year ended December 31, 2004

(With Report of Independent Registered Public Accounting Firm Thereon)

**REPORT OF INDEPENDENT REGISTERED PUBLIC
ACCOUNTING FIRM**

The Benefits Committee
Wachovia Corporation

We have audited the accompanying statements of net assets available for benefits of the Wachovia Savings Plan (the Plan), as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

WACHOVIA SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2004 and 2003

NOTE 1: DESCRIPTION OF PLAN

The following brief description of the Wachovia Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

GENERAL

Wachovia Corporation and its subsidiaries (the Companies) sponsor the Plan, which is designed to promote savings for retirement, and which is a defined contribution plan. The Companies' and employees' contributions are held in trust and earn income tax-free until distributed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 1999, the portion of the Plan invested in the Wachovia Corporation Common Stock Fund was amended to be an employee stock ownership plan that invests primarily in employer securities. The first one percent of the Companies' matching contribution is made in Wachovia Corporation common stock. Each employee can immediately elect to liquidate the Wachovia Corporation common stock credited to the employee's account by transferring the value of the common stock to any of a number of investment options available within the Plan.

ELIGIBILITY, CONTRIBUTIONS AND BENEFITS

Under the Plan, an employee is eligible to make contributions beginning on the first month in which the employee has completed one full calendar month of service. The employee is eligible to receive employer matching contributions after one year of service. Employee contributions, pre-tax and after-tax, are elected by the participant and cannot exceed 30 percent of the employee's gross compensation. The maximum percentage of the employer matched contribution is determined annually by the Human Resources and Corporate Relations Director, and the contribution amounts are paid from net income or accumulated earnings in accordance with the provisions of the Internal Revenue Code of 1986 as amended together with all regulations, revenue rulings and revenue procedures issued thereunder (the Code). The employer's matching contribution cannot exceed 6 percent of a participant's base compensation. Beginning in 1999, the first one percent of the employer's contribution was made in Wachovia Corporation common stock. Participants are fully vested in their entire account balances at all times.

Four types of withdrawals are allowed under the Plan: normal, specified cause, hardship and after age 59 1/2. Each type of withdrawal must be approved by the Benefits Committee (the Committee). Participants may withdraw up to their entire account balance, depending on the type of withdrawal, net of applicable withholdings and/or loan balances, or a minimum of \$500. The amount of tax withholding depends on the type of withdrawal. In addition, participants may elect to receive current distributions of cash dividends on shares of Wachovia Corporation common stock allocated to them under the Employee Stock Ownership Plan portion of the Plan.

Participants may borrow up to 50 percent of the balance of their accounts with a minimum loan of \$1,000 and a maximum loan of \$50,000. Loan balances are charged interest at a fixed rate for the life of the loan. The interest rate is determined at origination as the prime interest rate in use by Wachovia Bank, National Association, on the business day preceding the date the loan is processed. Loans are made for a minimum of 12 months or a maximum of 60 months, except that if the loan is used to acquire the participant's principal residence, the maximum term is 180 months. Loan repayments are generally made semi-monthly as a payroll deduction. If a participant retires or is otherwise terminated, the loan balance must be paid in full or the outstanding balance will be considered as a taxable distribution.

Participants, at retirement, may elect to receive a distribution of their account balances. A participant is considered retired if it is the participant's 65th birthday, if it is the participant's 50th birthday with 10 or more years of service, or if

it is determined that the participant is totally disabled. Distributions may be made in a lump sum or, in certain circumstances, the participant's account may be applied to the purchase of an annuity. Distribution of a retired participant's account balance must begin at age 70 1/2.

Although the employer has not expressed any intent to terminate the Plan, it may do so at any time subject to the provisions of ERISA. If the Plan is terminated, the accounts of each participant shall be adjusted in accordance with Plan provisions.

(Continued)

WACHOVIA SAVINGS PLAN**NOTES TO FINANCIAL STATEMENTS**

PARTICIPANT DIRECTED

In accordance with the Plan provisions, Plan earnings are allocated to participants' accounts on a daily basis. The investment options available to participants at December 31, 2004 and 2003, are presented below.

Stable Fund

This fund invests in a diversified portfolio of high quality securities, primarily consisting of Guaranteed Investment Contracts (GICs), collateralized synthetic GIC contracts and cash equivalents. Target duration is 1.5 years to 3.0 years. Its investment objective is preservation of principal with stable market value.

Evergreen U.S. Government Fund

This fund invests primarily in U.S. Treasury securities and other securities issued by the U.S. Government, its agencies or instrumentalities. Its investment objective is a high level of current income with stability of principal.

Evergreen Growth Fund

This fund invests primarily in common stocks of small to medium-sized companies that the fund's management believes are demonstrating strong and consistent earnings growth not fully recognized in their stock price. Its investment objective is long-term capital growth.

