ANNUAL MEETING OF SHAREHOLDERS

TO BE HELD JUNE 18, 2008

This Proxy Statement is furnished to the shareholders of ADA-ES, Inc. (the Company), a Colorado corporation, in connection with the solicitation of proxies by the Company's (our) Board of Directors (the Board), to be voted at our ANNUAL MEETING OF SHAREHOLDERS (the Meeting) to be held on Wednesday, June 18, 2008, at the Pinehurst Country Club at 6255 West Quincy Ave., Denver, Colorado and any postponements or adjournments thereof. This Proxy Statement and accompanying form of proxy is first being mailed or given to our shareholders on or about May 9, 2008. The shares represented by all proxies that are properly executed and submitted will be voted at the Meeting in accordance with the instructions indicated thereon, and if no instructions are given, then in the discretion of the proxy holder. Throughout this Proxy Statement, the terms we, us, our and our Company refer to ADA-ES, Inc., and unless the context indicates otherwise, our subsidiaries on a consolidated basis.

VOTING RIGHTS AND VOTE REQUIRED

Our Board has fixed the close of business on April 30, 2008, as the record date for determination of shareholders entitled to notice of and to vote at the Meeting. At such date 5,805,163 shares of our common stock are issued and outstanding (hereinafter referred to as the Common Stock), each of which entitles the holder thereof to one vote on all matters that may come before the meeting. We do not have any class of voting securities other than Common Stock. An abstention or withholding authority to vote will be counted as present for determining whether the quorum requirement is satisfied. If a quorum exists, actions or matters other than the election of the Board are approved if the votes cast in favor of the action exceed the votes cast opposing the action unless a greater number is required by the Colorado Business Corporation Act or our Articles of Incorporation. Abstentions will not affect the election of directors.

If as of the record date your shares were held in an account at a brokerage firm, bank, dealer, or other similar organization, then that firm or organization is the shareholder of record for purposes of voting at the annual meeting and you are considered the beneficial owner of shares held in street name. If you are a beneficial owner, you have the right to direct your broker or other agent regarding how to vote the shares held in your account. If you do not instruct your broker on how to vote your shares, your brokerage firm, in its discretion, may vote your shares on routine matters or not vote your shares. The election of our directors and the proposal to ratify the appointment of our independent auditors for the current fiscal year are considered routine matters. If you hold shares beneficially in street name and do not provide your broker with voting instructions, your shares may constitute broker non-votes. A broker non-vote occurs when a nominee holding shares for a beneficial holder does not have discretionary voting power and does not receive voting instructions from the beneficial owner. Broker non-votes on a particular proposal are considered present for purposes of determining a quorum, but will not be treated as shares present and entitled to vote on the proposal and accordingly will have no effect on the vote.

We invite beneficial owners to attend the annual meeting. If you are a beneficial owner and not a shareholder of record, you may not vote your shares in person at the meeting unless you request and obtain a valid proxy from your broker or other agent and bring such proxy to the annual meeting. If you want to attend the Meeting, but not vote, you must provide proof of beneficial ownership as of the record date, such as your most recent account statement prior to April 30, 2008, a copy of the voting instruction card provided by your broker or other agent or other similar evidence of ownership.

A minimum of one-third of the shares of Common Stock issued and outstanding must be represented at the Meeting, in person or by proxy, in order to constitute a quorum. Cumulative voting is not allowed for any purpose. Assuming a quorum is present, the nine nominees receiving the highest number of votes cast will be elected as Directors.

Unless instructions to the contrary are marked, or if no instructions are specified, shares represented by proxies will be voted:

Edgar Filing: ADA-ES INC - Form DEF 14A

FOR the persons nominated by the Board for directors, being Robert N. Caruso, Michael D. Durham, John W. Eaves, Derek C. Johnson, Ronald B. Johnson, W. Phillip Marcum, Mark H. McKinnies, Jeffrey C. Smith and Richard J. Swanson; and

FOR the ratification of the selection of Ehrhardt, Keefe, Steiner & Hottman PC as the Company's independent auditors for the fiscal year ending December 31, 2008.

We do not know of any other matter or motion to be presented at the Meeting. If any other matter or motion should be presented at the Meeting upon which a vote must be properly taken, the persons named in the accompanying form of proxy intend to vote such proxy in accordance with that person's judgment, including any matter or motion dealing with the conduct of the Meeting.

Any shareholder who completes a proxy may revoke it at any time before it is exercised by delivering written notice of such revocation to the Company (c/o Mark H. McKinnies, Secretary), 8100 SouthPark Way, Unit B, Littleton, Colorado, 80120, by submitting a new proxy executed at a later date, or by attending the Meeting and voting in person.

The Company will pay solicitation expenses. In addition to solicitation by mail, our directors, officers and other employees may, without additional compensation, solicit proxies by mail, in person or by telecommunication.

PROPOSAL 1**ELECTION OF DIRECTORS**

Our Board of Directors, or Board, presently consists of nine members. The Board of Directors has nominated nine directors for re-election by our shareholders. Each director will hold office until the next Annual Meeting of Shareholders and thereafter until a successor is elected and has qualified. Cumulative voting is not permitted in the election of directors. IN THE ABSENCE OF INSTRUCTIONS TO THE CONTRARY, THE PERSON NAMED IN THE ACCOMPANYING PROXY WILL VOTE IN FAVOR OF THE ELECTION OF THE FOLLOWING PERSONS NAMED AS OUR NOMINEES FOR DIRECTORS: ROBERT N. CARUSO, MICHAEL D. DURHAM, JOHN W. EAVES, DEREK C. JOHNSON, RONALD B. JOHNSON, W. PHILLIP MARCUM, MARK H. MCKINNIES, JEFFREY C. SMITH and RICHARD J. SWANSON.

