antibacterial hand spray for sale in 504 stores in the western region of the United States.

"We are particularly happy to get this campaign started right now, at the onset of cold and flu season, and we expect to build upon this beginning and extend sales into other regions of the country," said Pure-ific President Timothy C. Scott, Ph. D. "This first shipment of product is destined for sales in the states of California, Utah, Arizona, and Washington."

Pure-ific, which comes in a 1-ounce can, immediately kills up to 99.9 percent of germs on skin and prevents re-growth for up to six hours. Packaged as a quick-drying spray, Pure-ific is useful for mothers, travelers, and anyone else concerned about the spread of germs. Unlike gel sanitizers, Pure-ific Antibacterial Hand Spray leaves no sticky residue and is appropriate both for hands and for hard surfaces, such as toilet seats.

Provectus Pharmaceuticals Inc. plans to license and sell products in three sectors of the health-care industry: 1) prescription medications and treatments, 2) medical devices, and 3) over-the-counter (OTC) pharmaceuticals, such as Pure-ific. Prescription drug products and devices address several forms of difficult-to-treat cancers as well as diseases of the skin. OTC products address complementary markets, primarily those involving skin care and comfort.

The company's offices and laboratory are located at 7327 Oak Ridge Highway, Suite A Knoxville, TN 37931; telephone: 865/769-4011. For more information, contact the company at info@pvct.com or visit the corporate Web site: www.pvct.com.
