ITEM 2.01. ACQUISITION OR DISPOSITION OF ASSETS

On April 11, 2007, Ashford Hospitality Trust, Inc. (the Company) acquired a 51-property, 13,524 room (net after joint venture adjustment) hotel portfolio for approximately \$2.4 billion from CNL Hotels and Resorts, Inc. Pursuant to this agreement, the Company acquired 100% of 33 properties and 70%-89% of 18 properties through existing joint ventures.

The 51-property hotel portfolio consists of 24 full-service, upper-upscale hotels and 27 premium select-service hotels. The 24 full-service, upper-upscale hotels, which comprise 7,953 rooms, feature such brand names as Hilton, Embassy Suites, JW Marriott, Marriott, Doubletree, Renaissance, and Hyatt. The 27 premium select-service hotels, which comprise 5,571 rooms, feature brands such as Courtyard by Marriott, Residence Inn by Marriott, SpringHill Suites by Marriott, Fairfield Inn by Marriott, TownePlace Suites by Marriott, and Hampton Inn. (The foregoing room numbers are net of the interests of the joint venture partners.)

The Company will operate the hotels under existing long-term management agreements with Marriott, Hilton, Hyatt, and Interstate Hotels and Resorts.

To fund this acquisition, the Company utilized several sources as follows: borrowings of approximately \$928.5 million of ten-year, fixed-rate debt at an average blended interest rate of 5.95%, approximately \$555.1 million of three-year, variable-rate debt with two one-year extension options at an interest rate of LIBOR plus 1.65%, and approximately \$325.0 million of one-year, variable-rate debt with two one-year extension options at an interest rate of LIBOR plus 1.5%, the sale of 8.0 million shares of Series C Cumulative Redeemable Preferred Stock for approximately \$200.0 million (less a commitment fee) at a dividend rate of LIBOR plus 2.5%, and assumed fixed-rate debt of approximately \$432.3 million (net of debt attributable to joint venture partners), representing ten fixed-rate loans with an average blended interest rate of 6.09% and expiration dates ranging from 2008 to 2025. In addition, the Company executed a \$200.0 million credit facility with interest rates ranging from LIBOR plus 1.55% to LIBOR plus 1.95% depending on the loan-to-value ratio, which matures April 9, 2010 with two one-year extension options, requires interest-only payments through maturity, and requires quarterly commitment fees ranging from 0.125% to 0.20% of the average undrawn balance during the quarter.

Report of Independent Certified Public Accountants

To the Board of Directors and Stockholders of
Ashford Hospitality Trust:

In our opinion, the accompanying combined balance sheets and the related combined statements of operations, of owner's equity and of cash flows present fairly, in all material respects, the financial position of the CNL Hotels at December 31, 2006 and December 31, 2005, and the combined results of their operations and their cash flows for each of the three years in the period ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the management of CNL Hotels. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

December 31, 2006 and 2005****1. Business and Basis of Presentation**

The accompanying combined financial statements include the following hotels comprising the CNL Hotels (the Hotels). The Hotels are owned by various wholly and partially owned subsidiaries of CNL Hotels & Resorts, Inc. (CNL), and are presented on a combined basis. All of the Hotels, except for the Renaissance Tampa, were acquired or developed by CNL prior to January 1, 2004 and are included in these financial statements for each of the three years ended December 31, 2006, 2005 and 2004. The development of the Renaissance Tampa was completed in August 2004, and therefore its results of operations are only included in these financial statements from its date of completion. Except as noted, the hotels are leased to wholly-owned taxable real estate investment trust subsidiaries (TRS).

** This hotel was leased to an unrelated third party tenant. Rental income from operating leases is included in the statement of operations for this hotel for each period presented

Debt balances and related interest expense are allocated based on consideration of the Hotels as collateral for specific debt. The Hotels are expected to have a capital structure different from CNL post acquisition; accordingly, interest expense and amortization of loan issuance costs is not necessarily indicative of the interest expense that the Hotels would have incurred as a separate, independent company.