Each of the nominees has consented to be named herein and to serve if elected. It is not anticipated that any nominee will become unable or unwilling to accept nomination or election, but if such should occur, the persons named in the proxy intend to vote for the election in his stead of such other person as the Board may recommend. It is the policy and practice of the Company that all directors attend the Meeting. All eight of our directors serving at the time of our 2007 Annual Meeting of Shareholders attended the meeting.

PROPOSAL 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

RELATIONSHIPS WITH INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Ehrhardt Keefe Steiner & Hottman PC (EKS&H) served as the Company's independent registered public accounting firm for fiscal year 2007 and has performed procedures related to the financial statements included in our quarterly reports on Form 10-Q, beginning with and including the quarter ended June 30, 2007. Hein & Associates, LLP (Hein) served as the Company's independent registered public accounting firm for fiscal years 2006 and 2005 and performed procedures related to the financial statements on Form 10-Q of the quarter ended March 31, 2007.

On May 14, 2007, Hein informed the Audit Committee of our Board of Directors that they would decline to stand for re-election as our independent registered public accounting firm for the fiscal year ended December 31, 2007. The Audit Committee approved the decision to change accountants on May 15, 2007. EKS&H was engaged on May 15, 2007 by the Audit Committee and ratified by the Board on May 16, 2007.

The reports of Hein on the financial statements of the Company as of and for the years ended December 31, 2005 and 2006 did not contain an adverse opinion or a disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles.

During fiscal years 2005 and 2006 and the subsequent interim period through May 14, 2007 (date of decline of re-election), there were no disagreements with Hein on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Hein, would have caused Hein to make a reference to the subject matter of the disagreements in connection with its reports on our consolidated financial statements for any such periods, except for a disagreement with Hein as to our initial determination that consolidation of our joint venture with an affiliate of NexGen Resources Corporation (NexGen), which transferred a 50% interest in our refined coal technology to a limited liability company called Clean Coal Solutions, LLC (Clean Coal), was not required pursuant to FIN 46R. Hein also did not agree with our initial determination that the sale of joint venture units in Clean Coal to NexGen was properly recorded as a divestiture where recognition of gain was appropriate.

As a result, in the fourth quarter of 2006, we sought guidance from the SEC Staff and engaged EKS&H to assist us in the application of GAAP (including FIN 46R) to the accounting treatment of the NexGen joint venture transaction and related payments. Discussions among members of the Audit Committee, Hein, EKS&H, the SEC Staff and us were held to resolve the issues, and reach agreement regarding the accounting treatment for the joint venture and related payments we received, to be included in our financial statements for the fiscal year ended December 31, 2006. Resolution of these issues was reached to Hein's satisfaction. Hein has furnished us with a letter addressed to the SEC stating that it agrees with the above statements. Such letter is filed as Exhibit 16.1 to our Current Report on Form 8-K dated May 31, 2007.

During the fourth quarter of 2006, EKS&H provided certain accounting consultation services to us relating to the application of certain GAAP requirements related to revenue recognition and our Form 10-K disclosures for the year ended December 31, 2006.

In addition, during the first quarter of 2007, EKS&H provided certain accounting consultation services to us relating to our initial adoption of FIN 48 accounting for uncertain tax position rules, including review of related disclosures in our March 31, 2007 Quarterly Report on Form 10-Q. We did not consult with EKS&H during our fiscal year ended December 31, 2005. No consulting services other than as stated above were provided to us by EKS&H during the year ended December 31, 2006 or prior to EKS&H's appointment as our independent registered public accounting firm regarding (i) the application of accounting principles to a specified transaction, either completed or proposed or the type of audit opinion that might be rendered on our consolidated financial statements, and neither a written report was provided to us nor oral advice was provided that EKS&H concluded was an important factor considered by us in reaching a decision as to an accounting, auditing or financial reporting issue; or (ii) any matter that was either the subject of disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions) or a reportable event (within the meaning of Item 304(a)(1)(v) of Regulation S-K).

Shareholder ratification of the selection of EKS&H as our independent auditors as requested in Proposal 2 is not required by our bylaws or otherwise. The Board is submitting this proposal to the shareholders for ratification as a matter of good corporate practice. If the shareholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain this firm. We anticipate that a representative of EKS&H, who conducted the audit for the year ended December 31, 2007, will be present at the Annual Meeting of Shareholders. There have been no disagreements on matters of accounting principles or practices, financial statement disclosures or audit scope or procedures between the Company and EKS&H, during the most recent fiscal year or any subsequent interim period. The representative of EKS&H will be available to respond to shareholder questions and will have the opportunity to make a statement at that time if the representative desires to do so. We do not expect that any representatives from Hein will attend our Annual Meeting.

Audit Committee Approval of Services

The Audit Committee pre-approves all audit or non-audit services performed by our independent accountant in accordance with Audit Committee policy and applicable law. The Audit Committee generally provides pre-approval of audit services and services associated with SEC registration statements, other SEC filings and responses to SEC comment letters (Audit Fees) and services related to internal control reviews, internal control reporting requirements and consultations with our management as to accounting or disclosure treatment of transactions or events and the impact of rules, standards or interpretations by the SEC and other regulatory or standard-setting bodies (Audit-Related Fees) for each 12-month period within a range of approved fees. To avoid certain potential conflicts of interest, the law prohibits us from obtaining certain non-audit services from our independent accountant. The Audit Committee has delegated authority to approve permissible services to its Chairman. The Chairman reports such pre-approvals to the full Audit Committee at its next scheduled meeting. The Audit Committee pre-approved 100% of the services provided by the independent accountants in 2007. None of the services of the independent accountants in 2007 were of the type specified in Rule 2-01(c)(7)(i)(C) of Regulation S-X.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Our philosophy for executive compensation is set forth in a document entitled ADA-ES Executive Compensation Plan (the EC Plan) which was adopted by the Board on November 4, 2004. The EC Plan applies to the Executive Team, which includes the President/Chief Executive Officer, the Chief Operating Officer, the Chief Financial Officer, and all Vice Presidents of the Company. Executives become eligible to participate in this plan after completing 12 months of continuous service with ADA-ES. Participation may be modified based on the Board's approval.

