PROXY STATEMENT
2006 ANNUAL MEETING OF STOCKHOLDERS
APRIL 4, 2006

This proxy statement is being furnished to you in connection with the solicitation of proxies by the Board of Directors of Insight Enterprises, Inc. Your vote is very important. For this reason, the Board of Directors is requesting that you allow your common stock to be represented at the annual meeting by the persons named as proxies on the enclosed proxy card. This proxy statement is being sent to you in connection with this request and has been prepared for the Board by our management. The terms we, our Insight and Company refer to Insight Enterprises, Inc. and its subsidiaries. This proxy statement is first being sent to our stockholders on or about February 27, 2006.

GENERAL INFORMATION

Who can vote? You are entitled to vote your common stock if our records showed that you held your shares as of February 10, 2006, the record date for our meeting. At the close of business on that date, 48,013,356 shares of common stock were outstanding and entitled to vote. Each share of common stock has one vote. The enclosed proxy card shows the number of shares that you are entitled to vote. Your individual vote is confidential and will not be disclosed to third parties.

How do I vote? If your common stock is held by a broker, bank or other nominee (i.e., in street name), you will receive instructions from it that you must follow in order to have your shares voted. If you hold your shares in your own name (i.e., as a holder of record), you may vote your shares by mail, by telephone or over the Internet. To vote by mail you may instruct the persons named as proxies how to vote your common stock by signing, dating and mailing the proxy card in the envelope provided. You may vote by telephone or Internet 24 hours a day, 7 days a week until 12:00 p.m. (CT) on April 3, 2006. The enclosed proxy card contains instructions for telephone and Internet voting. Of course, you can always come to the meeting and vote your shares in person.

How may I revoke my proxy instructions? You may revoke your proxy instructions by any of the following procedures:

1. Send us another signed proxy with a later date;
2. Send a letter to our Corporate Secretary revoking your proxy before your common stock has been voted by the persons named as proxies at the meeting; or
3. Attend the annual meeting and vote your shares in person.

Table of Contents

How are votes counted?

The annual meeting will be held if a majority of our outstanding shares entitled to vote is represented at the meeting. If you have returned valid proxy instructions or attend the meeting in person, your shares will be counted for the purpose of determining whether there is a quorum, even if you wish to abstain from voting on some or all matters introduced at the meeting.

If you give us a proxy without giving specific voting instructions, your shares will be voted by the persons named as proxies as recommended by the Board of Directors. We are not aware of any other matters to be presented at the annual meeting except for those described in this proxy statement. However, if any other matters not described in this proxy statement are properly presented at the meeting, the persons named as proxies will use their own judgment to determine how to vote your shares. If the meeting is adjourned, your shares may be voted by the persons named as proxies on the new meeting date as well, unless you have revoked your proxy instructions prior to that time.

A broker non-vote occurs when a broker or other nominee holding shares for a beneficial owner does not vote on a particular proposal because the broker or other nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner. Broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum for the annual meeting, if such shares are otherwise properly represented at the meeting in person or by proxy, but are not counted for purposes of determining the number of shares entitled to vote on any proposal in respect of which the broker or other nominee lacks discretionary authority.

May I attend the annual meeting?

If you are a holder of record, you may attend the annual meeting. If you plan to attend the annual meeting, please indicate this when you vote. If you are a beneficial owner of common stock held by a broker or bank, you will need proof of ownership to be admitted to the meeting. A recent brokerage statement or letter from a broker or bank showing your current ownership and ownership of our shares on the record date are examples of proof of ownership. If you want to vote in person shares you hold in street name, you will have to get a proxy in your name from the registered holder.

What vote is required?

The three nominees for director who receive the most votes will be elected. Therefore, if you do not vote for a nominee or you elect to withhold authority to vote for any nominee on your proxy card, your vote will not count for or against any nominee.

The proposal to ratify the appointment of KPMG LLP (KPMG) as our independent registered public accounting firm will be adopted upon the affirmative vote of the majority of shares voting on the proposal.

Who pays the cost of this proxy solicitation?

We will pay the cost of this proxy solicitation. We will, upon request, reimburse brokers, banks and other nominees for their expenses in sending proxy material to their principals and obtaining their proxies. We will solicit proxies by mail, except for any incidental personal solicitation made by our directors, officers and employees, for which they will not be paid.

Who should I call if I have questions? If you have questions about the annual meeting or voting, please call our Corporate Secretary, Stanley Laybourne, at (480) 350-1142.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

We sponsor the Insight Bowl, a post-season intercollegiate football game that is played annually in Arizona. We have a multi-year sponsorship agreement with the Valley of the Sun Bowl Foundation d/b/a Insight Bowl, the not-for-profit entity that conducts the Insight Bowl game and related activities. During 2005, we paid the Valley of the Sun Bowl Foundation and related entities approximately \$1,152,000 for sponsorship arrangements, ticket purchases and miscellaneous expenses. Stanley Laybourne, a member of our Board and our Chief Financial Officer, Secretary and Treasurer, serves as the Chief Financial Officer of these organizations and receives nominal compensation from the organizations for that service. We believe we obtain important local and national public relations benefits from our sponsorship and participation in these events, and we use the Insight Bowl game and related events to entertain customers, suppliers and employees. We also believe the terms of the sponsorship agreement are as advantageous to us as we would obtain in an arm's length transaction. Finally, the terms of the transactions between us and these organizations were negotiated by senior executive management other than Mr. Laybourne and the final agreement was approved by our Board with Mr. Laybourne abstaining from the vote.

