NOTE 1 Organization and Description of the Business

The Company

Financial Engines, Inc. (the Company) was incorporated on May 13, 1996 under the laws of the State of California and is headquartered in Palo Alto, California. In February 2010, the Company was reincorporated under the laws of the State of Delaware.

Financial Engines is a provider of independent, technology-enabled portfolio management services, investment advice and retirement income services to participants in employer-sponsored defined contribution plans, such as 401(k) plans. The Company helps investors plan for retirement by offering personalized plans for saving and investing, as well as by providing assessments of retirement income needs and readiness, regardless of personal wealth or investment account size. The Company uses its proprietary advice technology platform to provide independent, personalized portfolio management, investment advice and retirement income services to millions of retirement plan participants on a cost-efficient basis.

The Company continues to devote the majority of its resources to the growth of the Company's business in accordance with its business plan. The Company's activities have been financed primarily through the sale of equity securities, and more recently from ongoing cash provided by operating activities and proceeds from the exercise of stock options.

NOTE 2 Basis of Presentation

Interim Financial Statements

The accompanying condensed consolidated financial statements and notes thereto are unaudited. These unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and applicable rules and regulations of the Securities and Exchange Commission (SEC) regarding interim financial reporting. Certain information and note disclosures normally included in the financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. Accordingly, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010, as filed on March 22, 2011 with the SEC (the 2010 Annual Report). The condensed consolidated balance sheet as of December 31, 2010, included herein, was derived from the audited financial statements as of that date but does not include all disclosures including notes required by GAAP.

The unaudited interim condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and include all adjustments necessary for the fair presentation of the Company's balance sheets as of December 31, 2010 and March 31, 2011, the Company's statements of operations for the three months ended March 31, 2010 and 2011 and the Company's statements of cash flows for the three months ended March 31, 2010 and 2011. The results for the three months ended March 31, 2011 are not necessarily indicative of the results to be expected for the year ending December 31, 2011.

Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. Comprehensive income is the same as net income for all periods presented.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Significant items subject to such estimates and assumptions include revenue recognition, income taxes, stock-based compensation, direct response advertising, the carrying amount and useful lives of property, equipment and internal use software cost, and deferred sales commissions. Actual results could differ from those estimates under different assumptions or conditions.

Revenue Recognition

Effective January 1, 2011, the Company has adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2009-13 Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements. The adoption of ASU 2009-13 does not have a material impact on the Company's financial condition and results of operations.

NOTE 3 Cash and Cash Equivalents

Cash and cash equivalents consist of the following:

	December 31, 2010	March 31, 2011
	(In thousands)	
Cash	\$ 5,265	\$ 6,607
Money market fund	109,672	110,171
Total cash and cash equivalents	\$ 114,937	\$ 116,778

NOTE 4 Concentration of Credit Risk and Fair Value of Financial Instruments

The following table summarizes the Company's financial assets measured at fair value on a recurring basis:

	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)⁽¹⁾	Significant Other Observable Inputs (Level 2)⁽²⁾	Significant Other Unobservable Inputs (Level 3)⁽³⁾
		(In thousands)		
Assets:				
Money Market Funds				
December 31, 2010 ⁽⁴⁾	\$ 110,622	\$ 110,622	\$	\$
March 31, 2011 ⁽⁴⁾	\$ 111,121	\$ 111,121	\$	\$

- (1) Level 1: Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- (2) Level 2: Inputs reflect quoted prices for identical assets or liabilities in markets that are not active; quoted prices for similar assets or liabilities in active markets; inputs other than quoted prices that are observable for the assets or liabilities; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- (3) Level 3: Unobservable inputs reflecting the Company's own assumptions incorporated in valuation techniques used to determine fair value. These assumptions are required to be consistent with market participant assumptions that are reasonably available.
- (4) Included in this balance is \$950,000 of restricted cash, classified in other assets in the accompanying condensed consolidated balance sheet, being held in a money market account pledged as collateral for letters of credit issued in connection with certain operating lease contracts.

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash, cash equivalents and accounts receivable. The Company deposits its cash and cash equivalents primarily with a major bank, in which deposits may exceed federal deposit insurance limits.

The Company's customers are concentrated in the United States of America. The Company performs ongoing credit evaluations of its customers and does not require collateral. The Company reviews the need for allowances for potential credit losses and such losses have been insignificant to date.

Significant customer information is as follows:

	December 31, 2010	March 31, 2011
Percentage of accounts receivable:		
JPMorgan	21%	20%
	Three Months Ended March 31,	
	2010	2011
Percentage of revenue:		
JPMorgan	18%	17%

NOTE 5 Stockholders Equity

Stock Dividend

Upon the initial public offering on March 16, 2010, the Company issued 456,643 shares of common stock as a dividend to the holders of Series E preferred stock so that each share of preferred stock would maintain the one-to-one conversion ratio to common stock. The fair value of the dividend at \$12.00 per share was determined to be \$5.5 million.

