-

Item 2.02 Results of Operations and Financial Condition.

The information in this report is being furnished and shall not be deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934.

On February 29, 2008, PlanetOut Inc. announced its financial results for the quarter and year ended December 31, 2007. A copy of PlanetOut's press release announcing these financial results and certain other information is furnished as Exhibit 99.1 to this report.

The attached press release includes the non-GAAP financial measures of Adjusted EBITDA, Adjusted Net Income (Loss) and Adjusted earnings per share (Adjusted EPS) Basic and Diluted, which are reconciled to net income (loss), net income (loss) and net income (loss) per share basic and diluted, respectively, which we believe are the most comparable GAAP measures. We use these non-GAAP financial measures for internal managerial purposes, when providing our business outlook, and as a means to evaluate period-to-period comparisons. These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP. These non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, provide a more complete understanding of factors and trends affecting our business. These non-GAAP measures should be considered as a supplement to, and not as a substitute for, or superior to, income (loss) from operations, cash flow from operating activities and net income (loss) and net income (loss) per share calculated in accordance with generally accepted accounting principles.

Adjusted EBITDA is defined as net income (loss) before interest, taxes, depreciation and amortization, stock-based compensation, restructuring, non-cash impairment charges, executive transition, financial advisory fees, income (loss) from discontinued operations and other income (expense), net, less Adjusted EBITDA from Discontinued Operations. Adjusted EBITDA from Discontinued Operations is defined as net income (loss) from discontinued operations before interest, taxes, depreciation and amortization, stock-based compensation, restructuring and non-cash impairment charges. We consider Adjusted EBITDA to be an important indicator of our operational strength. We deduct other income (expense), net, consisting primarily of interest income (expense), and Adjusted EBITDA from Discontinued Operations from net income (loss) in calculating Adjusted EBITDA because we regard interest income (expense), and Adjusted EBITDA from Discontinued Operations to be non-operating items. This measure also eliminates the effects of depreciation and amortization, restructuring, non-cash impairment charges, executive transition, financial advisory fees, income (loss) from discontinued operations and stock-based compensation expense from period to period, which we believe is useful to our management team and investors in evaluating our operating performance, as depreciation and amortization, restructuring, non-cash impairment charges, executive transition, financial advisory fees, income (loss) from discontinued operations and stock-based compensation costs are not directly attributable to the underlying performance of our business operations. A limitation associated with this measure is that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues in our businesses. We evaluate the costs of such tangible and intangible assets through other financial measures such as capital expenditures. A further limitation associated with this measure is that it does not include stock-based compensation expenses related to our workforce. We compensate for this limitation by providing supplemental information about stock-based compensation expense on the face of our consolidated statements of operations.

Adjusted Net Income (Loss) is defined as net income (loss) excluding stock-based compensation expense, restructuring, non-cash impairment charges, executive transition, financial advisory fees and income (loss) from discontinued operations. We consider Adjusted Net Income (Loss) to be a profitability measure which facilitates the forecasting of our operating results for future periods and allows for the comparison of our results to historical periods and to other companies in our industry. A limitation of Adjusted Net Income (Loss) is that it does not include all items that impact our net income (loss) and net income (loss) per share for the period. Adjusted EPS Basic and Diluted are defined as Adjusted Net Income (Loss) calculated on a basic and diluted per share basis, respectively.

These measures should be considered in addition to results prepared in accordance with GAAP, but are not a substitute for, or superior to, GAAP results. Consistent with our practice, the non-GAAP measures included in the attached press release have been reconciled to the nearest GAAP measure.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

The following exhibit is furnished with this report:

99.1. Press release dated February 29, 2008 containing financial results for PlanetOut Inc. for the quarter and year ended December 31, 2007.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, hereunto duly authorized.
