ABOUT THE MEETING

Who Can Vote

The record date for the determination of holders of the Company's Class A Common Stock, par value \$.01 per share (our Class A Common Stock) and Class B Common Stock entitled to notice of and to vote at the meeting, or any adjournment or postponement of the meeting, is the close of business on June 10, 2005. In this proxy statement, we refer to this date as the record date. As of the record date, there were (i) 9,693,655 shares of the Company's Class A Common Stock issued and outstanding and entitled to vote at the meeting, and (ii) 8,383,344 shares of the Company's Class B Common Stock issued and outstanding and entitled to vote at the meeting. In this proxy statement, we refer to our Class A Common Stock and our Class B Common Stock collectively as our Common Stock.

The holders of record of our Common Stock as of the record date will be entitled to one vote per share on each matter upon which they are being asked to vote at the meeting, or any adjournment thereof. In the case of the election of directors, only holders of Class B Common Stock will be entitled to vote for the election of the two Class II directors (the Class B Directors). In the case of all other matters being submitted to a vote of our stockholders at the annual meeting, including the ratification of the appointment of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending March 31, 2006, holders of our Common Stock will vote together as a single class, except as required by law. There is no cumulative voting. Our stock transfer books will not be closed in connection with the meeting.

How Proxies Will be Voted

Shares represented by valid proxies will be voted at the meeting in accordance with the directions given. If the enclosed proxy card is signed and returned without any direction given, the shares will be voted **for** election of the nominee(s) for director named in the proxy (if the shares are Class B Common Stock) and the ratification of the appointment of Ernst & Young LLP as the Company's independent auditors. The board of directors does not intend to present, and has no information indicating that others will present, any business at the annual meeting other than as set forth in the attached Notice of Annual Meeting of Stockholders. However, if other matters requiring the vote of the Company's stockholders come before the meeting, it is the intention of the persons named in the accompanying form of proxy to vote the proxies held by them in accordance with their best judgment in such matters.

How to Revoke Your Proxy

You have the unconditional right to revoke your proxy at any time prior to the voting thereof by submitting a later-dated proxy, by attending the meeting and voting in person or by written notice to us addressed to: Eagle Materials Inc., Attention: James H. Graass, Secretary, 3811 Turtle Creek Blvd., Suite 1100, Dallas, Texas 75219. No such revocation shall be effective, however, unless and until received by the Company at or prior to the meeting.

Quorum and Required Vote

The presence at the meeting, in person or represented by proxy, of the holders of a majority of the voting power of the shares of capital stock of the Company entitled to vote on any matter shall constitute a quorum for purposes of such matter. Abstentions and broker non-votes will be counted as present for the purpose of establishing a quorum. Each Class B Director will each be elected by a plurality of votes cast at the meeting by holders of Class B Common Stock. Abstentions and broker non-votes will not affect the outcome of the election of directors. The affirmative vote of the holders of a majority of the shares of Common Stock present in person or represented by proxy at the meeting is required to ratify the appointment by our board of directors of Ernst & Young LLP as our independent auditors for the fiscal year ending March 31, 2006. Abstentions and broker non-votes will have the same effect as votes against the

ratification of our accountants.

Expenses of Soliciting Proxies

The cost of soliciting proxies for the meeting will be borne by the Company. Solicitations may be made on behalf of our board of directors by mail, personal interview, telephone or other electronic means by officers and other employees of the Company, who will receive no additional compensation therefor. To aid in the solicitation of proxies, we have retained the firm of Georgeson Shareholder Communications, Inc., which will receive a fee of approximately \$8,500, in addition to the reimbursement of out-of-pocket expenses. We will request banks, brokers, custodians, nominees, fiduciaries and other record holders to forward copies of this proxy statement to persons on whose behalf they hold shares of Common Stock and to request authority for the exercise of proxies by the record holders on behalf of those persons. In compliance with the regulations of the Securities and Exchange Commission (SEC), and the New York Stock Exchange (NYSE),

we will reimburse such persons for reasonable expenses incurred by them in forwarding proxy materials to the beneficial owners of our Common Stock.

How You Can Vote

You can vote your shares at the meeting or by telephone, over the Internet or by completing, signing, dating and returning your proxy in the enclosed envelope.