Stock-based Compensation

The following table summarizes the stock-based compensation by functional area:

	Three Months Ended March 31,	
	2010	2011
	(In thousands)	
Stock-based compensation:		
Cost of revenue	\$ 219	\$ 128

NOTE 6 Net Income (Loss) Per Common Share

Basic net income (loss) per common share is computed by dividing net income (loss) attributable to holders of common stock by the weighted average number of common shares outstanding during the period less the weighted average number of unvested restricted common shares subject to the right of repurchase. Diluted net income per common share is computed by giving effect to all potential dilutive common shares, including options, unvested restricted common stock subject to repurchase, warrants and convertible preferred stock.

The following table sets forth the computation of basic and diluted net income (loss) per share attributable to holders of common stock:

	Three Months Ended March 31,	
	2010	2011
	(In thousands, except per share data)	
Numerator (basic and diluted):		
Net income	\$ 1,592	\$ 2,564
Less: Stock dividend	5,480	
Net income (loss) attributable to holders of common stock	\$ (3,888)	\$ 2,564
Denominator (basic):		
Weighted average common shares outstanding	16,171	43,720
Less: Weighted average unvested restricted common shares subject to repurchase	(346)	(152)
Net weighted average common shares outstanding	15,825	43,568
Denominator (diluted):		
Weighted average common shares outstanding	15,825	43,568
Dilutive stock options and awards outstanding		5,372
Less: Weighted average unvested restricted common shares subject to repurchase		152
Net weighted average common shares outstanding	15,825	49,092
Net income (loss) per share attributable to holders of common stock:		
Basic	\$ (0.25)	\$ 0.06
Diluted	\$ (0.25)	\$ 0.05
Diluted net income (loss) per share does not include the effect of the following anti-dilutive common equivalent shares:		

**Three Months Ended
March 31,**

	2010	2011
	(In thousands)	
Stock options and awards outstanding	11,625	71
Unvested restricted common shares subject to repurchase	346	
Common shares from preferred stock	18,452	
Total anti-dilutive common equivalent shares	30,423	71

Table of Contents

FINANCIAL ENGINES, INC. AND SUBSIDIARIES

(Unaudited)

NOTE 7 Income Taxes

The Company recorded an income tax provision of \$0.1 million and \$1.2 million for the three months ended March 31, 2010 and 2011, respectively. The Company's effective tax rate was 7% and 33% for the three months ended March 31, 2010 and 2011, respectively. The income tax provision for the three months ended March 31, 2011 was due primarily to federal and state income taxes. The income tax provision for the three months ended March 31, 2010 was due primarily to state income taxes and local taxes.

Prior to September 30, 2010, the Company maintained a full valuation allowance for its net deferred tax assets since the likelihood of the realization of those assets had not become more likely than not. In the third quarter of 2010, the Company believed that sufficient positive evidence existed from historical operations and future projections to conclude that it was more likely than not to fully realize its federal deferred tax assets and to partially realize its State of California deferred tax assets; therefore, the Company released all of its federal valuation allowances and a portion of its State of California valuation allowances. The Company continues to apply a valuation allowance on certain deferred tax assets in the amount of \$2.5 million as of March 31, 2011 relating to net operating losses for the state of California as it is not more likely than not that the Company will be able to realize these assets prior to their expiration.

The Company is subject to income taxes in the U.S. federal jurisdiction and various state jurisdictions. All tax years since inception are open and may be subject to examination in one or more jurisdictions. The Company has undergone a federal tax examination for fiscal years 2006 and 2007 and the results did not have a material impact on its financial condition and results of operations.

At March 31, 2011, the Company had net operating loss carryforwards for federal purposes of approximately \$120.0 million that expire at varying dates from 2020 to 2028. Of the \$120.0 million, approximately \$25.4 million relates to excess tax benefits related to stock options. When realized, the excess tax benefits will be credited to additional paid-in capital. The timing and manner in which the Company may utilize the net operating loss carryforwards in subsequent tax years will be limited to the Company's ability to generate future taxable income and, potentially, by the application of the ownership change rules under Section 382 of the Internal Revenue Code.

As of December 31, 2010 and March 31, 2011, the Company had gross unrecognized tax benefits for income taxes associated with uncertain tax positions of \$6.2 million. The balance of the gross unrecognized tax benefits is not expected to materially change in the next twelve months.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits as a component of income tax expense. During the three months ended March 31, 2010 and 2011, the accrued interest and penalties were immaterial.

NOTE 8 Commitments and Contingencies

Commitments

In March 2011, the Company entered into a new operating lease contract for additional office space in Boston. The total of the future minimum payments associated with the additional space are estimated to be \$1.1 million over the lease term through January 2015.

Contingencies

The Company includes service level commitments to its customers warranting certain levels of reliability and performance. To date, the Company has not incurred any material costs as a result of such commitments and has not accrued any liabilities related to such obligations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Report on Form 10-Q contains forward-looking statements that involve risks and uncertainties. In some cases, you can identify forward-looking statements by terms such as may, might, will, objective, intend, should, could, continue, can, would, expect, believe, design, estimate, predict, potential, plan, or the negative of these terms. These forward-looking statements include, but are not limited to, statements about our plans for future services and enhancements of existing services; our expectations regarding our costs and expenses and revenue; enrollment metrics, AUM, AUC and equity exposures; our net deferred tax asset; the percentage of revenue derived from fees based on the market value of AUM and the impact of AUM on our operating results, our anticipated cash needs and our estimates regarding our capital requirements and our needs for additional financing; our anticipated growth strategies; our ability to retain and attract customers; our regulatory environment; our legal proceedings; intellectual property; our expectations regarding competition; use of proceeds; market risk; and sources of new revenue. These statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to differ materially from those expressed or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to, the risks set forth in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, as filed on March 22, 2011 with the SEC, or the 2010 Annual Report, under Item 1A in Part I, Risk Factors. Given these risks and uncertainties, you should not place undue reliance on these forward-looking statements. These forward-looking statements speak only as of the date hereof. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Our investment advisory and management services are provided through our subsidiary, Financial Engines Advisors L.L.C., a federally registered investment adviser. References in this Report to Financial Engines, our company, the Company, we, us and our refer to Financial Engines, Inc. and its consolidated subsidiaries during the periods presented unless the context requires otherwise.

