**NOTES TO UNAUDITED CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS**

1. Basis of Presentation

The accompanying Unaudited Condensed Consolidated Financial Statements of Boca Resorts, Inc. and subsidiaries (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial statements and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, the financial information furnished in this report reflects all material adjustments (including normal recurring accruals) necessary for a fair presentation of the results for the interim periods presented. The results of operations for the three months ended September 30, 2003 are not necessarily indicative of the results to be expected for the entire year primarily due to seasonal variations. All significant intercompany accounts have been eliminated.

2. Nature of Operations

The Company is an owner and operator of five luxury resorts located in Florida, with hotels, conference facilities, golf courses, spas, marinas and private clubs. The Company's resorts include the Boca Raton Resort & Club (Boca Raton), the Registry Resort at Pelican Bay (Naples), the Edgewater Beach Hotel (Naples), the Hyatt Regency Pier 66 Resort and Marina (Fort Lauderdale), and the Radisson Bahia Mar Resort and Yachting Center (Fort Lauderdale). The Company also owns and operates two golf clubs located in Florida, Grande Oaks Golf Club in Davie and Naples Grande Golf Club in Naples, and owns and operates two golf courses in Boca Raton that are part of the Boca Raton Resort & Club.

3. Earnings/(Loss) Per Common Share

Basic earnings/(loss) per share equals net income/(loss) divided by the number of weighted average common shares outstanding. Diluted earnings/(loss) per share includes the effects of common stock equivalents to the extent they are dilutive.

Options to purchase shares of common stock totaling 6.8 million and 6.5 million were outstanding during the three months ended September 30, 2003 and 2002, respectively, but were not included in the computation of loss per share because the effect would be antidilutive.

4. Stock Option Plan

The Company grants stock options for a fixed number of shares to employees with an exercise price equal to the fair value of the shares at the date of grant. The Company accounts for the options granted under the intrinsic value method, which follows the recognition and measurement principles of Accounting Principals Board Opinion No. 25, Accounting for Stock Issued to Employees. No stock-based employee compensation cost is reflected in net loss, except for certain non-cash, non-recurring compensation expense associated with the modification in terms of certain stock option awards which totaled \$453,000 (or \$279,000 net of benefit for income taxes) during the three months ended September 30, 2003. The following table summarizes the effect of accounting for stock option awards as if the fair value recognition provisions of Statement of Financial

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

This report may not contain all the information that is important to you and should be read together with the Annual Report on Form 10-K for the fiscal year ended June 30, 2003, including the disclosure relating to critical accounting policies in Management's Discussion and Analysis.

Business Philosophy

The Company's business strategy is to focus on internal expansion and development opportunities at its existing resort properties. However, management continuously evaluates ownership, acquisition and divestiture alternatives with the intention of maximizing shareholder value.

Seasonality

The resort operations are generally seasonal. The resorts historically experience greater revenue, costs and income in the second and third quarters of the fiscal year ended June 30 due to increased occupancy and room rates during the winter months. Historically, 16%, 25%, 35% and 24% of annual revenue has been derived during the first, second, third and fourth fiscal quarters, respectively.

Events of September 11, 2001

During the three-month period following the September 11, 2001 terrorist attacks on New York's World Trade Center towers and on the Pentagon, the Company's results of operations were adversely affected by travel disruption and short-term cancellation of group bookings at its properties. The Company's operating results continue to track modestly below pre-September 11, 2001 levels.

Non-GAAP Financial Measures

This quarterly report on Form 10-Q contains a non-GAAP financial measure, within the meaning of applicable Securities and Exchange Commission rules, which we believe is useful to investors. This financial measure is loss before extraordinary and non-recurring items, interest expense, interest income, income taxes, depreciation and amortization (LBITDA). LBITDA is used by management, the lodging industry and certain investors as an indicator of the Company's historical ability to service debt, to sustain potential future increases in debt and to satisfy capital requirements. However, LBITDA is not intended to represent cash flows for the period. In addition, it has not been presented as an alternative to either (a) operating income or loss (as determined by GAAP) as an indicator of operating performance or (b) cash flows from operating, investing and financing activities (as determined by GAAP) and is thus susceptible to varying calculations. LBITDA as presented may not be comparable to other similarly titled measures of other companies.

