

STRAYER EDUCATION INC
Form 10-Q
November 09, 2012

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15 (d) of the
Securities Exchange Act of 1934

For the quarterly period ended September 30, 2012

Commission File No. 0-21039

Strayer Education, Inc.
(Exact name of registrant as specified in this charter)

Maryland
(State or other jurisdiction of
incorporation or organization)

52-1975978
(I.R.S. Employer
Identification No.)

2303 Dulles Station Boulevard
Herndon, VA
(Address of principal executive offices)

20171
(Zip Code)

Registrant's telephone number, including area code: (703) 561-1600

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (check one)

Edgar Filing: STRAYER EDUCATION INC - Form 10-Q

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 1, 2012, there were outstanding 11,873,156 shares of Common Stock, par value \$0.01 per share, of the Registrant.

The accompanying notes are an integral part of these condensed consolidated financial statements.

STRAYER EDUCATION, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Information as of September 30, 2011 and 2012 is unaudited

1. Nature of Operations

Strayer Education, Inc. (the “Company”), a Maryland corporation, conducts its operations through its wholly owned subsidiary, Strayer University (the “University”). The University is an accredited institution of higher education that provides undergraduate and graduate degrees in various fields of study through 97 campuses in Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Minnesota, Mississippi, New Jersey, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, West Virginia, Wisconsin and Washington, D.C., and online. With the Company’s focus on the student, regardless of whether he or she chooses to take classes at a physical campus or online, it has only one reporting segment.

2. Significant Accounting Policies

Financial Statement Presentation

The consolidated financial statements include the accounts of the Company and its only subsidiary, the University. All inter-company accounts and transactions have been eliminated in the consolidated financial statements.

All information as of December 31, 2011 and September 30, 2011 and 2012, and for the three and nine months ended September 30, 2011 and 2012 is unaudited but, in the opinion of management, contains all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the condensed consolidated financial position, results of operations and cash flows of the Company. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2011. The results of operations for the three and nine months ended September 30, 2012 are not necessarily indicative of the results to be expected for the full fiscal year.

Revenues

The Company’s educational programs are offered on a quarterly basis. Approximately 96% of the Company’s revenues during the nine months ended September 30, 2012 consisted of tuition revenue. Tuition revenue is recognized in the quarter of instruction. Tuition revenue is shown net of any refunds, withdrawals, corporate discounts, scholarships and employee tuition discounts. At the start of each academic term, a liability (unearned tuition) is recorded for academic services to be provided and a tuition receivable is recorded for the portion of the tuition not paid upfront in cash. Any cash received prior to the start of an academic term is also recorded as unearned tuition. Revenues also include application fees, placement test fees, withdrawal and other administrative fees, textbook-related income and other income, which are recognized when earned.

Fair Value

The Fair Value Measurement Topic, ASC 820-10 (“ASC 820-10”), establishes a framework for measuring fair value, establishes a fair value hierarchy based upon the observability of inputs used to measure fair value, and expands disclosures about fair value measurements. Assets and liabilities are classified in their entirety within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement. Under ASC 820-10, fair value of an investment is the price that would be received to sell an asset or to transfer a liability to an entity in an

orderly transaction between market participants at the measurement date. The hierarchy gives the highest priority to assets and liabilities with readily available quoted prices in an active market and lowest priority to unobservable inputs which require a higher degree of judgment when measuring fair value, as follows:

Level 1 assets or liabilities use quoted prices in active markets for identical assets or liabilities as of the measurement date;

Level 2 assets or liabilities use observable inputs, other than quoted market prices, that are either directly or indirectly observable in the marketplace for identical or similar assets and liabilities; and

Level 3 assets or liabilities use unobservable inputs that are supported by little or no market activity.

The Company's assets and liabilities that are subject to fair value measurement are categorized in one of the three levels above. Fair values are based on the inputs available at the measurement dates, and may rely on certain assumptions that may affect the valuation of fair value for certain assets or liabilities.

Goodwill and Indefinite-Lived Intangible Assets

Goodwill represents the excess of the purchase price of an acquired business over the amount assigned to the assets acquired and liabilities assumed. Indefinite-lived intangible assets, which include a trade name, are recorded at fair market value on their acquisition date. An indefinite life was assigned to the trade name because it has the continued ability to generate cash flows indefinitely.

