ABOUT ENERGY PARTNERS, LTD.

We are an independent oil and natural gas exploration and production company focused on the shallow to moderate depth waters of the Gulf of Mexico Shelf. We concentrate on the Gulf of Mexico Shelf region because that area provides us with favorable geologic and economic conditions, including multiple reservoir formations, regional economies of scale, extensive infrastructure and comprehensive geologic databases. We believe that this region offers a balanced and expansive array of existing and prospective exploration, exploitation and development opportunities in both established productive horizons and deeper geologic formations. As of December 31, 2002, we had estimated proved reserves of approximately 127.0 billion cubic feet of natural gas and 26.4 million barrels of oil, or an aggregate of approximately 47.5 million barrels of oil equivalent, with a present value of estimated pre-tax future net cash flows of \$608.3 million, and of estimated after-tax future net cash flows of \$476.9 million based upon year-end 2002 prices and a discount rate of 10%.

Since our incorporation in January 1998 by Richard A. Bachmann, our founder, chairman, president and chief executive officer, we have assembled a team of geoscientists and management professionals with considerable region-specific geological, geophysical, technical and operational experience. We have grown through a combination of exploration, exploitation and development drilling and multi-year, multi-well drill-to-earn programs, as well as strategic acquisitions of mature oil and natural gas fields in the Gulf of Mexico Shelf area, and in particular the acquisition of Hall-Houston Oil Company ("Hall-Houston") in early 2002.

Our strategy is to grow our reserves and production through a balanced investment program including low risk exploitation and development activities in and around our existing fields and moderate risk exploration activities in the shallow to moderate depth waters of the central region of the Gulf of Mexico Shelf. A limited amount of our exploration budget each year will be allocated to higher risk, higher potential exploration prospects in this region.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated August 7, 2003, the selling stockholders have agreed to sell to Credit Suisse First Boston LLC, the underwriter, the 2,500,000 shares of common stock offered hereby.

The underwriting agreement provides that the underwriter is obligated to purchase all the shares of common stock in the offering if any are purchased.

The underwriter proposes to offer the shares of common stock initially at

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

the public offering price on the cover page of this prospectus supplement and to selling group members at that price less a selling concession of \$0.10 per share. After the initial public offering, the underwriter may change the public offering price and concession and discount to broker/dealers.

The following table summarizes the estimated expenses we will pay and the compensation the selling stockholders will pay:

	Per Share -----
Expenses payable by us.....	\$0.03
Underwriting Discounts and Commissions paid by the selling stockholders.....	\$0.36

We have agreed that we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the Securities and Exchange Commission a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, without the prior written consent of Credit Suisse First Boston LLC for a period of 30 days after the date of this prospectus supplement, except for grants of stock awards, phantom units and employee stock options to purchase shares of common stock under plans existing on the date of this prospectus supplement and for issuances of shares of common stock pursuant to the exercise or conversion of employee stock options, preferred stock or warrants outstanding on the date of this prospectus supplement.

The selling stockholders and each of our directors who is an affiliate of a selling stockholder have agreed that they will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any shares of our common stock or securities convertible into or exchangeable for any shares of our common stock, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our common stock, whether any of these transactions are to be settled by delivery of our common stock or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of Credit Suisse First Boston LLC for a period of 45 days after the date of this prospectus supplement.

We and the selling stockholders have agreed to indemnify the underwriter against liabilities under the Securities Act, or contribute to payments that the underwriter may be required to make in that respect.

From time to time Credit Suisse First Boston LLC has provided investment banking and other advisory services to us for which it has received customary compensation and we expect them to continue to provide similar services in the future. Credit Suisse First Boston LLC was among the underwriters of our April 2003 common stock offering and among the initial purchasers of our August 2003 senior unsecured notes offering and received customary commissions for its services.

S-4

In connection with the offering, the underwriter may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

- o Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- o Over-allotment involves sales by the underwriter of shares in excess of the number of shares the underwriter is obligated to purchase, which creates a syndicate short position. The underwriter may close out a short position by purchasing shares in the open market.
- o Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions.
- o Penalty bids permit the underwriter to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on The New York Stock Exchange or otherwise, and if commenced, may be discontinued at any time.

The aggregate maximum compensation that members of the NASD or independent broker-dealers will receive in connection with the sale of any securities pursuant to this prospectus supplement and the registration statement of which it forms a part will not be greater than 8% of the gross proceeds of such sale.

