.

Annual Executive Incentive Award Program (EIAP). In order to address the difficulty in setting realistic, yet challenging financial targets for the full year during this period of economic uncertainty, the Committee approved a modification to the EIAP by establishing two six-month performance measurement periods (Q1-Q2 and Q3-Q4) instead of a single twelve-month measurement period for the full fiscal year. In February 2009, the Committee approved increasing Mr. Spierkel's 2009 target to 150% of his base salary to more closely reflect peer opportunities for total compensation. Mr. Spierkel's total compensation lags behind the comparable position with the peer group and the Committee wanted to reward him if the Company meets its performance targets. There were no changes to any other NEOs target incentive program except upon the promotion of Mr. Maquet in July 2009.

Equity-Based Long-Term Incentive Award Programs. The Committee decided to delay the normal annual grants from January to March 2009 to review a redesign of the equity program considering the economic environment. As a result of this review and the volatility of the company's stock price in late 2008 and early 2009, the Committee decided the executive officers would receive performance vesting restricted stock units (RSUs) during 2009 and would base the performance measurement period solely on 2009 financial results. For the equity grants, the dollar value for the NEOs, including our CEO, was reduced from a range of 160% to 400%, to a range of 144% to 360% of their respective salary range midpoints to better align the award value with those of their peers in our comparator group of companies and to keep stock dilution to a competitive level.

The Company operates in the extremely competitive, rapidly changing, and low-margin high-technology distribution and service industry. The broad objectives of the executive compensation program established by the Company and approved by the Committee are:

Table of Contents

Compensation Element

Base Salary

Objectives

Links performance and pay by providing competitive levels of base salary for each executive officer based on his role and responsibilities within the Company. Used to attract and retain executive talent in a very competitive marketplace.

Foundation of total pay given that incentives are a function of base salary.

Key Features

Reflects:

Peer median for positions with similar responsibilities and business size.

An executive's responsibilities and performance, as demonstrated over time.

Salaries are reviewed annually to ensure they are externally competitive, reflect individual performance and are internally equitable relative to other Ingram Micro executives.

Annual Executive Incentive Award Program

Identifies what is expected for the year from the standpoint of corporate, regional, and country results.

Provides incentives to focus executives on the actions necessary to attain the Company's annual business plan.

Links reward to accomplishment as executives are measured and rewarded on accomplishments within their control and responsibility and encourages and rewards both profitable growth and operating efficiency.

Committee establishes incentive targets as a percentage of each NEO's base salary that approximate the median market practice of comparable positions at comparator peer group companies.

Payouts depend on meeting performance targets such as pre-tax profit, working capital days and operating expense ratios over the course of a 6-month or one-year performance period. The weighting of performance targets varies for corporate versus regional NEOs.

Equity-Based Long-Term Incentive Award Program

An important component of our total compensation program. Aligns the goals of our executives with those of our shareholders, increases shareholder value, and retains executive officers.

Increase linkage to shareholders by rewarding stock price appreciation and tying wealth accumulation to performance.

Retention is enhanced through the overlapping of multi-year performance periods.

Committee establishes equity-based award values to be granted to each NEO which is established as a percentage of each officer's salary range mid-point that reflects competitive, market-median, long-term incentive award values.

Payouts depend on meeting performance targets such as pre-tax profit and economic profit results over the performance measurement period.

Benefits and Perquisites

Provide conservative levels of nonperformance-based compensation.

Overall Design and Rewards of the Executive Compensation Program

Design Principles: Ingram Micro believes a substantial portion of senior management compensation should be at risk and subject to the financial performance of the Company. The only guaranteed forms of NEO compensation are base salaries, benefit programs and perquisites that are generally available to all management associates. The remainder of compensation must be earned through the attainment of predetermined financial performance objectives or share price appreciation. Compensation programs are designed within a framework based on the achievement of pre-established financial targets and alignment of the financial interests of our executive officers (which includes our NEOs) with those of our shareholders by providing appropriate near- and long-term financial incentives that reward executives for achieving objectives that enhance shareholder value. Our key design principles include:

1. Target executive compensation at the market median (50th percentile) for each element of pay and in total, to be competitive with other employment opportunities.

Table of Contents

A competitive compensation program is critical in attracting and retaining talent Ingram Micro needs to achieve its established objectives.

The Company benchmarks executive officer compensation annually against survey data from Mercer and Hewitt Associates LLC (Hewitt) covering general industry companies as well as a comparator peer group of 38 publicly traded companies in four related industries (Technology Distributors, Electronic Equipment Manufacturers, Logistics and Health Care Distributors and Retailers) to assess the competitiveness of total compensation and pay mix. This comparator peer group is a closer match to the market capitalization of the Company than the general industry data.

The peer group consists of:

Technology Distributors	Electronic Equipment Manufacturers	Logistics and Healthcare Distributors*	Retailers*
Tech Data	Flextronics Int 1	McKesson	AutoNation
Avnet	Jabil Circuit	AmerisourceBergen	Office Depot
Arrow	Celestica	C.H. Robinson	Ashland
Electronics	Agilent Technologies	Owens & Minor	Oshkosh
SYNNEX	Molex	Henry Schein	Family Dollar Stores
Anixter Int 1	Vishay Intertech	UTI Worldwide	Timken
Brightpoint	Mettler-Toledo	Patterson Companies	Lexmark
Insight Enterprises	Itron	Pacer Int 1	PetSmart
ScanSource	AVX	PSS World Medical	AECOM Tech
			Dick's Sporting Goods
			William-Sonoma
			O'Reilly Automotive

* Atlas Air Worldwide and Nalco Holding Co were erroneously reported in last year's peer group list, however, data from these two companies was not included in the peer group analysis.

