WELLS FARGO ADVANTAGE GLOBAL DIVIDEND OPPORTUNITY FUND

NOTE TO PORTFOLIO OF INVESTMENTS (unaudited) July 31, 2010

The Fund's portfolio of investments as of the date on the cover of this report has not been audited. This report is provided for the general information of the Fund's shareholders. For more information regarding the Fund and its holdings, please see the Fund's most recent prospectus and annual report.

SECURITIES VALUATION

Investments in securities are valued each business day as of the close of regular trading on the New York Stock Exchange, which is usually 4:00 p.m. (Eastern Time). Securities which are traded on a national or foreign securities exchange are valued at the last reported sales price. Securities listed on The NASDAQ Stock Market, Inc. ("NASDAQ") are valued at the NASDAQ Official Closing Price ("NOCP"), and if no NOCP is available, then at the last reported sales price. If no sales price is shown on the NASDAQ, the bid price will be used. In the absence of any sale of securities listed on the NASDAQ, and in the case of other securities, including U.S. Government obligations, but excluding debt securities maturing in 60 days or less, the price will be deemed "stale" and the valuations will be determined in accordance with the Funds' Fair Valuation Procedures.

Securities denominated in foreign currencies are translated into U.S. dollars using the closing rates of exchange in effect on the day of valuation.

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign

investments are traded but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of the investments, then those investments are fair valued following procedures approved by the Board of Trustees. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Depending on market activity, such fair valuations may be frequent. In light of the judgment involved in fair value decisions, there can be no assurance that a fair value assigned to a particular security is accurate. Such fair value pricing may result in NAVs that are higher or lower than NAVs based on the closing price or latest quoted bid price.

Investments in open-end mutual funds are valued at net asset value.

Investments which are not valued using any of the methods discussed above, are valued at their fair value, as determined by procedures established in good faith and approved by the Board of Trustees.

The valuation techniques used by the Funds to measure fair value are consistent with the market approach, income approach and/or cost approach, where applicable, for each security type.

FOREIGN CURRENCY TRANSLATION

The accounting records of the Funds are maintained in U.S. dollars. Assets, including investment securities, and liabilities denominated in foreign currency are translated into U.S. dollars at the prevailing rates of exchange at the date of valuation. Purchases and sales of securities, and income and expenses are translated at the prevailing rate of exchange on the respective dates of such transactions. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities, at fiscal period-end, resulting in changes in exchange rates.

The changes in net assets arising from changes in exchange rates and the changes in net assets resulting from changes in market prices of securities at fiscal period-end are not separately presented. Such changes are recorded with net realized and unrealized gain from investments. Gains and losses from certain foreign currency transactions are treated as ordinary income for U.S. federal income tax purposes.

OPTIONS

Certain Funds may be subject to equity price risk in the normal course of pursuing its investment objectives. The Fund may write covered put or call options. When a Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options, which expire unexercised, are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the

premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the

Edgar Filing: WELLS FARGO ADVANTAGE GLOBAL DIVIDEND OPPORTUNITY FUND - Form N-Q

security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment which is subsequently adjusted to the current market value of the option. Premiums paid for purchased options which expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset against the proceeds on the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardized. Options traded over the counter expose the Fund to counterparty risk in the event the counterparty does not perform. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of July 31, 2010, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

INVESTMENTS IN SECURITIES	QUOTED PRICES (LEVEL 1)	SIGNIFICANT OTHER OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL
Equity securities				
COMMON STOCKS	\$265,802,146	\$ 0	\$0	\$265,802,146
CONVERTIBLE PREFERRED STOCKS	0	4,260,000	0	4,260,000
PREFERRED STOCKS	80,155,123	71,985,225	0	152,140,348
CLOSED END FUNDS	4,375,000	0	0	4,375,000
Investment companies	23,405,477	0	0	23,405,477
	-----	-----	--	-----
	\$373,737,746	\$76,245,225	\$0	\$449,982,971

Edgar Filing: WELLS FARGO ADVANTAGE GLOBAL DIVIDEND OPPORTUNITY FUND - Form N-Q

As of July 31, 2010, the inputs used in valuing the Fund's other financial instruments, which are carried at fair value, were as follows:

OTHER FINANCIAL INSTRUMENTS	QUOTED PRICES (LEVEL 1)	SIGNIFICANT OTHER OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL
WRITTEN OPTIONS	\$0	\$(1,320,602)	\$0	\$(1,320,602)

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	PREFERRED STOCKS	WRITTEN OPTIONS
Balance as of Novemeber 1, 2009	\$ 701,424	\$ (49,648)
Realized gains or losses	(45,687)	186,115
Change in unrealized gains or losses	125,447	(136,467)
Net purchases (sales)	(781,184)	0
Transfers in and/or out of Level 3	0	0
Balance as of July 31, 2010	\$ 0	\$ 0
Change in unrealized gains or losses included in earnings relating to securities still held at July 31, 2010	\$ 0	\$ 0

DERIVATIVE TRANSACTIONS

During the nine months ended July 31, 2010, the Fund entered into written options for hedging purposes.

Open call options written as of July 31, 2010 were as follows:

Expiration Date		Number of Contracts	Strike Price	Market Value	Premiums Received
08/20/2010	Amsterdam Exchange Index	465	347 EUR	\$ 76,957	\$111,208
08/20/2010	CAC 40 Index	427	3,774 EUR	147,792	204,352
08/20/2010	DAX Index	497	6,489 EUR	24,287	99,266