A prospectus supplement and the accompanying prospectus in electronic format may be made available on the web sites maintained by the underwriter or selling group members, if any, participating in this offering. The underwriter may agree to allocate a number of shares to selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriter and selling group members that will make internet distributions on the same basis as other allocations.

All forward-looking statements in this document are expressly qualified in their entirety by the cautionary statements in this paragraph.

RISK FACTORS

You should consider carefully the following factors, as well as those

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

discussed elsewhere in this prospectus. In addition to the factors below, please refer to the disclosure contained in our latest annual report on Form 10-K for the fiscal year ended December 31, 2002. Please read "Items 1 & 2. Business and Properties -- Regulatory Matters" and "-- Additional Factors Affecting Business" in our latest annual report for these risk factors. Please also read "Where You Can Find More Information."

The market price of our common stock could be adversely affected by sales of substantial amounts of our common stock in the public markets.

Our largest stockholders, Evercore Capital Partners L.P. and affiliates ("Evercore"), Energy Income Fund, L.P. and Richard A. Bachmann, our chairman, president and chief executive officer, could sell a substantial number of shares of our common stock in the public market, either pursuant to exemptions afforded to affiliates under Rule 144 under the Securities Act of 1933, as amended (the "Securities Act") or pursuant to an effective registration statement. Evercore and Energy Income Fund, L.P. together sold approximately 3,600,000 shares in a public offering in April 2003 and Evercore may sell up to an additional 2,500,000 shares pursuant to this prospectus. Affiliates may sell under Rule 144 of the Securities Act the greater of 1% of the number of shares of common stock then outstanding and the average weekly trading volume of our common stock on the New York Stock Exchange during the four calendar weeks preceding the filing of a required notice of such sale. Such sales by our largest stockholders, sales by other securityholders or the perception that such sales might occur, could have a material adverse effect on the price of our common stock or could impair our ability to obtain capital through an offering of equity securities.

Additionally, in connection with the acquisition of Hall-Houston Oil Company ("Hall-Houston"), we issued warrants and Series D exchangeable convertible preferred stock that can be exchanged or exercised for a total of up to approximately 8,400,000 shares of our common stock. All of the common stock underlying the warrants and Series D preferred stock are freely tradable upon resale pursuant to a prospectus filed with the Securities and Exchange Commission. Also in connection with our acquisition of Hall-Houston, we entered into an earnout agreement which, depending on the performance of the oil and natural gas properties subject to the agreement, could obligate us to issue up to \$40,000,000 market value of our common stock to the participants in the agreement, and such common stock is required to be publicly registered under the agreement.

The market price of our common stock has experienced substantial volatility and may continue to do so in the future.

Since our initial public offering in November 2000 at a price of \$15.00 per share, the trading price for our common stock on the New York Stock Exchange has declined to \$11.20 as of July 2, 2003. The market price of our common stock may not exceed or even remain at current levels. The following factors may have an adverse impact on the market price of our common stock:

- o lack of success in our drilling activities, including exploratory drilling;
- o fluctuations in oil and natural gas prices;
- o market conditions for oil and natural gas stocks;
- o market conditions generally;
- o governmental regulation; and
- o fluctuations in our operating results.

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

Provisions in our organizational documents and under Delaware law could delay or prevent a change in control of our company, which could adversely affect the market price of our common stock.

The existence of some provisions in our organizational documents and under Delaware law could delay or prevent a change in control of our company, which could adversely affect the market price of our common stock. The provisions in our certificate of incorporation and bylaws that could delay or prevent an unsolicited change in control of our company include:

1

- o the board of directors' ability to issue shares of preferred stock and determine the terms of the preferred stock without securityholder approval; and
- o a prohibition on the right of securityholders to call meetings and a limitation on the right of securityholders to act by written consent and to present proposals or make nominations at securityholder meetings.

In addition, Delaware law imposes some restrictions on mergers and other business combinations between us and any holder of 15% or more of our outstanding common stock. Evercore is generally exempted from these provisions.