This comparator peer group is summarized by the following measures:

**2009 Comparator Peer Group
Data as of December 31, 2008
(\$ in millions)**

	Revenue*	Market Cap	Employees
75 th percentile	\$8,544	\$2,500	32,715
Median	5,557	1,663	14,000
25 th percentile	3,614	846	8,386
Ingram Micro	34,362	2,207	15,000

* Twelve month revenue as of December 31, 2008

n **Size:** Companies with market capitalization that generally range from less than one-half to three times Ingram Micro's market capitalization.

n

Business Focus: Publicly traded companies with representation weighted towards distribution, and other industries, because the competition for talent is broader than just distribution companies.

- n **Consistency:** The peer group should be relatively stable and preferably be multi-national companies.

Ingram Micro management engages an executive compensation consulting firm to conduct a total compensation study of executive officers. In 2008, for 2009 compensation decisions, management engaged Hewitt to collect and report the general industry survey data which was then reviewed by Frederic W. Cook & Co., Inc. (Cook), the Committee's outside advisor. Due to the unique revenue characteristics of a distribution business (e.g., high revenues at low margins) revenue is not directly comparable to general industry benchmarks, as a result general industry market data was used for

Table of Contents

companies with significantly lower revenues than Ingram Micro. Cook provided the Committee with its own analysis and conclusions to be drawn from the data and advised the Committee on setting appropriate compensation levels for Ingram Micro's executive officers, including our CEO.

Cook's compensation report examined the competitiveness of Ingram Micro's executive compensation programs in total and by each element of compensation (base pay, annual incentives, and long-term incentives). In doing so, the value of each of Ingram Micro's executive compensation elements was compared to median information available from the defined comparator group. Benefits and perquisites were not included in the 2008 report as they represent a small portion of our executive officer's total remuneration.

2. Internal equity is important.

Ingram Micro establishes a series of salary grades and ranges, with a salary range midpoint that is designed to reflect market median levels. Salary grades for our executive officer positions are aligned with salary ranges of market median officer positions that most closely approximate their job responsibilities at Ingram Micro.

Balancing competitiveness with internal equity helps support management development and movement of talent throughout Ingram Micro worldwide. Differences in actual compensation between employees in similar positions will reflect individual performance, future potential and business results. This effort also helps Ingram Micro promote talented managers to positions with increased responsibilities and provides meaningful developmental opportunities.

Table of Contents

3. At executive management levels, compensation increasingly focuses on longer-term shareholder value creation.

Ingram Micro's NEOs are responsible for setting and achieving long-term strategic goals. In support of this responsibility, compensation is weighted towards rewarding long-term value creation for shareholders.

For NEOs with corporate-wide responsibilities, incentive metrics are based on Ingram Micro's overall results.

For NEOs within a region, annual incentive metrics are based on a blend of regional and overall corporate results with long-term incentives based on Ingram Micro's overall results.

What is Rewarded: Executive compensation is designed to reward achievement of targeted financial results and individual performance. Our performance metrics are generally based on our GAAP results, excluding restructuring charges and other expenses directly related to our cost-reduction programs, noncash charges for the impairment of goodwill, and the impacts of any unplanned acquisitions. These metrics are regularly used by our management internally to understand, manage and evaluate our business and make operating decisions. The following table defines each financial metric used as executive incentive measures, why the metric was selected and the pay programs which use that metric.

Table of Contents

Metric	Definition	Why Selected	Pay Programs
<i>Economic Profit</i> (<i>EP</i>)	A metric that blends both balance sheet and profitability drivers. EP is defined as net operating profit after tax minus the product of invested capital times an estimated weighted average cost of capital.	Ingram Micro believes that over time, generation of consistently positive EP closely correlates with stock price performance. The use of EP as an incentive plan metric is consistent with Ingram Micro's strategy to deploy capital in a manner that increases returns on investments. EP recognizes that sustained profits in excess of the cost of capital support Ingram Micro's obligation to create value for shareholders over the long term.	Equity-Based Long-Term Incentive Award Program
<i>Earnings Per Share</i> (<i>EPS</i>)	EPS is defined as net income divided by weighted average number of diluted shares outstanding.	EPS is widely tracked and reported by analysts and used as a measure to evaluate Ingram Micro's performance. EPS is used in recognition of both the effect it can have on Ingram Micro's stock price and the prevalence of its use by other companies.	Equity-Based Long-Term Incentive Award Program
<i>Operating Expense as a Percentage of Gross Profit</i> (<i>OpEx Ratio</i>)	OpEx Ratio is a measurement of operating cost relative to the amount of gross profit generated in each operating unit.	This metric was added as an important performance measure in 2009 to focus management on operating cost productivity. If overall demand or margin realization levels were lower than plan, management would be challenged to find additional cost reductions to partially mitigate these impacts.	Annual Executive Incentive Award Program
<i>Pre-tax profit</i> (<i>PT</i>)	PT is based upon results reported under generally accepted accounting principles. Exclusions of any items from the calculation of PT must be approved by the Committee.	PT is considered an important performance measurement to ensure focus on profitability.	Annual Executive Incentive Award Program
<i>Return On Invested Capital</i> (<i>ROIC</i>)	ROIC is defined as operating income, net of income taxes calculated based on Ingram Micro's applicable effective tax rate for the fiscal year, divided by the average	ROIC provides focus on improving shareholder value.	Equity-Based Long-Term Incentive Award Program

invested capital for the fiscal year. Average invested capital is equity plus debt less cash and cash equivalents.

***Working Capital Days
(WCD)***

WCD is defined as Days Sales Outstanding plus Days Inventory Outstanding minus Days Payable Outstanding at the end of a month (13 month average).

Because of the extensive investment in working capital inherent in this business, Ingram Micro believes that this focus encourages efficient use of capital, thus improving shareholder value.

Annual Executive Incentive Award Program

***Individual performance is assessed via the Performance Management Process
(PMP)***

PMP is designed to establish specific objectives for associates related to overall Ingram Micro goals and help them understand their role in meeting these objectives. Objectives are established for specific initiatives, major responsibilities key to their position, critical competencies, and individual developmental requirements.