The ADA-ES compensation philosophy was designed to support our goals in creating a reputation that can be leveraged to build our business and reward shareholders, executives and employees. The business goals include: creating a steady stream of new and profitable products; developing sustainable, return business; becoming the first company called for pollution control jobs; becoming a household name in the utility industry; and ensuring a reputation for outstanding service and value to customers. Compensation goals include: linking the interests of shareholders with the interests of executives; maintaining a reliable link to the market; giving the organization access to quality candidates; and providing pay recognition for executives as a result of business success.

Executive compensation decisions are based on these considerations:

Leveraged Reputation Goal

Creating a steady stream of new and profitable products and chemicals,

Developing sustainable, return business

Becoming the first company called for pollution control jobs

Executive compensation generally consists of three elements: base salary, performance incentives and equity awards. The Compensation Committee does not have specific policies for allocating between cash and non-cash compensation.

Quantitative/Qualitative Performance Metric

Product performance and effectiveness

Reported revenue and net income

Utility industry and sorbent industry market share

The Compensation Committee establishes the base salary for all executive officers. The CEO makes recommendations as to base salary of all other executive officers to the Committee. Base salary is defined as ongoing, cash compensation paid bi-weekly based on such factors as job responsibilities, external competitiveness, and the individual's experience and performance. Pay ranges are set based on the local market for similar positions, with consideration given to national rates of pay for employees serving similar functions in comparable companies. Base salary is typically increased annually based on cost of labor/living increases. In determining appropriate merit increases, we consider the actual market change for various job families in addition to published local CPI-U data. The market change is determined by tracking the year-over-year change in the median rate for a given position or job family using regional salary surveys. In 2007, the Compensation Committee approved an additional increase in the compensation of the Chief Executive Officer based on comparable rates of pay in the market for his position and in the compensation of the Chief Operating Officer based on comparable rates of pay and compensation of those employees who report to her. ADA-ES attempts to ensure middle market pay for solid performers and consider higher levels of pay for outstanding performers. ADA-ES does not intend to be a market leader in base compensation. A decision to materially increase or decrease compensation would be based on the aforementioned factors. Any gains or losses realized from prior option and stock awards were considered in establishing compensation levels in 2007, but were not considered in prior years.

The Compensation Committee engaged Mountain States Employers Council (MSEC) to assist in the design and application of the EC Plan. MSEC advised on the appropriateness of bonus levels for executive positions and provided assistance in setting the weight for metrics and in modeling the EC Plan. We also use compensation survey information from MSEC and Watson Wyatt to determine appropriate pay ranges. We do not benchmark compensation based on any reports.

Annual performance incentives are designed to motivate the management team to achieve critical short-term goals, typically one to two years, which are expected to contribute to the long-term health and value of the organization. Incentives may be paid in cash or equity as determined by the Board. We expect that for the next few years, payment will be primarily in stock, either through options or restricted shares.

Incentive amounts are set based on organization level and market practices. The performance metrics under the EC Plan focus on specific business objectives set during the first half of each year. Objectives are those quantitative metrics, such as revenue, EBITDA, or market share, which management and the Board determine are most important to the short and long term health and value of the organization. Potential incentive amounts for 2006, 2007 and 2008 performance were established at 50% and 40% of base salary for the CEO and other members of the executive team, respectively.

In 2004, we adopted the Executive Stock Option Plan (the 2004 ESO Plan) discussed below, and granted all 200,000 options authorized under such plan to our then five executive officers, expecting to utilize the acceleration of vesting of such options, for so long as they are available, as the means for the next several years to pay any incentive amounts earned by the executive officers pursuant to the EC Plan who are also covered in the 2004 ESO Plan. To determine the value of each vested option share considered for accelerated vesting, the exercise price of \$8.60 per share, which was the fair value on the date of grant, was subtracted from the average closing stock price for the month of December of that year. As a result, for the fiscal years 2005 and 2006 options were vested in payment of incentive amounts earned for those years. No incentive amounts were earned under our EC Plan by any of the executive officers in 2007. Accordingly, no options were vested in payment of incentive amounts for 2007, which leaves 117,234 options available for vesting for future incentive payments. We have not granted options to the executive officers who received options under the 2004 ESO Plan since 2004. We generally grant options or restricted stock awards to new executives at the Board meeting following the commencement of employment. Mr. Miller was awarded 13,000 options at the Board meeting following his date of hire in December 2005 under the 2003 Plan described below. Our share-based compensation, including options granted under the 2003 Plan and the 2004 ESO Plan, is accounted for under the Statement of Financial Accounting Standards No. 123R (See Footnote 1 to the Consolidated Financial Statements included in Item 8 of our Form 10-K for the year ended December 31, 2007).

Summary of vested shares from the 2004 ESO Plan:

	Shares	Average Market Price in December	Option Exercise Price
Shares on January 1, 2005	172,920		
2005 Vested	38,428	\$ 16.42	\$ 8.60
2006 Vested	17,258	\$ 15.98	\$ 8.60
2007 Vested		\$ 7.98	
Shares on December 31, 2007	117,234		\$ 8.60

Options granted under the 2004 ESO Plan are considered non-qualified stock options (NQSO). A recipient is required to pay ordinary income tax on the difference, or spread, between the grant price and the stock's market value when he purchases (exercise) the shares. A loss may not be recognized if the grant price is greater than the exercise price. The greater of the grant price or the market value at the exercise date (the amount used for calculating the amount of ordinary income to be taxed, if any) becomes the tax basis of the stock for calculating future gains and losses upon disposition or transfer of the stock. A disposition of NQSO stock generally refers to any sale, exchange, gift or transfer of legal title of stock, including a transfer from a decedent who held NQSO stock to an estate, a transfer by a bequest or inheritance, or any transfer of NQSO stock between spouses or incident to a divorce. Any subsequent appreciation or decline in the stock is taxed at capital gains/loss rates when the stock is disposed of. If the NQSO stock is held for more than a year, the long-term capital gain/loss rate will apply. If the NQSO stock is held for one year or less, any gain or loss is short-term and generally taxed as ordinary income. The Compensation Committee chose NQSOs as a means for the next several years to pay any incentive amounts earned by the executive officers pursuant to the EC Plan because it believed such options aligned the interests of the executive officers with the interest of our shareholders, provided potential additional value from appreciation and allowed the recipient to determine the timing of tax consequences from the award. From a practical standpoint, such an approach does not work if the market price of the stock is at or near the option exercise price.