Goodwill and the indefinite-lived intangible assets are assessed at least annually for impairment during the three-month period ending September 30, or more frequently if events occur or circumstances change between annual tests that would more likely than not reduce the fair value of the respective reporting unit below its carrying amount. Under Accounting Standards Update No. 2011-08, Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment, the Company is permitted, but not required, to first assess qualitative factors to determine whether it is necessary to perform the more thorough quantitative goodwill impairment test. Following its qualitative assessment, the Company determined it was not more likely than not that the fair value of its goodwill was less than the carrying amount and, accordingly, no impairment existed at September 30, 2012.

Accounting for Derivative Instruments and Hedging Activities

On the date that the Company enters into a derivative contract, it designates the derivative as a hedge of (a) a forecasted transaction or (b) the variability of cash flows that are to be received or paid in connection with a recognized asset or liability (a cash flow hedge). All derivatives are recognized in the balance sheet at their fair value.

Changes in the fair value of a derivative that is highly effective and that is designated and qualifies as a cash flow hedge, to the extent that the hedge is effective, are recorded, net of income tax, in other comprehensive income, until earnings are affected by the variability of cash flows of the hedged transaction (e.g., until periodic settlements of a variable-rate asset or liability are recorded in earnings). Any hedge ineffectiveness (which represents the amount by which the changes in the fair value of the derivative exceed the variability in the cash flows of the forecasted transaction) is recorded in current-period earnings.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. The Company also formally assesses (both at the hedge's inception and on an ongoing basis) whether the derivatives that are used in hedging transactions have been highly effective in offsetting changes in the fair value or cash flows of hedged items and whether those derivatives may be expected to remain highly effective in future periods. When it is determined that a derivative is not (or has ceased to be) highly effective as a hedge, the Company discontinues hedge accounting prospectively.

Net Income Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of shares of common stock outstanding during the periods. Diluted earnings per share reflects the potential dilution that could occur assuming conversion or exercise of all dilutive unexercised stock options and restricted stock. The dilutive effect of stock awards was determined using the treasury stock method. Under the treasury stock method, all of the following are assumed to be used to repurchase shares of the Company's common stock: (1) the proceeds received from the exercise of stock options, (2) the amount of compensation cost associated with the stock awards for future service not

yet recognized by the Company, and (3) the amount of tax benefits that would be recorded in additional paid-in capital when the stock awards become deductible for income tax purposes. Stock options are not included in the computation of diluted earnings per share when the stock option exercise price of an individual grant exceeds the average market price for the period. During the three months ended September 30, 2011 and 2012, and during the nine months ended September 30, 2012, the Company had no issued and outstanding stock options that were included in the calculation. During the nine months ended September 30, 2011, all issued and outstanding stock options were included in the calculation.

Set forth below is a reconciliation of shares used to calculate basic and diluted earnings per share (in thousands).

	For the three months ended September 30,		For the nine months ended September 30,	
	2011	2012	2011	2012
Weighted average shares outstanding used to compute basic earnings per share	11,623	11,433	12,016	11,428
Incremental shares issuable upon the assumed exercise of stock options	—	—	11	—
Unvested restricted stock	24	54	28	54
Shares used to compute diluted earnings per share	11,647	11,487	12,055	11,482

3. Acquisition

On December 27, 2011, the Company completed an acquisition (the “Acquisition”) of certain assets which support the operations of the Jack Welch Management Institute (“JWMI”), an online leadership education program that offers a differentiated executive MBA degree and executive certificates. Simultaneous with the Acquisition, the Company entered into a License and Participation Agreement with Mr. Welch. The Company paid \$7.0 million in the acquisition. The Company received \$2.8 million from Mr. Welch representing his economic interest in JWMI, and the Company will make deferred payments to the sellers valued at \$2.2 million as of September 30, 2012. These amounts are included in other long-term liabilities in the Company’s unaudited condensed consolidated balance sheets. The Company will make additional payments to Mr. Welch as he provides services to the Company on behalf of JWMI under the License and Participation Agreement.

In connection with the Acquisition, the Company acquired course content valued at \$0.8 million which will be amortized over its estimated useful life of five years. The Company has also recorded indefinite-lived intangible assets of \$1.6 million, which are included in other assets in the Company’s unaudited condensed consolidated balance sheets. The Acquisition resulted in recording \$6.8 million of goodwill, representing the excess of the purchase price over the fair value assigned to the underlying assets acquired.