PMP is an effective tool in assessing performance against individual goals. Once Ingram Micro objectives are established, salaried associates (including NEOs) set individual objectives aligned with the Company's strategic direction. At year end, salaried associate performance is assessed against established goals and executive competencies and behaviors.

Base salary increases

Table of Contents**Elements of Compensation**

The elements of executive officer compensation are annual base salary, annual bonus, long-term equity-based incentives, benefits, and perquisites. The mix and proportion of these elements to total compensation is benchmarked annually against the peer group of companies for each NEO. The Committee, at its sole discretion, may make changes to the mix or relative weighting of each compensation element based on benchmarking results or recommendations received from its independent outside advisor. The Committee reviews the total compensation package of each NEO and takes into consideration the impact a change in one element may have on other elements and total compensation. A summary of each element of compensation and how the amount and formula are determined is presented below.

How Designed and Determined

Base Salary: Each NEO is eligible for a salary review annually. The Committee reviews and takes into consideration recommendations for changes to base salaries of NEOs and other Section 16 reporting officers from our CEO and Cook. Our CEO's recommendations are based on a number of considerations, including the executive's scope of responsibilities within the organization, his personal assessment of the executive's performance and overall contribution to the achievement of Ingram Micro's short-term and long-term objectives, the executive's performance in relation to individual performance objectives established during the PMP, the executive's pay history, the executive's current salary versus the competitive median levels reported by the peer group of companies and market surveys, and internal equity considerations. However, there is no set formula or weighting assigned to these factors. Our CEO discusses his recommendations with the Committee in executive session and the Committee makes a final determination of base pay for each NEO upon completion of these discussions.

Our CEO's salary is determined by the Committee based on its review of his overall performance, data on competitive compensation levels for CEOs in the comparator group of companies, proxy information for direct competitors, as well as Ingram Micro's overall Company performance. These considerations are discussed among the Committee members and Cook, in executive session of the Committee. No members of management are present during these deliberations.

The Committee met in November 2008 and in consideration of the overall state of the economy, approved no increase in base salary for 2009 for any executive officer except Mr. Gupta who received an increase January 1, 2009 to partially mitigate the elimination of his housing and goods and services allowances as discussed further in Relocation Assistance Arrangements. This decision to freeze base salaries of the NEOs was consistent with the Company's decision not to increase base salaries in 2009 for any executives except where mandated by local labor laws.

The Committee met in November 2009 and determined that increases to executive officer pay in the beginning of 2010 would be premature given the economic environment. As a result, as of this printing, there have been no increases in base salaries for any executive officer in 2010. This was consistent with the Company's decision not to increase base salaries in 2010 for any executives except where mandated by local labor law.

Annual Executive Incentive Award Program: Each NEO has an incentive target established by the Committee as a percentage of base salary. The percentage approximates the median market practice of comparable positions based on the data from our comparator peer group (see Design Principles).

Mr. Spierkel's 2009 target percentage was increased from 125% to 150% to more closely align his total compensation opportunity with the peer group. Mr. Maquet's target percentage was 55% at the beginning of the year and was increased to 70% when he was promoted from Executive Vice President and President of Latin America to Senior Executive Vice President and President, EMEA in July 2009.

Incentive performance targets are set within the first 90 days of the fiscal year and approved by the Committee. Payments under annual bonus programs are intended to qualify for tax deductibility under Section 162(m) of the Internal Revenue Code as performance-based compensation.

In 2009, the EIAP was modified to address the challenging economic environment and uncertainty the Company expected to face during the year. As explained in the "What is Rewarded" table, in addition to PT and WCD, the Company added OpEx Ratio as a new metric for the NEOs and all other participants of this program in 2009. Additionally, due to the difficulty in setting realistic, yet challenging targets for the full year, the Company introduced two six-month performance measurement periods for the 2009 program year (Q1-Q2 and Q3-Q4). While both performance measurement periods utilized the same financial metrics, the Committee set the financial metrics weightings and applicable performance targets during the first 45 days of each performance measurement period.

Weighting of Annual Incentive				
	Weighted Average Bonus Payouts of Individual Country or Business Units	Overall Company Results	Weighted Average Bonus Payouts of Individual Country or Business Units in Respective Region	Overall Region Results
Mr. Spierkel	80%	20%		
Mr. Humes	80%	20%		
Mr. Monié	80%	20%		
Mr. Gupta		20%	60%	20%
Mr. Maquet		20%	60%	20%

Each of the four regions is made up of five to thirteen different countries and/or business units. The performance in each of these thirty-two countries/business units is compared against their individual bonus plan targets to determine that country/business unit's bonus payout. The weighted average (based on each country/business units 2009 operating plan revenue) of these thirty-two bonus payouts is determined and utilized for 80% of the corporate NEOs bonus payment. The weighted average bonus results of the countries/ business units that make up each region are utilized for 60% of the respective Regional NEOs bonus payment.

While each metric requires a minimum level of performance before any award is earned, each metric is independent and no one metric must be achieved before an award is earned under the other metrics. The maximum award earned for significant overachievement of performance against PT, WCD, and OpEx Ratio performance targets (generally 140% of operating plan PT, 90% or less of operating plan WCD, and 92% of operating plan OpEx Ratio) is two times (200%) the target incentive award for the first half of the year. The financial metrics were weighted 40% PT, 30% WCD and 30% OpEx Ratio for the first half of the year. The weighting was revised to 50% PT, 25% WCD and 25% OpEx Ratio for the second half of the year in order to increase focus on PT performance. The maximum award for significant overachievement of performance was reduced to one and one half times (150%) the target incentive award for the second half of the year. The performance targets established for the second half of the year were realistic but below the actual performance results of 2008 and the Committee lowered the maximum payout achievable accordingly.

