Directors and officers who are employed by the Advisor or an affiliated company thereof receive no compensation or expense reimbursement from the Company.

Effective July 1, 2013, the Company adopted a Deferred Compensation Plan (the **Plan**), which provides retirement benefits for Independent Directors of the Company and TFI. Each Independent Director is eligible to participate in the Plan and may elect to defer all or a portion of his or her compensation not yet earned. Under the Plan, dollar amounts deferred earn a return for an Independent Director as though equivalent amounts had been invested in one or more of the Funds advised by the Advisor offered as investment options under the Plan and selected by the Independent Director. Unless otherwise stipulated, distributions to an Independent Director under the Plan are in the form of a lump sum equal to the value in the Director's account on the date of payment. The Plan is not funded and the Company's obligation to make payments of amounts credited to an Independent Director's account is a general obligation of the Company. An Independent Director's rights to deferred compensation under the Plan are limited to those of a recipient of an unfunded, unsecured promise to pay amounts in the future.

The Board of Directors normally meets at least quarterly at regularly scheduled meetings. During the fiscal year ended December 31, 2014, the Board met five times. Each incumbent Nominee attended at least 75% of the meetings of the Board held during the last fiscal year, including the meetings of the Board's standing Committees of which such Director was a member.

Leadership Structure

The Board is responsible for the overall management of the Company, including general supervision of the duties performed by the Advisor and other service providers in accordance with the provisions of the 1940 Act, other applicable laws and the Company's Articles of Incorporation and By-Laws. The Board meets in regularly scheduled meetings throughout the year. It is currently composed of ten Directors, including eight Independent Directors. As discussed below, the Board has established three committees to assist the Board in performing its oversight responsibilities.

The Board has appointed an Independent Director to serve as its Chairman. The Chairman's primary role is to set the agenda of the Board and determine what information is provided to the Board with respect to matters to be acted upon by the Board. The Chairman presides at all meetings of the Board and leads the Board through its various tasks. The Chairman also acts as a liaison with management in carrying out the Board's functions. The Chairman also performs such other functions as may be requested by the Board from time to time. The designation of an Independent Director as Chairman does not impose any duties, obligations or liabilities that are greater than the duties, obligations or

liabilities imposed on such person as a member of the Board of Directors generally.

The Company has determined that the Board's leadership structure is appropriate given the characteristics and circumstances of the Company, including such matters as the number of funds in the Fund Complex, the net assets of the Company and the committee structure of the Company.

Risk Oversight

Through its direct oversight role, and indirectly through its Committees, the Board performs a risk oversight function for the Company consisting, among other things, of the following activities:

General Oversight. The Board regularly meets with, or receives reports from, the officers of the Company and representatives of key service providers to the Company, including the Advisor, administrator, transfer agent, custodian and independent registered public accounting firm to review and discuss the operational activities of the Company and to provide direction with respect thereto.

Compliance Oversight. The Board reviews and approves the procedures of the Company established to ensure compliance with applicable federal securities laws. The Board keeps informed about how the Company's operations conform to its compliance procedures through regular meetings with, and reports received from, the Company's Chief Compliance Officer and other officers.

Investment Oversight. The Board monitors the Company's investment performance during the year through regular performance reports from management with references to appropriate performance measurement indices. The Board also receives focused performance presentations on a regular basis, including special written reports and oral presentations by portfolio managers. In addition, the Board monitors the Company's investment practices, reviews its investment strategies with management and receives focused presentations.

Valuation Oversight. The Board has approved the valuation methodologies used in establishing the daily values of the Company's assets and monitors the accuracy with which the valuations are carried out. The Board receives regular reports on the use of fair value prices and monitors the effectiveness of the Company's valuation procedures.

Financial Reporting. Through its Audit Committee, the Board meets regularly with the Company's independent registered public accounting firm to discuss financial reporting matters, the adequacy of the Company's internal controls over financial reporting, and risks to accounting and financial reporting matters.

Board Committees

The Board has a standing Audit Committee, Executive Committee and Nominating Committee.