Overview

We are a leading provider of independent, technology-enabled portfolio management, investment advice and retirement income services to participants in employer-sponsored defined contribution retirement plans, such as 401(k) plans. We use our proprietary advice technology platform to provide our services to millions of retirement plan participants on a cost-efficient basis. Our business model is based on workplace delivery of our services. We target three key constituencies in the retirement plan market: plan participants, plan sponsors and plan providers.

Revenue

We generate revenue primarily from management fees on Assets Under Management, or AUM, as well as from platform fees, by providing portfolio management services, investment advice and retirement income services to plan participants of employer-sponsored retirement plans.

Professional Management.

We derive professional management revenue from member fees paid by or on behalf of plan participants who are enrolled in our Professional Management service for the management of their account assets. Our Professional Management service is a discretionary investment management service that includes retirement income services, a Retirement Plan analyzing investments, contribution rate and projected retirement income, a Retirement Checkup designed to help plan participants develop a strategy for closing the gap, if any, between the participant's retirement goal and current retirement income forecast and retirement income services. The services are generally made available to plan participants in a 401(k) plan by written agreements with the plan provider, plan sponsor and the plan participant.

The arrangement generally provides for member fees based on the value of assets we manage for plan participants and is generally payable quarterly in arrears. Prior to October 1, 2010, our professional management revenue was generally the product of member fee rates and the value of AUM at or near the end of each quarter. Effective October 1, 2010, we changed our method of calculating fees for substantially all members with which we have a direct advisory relationship from quarterly to monthly, thereby calculating fees as the product of member fee rates and the

value of AUM at or near the end of each month for members. As a result, the majority of our member fees across both advisory and subadvisory relationships are calculated on a monthly basis. In general, we expect this new methodology to reduce the impact of financial market volatility on our professional management revenue, although this methodology may result in lower member fees if the financial markets are down when member fees are calculated, even if the market had performed well earlier in the month or the quarter.

Due to the fee structure with one of our plan providers under which we recognize the difference between earned revenue and minimum contractual revenue in the fourth quarter, we typically see an increase in professional management revenue in the fourth quarter.

In order to encourage enrollment into our Professional Management service, we use a variety of promotional techniques, some of which can potentially impact the amount of revenue recognized, the timing of revenue recognition or both. Historically, we have seen a general preference from plan sponsors to schedule campaigns in the second and third quarters of the year and we expect this trend to continue.

We would generally expect our professional management revenue to continue to increase as a percentage of overall revenue, which will cause our revenue to become increasingly more sensitive to market performance.

Enrollment Metrics

We measure enrollment in our Professional Management service by members as a percentage of eligible plan participants and by AUM as a

Table of Contents

percentage of Assets Under Contract, or AUC, in each case across all plans where the Professional Management service is available for enrollment, including plans where enrollment campaigns are not yet concluded or have not commenced.

AUM is defined as the amount of retirement plan assets that we manage as part of our Professional Management service. Our AUM is the value of assets under management as reported by plan providers at or near the end of each month or quarter. Our members are the plan participants who are enrolled in our Professional Management service as reported by plan providers at or near the end of each month or quarter.

AUC is defined as the amount of assets in retirement plans under contract for which the Professional Management service has been made available to eligible participants. Our AUC and eligible participants do not include assets or participants in plans where we have signed contracts but for which we have not yet made the Professional Management service available. Eligible participants are reported by plan providers as of various points in time. The value of assets under contract is reported by plan providers as of various points in time and is not always updated or marked to market. If markets have declined since the reporting date, or if assets have left the plan, our AUC may be overstated. If markets have risen since the reporting date, or if assets have been added to the plan, our AUC may be understated. Some plan participants may not be eligible for our services due to plan sponsor limitations on employees treated as insiders for purposes of securities laws or other characteristics of the plan participant. Certain securities within a plan participant's account may be ineligible for management by us, such as employer stock subject to trading restrictions, and we do not manage or charge a fee for that portion of the account. In both of these circumstances, assets of the relevant participants may be included in AUC but cannot be converted to AUM. We believe that AUC can be a useful indicator of the additional plan assets available for enrollment efforts that, if successful, would result in these assets becoming AUM. We believe that total eligible participants provides a useful approximation of the number of participants available for enrollment into the Professional Management service.

In addition to measuring enrollment in all plans where the Professional Management service is available, we measure enrollment in plans where the Professional Management service has been available for at least 14 months and in plans where it has been available for at least 26 months.