Equity-Based Long-Term Incentive Award Programs

Long-term incentives are granted under the Ingram Micro Inc. Amended and Restated 2003 Equity Incentive Plan (the 2003 Plan) and the 2008 Ingram Micro Inc. Executive Incentive Plan (EIP), which were approved by shareholders. The EIP in conjunction with the 2003 Plan permits the granting of stock options, stock appreciation rights, RSUs, performance shares, and cash awards. Each RSU entitles an executive to one share of Company stock if and when the executive becomes vested in the RSU.

In 2008, the Company provided long-term incentives to the executive officers in the form of stock options and performance-vesting RSUs. During late 2008, due to the volatility in the economy/marketplace and the need to assess alternatives, the Committee decided to delay the annual grant until March 2009. The Committee reviewed (1) the data provided by Cook on the various forms of equity the peer group companies were providing to their executives, (2) the relative advantages and disadvantages of using stock options, (3) the fact that the Company does not provide any defined benefit pension benefits or other retirement benefits to executive officers other than the 401(k) Savings Plan or similar plans that are available to all Company employees, and (4) the fact that for most executive officers the long-term incentive awards serve as the primary source for accumulation of substantial resources to fund their retirement. Based on this review and taking into account the volatility of the company's stock price in late 2008 and early 2009, the Committee decided the executive officers would only receive performance-vesting RSUs during 2009. At their meeting in February 2009, the Committee approved the equity-based award values to be granted to each executive officer. These values were established as a percentage of each officer's salary range mid-point and reflected competitive, market-median, long-term incentive award values. The Committee's determination of grant values with respect to NEOs other than the CEO was based on its evaluation of recommendations by the CEO (which the Committee, in its discretion, approved). With respect to the CEO the Committee, in its sole discretion, determined the long-term equity value. The 2009 grants to our CEO were in accordance with the Committee's previously approved guideline target value for our CEO's salary range based on our CEO's performance and comparative peer group information. During this process the Committee consulted with its outside advisor, Cook.

For the March 2009 grants of performance-vesting RSUs, the target dollar value for the NEOs ranged from 144% to 360% of their respective salary range midpoints compared to the range of 160% to 400% in 2008.

Mr. Maquet		
initial grant (full year)	567,072	467,492
promotion grant	202,464	280,530

The actual value at grant varies from the total target grant value due to the change in the share price between the determination of the target value and the value on the date of grant.

As described above, with the exception of delaying the annual equity grant until the first trading day of March, the same process and procedure for granting equity awards to our executive officers was followed in 2009 as in 2008:

With the approval of the Committee, grants of equity may also be awarded to executive officers at other times during the year upon their initial employment with the Company or promotion to more responsible positions (higher salary grade) within the organization. In such cases, the effective date of the grant will be the first trading day of the month that follows the effective date of employment or promotion and the Committee's approval. On July 1, 2009 Mr. Maquet received an additional equity grant under the French sub-Plan, which has a different vesting schedule, as a result of his promotion to Senior Executive Vice President and President of EMEA. Upon meeting the performance requirements, two-thirds of this award vests on March 2, 2011 and the remainder vests on March 2, 2012.

The methodology for determining the number of full-value awards (time and performance-vesting RSUs) is as follows: The Committee determines the annual target award value for each NEO as a percentage of their respective salary range mid-point. We then use the 20-day average closing price of the Company's stock through the 15th day of the month prior to the date of grant to determine a stock value. This stock value is then divided into the target award value to determine the number of full-value shares to grant on grant date, for each salary range. A prorated number of units are granted the first trading day of the month following new hire or promotion dates that occur after the annual grant date.

In 2009, the executive officers', including the NEOs, annual equity-based grant was made up of performance-vesting RSUs: 50% of which vested based on the achievement of fiscal year 2009 EP goals and 50% of which vested based on the achievement of fiscal year 2009 PT goals. This performance-vesting component allows the RSUs to qualify as performance-based compensation that is not subject to the deduction limits of section 162(m) of the Internal Revenue Code.

In the case of RSUs whose vesting was tied to EP, the EP result for 2009 determined that 111.4% of RSUs that were granted to participating executives, including the NEOs, on March 2, 2009 under the 2009 Executive Long-Term Performance Share Program - EP (2009 Performance Share Program - EP) will vest March 2, 2012 if an NEO meets the specific employment requirements. The one-year EP performance targets (threshold, target, and maximum) were based on the Company's one-year operating plan, various historical external market comparison factors and other internal goals.

(millions)	Threshold	Target	Maximum	Actual
2009 Economic Profit	\$(51.4)	\$18.6	\$108.6	\$28.9
% of award achieved	25%	100%	200%	111.4%

The Committee believes the EP target was set with appropriate challenge given the difficult economic situation expected in 2009. The Committee approved a single year performance measurement period for the 2009 grants due

30

Table of Contents

to the economic uncertainty at the time of the grant and will return to a three-year performance measurement period for similar performance vesting RSUs granted in 2010.

In the case of RSUs whose vesting was tied to PT, the 2009 PT result exceeded the requirement resulting in 100% of the RSUs that were granted to participating executives, including the NEO, on March 2, 2009 under the 2009 Executive Long-Term Performance Share Program (2009 Performance Share Program (PT)) to vest on the following schedule: one-third of the RSUs will vest on March 23, 2010, ten business days following the Committee's certification of the PT results, and one-third will vest annually on the following two anniversary dates of the grant in March 2011 and 2012 as long as the participating NEO meets the specific employment requirements. PT RSUs awarded to Mr. Maquet on July 1, 2009 will vest two-thirds on March 2, 2011 and the remainder vests on March 2, 2012.

(millions)	Threshold	Target	Maximum	Actual
2009 PT	<\$50	\$50	>\$50	\$269
% of award achieved	0%	100%	100%	100%

The Committee intentionally set the PT target to have a high likelihood of being achieved in order to provide enhanced executive retention and to assist the executives' accumulation of shares in compliance with the stock ownership and retention policy as well as their accumulation of resources to fund their future retirement. The Committee plans to grant similar performance vesting RSUs, with high likelihood of achievement targets, to executives in 2010.

