Plan Administrator  
Employees Savings Plan, Employee Stock  
Ownership Plan and Defined Company Contribution  
Plan of Consumers Energy Company  
One Energy Plaza  
Jackson, Michigan 49201

We have audited the accompanying statement of net assets available for benefits of *Employees Savings Plan, Employee Stock Ownership Plan and Defined Company Contribution Plan of Consumers Energy Company* (the Plan ) as of December 31, 2007, and the related statement of changes in net assets available for benefits for the year then ended, and the December 31, 2007 supplemental schedules, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit of the 2007 financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit of the 2007 financial statements provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007, and the changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purposes of forming an opinion on the basic 2007 financial statements taken as a whole. The December 31, 2007 supplemental schedules of assets (held at end of year) and of reportable transactions for the year then ended are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic 2007 financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic 2007 financial statements taken as a whole.

Plan Administrator

Employees Savings Plan, Employee Stock Ownership Plan and  
Defined Company Contribution Plan of Consumers Energy Company

We have audited the accompanying statement of net assets available for benefits of Employees Savings Plan, Employee Stock Ownership Plan and Defined Company Contribution Plan of Consumers Energy Company as of December 31, 2006, and the related statement of changes in net assets available for benefits for the year ended December 31, 2006. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2006 and the changes in its net assets available for benefits for the year ended December 31, 2006, in conformity with U.S. generally accepted accounting principles.

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP  
PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

**1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The following description of the *Employees Savings Plan, Employee Stock Ownership Plan and Defined Company Contribution Plan of Consumers Energy Company* (the Plan ) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan s provisions.

**Description of the Plan**

***General***

The Plan is a defined contribution plan designed to encourage and assist employees of CMS Energy Corporation and its subsidiaries, which are at least 80% owned (the Company, CMS Energy or Employer) and have adopted the Plan in saving for the future (collectively the Company ). The Plan is a voluntary program that allows eligible participants to invest their contributions in various investment funds. All regular employees of the Company as defined by the Plan, may participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ( ERISA ).

***Contributions***

Participants in the Plan may elect to make pre-tax or after-tax contributions in amounts up to 50% of their eligible compensation as defined by the Plan, subject to certain limitations as set forth in the Plan. Additional limitations apply to participants with annual earnings greater than \$100,000. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company provides matching Employer contributions in an amount equal to \$.60 for each \$1.00 contributed by a participant up to a maximum of 6% of the participant s eligible compensation. The Company can also make discretionary contributions to the Plan, but did not elect to do so during 2007 or 2006.

All participant balances are eligible for reallocation at the discretion of the participant.

Effective September 1, 2004, the Savings portion of the Plan was amended to provide that authorized but unissued shares of common stock of CMS Energy Corporation or other securities convertible to such common stock may be used to satisfy allocations elected by participants and Company matching contributions.

**Table of Contents**

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP  
PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

Effective September 1, 2005, all new participants and participants formerly covered by the Cash Balance provisions of the Company's pension plan began accruing benefits under the Defined Company Contribution Plan ( DCCP ) provisions of the Plan. Employees are eligible for participation in the DCCP after 90 days of employment. Under the DCCP, participants receive a Company contribution of 5% of eligible compensation. Contributions are immediately vested and are allocated at the discretion of the participant.

Participants direct the investment of contributions into various investment options for participants. The Plan currently offers twenty-eight investment options in mutual funds, guaranteed investment contracts, and money market accounts. Contributions are subject to certain limitations.

***Participant Accounts***

Each participant's account is credited with the participant's contributions, and an allocation of (a) Company matching contributions, (b) Company DCCP contributions, and (c) Plan earnings. Accounts are charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the aggregate of the participant's deferrals and rollovers and the vested portion of the Company's contributions.

***Vesting***

Participants are immediately vested in their elective contributions plus actual earnings thereon. Other than for the DCCP, vesting in Company matching contributions are based on years of completed service, as defined by the Plan agreement. A participant becomes 10% vested for each of the first two years of service with the Company and 20% for each of the next four years of service.