The Compensation Committee uses the performance metrics as guidelines and may exercise discretion in determining incentives awarded. In prior years, the Compensation Committee/Board of Directors has elected to increase individual incentives awarded for specific performance beyond that measured by the metrics. In 2006, the Compensation Committee/Board of Directors elected to exclude certain costs associated with the sale of joint venture interest in the determination of the net income before tax metric given that the \$1,000,000 payment for such interest was recognized as an equity transaction rather than revenue. Specific metrics to measure executive performance for 2007 were established by the Compensation Committee in the first half of 2007 and are shown in the following table. Performance metrics for 2008 were established in April 2008. The Compensation Committee reviewed the 2006 and 2007 performance metrics to determine if changes were needed for 2007 and 2008, respectively. The review centered on the appropriateness of the metrics and the weighting to be applied to each metric. The Committee determined that new metrics and weighting would be established for 2007 and 2008 given the changes in the Company's business model and focus on development of its own activated carbon manufacturing facility. In addition, with respect to 2008 performance, the Committee emphasized that the metrics would serve as guidelines and not as the sole basis for the granting of performance awards under the EC Plan, as other factors may be appropriate to consider in making final awards after the end of the year.

- (1) Metric for 2007 was revenue growth, and metric for 2008 is revenue and backlog.
- (2) For 2008, our stock price will be compared to the peer group used for our stock price performance graph in our annual report to shareholders.
- (3) The metrics include both objective (i.e. revenue growth, EBITDA, stock price appreciation, AC capabilities, development of technology) and subjective (i.e., market share and for 2007, industry partner and customer relations) measurements. For the most part the objective goals are measured against the Company's approved budget and planned schedule. The Committee and management considered all of the goals established for 2007 as aggressive but attainable stretch goals. The actual earned percentage of the potential incentive amounts for 2007 was determined based on the following table that translates the measured metric performance to a percentage of the potential incentive. Based on that determination there was no earned incentive amount for 2007. The Compensation Committee did, however, determine that a discretionary award for 2007 was appropriate based on management's performance in advancing the Company's activated carbon manufacturing plan. Accordingly, in January 2008, the Committee awarded the seven executive officers of the Company a discretionary incentive of 5% of each executive's base salary, which totaled \$56,300 and was paid in 2008 in a combination of fully vested stock issued pursuant to the 2007 Equity Incentive Plan (the "2007 Plan") discussed below and cash (the "2007 Discretionary Award"). The individual recipients were given the option to receive as much as 30% of their award in the form of cash to help offset the tax impact of the issuance of the stock.

The incentive scale table and guidelines for 2007 and 2008 are set forth below. As shown in the table for 2007, no incentive was paid for performance below 80% and as much as 150% of the potential incentive amount could have been paid for performance of 110% of the goals. For 2007, performance measured by the metrics was approximately 54%, which was below the performance floor.

Annual incentives for the CEO and the other executive officers as a group are established by the Compensation Committee in January or February of each year with respect to the previous year's performance. The CEO will have discretion to allocate the incentive pool set by the Committee to the other executive officers, subject to final approval by the Committee over such allocations. Annual incentives, if any, are planned for payment by February 28th of the calendar year following the incentive period. Incentives paid in cash are subject to payroll taxes. These incentives can be deferred and paid to a designated beneficiary, although that has not been the case with any incentives awarded thus far.

From time to time the Board may recognize exemplary performance of any executive with a cash or stock award. Exemplary performance is performance that the Board determines to have required significant effort and commitment and is determined to have had a significant positive impact on the current or future performance of the organization. No such payments were made in 2007.

The use of equity payments, such as using accelerated vesting of options granted under the 2004 ESO Plan to make incentive payments and the award of stock-based incentives for achieving specific project milestones, is intended to link short-term success to long-term performance and decision making, and to align management and shareholder interests. Payments may be made in restricted shares or options, as determined by the Board, considering accounting and regulatory restrictions, and the financial condition of the Company. The stock portions of the 2007 Discretionary Award are shown below in the Summary Compensation table under the Stock Award column.

Incentive Program for Certain Executive Management Relating to the Greenfield Activated Carbon Production Facility Project

In March 2008, the Compensation Committee and the Board approved an incentive program (the Greenfield Incentive Program) pursuant to the 2007 Plan under which 172,500 shares of ADA-ES common stock were reserved for award to four of our executive officers and an independent consultant as an incentive for the executives and the consultant to work diligently to attain certain milestones related to progress on the development, construction and operation of our planned Greenfield activated carbon production facility. A set number of shares are reserved for award to each recipient, and a portion of those shares will vest upon attainment of each defined milestone. In no event will the shares attributable to a milestone ever vest in the recipient if the milestone is not attained by a certain date.

Each milestone has a target date by which the milestone is intended to be satisfied. The number of shares that become eligible for vesting diminishes by five percent (5%) of the number committed to a particular milestone for each month after the target date that the milestone remains unsatisfied. Therefore, if a particular milestone remains unsatisfied for twenty months after its target date, no shares will ever vest for that milestone and all shares attributed to that milestone will be eligible for repurchase by the Company for \$.01 per share.

The recipients of awards under the Greenfield Incentive Program, and the number of shares reserved for awards to each, are as follows: Michael Durham 57,500 shares, Mark McKinnies 46,000 shares, C. Jean Bustard 46,000 shares, Richard Miller 11,500 shares and Financial Consultant 11,500 shares.