The 2008 recession had a significant impact on the Company, quickly reversing the progress made toward achievement of targeted performance under the 2006 and 2007 Performance Share Programs. As a result, to ensure that a retention-focused long-term equity compensation program was in place to retain key executives during the recession and eventual recovery the Committee approved special retention awards to Section 16 officers, including the NEOs, effective April 1, 2009. The Committee determined the appropriate retention value for each Section 16 officer, including the NEOs, and awarded this value 50% in a deferred cash award and 50% in performance vesting RSUs. The awards to all Section 16 Officers, except the CEO, will vest as follows: the cash award will vest and become payable on April 1, 2011 and the RSUs will vest on April 1, 2012, provided the Company achieved certain PT performance for fiscal 2009. The CEO's awards will vest as follows: the cash award will vest in two parts, 60% on April 1, 2011 and 40% on April 1, 2012 and the RSUs will vest on April 1, 2012, provided the Company achieved certain PT performance for fiscal 2009. If the executive leaves the Company prior to April 1, 2010, both the cash and equity retention award are cancelled. If the executive leaves the Company after this date they will be eligible for a prorated amount of the full award.

(millions)	Threshold	Target	Maximum	Actual
2009 PT	<\$25	\$25	>\$25	\$269
% of award achieved	0%	100%	100%	100%

Since the performance hurdle has been met, the executives will earn the full value of the cash and RSU awards granted under the 2009 Executive Retention Performance Share Program and the 2009 Executive Retention Cash Incentive Award Program for the CEO and Section 16 Officers if they are employed by the Company when the vesting date(s) is (are) reached.

The results of the 2007 Executive Long-Term Performance Share Program (2007 Performance Share Program), with a 3-year performance measurement period (2007-2009), did not meet the minimum threshold for EPS growth rate and, therefore, no awards were made to any of the participants, including the NEOs.

The 2008 Executive Long-Term Performance Share Program (2008 Performance Share Program), with a 3-year performance measurement period (2008-2010), is mid-cycle and uses the same performance metrics of EPS growth rate and average ROIC as the 2007 Performance Share Program. As a result of the Company's performance in these difficult economic conditions during 2008 and 2009, it is anticipated that this Program will result in no earned awards for any of the participants, including the NEOs. The actual results for this program will be reported in next year's proxy report.

**Stock Ownership
and Retention
Policy**

On December 1, 2009, our Company adopted a revised stock ownership and retention policy. This policy requires our Section 16 reporting officers to hold the value three to six times their base salary in shares of Ingram Micro common stock. The multiple of salary is determined by the salary grade for the position they hold. Mr. Spierkel's target is six times his base salary. The target for Messrs. Humes, Monié, Gupta, and Maquet is four times their base salaries. The NEOs are no longer required to reach their share ownership target level by a specific date. However, they are now required to retain 50% of the net after-tax shares resulting from the vesting of all restricted stock or RSU awards and 50% of the net shares resulting from the exercise of stock option awards until their ownership requirement is met. This policy applies to all equity granted under the Company's equity award plans for compensatory purposes, except for any equity compensation award held in a pre-arranged stock trading plan designed to comply with Rule 10b5-1 of the Securities Exchange Act of 1934, as in effect prior to December 1, 2009. Shares owned include: shares held by the executive directly or through a broker, shares held jointly by the executive and his/her spouse, shares held by the executive's spouse, shares held by the executive's dependent children, shares held by the executive in a custodial account or irrevocable trust, and shares held by the executive in the Company's 401(k) plan. As of December 31, 2009, none of the executive officers had met their share ownership requirement. The Company's Insider Trading Policy and Executive Stock Ownership and Retention Policy provide that shares of Ingram Micro stock shall not be made subject to a hedge transaction or puts and calls.

**Compensation
Recovery Policy**

The Committee adopted a Compensation Recovery Policy in January, 2010. This policy, commonly referred to as a "clawback" policy, authorizes the company to recover annual or long-term incentive compensation made in the previous 36 months to the NEOs as well as other Section 16 reporting officers, Senior Vice President & Controller, and the Vice President of Internal Audit (each a "Covered Employee") in the event of a "recoverable event" (as defined in the policy). A recoverable event includes a covered employee's engagement in certain conduct that is detrimental to Ingram Micro, or the grant, vesting and/or payment of "incentive compensation" (as defined in the policy), or the calculation of the magnitude of any such incentive compensation, that is based on materially inaccurate financial results or performance metrics.

Under the policy, Ingram Micro's Board of Directors or the Committee, may, in its sole discretion, take any or all of the following actions upon its determination that a recoverable event has occurred with respect to a covered employee: (i) cause the covered employee to forfeit any unvested incentive compensation as of the recoverable event, (ii) cause the covered employee, regardless of prior vesting, to forfeit any unpaid incentive compensation as of the recoverable event, and/or (iii) recover any and all incentive compensation earned and received or realized by the covered employee during the period commencing on the date of the occurrence of the recoverable event and ending on the date on which it determines that the recoverable event has occurred, but not to exceed the 36-month period preceding the date of such determination (with interest).

This policy will be applicable to the 2010 Annual Executive Incentive Award Program (annual bonus) and the 2010 Executive Long-Term Performance Share Programs (LTIP-performance vesting RSUs) and all future short-term or long-term incentive award programs adopted by the Company for its executive officers and key employees designated by the Committee as a

Covered Employee.

**Recoupment
Policy**

Ingram Micro has instituted a policy that stipulates that if an executive officer receives any severance payments or other benefits under the Executive Officer Severance Policy and the Company subsequently determines that the executive officer had engaged in conduct which constituted cause for the termination of his employment by the Company, the executive officer will reimburse the Company for all payments and the value of all benefits received by the executive officer which would not have been made if the executive officer's employment had been terminated by the Company for cause, including interest.

