Note 2 **Significant Accounting Policies**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses for the periods. Actual results could differ from those estimates. Certain prior period amounts and disclosures have been reclassified to conform to the current period financial presentation. Book value per share is computed by dividing total shareholders' equity by the number of shares issued and outstanding at the end of the measurement period. The following is a summary of the Company's significant accounting policies:

Principles of Consolidation

The accompanying consolidated financial statements include the operations of the Company and its subsidiaries. All material inter-company transactions and balances have been eliminated in consolidation.

Segment Information

Management has determined that the Company operates in one business segment, namely providing investment management and administration services to mutual funds, separate accounts, and private investment funds. Therefore, no disclosures relating to operating segments are required in annual or interim financial statements.

Cash and Cash Equivalents

Cash and cash equivalents include demand deposits and money market funds.

Table of ContentsNote 2 Significant Accounting Policies (Continued)Accounts Receivable

Accounts receivable are recorded when they are due and are presented in the balance sheet, net of any allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible. Any allowance for doubtful accounts is estimated based on the Company's historical losses, existing conditions in the industry, and the financial stability of those individuals or entities that owe the receivable. No allowance for doubtful accounts was deemed necessary at June 30, 2011 or December 31, 2010.

Valuation of Investment Portfolio

Investments held by the Company are valued based upon the definition of Level 1 inputs and Level 2 inputs. Level 1 inputs are defined as fair values which use quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are defined as quoted prices in markets that are not considered to be active for identical assets or liabilities, quoted prices in active markets for similar assets or liabilities and inputs other than quoted prices that are directly observable or indirectly through corroboration with observable market data. The following table summarizes the Company's investments valued based upon Level 1 and Level 2 inputs as of June 30, 2011 and December 31, 2010:

| | June 30, 2011 | December 31, 2010 |
|----------------|---------------|----------------------|
| Level 1 Inputs | \$ 1,321,634 | \$ 1,265,998 |
| Level 2 Inputs | 9,246,575 | 10,261,062 |

Level 1 investments are all registered investment companies (mutual funds). Level 2 investments are all limited partnerships. There were no transfers in or out of the levels.

The changes in market values on the investments are recorded in the Consolidated Statements of Income as investment return.

Limited Partnership Interests

DHCM is the managing member of Diamond Hill General Partner, LLC, the General Partner of Diamond Hill Investment Partners, LP (DHIP), Diamond Hill Investment Partners II, LP (DHIP II), Diamond Hill Research Partners, LP (DHRP), and Diamond Hill Research Partners International, LP (DHRPI) collectively (the Partnerships) each a limited partnership whose underlying assets consist of marketable securities.

DHCM, in its role as managing member of the General Partner, has the power to direct the Partnerships' economic activities and the right to receive investment advisory and performance incentive fees that are significant to the Partnerships. The Partnerships are subject to investment company accounting and, as a result, they have not been consolidated in presenting the accompanying financial statements. DHCM's investments in these partnerships are reported as a component of the Company's investment portfolio, valued at DHCM's proportionate interest in the net asset value of the marketable securities held by the Partnerships. Gains and losses attributable to changes in the value of DHCM's interests in the Partnerships are included in the Company's reported investment return.

The Company's exposure to loss as a result of its involvement with the Partnerships is limited to the amount of its investments. DHCM is not obligated to provide financial or other support to the Partnerships, other than its investments to date and its contractually provided investment advisory responsibilities, and has not provided such support. The Company has not provided liquidity arrangements, guarantees or other commitments to support the Partnerships' operations, and the Partnerships' creditors and interest holders have no recourse to the general credit of the Company.

Table of Contents**Note 2 Significant Accounting Policies (Continued)****Limited Partnership Interests (Continued)**

Several board members, officers and employees of the Company invest in the Partnerships through Diamond Hill General Partner, LLC. These individuals receive no remuneration as a result of their personal investment in the Partnerships. The capital of Diamond Hill General Partner, LLC is not subject to a management fee or an incentive fee.

Furniture and Equipment

Furniture and equipment, consisting of computer equipment, furniture, and fixtures, are carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over estimated lives of three to seven years.

Revenue Recognition General

The Company earns substantially all of its revenue from investment advisory, distribution, and fund administration services. Mutual fund investment advisory and administration fees, generally calculated as a percentage of assets under management, are recorded as revenue as services are performed. Managed account and private investment fund clients provide for monthly or quarterly management fees, in addition to quarterly or annual performance fees.

