BARRISTER GLOBAL SERVICES NETWORK, INC.  
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

1. Barrister Global Services Network, Inc. (the "Company") provides a variety of IT services for a broad range of multi-vendor computer related equipment including personal computers and equipment generally attached to local area networks, point of sale terminals and related equipment, and on-site, mission-critical repair, depot repair and warranty repair services. This comprehensive maintenance and warranty service is done on a contractual and time and materials basis. These services are provided through a network of service locations throughout the United States.

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-QSB and Article 10 of Regulation S-X. Accordingly, they

## Edgar Filing: BARRISTER GLOBAL SERVICES NETWORK INC - Form 10QSB

do not include all of the information required by GAAP for complete financial statement presentation. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of financial position, results of operations, and cash flows have been included. Operating results for the period ended June 30, 2003 are not necessarily indicative of the results to be expected for other interim periods or the full year. These financial statements should be read in conjunction with the financial statements and accompanying notes contained in the Company's Form 10-K for the fiscal year ended March 31, 2003. This report represents the Company's first time filing Form 10-QSB, previously the Company had been filing under Form 10-Q.

2. Cash and equivalents consist of cash and liquid debt instruments with maturity of three months or less from the date of purchase. Cash and equivalents are stated at cost plus accrued interest, which approximates market value. Short-term investments at June 30, 2003 contain held-to-maturity securities, based on the Company's ability and intent to hold the securities until maturity. The held-to-maturity securities are recorded at amortized cost adjusted for the accretion of discounts or cost plus accrued interest. At March 31, 2003, short-term investments also included shares of Principal Financial Group, Inc. ("Principal") common stock received in the demutualization of Principal, classified as available for sale securities with net unrealized gains or losses, if any, reported as a separate component of stockholders' equity, net of tax. The Company sold the Principal common stock during the quarter ended June 30, 2003 for a gain of \$52,000.

3. On July 15, 2002, the Company acquired all of the outstanding stock of Advantage Innovation, Inc. ("Advantage") for \$1,200,000 in cash and future consideration of two contingent payments due on the first and second anniversaries of the closing. The Stock Purchase Agreement was amended in January 2003 to remove the previous contingent payment provision and replace them with installment payment provisions due July 31, 2003 and July 31, 2004 for \$1,250,000 each, unless certain conditions are not met in which event each of the payments would be reduced by \$531,000 to \$719,000. Consequently the Company has accrued for a total of \$1,438,000 at June 30, 2003. In the event that all of the contingencies related to the installment payments are met the Company would accrue up to \$2,500,000. Subsequent to these Financial Statements, on July 31, 2003 the first of the two installments payments was made in the amount of \$1,250,000 of which \$719,000 is included in short term debt on the balance sheets and \$531,000 became additional Goodwill on July 31, 2003. Advantage was a privately held technical and computer services firm located in New Orleans, Louisiana performing repair services on personal computers and home appliances for insurance companies who provide warranties on such equipment. The acquisition has been accounted for as a purchase and, accordingly, the

7

operating results of Advantage have been included in the Company's financial statements since the date of acquisition. The assets acquired and liabilities assumed were recorded at estimated fair values based on fair values at the date of acquisition. Liabilities assumed in this acquisition were \$810,000. The excess of the initial purchase price over fair value of the net assets acquired was approximately \$2,411,000, of which \$219,000 was allocated to identifiable intangible assets and \$2,192,000 has been allocated to goodwill. The pro forma results for the quarter ended June 30, 2002, had the acquisition occurred at the beginning of the period, are as follows: Revenues of \$4,009,000; net earnings of \$171,000; and net earnings per common share, basic and diluted of \$.01. The pro forma amounts do not purport to be indicative of the actual results that would have occurred had the transaction been consummated on April 1, 2002 or of the future results of operations which will be obtained as a result of the

## Edgar Filing: BARRISTER GLOBAL SERVICES NETWORK INC - Form 10QSB

consummation of the transaction.

4. The Company has adopted Statement of Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure". This standard provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. Additionally, the standard also requires prominent disclosures in the Company's financial statements about the method of accounting used for stock-based employee compensation, and the effect of the method used when reporting financial results.

5. In June 2002 the Company received 14,159 shares of Principal common stock issued to the Company in connection with the demutualization of Principal. The shares issued pertained to the Company's defined benefit pension plan which had been terminated in 1991. The value of these shares was recorded in total other income for the quarter ended June 30, 2002. The shares were subsequently sold in June 2003 for a net gain of \$52,000. Changes in the fair market value of the shares during the holding period were shown in accumulated other comprehensive income or loss, as the asset was considered to be an available-for-sale security.

6. The weighted average common shares used in the computation of basic and diluted earnings per share were as follows:

	June 30 2003 -----	June 30 2002 -----
Basic:		
Weighted average number of shares outstanding	11,901	11,866
Diluted:		
Dilutive effect of stock options	--	6
Total weighted average dilutive shares outstanding	11,901 =====	11,872 =====

7. No employee stock based compensation expense was reported for the quarters ended June 30, 2003 or June 30, 2002, since any options are granted with exercise prices equal to the market value per share. Had the Company determined compensation cost based on the fair value of the options at grant date, the reported net loss of June 30, 2003 would be increased to \$(330,000) or \$(.03) per share and the reported earnings for June 30, 2002 would be decreased to \$86,000 or \$.01 per share.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### RESULTS OF OPERATIONS

For the quarter ended June 30, 2003, revenues decreased approximately 6.9% from the same quarter in 2002. Revenues from hardware maintenance contracts decreased 27.3% for the quarter to \$1,660,000 from \$2,282,000 for the first quarter of the prior year. This reduction primarily resulted from the non-renewal of a large contract by a customer of one of our long-time business

## Edgar Filing: BARRISTER GLOBAL SERVICES NETWORK INC - Form 10QSB

partners as of September 30, 2002. This decrease was partially offset from growth in services provided on a time and materials basis which increased by 54.0% for the comparative first quarters, from \$803,000 to \$1,237,000. The principal reason for this increase was revenues generated from the business acquired on July 15, 2002 from Advantage Innovation, Inc. ("Advantage").