Table of Contents**Benefits and Perquisites**

We do not use benefit programs or perquisites as a primary compensatory element or as an enhancement to executive officer compensation. In general, our executive officers participate in Ingram Micro's broad-based health and welfare, life insurance, disability, and retirement programs for management employees. Perquisites are generally limited to home or mobile office computer and telecommunications equipment and services and a periodic health examination provided by the Company. NEOs who are on assignment outside of their home country (*i.e.*, Messrs. Maquet and Gupta) may receive various expatriate assignment benefits and allowances such as goods and services allowances, transportation and housing allowances, educational allowances for accompanying dependent children plus various tax equalization payments related to their assignments. The perquisites we provide to our NEOs are reported in further detail in the "All Other Compensation" column in the "Summary Compensation Table" elsewhere in this proxy statement.

For U.S. executive officers, the Company offers participation in a 401(k) plan with Company-matching contributions as the only qualified retirement program. In addition, Ingram Micro offers certain U.S. highly compensated employees, including the NEOs based in the US, an opportunity to participate on a voluntary basis in our Supplemental Investment Savings Plan (the "Supplemental Plan"), a nonqualified deferred compensation arrangement. In general, the Supplemental Plan operates to restore 401(k) plan benefits, including Company matching contributions which were reduced or limited by IRS regulations. Participants may elect to defer up to 50% of their base salary and annual bonus, when combined with their 401(k) plan deferral. In conformance with Section 409A, deferral and distribution elections are made by each participant prior to the beginning of each calendar year. In 2009, the Company's matching contribution was equal to 25% of the first 5% of eligible compensation deferred to the 401(k) and Supplemental Plans.

Mr. Gupta is an Indian citizen and participates in the Australian superannuation pension plan to which the Company provided a contribution in 2009. This arrangement was put in place when he was with Tech Pacific before it was acquired by the Company in 2004. The amount of the contribution to the Australian superannuation pension plan is noted under "All Other Compensation" in the "Summary Compensation Table" elsewhere in this proxy statement.

Mr. Maquet is a French citizen and continues to participate in the French social insurance programs to which the Company contributed in 2009. In addition, prior to his relocation and assignment to the United States, he participated in the Ingram Micro France SARL profit sharing program. As part of his expatriate assignments to the United States during the first half of 2009 and to Belgium in the second half of 2009, the Company agreed to pay him what he would have received under the Ingram Micro France SARL profit sharing program had he remained an employee of Ingram Micro France SARL. The amount of the profit sharing program payments is noted under "All Other Compensation" in the "Summary Compensation Table" elsewhere in this proxy statement.

Relocation Assistance Arrangements

As an international company, we recruit executives globally. We also provide career development opportunities and promotions by moving our executives to locations throughout the world. We have an International Expatriate Assignment Policy applicable to associates working for Ingram Micro who are transferred from their home country of residence and placed on an international assignment for a specified period of time and whom management has approved to be covered by this policy. We generally provide assistance relating to such

relocation, including travel costs, home leave for the associate and the associate's family, reimbursements for necessary work and residency permits, disposition of home country automobile, transportation, and storage of household goods and personal effects, cost of living allowances, relocation and housing assistance, reimbursements for customary and reasonable transaction expenses, dependent education costs, and tax preparation services for home and host country income tax filings.

Table of Contents

In addition, Ingram Micro's International Assignment Tax Equalization Policy is intended to eliminate tax inequities or benefits that normally result from accepting a temporary expatriate foreign assignment. Ingram Micro associates covered under this policy will be provided tax equalization benefits. Accordingly, such associate will not recognize any income tax-related financial losses or gains as a result of an international assignment. In order to ensure that the associate pays no more or no less tax as a result of an international assignment, the associate will be responsible for a stay-at-home tax liability, an estimate of the home country tax the associate would have paid had he or she remained in the home country. To assist the associate in meeting the stay-at-home tax liability, an estimated amount of tax is withheld from the associate's pay each pay period (hypothetical tax). In general, if upon final determination of the associate's actual stay-at-home tax for a given tax year, the total actual stay-at-home tax exceeds the hypothetical tax that was withheld from the associate's pay for that tax year, the associate will reimburse Ingram Micro for the difference. If the actual stay-at-home tax is less than the associate's hypothetical tax withheld, Ingram Micro will reimburse the associate for the difference.

Mr. Gupta was relocated to Singapore in 2001 from India by Tech Pacific before it was acquired by the Company in 2004. The Company has honored the terms of Mr. Gupta's 2002 Tech Pacific employment agreement which includes expatriate allowances and the notice of termination provision requiring either party provide three months notice prior to a termination. Effective January 1, 2009, the Committee decided to eliminate Mr. Gupta's expatriate housing and goods and services allowances. The Committee agreed to partially mitigate this reduction in benefits by increasing Mr. Gupta's base salary 10.8% and providing a one-time cash payment of SGD 670,000 (or \$460,893) as of January 1, 2009. If Mr. Gupta resigns or is terminated for cause before January 2011 he will be required to pay back 30% of this one-time cash payment. Mr. Gupta's expatriate package is now limited to dependent children education reimbursements, and the Australian superannuation pension contribution as reported under the All Other Compensation column in the Summary Compensation Table elsewhere in this proxy statement.

Mr. Maquet, a French citizen, was promoted to the position of Senior Vice President and President of the Company's Latin America Region in March 2005. He was subsequently promoted to the position of Senior Executive Vice President and President of the Company's EMEA Region effective July 1, 2009. Upon his promotion to this position, he was required to relocate from Miami, Florida to Belgium and continues to receive benefits under the Company's International Assignment and Tax Equalization Policies. As an expatriate, Mr. Maquet is tax equalized to France and participates in the French social programs (medical, unemployment, and pension benefits). He receives a housing allowance, dependent children education reimbursement, and home leave as reported under the Other Compensation column in the Summary Compensation Table elsewhere in this proxy statement.