	Members as a Percentage of Eligible Participants	AUM as a Percentage of AUC
All plans as of March 31, 2011		
Professional Management available	10.3%	10.0%
Professional Management available 14 months or more	11.6%	11.7%
Professional Management available 26 months or more	12.6%	12.2%
As of March 31, 2011, the aggregate style exposure of the portfolios we managed was approximately as follows:		
Cash		4%
Bonds		23%
Domestic Equity		49%
International Equity		24%
Total		100%

We estimate that the aggregate percentage of equity exposures have ranged from a low of approximately 56% to a high of approximately 78% since we began managing assets on a discretionary basis in September 2004. These percentages can be affected by the asset exposures of the overall market portfolio, the demographics of our member

population, the number of members who have told us that they want to assume greater or lesser investment risk, and, to a lesser extent given the amount of assets we have under management, the proportion of our members for whom we have completed the transition from their initial portfolio.

Table of Contents*Changes in AUM*

The following table illustrates changes in our AUM from over the last four quarters:

	Q2 10	Q3 10	Q4 10	Q1 11
	(In billions)			
AUM, beginning of period	\$ 29.9	\$ 29.4	\$ 34.0	\$ 37.7
AUM from net enrollment ⁽¹⁾	0.6	1.8	1.0	1.1
Other ⁽²⁾	(1.1)	2.8	2.7	2.2
AUM, end of period	\$ 29.4	\$ 34.0	\$ 37.7	\$ 41.0

- (1) The aggregate amount of assets under management, at the time of enrollment, of new members who enrolled in our Professional Management service within the period less the aggregate amount of assets, at the time of cancellation, for voluntary cancellations from the Professional Management service within the period, less the aggregate amount of assets, as of the last available positive account balance, for involuntary cancellations occurring when the member's 401(k) plan account balance has been reduced to zero or when the cancellation of a plan sponsor contract for the Professional Management service has become effective within the period.
- (2) Other factors affecting assets under management include employer and employee contributions, market movement, plan administrative fees as well as participant loans and hardship withdrawals. We cannot separately quantify the impact of these factors as the information we receive from the plan providers does not separately identify these transactions or the changes in balances due to market movement.

Our AUM increases or decreases based on several factors. AUM can increase due to market performance, by the addition of new assets as participants enroll into our Professional Management service both at existing sponsors as well as at new sponsors where the services have been made available, and by the addition of new assets from employee and employer contributions into their 401(k) accounts. AUM can decrease due to market performance and by the reduction of assets as a result of members terminating their membership, members rolling their assets out of the retirement plan, and sponsors canceling the Professional Management service. Historically, member cancellation rates have typically increased during periods where there has been a significant decline in stock market performance and, in addition, member cancellation rates are typically the highest in the three months immediately following the completion of a given promotional campaign.

A substantial portion of the assets we manage is invested in equity securities, the market prices of which can vary substantially based on changes in economic conditions. An additional portion is invested in fixed income securities, which will generally have lower volatility than the equity market. Therefore, while any changes in equity market performance would significantly affect the value of our AUM, particularly for the AUM invested in equity securities, such changes would typically result in lower volatility for our AUM than the volatility of the equity market as a whole. Because a substantial portion of our revenue is derived from the value of our AUM, changes in fixed income or equity market performance could significantly affect the amount of revenue in a given period. If any of these factors reduces our AUM, the amount of member fees we would earn for managing those assets would decline, which in turn could negatively impact our revenue. Due to the current fee structure with one of our plan providers, we currently recognize the difference between annual earned professional management revenue and annual contractual minimums in the fourth quarter each year.

Platform

We derive platform revenue from recurring, subscription-based platform fees for access to either our full suite of services, including Professional Management, Online Advice service and Retirement Evaluation, or to our Online Advice service only, and to a lesser extent, from setup fees. Online Advice is a nondiscretionary Internet-based investment advisory service, which includes features such as: recommendations among the investment alternatives available in the employer sponsored retirement plan; a summary of the current value of the plan account; a forecast of

how much the plan account investments might be worth at retirement; whether a change is recommended to the contribution rate, risk and diversification and/or unrestricted employer stock holdings; and a projection of how much the participant may spend at retirement. Plan participants may use the service as frequently as they choose to monitor progress toward their financial goals, receive forecasts and investment recommendations and access educational content at our website. The arrangements generally provide for our fees to be paid by the plan sponsor, plan provider or the retirement plan itself, depending on the plan structure. Platform revenue is generally paid annually in advance and recognized ratably over the term of the subscription period beginning after the completion of customer setup and data connectivity. Setup fees are recognized ratably over the estimated average life of sponsor contracts, which is usually three to five years.

Table of Contents

Other Revenue.

Other revenue includes reimbursement for a portion of marketing and member materials from certain subadvisory relationships and reimbursement for providing personal statements to participants from a limited number of plan sponsors. The costs associated with these reimbursed print fulfillment materials are expensed to cost of revenue. In prior periods, a small portion of other revenue has been derived from a defined benefit consulting business which was discontinued as of December 31, 2010.