CNL operates for federal income tax purposes as a real estate investment trust (REIT). The REIT is exempt from the payment of income taxes assuming it complies with certain provisions of the Internal Revenue Code. The periods that CNL rented any of the Hotels under triple net leases to unrelated third parties, there is no income tax expense or benefit to allocate in the accompanying financial statements as the residual from these lease agreements flow to the REIT and are not subject to taxation. Excluding the periods rented to third parties, the Hotels were leased to wholly owned taxable REIT subsidiaries of CNL. The rent, which is eliminated in connection with the preparation of these

combined financial statements, has the effect of offsetting the majority of any taxable income generated by the Hotels operating activities, or for certain hotels in certain periods, generating taxable losses.

For the majority of the period covered by these financial statements, CNL was managed under an advisory agreement with a related party. This advisory agreement provided for a variety of management related services including oversight of the hotel managers, periodic inspection of the hotel properties, accounting, technical and other administrative services as well as costs of legal tax and insurance administration. Under the advisory agreement, these fees were generally calculated as a percentage of amounts invested in the hotel properties. The allocation in the combined statement of operations is based on the percentage of amounts invested in the Hotels to the total amount invested by CNL. These asset management fees are separately presented in the combined statements of operations and totaled \$10,200, \$11,700 and \$9,800 for the years ended December 31, 2006, 2005 and 2004, respectively.

Table of Contents

CNL Hotels

**Notes to Combined Financial Statements
December 31, 2006 and 2005**

The management of CNL considers this allocation methodology to be reasonable and does not believe that the amounts incurred for the services performed would have been materially different if the Hotels were operated on a stand alone basis under this arrangement.

All significant intercompany balances and transactions have been eliminated in consolidation.

2. Summary of Significant Accounting Policies

Reporting Calendar

The Hotel s operating results are based on a calendar year ended December 31 as required by tax laws relating to REITs. However, certain of the Hotels have managers that have a different quarterly accounting calendar. For certain Hotels, the fiscal year ends on the Friday ends on the Friday closest to December 31 and reflects twelve weeks of operations for the first three quarters of the year and sixteen or seventeen weeks for the fourth quarter of the year. Therefore, in any given period, period-over-period results may have different ending dates.

Use of Estimates

The Hotel s have made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Hotel s financial instruments include rents and accounts receivable, accounts payable, other accrued expenses, and variable and fixed rate debt. With exception of fixed rate debt, the fair values of these financial instruments are not materially different from their carrying or contract value.

Investment in Hotel Properties

Hotel properties are recorded at historical cost and are depreciated using the straight-line method over estimated useful lives of 40 years for buildings and improvements and three to seven years for furniture and equipment. Repairs and maintenance costs are charged to expense as incurred. When the hotels or equipment are sold, the related cost and accumulated depreciation will be removed from the accounts and any gain or loss from the sale will be reflected as income or expense.

Impairment of Long-Lived Assets

Long-lived assets are tested for recoverability at least annually or whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. The assessment is based on the carrying amount of the asset at the date it is tested for recoverability. An impairment loss is recognized when the carrying amount of a long-lived asset exceeds its fair value. If impairment is recognized, the adjusted carrying amount of a long-lived asset is its new cost basis.

Table of Contents

CNL Hotels

Notes to Combined Financial Statements

December 31, 2006 and 2005

Cash and Cash Equivalents

The Hotels consider all highly liquid investments with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents consist of demand deposits at commercial banks and money market funds. Cash accounts maintained on behalf of the Hotels in demand deposits at commercial banks and money market funds may exceed federally insured levels; however, the Hotels have not experienced any losses in such accounts.

Restricted Cash

Certain amounts of cash are restricted to fund the Hotels' capital expenditures directly associated with certain of the Hotels and are included in the accompanying combined balance sheets.

Owner's Equity

The difference between the Hotels' assets and liabilities are recorded in an account labeled owner's equity. Such account consists of accumulated equity as well as any payable/receivable balance due to or from CNL resulting from cash transfers as well as allocations of such things as interest expense and income taxes.

Revenue Recognition

Revenues are recognized when rooms are occupied and the services have been performed. In accordance with Staff Accounting Bulletin (SAB) 104, lease revenue is recognized as income after certain specific annual hurdles have been achieved by the lessee in accordance with the provisions of lease agreements.