Share awards were authorized in March 2008 to the maximum extent possible for each recipient under the 2007 Plan, and additional awards will be available for award in 2009 to the extent that the number of reserved shares had not been granted in 2008, and the recipient remains as an employee or consultant to the Company and is actively working on the Greenfield project. Such additional awards are at the discretion of the Compensation Committee.

Each recipient can request that we purchase up to 35% of the shares upon vesting for the fair market value of the shares (as defined in the 2007 Plan) to assist the recipient with tax obligations that may be owing at the time of vesting. The determination as to whether to purchase such shares rests solely in our discretion.

Stock Price Incentive Program for Certain Executive Management

In April 2008, the Compensation Committee established a Stock Price Incentive Program, for which 100,000 shares were reserved under the 2007 Plan. Any or all of the shares may be granted to executive officers, but as of this time, no awards have been made and no determination has been made as to which executive officers, if any, will be awarded shares or how many shares will be awarded. The restricted stock expected to be awarded pursuant to such program will vest on the day after the price (based on last sale price for a trading day) of our common stock has equaled or exceeded \$35.00 a share for 20 consecutive trading days, provided such pricing occurs on or before April 15, 2011.

Other Aspects of Executive Employment

There is no severance pay policy or other benefits payable after termination for any executive. See Employment Contracts and Termination of Employment and Change-in-Control Arrangements below regarding executives' obligations after termination.

In the event of a restatement of income, any over-payments made to executives may be reclaimed at the discretion of the Board of Directors.

In 2006 we obtained key man term insurance for our CEO, COO and CFO in the amount of \$2 million for each individual. The policies may be assigned to the individuals upon termination of employment other than for cause whereupon the executive would be responsible for any premium payments.

Executives are encouraged to own a number of shares of stock equal to a value of at least one (1) times the annual base salary as a condition of continued employment with ADA-ES. Executives have five (5) years from the later of November 4, 2004 (the date the EC Plan was adopted) or the date of hire/promotion to accomplish this level of ownership. Ownership is calculated considering holdings of restricted stock, whether or not the restrictions have expired, private holdings, and shares held in retirement accounts. Holding of options also will be considered in the ownership calculation by adding the value of the spread of in-the-money options to the total value of other holdings. The Compensation Committee reviewed executive equity ownership against the ownership goals for our executives in May 2007.

After ownership requirements have been met, executives may sell unrestricted stock they have owned for a period greater than 12 months, and may exercise vested stock options and sell shares to pay for the exercise price and withholding tax, except as otherwise provided for in the underlying stock option agreement. The Company must be advised of any sale of stock options or shares of stock at least 30 days in advance or the executive must be engaged in a pre-announced program sale in compliance with federal securities laws, and such sales must be made in compliance with our insider trading policy.

Executives leaving the Company may be required to hold their stock in the Company for at least 6 months after leaving the Company.

Executives may also be eligible to participate in the Company's Profit Sharing Plan (PSP). For fiscal 2006 the profit sharing pool was established as twenty-four percent (24%) of net earnings before taxes, investment income and certain other adjustments at the end of the fiscal year. In February 2007 the Compensation Committee and Board approved a total payment of \$147,000 for 2006 performance based on reported net earnings and also approved an additional \$100,000 discretionary bonus, which would have been earned under the PSP if the costs associated with the sale of the joint venture interest to NexGen had been excluded for the calculation of net earnings. The Committee and Board considered such exclusion appropriate given the significance to the Company of the \$1,000,000 payment received from NexGen although it was not recognized as revenue.

For fiscal 2007 the final profit sharing pool was established as a set dollar amount equivalent to approximately 4% of the base compensation of eligible employees. In February 2008 the Compensation Committee/Board of Directors approved a total payment of \$141,700 for 2007.

The pool is distributed to our eligible employees in February of each year as follows:

1. Retirement Plan (50%)
2. Company-Wide Distribution (20%)
3. Performance Based Distribution (30%)

Retirement Plan (50%): This portion of the PSP is distributed among our employees based on meeting the participation requirements in our current qualified Retirement Plan described below. Individual distributions are pro-rated as a percent of total compensation as required by the Retirement Plan. The distribution may be made in either stock or cash at the Board's discretion. Vesting rules as outlined in the current PSP (described below) apply for these distributions to employees. Employees with less than a year of service and temporary employees, as defined in the PSP, are not eligible for this portion of the pool.

Company-Wide Distribution (20%): This portion of the PSP is distributed evenly among all of our full-time permanent employees with pro-rated distributions for partial years of service. Employees terminated during the year forfeit eligibility for this portion of the PSP. An early distribution of this portion of the PSP was offered in December 2007 to those employees electing it.

Performance Based Distribution (30%): This portion of the PSP is distributed to all of our permanent full-time and part-time employees on a performance-based basis. Employees terminated during the year forfeit eligibility for this portion of the PSP. Employees are evaluated semi-annually by their direct supervisor based informally on criteria that may also be used in the formal performance appraisal, which is generally conducted annually. The current criteria that may be used for the evaluation includes, but is not limited to, job knowledge; communications; attitude and cooperation; leadership; planning, judgment and resourcefulness; and initiative and responsibility. The following rating system is used for each criterion: 1 Point - Poor Performance, 2 Points - Improvement needed, 3 Points - Achieving Expectations, 4 Points

- Exceeding Expectations, and 5 Points - Excellent Performance.

The employee's supervisor completes the rating form, with input from project managers or other personnel to whom said employee supports. Should an employee receive an average rating for the two rating periods in 2007 of lower than 2.0, the employee is not eligible to receive any performance-based distribution. Distributions are made based on the average rating and weighted by the commercial rates that we would charge out an individual's time to customers in effect at the end of the fiscal year.