Revenue Recognition Performance Incentive Revenue

The Company's private investment funds and certain managed accounts provide for performance incentive fees. For management fees based on a formula, there are two methods by which incentive revenue may be recorded. Under Method 1, incentive fees are recorded at the end of the contract period; under Method 2, the incentive fees are recorded periodically and calculated as the amount that would be due under the formula at any point in time as if the contract was terminated at that date. Management has chosen Method 1, in which incentive fees are recorded at the end of the contract period for the specific client in which the incentive fee applies. The table below shows assets under management (AUM) subject to performance incentive fees and the performance incentive fees, as calculated under each of the above methods:

| | As Of June 30, | |
|--|----------------|----------------|
| | 2011 | 2010 |
| AUM Contractual Period Ends Quarterly | \$ 102,510,121 | \$ 99,737,213 |

Note 2 Significant Accounting Policies (Continued)

Revenue Recognition Mutual Fund Administration

DHCM has an administrative and transfer agency services agreement with the Funds, under which DHCM performs certain services for each fund. These services include mutual fund administration, transfer agency and other related functions. For performing these services, each fund compensates DHCM a fee, which is calculated using the following annual rates times the average daily net assets of each respective series and share class:

| | Prior to February 28, 2011 | After February 28, 2011 |
|---------------------|----------------------------------|-------------------------------|
| Class A and Class C | 0.30% | 0.26% |
| Class I | 0.19% | 0.24% |

The Funds have selected and contractually engaged certain vendors to fulfill various services to benefit the Funds shareholders or to satisfy regulatory requirements of the Funds. These services include, among others, required fund shareholder mailings, federal and state registrations, and legal and audit services. DHCM, in fulfilling a portion of its role under the administration agreement with the Funds, acts as agent to pay these obligations of the Funds. Each vendor is independently responsible for fulfillment of the services it has been engaged to provide and negotiates fees and terms with the management and board of trustees of the Funds. The fee that the Funds pay to DHCM is reviewed annually by the Funds' board of trustees and specifically takes into account the contractual expenses that DHCM pays on behalf of the Funds. As a result, DHCM is not involved in the delivery or pricing of these services and bears no risk related to these services. Revenue has been recorded net of these Fund related expenses, in accordance with the appropriate accounting treatment for this agency relationship. In addition, DHCM finances the upfront commissions which are paid by the Fund's principal underwriter to brokers who sell Class C shares of the Funds. As financier, DHCM advances to the underwriter the commission amount to be paid to the selling broker at the time of sale. These advances are capitalized and amortized over 12 months to correspond with the repayments DHCM receives from the principal underwriter to recoup this commission advancement.

Beacon Hill has underwriting and administrative service agreements with certain clients, including registered mutual funds. The fee arrangements vary from client to client based upon services provided and are recorded as revenue under Mutual Fund Administration on the Consolidated Statements of Income. Part of Beacon Hill's role as underwriter is to act as an agent on behalf of its mutual fund clients to receive 12b-1/service fees and commission revenue and facilitate the payment of those fees and commissions to third parties who provide services to the funds and their shareholders. The amount of 12b-1/service fees and commissions are determined by each mutual fund client and Beacon Hill bears no financial risk related to these services. As a result, 12b-1/service fees and commission revenue has been recorded net of the expense payments to third parties, in accordance with the appropriate accounting treatment for this agency relationship.

Third Party Distribution Expense

Third party distribution expenses are earned by various third party financial services firms based on sales and/or assets of the Company's investment products generated by the respective firms. Expenses recognized represent actual payments made to the third party firms and are recorded in the period earned based on the terms of the various contracts.

Income Taxes

The Company accounts for income taxes through an asset and liability approach. A net deferred tax asset or liability is determined based on the tax effects of the various temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

The Company has analyzed its tax positions taken on federal income tax returns for all open tax years (tax years ended December 31, 2007 through 2010) to determine any uncertainty in income taxes and has recognized no adjustment in the net asset or liability.

Earnings Per Share

Basic earnings per share (EPS) excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution of EPS that could occur if outstanding warrants were exercised. At June 30, 2011, there were no warrants outstanding.

The words believe, expect, anticipate, estimate, should, hope, seek, plan, intend and similar expressions identify forward-looking statements that are made as of the date thereof. While the Company believes that the assumptions underlying its forward-looking statements are reasonable, investors are cautioned that any of the assumptions could prove to be inaccurate and accordingly, the actual results and experiences of the Company could differ materially from the anticipated results or other expectations expressed by the Company in its forward-looking statements. Factors that could cause such actual results or experiences to differ from results discussed in the forward-looking statements include, but are not limited to: the adverse effect from a decline in the securities markets; a decline in the performance of the Company's products; changes in interest rates; a general or prolonged downturn in the economy; changes in government policy and regulation, including monetary policy; changes in the Company's ability to attract or retain key employees; unforeseen costs and other effects related to legal proceedings or investigations of governmental and self-regulatory organizations; and other risks identified from time-to-time in the Company's public documents on file with the SEC.