Credit Enhancements

The following summary describes the various types of credit enhancements:

Threshold Guarantees

Threshold guarantees (TG) are provided by third-party hotel and resort managers to CNL for certain of the Hotels in order to guarantee a certain minimum return for certain of the Hotels covered by the TG. Funding under these guarantees is recorded as a reduction in operating expenses, a reduction in hotel and resort management fees or as liabilities by the Hotels, depending upon the nature of each agreement and whether the funded amounts are required to be repaid by CNL for certain of the Hotels.

Liquidity Facility Loans

Liquidity facility loans (LFL) are provided by third-party hotel and resort managers to CNL for certain of the Hotels in order to guarantee a minimum distribution for certain of the Hotels covered by the LFL. Funding under an LFL is recorded as a liability when the amounts funded may be required to be repaid.

Income Taxes

CNL accounts for federal and state income taxes with respect to its TRS subsidiaries using the asset and liability method. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the consolidated financial statements carrying amounts of existing assets and liabilities and respective tax bases and operating losses and tax-credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

Some debt arrangements allow for repayments earlier than the stated maturity date. The weighted average effective interest rate on mortgages and other notes payable was approximately 6.59 percent and 6.90 percent as of December 31, 2006 and 2005, respectively. The fair value of the Hotels' fixed rate long-term debt was \$865.2 million and \$757.2 million at December 31, 2006 and 2005, respectively. Fair value was determined based on market prices or discounted cash flows as of those respective dates.

Certain loan agreements contain net worth or debt service coverage ratio requirements. Violation of these covenants could potentially trigger penalties, including increased interest rates and cash management arrangements whereby the lenders or their designated loan services capture operating cash from the collateral Hotels and administer the payment of property taxes, insurance, debt service and expenditures for other obligations. Other covenants restrict CNL's ability to borrow money, pay dividends on or repurchase capital stock, make investments and sell assets or enter into mergers or acquisitions. CNL was in compliance with these covenants as of December 31, 2006.

Management Agreements

The Hotels are operated under various management agreements with third party managers that call for base management fees, which generally range from 3 percent to 7 percent of hotel and resort revenues and have an incentive management fee provision related to the Hotel's profitability. The management agreements generally require the Hotels to set aside 3 percent to 5 percent of hotel revenues in FF&E Reserve accounts to be used for the replacement of furniture, fixtures and equipment. The management agreements have terms from 10 to 30 years and generally have renewal options. CNL may terminate certain management agreements if specified performance thresholds are not met. Pursuant to the terms of the management agreements, the third-party managers for the Hotels provide the Hotels with certain chain services which are generally provided on a central or regional basis to all hotels operated within the manager's hotel system. Chain services include central training, advertising and promotion, reservation systems, payroll and accounting services, and other such services which may be more efficiently performed on a centralized basis. Expenses incurred in providing such services are allocated among all hotels managed by such third-party management companies on a fair and equitable basis. Additionally, the Hotels participate in customer loyalty programs operated by certain of the management companies. The cost of these programs is charged to all participating hotels based on members' qualifying expenditures. When members redeem rewards at the hotel, the Hotels receive reimbursements from the management companies at a standard reimbursement rate and record these as room revenues.

Contingencies

From time to time the Hotels may be exposed to litigation arising from the operations of its business. At this time, CNL does not believe that resolution of these matters will have a material adverse effect on the Hotels financial condition or results of operation.

8. Credit Enhancements

Certain of the Hotels benefit from various types of credit enhancements that have been provided by the managers of some of the Hotels. These credit enhancements guarantee certain of the Hotels certain minimum returns. Funding under these guarantees is recognized as a reduction in operating expenses, as reductions in hotel and resort management fees or as liabilities by the Hotels, depending upon the nature of each credit enhancement agreement and whether the funded amounts are required to be repaid by certain of the Hotels in the future. The repayment of these liabilities is expected to occur at such time that the net operating income of certain of the Hotels covered by the enhancements is in excess of the minimum returns to certain of the Hotels. All of the credit enhancements are subject to expiration or "burn-off" provisions over time or at such time that the funding limit has been reached.