Amounts paid directly to the named executives for the performance-based and company wide portions of the PSP are shown below in the Summary Compensation Table in the Non-Equity Incentive Plan Compensation column. The retirement plan distributions paid from the PSP pool are deposited to pension accounts under our Retirement Plan, a tax-qualified defined contribution plan, and are included in the amounts shown in that same table below in the All Other Compensation column.

Our Retirement Plan covers all eligible employees. Pursuant to that plan, we make matching contributions to each eligible employee's account up to 5% (7% commencing in 2008) of the employee's eligible compensation, and may make, at the discretion of the Board, contributions based on the profitability of the Company to those accounts. Investments in an employee's account may be made in stocks, bonds, mutual funds and other investments permitted by the Plan's administrator.

Employee contributions to the plan are 100% vested. Company contributions become 100% vested if an employee's employment ends after the date such employee attains normal retirement age (age 65), dies or becomes disabled. If an employee's employment is terminated prior to the date the employee attains normal retirement age (65) or dies or becomes disabled, the employee will become vested in the Company's matching contributions and any profit sharing contributions pursuant to the PSP according to the schedule below:

2	20%
3	40%
4	60%
5	80%

The following table shows compensation during the fiscal years ended December 31, 2007, 2006 and 2005, of those persons who were, at December 31, 2007, our principal executive officer (PEO), principal financial officer (PFO) and the three most highly compensated executive officers other than the PEO and PFO (collectively, named executive officers or NEOs) of ADA-ES whose total compensation exceeded \$100,000. The structure of pay for each NEO is the same, although as noted above the base for the potential performance incentive amount for the PEO was established at 50% of base pay for the years shown below and 40% for other NEOs.

Nonqualified Deferred Compensation

Although our EC Plan allows for deferrals of payment the Company does not currently have any deferred compensation plans that apply to the NEOs.

Employment Contracts and Termination of Employment and Change-in-Control Arrangements

We have executed employment agreements with every full-time employee, including our executive officers. The agreements with all of our executive officers contain the following provisions:

1. Description of position, duties, authority, compensation, benefits and obligation of the employee to devote full time to the fulfillment of his/her obligations under the agreement.
 2. Obligations to disclose and Company ownership of inventions and confidential subject matter, which obligations survive for two years after termination of employment.
 3. Assignment of inventions, obligations regarding inventions and confirmation of no Company obligation to commercialize inventions, all of which survive after termination of employment.
 4. Acknowledgement that copyright works are works for hire and obligation of employee to maintain written records of all inventions and confidential subject matter.
 5. Restrictive obligations relating to confidential subject matter, which survive after termination of employment.
 6. Acknowledgement and agreement regarding no conflicting obligations and obligations upon termination of employment.
- The agreements with our Chief Executive Officer, Chief Operating Officer and Chief Financial Officer also contain the following provisions:

1. Automatic extensions for one-year periods unless previously terminated with appropriate advance notice.
2. Three months prior written notice of intent to terminate by either the Company other than for cause, death or permanent disability or the employee.

Edgar Filing: ADA-ES INC - Form DEF 14A

The compensation amounts included in the employment agreements are subject to annual adjustment and the compensation levels for the named executive officers are shown in the tables above. None of our employment contracts or other agreements contain any provisions for the payment of any amounts that result from or will result from the resignation, retirement or any other termination of any executive officer's employment with us or from a change-in-control of the Company or a change in the named executive officer's responsibilities following a change-in-control except as described below.

Under our stock incentive plans, unless otherwise provided in a stock option agreement, options held by a director, executive or employee are exercisable after such person's death or permanent disability without regard to any vesting requirements of such options.

Upon, or in reasonable anticipation of, a change in control of the Company, approved incentive compensation awards under the PSP may be made for the incentive period during which the change in control occurs, and then paid immediately to a trustee on such terms as our Chief Financial Officer deems appropriate (including such terms as are appropriate to cause such payment, if possible, not to be a taxable event to the executive). The incentive compensation awards may be paid to executives either not later than the end of the first calendar quarter following the end of the calendar year to which the incentive compensation awards relate, or on a deferred basis in accordance with the elections of the executives affected as to the timing of the receipt of incentive compensation awards for such period. Executives who are eligible to receive an incentive compensation award for the incentive period in which a change in control occurs may be eligible to receive incentive compensation awards for the incentive plan year following the change in control.

Guidelines for determining the amount of the incentive compensation award payable to each executive include:

One-half of the maximum incentive compensation award payable (reduced as deemed appropriate by the Compensation Committee of the Board of Directors and approved by the Board of Directors, if applicable) to the executive if the change in control occurs during the first six months of the calendar year; or

The full maximum incentive compensation award payable (reduced as deemed appropriate by the Compensation Committee and approved by the Board, if applicable) to the executive if the change in control occurs during the second six months of the calendar year.

Compensation Committee Report

The Compensation Committee has reviewed the Compensation Discussion and Analysis and discussed it with management. Based on its review and discussions with management, the Committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and our Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

The Compensation Committee: Ronald Johnson, Chairman Robert Caruso John Eaves
Richard Swanson Jeffrey Smith

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our officers and directors and persons who beneficially own more than ten percent of a registered class of our equity securities to file reports of ownership with the SEC. Officers, directors and greater than ten percent shareholders are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file.

Based solely on our review of the copies of such forms received by us, or written representations from certain reporting persons, we are aware of the following delinquent filings: Richard Miller failed to file a Form 4 reporting a purchase of shares but this was corrected on Form 5, Cameron Martin was late in filing an initial Form 3, C. Jean Bustard was late in reporting two sales of shares on Form 4, Jeff Smith was late in reporting a purchase of shares on Form 4 and Ronald Johnson was late in reporting a sale of shares on Form 4. In addition, Ms. Bustard's Form 4 filing to report an option exercise inadvertently failed to report 200 options that were exercised; Mr. Durham's Form 5 filing inadvertently failed to report 1000 shares gifted, and Mr. McKinnies' Form 5 and Form 4 filings reported inaccurate totals; all of these have been corrected in subsequent filings.