OUR CAPITAL STOCK

Our outstanding capital stock consists of Class A Common Stock and Class B Common Stock. The holders of Class B Common Stock are entitled to elect the Class B Directors, who represent at least 85% of our board of directors. The holders of our Class A Common Stock are entitled to elect the Class A Director or Directors, who represent the remainder of our board of directors. There is currently one Class A Director whose term expires at the Annual Meeting in 2007. The minimum number of members of our board of directors is set at seven so that the holders of our Class A Common Stock will always be entitled to elect at least one director. As to all matters other than as to the election of directors, the rights of the holders of Class A Common Stock and Class B Common Stock are substantially the same.

Our two classes of Common Stock were created in connection with the spin-off (the Spin-off) of the Company from its former parent corporation, Centex Corporation (Centex), which was completed on January 30, 2004. Prior to the Spin-off, we had only one class of common stock and Centex owned approximately 65% of the outstanding shares of such class. Given the nature of Centex's ownership interest in the Company, in order for the Spin-off to be tax-free to Centex and its stockholders, Centex determined that it must own, at the time of the Spin-off, capital stock of the Company having the right to elect at least 85% of the members of our board of directors. In order to enable Centex to meet this requirement, we agreed to reclassify our capital stock immediately prior to the Spin-off so that it consisted of Class A Common Stock and Class B Common Stock. Our stockholders approved this reclassification. Centex then distributed all of the shares of Common Stock owned by it to its stockholders in a single transaction. For additional information regarding the Spin-off and related transactions, we refer you to the proxy statement that we filed with the SEC in connection with the special meeting of our stockholders held to approve the reclassification of our capital stock and certain other matters.

Our Class A Common Stock is listed on the NYSE under the symbol EXP and our Class B Common Stock is listed on the NYSE under the symbol EXP.B.

ELECTION OF DIRECTORS AND RELATED MATTERS

General

Our board is the ultimate decision-making body of the Company except with respect to those matters reserved to our stockholders. The primary responsibilities of our board include:

the selection, compensation and evaluation of our Chief Executive Officer and oversight over succession planning;

oversight of our strategic planning;

approval of all our material transactions and financings;

providing assurance that processes are in place to promote compliance with law and high standards of business ethics;

advising management on major issues that may arise; and

evaluating the performance of the board and its committees, and making appropriate changes where necessary.

Members of our board of directors are divided into three classes based on their term of office (Class I, II and III). The directors in each such class generally hold office for staggered terms of three years each. At present, we have three Class I directors, two Class II directors and three Class III directors.

As described above, our board of directors is also divided into Class A Directors and Class B Directors. Class A Directors are elected by the holders of Class A Common Stock and Class B Directors are elected by the holders of Class B Common Stock. Currently we have one Class A Director and seven Class B Directors.

Table of Contents

The following table shows the composition of our Board after the annual meeting, assuming the election of the proposed slate of director nominees:

	Class A Director	Class B Directors
<u>Class III:</u> Term expires at the 2006 annual meeting and every three years thereafter		F. William Barnett David W. Quinn O. G. Dagnan
<u>Class I:</u> Term expires at the 2007 annual meeting and every three years thereafter	Robert L. Clarke	Frank W. Maresh Steven R. Rowley
<u>Class II:</u> Term expires at the 2008 annual meeting and every three years thereafter		Laurence E. Hirsch Michael R. Nicolais

NYSE corporate governance rules require that our board of directors be comprised of a majority of independent directors. Our board of directors has determined, upon the recommendation of the corporate governance and nominating committee, which we sometimes refer to as the nominating committee, that all members of our board of directors, other than Messrs. Hirsch, Rowley and Quinn, are independent within the meaning of the independence requirements of the Securities Exchange Act of 1934 (as amended, the Exchange Act) and the corporate governance rules of the NYSE.

In determining that five of our directors are independent, our board of directors considered the following facts:

Messrs. F. William Barnett, Robert L. Clarke and Frank W. Maresh have no relationship with the Company or its management that potentially affects their independence.

Mr. O.G. Dagnan is a former Chief Executive Officer of the Company who retired as an officer and employee of the Company in July 1999, and has had no relationship with the Company since that time (other than his relationship as a director). Mr. Dagnan was granted certain stock options by the Company during the time he served as an executive officer, the last of which were exercised in 2002. Because of the length of time since his retirement from the Company, and in light of the absence of any compensatory or other arrangements between the Company and Mr. Dagnan since the date of his retirement (other than compensation for his services as a director), our board of directors has determined that Mr. Dagnan has no material relationship with the Company.