Costs and Expenses

Employee compensation and related expenses represent our largest expense and includes wages, cash incentive compensation expense, benefits expenses, employer payroll tax expense and non-cash stock-based compensation expense. Our cash incentive compensation plan is based, in part, on achieving pre-determined annual corporate financial objectives and may result in an increased current period expense while the anticipated revenue benefits associated with the achievement of such corporate financial objectives may be realized in future periods. We allocate compensation and other related expenses including stock-based compensation to our cost of revenue, research and development, sales and marketing, general and administrative as well as amortization of internal use software expense categories. While we expect our headcount to increase over time, we believe that the economies of scale in our business model can allow us to grow our compensation and related expenses at a lower rate than revenue.

Other costs and expenses include the costs of fees paid to plan providers related to the exchange of plan and plan participant data as well as implementing our transaction instructions for member accounts, marketing materials and postage, and amortization and depreciation for hardware and software purchases and support.

The following summarizes our cost of revenue and certain significant operating expenses:

Cost of Revenue. Cost of revenue includes fees paid to plan providers for connectivity to plan and plan participant data, printed materials fulfillment costs for certain subadvisory relationships for which a portion are reimbursed, printed member materials, and employee-related costs for technical operations, implementations, operations, advisor call center operations, portfolio management and customer support. Costs in this area are related primarily to payments to third parties, employee compensation and related expenses, and purchased materials. Costs for connectivity to plan and plan participant data are expected to increase proportionally with our professional management revenue, as well as by contractual increases in plan provider fees as a result of achieving certain milestones. The expenses included in cost of revenue are shared across the different revenue categories, and we are not able to meaningfully allocate such costs between separate categories of revenue. Consequently, all costs and expenses applicable to our revenue are included in the category cost of revenue in our statements of operations. Amortization of internal use software, a portion of which relates to our cost of revenue, is not included in cost of revenue but is reflected as a separate line item in our statement of operations.

Research and Development. Research and development expense includes costs associated with defining and specifying new features and ongoing enhancement to our Advice Engines and other aspects of our service offerings, financial research, quality assurance, related administration and other costs that do not qualify for capitalization. Costs in this area are related primarily to employee compensation for our investment research, product development and engineering personnel and related expenses and, to a lesser extent, related external consulting expenses.

Sales and Marketing. Sales and marketing expense includes costs associated with plan provider and plan sponsor relationship management, plan provider and plan sponsor marketing, direct sales, printing of and postage for marketing materials for direct advisory relationships and amortization of direct response advertising. Costs in this area are related primarily to employee compensation for sales and marketing personnel and related expenses, and also include commissions, printed materials and general marketing programs.

General and Administrative. General and administrative expense includes costs for finance, legal, compliance and administration. Costs in this area include employee compensation and related expenses and fees for consulting and professional services. We have incurred and we expect that we will continue to incur additional expenses as a result of becoming a public company for, among other things, SEC reporting and compliance, including compliance with the Sarbanes-Oxley Act of 2002, director fees, insurance, and other similar expenses.

Amortization of Internal Use Software. Amortization of internal use software expense includes engineering costs associated with (1) enhancing our advisory service platform and (2) developing internal systems for tracking member

data, including AUM, member cancellations and other related member statistics. Associated direct development costs are capitalized and amortized using the straight-line method over the estimated lives, typically three to five years, of the underlying technology. Costs in this area include employee compensation and related expenses, and fees for external consulting services.

Critical Accounting Estimates

There have been no changes in the matters for which we make critical accounting estimates in the preparation of our condensed consolidated financial statements during the three months ended March 31, 2011, as compared to those disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations for the fiscal year ended December 31, 2010 included in our 2010 Annual Report.

Table of Contents**Results of Operations**

The following tables set forth our results of operations. The period to period comparison of financial results is not necessarily indicative of future results.

	Three Months Ended March 31,		Three Months Ended March 31,		Increase (Decrease)	
	2010	2011	2010	2011	Amount	%
	(As a percentage of revenue)		(In thousands, except percentages)

Comparison of Three Months Ended March 31, 2010 and 2011***Revenue***

Total revenue increased approximately \$7.9 million, or 33%, from \$24.3 million for the three months ended March 31, 2010 to \$32.3 million for the three months ended March 31, 2011. The increase was due primarily to growth in professional management revenue of \$7.3 million for the three months ended March 31, 2011 compared to the three months ended March 31, 2010. Professional management revenue and platform revenue comprised 74% and 24%, respectively, of total revenue for the three months ended March 31, 2011.

Professional Management Revenue

Professional management revenue increased \$7.3 million, or 44%, from \$16.6 million for the three months ended March 31, 2010 to \$23.9 million for the three months ended March 31, 2011. The increase in professional management revenue for the three months ended March 31, 2011 was due primarily to an increase in the average AUM used to calculate fees from approximately \$29.9 billion for the three months ended March 31, 2010 to approximately \$40 billion for the three months ended March 31, 2011. This increase in AUM was driven primarily by increased net new enrollment resulting from marketing campaigns and other ongoing member acquisitions, market

appreciation and contributions. Effective October 1, 2010, we changed our method of calculating fees for substantially all members with which we have a direct advisory relationship from quarterly to monthly, thereby calculating fees as the product of member fee rates and the value of AUM at or near the end of each month for members.