Table of Contents

MEETINGS OF THE BOARD AND ITS COMMITTEES

The Board of Directors held a total of eight meetings during the year ended December 31, 2005. None of our directors attended fewer than 75% of the aggregate of Board and Committee meetings. The Board currently does not have a policy with regard to director attendance at the Company's annual meeting of stockholders. However, six of the seven then active Board members attended the annual meeting of stockholders in April 2005. The Board has an Executive Committee, an Audit Committee, a Compensation Committee and a Nominating and Governance Committee, and all of these are standing committees.

The Board has determined that the following directors meet the independence requirement of the Marketplace Rules of the National Association of Securities Dealers, Inc. (NASD): Larry A. Gunning; Robertson C. Jones; Michael M. Fisher; Bennett Dorrance; and Kathleen S. Pushor. The independent directors hold executive sessions without management present on a quarterly basis and more often as they determine appropriate.

During 2005, the Executive Committee consisted of Eric J. Crown, Timothy A. Crown and Stanley Laybourne. In February 2006, the Board changed the number of members from three to four and appointed Michael M. Fisher, Timothy A. Crown, Richard A. Fennessy and Stanley Laybourne as the members of the Executive Committee. The Executive Committee is empowered to act on board matters that arise between meetings of the full Board or matters that require immediate attention when a quorum of our Board can not be convened. The Executive Committee did not meet in 2005.

The Audit Committee consists of Michael M. Fisher, Chairman, Robertson C. Jones and Kathleen S. Pushor and met nine times in 2005. Larry A. Gunning was a member of the Audit Committee through September 2005, and Ms. Pushor joined the Audit Committee with her appointment to the Board of Directors in September 2005. The Audit Committee assists the Board in fulfilling its responsibilities for generally overseeing our financial reporting processes and the audit of Insight's financial statements, including the integrity of the financial statements and the systems of internal control established by management, our compliance with legal and regulatory requirements, the qualifications and independence of the independent registered public accounting firm, the performance of our internal audit function and the independent registered public accounting firm, risk assessment and risk management, and finance and investment functions. The Audit Committee has the authority to obtain advice and assistance from, and receive appropriate funding from us for, outside legal, accounting or other advisors as the Audit Committee deems necessary to carry out its duties. The Audit Committee operates pursuant to a written charter, reviewed annually, adopted by the Committee and approved by the Board. The charter may be viewed online on our website at www.insight.com by clicking on the Highlights tab under Corporate Governance in our Investor Relations section, which can be accessed in the drop down menu under About Insight on our welcome page.

The Board has determined that the composition of the Audit Committee, the attributes of its members and the responsibilities of the Audit Committee, as reflected in its charter, are in accordance with applicable Securities and Exchange Commission (SEC) rules and NASD Marketplace Rules for audit committees. In particular, all Audit Committee members possess the required level of financial literacy, at least one member of the Audit Committee meets the current standard of requisite financial management expertise and our Board has determined that Michael M. Fisher, the chairman of the Audit Committee, is an audit committee financial expert as defined in Item 401(h) of Regulation S-K of the SEC. Each member of the Audit Committee is an independent director as defined in NASD Marketplace Rule 4200(a)(15). Our policy is to discourage related party transactions and prior approval of the Audit Committee is necessary for an officer or director to enter into a related party transaction.

Table of Contents

The Compensation Committee, consisting of Messrs. Gunning, Chairman, Jones, Fisher and Dorrance, met eight times in 2005. The Compensation Committee operates pursuant to a written charter which may be viewed online on our website at www.insight.com by clicking on the Highlights tab under Corporate Governance in our Investor Relations section, which can be accessed in the drop down menu under About Insight on our welcome page. The Compensation Committee administers compensation and benefit programs designed for directors and officers required to report under Section 16(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and certain other of our senior officers. The Committee, however, has delegated some compensation decisions regarding Senior Vice Presidents to our Chief Executive Officer and to our Chief Financial Officer. The Committee also administers our equity compensation plans to ensure that we have the ability to attract and retain highly qualified managers through competitive salary and benefit programs and to encourage extraordinary effort through incentive rewards. Each member of the Compensation Committee is an independent director as defined in NASD Marketplace Rule 4200(a)(15) and an outside director as defined in Section 162(m) of the Internal Revenue Code.

The Nominating and Governance Committee, consisting of Messrs. Jones, Chairman, Gunning, Fisher and Dorrance and Ms. Pushor, met five times during 2005. The Nominating and Governance Committee, which recommends candidates to be nominated for election as directors at our annual meeting, regularly assesses the appropriate size of the Board and regularly reviews corporate governance principles and related policies for approval by the Board, operates pursuant to a written charter which may be viewed online on our website at www.insight.com by clicking on the Highlights tab under Corporate Governance in our Investor Relations section, which can be accessed in the drop down menu under About Insight on our welcome page. Each member of the Nominating and Governance Committee is an independent director as defined in NASD Marketplace Rule 4200(a)(15).