Mr. Michael R. Nicolais entered into an employment relationship with a company owned by another member of our board of directors, Laurence E. Hirsch, in 2004. In particular, in April 2004, Mr. Nicolais accepted employment as president of Highlander Partners L.P. (Highlander), a newly formed private investment partnership of which Mr. Laurence E. Hirsch, a director of the Company, is the sole equity owner. In view of, among other things: (i) the fact that Mr. Nicolais has never served as an officer or employee of the Company or any of its parents or subsidiaries; (ii) the fact that the employment relationship between Mr. Nicolais and Highlander commenced after the completion of the Spin-off and after the date Mr. Hirsch retired as an executive officer and director of Centex, which is a former parent of the Company; (iii) the fact that the investment services to be provided by Mr. Nicolais to Highlander are largely unrelated to the Company (except to the extent that such services may in the future involve investment services relating to shares of our Common

Stock held by Mr. Hirsch); and (iv) the board's belief that Mr. Nicolais is able to act independently from the Company and its management in connection with matters submitted to and considered by our board of directors, our board determined in its business judgment that Mr. Nicolais has no material relationship with the Company.

Table of Contents**Nominees**

Each of the nominees listed below, is currently a member of our board of directors. Each of these nominees has been nominated by our nominating and corporate governance committee after considering the criteria described below under Corporate Governance and Nominating Committee. We have no reason to believe that any of the listed nominees will become unavailable for election, but if for any reason that should be the case, proxies may be voted for substitute nominees. A plurality of votes cast by the holders of our Class B Common Stock will be required to elect the nominees for Class B Director.

Our Board of Directors recommends that holders of Class B Common Stock vote for the election of the nominees listed below as Class B Directors to serve in Class II for a three-year term ending at our 2008 annual meeting of stockholders:

Laurence E. Hirsch

Michael R. Nicolais

Board Meetings and Attendance Records

During the Company's fiscal year ended March 31, 2005, our board of directors held four regularly scheduled meetings and one special meeting. During such fiscal year each director attended all meetings of our board. In accordance with our policy, we anticipate that all continuing directors and nominees will attend our 2005 annual meeting. All such persons attended our 2004 annual meeting. Our non-employee directors (which currently constitute all our directors, except for Mr. Rowley) meet immediately after all board meetings without management present. Mr. Hirsch presides at all executive sessions of the non-employee directors.

Board Compensation

Board members who are not employees of the Company or any of its subsidiaries receive compensation for their services valued at \$125,000 per year, of which 50% must be received in the form of an equity grant (stock options and restricted stock units (RSUs)). The equity grant is in the form of 50% stock options to purchase Class A Common Stock and 50% RSUs (Class A Common Stock). Each non-employee director may elect to receive all or a portion of the remaining \$62,500 in cash or in additional equity (stock options and RSUs). The exercise price of the options is equal to the closing price of the Class A Common Stock on the New York Stock Exchange on the date of grant. The number of shares covered by the options is determined by valuing the options on the date of grant using the

Black-Scholes method. The options are fully exercisable beginning on the date of grant and have a seven-year term. The number of RSUs is determined by reference to the closing price for the Class A Common Stock on the date of award.

The RSUs vest in full on the date of grant, but are not payable until the non-employee director's service on the board terminates because of the director's death or the director's retirement at age 70 (or older) or earlier with the consent of the board. In addition, the shares of stock represented by the RSUs become payable upon a change in control. If the director's service on the Board terminates by reason other than retirement or death the shares will be forfeited.

The chair of the compensation committee and the corporate governance and nominating committee receives \$5,000 per year for chairing a board committee. The audit committee chairman receives \$7,500 per year for chairing the audit committee. In addition, the Chairman of the Board receives \$50,000 per year for his service as Chairman of the

Table of Contents

Board. All board members are reimbursed for reasonable expenses of attending meetings. Directors who are employees of the Company or its subsidiaries receive no compensation for board service.

Board Committees

The board's standing committees include the audit committee, the corporate governance and nominating committee and the compensation committee. The members of these committees are as follows:

Audit Committee	Compensation Committee	Corporate Governance and Nominating Committee
Robert L. Clarke ⁽¹⁾	F. William Barnett ⁽¹⁾	F. William Barnett
Frank W. Maresh	Robert L. Clarke	O.G. Dagnan

Audit Committee

Our board has a separately-designated standing audit committee, composed of three independent directors. The audit committee assists the board in fulfilling its responsibility to oversee the integrity of our financial statements, our compliance with legal and regulatory requirements, the qualifications and independence of our independent auditors and the performance of our internal audit function and independent auditors. A copy of the audit committee's amended and restated charter adopted in May 2004 may be viewed on our website at <http://www.eaglematerials.com>.