The Audit Committee has adopted a written charter (the **Audit Committee Charter**), which was amended in December 2014. A copy of the Audit Committee Charter is posted on the Company's website (www.tcw.com). The purposes of the Audit Committee are set forth in the Audit Committee Charter. The Audit Committee makes recommendations to the Board of Directors concerning the selection of the Company's independent auditors and reviews with the auditors the results of the Company's annual audit, including the scope of auditing procedures, the adequacy of internal controls and compliance by the Company with the accounting, recording and financial reporting requirements of the 1940 Act. The Audit Committee also reviews compliance with the Advisor's and Company's Code of Ethics by the executive officers, directors and investment personnel of the Advisor. The Audit Committee's current members are Mses. Kerr and Rogers and Messrs. Bell, Gavin, Haden, McMillan, Parker and Tarica. Each Audit Committee member is an Independent Director. During the fiscal year ended December 31, 2014, the Audit Committee held four meetings.

The Executive Committee has the same powers as the Board of Directors except the power to declare dividends or other stock distributions, elect directors, authorize the issuance of stock except as permitted by statute, recommend to the shareholders any action requiring their approval, amend the By-Laws or approve any merger or share exchange not requiring shareholder approval. The Executive Committee's current members are Messrs. DeVito, Bell and Haden. Messrs. Bell and Haden are Independent Directors, and Mr. DeVito is an Interested Director. During the fiscal year ended December 31, 2014, the Executive Committee held no meetings.

The Nominating Committee has adopted a written charter (the **Nominating Committee Charter**), which was amended in December 2014. A copy of the Nominating Committee Charter is posted on the Company's website (www.tcw.com). The Nominating Committee makes recommendations to the Board of Directors regarding nominations for membership on the Board of Directors. It evaluates candidates' qualifications for Board membership and, with respect to nominees for positions as independent directors, their independence from the Advisor and other principal service providers. The Nominating Committee does not have any formal policy regarding diversity in identifying nominees for a directorship, but considers it among the various factors relevant to any particular nominee. The Nominating Committee periodically reviews director compensation and recommends any appropriate changes to the Board. The Nominating Committee also reviews and may make recommendations to the Board of Directors relating to those issues that pertain to the effectiveness of the Board in carrying out its responsibilities in overseeing the management of the Company. The current members of the Company's Nominating Committee are Mses. Kerr and Rogers and Messrs. Bell, Gavin, Haden, McMillan, Parker and Tarica. Each Nominating Committee member is an Independent Director. During the fiscal year ended December 31, 2014, the Nominating Committee held three

meetings.

The following is a brief discussion of the particular experience, qualifications, attributes or skills that led the Board to conclude that each person identified below should serve as a Director of the Company.

The Nominating Committee will consider potential director candidates recommended by Company shareholders provided that the proposed candidates: satisfy the director qualification requirements provided in the Nominating Committee Charter; are not interested persons of the Company within the meaning of the 1940 Act; and are independent as defined in the New York Stock Exchange (the NYSE) listing standards. - (b) Neither the nominee nor any member of the nominee's immediate family may be currently employed or employed within the last year by any nominating shareholder entity or entity in a nominating shareholder group;
- (c) Neither the nominee nor any immediate family member of the nominee is permitted to have accepted directly or indirectly, during the year of the election for which the nominee's name was submitted, during the immediately preceding calendar year, or during the year when the nominee's name was submitted, any consulting, advisory, or other compensatory fee from the nominating shareholder or any member of a nominating shareholder group;
- (d) The nominee may not be an executive officer or director (or person performing similar functions) of the nominating shareholder or any member of a nominating shareholder group, or of an affiliate of a nominating shareholder or any such member of a nominating shareholder group;

In addition, the nominating shareholder or shareholder group must meet the following requirements in order for the Nominating Committee to consider a proposed nominee:

Each of the securities used for purposes of calculating this ownership must have been held continuously for at least two years as of the date of the nomination. In addition, such securities must continue to be held through the date of the meeting. The nominating shareholder or shareholder group must also bear the economic risk of the investment and the securities used for purposes of calculating the ownership cannot be held short ; and

- (b) The nominating shareholder or shareholder group must not qualify as an adverse holder (as defined in the Nominating Committee Charter).

A nominating shareholder or shareholder group may not submit more than one Independent Director Nominee each calendar year. Shareholders recommending potential director candidates must substantiate compliance with these requirements at the time of submitting their proposed director candidates to the attention of the Company's Secretary. Notice to the Company's Secretary should provide: (i) the shareholder's contact information; (ii) the director candidate's contact information and the number of Company shares owned by the proposed candidate; (iii) all information regarding the candidate that would be required to be disclosed in solicitations of proxies for elections of directors required by Regulation 14A of the Securities Exchange Act of 1934, as amended (the **1934 Act**); and (iv) a notarized letter executed by the director candidate, stating his or her intention to serve as a nominee and be named in the Company's proxy statement, if nominated by the Board of Directors, and to serve as director if so elected.