***Participant Loans***

Participants may borrow from their non-DCCP fund accounts up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. Loan terms range up to five years for a general purpose loan or up to 15 years for the purchase of a primary residence. The loans are collateralized by the balance of the participant's account and bear interest at a fixed rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator; such rates range from 3.00% to 8.75% as of December 31, 2007. Principal and interest are collected ratably through payroll deductions.

**Table of Contents**

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP  
PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

***Payment of Benefits***

Upon termination of service, death, disability, or retirement, a participant may receive a lump-sum amount equal to the vested value of his or her account.

***Forfeitures***

Forfeitures result from Company matching contributions and incentive contributions remaining in the Plan for terminated participants' nonvested account balances. Forfeitures generated are added to a forfeiture reserve account and are available to offset future Company matching contributions. Employer contributions were reduced by \$99,943 and \$43,528 from forfeited nonvested accounts during 2007 and 2006, respectively. As of December 31, 2007 and 2006, the cumulative unallocated forfeitures were \$11,919 and \$80,827, respectively.

***Administrative Expenses***

Expenses incurred in the operation of the Plan (including investment management fees) are paid by the Plan unless paid by the Company or the participants. No expenses are paid from the trust unless such payment is permitted by law. Participants may incur administrative expenses related to loan administration, disbursements, or purchases and sale of CMS Energy Corporation common stock (excluding sales transactions under the required liquidation as described in Note 2). Administrative expenses related to these transactions are paid directly from the corresponding participant's Plan account.

**Summary of Significant Accounting Policies**

***Basis of Accounting***

The financial statements of the Plan are prepared using the accrual method of accounting.

**Table of Contents**

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP  
PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and Statement of Position (SOP) No. 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans* (the FSP ), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts, from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

***Use of Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

***Investment Valuation and Income Recognition***

The Plan's investments are stated at fair value with the exception of the Plan's Stable Value Fund (fully benefit-responsive investment contracts), which is valued at contract value (Note 3). Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximates fair value.

The Stable Value Fund has both investments in guaranteed investment contracts ( GICs ) and investments in a commingled pool ( MIP II ).

**Table of Contents**

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP  
PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

Investments in insurance company investment contracts are stated at contract value which is equal to principal balance plus accrued interest. As provided in the FSP, an investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The fair value of the investment contracts are calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Investment in the MIP II are fair valued using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio of securities. The dealers may consider the following in bid process: size of the portfolio, performance of the underlying portfolio, and the fair value to contract value ratio. For purposes of benefit-responsive withdrawals, investments in wrap contracts are valued at contract value, which could be more or less than fair value. These investment contracts provide for benefit-responsive withdrawals at contract value including those instances when, in connection with wrap contracts, underlying investment securities are sold to fund normal benefit payments prior to the maturity of such contracts. Underlying debt securities in MIP II for which quotations are readily available are valued at their most recent bid prices (sales prices if the principal market is an exchange) in the principal market in which such securities are normally traded, as determined by recognized dealers in such securities, or securities are valued on the basis of information provided by a pricing service. Pricing services use valuation matrices that incorporate both dealer-supplied valuations and valuation models. If prices are not readily available or do not accurately reflect fair value for a security, or if a security's value has been materially affected by events occurring after the close of the exchange or market on which the security is principally traded, that security may be valued by another method that the Trustee believes accurately reflects fair value. A security's valuation may differ depending on the method used for determining value. Price movements in futures contracts and American Depositary Receipts (ADRs), market and trading trends, the bid/ask quotes of brokers and off exchange institutional trading may be reviewed in the course of making a good faith determination of a security's fair value. Underlying short-term securities with remaining maturities of sixty days or less for which market quotations are not readily available are valued at original cost plus accrued interest or at amortized cost, both of which approximate current value.

