**Notes to Schedule of Investments:**

- (1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2010, the value of these securities amounted to \$20,067,273 or 7.5% of net assets. These securities are determined to be liquid by the Advisor, unless otherwise noted, under procedures established by and under the general supervision of the Fund's Board of Directors.
- (2) Floating or variable rate security. The interest shown reflects the rate in effect at September 30, 2010.
- (3) As of September 30, 2010, security is not accruing interest.
- (4) Restricted security (Note 4).
- (5) Illiquid security.
- (6) Non-income producing security.
- EETC - Enhanced Equipment Trust Certificate.
- I/F - Inverse Floating rate security whose interest rate moves in the opposite direction of prevailing interest rates.
- I/O - Interest Only Security.
- PAC - Planned Amortization Class.
- P/O - Principal Only Security.
- REIT - Real Estate Investment Trust.
- SP ADR - Sponsored American Depositary Receipt. Shares of a foreign based corporation held in U.S. banks that are issued with the cooperation of the company whose stock underlies the ADR and entitles the shareholder to all dividends, capital gains and voting rights.
- TAC - Target Amortization Class.

See accompanying Notes to Schedule of Investments.

**TCW Strategic Income Fund, Inc.**

NOTES TO SCHEDULE OF INVESTMENTS SEPTEMBER 30, 2010 (UNAUDITED)

**Note 1 Significant Accounting Policies:**

TCW Strategic Income Fund, Inc. (the Fund) was incorporated in Maryland on January 13, 1987 as a diversified, closed-end investment management company and is registered under the Investment Company Act of 1940, as amended, and is traded on the New York Stock Exchange under the symbol TSI. The Fund commenced operations on March 5, 1987. The Fund's investment objective is to seek a total return comprised of current income and capital appreciation by investing in convertible securities, marketable equity securities, investment-grade debt securities, high-yield debt securities, options, securities issued or guaranteed by the United States Government, its agencies and instrumentalities ( U.S. Government Securities ), repurchase agreements, mortgage related securities, asset-backed securities, money market securities and other securities without limit believed by the Fund's investment advisor to be consistent with the Fund's investment objective. TCW Investment Management Company (the Advisor) is the investment advisor to the Fund and is registered under the Investment Advisers Act of 1940.

**Security Valuation:** Securities traded on national exchanges are valued at the last reported sales price or the mean of the current bid and asked prices if there are no sales in the trading period. Other securities which are traded on the over-the-counter market are valued at the mean of the current bid and asked prices. Short-term debt securities with maturities of 60 days or less at the time of purchase are valued at amortized cost. Other short-term debt securities are valued on a mark-to-market basis until such time as they reach a remaining maturity of 60 days, where upon they will be valued at amortized value using their value of the 61<sup>st</sup> day prior to maturity.

Securities for which market quotations are not readily available, including circumstances under which it is determined by the Advisor that sale or mean prices are not reflective of a security's market value, are valued at their fair value as determined in good faith under procedures established by and under the general supervision of the Fund's Board of Directors. There were no fair valued securities at September 30, 2010.

Fair value is defined as the price that a fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is utilized to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk—for example, the risk inherent in a particular valuation technique used to measure fair value and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Changes in valuation techniques may result in transfers in or out of an investment's assigned Level within the hierarchy. The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments and the determination of the significance of a particular input to the fair value measurement in its entirety requires judgment and consideration of factors specific to each security.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition, as well as changes related to liquidity of investments, could cause a security to be reclassified between Level 1, Level 2, or Level 3.

## Edgar Filing: TCW STRATEGIC INCOME FUND INC - Form N-Q

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

*Equity securities.* Securities are generally valued based on quoted prices from the applicable exchange. To the extent these securities are actively traded, valuation adjustments are not applied and they are categorized in Level 1 of the fair value hierarchy. Restricted securities issued by publicly held companies are valued at a discount to similar publicly traded securities and may be categorized as Level 2 of the fair value hierarchy to the extent that the discount is considered to be insignificant to the fair value measurement in its entirety, otherwise they may be categorized as Level 3. Restricted securities held in non-public entities are included in Level 3 of the fair value hierarchy because they trade infrequently, and, therefore, the inputs are unobservable. Certain foreign securities may be fair valued using a pricing service that considers the correlation of the trading patterns of the foreign security to the intraday trading in the

U.S. markets for investments such as depositary receipts, futures, exchange-traded funds ( ETFs ), and the movement of certain indexes of securities based on a statistical analysis of the historical relationship and are categorized in Level 2 of the fair value hierarchy.

*Corporate bonds.* The fair value of corporate bonds is estimated using recently executed transactions, market price quotations (where observable), bond spreads, or credit default swap spreads adjusted for any basis difference between cash and derivative instruments. Corporate bonds are generally categorized in Level 2 of the fair value hierarchy; in instances where prices, spreads, or any of the other aforementioned key inputs are unobservable, they are categorized in Level 3 of the hierarchy.