Our board has determined that each member of the committee is independent within the meaning of applicable (i) corporate governance rules of the NYSE and (ii) the requirements set forth in the Exchange Act and the applicable SEC rules. In addition, our board has determined that each member of the committee satisfies applicable NYSE standards for financial literacy and that, based on his auditing and financial experience, including over thirty (30) years with KPMG, Mr. Maresh is an audit committee financial expert within the meaning of the rules of the SEC.

During the last fiscal year, the audit committee held seven meetings. One committee member missed one meeting. Unless otherwise determined by the board, no member of the committee may serve as a member of the audit committee of more than two other public companies.

The following are key functions and responsibilities of our audit committee:

to obtain and review, on a periodic basis, a formal written statement from our independent auditors describing all relationships between our auditors and the Company and engage in a dialogue with our auditors with respect to any disclosed relationships or services that may impact the objectivity and independence of the auditors and to recommend appropriate action in response to the reports to our board;

to pre-approve all audit engagement fees and terms and all non-audit services provided to us by our independent auditors, in accordance with the committee's policies and procedures for pre-approving audit and non-audit services;

to establish procedures for (i) the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters and (ii) the confidential, anonymous submission by employees of the Company of concerns regarding questionable accounting or auditing matters;

to discuss our annual audited financial statements, quarterly financial statements and other significant financial disclosures with management and our independent auditors;

to discuss with management the types of information to be disclosed and the types of presentations to be made in our earnings press releases, as well as the financial information and earnings guidance we provide to analysts and rating agencies;

to annually review and assess its performance and the adequacy of its charter;

to discuss policies with respect to risk assessment and risk management; and

to prepare the report that is required to be included in our annual proxy statement regarding review of financial statements and auditor independence.

The audit committee's report on our financial statements for the fiscal year ended March 31, 2005 is presented below under the heading Audit Committee Report.

The audit committee meets separately with our independent auditors and with members of our internal audit staff outside the presence of the Company's management or other employees to discuss matters of concern, to receive recommendations or suggestions for change and to exchange relevant views and information.

Compensation Committee

Our board's compensation committee is composed of independent directors who meet the corporate governance standards of the NYSE, qualify as non-employee directors within the meaning of Rule 16b-3(b)(3) of the Exchange Act and as outside directors within the meaning of the Internal Revenue Code of 1986, as amended. Pursuant to its charter, which you may review on our web site at <http://www.eaglematerials.com>, the primary purposes of the committee are to assist the board in discharging its responsibilities relating to compensation of the Company's Chief Executive Officer and other senior executives and to direct the preparation of the reports regarding executive compensation that the rules of the SEC require to be included in our annual proxy statement.

The following are key functions and responsibilities of the compensation committee:

to periodically review and make recommendations to our board as to our general compensation philosophy and structure, including reviewing the compensation programs for senior executives and all benefit plans sponsored by the Company to determine whether they are properly coordinated and achieving their intended purposes;

to annually review and approve corporate goals and objectives relevant to the compensation of our Chief Executive Officer, evaluate his or her performance as measured against such goals and objectives and to set the salary and other cash and equity compensation for our the Chief Executive Officer based on such evaluation;

to review, after the end of the fiscal year and in consultation with our Chief Executive Officer, and make recommendations to our board with respect to compensation of our senior executives;

to administer the Company's compensation plans for which it is named as plan administrator, including the Company's Incentive Plan;

to report on compensation policies and practices with respect to the Company's executive officers as required by SEC rules; and

The compensation committee's report for the fiscal year ended March 31, 2005 is presented below under the heading Report of Compensation Committee on Executive Compensation.

Under its new Amended and Restated Charter adopted in May 2004, the compensation committee meets as often as it deems appropriate, but no less than twice per year. During the fiscal year ended March 31, 2005, the compensation committee held eight meetings. Two committee members missed one meeting each.

Our corporate governance and nominating committee has adopted a written charter, which you may review on our web site at <http://www.eaglematerials.com>.