The Nominating and Governance Committee is responsible for identifying, recruiting and evaluating candidates for the Board when appropriate and making recommendations to the Board regarding the membership of the committees of the Board. In evaluating Board candidates, the Nominating and Governance Committee does not have fixed requirements but will, instead, consider the breadth of business experiences and skills, prominence and reputation in their professions, their global business perspectives, concern for the long-term interests of the stockholders and personal ethics, integrity and judgment. The Nominating and Governance Committee from time to time engages the service of a professional search firm to identify and to evaluate potential nominees. Two of the nominees for directors being voted upon at the annual meeting, Timothy A. Crown and Stanley Laybourne, are directors standing for re-election. The third nominee, Kathleen S. Pushor, is an incumbent director (having been appointed to the Board of Directors after the last annual meeting) but is standing for election for the first time. Ms. Pushor was originally identified to the Nominating and Governance Committee by the Chairman of the Board and was evaluated, by a search firm and by the Nominating and Governance Committee, as part of a formal search process. We have never received a recommendation for a director nominee from a stockholder who is not also a Board member or an employee. Our policy, however, would require that the Nominating and Governance Committee evaluate nominees recommended by stockholders in the same manner described above. Stockholders may propose director candidates for consideration by sending the name of any recommended candidate, together with pertinent biographical information, a document indicating the candidate's willingness to serve if elected, and evidence of the nominating stockholder's ownership of our common stock to our Corporate Secretary at 1305 West Auto Drive, Tempe, Arizona 85284 in accordance with the provisions set forth under the heading Stockholder Proposals in this proxy statement.

Table of Contents

Stockholders wishing to communicate with the Board or with a Board member should address communications to the Board or the particular Board member, c/o Corporate Secretary, Insight Enterprises, Inc., 1305 West Auto Drive, Tempe, Arizona 85284. The Corporate Secretary will forward all such communication to the individual Board member or the Board, as appropriate.

Compensation of Directors

Employee directors do not receive any separate compensation for their Board activities. Each non-employee director receives \$15,000 per quarter for serving on the Board, an additional \$2,500 per quarter for each Board Committee on which he or she serves and reimbursement for reasonable expenses incurred in connection with service as a director. An additional \$1,250 per quarter will be paid to the director serving as Chairman of the Audit Committee. In addition, outside directors will receive 2,000 restricted stock units (RSUs) upon joining the Board and 1,000 RSUs annually. RSUs granted to outside directors vest over three years, subject to continued Board service. The Compensation Committee has approved, for 2006, a \$250,000 retainer for Mr. Timothy A. Crown, Chairman of the Board, in lieu of standard compensation for directors and based primarily on his consultative relationship with our Chief Executive Officer, Richard A. Fennessy, and his time commitments to the Company as Chairman of the Board. This is a reduction from the \$500,000 retainer for Mr. Crown in 2005.

CODE OF ETHICS

We have adopted a Code of Ethics that applies to directors and all employees, including our Chief Executive Officer and our senior financial executives. The Code of Ethics is posted on our website, www.insight.com, and may be found in our Investor Relations section, which can be accessed in the drop down menu under About Insight on our welcome page. We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding any amendments to, or waivers from, a provision of our Code of Ethics by posting such information on our website at the location specified above.

Table of Contents**EXECUTIVE COMPENSATION**

(1) Represents options granted by us to purchase shares of our common stock. For all options granted, one-third of the options become exercisable on each of the first three anniversaries of the grant date.

(2) Amounts represent hypothetical gains that could be achieved over the full option term (5 years). The potential realizable value is calculated by assuming that the market price of the underlying security appreciates in value from the date of grant to the end of the term of the option at the specified annual rates and that the option is exercised at the exercise price and sold on the last day of its term at the appreciated price. These gains are based on assumed rates of stock appreciation of 5% and 10% compounded annually from the date the options were granted to their expiration date and are not presented to forecast possible future appreciation, if any, in the price of the common stock.

(1) Does not include securities underlying exercisable options at year-end issued by Direct Alliance Corporation (Direct Alliance) held by named executive officers in the following amounts: 300,000 held by Stanley Laybourne and 30,000 held by Dino D. Farfante.

(2) Value as of December 31, 2005 is based upon the closing price on that date as reported on the Nasdaq National Market minus the exercise price, multiplied by the number of shares underlying the option.

In addition, our subsidiary, Direct Alliance issued options in 2000 to our named executive officers in the amounts described in footnote (1) above. The Direct Alliance Plan, which is currently administered by Direct Alliance's Board of Directors, includes provisions for granting of incentive awards in the form of stock options to Direct Alliance's employees and directors as well as to officers and employees of its parent and corporate affiliates. The stock options granted in 2000 are fully vested and expire on May 5, 2006. The exercise price for these options is the fair market value at the date of grant, as determined by an appraisal. We have not conducted subsequent appraisals for this purpose through December 31, 2005, and we are not required to do so. Accordingly, the current value of these unexercisable options at December 31, 2005 is indeterminate, and no value in respect of these options is included in the table above. Under these options, our named executive officers have the right to acquire the following percentages, determined on a fully-diluted basis, of the total outstanding common stock of Direct Alliance: Stanley Laybourne, 0.9%; and Dino Farfante, 0.1%. Unexercised options granted to certain individuals, do not terminate after an individual ceases to be an employee, which is the reason that Mr. Farfante retained his options.