General

The Company, an Ohio corporation organized in 1990, derives its consolidated revenue and net income from investment advisory and fund administration services provided by its subsidiaries Diamond Hill Capital Management, Inc. (DHCM), Beacon Hill Fund Services, Inc. (BHFS), and BHIL Distributors, Inc. (BHIL). BHFS and BHIL collectively operate as Beacon Hill. DHCM is a registered investment adviser under the Investment Advisers Act of 1940 providing investment advisory services to individuals and institutional investors through Diamond Hill Funds, separate accounts, and private investment funds (generally known as hedge funds). Beacon Hill was incorporated during the first quarter of 2008, and provides certain fund administration services and underwriting services to mutual fund companies, including Diamond Hill Funds.

In this section, the Company discusses and analyzes the consolidated results of operations for the three and six month periods ending June 30, 2011 and 2010 and other factors that may affect future financial performance. The accompanying unaudited consolidated financial statements were prepared in accordance with the instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with United States generally accepted accounting principles. Accordingly, these financial statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto of the Company included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. However, in the opinion of management, all adjustments (consisting of only normal recurring accruals) which are necessary for a fair presentation of the financial statements have been included. The results of operations for the three and six month periods ended June 30, 2011 are not necessarily indicative of the results which may be expected for the entire fiscal year.

The Company's revenue is derived primarily from investment advisory and administration fees. Investment advisory and administration fees paid to the Company are generally based on the value of the investment portfolios managed by the Company and fluctuate with changes in the total value of the assets under management (AUM). Such fees are recognized in the period that the Company manages these assets. Performance incentive fees are generally 20% of the amount of client annual investment performance in excess of a specified hurdle. Because performance incentive fees are based primarily on the performance of client accounts, they can be volatile from period to period. The Company's primary expense is employee compensation and benefits.

Table of Contents**Assets Under Management**

As of June 30, 2011, AUM totaled \$9.2 billion, a 42% increase in comparison to June 30, 2010. Revenues are highly dependent on both the value and composition of AUM. Three Months Ended June 30, 2011 compared with Three Months Ended June 30, 2010

The Company generated net income of \$3,728,889 (\$1.26 per diluted share) for the three months ended June 30, 2011, compared with net income of \$1,829,858 (\$0.66 per diluted share) for the three months ended June 30, 2010. While net income increased \$1.9 million, revenue for the period increased \$3.1 million and net investment return increased \$1.3 million offset by a \$1.3 million increase in operating expenses and a \$1.2 million increase in the income tax provision. Operating profit margin increased to 35% for second quarter 2011 from 30% for second quarter 2010. The Company expects that its operating margin will fluctuate from period to period based on various factors including revenues; investment results; employee performance; staffing levels; development of investment strategies, products, or channels; and industry comparisons.

Revenue

| (in thousands) | Three Months Ended June 30, | | |
|---------------------------------|-----------------------------|-----------|----------|
| | 2011 | 2010 | % Change |
| Investment advisory | \$ 14,801 | \$ 11,933 | 24% |
| Mutual fund administration, net | 2,026 | 1,821 | 11% |
| Total | \$ 16,827 | \$ 13,754 | 22% |

As a percent of total second quarter 2011 revenues, investment advisory fees accounted for 88% and mutual fund administration fees made up the remaining 12%. This compared to 87% and 13%, respectively, for second quarter 2010.

Investment Advisory Fees. Investment advisory fees increased by \$2.9 million, or 24%, from the quarter ended June 30, 2010 to the quarter ended June 30, 2011. Investment advisory fees are calculated as a percent of average net AUM at various levels depending on the investment product. The Company's average advisory fee rate for the three months ended June 30, 2011 was 0.63% compared to 0.70% for the three months ended June 30, 2010. The decrease

in the average advisory fee rate is due to an overall change in the composition of AUM where long-short strategies, which pay a higher advisory fee, made up 25% of total AUM as of June 30, 2011 compared to 34% of total AUM as of June 30, 2010 while long only strategies, which have a lower advisory fee, made up 59% of total AUM as of June 30, 2011 compared to 50% of total AUM as of June 30, 2010. The Company's average AUM during the quarter ended June 30, 2011 was \$9.3 billion compared to \$6.8 billion for the quarter ended June 30, 2010. Despite the 0.07% decrease in average advisory fee rate during second quarter 2011 compared to second quarter 2010, the fee rate was being charged on a greater asset base as the average AUM increased 38% from second quarter 2010 to second quarter 2011 resulting in an increase in the overall fees earned during the period. The Company anticipates the average advisory fee rate to continue to decrease throughout 2011 based upon the continued change in asset composition due to asset growth in lower fee strategies.