The cost of services decreased as a percentage of revenues from 78.8% in the first quarter of the prior year to 76.8% in the first quarter of the current year. This improvement primarily resulted from a lower cost of contracted service providers supplied by the business acquired from Advantage and used to service calls in the current quarter on a Company wide basis.

Selling, general and administrative expenses were 36.0% of revenues for the first quarter of this year compared to 30.0% for the comparative quarter last year. The principal reasons for this increase was expenditures for outside consultants currently assisting the Company in strategic decisions, the increased rent expense of the Company's new headquarters and operations center, higher depreciation expenses related to assets acquired in the prior year, and amortization expense from the intangible assets acquired from the Advantage purchase in July of 2002. Additionally some portion of the general and administrative expenses are relatively fixed and become an increased percentage on the lower revenue attained.

The decrease in net interest income for the comparative first quarters resulted from lower interest rates and a reduction in amount invested. For the quarter ended June 30, 2003 other income resulted from a gain recognized on the sale of 14,159 shares of Principal Financial Group, Inc. common stock received in June 2002 in connection with the demutualization of Principal. Total other income for the quarter ended June 30, 2002 primarily resulted from the receipt of those shares.

No additional tax benefits were established in the statements of operations for the quarter ended June 30, 2003, since the Company has fully reserved for the tax effect of net deductible temporary differences and loss carryforwards. These benefits will be recorded in future periods as they are realized or as their realization becomes predictable. Income taxes recorded in the prior year first quarter approximated the statutory tax rate.

### FINANCIAL CONDITION

Cash and equivalents, short-term investments and marketable securities totaled \$2,223,000 at June 30, 2003 and \$2,785,000 at March 31, 2003. The net decrease of \$562,000 was primarily a result of net cash used by operating activities of \$537,000

On July 15, 2002, the Company acquired the stock of Advantage Innovation, Inc. for an initial cash payment of \$1,200,000, with two additional and conditional payments on the first and second anniversaries of the closing. The Agreement provides for installment payment

9

provisions due July 31, 2003 and July 31, 2004 for \$1,250,000 each, unless certain conditions are not met in which event each of the payments would be reduced to \$719,000. The first of these payments (\$1,250,000) was subsequently made on July 31, 2003.

In addition to the July 31, 2003 cash payment made to Advantage, the principal cash requirements expected for fiscal 2004 are debt repayments of \$151,000 and normal additions to equipment and leasehold improvements. The

## Edgar Filing: BARRISTER GLOBAL SERVICES NETWORK INC - Form 10QSB

Company's cash and investments will be sufficient to cover working capital, capital expenditure requirements and debt repayments in fiscal 2004 only if the Company is successful in increasing its revenues or decreasing its costs, or in obtaining additional financing. There can be no assurance that it will be able to generate positive cash from operations or that sufficient cash will be available to meet its required needs and obligations.

### AMEX LISTING

In June of 2002, the Company announced that it was informed by the American Stock Exchange (AMEX) that it had fallen below certain of the Exchange's continued listing standards. The Company submitted a plan to AMEX that would return the Company to profitability by March 31, 2003, which it failed to meet. In addition, the Company has not been able to regain compliance with the exchange's continued listing standards through the quarter ended June 30, 2003. The Company expects to receive de-listing notice in the near future. If the Company is delisted, trading of our common stock may be conducted in the over-the-counter market on the "pink sheets" or, possibly, the NASD's "Electronic Bulletin Board". In either of these cases, investors could find it more difficult to buy or sell, or to obtain accurate quotations as to the value of our common stock. Also the trading price per share of our common stock likely would be reduced as a result.

### NEW ACCOUNTING PRONOUNCEMENTS

The Company has adopted Statement of Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure". This standard provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. Additionally, the standard also requires prominent disclosures in the Company's financial statements about the method of accounting used for stock-based employee compensation, and the effect of the method used when reporting financial results.

### FORWARD-LOOKING STATEMENT

When used in this report, the words "expects", "believes" and "intends" and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties which could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements which speak only as of the date hereof. The company undertakes no obligation to republish revised forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrences of unanticipated events. Readers are also urged to carefully review and consider the various disclosures made by the Company which attempt to advise interested parties of the factors which affect the Company's business in the Company's periodic reports on Form 10-K and 10-QSB filed with the Securities and Exchange Commission.

10

### ITEM 4. EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

- (a) Evaluation of disclosure controls and procedures. Our chief executive officer and our chief financial officer, after evaluating the effectiveness of the Company's "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 Rules 13a-14 and 15d-14 as of a date (the "Evaluation Date") within 90 days before the filing date of

Edgar Filing: BARRISTER GLOBAL SERVICES NETWORK INC - Form 10QSB

this quarterly report, have concluded that as of the Evaluation Date, our disclosure controls and procedures were adequate and designed to ensure that material information required to be disclosed in reports that are filed or submitted under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms.

- (b) Changes in internal controls. There were no significant changes in our internal controls or to our knowledge, in other factors that could significantly affect our disclosure controls and procedures subsequent to the Evaluation Date.

PART II. OTHER INFORMATION

Item 6. Exhibits and Reports on Form 8-K