(1) Consists of options that are outstanding under our 1999 Broad Based Employee Stock Option Plan. Neither the Nasdaq current listing standards nor federal law has required stockholder approval of the 1999 Broad Based Employee Stock Option Plan, and, accordingly, it was not approved by our stockholders.

(2) Includes options issued by Direct Alliance under the Direct Alliance Corporation 2000 Long Term Incentive Plan.

(3) Includes restricted shares available for grant under the 1998 Employee Restricted Stock Plan and the 1998 Officer Restricted Stock Plan.

In October 1997, the stockholders approved the 1998 Long-Term Incentive Plan (the 1998 LTIP) for officers, employees, directors and consultants or independent contractors. The 1998 LTIP authorizes grants of incentive stock options, non-qualified stock options, stock appreciation rights, performance shares, restricted common stock and performance-based awards. In 2000, the stockholders approved an amendment to the 1998 LTIP increasing the number of shares eligible for awards to 6,000,000 and allowing our Board of Directors to reserve (which they have done) additional shares such that the number of shares of common stock remaining for grant under the 1998 LTIP and any of our other option plans, plus the number of shares of common stock granted but not yet exercised under the 1998 LTIP and any of our other option plans, shall not exceed 20% of the outstanding shares of our common stock at the time of calculation of the additional shares. This plan has no set expiration date, but the Nasdaq Marketplace Rules will require us to obtain new stockholder approval by 2010 if we desire to continue making awards under this plan after 2010. As of December 31, 2005, there were 2,294,915 total shares of common stock available to grant for awards

under the 1998 LTIP and the 1999 Broad Based Employee Stock Option Plan.

In September 1998, we established the 1998 Employee Restricted Stock Plan (the 1998 Employee RSP) for our employees. The total number of shares of restricted common stock initially available for grant under the 1998 Employee RSP was 562,500 and as of December 31, 2005, 434,417 shares of

restricted common stock were available for grant. There were no grants of restricted common stock under this plan during the years ended December 31, 2005, 2004 and 2003.

In December 1998, we established the 1998 Officer Restricted Stock Plan (the 1998 Officer RSP) for our officers. The total number of restricted common stock shares initially available for grant under the 1998 Officer RSP was 56,250 and as of December 31, 2005, 490 shares of restricted common stock were available for grant. There were no grants of restricted common stock under this plan during the years ended December 31, 2005, 2004 and 2003.

In September 1999, we established the 1999 Broad Based Employee Stock Option Plan (the 1999 Broad Based Plan) for our employees. The total number of stock options initially available for grant under the 1999 Broad Based Plan is 1,500,000; provided, however, that no more than 20% of the shares of stock available under the 1999 Broad Based Plan may be awarded to the Officers. Stock options available for grant under the 1999 Broad Based Plan are included in the total shares of common stock available to grant for awards under the 1998 LTIP or 1999 Broad Based Plan discussed above.

The 1998 LTIP, 1998 Employee RSP, 1998 Officer RSP and 1999 Broad Based Plan (the Plans) are administered by the Compensation Committee of the Board of Directors. Except as provided below, the Compensation Committee has the exclusive authority to administer the Plans, including the power to determine eligibility, the types of awards to be granted, the price and the timing of awards. The Compensation Committee has, however, delegated to our Chief Executive Officer the authority to grant awards to individuals other than individuals who are subject to the reporting requirements of Section 16(a) of the Exchange Act.

In May 2000, we established the Direct Alliance Corporation 2000 Long-Term Incentive Plan (the Direct Alliance Plan). The total number of stock options initially available for grant under this plan, representing 15% of the outstanding shares of the Direct Alliance common stock, was 4,500,000. As of December 31, 2005, the number of stock options available for grant under the Direct Alliance Plan is 2,457,500. There were no grants of stock options under this plan during the years ended December 31, 2005, 2004 and 2003.

Employment Contracts, Termination of Employment and Change-of-Control Arrangements

We have entered into employment agreements with each of our named executive officers, except Carmela Orlando. It has been our policy that the Compensation Committee must make compensation decisions for all of our directors and officers who are subject to the reporting requirements of Section 16(a) of the Exchange Act and certain other senior officers. The Board approved all of the employment agreements with our named executive officers based upon the recommendation of the Compensation Committee.

The employment agreements for Richard A. Fennessy, Stanley Laybourne, Stuart Fenton and Mark T. McGrath provide for continually renewing terms of two years and establish base salaries and a mechanism for setting annual incentive bonuses. The Compensation Committee will typically evaluate and set bonus levels for each subsequent year in the second half of the preceding year (for example, the Compensation Committee will typically set a bonus level for 2007 in the second half of 2006). The employment agreements in 2005 provided for annual, rather than quarterly, bonuses and established quarterly advances against such annual bonuses based on Company performance during each of the first three quarters. Additionally, the agreements allowed us, under specified conditions, to take back bonus advances if we did not achieve a set minimum of diluted earnings per share for the entire fiscal year.