The following are certain key functions and responsibilities of our corporate governance and nominating committee:

to develop, periodically review and recommend a set of corporate governance principles for the Company to the board;

to periodically review corporate governance matters generally and recommend action to the board where appropriate;

to review and assess the adequacy of its charter annually and recommend any proposed changes to our board for approval;

The committee initiates and oversees an annual evaluation of the effectiveness of the board and each committee, as well as the composition, organization (including committee structure, membership and leadership) and practices of the board. Among the criteria the corporate governance and nominating committee uses in evaluating the suitability of individual nominees for director (whether such nominations are made by management, a stockholder or otherwise) are their integrity, experience, achievements, judgment, intelligence, personal character, ability to make independent analytical inquiries, willingness to devote adequate time to board duties and the likelihood that he or she will be able to serve on the board for a sustained period. During the fiscal year ended March 31, 2005, the committee paid no fees to third-parties to assist in identifying or evaluating potential nominees.

Members of the corporate governance and nominating committee, other members of the board or executive officers may, from time to time, identify potential candidates for nomination to our board. All proposed nominees, including candidates recommended for nomination by stockholders in accordance with the procedures described below, will be evaluated in light of the criteria described above and the projected needs of the board at the time. As set forth in the committee's charter, the committee may retain a search firm to assist in identifying potential candidates for nomination to the board of directors.

The committee will consider candidates recommended by stockholders for election to our board. A stockholder who wishes to recommend a candidate for evaluation by the committee should forward the candidate's name, business or residence address, principal occupation or employment and a description of the candidate's qualifications to the Chairman of the corporate governance and nominating committee at the following address: Attention: Secretary, Eagle Materials Inc., 3811 Turtle Creek Boulevard, Suite 1100, Dallas, Texas 75219.

Our Bylaws provide that, to be considered at the 2006 annual meeting, stockholder nominations for the board of directors must be submitted in writing and received by our Secretary at the executive offices of the Company during the period beginning on January 28, 2006 and ending April 28, 2006, and must contain the information specified by

and otherwise comply with the terms of the Company's bylaws. Any stockholder wishing to receive a copy of the Company's bylaws should direct a written request to our Secretary at the Company's principal executive offices.

No nominees for election to the board of directors at our 2005 Annual Meeting of Shareholders were submitted by shareholders or groups of shareholders owning more than 5% of our common stock.

During the fiscal year ended March 31, 2005, the corporate governance and nominating committee held three meetings, which were attended by all committee members.

As a result, a third of the vested shares were paid immediately with one third payable on March 31, 2006 and the remaining third payable on March 31, 2007. The remaining unvested shares were forfeited. Under the terms of the RSU agreements grantees are paid dividend equivalents with respect to their vested but unpaid RSUs. These dividend equivalents are paid in the form of additional vested RSUs in an amount equal to the dividends that would have been paid on the shares covered thereby, divided by the per share stock price on the dividend payment date. Any unvested or vested and unpaid RSUs become payable upon a change in control.

The vesting of the options is subject to the Company's achievement of certain performance conditions which may be achieved in any of the fiscal years ending March 31, 2005, 2006 and 2007. Fifty percent (50%) of the options are structured to vest based on the Company's three year average return on equity which is calculated at the end of each of fiscal 2005, 2006 and 2007. Report of Compensation Committee on Executive Compensation

Under its charter, the Compensation Committee (the "Committee") assists the board in discharging its responsibilities relating to the compensation of the CEO and other senior executives. In particular, the Committee is charged with the responsibility to: (i) annually review and approve corporate goals and objectives relevant to the compensation of our Chief Executive Officer, evaluate his performance as measured against such goals and objectives and to set the salary

and other cash and equity compensation for our Chief Executive Officer based on such evaluation; and (ii) review and make recommendations to our board with respect to compensation of our senior executives. See Board Committees Compensation Committee above. The Committee also administers our Incentive Plan and is authorized under that plan to grant equity awards including options and restricted stock to our independent directors, officers and other key employees and those of our subsidiaries. The Committee is comprised of three independent directors. The Committee's charter may be found at www.eaglematerials.com. This report describes the policies and principles that shape the structure of our executive compensation program.

Our executive compensation program is structured to achieve the following objectives:

to attract, retain and motivate highly qualified, energetic and talented executives;

Table of Contents

to create an incentive to increase stockholder returns by establishing a direct and substantial link between individual compensation and certain financial and operational measures that have a direct effect on stockholder values; and

to create substantial long-term compensation opportunities for individual executive officers based not only on long-term corporate performance but also on sustained long-term individual performance.