DIRECTOR COMPENSATION

Our Nominating and Governance Committee has responsibility for reviewing the compensation plan for our non-management directors annually and making recommendations to the entire Board for approval. The Committee has not delegated authority to any other person to determine director compensation. Our executive officers have not had any role in recommending the amount or form of director compensation, except that Mr. McKinnies, our Chief Financial Officer, has made recommendations to the Committee regarding the form of compensation (i.e. cash or stock) and tax and accounting ramifications of awards. In addition, the two executive officers who serve on our Board vote on the recommendations for director compensation made by the Committee to the Board. In 2007, the Committee reviewed industry data from the Mountain States Employers Council, Watson Wyatt Data Services Reports and the National Association of Corporate Directors 2006-07 Director Compensation Report and Survey Data and has sought the input of representatives of such Council on its compensation structure and amounts. Mountain States Employers Council has been engaged by the Compensation Committee and has assisted with the design and application of the EC Plan. MSEC advised on the appropriateness of incentive levels for executive positions and provided assistance in setting the weight for metrics in modeling the EC Plan.

Each non-management director is entitled to receive an \$18,000 per fiscal year retainer payable in stock and cash and options to acquire 5,000 shares of our common stock upon initial appointment or election to the Board. Prior to September 2007, director stock compensation was capped at 1,000 shares per year. In September 2007, the annual retainer was changed to allow directors to elect to receive up to 50% of their annual retainer in cash, with the balance payable in shares of common stock. Our directors also receive \$1,000 per Board meeting and \$500 per Board Committee or telephonic Board meeting. In addition, the Chairman of the Board and Chairman of the Audit Committee receive \$3,000 per year, the Chairman of the Compensation Committee receives \$2,000 per year, and the Chairman of our Nominating and Governance Committee receives \$1,000 per year for their services in such positions. These amounts are all paid in cash.

We have maintained directors and officers insurance coverage for our directors and executive officers since May 2006. The annual cost of such coverage is approximately \$110,000.

STOCK INCENTIVE PLANS

During 2003, the Company adopted the 2002 ADA-ES, Inc. Stock Option Plan, which was originally referred to as the 2002 Stock Option Plan (the 2003 Plan), and reserved 400,000 shares of Common Stock for issuance under the plan. In general, all options granted under the 2003 Plan expire ten years from the date of grant unless otherwise specified by the Company's Board. The exercise price of options was determined by the Compensation Committee of the Board at the time the option was granted of not less than 100% of the fair market value of a share of our Common Stock on the date the option is granted. During the first quarter of 2006, 19,900 options were granted under this plan. This plan was

Edgar Filing: ADA-ES INC - Form DEF 14A

replaced by the 2007 Equity Incentive Plan described below, and as a result, 148,506 shares of Common Stock that were originally reserved for issuance upon exercise of options grantable under the 2003 Plan were removed from the 2003 Plan. As of December 31, 2007, 86,362 options remained outstanding and 84,237 options were exercisable.

During 2004, we adopted the 2004 ESO Plan, which did not require shareholder approval. The 2004 ESO Plan authorized the grant of up to 200,000 options to purchase shares of our common stock to our executive officers. The 2004 ESO Plan is intended

to promote our growth and profitability by awarding options to purchase our common stock in exchange for services performed and to be performed in the future. Options granted under the 2004 ESO Plan are generally intended to be non-qualified stock options (NQSO) for federal income tax purposes. The 2004 ESO Plan is administered by our Compensation Committee. In general, the exercise price of an option will be determined by the Compensation Committee at the time the option is granted and will not be less than 100% of the fair market value of a share of our common stock on the date the option is granted. Under the 2004 ESO Plan, the grant of options is limited to 60,000 per individual. The options are exercisable over a 10-year period based on a vesting schedule, typically between 5% and 20% per year, which may be accelerated based on performance of the individual recipients as determined by our Compensation Committee. During 2004, all 200,000 options were granted under the 2004 ESO Plan to five executive officers, each of whom is a full-time employee. In January 2005 and 2006 and in February 2007, our Compensation Committee authorized the accelerated vesting of 27,080 options, 38,428 options, and 17,258 options, respectively, under the 2004 ESO Plan based on performance metrics in the EC Plan that were met and other discretionary amounts. No accelerated vesting was authorized for 2007 performance as noted above. During 2007, 7,057 previously vested options were exercised. As of December 31, 2007, 49,429 options were exercisable.

During 2004, we adopted the 2004 Stock Compensation Plan #2 (the 2004 Plan) for the issuance of shares and the grant of options to purchase shares of our common stock to our non-management directors. The 2004 Plan was approved by our shareholders at our 2005 Annual Meeting. The 2004 Plan is intended to compensate our non-management directors by awarding shares and options to purchase shares for services they rendered during 2004 and 2005 and will continue to render in subsequent years. The 2004 Plan provided for the award of 603 shares of our common stock per individual non-management director (4,221 shares in total), and the grant of 5,000 options per individual non-management director (35,000 in total), all of which were formally granted and issued in 2005 after approval of the 2004 Plan by our shareholders. The stock awards and vested portion of the stock option grants to non-management directors represent a portion of compensation for services performed from October 2004 through September 2005. The option exercise price of \$13.80 per share for the stock options granted on November 4, 2004 was the market price on the date of the grant. The options are exercisable over a period of five years and will vest over a three-year period, one-third each year for continued service on the Board. If such service is terminated, the non-vested portion of the option is forfeited. In 2006, 15,000 of such options were forfeited after the resignation of three directors. During 2007, 985 of such options were exercised and 4,015 of options were forfeited after the death of a director. As of December 31, 2007, two-thirds of the remaining outstanding options, or a total of 8,333 options, vested and are exercisable.