**Table of Contents**

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP  
PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

Investments in underlying commingled pools and open-end investment companies are valued at their net asset value (NAV) each business day.

Unrealized appreciation or depreciation in the aggregate fair value of investments represents the net change in the difference between aggregate fair value and the cost of investments, including reinvestment of earnings. The realized gain or loss on sale of investments is the difference between the proceeds received and the average cost of investments sold.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation or an addition to net depreciation in the aggregate fair value of investments for such investments.

***Payment of Benefits***

Benefits are recorded when paid.

**Table of Contents**

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP  
PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

**2. INVESTMENTS**

Investments that represent 5 percent or more of the Plan's net assets available for benefits are as follows at December 31:

	<b>2007</b>	<b>2006</b>
<b>Investments at fair value as determined by quoted market price</b>		
Mutual Funds		
Comerica S&P 500 Index Fund	\$ 149,160,444	\$ *
Fidelity Diversified International Fund	93,224,174	54,204,102
Calamos Growth Fund	92,052,286	61,620,930
Fidelity Dividend Growth Fund		152,178,397
Fidelity Managed Income Portfolio II	186,148,825	134,714,049
CMS Energy Corporation Common Stock		181,767,829

\* Represents less than 5% of the Plan's net assets available for benefits

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows for the years ended December 31:

	<b>2007</b>	<b>2006</b>
Mutual funds	\$ 47,106,996	\$ 50,619,821
CMS Energy Corporation Common Stock	1,556,115	23,945,811
<b>Net appreciation in aggregate fair value</b>	<b>\$ 48,663,111</b>	<b>\$ 74,565,632</b>

**Table of Contents**

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP  
PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

During 2007, the CMS Energy Corporation Common Stock Fund and the Fidelity Dividend Growth Fund were eliminated as participant investment options from the Plan. The Plan closed new investments to the two funds effective May 1, 2007. As of May 1, 2007, 9,222,335 shares of CMS Energy Common Stock and 4,339,014 units of the Fidelity Dividend Growth Fund were held by the Plan. Between May 1, 2007 and October 31, 2007, participants could elect to divest any holdings in such funds and reallocate the proceeds into any remaining fund choices. Effective November 1, 2007, any remaining holdings in the Fidelity Dividend Growth Fund were liquidated and reallocated into the Comerica S&P 500 Index Fund. Effective November 1, 2007, any remaining holdings in the CMS Energy Corporation Common Stock Fund were liquidated by the Trustee over a two-week period in an effort to prevent the sales from impacting the market value of the stock (all shares of CMS Energy Corporation common stock were sold by November 15, 2007). The proceeds were reallocated based on the participant's election for the investment of the employee contributions at the time of such sale.

**3. INVESTMENTS IN COMMON/COLLECTIVE TRUSTS**

**Stable Value Fund**

The Stable Value Fund consists of fully benefit-responsive investment contracts of GICs, synthetics and a commingled pool (MIP II). The GIC issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The wrap contracts in synthetics and the commingled pool (MIP II) are designed to maintain the contract value of the fund. Wrap contracts accrue interest using a formula called the crediting rate .

Wrap contracts use the crediting rate formula to convert market value changes in the covered assets into income distributions in order to minimize the difference between the market and contract value of the covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the fund's current market value at the fund's current yield to maturity for a period equal to the fund's duration. The crediting rate is the discount rate that equates the estimated future market value with the fund's current contract value. Crediting rates are reset quarterly. The wrap contracts provide a guarantee that the crediting rate will not fall below 0%.

**Table of Contents**

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP  
PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

The crediting rate, and hence the fund's return, may be affected by many factors, including purchases and redemptions by shareholders. The precise impact on the fund depends on whether the market value of the covered assets is higher or lower than the contract value of those assets. If the market value of the covered assets is higher than their contract value, the crediting rate will ordinarily be higher than the yield of the covered assets. Under these circumstances, cash from new investors will tend to lower the crediting rate and the fund's return, and redemptions by existing shareholders will tend to increase the crediting rate and the fund's return.