Change-in-Control and Termination of Employment Arrangements

Change-in-Control Agreements. Ingram Micro does not have any individual arrangements with any executive officer that provides for payments at, following, or in connection with a change in control of Ingram Micro. As a result, the Company also does not provide any additional tax gross-up payments on any amounts that would be subject to the excess parachute payments excise tax under Internal Revenue Code Section 4999. Upon a change in control, the Committee at its sole discretion may waive, shorten, or terminate any restriction period imposed on stock options, performance shares, or awards under the various long-term incentive

programs.

Executive Officer Severance Policy. The Executive Officer Severance Policy (the Severance Policy) applies to our CEO and our executive officers elected by the Board of Directors who report to either our CEO or Chief Operating Officer (which includes all the NEOs). Under the terms of the Severance Policy, executive officers may be

Table of Contents

entitled to certain severance benefits if their employment is terminated by the Company without cause and certain conditions are satisfied.

In such cases, subject to execution of a release and covenant agreement satisfactory to the Company, eligible executive officers will be entitled to the severance benefits described in Potential Payments on Termination or Change in Control elsewhere in this proxy statement. In general, our NEOs are eligible for separation pay equal to one-twelfth the sum of their annual base salary and target annual bonus multiplied by their full years of service with the Company, with a minimum payment equal to one year's base salary and target annual bonus.

Alain Maquet. Mr. Maquet completed his expatriate assignment as the Executive Vice President and President of Latin America in May 2009 and was returned to France and the Company reactivated his French employment contract. In accordance with his French employment contract, Mr. Maquet or the Company is required to provide the other with six months notice prior to termination for any reason other than cause. In addition, the Company agreed that severance benefits under his original French employment contract are frozen at the current levels and he will be provided severance pay equal to thirty-two months of average salary (defined as base salary and target annual bonus) upon his termination of employment by the Company for any reason other than cause. We also agreed that should Mr. Maquet be terminated for any reason other than cause during his recent assignment to Belgium, Ingram Micro will repatriate Mr. Maquet and his family to France under similar relocation terms and conditions.

Internal Revenue Code Section 162(m) Policy

The Committee considers the anticipated tax treatment to us and our executive officers when reviewing our executive compensation and other compensation programs. While the tax impact of any compensation arrangement is one factor to be considered, such impact is evaluated in light of the Committee's overall compensation philosophy and objectives. The Committee will consider ways to maximize the deductibility of executive compensation, while retaining the discretion it deems necessary to compensate officers in a manner commensurate with performance and the competitive environment for executive talent. In addition, the Committee reserves the right to use its judgment to award compensation to our executive officers that may be subject to the deduction limit when the Committee believes that such compensation is appropriate, consistent with the Committee's philosophy and in our and our stockholders' best interests.

The Committee generally seeks to structure performance-based compensation in a manner that is intended to avoid the disallowance of deductions under Internal Revenue Code Section 162(m). Nevertheless, there can be no assurance that our performance-based compensation will be treated as qualified performance-based compensation under Internal Revenue Code Section 162(m).

(1) Salary This information provided is as of the last payroll period ending prior to the end of our fiscal year.

Mr. Gupta's 2009 salary was earned in Singapore dollars and was converted to U.S. dollars for reporting purposes using the 2009 fiscal year average exchange rate as of January 2, 2010 of SGD 1 = US\$0.6879.

Mr. Maquet's July 2009 through December 2009 salary was paid in Euros and for reporting purposes was converted to U.S. dollars using the 2009 fiscal year average exchange rate as of January 2, 2010 of EUR 1 = US\$1.3946.

- (2) Stock Awards reflect the aggregate grant date fair value, in accordance with GAAP, for all performance shares granted during the respective year at the target level of performance achievement. Performance share awards granted during 2009 included an annual award granted to the NEOs on March 2, 2009, a retention award granted to the NEOs on April 1, 2009 and a promotion award granted to Mr. Maquet on July 1, 2009. The grant date fair value for all performance share awards granted to NEOs during 2009, based on maximum performance (200%), would be \$14,421,514. The assumptions and methodology used to determine such amounts are set forth in Notes 2 and 12 to our Notes to Consolidated Financial Statements included in our Form 10-K for the year ended January 2, 2010. The performance share awards granted during 2009 are discussed further in footnotes 1, 2 and 4 to the Grants of Plan-Based Awards for Fiscal Year 2009 table.
- (3) Option Awards were not granted to the NEOs during 2009, but were granted to NEOs during 2008 and 2007 with an exercise price equal to the closing price of Ingram Micro common stock as reported on the NYSE on the date of grant. The value of the stock options reported under the Option Awards heading above, represents the aggregate grant-date fair value, in accordance with GAAP, for options granted during 2008 and 2007 disregarding estimated forfeitures related to service-based vesting conditions. The assumptions and methodology used to determine such amounts are set forth in Notes 2 and 12 to our Notes to Consolidated Financial Statements included in our Form 10-K for the year ended January 2, 2010.
- (4) Non-Equity Incentive Plan Compensation represents performance-based cash incentive award payments that were earned during the specified year and paid in the following year. Awards under the 2009 EIAP were paid in March 2010. Mr. Gupta's 2009 EIAP payment of \$521,439 or SGD 758,016, has been converted to U.S. dollars using the 2009 fiscal year average exchange rate, as of January 2, 2010, of SGD 1 = US\$0.6879. Mr. Maquet's 2009 EIAP payment of \$457,558 or EUR 328,092, has been converted to U.S. dollars using the 2009 fiscal year average exchange rate, as of January 2, 2010, of EUR 1 = US\$1.3946.

