ABLEST INC.

Notes to Condensed Financial Statements
(Unaudited)

1. In the opinion of Ablest Inc. (the Company) management, the accompanying condensed financial statements contain all normal recurring adjustments necessary to fairly present the Company's financial position as of March 31, 2002 and the results of its operations and cash flows for the thirteen week periods ended March 31, 2002 and April 1, 2001.
2. The results of operations for the thirteen week period ended March 31, 2002 is not necessarily indicative of the results to be expected for the full year.

There has been no significant change in accounting policy of the Company during the periods presented except as noted herein. For a description of all policies, refer to Note 1 of the Notes to Financial Statements as included in the Company's 2001 Annual Report.

3. *Stockholders' Equity.* The changes in stockholders' equity for the thirteen week period ended March 31, 2002 are summarized as follows (in thousands, except shares):

	Common Stock	Additional Paid-in Capital	Retained Earnings	Treasury Stock Shares	Treasury Stock Amount	Unearned Restricted Stock	Receivable Stock sale	Total Stockholder's Equity
Balance at December 30, 2001	\$ 165	\$ 4,936	\$ 11,048	387,239	\$ (1,756)	\$ (108)	\$ (22)	\$ 14,263
Net loss			(327)					(327)
Stock compensation awards						21		21
Stock repurchase program				7,071	(32)			(32)
Balance at March 31, 2002	\$ 165	\$ 4,936	\$ 10,721	394,310	\$ (1,788)	\$ (87)	\$ (22)	\$ 13,925

4. *Stock Options.* For the 13 week period ended March 31, 2002, no options to purchase shares of common stock of the Company were granted or exercised. At March 31, 2002 and December 30, 2001, the Company had exercisable options outstanding to independent directors and former employees to purchase 49,479 common shares at prices ranging from \$5.06 to \$10.13 per share.

The effect of unexercised stock options determined under the treasury method was anti-dilutive for all periods presented.

5. *Discontinued Operations.* Reclassifications have been made to the Condensed Balance sheet as of December 30, 2001 to reallocate the net assets of discontinued operations to their respective balance sheet accounts. Effective with fiscal 2002 the Company will no longer report Discontinued Operations resulting from the March 2000 sale of its industrial maintenance business to Onyx as a separate line item. The balances reallocated were Current Deferred Income Tax Assets of \$544,000 and Accrued Loss on Disposal of Discontinued Operation of \$283,000, resulting in the Net Assets of Discontinued Operations of \$261,000 reported at December 30, 2001.
6. *Industry Segments.* The Company's sole business is in providing staffing services on a temporary and contract basis. Management of the Company views its operations as having two operating segments: Commercial staffing services, consisting mostly of clerical and light industrial staffing services and information technology staffing services, consisting mostly of programmers, and systems documentation services. Staffing services for both segments are provided throughout the eastern United States and select southwestern U.S. markets.

Operating segment data as of and for the thirteen week periods ended March 31, 2002 and April 1, 2001, respectively, are provided on the following page.

Table of Contents

ABLEST INC.
Notes to Condensed Financial Statements
(Unaudited)

6. *Industry Segments (continued).*

(in thousands)	Thirteen Week period Ended March 31, 2002	Thirteen Week period Ended April 1, 2001
Commercial Staffing Services:		
Net service revenues	\$ 17,054	18,616
Cost of services	13,916	14,757
Gross profit	3,138	3,859
Selling, general & administrative	2,520	3,305
Operating income	618	554
Amortization		
Trade receivables	\$ 9,170	10,580
Information Technology Staffing Services:		
Net service revenues	\$ 2,173	3,230
Cost of services	1,701	2,555
Gross profit	472	675
Selling, general & administrative	312	597
Operating income	160	78
Amortization		91
Trade receivables	\$ 1,088	1,831

Operating income on these segment statements differ from the operating income reported on the Condensed Statements of Operations because it does not include some corporate expenses. These corporate items include costs associated with providing executive, administrative, information technology and human resource services to field operations. These costs are not allocated for segment purposes but have been fully charged to continuing operations in the Condensed Statements of Operations.

7. *New Accounting Pronouncements.* In July 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141 (SFAS No. 141), Business Combinations . SFAS No. 141 addresses financial accounting and reporting for goodwill and other intangible assets acquired in a business combination at acquisition, requires the purchase method of accounting to be used for all business combinations initiated after June 30, 2001, establishes specific criteria for the recognition of intangible assets separately from goodwill and requires unallocated negative goodwill to be written off immediately as an extraordinary gain. SFAS No. 141 became effective for all business combinations initiated after June 30, 2001.