Platform Revenue

Platform revenue increased approximately \$0.6 million, or 8%, from \$7.2 million for the three months ended March 31, 2010 to \$7.7 million for the three months ended March 31, 2011. The increase in platform revenue for the three months ended March 31, 2011 was due primarily to increased annual platform fee subscriptions revenue resulting from service availability at new sponsors.

Table of Contents*Cost of Revenue*

Cost of revenue, exclusive of amortization of internal use software, increased approximately \$3.2 million, or 37%, from \$8.5 million for the three months ended March 31, 2010 to \$11.6 million for the three months ended March 31, 2011. This increase was due primarily to an increase of \$2.2 million in fees paid to plan providers for connectivity to plan and plan participant data resulting from an increase in professional management revenue, as well as contractual increases in plan provider fees as a result of achieving certain AUM milestones. There was also an increase in printed marketing materials for subadvisory relationships and printed member materials of \$0.6 million. In addition, wages, cash incentive compensation expense and related overhead expenses for the three months ended March 31, 2011 were \$0.4 million higher than for the three months ended March 31, 2010 due to headcount growth and annual compensation increases effective April 1, 2010. As a percentage of revenue, cost of revenue increased from 35% for the three months ended March 31, 2010 to 36% for the three months ended March 31, 2011 due primarily to an increase in fees paid to plan providers for connectivity to plan and plan participant data and an increase in subadvisory campaign printed materials costs of which a portion is reimbursed by the applicable plan provider and classified as other revenue. We currently anticipate issuing an equity grant to certain of our existing employees in late 2011, which will likely result in a significant increase to stock-based compensation expense over the subsequent periods.

Research and Development

Research and development expense increased \$0.7 million, or 16%, from \$4.5 million for the three months ended March 31, 2010 to \$5.2 million for the three months ended March 31, 2011. There was a \$0.8 million increase in wages, cash incentive compensation expense and related overhead expenses for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 as a result of headcount growth and annual compensation increases effective April 1, 2010, offset by a decrease in stock-based compensation expense of \$0.2 million. In addition, there was a decrease in capitalized costs related to development of internal use software of \$0.1 million for the three months ended March 31, 2011. As a percentage of revenue, research and development expense decreased from 18% for the three months ended March 31, 2010 to 16% for the three months ended March 31, 2011. The decrease as a percentage of revenue was primarily due to a slower increase in employee-related expenses relative to the increase in revenue during the same period. We currently anticipate issuing an equity grant to certain of our existing employees in late 2011, which will likely result in a significant increase to stock-based compensation expense over the subsequent periods.

Sales and Marketing

Sales and marketing expense increased \$0.8 million, or 12%, from \$6.3 million for the three months ended March 31, 2010 to \$7.1 million for the three months ended March 31, 2011. There was a \$0.9 million increase in wages, cash incentive compensation expense and related overhead expenses for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 as a result of headcount growth and annual compensation increases effective April 1, 2010, offset by a decrease in stock-based compensation expense of \$0.2 million. Additionally, there was a \$0.1 million increase for the three months ended March 31, 2011 in marketing expenses, including creative development and other general marketing efforts. As a percentage of revenue, sales and marketing expense decreased from 26% for the three months ended March 31, 2010 to 22% for the three months ended March 31, 2011. The decrease as a percentage of revenue was primarily due to slower increase in employee-related expenses relative to the increase in revenue during the same period. We currently anticipate issuing an equity grant to certain of our existing employees in late 2011, which will likely result in a significant increase to stock-based compensation expense over the subsequent periods.

General and Administrative

General and administrative expense increased \$0.7 million, or 27%, from \$2.6 million for the three months ended March 31, 2010 to \$3.3 million for the three months ended March 31, 2011. This increase was due primarily to an increase in costs related to supporting operations as a public company, including audit, legal and insurance expenses of \$0.5 million for the three months ended March 31, 2011. In addition, wages, cash incentive compensation expense and related overhead expenses for the three months ended March 31, 2011 were \$0.4 million higher than for the three months ended March 31, 2010 due to headcount growth and annual compensation increases effective April 1, 2010, offset by a decrease in stock-based compensation expense of \$0.2 million. As a percentage of revenue, general and

administrative expense decreased from 11% for the three months ended March 31, 2010 to 10% for the three months ended March 31, 2011. We currently anticipate issuing an equity grant to certain of our existing employees in late 2011, which will likely result in a significant increase to stock-based compensation expense over the subsequent periods.

Amortization of Internal Use Software

Amortization of internal use software increased \$0.6 million, or 77%, from \$0.7 million for the three months ended March 31, 2010 to \$1.3 million for the three months ended March 31, 2011 due to the amortization of higher capitalized costs caused by an increase in development hours required for recently completed projects compared to projects in prior years.

Interest Expense

Interest expense was immaterial for the comparative periods.

Interest and Other Income, Net

Interest and other income, net, was immaterial for the comparative periods.

Table of Contents

Income Taxes

Income tax expense increased \$1.1 million from \$0.1 million for the three months ended March 31, 2010 to \$1.2 million for the three months ended March 31, 2011. Our effective tax rate was 7% and 33% for the three months ended March 31, 2010 and 2011, respectively. Our effective tax rate for 2010 was impacted by the release of valuation allowance as a result of ordinary income generated in 2010.