2

OUR COMPANY

We are an independent oil and natural gas exploration and production company focused on the shallow to moderate depth waters of the Gulf of Mexico Shelf. We concentrate on the Gulf of Mexico Shelf region because that area provides us with favorable geologic and economic conditions, including multiple reservoir formations, regional economies of scale, extensive infrastructure and comprehensive geologic databases. We believe that this region offers a balanced and expansive array of existing and prospective exploration, exploitation and development opportunities in both established productive horizons and deeper geologic formations. As of December 31, 2002, we had estimated proved reserves of approximately 127.0 billion cubic feet of natural gas and 26.4 million barrels of oil, or an aggregate of approximately 47.5 million barrels of oil equivalent, with a present value of estimated pre-tax future net cash flows of \$608.3 million, and of estimated after-tax future net cash flows of \$476.9 million based upon year-end 2002 prices and a discount rate of 10%.

Since our incorporation in January 1998 by Richard A. Bachmann, our founder, chairman, president and chief executive officer, we have assembled a team of geoscientists and management professionals with considerable region-specific geological, geophysical, technical and operational experience. We have grown through a combination of exploration, exploitation and development drilling and multi-year, multi-well drill-to-earn programs, as well as strategic acquisitions of mature oil and natural gas fields in the Gulf of Mexico Shelf area, and in particular the acquisition of Hall-Houston in early 2002.

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

Our strategy is to grow our reserves and production through a balanced investment program including low risk exploitation and development activities in and around our existing fields and moderate risk exploration activities in the shallow to moderate depth waters of the central region of the Gulf of Mexico Shelf. A limited amount of our exploration budget each year will be allocated to higher risk, higher potential exploration prospects in this region.

Our principal executive offices are located at 201 St. Charles Avenue, Suite 3400, New Orleans, Louisiana 70170. Our telephone number is (504) 569-1875. We also maintain a web site at www.eplweb.com which contains information about us, including links to our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and related amendments. Our web site and the information contained in it and connected to it shall not be deemed incorporated by reference into this prospectus.

PLAN OF DISTRIBUTION

The selling securityholders have not advised us of any specific plan for distribution of the shares offered hereby, but it is anticipated that the shares will be sold from time to time by the selling securityholders or by permitted pledgees, donees, transferees or other permitted successors in interest. Such sales by the selling securityholders may be made in any of the following manners:

- o on the New York Stock Exchange in transactions pursuant to and in accordance with the rules of such exchange;
- o in the over-the-counter market;
- o in public or privately negotiated transactions;

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

- o in transactions involving principals or brokers;
- o in a combination of such methods of sale; or
- o any other lawful methods.

Although sales of the shares are, in general, expected to be made at market prices prevailing at the time of sale, the shares may also be sold at prices related to such prevailing market prices or at negotiated prices, which may differ considerably.

In offering the shares covered by this prospectus, each of the selling securityholders and any broker-dealers who sell the shares for the selling securityholders may be "underwriters" within the meaning of the Securities Act, and any profits realized by such selling securityholders and the compensation of such broker-dealers may be underwriting discounts and commissions.

Sales through brokers may be made by any method of trading authorized by any stock exchange or market on which the shares may be listed, including block trading in negotiated transactions. Without limiting the foregoing, such brokers may act as dealers by purchasing any or all of the shares covered by this prospectus, either as agents for others or as principals for their own accounts, and reselling such shares pursuant to this prospectus. The selling securityholders may effect such transactions directly, or indirectly through underwriters, broker-dealers or agents acting on their behalf. In connection with such sales, such broker-dealers or agents may receive compensation in the form of commissions, concessions, allowances or discounts, any or all of which might be in excess of customary amounts.

Each of the selling securityholders is acting independently of us in making decisions with respect to the timing, manner and size of each sale of shares. We have not been advised of any definitive selling arrangement at the date of this prospectus between any selling securityholder and any broker-dealer or agent.

To the extent required, the names of any agents, broker-dealers or underwriters and applicable commissions, concessions, allowances or discounts, and any other required information with respect to any particular offer of the shares by the selling securityholders, will be set forth in a prospectus supplement.

The expenses of preparing and filing this prospectus and the related registration statement with the Securities and Exchange Commission will be paid entirely by us. Shares of common stock covered by this prospectus also may qualify to be sold pursuant to Rule 144 under the Securities Act, rather than pursuant to this prospectus. The selling securityholders have been advised that they are subject to the applicable provisions of the Securities Exchange Act of 1934, as amended, including, without limitation, Rule 10b-5 thereunder.

Neither we nor the selling securityholders can estimate at the present time the amount of commissions or discounts, if any, that will be paid by the selling securityholders on account of their sales of the shares from time to time.