If the market value of the covered assets is lower than their contract value, the crediting rate will ordinarily be lower than the yield of the covered assets. When market value is lower than contract value, the fund will have, for example, less than \$10.00 in cash and bonds for every \$10.00 in NAV. Under these circumstances, cash from new investors will tend to increase the market value attributed to the covered assets and to increase the crediting rate and the fund's return. Redemptions by existing shareholders will have the opposite effect, and will tend to reduce the market value attributed to remaining covered assets and to reduce the crediting rate and the fund's return. Generally, the market value of covered assets will tend to be higher than contract value after interest rates have fallen due to higher bond prices. Conversely, the market value of covered assets will tend to be lower than their contract value after interest rates have risen due to lower bond prices.

If the fund experiences significant redemptions when the market value is below the contract value, the fund's yield may be reduced significantly, to a level that is not competitive with other investment options. This may result in additional redemptions, which would tend to lower the crediting rate further. If redemptions continued, the fund's yield could be reduced to zero. If redemptions continued thereafter, the fund might have insufficient assets to meet redemption requests, at which point the fund would require payments from the wrap issuer to pay further shareholder redemptions.

The fund and the wrap contracts purchased by the fund are designed to pay all participant-initiated transactions at contract value. Participant-initiated transactions are those transactions allowed by the underlying defined contribution plan (typically this would include withdrawals for benefits, loans, or transfers to non-competing funds within the plan). However, the wrap contracts limit the ability of the fund to transact at contract value upon the occurrence of certain events. These events include:

The plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code.

**Table of Contents**

**EMPLOYEES SAVINGS PLAN, EMPLOYEE STOCK OWNERSHIP

CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

The establishment of a defined contribution plan that competes with the plan for employee contributions.

Any substantive modification of the plan or the administration of the plan that is not consented to by the wrap issuer.

Complete or partial termination of the plan.

Any change in law, regulation or administrative ruling applicable to the plan that could have a material adverse effect on the fund's cash flow.

Merger or consolidation of the plan with another plan, the transfer of plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the plan sponsor.

Any communication given to participants by the plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in the fund or to transfer assets out of the fund.

Exclusion of a group of previously eligible employees from eligibility of the plan.

Any early retirement program, group termination, group layoff, facility closing, or similar program.

Any transfer of assets from the fund directly to a competing option.

At this time, the occurrence of any of these events is not probable.

A wrap issuer may terminate a wrap contract at any time. In the event that the market value of the fund's covered assets is below their contract value at the time of such termination, the investment manager may elect to keep the wrap contract in place until such time as the market value of the fund's covered assets is equal to their contract value. A wrap issuer may also terminate a wrap contract if the investment manager's investment management authority over the fund is limited or terminated as well as if all of the terms of the wrap contract fail to be met. In the event that the market value of the fund's covered assets is below their contract value at the time of such termination, the terminating wrap provider would not be required to make a payment to the fund.

**5. LAWSUIT SETTLEMENTS**

**ERISA Lawsuit**

The Company was a named defendant, along with Consumers, by CMS Marketing, Services and Trading Company (MST) and certain named and unnamed officers and directors, in two lawsuits, filed in July 2002 in the U.S. District Court for the Eastern District of Michigan, brought as purported class actions on behalf of participants and beneficiaries of the Plan. Plaintiffs alleged breaches of fiduciary duties under ERISA and sought restitution on behalf of the Plan with respect to a decline in value of the shares of the Company's common stock held in the Plan, as well as other equitable relief and legal fees. On March 1, 2006, the Company and Consumers reached an agreement, subject to court and independent fiduciary approval, to settle the lawsuits. The settlement agreement required a \$28 million cash payment by the Company's primary insurer that was used to pay Plan participants and beneficiaries for alleged losses, as well as legal fees and expenses. In addition, the Company agreed to certain other steps regarding administration of the Plan. A hearing on the final approval of the settlement was held on June 15, 2006. On June 27, 2006, the Judge entered the Order and Final Judgment approving the proposed settlement with minor modifications. The settlement proceeds, net of attorneys' fees and expenses, were disbursed to the Plan for distribution by the Plan's trustee in accordance with the Amended Plan of Allocation. On April 13, 2007, net proceeds of \$20,049,761 were allocated to participant accounts. After this litigation, a decision was made to remove the Company's common stock as an investment option in the Plan.

