Item 1.01. Entry into a Material Definitive Agreement.

On March 18, 2011, Illumina, Inc. (the Company) entered into an indenture, dated as of March 18, 2011 (the Indenture), between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee (the Trustee), relating to the issuance of \$800 million aggregate principal amount of 0.25% Convertible Senior Notes due 2016 (the Notes) in an offering conducted in accordance with Rule 144A under the Securities Act of 1933, as amended (the Securities Act). The Company has granted to the initial purchasers of the Notes an option to purchase from the Company, within 30 days, up to an additional \$120 million aggregate principal amount of Notes at the offering price less the initial purchasers' discount. The net proceeds from the offering, after deducting the initial purchasers' discount and the estimated offering expenses payable by the Company, were approximately \$785.5 million. The net proceeds will be approximately \$903.4 million if the initial purchasers exercise their option to purchase additional Notes in full. The Notes will be convertible into cash, shares of our Common Stock or a combination of cash and shares of our Common Stock, at our election, based on an initial conversion rate, subject to adjustment, of 11.9687 shares per \$1,000 principal amount of Notes (which represents an initial conversion price of approximately \$83.55 per share), only in the following circumstances and to the following extent: (1) during the five business-day period after any 10 consecutive trading day period (the measurement period) in which the trading price per Note for each day of such measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such day; (2) during any calendar quarter (and only during that quarter) after the calendar quarter ending March 31, 2011, if the last reported sale price of our common stock for 20 or more trading days in the period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter exceeds 130% of the applicable conversion price in effect on the last trading day of the immediately preceding calendar quarter; (3) upon the occurrence of specified events described in the Indenture; and (4) at any time on or after December 15, 2015 through the second scheduled trading day immediately preceding the maturity date. The Company will pay 0.25% interest per annum on the principal amount of the Notes, payable semiannually in arrears in cash on March 15 and September 15 of each year, beginning September 15, 2011. The Notes mature on March 15, 2016.

If a designated event, as defined in the Indenture, occurs prior to the maturity date, subject to certain limitations, holders of the Notes may require the Company to repurchase all or a portion of their Notes for cash at a repurchase price equal to 100% of the principal amount of the Notes to be repurchased, plus any accrued and unpaid interest to, but excluding, the repurchase date.

The Notes will be senior unsecured obligations and will rank equally with all of the Company's existing and future senior debt and senior to any of the Company's subordinated debt. The Notes will be structurally subordinated to all existing or future liabilities of our subsidiaries and will be effectively subordinated to our existing or future secured indebtedness to the extent of the value of the collateral.

In addition, the Company used approximately \$314.3 million of the net proceeds to purchase 4,890,500 shares of its common stock in privately negotiated transactions concurrently with the offering.