Enhanced Stock Market Fund

This fund uses a diversified equity strategy that invests in both value and growth oriented companies. The fund's portfolio sector and industry weights reflect those in the S&P 500 Index. Its investment objective is to achieve a total rate of return which closely tracks the return of the S&P 500 Index over time.

American Europacific Growth Fund

This fund invests in strong, growing companies based chiefly in Europe and the Pacific Basin, ranging from small firms to large corporations. The fund invests primarily in common and preferred stocks, convertible securities, American Depositary Receipts, European Depositary Receipts, bonds and cash. Its investment objective is long-term capital growth.

Dodge and Cox Balanced Fund

This fund invests in equities that the fund's management believes to be temporarily undervalued by the stock market but that have a favorable outlook for long-term growth. The fund also invests in a diversified portfolio of investment grade fixed-income securities, such as U.S. Government obligations, mortgage and asset-backed securities, and corporate bonds. Its investment objective is regular income and conservation of principal.

Dodge and Cox Stock Fund

This fund invests primarily in a broadly diversified portfolio of common stocks. The fund consists of stocks that the fund's management believes are temporarily undervalued but have a favorable outlook for long-term growth. Its investment objective is long-term growth of principal and income.

Montag and Caldwell Growth Fund

This fund invests in equity securities that the fund's management believes are undervalued based on the issuer's estimated earning power and ability to produce strong earnings growth over the next twelve to eighteen months. Its investment objective is long-term capital appreciation.

Evergreen Core Bond Fund

This fund invests at least 80 percent of its assets in U.S. dollar-denominated investment grade debt securities. The fund seeks to maximize total return through a combination of current income and capital growth.

Evergreen Special Value Fund

This fund invests primarily in common stocks of small U.S. companies. Management looks for significantly undervalued companies they believe have the potential for above-average appreciation potential with below average risk. The fund seeks to produce growth of capital.

Hartford Midcap Fund

This fund invests primarily in stocks selected on the basis of potential for capital appreciation. Under normal circumstances, the fund invests at least 80 percent of its assets in common stock of mid-capitalization companies. The fund seeks long-term growth of capital.

Wachovia Stock Non-ESOP

Only participants employed by a business entity not taxable as a corporation, such as the employees of Wachovia Securities LLC, may invest in this fund. This fund's objective is long-term capital appreciation. The fund seeks to achieve its objective through investments in Wachovia Corporation common stock.

Wachovia Corporation Common Stock Fund

This fund invests primarily in Wachovia Corporation common stock and varying levels of short-term cash equivalent investments. Dividends allocated to each participant's account are reinvested in additional units of Wachovia Corporation common stock or paid out in cash at each participant's election. Its primary investment objective is long-term capital appreciation.

(Continued)

WACHOVIA SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

SouthTrust U.S. Treasury Money Market

This fund invests solely in short-term, direct obligations of the U.S. Treasury, which is considered the most conservative type of money market fund. This fund is not federally insured or guaranteed and does not pay a fixed rate of return.

Federated U.S. Government Bond Fund

This fund seeks to provide as high of a level of income as possible with the safety of U.S. Government bonds and agency securities with a longer-term maturity of approximately 15 years to 25 years.

SouthTrust Bond Fund

This fund invests in bonds of the U.S. Government, agency, corporate and asset-backed investment grade bonds with an average maturity between 5 years and 15 years. These investments in government bonds are not federally guaranteed.

SouthTrust Income Fund

This fund is composed of short-term investment grade, corporate, U.S. Government and agency bonds with an average maturity of five years or less. These investments in agency bonds are not federally guaranteed.

Dreyfus Emerging Leaders Fund

This fund seeks capital growth. To achieve this goal, the fund invests in companies it believes to be emerging leaders such as small companies offering new or innovative products, services or processes having the potential to enhance earnings growth.

Federated Kaufmann Fund

This fund's investment objective is capital appreciation. To achieve this objective, the fund invests primarily in the stocks of small and medium-sized companies that are traded on the national security exchanges, the NASDAQ Stock Market and the over-the-counter (OTC) market. Up to 25 percent of this fund's assets may be invested in foreign securities.

SouthTrust Value Fund

This fund invests in stocks of large, well established companies which are selling at below average valuations that are believed to create an attractive investment opportunity.

SouthTrust Growth Fund

This fund invests mainly in the stocks of large, well established companies with above average financial strength and predictable, stable growth in earnings.

Templeton Growth Fund

This fund's investment goal is long-term capital growth. This fund invests mainly in the equity securities of companies located anywhere in the world, including emerging markets.