- (a) Company Contributions to Qualified and Nonqualified Retirement Savings Plans Includes employer contributions to retirement plans.
- (b) Health/Welfare Benefits Includes executive physical examinations and executive long-term disability insurance premiums. In order to continue Mr. Maquet's French social insurance benefits (retirement, unemployment, social security, disability and worker's compensation insurance) while on assignment in the U.S., the Company paid for these benefits under the terms of the French voluntary social insurance programs.
- (c) Expatriate Compensation Includes housing allowance, transportation, utilities, home country storage, parking, goods & services allowance, dependent children education and home leave, as applicable. Additionally, this reflects Mr. Gupta's 2009 one-time lump sum payment of SGD 670,000 (or \$460,893) to mitigate the elimination of his housing and goods and services allowances effective January 1, 2009, and has been converted to U.S. dollars using the 2009 fiscal year average exchange rate, as of January 2, 2010, of SGD 1 = US\$0.6879.
- (d) Tax Equalization Includes foreign taxes paid, tax settlements and other taxes related to foreign assignments that are paid by the Company.

- (e) Relocation Expenses Includes relocation allowance, travel to new location, temporary lodging and meals, home country storage, purchase or sale of home and shipment of household goods and personal effects.
- (f) Misc Includes dependent travel, tax preparation fees, home office expenses and foreign currency exchange rate adjustments, as applicable.

- (1) In fiscal year 2009, Ingram Micro adopted the 2009 Executive Long-Term Performance Share Program (the 2009 Performance Share Program) pursuant to the 2003 Plan and the EIAP. Two separate equal tranches of performance-based RSUs were granted on March 2, 2009 under the 2009 Performance Share Program to reward achievement of financial goals that support increased shareholder value. The first tranche is based on pre-established PT financial performance goals for fiscal year 2009 (the PT RSUs) and the second tranche is based on Ingram Micro s performance in fiscal year 2009 against pre-established EP financial performance goals (the EP RSUs). The payment of these awards also require that the NEO continue to be an employee in

Table of Contents

good standing through the applicable vesting date for any earned award to vest. However, with respect to the EP RSUs, if the NEO left the Company after March 2, 2010 for reasons other than termination for cause or a voluntary resignation, the NEO would receive a prorated number of earned EP RSUs (prorated by dividing the number of full months of service between the grant date and the termination date by 36).

On July 1, 2009, Mr. Maquet received additional grants under the 2009 Performance Share Program in the form of PT RSUs and EP RSUs in recognition of his promotion to Senior Executive Vice President, and President Ingram Micro EMEA, under the terms of the French Sub-Plan which is described below.

PT RSUs: If a specific pre-established PT performance goal is not met for the PT RSUs, no shares would be awarded. If such goal is met, 100% of the target number of shares would be earned, of which one-third would vest on March 23, 2010, ten business days following the determination by the Committee of the Company's performance against the pre-established performance goal, and then one-third on each the second and third anniversaries of the grant date. On March 9, 2010, the Committee determined that the specific pre-established PT based performance goal was met, and therefore the restrictions on one-third of the earned PT RSUs lapsed on March 23, 2010 (with respect to 46,575; 12,575; 24,847; 12,575; and 7,336 PT RSUs for Messrs. Spierkel, Humes, Monié, Gupta and Maquet, respectively), with one-third of the earned PT RSUs vesting on March 2, 2011 and March 2, 2012 for all March 2, 2009 awards.

PT RSUs granted to Mr. Maquet on July 1, 2009 under a French Sub-Plan to the 2003 Plan (the French Sub-Plan) will vest two thirds on March 2, 2011 and one third on March 2, 2012.

EP RSUs: If specific pre-established EP performance goals are not met for the EP RSUs, no shares would be awarded. Achievement of threshold performance levels results in an award of 25% of the target award; target award requires 100% EP performance goal achievement; and the maximum award for over-achievement of performance goals is 200% of the target award. If such goal is met, the number of shares that would be earned will vest in their entirety on the third anniversary of the date of grant. On March 9, 2010, the Committee determined that the specific pre-established EP based performance goals were exceeded, resulting in 111.4% of the units granted on March 2, 2009 to vest on March 2, 2012 (155,654; 42,027; 83,041; 42,027; and 33,274 EP RSUs for Messrs. Spierkel, Humes, Monié, Gupta and Maquet, respectively).

- (2) On April 1, 2009, performance-based RSUs were granted pursuant to the 2003 Plan and the EIAP for retention purposes and to reward achievement of financial goals that support increased shareholder value. Payment of these RSUs was contingent on Ingram Micro achieving a pre-established PT financial performance goal for the fiscal year ending January 2, 2010. On March 9, 2009, the Committee determined that the pre-established PT performance goal was met, and therefore the restrictions on these RSUs will lapse on April 1, 2012 (181,818; 34,091; 63,636; 25,000; and 20,455 RSUs for Messrs. Spierkel, Humes, Monié, Gupta and Maquet, respectively). If the NEO leaves the Company prior to April 1, 2010, the award is cancelled. If the NEO leaves the Company after April 1, 2010 for reasons other than for cause terminations or voluntary resignations, the NEO would receive a prorated number of earned RSUs (prorated by dividing the number of full months of service between the grant date and the termination date by 36).
- (3) On April 1, 2009, grants of performance-based cash long-term incentive awards (the Cash LTIP) were granted pursuant to the EIAP for retention purposes and to reward achievement of financial goals that support increased shareholder value. Payment of these awards was contingent on the Company achieving a pre-established PT performance goal for the 2009 fiscal year. On March 9, 2009, the Committee determined that the pre-established PT performance goal was met, and therefore the payment of the target awards as specified in the table, will be made on the second anniversary of the grant date, April 1, 2011 (with the exception of the CEO, for whom 60% of the award will be paid on the second anniversary of the grant date and 40% will be paid on the third

anniversary of the grant date). If the NEO leaves the Company prior to April 1, 2010, the award is cancelled. If the NEO leaves the Company after April 1, 2010 for reasons other than for cause termination or voluntary resignations, the NEO would receive a prorated amount of earned Cash LTIP (prorated by dividing number of full months of service between the award date and the date of termination by 24).

(4) Pursuant to the 2009 EIAP.