Table of Contents

Mutual Fund Administration Fees. Mutual fund administration fees increased \$205 thousand, or 11%, from the quarter ended June 30, 2010 to the quarter ended June 30, 2011. Mutual fund administration fees include administration fees received from Diamond Hill Funds, which are calculated as a percent of average mutual fund AUM, and all Beacon Hill fee revenue. The increase in the mutual fund administration fee is due to a 17% increase in average mutual fund AUM from \$3.8 billion for the quarter ended June 30, 2010 to \$4.4 billion for the quarter ended June 30, 2011 offset by a decrease in the overall blended net administration fee rate from 0.16% for the quarter ended June 30, 2010 to 0.15% for the quarter ended June 30, 2011.

Expenses

| (in thousands) | Three Months Ended | | % Change |
|--------------------------------|--------------------|----------|----------|
| | June 30, | | |
| | 2011 | 2010 | |
| Compensation and related costs | \$ 8,949 | \$ 7,830 | 14% |

| Mutual fund administration | 461 | 492 | -6% |
| Total | \$ 10,976 | \$ 9,652 | 14% |

Compensation and Related Costs. Employee compensation and benefits increased \$1.1 million, or 14%, during the three months ended June 30, 2011 compared to the same period a year ago primarily due to a \$780 thousand increase in restricted stock expense related to an overall increase in the total amount of long-term equity awards outstanding in 2011 compared to 2010 and a \$247 thousand increase in base salaries and related benefits due an increase in employee headcount, while incentive compensation remained flat quarter-over-quarter.

The increase in restricted stock expense was primarily due to a 100,000 share five year cliff vesting stock grant issued per the executed Amended and Restated Employment Agreement between the Company and its Chief Executive Officer as announced in the Form 8-K filed with the SEC on March 24, 2011. This increase in restricted stock expense served to decrease the amount that would have otherwise been recognized as incentive compensation during the period.

General and Administrative. General and administrative expenses increased by \$196 thousand, or 22%, period over period. This increase is primarily due to additional research expenses and systems related expenses to support the Company's investment team and an increase in information technology related expenses.

Sales and Marketing. Sales and marketing expenses increased by \$69 thousand, or 35%. The increase was primarily due to an increase in travel and other expenses related to business development and retention efforts during second quarter 2011.

Third Party Distribution. Third party distribution expense represents payments made to intermediaries related to sales of the Company's investment products. The expense is directly correlated with investments in the Company's private investment funds. The period over period increase or decrease directly corresponds to the increase or decrease in investment advisory fees earned by the Company.

Mutual Fund Administration. Mutual fund administration expense decreased by \$31 thousand, or 6%, period over period. The majority of mutual fund administration fees are variable based on the amount of mutual fund AUM. Despite an overall increase in mutual fund AUM of 20% as of June 30, 2011 compared to June 30, 2010, the decrease in mutual fund administration expenses is primarily due to a third party service provider fee reduction effective October 1, 2010.

Table of Contents**Six Months Ended June 30, 2011 compared with Six Months Ended June 30, 2010**

The Company generated net income of \$7,360,624 (\$2.54 per diluted share) for the six months ended June 30, 2011, compared with net income of \$4,500,178 (\$1.64 per diluted share) for the six months ended June 30, 2010. While net income increased \$2.9 million, revenue for the period increased \$6.1 million and net investment return increased \$1.4 million offset by a \$2.9 million increase in operating expenses and a \$1.8 million increase in the income tax provision from the six months ended June 30, 2010 to the six months ended June 30, 2011. Operating profit margin increased to 34% for the six months ended June 30, 2011 from 30% for the six months ended June 30, 2010. The Company expects that its operating margin will fluctuate from period to period based on various factors including revenues; investment results; employee performance; staffing levels; development of investment strategies, products, or channels; and industry comparisons.

| Mutual fund administration, net | 4,038 | 3,731 | 8% |
| Total | \$ 33,277 | \$ 27,145 | 23% |

As a percent of 2011 year to date revenues, investment advisory fees accounted for 88% and mutual fund administration fees accounted for the remaining 12% compared to the 2010 period where investment advisory fees accounted for 86% and mutual fund administration fees accounted for the remaining 14% of revenues.

