Lake Forest, Illinois (September 15, 2003) Following 10 years of successful collaboration, CNH Global N.V. (NYSE:CNH) and Caterpillar Logistics Services, Inc. (Cat Logistics) today announced the signing of a new long-term logistics services agreement. The new logistics services agreement is effective immediately.

Under the agreement, Cat Logistics will be the sole third party logistics provider for CNH service parts in the United States and Canada and will manage warehousing operations, including receiving, packaging, shipping and warehouse management. The two companies are nearing the end of a similar 10-year contract logistics agreement for New Holland brand parts in North America.

The two companies have worked closely together to implement a distribution system that will improve service to dealers and customers across all of CNH's brands, including agricultural equipment brands Case IH and New Holland, as well as construction equipment brands Case, New Holland Construction and Kobelco.

Tom Brockley, Vice President of CNH North American Parts Operations, said, "The actions we are taking with this agreement reflect the commitment we have made to our dealers and customers to continuously improve service levels in our parts logistics operation. This is a true win-win for our customers, dealers and shareholders."

Steve Wunning, President of Caterpillar Logistics Services Inc., said, "This relationship will combine the best of our respective capabilities to deliver high quality, cost-competitive after sales logistics. We are looking forward to working with CNH to provide immediate, realizable benefits for their customers, dealers and shareholders."

In January 2003, CNH implemented a single service parts management database across all its North American parts facilities, setting the stage for the integration of all third party warehousing operations.