The Nominating Committee may identify prospective candidates from any reasonable source and is authorized to engage third-party services for the identification and evaluation of potential nominees. The Company's Nominating Committee Charter provides minimum qualifications for Company directors which include expertise, experience or relationships that are relevant to the Company's business, and educational qualifications. The Nominating Committee may recommend that the Board modify these minimum qualifications from time to time. The Nominating Committee meets at least annually to identify and evaluate nominees for director and make its recommendations to the Board. Each of the Director nominees included in this Proxy Statement currently serves on the Board of Directors of the Company.

Reporting Persons are also required by such regulations to furnish the Company with copies of all Section 16(a) reports they file.

PROPOSAL 2. RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Independent Directors have selected Deloitte & Touche, LLP (**Deloitte**), 350 South Grand Avenue, Los Angeles, California 90071 as the registered public accounting firm of the Company for the fiscal year ending December 31, 2015. Deloitte is responsible for auditing the Company's annual financial statements. While the Independent Directors are responsible for the appointment, compensation, retention, termination and oversight of the independent auditor, the Company is requesting, as a matter of good corporate governance, that the stockholders ratify the appointment of Deloitte as the independent registered public accounting firm. If the stockholders fail to ratify the selection, the Independent Directors will reconsider whether to retain Deloitte and may retain that firm or another without re-submitting the matter to our stockholders. Even if the appointment is ratified, the Independent Directors may, in their discretion, direct the appointment of a different independent registered public accounting firm at any time during the year.

Representatives of Deloitte will be available at the Annual Meeting.

Deloitte, in accordance with Independence Standards Board Standard No. 1 (**ISB No. 1**), has confirmed to the Audit Committee that Deloitte is an independent auditor with respect to the Company. Certain information concerning the fees and services provided by Deloitte to the Company and to the Advisor and its affiliates for the most recent fiscal year of the Company is provided below. For purposes of the following information, the Advisor and any entity controlling, controlled by or under common control with the Advisor that provides ongoing services to the Company, are referred to as Service Affiliates.

- (1) **Audit Fees.** The aggregate fees billed for each of the last two fiscal years to the Company (the **Reporting Periods**) for professional services rendered by Deloitte for the audit and review of the Company's annual financial statements, or services that are normally provided by Deloitte in connection with the statutory and regulatory filings or engagements for the Reporting Periods, were as follows:

Fiscal Year Ended	Audit Fees
12/31/14	\$ 81,000
12/31/13	\$ 83,000

- (2) **Audit-Related Fees.** The aggregate fees billed in the Reporting Periods for assurance and related services by Deloitte to the Company that are reasonably related to the performance of the audit or review of the Company's financial statements and are not reported under paragraph (1) above were as follows:

Fiscal Year Ended	Audit-Related Fees
12/31/14	\$ 0
12/31/13	\$ 0

- (3) **Tax Fees.** The aggregate fees billed to the Company in the Reporting Periods for professional services rendered by Deloitte for tax compliance, tax advice and tax planning (**Tax Services**) were as follows:

Fiscal Year Ended	Tax Fees*
12/31/14	\$ 5,250
12/31/13	\$ 5,250

* The Tax Fees were pre-approved by the Audit Committee pursuant to the terms of the Audit Committee Charter.

(4) All Other Fees. The aggregate fees billed to the Company in the Reporting Periods for products and services provided by Deloitte, other than the services reported in paragraphs (1) through (3) above, were as follows:

Fiscal Year Ended	All Other Fees
12/31/14	\$ 0
12/31/13	\$ 0

The aggregate non-audit fees billed by Deloitte for services rendered to the Service Affiliates for the last two fiscal years of the Company were \$0 in 2014 and \$0 in 2013, respectively.

The Company's Audit Committee has considered whether the provision of non-audit services that were rendered to the Company's investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Company that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Pursuant to the Company's Audit Committee Charter, the Audit Committee has adopted pre-approval policies and procedures to govern the pre-approval of (i) all audit services and permissible non-audit services to be provided to the Company by its independent accountant, and (ii) all permissible non-audit services to be provided by such independent accountant to any Service Affiliates if the engagement directly relates to the Company's operations and financial reporting.