*Asset-Backed securities and mortgage backed securities.* The fair value of asset backed securities and mortgage backed securities is estimated based on models that consider the estimated cash flows of each debt tranche of the issuer, establish a benchmark yield, and develop an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche including, but not limited to, the prepayment speed assumptions and attributes of the collateral. To the extent the inputs are observable and timely, the values would be categorized in Level 2 of the fair value hierarchy, otherwise they would be categorized as Level 3.

*Bank loans.* The fair value of bank loans is estimated using recently executed transactions, market price quotations, credit/market events, and cross-asset pricing. Inputs are generally observable market inputs obtained from independent sources . Bank Loans are generally categorized in Level 2 of the fair value hierarchy, unless key inputs are unobservable which would then be in Level 3.

*U.S. Government and agency securities.* U.S. government and agency securities are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, quoted market prices, and reference data. Accordingly, U.S. government and agency securities are normally categorized in Level 2 of the fair value hierarchy.

*Restricted securities.* Restricted securities that are deemed to be both Rule 144A securities and illiquid, as well as restricted securities held in non-public entities, are included in Level 3 of the fair value hierarchy because they trade infrequently, and, therefore, the inputs are unobservable. Any other restricted securities are valued at a discount to similar publicly traded securities and may be categorized as Level 2 of the fair value hierarchy to the extent that the discount is considered to be insignificant to the fair value measurement in its entirety, otherwise they may be categorized as Level 3.

The following is a summary of the inputs used as of September 30, 2010 in valuing the Fund's investments:

Description	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
<b>Fixed Income Securities</b>

Total	\$ 40,561,624	\$ 272,389,774	\$ 312,951,398

The fund did not have any transfers in and out of Level 1 and Level 2 of the fair value hierarchy during the period ended September 30, 2010.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

	Balance as of 12/31/09	Accrued Discounts (Premiums)	Realized Gain/Loss and Change in Unrealized Appreciation/ (Depreciation)	Net Purchases (Sales)	Net Transfers into Level 3*	Net Transfers out of Level 3*	Balance as of 09/30/10	Net Change in Unrealized Appreciation/ (Depreciation) from Investments Still Held as of 09/30/10
<b>Investments in Securities</b>								
<b>Fixed Income Securities</b>								
Asset Backed Securities	\$ 2,024	\$ 0	\$ (2,024)	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0
Collateralized Debt Obligations	6,772,061	0	5,140,789	(11,912,850)	0	0	0	0
<b>Total</b>	\$ 6,774,085	\$ 0	\$ 5,138,765	\$ (11,912,850)	\$ 0	\$ 0	\$ 0	\$ 0

\* The Fund recognizes transfers in at the beginning of the period and transfers out at the end of the period.

**Note 2 Federal Income Taxes:**

It is the policy of the Fund to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and distribute all of its net taxable income, including any net realized gains on investments, to its shareholders. Therefore, no federal income tax provision is required.

At September 30, 2010, net unrealized appreciation for federal income tax purposes is comprised of the following components:

Appreciated securities	\$ 44,270,724
Depreciated securities	(17,390,586)
<b>Net unrealized appreciation</b>	<b>\$ 26,880,138</b>
Cost of securities for federal income tax purposes	\$ 286,071,260

The Fund did not have any unrecognized tax benefits at September 30, 2010, nor were there any increases or decreases in unrecognized tax benefits for the period then ended; and therefore no interest or penalties were accrued. The Fund is subject to examination by U.S. federal and state tax authorities for returns filed for the prior three and four fiscal years, respectively.

**Note 3 Security Lending:**

The Fund can lend securities to brokers. The brokers must provide collateral, which must be maintained at not less than 100% of the value of the loaned securities, to secure the obligation. The Fund receives income, net of broker fees, by investing the collateral. The Fund did not lend securities any time during the nine months ended September 30, 2010.

**Note 4 Restricted Securities:**

The Fund is permitted to invest in securities that are subject to legal or contractual restrictions on resale. These securities may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. There were no restricted securities (excluding Rule 144A issues) at September 30, 2010. However, certain 144A securities were deemed illiquid as of September 30, 2010 and therefore were considered restricted. Aggregate cost and fair value of such securities held at September 30, 2010 were as follows:

	Aggregate Cost	Aggregate Value	Value as a Percentage of Fund's Net Assets
Total of Restricted Securities	\$ 1,516,409	\$ 1,579,576	0.6%

**Note 5 Recently Issued Accounting Pronouncements**

In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-06, Improving Disclosures About Fair Value Measurements (ASU). The ASU requires enhanced disclosures about purchases, sales, issuances, and settlements on a gross basis relating to Level 3 measurements. The disclosure will be effective for fiscal years beginning after December 15, 2010, and for interim periods with those fiscal years. Management is currently evaluating the impact of adoption of this ASU will have on the Fund's financial statement disclosures.

**Item 2. Controls and Procedures.**

(a) The Registrant's Chief Executive Officer and Chief Financial Officer concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) are effective as of a date within 90 days prior to the filing date of this report (the Evaluation Date), based on their evaluation of the effectiveness of the Registrant's disclosure controls and procedures as of the Evaluation Date.

(b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

**Item 3. Exhibits.**

(a) Certification of Chief Executive Officer and Chief Financial Officer of the Registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is attached hereto as Exhibit 99CERT.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