Table of Contents

The Compensation Committee approved, on December 14, 2005, two equity-based incentive compensation programs and one cash-based incentive compensation program for 2006 in which the named executive officers will participate. Under the first equity-based incentive compensation program, Messrs. Fennessy, Laybourne, Fenton and McGrath and Ms. Orlando received, in January 2006, varying levels of grants of service-based restricted stock units (RSUs) which will vest ratably over three years. Pursuant to the second equity-based incentive compensation program, a grant of performance-based RSUs to Messrs. Fennessy, Laybourne, Fenton and McGrath and Ms. Orlando were also made in January 2006, and the number of actual RSUs ultimately awarded will be determined based on achievement of consolidated non-GAAP diluted earnings per share (EPS) of the Company for the fiscal year ending December 31, 2006 against target consolidated non-GAAP EPS, with payout varying with position and consolidated non-GAAP EPS results below and above target levels (awards are discretionary over or below specified levels). Once the number of performance-based RSUs has been determined in early 2007, the RSUs will convert to service-based and one-third will vest immediately with the remainder vesting ratably over the following two years. All grants of RSUs were made under the 1998 LTIP Plan. Under the cash-based incentive compensation plan, Messrs. Fennessy, Laybourne, Fenton and McGrath and Ms. Orlando, will earn cash incentive compensation based on achievement of financial objectives against targeted amounts for their respective business units, with payout varying with financial performance levels below and above target levels (awards are discretionary over or below specified levels). The target cash incentive amount is based on achievement of non-GAAP quarterly operating margin percentage, paid quarterly, and on achievement of annual revenue growth, paid annually. Additionally, for Richard A. Fennessy only, the Compensation Committee of the Board of Directors will evaluate Mr. Fennessy s performance for the entire year and, in their discretion, can adjust his actual cash incentive compensation plus or minus fifteen percent.

The material terms of the employment agreements are as follows:

Richard A. Fennessy.

- (i) effective date as of November 15, 2004;
- (ii) a two-year initial term that automatically renews for a new two-year term each successive day after the start of the initial term;
- (iii) an annual salary of \$695,000;
- (iv) a cash bonus of \$350,000 paid within two weeks of the start date;
- (v) incentive compensation for 2005 equal to the greater of: (a) \$1,000,000; or (b) 1,000,000 times the actual diluted earnings per share divided by \$1.20, not to exceed \$1,875,000; incentive compensation for years subsequent to 2005 will be determined by the compensation committee of the Board of Directors. Although there is no guaranteed incentive compensation, the compensation committee intends to target \$1,000,000 per year, provided Mr. Fennessy reaches performance targets established for the year;
- (vi) a 500,000 share grant of non-qualified stock options of the Company granted at the start date at a price equal to the closing price of the Company s common stock on the start date. The stock options will vest ratably over three years and expire five years from the date of grant, but the shares will become fully vested upon termination of employment for any reason, including cause;
- (vii) a 250,000 share grant of non-qualified stock options of the Company granted on January 3, 2005 at a price equal to the closing price of the Company s common stock on January 3, 2005. The stock options will vest ratably over three years and expire five years from the date

of grant, but the shares will become fully vested upon termination of employment for any reason, including cause;

- (viii) a 75,000 share grant of restricted stock of the Company granted on January 3, 2005. Restrictions will lift ratably over three years following the date of grant;
- (ix) reasonable relocation and travel fees will be reimbursed, and grossed-up for income taxes, during the period of relocation, starting at the start date and continuing for up to nine months following start date; legal fees incurred by Mr. Fennessy of up to \$25,000 for preparation and negotiation of the employment contract will be reimbursed;
- (x) a severance payment upon termination without cause, payable on the date of termination, equal to two times Mr. Fennessy's annual base salary, less the amount paid during the notice period, and two times the higher annual bonus that would have been awarded, based on the calculation then in effect, during the one of the two immediately preceding fiscal years which would produce the higher award. Additionally, if the termination without cause is within the initial two-year term, the 500,000 non-qualified stock option grant on the start date and 250,000 non-qualified stock option grant on January 3, 2005 will become 100% vested;
- (xi) a severance payment following a change in control of the Company if Mr. Fennessy terminates his employment with cause or the Company terminates his employment without cause prior to the expiration of 24 months after the change in control occurs, payable within ten days of his last day of work, equal to two times his highest annual base salary in effect during the term of the agreement and two times the higher annual bonus that would have been awarded, based on the calculation then in effect, during the one of the two immediately preceding fiscal years which would produce the higher award. Additionally, Mr. Fennessy will become vested in any and all stock bonus and stock option plans and agreements of the Company in which Mr. Fennessy has an interest, vested or contingent. All payments made following a change in control are to be grossed-up for Mr. Fennessy's taxes.

Stanley Laybourne.

- (i) effective date as of November 1, 2003;
- (ii) a two-year initial term that automatically renews for a new two-year term each successive day after the start of the initial term;

Mr. Laybourne is also eligible for a \$25,000 bonus, payable semi-annually, based on improvements in employee satisfaction improvement survey results;
- (v) upon a change in control, a termination of the agreement by us without cause or a termination of the agreement by the named executive officer for good reason (as those terms are defined in the agreement), we would be required to make a lump-sum payment in an amount equal to two times Mr. Laybourne's annual base salary, less the amount paid during the notice period and two times the higher annual bonus that would have been awarded, based on the calculation then in effect, during the one of the two immediately preceding fiscal years which would produce the higher award. All payments made following a change in control are to be grossed-up for Mr. Laybourne's taxes.

Mark T. McGrath.