WACHOVIA SAVINGS PLAN**NOTES TO FINANCIAL STATEMENTS**

MERGERS WITH FINANCIAL INSTITUTIONS

On December 31, 2004, the SouthTrust 401(k) and SouthTrust ESOP Plans merged into the Plan. The SouthTrust 401(k) and SouthTrust ESOP had assets of \$604 million and \$52 million, respectively. Additionally, in 2004, assets of the savings plan of AMI Capital Inc. 401(k) Plan were merged into the Plan. AMI Capital Inc. had 401(k) plan assets of \$2 million.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***VALUATION OF INVESTMENTS***

The specific identification method is used in determining the cost of securities. Security transactions are recognized on the trade date (the date the order to buy or sell is executed). Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Investments in cash management accounts and participants' loans receivable are stated at cost which approximates fair value. Investments in commercial paper, U.S. Government and agency securities, corporate bonds, mutual funds, collective investment funds and common stocks are stated at fair value, which is based on closing market quotations.

In accordance with the American Institute of Certified Public Accountants Statement of Position 94-4, *Reporting of Investment Contracts Held by Health and Welfare Benefits Plans and Defined-Contribution Pension Plans*, the Stable Fund's and the Prudential Guaranteed Interest Account's holdings of investment contracts are generally stated at contract value plus accrued interest because they are considered to be benefit responsive, thus providing reasonable access to the funds by participants. If Plan management is aware that an event has occurred that may affect the ability to recover the full value of a contract, the contract is reported at its estimated realizable value. Otherwise the contract value of investment contracts, including any accrued interest approximates the fair value.

Interest and dividends earned on marketable investments are treated as gains in appreciation of the fair value of the fund, since all income received by the fund is reinvested in the fund and thus increases the participants' share value.

BASIS OF PRESENTATION

The accompanying financial statements are prepared on an accrual basis in accordance with accounting principles generally accepted in the United States of America.

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts of assets, liabilities and obligations and disclosure of contingent liabilities at the date of the financial statements, as well as additions to and deductions from these amounts during the reporting period. Actual results could differ from those estimates.

The Plan allows for investments in mutual funds, which have investments in debt and equity securities of companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Plan's financial statements and schedule.

WACHOVIA SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 3: INVESTMENTS

Under the terms of the Plan, Wachovia Bank, National Association (the Trustee), a wholly-owned subsidiary of Wachovia Corporation and a related party-in-interest, holds the assets of the Plan in bank-administered trust funds. The following table presents the Plan's investments.

In conjunction with the PSI 401(k) termination, the Wachovia Benefits Committee elected to redeem the Prudential Guaranteed Interest Account (GIC) in accordance with its policy terms. Accordingly, the GIC is carried at its fair value which approximates its contract value at December 31, 2003. During 2004, the GIC was settled for its contract value. The following table presents the fair values of investments at December 31, 2004 and 2003. Investments that represent 5 percent or more of the Plan's net assets are separately identified.

WACHOVIA SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 6: LOANS PAYABLE

Upon the merger of the CoreStates Employee Stock Ownership and Savings Plan into the Plan in 1999, Wachovia Bank, National Association, assumed all obligations of CoreStates Financial Corp under the loan agreement dated October 27, 1994, pursuant to which Meridian Trust Company issued to Meridian Bancorp, Inc. its promissory note dated October 27, 1994, in the amount of \$60,000,000, with a maturity date of October 1, 2014, and bearing an interest rate of 8.85 percent. The Companies are obligated to make contributions to maintain debt service.

The loan was originally collateralized by 3,274,816 shares of Wachovia Corporation common stock. The loan repayment schedule is presented below:

2005	\$ 2,764,211
2006	3,017,082
2007	3,293,087
2008	3,594,342
2009	3,923,153
Thereafter	\$ 25,702,518

As the Plan makes each payment of principal and interest, an appropriate percentage of common stock will be available to fund the Companies' one percent match in accordance with the provisions of the Plan document. If shares made available after payment of principal are in excess of those amounts required to fund the Companies' one percent matching contribution, those shares may be utilized to fund the Companies' matching contribution where participants have elected to invest in the Wachovia Corporation Common Stock Fund or in participant contributions where participants have elected to invest in Wachovia Corporation common stock. Shares vest fully upon allocation. Dividends allocated to each participant's account are reinvested in additional units of Wachovia Corporation common stock or paid out in cash at each participant's election. Dividends on unallocated shares not distributed currently to participants may be either distributed or reinvested in Wachovia Corporation common stock at the discretion of the Companies. The Companies have elected to reinvest the dividends.

The borrowing is collateralized by 2,046,765 unallocated shares of Wachovia Corporation common stock at December 31, 2004, and is guaranteed by the Companies. In 2004, 204,677 shares were released based on principal and interest paydowns on the loan. The lender has no rights against shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with vested rights in allocated stock (Allocated), and (b) stock not yet allocated to employees (Unallocated).

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is required to vote all shares in the Plan, including unallocated shares, in proportion to the response received for participants and beneficiaries with respect to stock allocated to participant accounts.

The fair value of the loan payable is based on the current rates available to the Plan for debt with the same or similar maturities and terms. At December 31, 2004 and 2003, the loan payable was recorded at \$42,294,393 and \$44,826,926, respectively, and had an estimated fair value of \$52,152,227 and \$56,718,209, respectively.