To achieve its compensation objectives for fiscal 2005, the executive compensation program used a combination of short-term and long-term elements: (i) annual salary, (ii) annual incentive bonus and (iii) long-term incentive compensation in the form of stock options and RSUs. In addition, our executive officers are eligible to receive other benefits, such as medical benefits and profit sharing plan contributions, that are generally available to our other employees, and contributions under our SERP that are accrued for the named executive officers and certain other officers of the Company and its subsidiaries.

In structuring the specific components of executive compensation, the Committee was guided by the following principles:

overall annual compensation should be targeted to be within reasonable ranges of the median overall annual compensation for similar positions with similarly-sized companies that engage in one or more of the businesses in which we engage;

a significant portion of the executive's compensation should be at risk or dependent upon the individual's performance and our financial performance;

the executive's annual incentive bonus should be structured to drive the achievement of operational, strategic or financial objectives during the fiscal year; and

a significant portion of compensation should be in the form of long-term incentive compensation that creates rewards for long-term sustained corporate performance and the achievement of our strategic objectives.

The Committee begins the process of establishing compensation for executives by engaging a compensation consultant to conduct a compensation survey of similarly sized companies in similar industries. The companies reviewed in this study included all of the companies included in the peer group reflected on the performance graph below. Based in part on these surveys, the Committee establishes the target level of overall compensation for each position. This target is generally set to be within a reasonable range of the median level of the surveyed companies. In addition, the Committee uses this survey to guide it in establishing the components of executive compensation: salaries, annual incentive bonus opportunity and long term compensation award.

Base Salary

The Committee is responsible for reviewing and approving the base salary level for the CEO and recommending for approval the base salary level for other executive officers. In keeping with its philosophy that a significant portion of the executive's compensation at risk, for fiscal 2005 the Committee set the base salary level for the CEO and recommended that the Board approve salary levels for the other executives within a reasonable range of the median salary of the companies reviewed in the study.

Annual Incentive Bonus

The Committee is also responsible for approving the annual incentive bonus for the CEO and, in consultation with the CEO, recommending to the Board annual incentive bonuses for all other senior executives. The Annual Salaried Incentive Compensation Plan for executive officers has been structured to create financial incentives and rewards that

are directly related to corporate performance during the fiscal year and the achievement by the executive of certain goals and objectives set at the beginning of the fiscal year. Under this plan, a percentage of operating earnings is designated as a pool for bonuses, with each participating executive being assigned a percentage of such pool. For fiscal 2005, 1.2% of operating earnings was allocated for annual incentive bonuses for executives. At the end of the fiscal year, the pool is divided, and bonuses are paid among the executives participating in the program in accordance with such percentages, subject to reduction based on the executive's individual performance relative to his/her goals and objectives. The amount of the

Table of Contents

bonus paid to an executive is based on the level of our operating earnings, the percentage of the pool designated for such executive and an assessment of such executive's performance. For fiscal 2005, Messrs Rowley, Zunker and Graass were participants in the Annual Salaried Incentive Compensation Plan.

During fiscal 2005, Mr. Essl and Mr. Dutton participated in the annual incentive compensation plan established for their operating divisions. Under these plans a percentage of the division operating earnings is allocated to the bonus pool with each participating employee assigned a percentage of the pool representing the maximum bonus opportunity. At the end of the fiscal year, bonuses are paid among participating employees in accordance with such percentage, subject to reduction based on the employee's individual performance relative to his or her previously established goals and objectives.

The Committee believes these programs are consistent with the Company's compensation philosophy in that they place a significant portion of the executive's compensation at risk. In these instances a significant portion of the executive's total compensation is dependent upon the performance of the Company (or its operating divisions) and the individual's performance. Under this structure, the individual executive's annual incentive bonus compensation will only exceed a median level when the operating earnings of the Company (or its operating divisions) are high and the individual achieves his or her goals and objectives.

Long-term Compensation

Consistent with the Committee's philosophy of linking compensation to the Company's performance, our equity compensation program has been structured to link the vesting of equity awards to the achievement by the Company of specific performance levels. During fiscal 2005, the Committee granted to four of the named executives stock options and RSUs. The level of stock options and RSUs granted to each such senior executive was based on the compensation survey mentioned above and was targeted to be within a reasonable range of the median level of long term compensation for such position. Fifty percent (50%) of the value of such awards was in the form of restricted stock units with the other fifty percent (50%) in the form of stock options. The assumed value of the stock options was based on a Black-Scholes valuation while the RSUs were valued by reference to the closing stock price on the date of grant.