- (i) effective as of May 23, 2005;
- (ii) a two-year initial term that automatically renews for a new two-year term each successive day after the start of the initial term;

- (iv) eligibility for an annual incentive bonus, subject to achievement of performance criteria established by the Compensation Committee of the Board of Directors of Insight;
- (v) a grant of 200,000 options to purchase shares of the common stock of Insight on the date Mr. McGrath commenced employment with Insight Direct USA, Inc. with the exercise price set as the closing price for the common stock of Insight on the date of grant. The options vest ratably on the first, second and third anniversaries of the date of grant, subject to continued employment. Vested options will expire on the earlier of five years from the date of grant or 90 days after the termination of Mr. McGrath's employment;
- (vi) a 15,000 share grant of restricted stock shares of the Company granted at the start date. Restrictions will lift ratably over three years following the date of grant;

- (viii) following a change in control, the agreement provides that if Mr. McGrath's employment is terminated without cause or if Mr. McGrath terminates his employment for good reason (as these terms are defined in the agreement) prior to the expiration of 24 months following the change in control, Mr. McGrath will be entitled to receive a lump sum payment equal to two times his highest annual base salary in effect during the term of the agreement and two times the higher annual bonus from the two immediately preceding fiscal years. Additionally, Mr. McGrath will become vested in any and all stock bonus and stock option plans and will be eligible for benefits (life, disability, accident, group health and dental) through the earlier of 42 months following termination or eligibility for new benefits. All payments made following a change in control will be grossed-up for taxes;
- (ix) the agreement also provides for non-disclosure by Mr. McGrath of our confidential information and includes covenants by Mr. McGrath not to compete with Insight Direct USA, Inc. for a period of as long as two years following termination of employment and not to solicit the employees, suppliers and customers for one year following termination of employment, and

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee, which met eight times during 2005, makes compensation decisions with respect to directors and officers subject to the reporting requirements of Section 16(a) of the Exchange Act and certain other of our senior officers. The Committee is composed exclusively of non-employee, independent directors.

The Committee is charged with:

reviewing and approving the annual salary, bonus, equity awards and other benefits including perquisites and personal benefits, to be paid or awarded to directors and officers subject to the reporting requirements of Section 16(a) of the Exchange Act and certain of our other senior officers (except as delegated, within prescribed limits, to our Chief Executive Officer, President and Chief Financial Officer); and

reviewing and recommending to the Board of Directors new equity compensation plans and changes to existing plans.

The Committee utilizes internal resources in the Company to help it carry out its responsibilities and has, from time to time, engaged independent consultants to assist it in fulfilling its responsibilities. In 2005, the Compensation Committee retained Towers Perrin to conduct a competitive analysis of the compensation for the most senior executives of the Company. This benchmarking exercise was the first comprehensive review since the study conducted by Aon Consulting for the Committee in 2003. The Towers Perrin analysis measured the Company's compensation goals and actual results against information for two groups of companies (the comparison groups). The first comparison group included product and service competitors and suppliers and other enterprises which may compete with the Company for executive talent. The second comparison group included larger technology companies, and Towers Perrin size-adjusted that data set to reflect the level and scope of the executive positions at the Company. As neither group was limited to companies which are just competitors or to those which

Table of Contents

are close comparisons in terms of sales and market capitalization, the Company does not consider these groups to be peer groups for other purposes. Towers Perrin generally concluded that, across cash components of pay, the Company is competitive but that total direct compensation is below the median when compared to the comparison groups, especially with respect to long-term incentives. The Towers Perrin report was delivered to the Committee in November 2005, and, accordingly, the Committee used the report, in addition to other relevant sources of information, in setting compensation for executives for 2006, but it was not an important source of information for compensation decisions for 2005. Additionally, Towers Perrin advised the Committee and the Company regarding executive compensation programs generally and provided advice on trends in compensation. The Committee anticipates that it will undertake similar periodic reviews in the future and that it will use the services of outside consultants for similar services in the future.

Compensation Philosophy

The general philosophy of our executive compensation program is to offer compensation, including base salaries, bonus and equity incentives, that is competitive in the marketplace and will permit us to attract and retain highly qualified executives, encourage extraordinary effort on behalf of the Company and align the interests of management with the interests of our stockholders. The employment agreements with executives and the incentive compensation plans reflect this philosophy. We provide our executive officers with relatively limited perquisites that we believe are reasonable and in the best interests of Insight and its stockholders.

Base Salary

The Committee reviews base salaries annually and targets base pay for executive officers at or near the median of the comparison groups and adjusts, as appropriate, for tenure, performance and variations in actual position responsibilities from position descriptions in the comparison groups. In the Towers Perrin study, however, the Committee reviewed variances from comparison groups not just at the median but at the 25th and 75th percentiles as well in order to give it a better view of the competitiveness of pay at the Company. Based on its review, the Committee did not adjust salaries for the named executive officers, except for Mr. Glandon, in 2005 or in 2006. One of our executive officers, Mr. McGrath, joined the Company in May 2005 as President of Insight Direct USA, Inc., and the Committee set his base salary at the same rate as that of his predecessor.

Cash Incentive Compensation, Total Cash Compensation

For 2005, the Committee retained its stance of placing relatively greater emphasis on cash incentive compensation than base salary and, accordingly, set cash incentive plans for executive officers such that a significant portion of total compensation would come from cash incentive if financial targets were met. The Committee views cash incentive compensation as a means of closely tying a significant portion of the total potential cash compensation to executives to the financial performance of the Company or the portion of the Company for which the executive has management responsibility.