JWMI’s operating results are included in the unaudited condensed consolidated financial statements from the date of the Acquisition. The results of operations of JWMI would not have had a material impact on the Company’s reported financial results if the Acquisition had been completed on January 1, 2011.

4. Term Loan and Revolving Credit Facility

On January 3, 2011, the Company entered into a \$100.0 million revolving credit agreement. On April 4, 2011, the Company entered into an Amended and Restated Revolving Credit and Term Loan Agreement (the “Credit Facility”) providing for a \$100.0 million revolving credit facility and a \$100.0 million term loan facility. The revolving portion of the Credit Facility, which includes a letter of credit subfacility of \$50.0 million, matures on March 31, 2014, and amends and subsumes (as part of the new facility) the Company’s previous \$100.0 million revolving credit agreement. The term loan portion of the Credit Facility matures on March 31, 2014, and, commencing December 31, 2011, includes required quarterly amortization payments in the amount of \$2.5 million on December 31, 2011, \$5.0 million on March 31, 2012, and \$7.5 million on June 30, 2012, and at the end of each quarter thereafter prior to the final maturity date. Borrowings under the Credit Facility bear interest at LIBOR or a base rate, plus a margin ranging from 2.25% to 2.75%, depending on the Company’s leverage ratio. In addition, an unused commitment fee ranging from 0.30% to 0.40%, depending on the Company’s leverage ratio, accrues on unused amounts under the revolving credit facility. The Credit Facility is secured by substantially all of the personal property assets of the Company and its subsidiary. The Credit Facility contains customary affirmative, negative and financial maintenance covenants,

representations, warranties, events of default and remedies upon default, including acceleration and rights to foreclose on the collateral securing the Credit Facility. The Company was in compliance with all the terms of the Credit Facility at September 30, 2012.

During the quarter ended September 30, 2012, the Company paid cash interest of \$0.9 million.

As of September 30, 2012, the Company had outstanding \$77.5 million under the term loan facility and \$25.0 million under the revolving credit facility. On October 9, 2012, the Company borrowed an additional \$10.0 million under the revolving credit facility. On October 23, 2012, the Company repaid \$35.0 million representing the entire outstanding amount of the revolving credit facility.

Debt and short-term borrowings consist of the following as of September 30, 2012 (in thousands):

Term loan	\$77,500
Revolving credit facility	25,000
Total debt	102,500
Less: Current portion of long-term debt	30,000
Long-term debt	\$72,500

Aggregate debt maturities as of September 30, 2012 are as follows:

2012	\$7,500
2013	30,000
2014	40,000
	\$77,500

Interest Rate Swap

On April 4, 2011, the Company entered into an interest rate swap arrangement (the "Swap") in order to minimize the interest rate exposure on the entire balance of the term loan facility. The interest rate swap fixes the variable interest rate on the associated debt at approximately 3.6% rather than being subject to fluctuations in the LIBOR rate. The term of the Swap is three years, matching the term of the underlying term loan facility. The Swap has been designated as a cash flow hedge and has been deemed effective in accordance with the Derivatives and Hedging Topic, ASC 815. The Company expects the Swap to continue to be deemed effective for the duration of the Swap. The fair value of the Swap is included in other long-term liabilities in the Company's unaudited condensed consolidated balance sheets.

5. Fair Value Measurement

Assets and liabilities measured at fair value on a recurring basis consist of the following as of September 30, 2012 (in thousands):

	Fair Value Measurements at Reporting Date Using Quoted Prices in			
	September 30, 2012	Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents:				
Money market funds	\$ 1,380	\$ 1,380	\$ —	\$ —
Total assets at fair value on a recurring basis	\$ 1,380	\$ 1,380	\$ —	\$ —
Liabilities:				
Other liabilities:				
Interest rate swap	\$ 896	\$ —	\$ 896	\$ —
Deferred payments	2,153	—	—	2,153
Total liabilities at fair value on a recurring basis	\$ 3,049	\$ —	\$ 896	\$ 2,153

Assets and liabilities measured at fair value on a recurring basis consist of the following as of December 31, 2011 (in thousands):