Table of Contents

Leisure and Recreation Revenue

Leisure and recreation revenue totaled \$47.0 million and \$46.3 million for the three months ended September 30, 2003 and 2002, respectively. The slight increase in revenue for the three months ended September 30, 2003, compared to the three months ended September 30, 2002, followed increases in revenue at each of the Company's properties, except for the Boca Raton Resort & Club.

Revenue increases at the Company's Naples properties during the three months ended September 30, 2003, versus the three months ended September 30, 2002, were primarily a result of room renovations being performed during the prior period at both the Registry Resort and Edgewater Beach Hotel. An increase in revenue at the Company's Fort Lauderdale properties during the three months ended September 30, 2003, compared to the three months ended September 30, 2002, was primarily the result of more group business. Group business represented 30% and 29% of the total occupied rooms at the Company's Fort Lauderdale resorts during the three months ended September 30, 2003 and 2002, respectively. Despite an increase in leisure bookings at the Boca Raton Resort & Club, group business was down during the three months ended September 30, 2003, versus the three months ended September 30, 2002. Group business represented 68% and 72% of the total occupied rooms at the Boca Raton Resort & Club during the three months ended September 30, 2003 and 2002, respectively.

Leisure and Recreation Operating Expenses

Cost of leisure and recreation services totaled \$26.6 million, or 57% of revenue, for the three months ended September 30, 2003, compared to cost of leisure and recreation services of \$26.4 million, or 57% of revenue, for the three months ended September 30, 2002. Cost of leisure and recreation services primarily consisted of direct costs to service rooms, marinas, food and beverage operations, retail establishments, spas and other amenities at the resorts.

Leisure and recreation selling, general and administrative expenses (S,G&A) totaled \$18.9 million, or 40% of revenue, for the three months ended September 30, 2003, compared to S,G&A of \$18.8 million, or 41% of revenue, for the three months ended September 30, 2002. Leisure and recreation S,G&A includes, among other items, administrative payroll costs, selling and marketing expenses, energy and property costs, insurance, real estate taxes, franchise agreement fees and other administrative expenses. Although leisure and recreation S,G&A as a percent of revenue decreased slightly for the three months ended September 30, 2003, compared to the three months ended September 30, 2002, the Company continues to be adversely affected by an increase in energy and insurance costs, which was offset by a decrease in costs associated with a golf course lease with a third party which recently expired.

Leisure and recreation depreciation expense totaled \$9.9 million and \$8.9 million for the three months ended September 30, 2003 and 2002, respectively. The increase in depreciation expense for the three months ended September 30, 2003, compared to the three months ended September 30, 2002, was primarily the result of an increase in depreciation expense following the completion of room renovations at the Registry Resort and Edgewater Beach Hotel.

Leisure and Recreation Operating Loss

Leisure and recreation operations reported operating losses of \$8.4 million and \$7.8 million for the three months ended September 30, 2003 and 2002, respectively. The decrease in operating results for the three months ended September 30, 2003, versus the three months ended September 30, 2002, was primarily due to an increase in depreciation expense.

Corporate General and Administrative Expenses

Corporate general and administrative expenses totaled \$2.0 million and \$1.3 million for the three months ended September 30, 2003 and 2002, respectively. The increase in corporate general and administrative expense during the three months ended September 30, 2003, compared to the three months ended

Table of Contents

September 30, 2002, was primarily because the 2003 period included certain non-cash, non-recurring compensation expense associated with stock options totaling \$453,000.

Interest Expense

Interest expense totaled \$5.1 million and \$5.6 million for the three months ended September 30, 2003 and 2002, respectively. The decrease in interest expense during the three months ended September 30, 2003, versus the three months ended September 30, 2002, was the result of a \$207,000 increase in the amount of interest capitalized on projects under construction together with a \$254,000 decrease in interest expense resulting from lower average outstanding indebtedness during the 2003 period.