During the years ended December 31, 2006, 2005 and 2004, the Hotels recognized approximately \$0.9 million, \$1.6 million and \$13.4 million, respectively, as reductions of operating expenses and approximately \$0.4 million, \$0.8 million and \$5.2 million, respectively, as reductions in hotel and resort management fees as a result of credit enhancement funding. In addition, for the years ended December 31, 2006 and 2005, the Hotels recognized \$0.4 million and \$1.2 million in rental revenues from a limited rent guarantee. Of the total remaining amounts available to the Hotels under the credit enhancements, approximately \$3.6 million is subject to repayment provisions if utilized.

9. Subsequent Events

On January 18, 2007, CNL, entered into an Agreement and Plan of Merger (the Merger Agreement) by and among MS Resort Holdings LLC, a Delaware limited liability company (Parent), MS Resort Acquisition LLC, a Delaware limited liability company and a wholly-owned subsidiary of Parent (Merger Sub), MS Resort Purchaser LLC, a Delaware limited liability company and a wholly-owned subsidiary of Parent (MS Purchaser Sub), and Ashford Sapphire Acquisition LLC, a Delaware limited liability company (Sapphire and, together with Parent, Merger Sub and MS Purchaser Sub, the Buyer Parties) pursuant to which each issued and outstanding share of common stock (Common Stock) of CNL (other than dissenting shares and shares owned directly or indirectly by Parent) will be canceled and entitled to receive a distribution and merger consideration in a total amount equal to \$20.50. Parent, Merger Sub and MS Purchaser Sub are affiliates of Morgan Stanley Real Estate Fund V, U.S., L.P. (MSREF), and Sapphire is a wholly-owned subsidiary of Ashford Hospitality Trust, Inc. (Ashford).

Pursuant to the Merger Agreement and related agreements entered into in connection therewith, following satisfaction of the conditions set forth in the Merger Agreement, CNL will sell the Hotels directly to MS Purchaser Sub and Sapphire (the Asset Sales) and, on the day immediately following consummation of the Asset Sales, Merger Sub will merge with and into CNL, with CNL continuing as the surviving entity.

ASHFORD HOSPITALITY TRUST, INC.
CONSOLIDATED PRO FORMA FINANCIAL STATEMENTS

Management prepared the following pro forma financial statements, which are based on the historical consolidated financial statements of Ashford Hospitality Trust, Inc. (the Company) and adjusted to give effect to several acquisitions completed after December 31, 2005 and the related debt and equity offerings to fund those acquisitions, as discussed below, as if such transactions occurred at the beginning of the period presented.

On January 25, 2006, in a follow-on public offering, the Company issued 12,107,623 shares of its common stock at \$11.15 per share, which generated gross proceeds of approximately \$135.0 million. However, the aggregate proceeds to the Company, net of underwriters' discount and offering costs, was approximately \$128.1 million. The 12,107,623 shares issued include 1,507,623 shares sold pursuant to an over-allotment option granted to the underwriters. The net proceeds were used for a \$60.0 million pay-down on the Company's \$100.0 million credit facility, due August 17, 2008, on January 31, 2006, a \$45.0 million pay-down on the Company's \$45.0 million mortgage loan, due October 10, 2007, on February 9, 2006, and the acquisition of the Marriott at Research Triangle Park hotel property on February 24, 2006 for \$28.0 million, as discussed below.

On February 24, 2006, the Company acquired the Marriott at Research Triangle Park hotel property in Durham, North Carolina, from Host Marriott Corporation for approximately \$28.0 million in cash. The Company used proceeds from its sale of two hotels on January 17, 2006 and its follow-on public offering on January 25, 2006 to fund this acquisition.

On April 19, 2006, the Company acquired the Pan Pacific San Francisco Hotel in San Francisco, California, for approximately \$95.0 million in cash. The Company used proceeds from two credit facility draws of approximately \$88.9 million and \$15.0 million to fund this acquisition.