	Fair Value Measurements at Reporting Date Using Quoted Prices in			
	December 31, 2011	Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents:				
Money market funds	\$ 7,606	\$ 7,606	\$ —	\$ —
Total assets at fair value on a recurring basis	\$ 7,606	\$ 7,606	\$ —	\$ —
Liabilities:				
Other liabilities:				
Interest rate swap	\$ 1,010	\$ —	\$ 1,010	\$ —
Deferred payments	2,200	—	—	2,200
Total liabilities at fair value on a recurring basis	\$ 3,210	\$ —	\$ 1,010	\$ 2,200

The Company measures the above items on a recurring basis at fair value as follows:

Money market funds — Classified in Level 1 is excess cash the Company holds in both taxable and tax-exempt money market funds and are included in cash and cash equivalents in the accompanying unaudited condensed consolidated balance sheets. The Company records any net unrealized gains and losses for changes in fair value as a component of accumulated other comprehensive income in stockholders' equity. Realized gains and losses from the sale of marketable securities are based on the specific identification method. The Company's remaining cash and cash equivalents held at December 31, 2011 and September 30, 2012, approximate fair value and is not disclosed in the above tables because of the short-term nature of the financial instruments.

Interest rate swap — The Company has an interest rate swap with a notional amount of \$77.5 million as of September 30, 2012, used to minimize the interest rate exposure on a portion of the Company's variable rate debt. The interest rate swap is used to fix the variable interest rate on the associated debt. The swap is classified within Level 2 and is valued using readily available pricing sources which utilize market observable inputs including the current variable interest rate for similar types of instruments.

Deferred payments — Classified within Level 3 as there is no liquid market for similarly priced instruments, and valued using a discounted cash flow model that encompassed significant unobservable inputs to estimate the operating results of the Acquisition. The assumptions used to prepare the discounted cash flows include estimates for interest rates, enrollment growth, retention rates and pricing strategies. These assumptions are subject to change as the underlying data sources evolve and the program matures.

At September 30, 2012, the carrying value of the Company's debt was \$102.5 million. All of the Company's debt is variable interest rate debt and the carrying amount approximates fair value.

The Company did not change its valuation techniques associated with recurring fair value measurements from prior periods, and no assets or liabilities were transferred between levels of the fair value hierarchy during the nine months ended September 30, 2011 or 2012. Assets measured at fair value on a non-recurring basis as of December 31, 2011 and September 30, 2012, include \$6.8 million of goodwill and \$1.6 million of other indefinite-lived intangible assets resulting from the Acquisition. The changes in the fair value of the Company's Level 3 liability during the nine months ended September 30, 2012 are as follows (in thousands):

	Deferred Payments
Balance at December 31, 2011	\$ 2,200
Amounts earned	(84)
Adjustments to fair value	37
Transfers in or out of Level 3	—
Balance at September 30, 2012	\$ 2,153

6. Stockholders' Equity

Authorized stock

The Company has authorized 20,000,000 shares of common stock, par value \$0.01, of which 11,792,456 and 11,873,156 shares were issued and outstanding as of December 31, 2011 and September 30, 2012, respectively. The Company also has authorized 8,000,000 shares of preferred stock, none of which has been issued or outstanding since 2004. The Company's annual cash dividend is \$4.00 per share, or \$1.00 per share quarterly.

Stock-based compensation

As required by the Stock Compensation Topic, ASC 718, the Company measures and recognizes compensation expense for all share-based payment awards, including employee stock options and employee stock purchases related to the Company's Employee Stock Purchase Plan, based on estimated fair values. Stock-based compensation expense recognized in the unaudited condensed consolidated statements of income for the three and nine months ended September 30, 2011 and 2012, is based on awards ultimately expected to vest and, therefore, has been adjusted for estimated forfeitures. The Company is required to estimate forfeitures at the time of grant and revise, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The forfeiture rate used is based on historical experience.

Stock-based compensation plans

In April 2011, the Company's stockholders approved the Strayer Education, Inc. 2011 Equity Compensation Plan (the "Plan"), which replaced the Company's 1996 equity compensation plan (the "1996 Plan") and made 300,000 new shares available for issuance as equity compensation. In addition, shares previously available for issuance under the 1996 Plan were effectively carried over and made available for issuance under the Plan, for a total of approximately 350,000 shares that were made available for issuance as equity compensation under the Plan. The Plan provides for the granting of restricted stock, stock options intended to qualify as incentive stock options, options that do not qualify as incentive stock options, and other forms of equity compensation and performance-based awards to employees, officers and directors of the Company, or to a consultant or advisor to the Company, at the discretion of the Board of Directors. Vesting provisions are at the discretion of the Board of Directors. Options may be granted at option prices based at or above the fair market value of the shares at the date of grant. The maximum term of the awards granted under the Plan is ten years.