**Securities Class Action Lawsuits**

Beginning in May 2002, a number of complaints were filed against CMS Energy Corporation (CMS Energy), Consumers Energy Company (Consumers) and certain officers and directors of CMS Energy and its affiliates in the United States District Court for the Eastern District of Michigan. The cases were consolidated into a single lawsuit (the Shareholder Action), based on allegations that the defendants violated United States securities laws and regulations by making allegedly false and misleading statements about CMS Energy's business and financial condition, particularly with respect to revenues and expenses recorded in connection with round-trip trading by CMS MST. On January 3, 2007, CMS Energy and other parties entered into a Memorandum of Understanding (the MOU), subject to court approval, regarding settlement of the class action lawsuits. The settlement was approved by a special committee of independent directors and by the full board of directors of CMS Energy. The litigation was settled for a total of \$200 million, including the cost of administering the settlement and any

PLAN AND DEFINED COMPANY CONTRIBUTION PLAN OF  
CONSUMERS ENERGY COMPANY  
NOTES TO FINANCIAL STATEMENTS**

attorney fees the court awards. Attorney fees and administrative costs will be deducted to arrive at a net settlement amount that will ultimately be distributed to shareholders with allowed claims. The settlement was approved by the Court in an Order and Final Judgment entered on September 6, 2007. Under the settlement, the Plan was allowed to submit a Proof of Claim on behalf of the Plan for (i) the Plan's settlement class period (defined as October 25, 2000 through March 31, 2003) transactions or (ii) for Plan participants' settlement class period transactions made through the Plan in common stock, of Plan participants who, had such Plan transactions been made directly by the participant, would otherwise qualify as settlement members. Under the plan of allocation proposed by class counsel, and approved by the Court, the recognized claim amount on any claim submitted by the Plan is to be reduced by 20% as an offset in recognition of the \$28 million settlement in the In re CMS Energy ERISA Litigation, Case No. 02-72834. The Plan submitted a Proof of Claim as allowed under the settlement. Except for this 20% reduction, the plan will share with other non-plan shareholders in the net distributions that will be approved by the Court. No distributions have yet been received by the Plan or any other claimants in this class action proceeding, the amount of the future distributions has not yet been determined, and the timing of those distributions is uncertain. Accordingly, no amounts related to this settlement have been recognized in the Plan's 2007 financial statements.

**6. INCOME TAX STATUS**

The Internal Revenue Service has determined and informed the Company by a letter dated February 29, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ( IRC ). The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

**7. PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the value of the participant accounts will be determined as of the effective date of the termination and be distributed as provided by the Plan.

**8. RISKS AND UNCERTAINTIES**

The Plan provides for various investment options in mutual funds, guaranteed investment contracts, and a stable value fund. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts and the amounts reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2007.

**9. RELATED-PARTY TRANSACTIONS**

Dividend income earned on CMS Energy Corporation (the Plan Sponsor) Common Stock was \$1,368,417 for the year ended December 31, 2007. There was no such dividend income for the year ended December 31, 2006.

Fidelity charges Plan participants loan initiation and brokerage fees. Fidelity is the trustee as defined by the Plan and, therefore, the transactions qualify as party-in-interest. Fees paid by the Plan participants for such services from participants' respective Plan assets amounted to \$100,663 and \$181,653 for 2007 and 2006, respectively.