The Audit Committee pre-approves all audit and non-audit services provided by Deloitte or any other independent auditor engaged by the Company and any non-audit or audit-related services provided by them to the Company's service affiliates which have an impact on the Company. The Audit Committee recommends the engagement of the auditor for each fiscal year, and a majority of the Company's Independent Directors approves the engagement. The Audit Committee may pre-approve the provisions of types or categories of non-audit services for the Company and permissible non-audit services for the Company's service affiliates on an annual basis at the time of the auditor's engagement and on a project-by-project basis. At the time of the annual engagement of the Company's independent auditor, the Audit Committee receives a list of expected services with a description and an estimated budget of fees. In its pre-approval, the Audit Committee must determine that the provision of the service is consistent with, and will not impair, the ongoing independence of the auditor and set any limit on fees or other conditions it finds appropriate. Non-audit services may also be approved on a project-by-project basis by the Audit Committee consistent with the same standards for determination and information.

Audit Committee Report

The Audit Committee of the Board of Directors normally meets at least once during each full fiscal year with the Company's Chief Financial Officer and representatives of the independent auditors in a separate executive session to discuss and review various matters as contemplated by the Company's Audit Committee Charter. In the performance of its oversight function, the Audit Committee has considered and discussed the audited financial statements of the Company for the fiscal year ended December 31, 2014 with management and the independent auditors of the Company. The Audit Committee also has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, "Communication with Audit Committees," as currently in effect. The Audit Committee also has considered whether the provision by the Company's independent auditors of non-audit services to the Company, and of professional services to the Advisor and affiliates of the Advisor that provide services to the Company, is compatible with maintaining the independent auditors' independence. Finally, the Audit Committee has received the written disclosures and the letter from the independent auditors required by ISB No. 1 and has discussed with the independent auditors the independent auditors' independence.

The members of the Company's Audit Committee are not professionally engaged in the practice of auditing or accounting. The Board of Directors has determined that Messrs. Samuel P. Bell and Charles A. Parker and Ms. Victoria B. Rogers each qualifies as an audit committee financial expert, as defined under Item 407(d) of the SEC's Regulation S-K. The Audit Committee is in compliance with applicable rules of the NYSE listing requirements for closed-end fund audit committees, including the requirement that all members of the audit committee be financially literate and that at least one member of the audit committee have accounting or related financial management expertise, as determined by the Board. The Audit Committee is required to conduct its operations in accordance with applicable requirements of the Sarbanes-Oxley Act of 2002 and the Public Company Accounting Oversight Board, and the members of the Audit Committee are subject to the fiduciary duty to exercise reasonable care in carrying out their duties. Members of the Company's Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent auditors. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the

financial statements are presented in accordance with generally accepted accounting principles or that the Company's auditors are in fact independent.

Based upon the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to above and in the Audit Committee Charter, the Audit Committee recommended to the Board of Directors that the audited financial statements of the Company be included in the Company's annual report to shareholders for the fiscal year ended December 31, 2014. The members of the Audit Committee, Messrs. Bell, Gavin, Haden, McMillan, Parker and Tarica and Mses. Kerr and Rogers, are independent within the meaning of the NYSE corporate governance standards for audit committees.

Shareholder Approval

The affirmative vote of a majority of the votes cast at the Meeting in person or by proxy, provided a quorum is present, is required to ratify the appointment of Deloitte to serve as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2015.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR RATIFICATION OF DELOITTE
AS THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM OF THE COMPANY
FOR THE FISCAL YEAR ENDING DECEMBER 31, 2015.**

PROPOSAL 3. AMENDMENT TO ARTICLES OF INCORPORATION

Shareholders are being asked to approve a proposal that would amend the Company's Articles of Incorporation (the **Articles**) to eliminate the requirement that a proposal to convert the Company to an open-end mutual fund would be automatically submitted for stockholder approval under certain circumstances.

The Articles

Article X of the Company's Articles requires that the Company automatically present stockholders with a proposal to convert the Company to an open-end mutual fund at the next annual stockholders' meeting if the share price discount to its net asset value per share (**NAV**) averages more than 10% during the final 12 weeks of a fiscal year. The discount is measured by averaging the discounts as of the end of each week during that 12-week period.