Benefit for Income Taxes

The Company recorded a benefit for income taxes totaling \$6.0 million, or 38.5% of pretax loss, and \$5.7 million, or 38.5% of pretax loss, for the three months ended September 30, 2003 and 2002, respectively.

Net Loss

Net loss totaled \$9.5 million and \$9.1 million for the three months ended September 30, 2003 and 2002, respectively. The decrease in operating results for the three months ended September 30, 2003, versus the three months ended September 30, 2002, was primarily due to an increase in depreciation expense.

Liquidity and Capital Resources

Unrestricted cash and cash equivalents decreased to \$7.2 million at September 30, 2003, from \$8.1 million at June 30, 2003. The major components of the change are discussed below.

Net Cash Provided by Operating Activities

Net cash provided by operating activities totaled \$13.0 million and \$11.2 million for the three months ended September 30, 2003 and 2002, respectively. The slight increase in net cash provided by operating activities for the three months ended September 30, 2003, compared to the three months ended September 30, 2002, was primarily because during the prior year three-month period the Company settled certain litigation (that had been accrued for) relating to the Arizona Biltmore Resort & Spa, which was formerly owned by the Company.

Net Cash Used In Investing Activities

Net cash used in investing activities totaled \$11.4 million and \$5.5 million for the three months ended September 30, 2003 and 2002, respectively. The change was primarily because the Company received \$5.6 million from the sale of a land parcel located in Naples, Florida during the prior year three-month period. Additionally, capital expenditures totaled \$11.5 million and \$11.3 million for the three months ended September 30, 2003 and 2002, respectively.

During the three months ended September 30, 2003, the Company was nearing completion on a marina renovation at the Bahia Mar Resort and Yachting Center, which includes the reconfiguration of the existing boat slips. This extensive marina renovation, which is being funded substantially from operations, will result in a state-of-the art yachting center with 242 reconfigured boat slips, sized to accommodate larger yachts ranging from 80 feet to over 200 feet, without reducing the rentable linear feet. The Company also completed, or is nearing completion, on a number of smaller initiatives during the three-month period including the renovation of the pool area at the Boca Raton Resort & Club and a new themed restaurant at Pier 66 Resort and Marina.

During the three months ended September 30, 2002, the Company commenced work on a comprehensive room renovation at the Registry Resort covering 395 guestrooms, which included all new furnishings and new five fixture bathrooms. The Company was also renovating approximately 60 guest suites at the Edgewater Beach Hotel.

Table of Contents

The change in restricted cash was not material from June 30, 2003 to September 30, 2003 or from June 30, 2002 to September 30, 2002.

Net Cash Provided by (Used in) Financing Activities

Net cash used in financing activities totaled \$2.5 million during the three months ended September 30, 2003, compared to net cash provided by financing activities of \$298,000 during the three months ended September 30, 2002. Financing activities for the periods presented primarily includes borrowings, net of repayments, under the Company's revolving credit facility, as well as, repurchases of the Company's common stock.

Capital Resources

The Company's capital resources are provided from both internal and external sources. The primary capital resources from internal operations include (1) room rentals, food and beverage sales, retail sales, spa revenue, golf revenue, tennis revenue, marina and conference service revenue at the resorts and (2) Premier Club membership revenue. The primary external sources of liquidity have been the issuance of debt securities, borrowing under term loans and credit lines, the issuance of Company stock for property acquisitions and the exercise of non-qualified stock options by employees pursuant to the Company's stock option plan.

As of September 30, 2003, the Company had \$15.0 million outstanding under its revolving credit line (which matures on June 30, 2005) and had \$77.9 million in immediate availability. As a result of the current availability under this credit line, combined with cash on hand, management believes the Company has sufficient funds to continue its capital enhancement plans during fiscal 2004 and support on-going operations, including meeting debt service obligations as they come due.