In order to incentivize the executives to continue their focus on operational excellence, the Committee designed the RSUs to vest based on the Company's performance during the fiscal year relative to specific operational criteria, such as average line speeds in our wallboard plants and average clinker production rate in our cement plants. Any RSUs not vested after fiscal year end are forfeited.

The vesting of the stock options varies with the Company's performance over a three-year period relative to certain financial criteria. One half of the stock options vest based on a three year average return on equity while one half vest based on the three year average of earnings before interest and taxes. Any stock options not vested after three years will be forfeited. The Committee believes that these awards properly align the interests of our officers with the interests of our stockholders by linking their long-term compensation with goals that are directly relevant to stockholder value. In order for these stock options to fully vest the Company must achieve a superior three year average return on equity and earnings before interest and taxes. Except for certain options granted to certain employees at the time of hire, almost all of the options granted by the Company to its officers and key employees have been granted under performance oriented programs.

All of the named executives participated in the Company's long term incentive compensation program except for Mr. Dutton. For fiscal 2005 Mr. Dutton participated in the Republic Paperboard Company long-term compensation plan. Under such plan, 1.5% of the operating earnings of Republic are allocated to a pool with participants assigned a specific percentage of the pool. At fiscal year end, the pool is paid out to such participants in accordance with such

percentages, subject to reduction based on the performance of the individual relative to certain predetermined objective and subjective criteria. Awards are paid in cash. Twenty percent (20%) is paid immediately and twenty percent (20%) at the end of each of the next four fiscal years.

SERP

In fiscal year 1995, the board approved the SERP for certain employees participating in the profit sharing plan. Pursuant to the Internal Revenue Code, the Internal Revenue Service sets a limit (currently \$200,000) on the amount of annual compensation that may be considered in determining, for the account of an eligible participant, our contribution to the profit sharing plan. The SERP was established to eliminate the adverse treatment that higher-salaried employees receive under such rule by funding balances for each participant in an amount equal to the additional contribution that he or

Table of Contents

she would have received under the profit sharing plan had 100% of his or her annual salary been eligible for a profit sharing contribution. Contributions accrued under the SERP for the benefit of the named executive officers vest under the same terms and conditions as the profit sharing plan. Bonuses paid to participants are not included in making calculations for contributions made or accrued to recipients' accounts under either the profit sharing plan or the SERP.

CEO Compensation

General The Committee established Mr. Rowley's salary for fiscal 2005 in May of 2004. The level of Mr. Rowley's base salary was based on a compensation survey of similarly sized companies in similar industries and was targeted to be at or below the median of the base salaries of chief executive officers of comparably sized companies in similar industries. In addition, the Committee considered the Company's operating performance and Mr. Rowley's individual performance as Chief Executive Officer during the fiscal year, including his successful execution of the Spin-Off from Centex Corporation.

Annual Salaried Incentive Compensation Plan Like the other executives, Mr. Rowley participates in our Annual Salaried Incentive Compensation Plan. Mr. Rowley's annual salary incentive bonus payment for fiscal 2005 was based on Mr. Rowley's participation percentage in the corporate pool (34%), the level of our operating earnings for fiscal 2005 and Mr. Rowley's performance relative to the objective and subjective goals approved by the Committee at the beginning of the fiscal year. The Committee believes Mr. Rowley largely achieved these goals and objectives. In particular the Committee considered the following factors (among others) in assessing Mr. Rowley's performance over the past fiscal year: (i) Mr. Rowley's leadership in successfully guiding the Company through its first full fiscal year since the spin-off; (ii) the Company's formulation and articulation of a strategic growth strategy; (iii) the commencement of the implementation of the Company's strategic expansion strategy as evidenced by the acquisition of the other 50% joint venture interest in Illinois Cement Company, the announcement of the expansion of the production capacity at Illinois Cement and the execution of a gypsum supply agreement in connection with plans for a new synthetic gypsum wallboard plant in South Carolina; and (iv) the continued development of a solid team and organizational structure at the Company.

Long Term Compensation In fiscal 2005, Mr. Rowley received the same type of equity awards as the other senior executives. The level of awards for Mr. Rowley was targeted to be within a reasonable range of the median level of long term compensation for CEOs at similarly sized companies in similar industries. The method of the valuation of the awards was the same as that used for other executive officers.