In July 2001, the Financial Accounting Standards Board issued Financial Accounting Standards No. 142 (SFAS No. 142), Goodwill and Other Intangible Assets . Under SFAS No. 142, goodwill and indefinite lived intangible assets are no longer amortized but are reviewed at least annually for impairment. At March 31, 2002, the Company did not have indefinite lived intangible assets other than goodwill and did not have any intangible assets with definite lives. The Company has adopted SFAS No. 142 effective December 31, 2001, the first day of fiscal 2002. The non-amortization provision of SFAS No. 142 is expected to result in additional net income of approximately \$51,000 or \$.02 per basic common share in 2002. SFAS No. 142 prescribes a two-phase process for impairment testing of goodwill. The first phase, required to be completed by June 30, 2002, screens for impairment; while the second phase (if necessary), required to be completed by December 29, 2002, measures the impairment. The Company completed its first phase impairment analysis during the current quarter and found no instances of impairment of its recorded goodwill; accordingly, the second testing phase, absent future indicators of impairment, is not necessary during 2002.

Table of Contents

ABLEST INC.
Notes to Condensed Financial Statements
(Unaudited)

7. *New Accounting Pronouncements (continued).*

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, which establishes a single accounting model for long-lived assets to be disposed of by sale. The Company adopted the provisions of SFAS No. 144 for its 2002 fiscal year started on December 31, 2001. The Company is considering the provisions of SFAS No. 144 and does not anticipate the financial impact of adoption of the new pronouncement to be material.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE
RESULTS OF OPERATIONS AND FINANCIAL CONDITION**

Statements made in this discussion, other than those concerning historical information, should be considered forward-looking and subject to certain risks and uncertainties that could cause actual results to differ materially from those anticipated. This notice is intended to take advantage of the safe harbor provided by the Private Securities Litigation Reform Act of 1995 with respect to such forward-looking statements. Risks and uncertainties include, but are not limited to; hiring and maintaining qualified employees, legislative and judicial reforms which could increase the cost of our services to our customers and make the use of staffing service providers less beneficial, the proper functioning of our management information systems and the continuing economic recession.

On January 1, 2001, the Company's subsidiaries Ablest Service Corp. (a Delaware corporation), Milestone Technologies, Inc. (an Arizona corporation) and PLP Corp. (an Alabama corporation) were formally merged into Ablest Inc. (a Delaware corporation), to form a single operating company under the Ablest Inc. name. The outstanding shares of the merging corporations were cancelled and no shares of Ablest Inc. were issued in exchange. The outstanding shares of Ablest Inc. remain outstanding and were not affected by the merger.

For the past two years, the Company has reported the March 2000 sale of its industrial maintenance operations and associated reserves as separate line items on its financial statements, referenced as discontinued operations. Effective with fiscal year 2002, the Company no longer will report discontinued operations as a separate line item but will include remaining reserves in the various line items that they pertain to. Applicable balances on the fiscal 2001 financial statements have been reclassified to provide for a comparative basis.

Results of Operations:

Revenues for the quarter and year to date period ended March 31, 2002 were \$19.2 million compared to \$21.8 million for the quarter and year ended April 1, 2001, a decline of \$2.6 million or 12.0%. Revenue in the Company's commercial staffing services segment declined by \$1.5 million or 8.4% to \$17.1 million from \$18.6 million for the current period compared to one year earlier. This decline is primarily the result of the continued softness in the United States economy during the first part of 2002. Also impacting this decline was the closing of six commercial staffing offices during the prior year that contributed \$545,000 in revenue during the first fiscal quarter of 2001.

Revenue in the Company's information technology staffing services segment declined by \$1.0 million or 32.7% to \$2.2 million from \$3.2 million, for the current period compared to one year earlier. This segment continues to be especially hard hit by the overall decline in the economy and in corporate spending for these services in particular. Also contributing to this decline in service revenue was the closing of one information technology staffing office in the prior year. That office contributed \$255,000 in revenue during the first fiscal quarter of 2001.

Gross profit was \$3.6 million for the first quarter of 2002 compared to \$4.5 million in 2001, a decrease of \$924,000 or 20.4%. Gross profit for the commercial staffing services segment declined by \$721,000 or 18.7% to \$3.1 million from \$3.8 million over the same period, year to year. Gross margin for this segment declined by 2.3 percentage points to 18.4% from 20.7%, for the current period compared to the same period in 2001. Driving this decline was an increase in the percentage of revenue generated by the Company's Point Source Accounts. In the first quarter of the current year, revenue generated by these accounts represented 26.9% of total commercial staffing services revenue compared

Table of Contents

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE
RESULTS OF OPERATIONS AND FINANCIAL CONDITION**
(continued)

Results of Operations (continued):

to 19.3% for the comparable period of the prior year. Gross margins for Point Source accounts are normally lower than standard gross margins as bidding for these high volume accounts is highly competitive. Gross profit for the Company's information technology staffing services segment, declined by \$203,000 or 30.1% to \$472,000 from \$675,000 in the current period compared to one year earlier. Gross margin for this segment improved by .8 percentage points to 21.7% from 20.9% for the like comparable period, year to year. The loss of a major customer in the fourth quarter of the prior fiscal year, who was serviced at a lower gross margin based on their volume, contributed to the increased gross margin during the current quarter.

