NOTE FOR U.S. READERS ON CANADA/U.S. REPORTING DIFFERENCES

Our Annual Information Form dated March 31, 2014 and Management's Discussion and Analysis, together with our audited consolidated financial statements and notes thereto as of December 31, 2013 and 2012 and for the years then ended, are filed under cover of this form as exhibits 99.1, 99.2 and 99.3, respectively. We prepare our financial statements in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

Our common shares are listed on the Toronto Stock Exchange and the New York Stock Exchange. There are certain differences between the corporate governance practices applicable to us and those applicable to U.S. companies under the New York Stock Exchange listing standards. A summary of the significant differences can be found at <http://www.kinross.com/about-kinross/corporate-governance/kinross-gold-corporation-disclosure.aspx>.

DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the U.S. Securities Exchange Act of 1934, as amended, (the Exchange Act) is recorded, processed, summarized and reported within the appropriate time periods and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely disclosures regarding required disclosure. In designing and evaluating the disclosure controls and procedures, we recognize that any disclosure controls and procedures, no matter how well conceived or operated, can only provide reasonable, not absolute, assurance that the objectives of the control system are met, and management is required to exercise its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) under the Exchange Act, we conducted an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2013, the end of the period covered by this annual report on Form 40-F. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of December 31, 2013, the design and operation of the Company's disclosure controls and procedures provide reasonable assurance that they are effective.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. With the participation of the Chief Executive Officer and the Chief Financial Officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework and criteria established in Internal Control - Integrated Framework (1992), issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management has concluded that our internal control over financial reporting was effective as of December 31, 2013. Because of inherent limitations, internal controls over financial reporting may not prevent or detect misstatement. In addition, projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in relevant guidelines or conditions in the control structure, or that the degree of compliance with policies or procedures may deteriorate. KPMG LLP, an independent registered public accounting firm for the Company that audited the consolidated financial statements of the Company as of December 31, 2013 and the period then ended, has issued an attestation report addressing the effectiveness of the Company's internal control over financial reporting as of December 31, 2013, included with the audited consolidated financial statements, which are attached as an exhibit to this annual report on Form 40-F and incorporated by reference herein.

Changes in Internal Control over Financial Reporting

Except as noted below, there have been no changes to our system of internal control over financial reporting for the year ended December 31, 2013 or since that time that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

During 2013, Kupol converted to a new ERP system. The ERP system conversion has not resulted in any significant changes in internal controls during the year ended December 31, 2013. Management employed appropriate procedures to ensure internal controls were in place during and after the conversion.

AUDIT AND RISK COMMITTEE

The audit and risk committee of our Board of Directors is comprised of four directors: John A. Brough, chairman, John M.H. Huxley, Una M. Power and Terence C.W. Reid. Each of the members of the audit and risk committee is independent as that term is defined in the listing standards of the New York Stock Exchange. The board of directors has determined that Mr. Brough is an audit committee financial expert as such term is defined in paragraph 8(b) of General Instructions B to Form 40-F. Information concerning Mr. Brough's relevant education and experience is included in his biographical information contained in the Company's Annual Information Form included as exhibit 99.1. The Securities and Exchange Commission has indicated that the designation of a person as an audit committee financial expert does not make such person an expert for any purpose, impose any duties, obligations or liabilities on such person that are greater than those imposed generally on members of the audit and risk committee and the board of directors who do not carry this designation, or affect the duties, obligations or liability of any other member of the audit and risk committee or board of directors.

CODE OF ETHICS

The Code of Business Conduct and Ethics may be viewed at the Company's website at www.kinross.com under About Kinross - Governance and is available in print to any shareholder upon written request to the Company's Corporate Secretary. Any amendments to the Code of Business

Conduct

and Ethics, including a description of such amendment, will be posted to the Company's website within five business days following the date of the amendment. In February 2013 the Company amended its Code of Business Conduct and Ethics (the "Code"). These changes were made to clarify the Company's policies with respect to the following: the Company's access to and use of employees' personal information; employees' use of the Company's information technology resources, including with respect to the transfer of electronic files; compliance with human rights laws and anti-discrimination laws; business dealings with suppliers; the Chief Executive Officer's ability to accept external directorships; anti-corruption efforts; the Company's response to litigation and threatened litigation; and the reporting of violations of the Code. The amended Code is included as exhibit 99.12 to this annual report on Form 40-F and incorporated herein by reference.