Performance Graph

The following graph compares the yearly change in the cumulative total stockholder return on the Company's Class A Common Stock during the five fiscal years ended March 31, 2005 with the Russell 2000 Index, which is a regularly published small-cap index and the Dow Jones Building Materials and Fixtures Index (the "DJ Building Materials Index"), which is a regularly published construction products industry index. In prior years, the Company

included the performance of the S&P 500 Index and a self-constructed peer group of construction products companies in its performance graph. The Company has decided that in the future it will use the Russell 2000 Index as its major market index because it includes companies with smaller capitalization which we believe is more comparable to the Company's capitalization. In addition, the Company has decided to use the DJ Building Materials Index instead of a self-constructed peer group because it includes more companies with which we compete in our two main lines of business as well as other companies who like the Company are tied to residential and non-residential construction. In addition, the DJ Building Materials Index includes the Company and is comprised of companies with similar financial stability and ownership structure. However, the Company has included the S&P 500 and the prior peer group in the performance graph set forth below in order to ensure that the information in the graph is comparable to the graph provided in the prior fiscal year. The prior peer group consisted of Caraustar Industries, Inc., Lafarge Company and USG Company. Caraustar Industries, Inc.'s principal

Table of Contents

manufacturing activity is the production of uncoated and clay-coated recycled paperboard. Lafarge is engaged primarily in the production and distribution of construction materials, including cement, ready-mix concrete, gypsum wallboard, aggregates, cementitious materials and concrete products. USG Company is engaged in the production and distribution of building materials, primarily gypsum wallboard and related products. These companies were included in the peer group because they each engage in one or more activities that are comparable to one or more of the Company's business segments. The comparison assumes (i) \$100 was invested on March 31, 2000 in each of the Company's Class A Common Stock, the S&P 500 Index, the Russell 2000 Index, the DJ Building Materials Index, and evenly in the respective equity securities of the prior peer group that resemble our Class A Common Stock and (ii) the reinvestment of dividends. The returns of the companies comprising the peer groups are weighted by their respective market capitalizations at the beginning of each period.

RELATIONSHIP WITH INDEPENDENT PUBLIC ACCOUNTANTS

Ernst & Young LLP (Ernst & Young) audited the Company's financial statements for the fiscal years ended March 31, 2003, 2004 and 2005.

Ernst & Young reports directly to our audit committee. The audit committee has adopted policies and procedures for pre-approving all audit and permissible non-audit services performed by Ernst & Young. Under these policies, the audit committee pre-approves the use of audit and specific permissible audit-related and non-audit services up to certain dollar limits. Other audit and permissible non-audit services that exceed a \$50,000 threshold must be pre-approved separately by the audit committee, or, for such services that do not exceed \$50,000, by a member of the audit committee. Any such member must report the pre-approval at the next audit committee meeting. In determining whether or not to pre-approve services, the audit committee determines whether the service is a permissible service under the SEC's rules, and, if permissible, the potential effect of such services on the independence of Ernst & Young.

The following table sets forth the various fees for services provided to the Company by Ernst & Young in the fiscal years ended March 31, 2005 and 2004:

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

Ernst & Young acted as our independent auditors to audit our books and records for fiscal year 2005, and the audit committee has appointed Ernst & Young as our independent auditors for fiscal year 2006, subject to ratification by our stockholders.

We believe ratification of this appointment is good corporate practice because the audit of our books and records is a matter of importance to our stockholders. If our stockholders do not ratify the appointment, our audit committee will reconsider whether or not to retain Ernst & Young, but still may elect to retain them. Even if the appointment is ratified, the audit committee, in its discretion, may change the appointment at any time during the year if it determines that such a change would be in our best interests and the best interests of our stockholders.

Representatives of Ernst & Young are expected to be present for the annual meeting, with the opportunity to make a statement if they choose to do so, and will be available to respond to appropriate questions from our stockholders.

For any proposal that is not submitted for inclusion in our proxy material for the 2006 annual meeting of stockholders but is instead sought to be presented directly at that meeting, Rule 14a-4(c) under the Securities Exchange Act of 1934 permits the Company's management to exercise discretionary voting authority under proxies it solicits unless the Company is notified about the proposal on or before April 28, 2006, and the stockholder satisfies the other requirements of Rule 14a-4(c).