Prior to September 30, 2010, a full valuation allowance was maintained for the net deferred tax assets since the likelihood of the realization of those assets had not become more likely than not. In the third quarter of 2010, we concluded that sufficient positive evidence existed from historical operations and future projections that it was more likely than not to fully realize the federal deferred tax assets and to partially realize the State of California deferred tax assets, and therefore released all of the federal valuation allowances and a portion of the State of California valuation allowances. We continue to apply a valuation allowance on certain deferred tax assets in the amount of \$2.5 million as of March 31, 2011 relating to net operating losses for the State of California as it is not more likely than not to realize these assets prior to their expiration.

As a result of releasing a significant portion of our valuation allowance in 2010 we expect to see, on a go-forward basis, an effective tax rate of approximately 39%, excluding the effect of discrete items such as disqualifying stock dispositions.

Non-GAAP Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share

Adjusted EBITDA represents net income before net interest (income) expense, income tax expense (benefit), depreciation, amortization of internal use software, amortization of direct response advertising, amortization of deferred sales commissions and amortization of stock-based compensation. Adjusted Net Income represents net income (loss) before stock-based compensation expense, net of tax and certain other items such as the income tax benefit from the release of valuation allowances. Adjusted Earnings Per Share is defined as Adjusted Net Income divided by the weighted average of dilutive common share equivalents outstanding. For all applicable periods, the dilutive common share equivalents outstanding also include on a non-weighted basis the conversion of all preferred stock to common stock, the shares associated with the stock dividend and the shares sold in the initial public offering. This differs from the weighted average diluted shares outstanding used for purposes of calculating GAAP earnings per share.

Our management uses Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share as measures of operating performance, for planning purposes (including the preparation of annual budgets), to allocate resources to enhance the financial performance of our business, to evaluate the effectiveness of our business strategies and in communications with our board of directors concerning our financial performance. Adjusted EBITDA, among other factors, was used for the year ended December 31, 2010 and will be used for the year ended December 31, 2011 when determining incentive compensation for employees, including management.

We also present Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share as supplemental performance measures because we believe that these measures provide our board of directors, management and investors with additional information to measure our performance. Adjusted EBITDA provides comparisons from period to period by excluding potential differences caused by variations in the age and book depreciation of fixed assets (affecting relative depreciation expense) and amortization of internal use software, direct response advertising and commissions, and changes in interest expense and interest income that are influenced by capital structure decisions and capital market conditions. Management also believes it is useful to exclude stock-based compensation expense from Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share because non-cash equity grants made at a certain price and point in time, as well as certain other items such as the income tax benefit from the release of valuation allowances, do not necessarily reflect how our business is performing at any particular time.

Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share are not measurements of our financial performance under GAAP and should not be considered as an alternative to net income (loss), operating income, earnings per share or any other performance measures derived in accordance with GAAP, or as an alternative to cash flows from operating activities as a measure of our profitability or liquidity.

We understand that, although Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share are frequently used by securities analysts, lenders and others in their evaluation of companies, Adjusted EBITDA,

Edgar Filing: Financial Engines, Inc. - Form 10-Q

Adjusted Net Income and Adjusted Earnings Per Share have limitations as an analytical tool, and you should not consider them in isolation, or as a substitute for an analysis of our results as reported under GAAP. In particular you should consider:

Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share do not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share do not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share do not reflect the non-cash component of employee compensation;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized often will have to be replaced

Table of Contents

in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements; and

Other companies in our industry may calculate Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share differently than we do, limiting their usefulness as a comparative measure.

Management compensates for the inherent limitations associated with using Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share measures through disclosure of such limitations, presentation of our financial statements in accordance with GAAP and reconciliation of Adjusted EBITDA, Adjusted Net Income and Adjusted Earnings Per Share to the most directly comparable GAAP measure, net income (loss). Further, management also reviews GAAP measures and evaluates individual measures that are not included in Adjusted EBITDA, such as our level of capital expenditures, equity issuance and interest expense, among other measures.

The table below sets forth a reconciliation of net income to Adjusted EBITDA based on our historical results:

	Three Months Ended March 31,	
	2010	2011
	(In thousands)	
Net income	\$ 1,592	\$ 2,564
Interest expense, net	72	(3)
Income tax expense	123	1,248
Depreciation	438	488
Amortization of internal use software	696	1,211
Amortization and impairment of direct response advertising	162	496
Amortization of deferred sales commissions	319	299
Stock-based compensation	1,937	1,303
Non-GAAP Adjusted EBITDA	\$ 5,339	\$ 7,606

The table below sets forth a reconciliation of net income to Adjusted Net Income and Adjusted Earnings Per Share on our historical results:

	Three Months Ended March 31,	
	2010	2011
	(In thousands, except per share amounts)	
Net income	\$ 1,592	\$ 2,564
Stock-based compensation, net of tax ⁽¹⁾	1,197	805
Non-GAAP Adjusted Net Income	\$ 2,789	\$ 3,369
Non-GAAP Adjusted Earnings Per Share	\$ 0.06	\$ 0.07
Shares of common stock outstanding	41,130	43,720
Dilutive restricted stock and stock options	3,680	5,372
Non-GAAP adjusted weighted common shares outstanding	44,810	49,092

- (1) For the calculation of Adjusted Net Income, an estimated statutory tax rate of 38.2% has been applied to stock-based compensation for all periods presented.