During 2005 we adopted the 2005 Directors Compensation Plan (the 2005 Plan), which authorized the issuance of shares of common stock and the grant of options to purchase shares of our common stock to non-management directors. The 2005 Plan was approved by our shareholders at the 2005 Annual Meeting. The 2005 Plan is intended to advance our interests by providing eligible non-management directors an opportunity to acquire or increase an equity interest in the Company, create an increased incentive to expend maximum effort for our growth and success and encourage such eligible individuals to continue to service the Company. The 2005 Plan provides a portion of the annual compensation to our non-management directors in the form of awards of shares of common stock and vesting of options to purchase common stock for services performed for the Company. Under the 2005 Plan, the award of stock is limited to 1,000 shares per individual per year, and the grant of options is limited to 5,000 per individual in total. The aggregate number of shares of common stock reserved for issuance under the 2005 Plan totals 90,000 shares (50,000 in the form of stock awards and 40,000 in the form of options). The exercise price is the market price on the date of grant, the shares of common stock underlying the option will vest at a rate of no more than 1,667 shares per annual period per individual, and any unvested shares of Stock that are outstanding at the date the individual is no longer a director are forfeited. Shares may be issued and options may be granted under the 2005 Plan only to non-management directors of the Company or its subsidiaries.

The 2005 Plan will terminate ten years after the date of its adoption, if not earlier terminated by the Board. It may be amended, modified or terminated at any time if and when it is advisable in the absolute discretion of the Board, although certain amendments are subject to approval of regulatory bodies and our shareholders. No such amendment may adversely affect any options previously granted under the Plan without the consent of the recipient(s). The 2005 Plan is administered by a committee appointed by the Board, which currently consists of all Board members. In January 2006, the Board authorized the issuance of 1,000 shares of common stock to each of the seven non-management directors of the Company (a total of 7,000 shares of common stock) representing a portion of their compensation for the period from October 2005 through September 2006. In August 2006, the Board granted options to purchase 5,000 shares each or a total of 15,000 shares of common stock to the new directors representing a portion of their compensation, which vest at a rate of 33% per year. As of December 31, 2007, 5,000 options were exercisable.

During 2007, the Company adopted the 2007 Plan, which replaces the 2003 Plan. The 2007 Plan authorizes the issuance to employees, directors and consultants of up to 600,000 shares of Common Stock, either as restricted stock grants or to underlie options to purchase shares of our Common Stock. Under the 2007 Plan, the award of stock is limited to not more than 30,000 shares per individual per year with a maximum of 10,000 shares grantable in any year to non-management Directors. In general,

all options granted under the 2007 Plan will expire ten years from the date of grant unless otherwise specified by the Board. The exercise price for options granted under the 2007 Plan will be the market price on the date of grant and the shares of Common Stock underlying the option will vest on the passage of specified times following the date of grant, the occurrence of one of more events, the satisfaction of performance criteria or other conditions specified by the Board. As of March 31, 2008, no options have been granted under the 2007 Plan.

In September and December 2007, the Board awarded restricted stock under the 2007 Plan. All non-executive employees, certain officers and new employees were entitled to an award of restricted stock under the following conditions (1) employees that had not received stock options upon commencement of employment received a restricted stock award equal based on a percentage of their starting salaries, (2) employees that had received stock options upon commencement of employment had the option to exchange any remaining stock options outstanding for a restricted stock award based on their starting salary, and (3) employees with five or more years of service received a restricted stock award based on a percent of their current annual salary. The purchase price for restricted stock was \$0.01 per share and the restricted stock vests over a five year period on an annual basis or on attainment of specific milestones. In October 2007, seven employees opted to exchange 42,700 outstanding options for 3,389 shares of restricted stock. The exchange did not result in any stock option modification costs. Unvested shares of restricted stock are subject to forfeiture upon termination of employment with the Company. In September 2007, a total of 27,175 shares were granted with 502 shares vesting. In December 2007, 5,000 shares of restricted stock were awarded to a new employee upon commencement of employment in addition to the normal award based on a percentage of their starting salary, which vests over a two-year period. The stock based compensation related to the restricted stock award was \$7.76 per share. The total fair value of the grants was \$266,000. As of December 31, 2007, we recognized \$6,000 of compensation expense related to the vesting of restricted stock. In January 2008, 5,388 fully vested shares of stock were issued to seven executive officers in connection with the 2007 Discretionary Award. In March 2008, in connection with the Greenfield Incentive Program, 172,500 shares of our common stock were reserved for award, and 110,043 shares of restricted stock were granted, to four of our executive officers and an independent consultant.

In October 2007 the Board awarded stock, pursuant to the 2007 Plan to the Company's non-management directors in partial payment of fees for services provided from June 2007 through May 2008. A total of 8,044 shares were issued and are included in the Director Compensation table shown above.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

Review and Approval of Related Party Transactions

Our Board recognizes that related party transactions present a heightened risk of conflicts of interest and/or improper valuation (or the perception thereof) and therefore has adopted a written policy with respect to all related party transactions involving the Company. Under this policy, any related party transaction, as defined (which excludes transactions available to all employees generally and transactions involving less than \$5,000), may be consummated or may continue only if:

1. the Audit Committee has approved or ratified such transaction in accordance with the guidelines set forth in the policy and if the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party;
2. the transaction has been approved by the disinterested members of the Board; and
3. the compensation with respect to such transaction has been approved by our Compensation Committee.

Management must recommend any related party transactions it proposes that the Company enter into to the Audit Committee at its first regularly scheduled meeting each year. After review, the Audit Committee will approve or disapprove such transactions and at each subsequently scheduled meeting, management must update the Audit Committee as to any material change to those proposed transactions. If management recommends any additional related party transactions subsequent to such meeting, such transactions may be presented to the Audit Committee for approval or preliminarily entered into by management subject to ratification by such Committee. If the Audit Committee does not ratify the transaction, however, management must make all reasonable efforts to cancel or annul such transaction.

Any material related party transaction must be disclosed to our full Board and management must assure that all related party transactions are approved in accordance with any requirements of our financing or other agreements.