The Committee also continued efforts in 2005 to adjust cash incentive structures to yield cash incentive compensation and total cash compensation closer to targeted amounts. As such, the Committee began a concerted effort to align the basis of compensation over the entire senior management team and remained committed in its awards to providing, overall, compensation for the entire team of named executive officers which is competitive with compensation offered in the market.

To meet these compensation goals, the Committee put in place cash incentive compensation plans for executive officers for 2005 (except that for 2005 Mr. Fennessy's incentive compensation had been set in

Table of Contents

his November 2004 employment agreement, as described below) based upon diluted earnings per share (EPS), provided that EPS exceeds a minimum annual amount (the Minimum EPS). For these purposes, the Company makes the same adjustments to EPS as it makes when it reconciles financial measures prepared in accordance with United States generally accepted accounting principles (GAAP) to any non-GAAP financial measures in the quarterly press releases of the results of operations of the Company. Under these plans, so long as the Minimum EPS number is reached, the executives receive a bonus calculated by multiplying EPS by a fixed multiplier and multiplying that product by a performance factor which increases with rising EPS, allowing the Company to recognize better performance with greater rewards. The plans also provide that if the Minimum EPS is not reached, bonus awards are subject to the discretion of the Committee to prevent the Company from becoming committed to paying for underperformance. As appropriate, based upon responsibilities, the EPS was split over more than one segment in order to incent growth in the direct area of responsibility and to encourage teamwork throughout the Company, and, accordingly, the executive officers earned incentive compensation at different rates, reflecting, as planned, performance of the various segments of the Company. The Compensation Committee, in recognition of individual performance in 2005, approved discretionary bonuses in the following amounts: Mr. Fennessy, \$150,000; Mr. Laybourne, \$100,000; Mr. Glandon, \$20,000; and Mr. Rice, \$12,000.

With the cash-based incentive compensation plans approved in December 2005 for 2006, the Committee has furthered its goal of aligning compensation throughout the Company and, particularly, for the executive officers. Under the 2006 cash-based incentive compensation program, executives will earn incentive compensation based on achievement of financial objectives against targeted amounts for their respective business units, with payout varying with financial performance levels below and above target levels, and awards are in the discretion of the Committee over or below specified levels so that the Committee may appropriately compensate an executive for truly exceptional performance and avoid overpaying an executive if the business unit underperforms. The two key metrics driving 2006 cash-based incentive compensation are non-GAAP quarterly operating margin percentage (with the incentive for performance on this metric to be paid quarterly) and annual net sales growth (with the incentive for performance on this metric to be paid annually).

Equity-Based Incentive Compensation

The Committee views equity-based compensation as a critical component of the overall executive compensation program and targets equity-based incentive compensation grants at or above the median for the comparison groups to motivate and reward executives for long-term strategic management and increases in stockholder value. Grants of stock options to our named executive officers, when made, are at an exercise price equal to the market value of the underlying common stock at the close of trading on the date of grant, thus serving to focus the officer's attention on managing the Company from the perspective of an owner with a continuing equity stake in the business.

In accordance with our overall compensation philosophy and view of appropriate total compensation, and, in particular, to further the long-term perspective that we believe is necessary for the Company's future success, we made stock option awards to our executive officers, including the Chief Executive Officer, in May 2005 under the Company's 1998 Long-Term Incentive Plan, which was last approved by stockholders in May 2000. Individual grant levels were based on job responsibilities, tenure, anticipated future contributions to the Company and the relation of the awards to total compensation.

In order to link equity-based incentive compensation more closely to annual performance, to continue to align the interests of management and stockholders and, in part, in light of changing accounting requirements and market expectations, the Committee decided, in December 2005, that it would make grants of equity-based incentive compensation awards in January 2006 (as opposed to later in the year)

Table of Contents

and that it would grant restricted stock units (RSUs) instead of stock options at this point in time. Using the same general criteria as it used for stock option awards in May 2005, the Committee awarded restricted stock units to executive officers (including the Chief Executive Officer) in January 2006 in two programs under the Company's 1998 Long-Term Incentive Plan. In the first program, RSUs are service-based and the restrictions lapse evenly over three years, starting in February 2007. In the second program, the number of RSUs increases or decreases with actual earnings per share (for the fiscal year ending December 31, 2006, on a consolidated non-GAAP diluted basis) greater or less than target earnings per share, and the RSUs vest in three equal annual installments beginning February 1, 2007. Grant levels are higher in the second program than in the first, reflecting the risk incorporated into the design of the second program.

Chief Executive Officer Compensation

The Committee determines compensation for the Chief Executive Officer using the same criteria it used for other executives, placing relatively less emphasis on base salary and, instead, creating greater performance based opportunities for incentive compensation (cash and equity). The Committee meets each year in executive session to evaluate the performance of the Chief Executive Officer.