Investment Advisory Fees. Investment advisory fees increased by \$5.8 million, or 25%, for the six months ended June 30, 2011 compared to the six months ended June 30, 2010. Investment advisory fees are calculated as a percent of average net AUM at various levels depending on the investment product. The Company's average advisory fee rate for the six months ended June 30, 2011 was 0.64% compared to 0.71% for the six months ended June 30, 2010. The decrease in the average advisory fee rate is due to an overall change in the composition of AUM where long-short strategies, which pay a higher advisory fee, made up 25% of total AUM as of June 30, 2011 compared to 34% of total AUM as of June 30, 2010 while long only strategies, which have a lower advisory fee, made up 59% of total AUM as of June 30, 2011 compared to 50% of total AUM as of June 30, 2010. Despite the 0.07% decrease in average advisory fee rate period over period, the fee rate was being charged on a greater asset base as the average AUM increased 39% from the six months ended June 30, 2010 to the six months ended June 30, 2011 resulting in an increase in the overall fees earned during the period. The Company anticipates the average advisory fee rate to continue to decrease throughout 2011 based upon the continued change in asset composition due to asset growth in lower fee strategies.

Mutual Fund Administration Fees. Mutual fund administration revenues increased by \$307 thousand for the six months ended June 30, 2011 compared to the six months ended June 30, 2010. Mutual fund administration fees include administration fees received from Diamond Hill Funds, which are calculated as a percent of average mutual fund AUM, and all Beacon Hill fee revenue. The increase in the mutual fund administration fee is due to a 19% increase in average mutual fund AUM from \$3.7 billion for the six months ended June 30, 2010 to \$4.4 billion for the six months ended June 30, 2011 offset by a decrease in the overall blended net administration fee rate from 0.17% for the six months ended June 30, 2010 to 0.15% for the six months ended June 30, 2011.

Compensation and Related Costs. Employee compensation and benefits increased \$2.5 million, or 16%, during the six months ended June 30, 2011 compared to the same period a year ago, primarily due to an increase of \$1.5 million in incentive compensation during the period consistent with a 42% increase in AUM and the associated increase in operating income. Further contributors to the overall increase in compensation expense were restricted stock expense, which increased by \$733 thousand due to an overall increase in the total amount of long-term equity awards outstanding in 2011 compared to 2010, and base salaries and related benefits, which increased by \$233 thousand due to an increase in employee headcount.

The increase in restricted stock expense was primarily due to a 100,000 share five year cliff vesting stock grant issued per the executed Amended and Restated Employment Agreement between the Company and its Chief Executive Officer as announced in the Form 8-K filed with the SEC on March 24, 2011. This increase in restricted stock expense served to decrease the amount that would have otherwise been recognized as incentive compensation during the period.

General and Administrative. General and administrative expenses increased by \$400 thousand, or 24%, period over period. This increase is primarily due to additional research expenses and systems related expenses to support the Company's investment team, the implementation of a new trading system during second quarter 2010, and an increase in information technology related expenses and corporate legal costs.

Sales and Marketing. Sales and marketing expenses increased by \$162 thousand, or 48%, period over period. The increase was primarily due to an increase in travel and other expenses related to business development and retention efforts during 2011.

Third Party Distribution. Third party distribution expense represents payments made to intermediaries related to sales of the Company's investment products. The expense is directly correlated with investments in the Company's private investment funds. The period over period increase or decrease directly corresponds to the increase or decrease in investment advisory fees earned by the Company.

Mutual Fund Administration. Mutual fund administration expense decreased by \$164 thousand, or 17%, period over period. The majority of mutual fund administration fees are variable based on the amount of mutual fund AUM. Despite an overall increase in mutual fund AUM of 20%, as of June 30, 2011 compared to June 30, 2010, the decrease in mutual fund administration expenses is primarily due to a third party service provider fee reduction effective October 1, 2010.

Use of Supplemental Data as Non-GAAP Performance Measure**Net Operating Income After Tax**

As supplemental information, we are providing performance measures that are based on methodologies other than generally accepted accounting principles (non-GAAP) for Net Operating Income After Tax that management uses as benchmarks in evaluating and comparing the period-to-period operating performance of the Company and its subsidiaries.

The Company defines net operating income after tax as the Company's net operating income less income tax provision excluding investment return and the tax impact related to the investment return. The Company believes that net operating income after tax provides a good representation of the Company's operating performance, as it excludes the impact of investment return on financial results. The amount of the investment portfolio and market fluctuations on the investments can change significantly from one period to another, which can distort the underlying earnings potential of a company. We also believe net operating income after tax is an important metric in estimating the value of an asset management business. This non-GAAP measure is provided in addition to net income and net operating income and is not a substitute for net income or net operating income and may not be comparable to non-GAAP

performance measures of other companies.