On July 13, 2006, the Company acquired the Marriott Crystal Gateway hotel in Arlington, Virginia, from EADS Associates limited Partnership for approximately \$107.2 million. The purchase price consisted of the assumption of approximately \$53.3 million of mortgage debt, the issuance of approximately \$42.7 million worth of limited partnership units, which equates to 3,814,842 units valued at \$11.20 per unit, approximately \$2.5 million in cash paid in lieu of units, the reimbursement of capital expenditures costs of approximately \$7.2 million, and other net closing costs and adjustments of approximately \$1.5 million. The limited partnership units issued represent Class B common units, with a fixed dividend rate of 6.82% in years 1-3 and 7.2% thereafter based on the \$11.20 per unit price, and have priority in payment of cash dividends over holders of common units. After ten years, either party may convert these units to common units. For accounting purposes, these units were valued at approximately \$40.6 million or \$10.64 per unit, which represents the average market price of the Company's common stock from five business days before the definitive agreement was finalized on May 18, 2006 to five business days after such date. In addition, the Company assumed the existing management agreement which expires in 2017 with three ten-year renewal options. The management agreement provides for a base management fee of 3% of the hotel's gross revenues plus certain incentive management fees. Based on the Company's review of this management agreement, the Company concluded that the terms are more favorable to the manager than a typical current market management agreement. Hence, the Company recorded an unfavorable contract liability of approximately \$15.8 million related to this management agreement as of the acquisition date.

On July 25, 2006, in a follow-on public offering, the Company issued 14,950,000 shares of its common stock at \$11.40 per share, which generated gross proceeds of approximately \$170.4 million. However, the aggregate proceeds to the Company, net of underwriters' discount and offering costs, was approximately \$162.0 million. The 14,950,000 shares issued include 1,950,000 shares sold pursuant to an over-allotment option granted to the underwriters. On July 25, 2006, the net proceeds were used to pay down the Company's \$30.0 million balance on its \$47.5 million credit facility, due October 10, 2007, and pay down its \$98.9 million balance on its \$100.0 million credit facility, due August 17, 2008.

On November 9, 2006, the Company acquired the Westin O'Hare hotel property in Rosemont, Illinois, for approximately \$125.0 million in cash. To fund this acquisition, the Company used cash available on its balance sheet and proceeds from a \$101.0 million mortgage loan executed on November 16, 2006.

On December 7, 2006, the Company acquired a seven-property hotel portfolio (MIP Portfolio) from a partnership of affiliates of Oak Hill Capital Partners, The Blackstone Group, and Interstate Hotels and Resorts for approximately \$267.2 million in cash. Of the seven acquired hotels, five are considered core hotels while two are considered non-core hotels, which the Company intends to sell. To fund this acquisition, the Company used cash available on its balance sheet, proceeds from a \$25.0 million draw on a credit facility, and proceeds from a \$212.0 million mortgage loan executed on December 7, 2006.

On April 11, 2007, the Company acquired a 51-property hotel portfolio (CNL Portfolio) from CNL Hotels and Resorts, Inc. (CNL) for approximately \$2.4 billion plus closing costs of approximately \$80.0 million. Pursuant to this agreement, the Company acquired 100% of 33 properties and 70%-89% of 18 properties through existing joint ventures. To fund this acquisition, the Company utilized several sources as follows: borrowings of approximately \$928.5 million of ten-year, fixed-rate debt at an average blended interest rate of 5.95%, approximately \$555.1 million of three-year, variable-rate debt with two one-year extension options at an interest rate of LIBOR plus 1.65%, and approximately \$325.0 million of one-year, variable-rate debt with two one-year extension options at an interest rate of LIBOR plus 1.5%, the sale of 8.0 million shares of Series C Cumulative Redeemable Preferred Stock for approximately \$200.0 million at a dividend rate of LIBOR plus 2.5%, and assumed fixed-rate debt of approximately \$432.3 million, which is net of approximately \$129.8 million of debt related to minority interest holders, representing ten fixed-rate loans with an average blended interest rate of 6.09% and expiration dates ranging from 2008 to 2025. In addition, the Company executed a \$200.0

Table of Contents

million credit facility with interest rates ranging from LIBOR plus 1.55% to LIBOR plus 1.95% depending on the loan-to-value ratio, which matures April 9, 2010 with two one-year extension options, requires interest-only payments through maturity, and requires quarterly commitment fees ranging from 0.125% to 0.20% of the average undrawn balance during the quarter. With respect to this acquisition, the Company assumed certain existing management agreements. Based on the Company's review of these management agreements, the Company concluded that the terms of certain management agreements are more favorable to the manager than a typical current-market management agreement. As a result, the Company recorded an unfavorable contract liability of approximately \$10.3 million related to these management agreements, which will be amortized as a reduction to incentive management fees on a straight-line basis over the initial terms of the related management agreements. The purchase price allocation related to CNL Portfolio is preliminary subject to further internal review and third-party appraisals.