In February 2012, the Company's Board of Directors approved grants of 72,013 shares of restricted stock to certain individuals. These shares, which vest over a five- to seven-year period, were granted pursuant to the Plan. The Company's stock price closed at \$115.55 on the date of these restricted stock grants.

In April 2012, the Company's Board of Directors approved grants of 10,728 shares of restricted stock. These shares, which vest over a three-year period, were awarded to various non-employee members of the Company's Board of Directors, as part of the Company's annual director compensation program. The Company's stock price closed at \$83.88 on the date of these restricted stock grants.

Dividends paid on unvested restricted stock are reimbursed to the Company if the recipient terminates his or her employment prior to vesting in the award.

Restricted Stock

The table below sets forth the restricted stock activity for the nine months ended September 30, 2012:

	Number of shares	Weighted- average grant price
Balance, December 31, 2011	380,944	\$ 194.26
Grants	82,741	\$ 111.44
Vested shares	(26,189)	\$ 195.58
Forfeitures	(2,041)	\$ 132.23
Balance, September 30, 2012	435,455	\$ 178.74

Stock Options

The table below sets forth the stock option activity for the nine months ended September 30, 2012, and other stock option information at September 30, 2012:

	Number of shares	Weighted-average exercise price	Weighted-average remaining contractual life (yrs.)	Aggregate intrinsic value(1) (in thousands)
Balance, December 31, 2011	100,000	\$ 107.28	1.1	—
Grants	—	—	—	—
Exercises	—	—	—	—
Forfeitures	—	—	—	—
Balance, September 30, 2012	100,000	\$ 107.28	0.4	—
Exercisable, September 30, 2012	100,000	\$ 107.28	0.4	—

- (1) The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the respective trading day and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holder had the options been exercised on the respective trading day. The amount of intrinsic value will change based on the fair market value of the Company's common stock.

Valuation and Expense Information under Stock Compensation Topic ASC 718

At September 30, 2012, total stock-based compensation cost which has not yet been recognized was \$41.6 million, all for unvested restricted stock. This cost is expected to be recognized over the next 60 months on a weighted-average basis. Awards of approximately 230,000 shares of restricted stock are subject to performance conditions. The accrual for stock-based compensation for performance awards is based on the Company's estimates that such performance criteria are probable of being achieved. Such a determination involves significant judgment surrounding future operating performance of the Company. If the performance targets are not reached during the vesting period, related compensation will be adjusted.

The following table summarizes the stock-based compensation expense recorded for the three and nine months ended September 30, 2011 and 2012 by expense line item (in thousands):

	For the three months ended September 30,		For the nine months ended September 30,	
	2011	2012	2011	2012
Instruction and educational support	\$ 904	\$ 976	\$ 2,728	\$ 2,538
Marketing	16	—	51	—
Admissions advisory	—	—	—	—
General and administration	2,550	2,551	7,019	6,820
Stock-based compensation expense included in operating expense	3,470	3,527	9,798	9,358
Tax benefit	1,371	1,393	3,870	3,696
Stock-based compensation expense, net of tax	\$ 2,099	\$ 2,134	\$ 5,928	\$ 5,662

The following table summarizes information regarding all share-based payment arrangements for the nine months ended September 30, 2011 and 2012 (in thousands):

	For the nine months ended September 30,	
	2011	2012
Proceeds from stock options exercised	\$ —	\$ —
Excess tax shortfall related to share-based payment arrangements	\$ (721)	\$ (418)
Intrinsic value of stock options exercised (1)	\$ —	\$ —

(1) Intrinsic value of stock options exercised is calculated by taking the difference between the Company's closing stock price on the date of exercise and the exercise price, multiplied by the number of options exercised for each option holder and then aggregated.