The Company did not grant any waivers under its Code of Business Conduct and Ethics during 2013.

Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. Such factors include, but are not limited to: effectiveness of measures to minimize risks with respect to the Tasiast mine operations and expansion project; relations with and the outcome of our engagement with the Government of Mauritania seeking the solidification of the investment conditions and a corresponding implementation and application of appropriate tax, labour and fiscal frameworks which are conducive to long term investment that generates significant economic value and employment; exploration for additional mineral resource potential; our ability to successfully cease further investment in and development of FDN and, in cooperation with the Government of Ecuador, successfully complete an orderly transition with respect to FDN that is respectful of the interests of both parties and does not impose on the Company (and/or any of its directors, officers or employees) any unreasonable obligations or liabilities; litigation commenced, or other claims or actions brought, against the Company (and/or any of its directors, officers or employees) in respect of the cessation by the Company of further investment in and development of FDN, or any of the Company's prior or continuing activities on or in respect thereof or otherwise in Ecuador; fluctuations in the currency markets; fluctuations in the spot and forward price of gold or certain other commodities (such as fuel and electricity); changes in the discount rates applied to calculate the present value of net future cash flows based on country-specific real weighted average cost of capital; changes in the market valuations of peer group gold producers and the Company, and the resulting impact on market price to net asset value multiples; changes in various market variables, such as interest rates, foreign exchange rates, gold or silver prices and lease rates, or global fuel prices, that could impact the mark-to-market value of outstanding derivative instruments and ongoing payments/receipts under any financial obligations; risks arising from holding derivative instruments (such as credit risk, market liquidity risk and mark-to-market risk); changes in national and local government legislation, taxation (including but not limited to income tax, advance income tax, stamp tax, withholding tax, capital tax, tariffs, value-added or sales tax, capital outflow tax, capital gains tax, windfall or windfall profits tax, royalty, excise tax, customs/import or export taxes/duties, asset taxes, asset transfer tax, property use or other real estate tax, together with any related fine, penalty, surcharge, or interest imposed in connection with such taxes), controls, policies and regulations; the security of personnel and assets; political or economic developments in Canada, the United States, Chile, Brazil, Russia, Ecuador, Mauritania, Ghana, or other countries in which Kinross, or entities in which it now or hereafter directly or indirectly holds an interest, do business or may carry on business; business opportunities that may be presented to, or

pursued by, us; our ability to successfully integrate acquisitions and expansions and complete divestitures; operating or technical difficulties in connection with mining or development activities; employee relations; litigation against the Company including, but not limited to, securities class action litigation in Canada and/or the United States; the speculative nature of gold exploration and development including, but not limited to, the risks of obtaining necessary licenses and permits; diminishing quantities or grades of reserves; adverse changes in our credit rating; the potential imposition of reciprocal sanctions by the Russian Federation in response to those sanctions imposed (or threatened) by Canada and/or other countries; and contests over title to properties, particularly title to undeveloped properties. In addition, there are risks and hazards associated with the business of gold exploration, development and mining, including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins, flooding and gold bullion losses (and the risk of inadequate insurance, or the inability to obtain insurance, to cover these risks). Many of these uncertainties and contingencies can directly or indirectly affect, and could cause, Kinross' actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, Kinross, including but not limited to resulting in an impairment charge on goodwill and/or assets. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are provided for the purpose of providing information about management's expectations and plans relating to the future. All of the forward-looking statements made, or incorporated by reference, in this annual report on Form 40-F are qualified by these cautionary statements and those made in our other filings with the securities regulators of Canada and the United States including, but not limited to, the cautionary statements made in the Risk Factors section of our 2013 Annual Information Form and Management's Discussion and Analysis for the year ended December 31, 2013. These factors are not intended to represent a complete list of the factors that could affect Kinross. Kinross disclaims any intention or obligation to update or revise any forward-looking statements or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law.