Table of Contents**Liquidity and Capital Resources***Sources of Liquidity*

To date, our operations have been financed through the sale of equity securities, including net cash proceeds in connection with our initial public offering of common stock completed March 16, 2010 of approximately \$79.0 million, after deducting underwriting discounts and offering costs, cash provided by ongoing operating activities and proceeds from the exercise of stock options.

Consolidated Cash Flow Data

	Three Months Ended March 31,	
	2010	2011
	(In thousands)	
Net cash provided by (used in) operating activities	\$ 136	\$ (414)
Net cash used in investing activities	(2,102)	(2,558)
Net cash provided by financing activities	81,448	4,813
Net increase in cash and cash equivalents	\$ 79,482	\$ 1,841
Cash and cash equivalents, end of period	\$ 100,195	\$ 116,778

Operating Activities

Net cash used in operating activities for the three months ended March 31, 2011 was \$0.4 million compared to net cash provided by operating activities of \$0.1 million for the three months ended March 31, 2010. The decrease in cash provided by (used in) operating activities for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 was due to a net decrease in operating assets and liabilities of \$1.6 million. This decrease was primarily a result of payments related to our 2010 annual cash incentive compensation program and an increase in accounts receivable, offset by an increase in accounts payable. This decrease was partially offset by an increase in operating results of \$1.0 million adjusted for non-cash increases related primarily to deferred income taxes, amortization of internal use software and amortization of direct response advertising.

Investing Activities

Net cash used in investing activities was \$2.6 million for the three months ended March 31, 2011 compared to \$2.1 million for the three months ended March 31, 2010. For the three months ended March 31, 2011, net cash used for the purchase of property and equipment increased \$0.6 million, as we spent \$1.1 million for the three months ended March 31, 2011 compared to \$0.5 million for the three months ended March 31, 2010. This increase was due to computer hardware purchases related to technical operations upgrades and overall headcount growth. For the three months ended March 31, 2011, we capitalized \$1.4 million of internal use software costs compared to \$1.6 million for the three months ended March 31, 2010.

Financing Activities

Net cash provided by financing activities was \$4.8 million for the three months ended March 31, 2011 compared to net cash provided by financing activities of \$81.4 million for the three months ended March 31, 2010. For the three months ended March 31, 2011, we received \$6.3 million of proceeds from the issuance of common stock due to the exercise of stock options, compared to \$82.2 million related to our initial public offering which occurred during the three months ended March 31, 2010. We incurred increased cash payments of \$1.7 million associated with net share settlements for stock-based awards minimum tax withholdings between the comparable periods.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Contractual Obligations

In March 2011, we entered into a new operating lease contract for additional office space in Boston. The total of the future minimum payments associated with the additional space are estimated to be \$1.1 million over the lease term through January 2015.

Item 3. *Quantitative and Qualitative Disclosures about Market Risk*

Market Risk

Our exposure to market risk is directly related to our role as an investment manager for investor accounts for which we provide portfolio management services. For the three months ended March 31, 2011, 69% of our revenue was derived from fees based on the market value of AUM. We expect this percentage to increase over time.

A substantial portion of the assets we manage is invested in equity securities, the market prices of which can vary substantially based on changes in economic conditions. An additional portion is invested in fixed income securities, which will generally have lower volatility than the equity market. Therefore, while any changes in equity market performance would significantly affect the value of our AUM, particularly for the AUM invested in equity securities, such changes would typically result in lower volatility for our AUM than the volatility of the equity market as a whole. Because a substantial portion of our revenue is derived from the value of our AUM, any changes in fixed income or equity market performance would significantly affect the amount of revenue in a given period. If any of these factors reduces our AUM, the amount of member fees we would earn for managing those assets would decline, which in turn could negatively impact our revenue.

Item 4. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, or the Exchange Act, that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is communicated to our management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, but not absolute, assurance that the objectives of the disclosure controls and procedures are met. Our disclosure controls and procedures have been designed to meet the reasonable assurance standards. Additionally, in designing disclosure controls and procedures, our management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures is also based in part upon certain assumptions about the likelihood of future events and therefore are designed to provide a standard of reasonable, but not absolute, assurance that it will succeed in achieving its stated goals under all potential future conditions.

Based on their evaluation, our principal executive officer and our principal financial officer concluded that as of March 31, 2011, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There were no changes in internal control over financial reporting during the quarter ended March 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes in our risk factors from those disclosed in Part 1, Item 1A of our 2010 Annual Report.

Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds*

Unregistered Sales of Equity Securities

As previously reported on our Current Reports on Form 8-K filed on February 4, March 3 and April 27, 2011, for the three months ended March 31, 2011, we issued 1,183,814 shares of unregistered common stock for an aggregate purchase price of \$6.3 million upon the exercise of previously granted options which was paid in cash. These transactions were effected under Rule 701 of the Securities Act of 1933, applicable to our 1998 Stock Option Plan. All recipients either received adequate information about us or had access, through employment or other relationships, to such information. There were no underwriters employed in connection with these transactions.

Item 6. *Exhibits*

Exhibit

Number	Description
31.1	Certificate of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. Section 1350).