Selling, general and administrative expenses (exclusive of amortization expense in the prior fiscal year) decreased by \$1.0 million or 19.6% to \$4.2 million from \$5.2 million for the current year compared to one year earlier. This decline is primarily the result of cost reductions and staff eliminations that were undertaken in the second and fourth quarters of the prior fiscal year. Significant cost reductions were made in the Company's information technology staffing segment, which realized a 47.7% decrease in selling, general and administrative expenses, resulting in a 105% improvement in operating income for this segment.

Other income, net increased by \$240,000 to \$255,000 compared to \$15,000 in the same period last year. The increase results from an income tax refund of \$201,000, plus associated interest of \$32,000, for the Company's amended 1998 Federal Income Tax return.

The Company recorded a valuation allowance of \$327,000 to offset a deferred tax benefit of \$327,000 related to the loss in the current quarter. Based upon the level of historical taxable income and projections for future taxable income, management has provided valuation allowances for those deferred tax assets that are not expected to be realized.

Liquidity and Capital Resources:

The following financial information is provided as of a balance sheet date of March 31, 2002.

The quick ratio was 3.2 to 1 and 3.7 to 1 at March 31, 2002 and December 30, 2001, respectively, and the current ratio was 3.8 to 1 for both respective periods. Net working capital decreased by \$248,000 or 2.6% to \$9.3 million for the current quarter and year to date period. Contributing to this decrease was a decline in cash of \$235,000, receivables, net of \$66,000, current deferred income taxes of \$117,000 and an increase in accrued expenses of \$141,000. These were offset by an increase in prepaid expenses of \$227,000 and a decrease in accounts payable of \$84,000. The decline in cash is the result of the loss incurred in the first quarter. The increase in prepaid expenses is the result of the renewal of the Company's insurance program for the current year while the decrease in current deferred income tax is caused by the reclassification and true-up of the deferred tax assets associated with the prior discontinued operations. The changes in accounts receivable, accounts payable and accrued expenses are all normal timing fluctuations based on the Company's current level of operations. Reference should be made to the Statement of Cash Flows, which details the sources and uses of cash.

Capital expenditures were \$16,000 during the current quarter and were used for the purchase of computer hardware and software applications.

The Company maintains a Standard LIBOR Grid Note Agreement (LIBOR Agreement). The LIBOR Agreement allows for the borrowing for general corporate needs of up to \$5.0 million with interest calculated at the bank's then prime lending rate or, at the Company's option, using a formula which adds 250 basis points or 2.5% to the 30, 60 or 90 day London Interbank Offered Rate. The LIBOR Agreement is a one-year demand note that expires on July 21, 2002, and is renewable annually with the consent of both parties. The LIBOR Agreement does not contain working capital or other financial covenants. The Company believes that this line will be renewed or replaced prior to its expiration. Since, however, the Company must repay any borrowings under the LIBOR Agreement on demand, there is no guarantee that the Company will be able to maintain or obtain the desired funding if, for any reason, the financial institution does not wish to continue to extend credit to the Company. At the current time, given the

Table of Contents

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE
RESULTS OF OPERATIONS AND FINANCIAL CONDITION**
(continued)

Liquidity and Capital Resources (continued):

Company's financial condition, the nature of its business which does not require attainment or maintenance of high levels of working capital, its historical relationship with the financial institution and the fact that working capital requirements tend to decline if revenues decline, the Company believes that it will be able to borrow required funds under the LIBOR Agreement. If, however, the financial institution were to demand repayment of the borrowings (or decline to provide funding) under the LIBOR Agreement for any reason, the Company would be in the position of having to secure from other sources funding to finance its working capital requirements. Such new sources could require commitment fees, financial covenants and other conditions, taking into consideration such factors as the health of the national economy, staffing industry performance and trends, and the Company's financial condition, performance and prospects. In such event, there is no guarantee that the Company would be able to secure such funding on favorable terms.

It is anticipated that existing funds, cash flows from operations and available borrowings will be sufficient to cover working capital requirements and capital expenditures for the remainder of fiscal 2002.