The exact text of Article X is as follows:

ARTICLE X

Commencing with the fiscal year of the Corporation which begins on January 1, 1990, and in each fiscal year thereafter, if (i) the Corporation has not adopted the amendment described in this Article, and (ii) shares of the Corporation's common stock have traded on the principal securities exchange where listed at an average discount from net asset value of more than 10%, determined on the basis of the discount as of the end of the last trading day in each week during the period of 12 calendar weeks next preceding December 31 in such fiscal year, the Corporation will submit to its stockholders at the next succeeding annual meeting of stockholders a proposal, to the extent consistent with the Investment Company Act of 1940, to amend the Charter of the Corporation to provide that, upon the adoption of such amendment by the holders of two-thirds of the Corporation's outstanding shares of common stock, the common stock shall become a redeemable security (as such term is defined in the Investment Company Act of 1940).

If a proposal is required as a result of Article X, passage of the proposal requires approval of two-thirds of the Company's outstanding shares to pass. If passed, the Company must undertake the expense of converting from a closed-end management investment company to an open-end mutual fund, which means its stock becomes redeemable on a daily basis at the conclusion of that conversion.

History of the Requirement and Reason for Requesting the Amendment

Article X has been a part of the Articles since the Company's inception in 1987. Over the past ten years, the Company has been required under Article X to solicit a stockholder vote relating to converting from a closed-end structure to an open-end structure three times and, each time, the proposal has failed by a wide margin to obtain the required stockholder approval. However, this proposal requires the Company and its officers, as well as TCW as its investment adviser, to devote additional time, money and resources to present this proposal to stockholders despite (based on past history) the limited likelihood it would pass. In addition, management of the Company, as well as the Board, sees no apparent benefit to stockholders from the requirement, for the reasons discussed below.

Submission to the shareholders of the proposal required by Article X results in additional expense to the shareholders. Due to the need to have non-standard proxy statement reviewed by the SEC, presenting the proposal for an annual meeting requires considerable additional legal costs as compared with a standard annual meeting that only proposes the election of Directors and ratification of the Company's auditor. Furthermore, the conversion, if approved, would involve substantial expenses related to services of accounting, legal, auditing and other professionals. In addition to the potentially substantial costs of converting to an open-end model, the possibility of a conversion creates an incentive for speculators to seek short-term gains by redeeming shares previously purchased at an open-market discount at the Company's net asset value per share, forcing the Company to sell assets and to incur transaction

expenses for reasons other than investment purposes and potentially harming the long-term investors for whom the Company is intended.

Removing the provision from the Articles would not prevent a stockholder (or the Board) from adding that same proposal to convert to an open-end mutual fund through an ordinary process related to annual stockholder meeting proposals, after considering the circumstances then present, including the resources involved with including the proposal, the likelihood of approval and the expected effect on market value of the stock, if any.

As part of the Board's regular quarterly meetings, it receives a report on the NAV discount of the Company's shares, and annually also receives a report used to determine whether the threshold in Article X has been reached. The Board is attentive to the Company's NAV discount and is aware of various actions that can have an effect on discounts under certain circumstances, such as open-market repurchases of stock, tender offers, interval redemptions or other stock buybacks and managed distribution policies. The Board prefers to have the flexibility to consider and deploy measures that it believes are the most appropriate at a time of its choosing rather than have the Company be subject to a rigid 10% threshold. The Board may not be able to undertake these other actions if the threshold under Article X has been or could be met because such a conversion would interfere with those other measures.

TCW considers the requirement's impact on the market value of the Company's stock to have been well-intentioned and theoretical, but without any demonstrable practical effect. Furthermore, TCW believes that the current trading market for closed-end fund shares is the type of market where the discount might reliably remain in excess of 10%, which would also correspond to a fixed income or bond market with more limited liquidity. TCW believes that long periods of low volatility like the current market encourages behavior that will lead to greater future volatility and de-stabilization. TCW views the actions of the Federal Reserve as repressing necessary adjustments in the economy and believes that when the Federal Reserve reduces its use of extraordinary monetary policy, volatility will rise. This increase in market volatility would likely have the effect of increasing closed-end fund discounts across the industry, including for the Company. According to the Investment Company Institute, despite the decline of long-term interest rates, price deviations from net asset value continued to rise, particularly in the second half of 2014. The average discount for taxable closed-end bond funds was 7.2 percent at year-end 2014, up from 6.3 percent at year-end 2013.