The following consolidated pro forma financial statements should be read in conjunction with the Company's Form 8-K filed with the Securities and Exchange Commission on January 18, 2007, which announced the impending acquisition of CNL, the Company's consolidated financial statements and notes thereto for the year ended December 31, 2006, which are incorporated by reference in the Company's Form 10-K, filed March 9, 2007, and the consolidated financial statements and notes thereto related to CNL included elsewhere in this Form 8-K. In the Company's opinion, all significant adjustments necessary to reflect these acquisitions and related equity offerings have been made.

Explanation of pro forma adjustments:

- (a) Represents pro forma adjustments to reflect the below acquisitions and related debt and equity offerings as if such transactions occurred at the beginning of the period presented.
 - 1) acquisition of Marriott RTP on February 24, 2006
 - 2) acquisition of JW Marriott Pan Pacific on April 19, 2006
 - 3) acquisition of Marriott Gateway on July 13, 2006
 - 4) acquisition of Westin O Hare on November 9, 2006
 - 5) acquisition of MIP Properties on December 7, 2006
- (b) Represents pro forma adjustments to reflect the acquisition of CNL Portfolio on April 11, 2007 as if such transaction occurred at the beginning of the period presented.
- (c) Represents pro forma adjustments to reflect the acquisition of the 15% minority interest holder in a joint venture related to the Hyatt Regency Dearborn in Detroit, Michigan, as if such transaction at the beginning of the period presented.
- (d) Represents pro forma adjustments to reflect changes in ongoing depreciation, management fees, incentive management fees, and corporate general & administrative expenses related to CNL Portfolio as if such transaction occurred at the beginning of the period presented.
- (e) Represents pro forma adjustments to reflect additional interest expense associated with borrowings incurred to fund these acquisitions as if such debt was outstanding the entire period presented as well as minority interest related to this interest expense and preferred stock dividends.
 - (1) Represents pro forma income tax benefit (expense) related to these transactions.
 - (2) Represents pro forma weighted average shares considering all shares and units issued to fund these acquisitions.
 - (3) Pro forma minority interest represents Class B units annual dividends of approximately \$2.9 million plus 11.22% of the net income (loss) after preferred stock dividends and Class B units dividends.
 - (4) Represents the acquired entities unaudited statements of operations for the periods preceding their acquisitions.
 - (5) Represents amounts derived from CNL Portfolio's audited income statement included elsewhere herein. Reclassifications to reflect consistency with the Company's presentation have been made.
 - (6) Represents the change in depreciation expense associated with the acquired entities based on preliminary purchase price allocations.
 - (7) Represents additional interest expense and amortization of loan costs associated with borrowings to fund these acquisitions as if such acquisitions closed at the beginning of the period presented. Regarding variable-rate debt, a 1/8th change in interest rate would have an approximate \$1.4 million impact.
 - (8) Represents pro forma dividends on Series A, B, & C preferred stock as if such shares were outstanding the entire period presented.

- (9) Management fees reflect increases in ongoing base fees as a result of management contracts amended in connection with the acquisition offset by a reduction related to amortization of unfavorable management contract liabilities established upon acquisition of CNL Portfolio.
- (10) Incentive management fees reflect increases resulting from management contracts amended in connection with the acquisition of CNL Portfolio.
- (11) Represents incremental corporate general and administrative expenses associated with the acquisition of CNL Portfolio, which represents additional salaries, benefits, office expense, legal expense, internal audit costs, and other general and administrative costs in excess of the \$10.2 million of corporate overhead allocated to CNL Properties on a stand-alone basis.
- (12) Represents the elimination of interest income the Company does not expect to earn on a go-forward combined basis.
- (13) Represents pro forma adjustments to reflect the acquisition of the 15% minority interest holder in a joint venture related to the Hyatt Regency Dearborn in Detroit, Michigan, as if such transaction at the beginning of the period presented.