Richard A. Fennessy joined the Company in November 2004, and, at that time, the Committee set a base salary for Mr. Fennessy at \$695,000, the salary of Mr. Fennessy's predecessor. No change in base salary was made during 2005, and no change in base salary has been made for 2006. With respect to incentive compensation, in his employment agreement, we agreed to pay Mr. Fennessy, for 2005 only, the greater of \$1,000,000 or 1,000,000 times the actual diluted earnings per share divided by \$1.20. As the formula did not yield more than the minimum, we paid Mr. Fennessy the guaranteed amount for the year. The Compensation Committee, outside of the employment agreement, also awarded a discretionary bonus of \$150,000 to Mr. Fennessy in recognition of his performance in 2005. Additionally, at the time Mr. Fennessy joined the Company, the Committee decided that it was important to provide Mr. Fennessy with equity compensation in the form of stock options and restricted stock in order to motivate and reward him for long-term strategic management and increases in stockholder value, and the Committee committed to making those awards in his employment agreement. Accordingly, and pursuant to his employment agreement, a portion of the awards was made in November 2004 (an option to acquire 500,000 shares of our common stock) and a portion (an option to acquire 250,000 shares of our common stock and a grant of 75,000 shares of restricted stock) was made in January 2005. As discussed above, Mr. Fennessy also received a grant of stock options (for 100,000 shares of our common stock) in May 2005 along with other executive officers, grants of restricted stock units (16,000 in program one and 24,000 in program two) in January 2006 and is eligible for cash-based incentive compensation based on non-GAAP quarterly operating margin percentage and annual net sales growth. Additionally, the Committee will evaluate Mr. Fennessy's performance for the entire 2006 year and, in our discretion, we can adjust his actual cash incentive compensation, within the cash-based incentive program, plus or minus fifteen percent.

Section 162(m) of the Internal Revenue Code

Section 162(m) generally prohibits a public company from taking a tax deduction for compensation over one million dollars paid to the Chief Executive Officer and its four other highest paid executive officers unless certain conditions are met. While the anticipated tax treatment of base and incentive compensation is given some weight in making compensation decisions, the deductibility of some types of compensation can depend upon the timing of an executive's exercise of previously granted stock options or the vesting of restricted stock or restricted stock units, or both. Additionally, the interpretation of tax laws and regulations, and changes in laws and regulations, can also affect deductibility of compensation, and there may be other factors beyond the Committee's control which affect deductibility. For these

Table of Contents

reasons, and because the Committee believes that awards of compensation which would not comply with the Section 162(m) requirements may at times further the long-term interests of the Company and its stockholders, the Committee has not adopted a policy of limiting awards of compensation to amounts which would be deductible under Section 162(m). However, the Committee expects that the vast majority of compensation paid in 2006 to the Chief Executive Officer and the four other most highly paid officers as a group will be tax deductible.

AUDIT COMMITTEE REPORT

As described more fully in its charter, the purpose of the Audit Committee is to assist the Board of Directors in its general oversight of Insight's financial reporting, internal control and audit functions. Insight's management is responsible for the preparation, presentation and integrity of our financial statements, accounting and financial reporting principles, internal controls and procedures designed to assure compliance with accounting standards, applicable laws and regulations. Insight's independent registered public accounting firm is responsible for performing an independent audit of the consolidated financial statements in accordance with generally accepted auditing standards.

Among other matters, the Audit Committee monitors the activities and performance of Insight's internal auditors and KPMG, including the audit scope, auditor independence matters and the extent to which KPMG may be retained to perform non-audit services. The Audit Committee has the ultimate authority and responsibility to select, evaluate, and when appropriate, replace the independent registered public accounting firm. The Audit Committee also reviews the results of the internal auditors and KPMG work with regard to the adequacy and appropriateness of Insight's financial, accounting and internal controls, including obtaining progress reports throughout the year on Insight's compliance with the requirements of Section 404 of the Sarbanes-Oxley Act of 2002. The Audit Committee engaged in regular discussions with the director of internal audit and KPMG without the presence of senior members of management during 2005. Management and KPMG presentations to, and discussions with, the Audit Committee also covered various topics and events that have significant financial impact on Insight or are the subject of discussions between management and KPMG. In this context, the Audit Committee met nine times during 2005, during which it held discussions with senior members of Insight's financial management team, the director of internal audit and KPMG.

The Audit Committee has adopted procedures for pre-approving all audit and permissible non-audit services provided by KPMG. For each non-audit service, as defined in the policy, performed by the KPMG, an engagement letter confirming the scope and terms of the work to be performed is submitted to the Committee for pre-approval. Any modification to an executed engagement letter must also be pre-approved by the Committee. As permitted by Section 10A(i)(3) of the Exchange Act, the Audit Committee has delegated pre-approval authority to the Chairman of the Audit Committee for all engagements under \$50,000. The Chairman of the Audit Committee must report any pre-approval decisions to the Audit Committee at its next regular quarterly meeting.

Management has reviewed Insight's audited consolidated financial statements with the Audit Committee including a discussion of the quality, not just the acceptability, of the relevant accounting principles, the reasonableness of significant judgments made in connection with critical accounting principles and the accuracy and clarity of disclosures in the financial statements. In addressing the quality of management's accounting judgments, members of the Audit Committee asked for management's representations that the audited consolidated financial statements of Insight have been prepared in conformity with United States generally accepted accounting principles.

The Audit Committee discussed with KPMG the matters required to be discussed with the Audit Committee under Statement on Auditing Standards No. 61, as amended, Communication with Audit Committees. KPMG also provided to the Audit Committee a letter with the written disclosures required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and the Audit Committee discussed with KPMG their independence.

Based on the Audit Committee's discussions with management and KPMG and its review of the representation of management and the report of KPMG to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the