For reference, the following chart shows the end-of-week discount for the Company's stock for the first six months of 2015:

TCW does not believe a forced conversion to an open-end structure is always in the stockholders' best interest. For example, during this type of market period, TCW, as the Company's adviser, believes it may be in stockholders' best interest to manage liquidity through other actions such as making use of the Company's line-of-credit and leveraging the Company during those periods in order to manage liquidity. Allowing stockholders to convert from a close-end structure to an open-end structure under such circumstances could result in highly detrimental pricing if a forced sale of a material portion of the Company's assets were to result from redemptions shortly after completion of such a conversion. Furthermore, the Board and TCW may have little control over the timing of completion of the conversion. Those market conditions could result in a period of multiple years where the Company is required to propose that it convert from a closed-end structure to an open-end structure, as happened in the mid-2000s, resulting in increased costs and less favorable conditions for the sale of portfolio assets.

Recommendation

The Board recommends that stockholders approve this proposal to remove Article X from the Articles for the following principal reasons:

Conversion of the Company and the resulting ability to redeem daily would work to the detriment of current investors that have sought out the Company as a stable long-term investment.

In the short-term, daily redemptions would serve to benefit only opportunistic short-term investors that bought shares at a large discount.

The variable cash-flow resulting from daily subscriptions and redemptions could adversely impact the portfolio management of the Company and its performance.

The conversion proposal imposes legal and filing costs on the Company because it would be required to make a preliminary proxy statement filing with the SEC and engage in the solicitation of votes for an additional proposal. The conversion transaction would involve substantial legal, accounting and other professional and outside vendor costs.

The automatic proposal to convert the Company has never been approved by stockholders of the Company in three submissions.

In the future, even without Article X, either the Board or stockholders could still introduce the same proposal at a time and in the manner deemed appropriate by them, and the Board could take a variety of other measures in an effort to address an NAV discount.

The Board believes it is in the best interests of stockholders to amend the Articles to remove Article X.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE PROPOSAL TO AMEND THE ARTICLES TO REMOVE ARTICLE X.

OTHER MATTERS

The proxy holders have no present intention of bringing before the Annual Meeting for action any matters other than those specifically referred to above, nor has the management of the Company any such intention. Neither the proxy holders nor the management of the Company is aware of any matters which may be presented by others. If any other business properly comes before the Annual Meeting, the proxy holders intend to vote thereon in accordance with their best judgment.

VOTING AND OTHER INFORMATION

Voting Requirements

For purposes of this Annual Meeting, a quorum is present to transact business if the holders of a majority of the outstanding shares of the Company entitled to vote at the Annual Meeting are present in person or by proxy. For purposes of determining the presence of a quorum at the Annual Meeting, abstentions and broker non-votes (that is, proxies from brokers or nominees indicating that such persons have not received instructions from the beneficial owner or other persons entitled to vote shares on a particular proposal with respect to which the brokers or nominees do not have discretionary power) will be treated as shares that are present. Assuming a quorum is present, i) a plurality of the votes cast at the Annual Meeting is required to elect each of the Directors; ii) an affirmative vote of a majority of the votes cast at the Annual Meeting is required to ratify the appointment of Deloitte to serve as the Company's independent registered public accounting firm; and iii) an affirmative vote of a majority of the shares that are outstanding and entitled to vote at the Annual Meeting is required to amend the Company's Articles to eliminate the requirement that a proposal to convert the Company to an open-end mutual fund would be automatically submitted for stockholder approval under certain circumstances. Abstentions and broker non-votes will have no effect on Proposal 1 or Proposal 2. Because approval of Proposal 3 requires approval of a specific number of outstanding shares, abstentions and broker non-votes have the effect of votes against Proposal 3.

The Company's Common Stock is the only class of outstanding voting securities of the Company. At July 31, 2015, [] shares of Common Stock were outstanding and entitled to vote. Each shareholder may cast one vote for each full share held, and a partial vote for each partial share. The Company's Common Stock does not have cumulative voting rights.

Adjournment

If a quorum is not present in person or by proxy at the time the Annual Meeting is called to order, the chairman of the Annual Meeting or the shareholders may adjourn the Annual Meeting. The vote required to adjourn the Annual Meeting is the affirmative vote of a majority of the shares present at the Annual Meeting in person or by proxy. In such a case, the proxy holders will vote all proxies in favor of the adjournment. If a quorum is present but there are not sufficient votes to approve a proposal, the chairman of the Annual Meeting may, with respect to that proposal, adjourn the Annual Meeting or the proxy holders may propose one or more adjournments of the Annual Meeting to permit further solicitation of proxies.