Financial Condition

Significant changes in balance sheet data from June 30, 2003 to September 30, 2003 are discussed below.

Accounts Receivable

Accounts receivable decreased to \$16.2 million at September 30, 2003, from \$21.0 million at June 30, 2003. It is customary for the Company's trade receivables to be lowest following the September 30 operating quarter as a result of the seasonality of its business.

Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses increased to \$35.4 million at September 30, 2003, from \$33.5 million at June 30, 2003. The increase in accounts payable and accrued expenses was primarily because of an increase in accrued interest on the Company's 9.875% senior subordinated notes, partially offset by a decrease in trade payables due to the seasonality of the Company's business. Interest on the senior subordinated notes is paid semi-annually on October 15 and April 15. At June 30, 2003, the accrual for interest on such notes totaled \$4.0 million (and represented interest for 76 days on \$190.1 million outstanding notes). At September 30, 2003, the accrual for interest totaled \$8.6 million (and represented interest for 168 days on \$190.1 million outstanding notes).

Current Portion of Deferred Revenue and Advance Deposits

Current portion of deferred revenue and advance deposits increased to \$32.4 million at September 30, 2003, from \$23.3 million at June 30, 2003. The increase substantially related to the collection of annual Premier Club dues at the Boca Raton Resort & Club. The annual dues will be recognized as revenue ratably over the membership year, which commenced on October 1.

Working Capital

Current liabilities exceeded current assets by \$31.4 million and \$14.8 million at September 30, 2003 and June 30, 2003, respectively. Current liabilities exceeded current assets at each September 30, 2003 and June 30, 2003 primarily because the Company repurchased \$149.9 million principal amount of senior subordinated notes over the past three years and such notes would have otherwise matured in April 2009. The repurchase of the notes resulted in, among other things, a decrease in the Company average cost of borrowing. However, the ratio of current liabilities to current assets is not indicative of a lack of liquidity as the Company maintains a revolving credit line that represents an additional and immediate potential source of liquidity. Forward-Looking Statements

Some of the information in this report may contain forward-looking statements. These statements discuss future expectations, contain projections of results of operations or of financial position, or state other forward-looking information. When considering such forward-looking statements, you should keep in mind the risk factors and other cautionary statements in this report. The risk factors include certain known and unknown risks and uncertainties, and could cause the Company's actual results to differ materially from those contained in any forward looking statement.

These risk factors include, among others, risks relating to travel; risks associated with construction and development at the Company's properties; competition in the Company's principal business; the availability of financing on terms suitable to the Company and the Company's dependence on key personnel, as well as other risk factors discussed from time to time in the Company's Securities and Exchange Commission filings. Risks relating to travel include a change in travel patterns resulting from slowing economic conditions and geopolitical conditions, as well as changes in corporate policies relating to group meetings and air or other travel disruption.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

Not Applicable.

Item 4. *Controls and Procedures*

Within the 90 days prior to the filing date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's chairman of the board (the Company's principal executive officer) and chief financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in its periodic filings with the Securities and Exchange Commission (SEC) is effectively recorded, processed and reported within the time periods specified in the SEC's rules and forms. In designing and evaluating the disclosure controls and procedures, the Company's management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired objectives and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. Based on the foregoing, the Company's chairman of the board and chief financial officer concluded that the Company's disclosure controls and procedures were effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings. Additionally, there have been no significant changes in the Company's internal controls or in other factors that could significantly affect the internal controls subsequent to the date the Company completed its evaluation.

Table of Contents**Part II OTHER INFORMATION****Item 1. Legal Proceedings**

The Company is not currently involved in any material legal proceedings. However, the Company may from time to time become a party to legal proceedings arising in the ordinary course of business, which are incidental to the business. While the results of proceedings which arise in the normal course of business cannot be predicted with certainty, management believes that losses, if any, resulting from the ultimate resolution of these matters will not have a material adverse effect on the Company's consolidated results of operations, consolidated cash flows or consolidated financial position.
