Item 1.01. Entry into a Material Definitive Agreement.

Notes Offering

On August 24, 2017, the Company completed its previously announced notes offering (the *Notes Offering*) of \$750 million aggregate principal amount of 5.6250% senior notes due 2025 (the *Notes*). The Notes were sold in a private placement pursuant to a purchase agreement, dated August 17, 2017, by and among the Company, certain subsidiary guarantors and Wells Fargo Securities, LLC (the *Initial Purchaser*). The Notes were resold by the Initial Purchaser to qualified institutional buyers pursuant to Rule 144A of the Securities Act of 1933, as amended (the *Securities Act*), and to non-U.S. persons pursuant to Regulation S of the Securities Act. The Notes have not been registered under the Securities Act and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements.

Indenture

The Notes have been issued under an indenture, dated as of August 24, 2017, by and among the Company, the subsidiaries guarantors named therein, and The Bank of New York Mellon Trust Company, N.A., as trustee (the *Indenture*). The Notes will mature on September 1, 2025 and will accrue interest at the rate of 5.6250% per year. Interest on the Notes will be payable semi-annually on March 1 and September 1 of each year, commencing on March 1, 2018. The Company may redeem some or all of the Notes at any time prior to September 1, 2020 by paying a *make-whole* premium, plus accrued and unpaid interest and Additional Interest (as defined in the Indenture), if any, to the date of redemption. At any time prior to September 1, 2020, the Company may use the net proceeds of certain equity offerings to redeem up to 40% of the principal amount of the Notes at a redemption price equal to 105.6250% of their principal amount, plus accrued and unpaid interest and Additional Interest, if any, to the redemption date; provided that at least 60% of the aggregate principal amount of such Notes originally issued remains outstanding immediately following such redemption and such redemption occurs within 90 days of such equity offering. Subsequent to September 1, 2020, the Notes may be redeemed pursuant to a declining schedule of redemption prices set forth in the Indenture.

The Notes are senior unsecured obligations of the Company and will rank equally in right of payment to all of the Company's existing and future senior indebtedness and will rank senior to any of the Company's subordinated indebtedness. The Notes will be unconditionally guaranteed on a senior unsecured basis by all of the Company's current and future significant domestic subsidiaries (the *Guarantors*). In addition, the Notes will be effectively subordinated to all of the Company's and the guarantors' existing and future secured indebtedness, including the Company's existing ABL credit facility, to the extent of the assets securing such indebtedness, and will be structurally subordinated to all of the liabilities and preferred stock of any of the Company's subsidiaries that do not guarantee the Notes.

The Indenture contains covenants that limit the ability of the Company and the ability of its restricted subsidiaries to, among other things: incur additional debt; pay dividends and make distributions; make investments; repurchase stock; create liens; enter into transactions with affiliates; merge or consolidate; and transfer and sell assets. Certain of these covenants will cease to apply to the Notes for so long as the Notes have investment grade ratings from both Moody's Investors Service, Inc. and Standard & Poor's Financial Services LLC. If an event of default, as specified in the Indenture, shall occur and be continuing, either the trustee or the holders of a specified percentage of the Notes may accelerate the maturity of all the Notes. The covenants, events of default and acceleration rights described in this paragraph are subject to important exceptions and qualifications, which are described in the Indenture filed herewith.

If the Company experiences a Change of Control (as defined in the Indenture), the holders of the Notes will have the right to require the Company to repurchase their Notes at a repurchase price equal to 101% of their principal amount, plus accrued and unpaid interest and Additional Interest, if any, to the date of repurchase. Furthermore, if the

Company sells assets, the Company may be required to repurchase the Notes at a repurchase price equal to 100% of their principal amount, plus accrued and unpaid interest and Additional Interest, if any, to the date of repurchase.

The description set forth above of certain of the terms of the Indenture does not purport to be complete and is qualified in its entirety by the full text of the Indenture, which is attached hereto as Exhibit 4.1 and is incorporated herein by reference.

Registration Rights Agreement

Under a registration rights agreement with the Initial Purchaser and the Guarantors, the Company and the Guarantors have agreed to (i) use all commercially reasonable efforts to file, no later than 180 days after the issue date of the Notes, a registration statement (the Exchange Offer Registration Statement) with the U.S. Securities and Exchange Commission (the SEC) with respect to a registered offer to exchange the Notes for new notes (the Exchange Notes) of the Company having terms substantially identical in all material respects to the Notes (except that the Exchange Notes will not contain any transfer restrictions) (the Exchange Offer), (ii) use all commercially reasonable efforts to have the Exchange Offer Registration Statement declared effective by the SEC on or prior to 270 days after the issue date of the Notes, (iii) commence the Exchange Offer; and (iv) use all commercially reasonable efforts to issue, on or prior to 30 business days (or longer, if required by the federal securities laws) after the Exchange Offer Registration Statement is declared effective by the SEC, Exchange Notes and related guarantees in exchange for all notes and guarantees tendered in the Exchange Offer.

In addition, the Company has agreed, in some circumstances, to file a shelf registration statement that would allow some or all of the Notes to be offered to the public. If the Company does not comply with its obligations under the registration rights agreement, it will be required to pay Additional Interest to holders of the Notes.

The description set forth above of certain of the terms of the registration rights agreement does not purport to be complete and is qualified in its entirety by the full text of the registration rights agreement, which is attached hereto as Exhibit 4.2 and is incorporated herein by reference.

Use of Proceeds, Tender Offer and Redemption

On August 24, 2017, the Company used a portion of the proceeds from the Notes Offering to repurchase approximately \$329.7 million aggregate principal amount of its existing 7% Senior Notes due 2022 (the Old Notes) that were validly tendered (and not validly withdrawn) prior to 5:00 p.m., New York City time, on August 23, 2017 (the Expiration Time) of the Company's previously announced tender offer (the Tender Offer). Those who tendered their Old Notes prior to the Expiration Time received \$1,038.90 for each \$1,000 principal amount of Old Notes tendered.

On August 24, 2017, following its repurchase of the Old Notes in settlement of the Tender Offer, the Company issued a notice of redemption for all remaining Old Notes that were not validly tendered in the Tender Offer. The notice of redemption provides that the remaining Old Notes will be redeemed at a redemption price equal to 103.500% of the aggregate principal amount of the Old Notes to be redeemed, plus accrued and unpaid interest on the Old Notes to the redemption date, on September 25, 2017. The Company will use a portion of the proceeds from the Notes Offering to pay for the redemption of the Old Notes. Also on August 24, 2017, the Company, pursuant to irrevocable instructions provided to the Trustee, satisfied and discharged its obligations under the indenture governing the Old Notes.

The Company expects to use the remaining portion of the net proceeds from the sale of the Notes to pay fees and expenses incurred in connection with the foregoing and to repay a portion of the amounts outstanding under its existing ABL credit facility.