7. Other Long-Term Liabilities

Other long-term liabilities consist of the following as of December 31, 2011 and September 30, 2012 (in thousands):

	2011	2012
Deferred rent	\$ 10,302	\$ 11,384
Lease incentives	4,088	4,036
Deferred gain on sale of campus building	1,256	1,046
Fair value of interest rate swap (see Note 5)	1,010	896
Deferred payments (see Note 3)	5,000	4,953
	\$ 21,656	\$ 22,315

Deferred Rent

In accordance with the Operating Leases Subtopic ASC 840-20, the Company records rent expense on a straight-line basis over the initial term of a lease. The difference between the rent payment and the straight-line rent expense is recorded as a long-term liability.

Lease Incentives

In conjunction with the opening of new campuses, the Company, in some instances, was reimbursed by the lessors for improvements made to the leased properties. In accordance with ASC 840-20, these improvements were capitalized as leasehold improvements and a long-term liability was established for the reimbursements. The leasehold improvements and the long-term liability are amortized on a straight-line basis over the corresponding lease terms, which range from five to 10 years.

Deferred Gain on Sale of Campus Building

In June 2007, the Company sold its Loudoun, Virginia campus building for \$5.8 million. The Company is leasing back most of the campus building over a 10-year period. In conjunction with this sale and lease back transaction, the Company realized a gain of \$2.8 million before tax, which is deferred and recognized over the 10-year lease term.

8. Income Taxes

The Fair Value Measurements and Disclosures Topic, ASC 740, requires the Company to determine whether uncertain tax positions should be recognized within the Company's financial statements. As a result of the implementation of ASC 740, no material adjustment in the liability for unrecognized income tax benefits was recognized. The amount of unrecognized tax benefits at September 30, 2012 is immaterial. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. As of September 30, 2012, the amount of accrued interest related to uncertain tax positions was immaterial. The tax year 2011 is open for Federal tax examination, and the tax years 2008-2011 remain open to examination by the state and local taxing jurisdictions in which the Company is subject.

9. Litigation

From time to time, the Company is involved in litigation and other legal proceedings arising out of the ordinary course of its business. On October 15, 2010, a putative securities class action was filed in the United States District Court for the Middle District of Florida. On March 20, 2012, the Court granted the Company's motion to dismiss the complaint for failure to state a claim, and an appeal of that decision is pending in the Eleventh Circuit Court of Appeals. A shareholder derivative action alleging similar facts was filed in the Circuit Court of Fairfax County, Virginia, which action was voluntarily dismissed by nonsuit on June 12, 2012. The Company believes these lawsuits are without merit and will contest them vigorously. While the outcome of any legal proceeding cannot be predicted with certainty, the Company does not expect these matters will have a material effect on its financial condition or results of operations.

10. Regulation

On June 13, 2011, the Department of Education published its final regulations defining the term "gainful employment." Under the regulations, a particular program offered by an institution would become ineligible for Title IV funding if it could not pass at least one of three alternative measurements in three out of four consecutive years. The first year that a program could become ineligible is 2015. On June 21, 2012, the Department released illustrative data indicating that all of the University's programs comply with the regulations. Although the regulations were scheduled to go into effect July 1, 2012, the U.S. District Court in *Association of Private Sector Colleges and Universities v. Duncan*, vacated most of the regulations on June 30, 2012. The Department has filed a motion for the Court to reconsider its decision, which motion is pending.

11. Subsequent Events

On October 9, 2012, the Company borrowed an additional \$10.0 million under the revolving credit facility. On October 23, 2012, the Company repaid \$35.0 million representing the entire outstanding amount under the revolving credit facility.

On November 8, 2012, Strayer Education, Inc. (the "Company") entered into a Second Amended and Restated Revolving Credit and Term Loan Agreement (the "Amended Credit Facility"), providing for a \$100.0 million revolving credit facility and \$125.0 million term loan facility, with an option, subject to obtaining additional loan commitments

and the satisfaction of certain conditions, to increase the commitments under the Credit Facility by up to \$50.0 million in the future. Each of the revolving portions of the Amended Credit Facility, which includes a letter of credit subfacility of \$50.0 million, and the term loan portion of the Amended Credit Facility matures on December 31, 2016, and amends and refinances the Company's existing Credit Facility. The term loan portion of the Amended Credit Facility, commencing March 31, 2013, also includes required quarterly amortization payments in the amount of \$781,250 in the case of each payment made during calendar years 2013 and 2014, 0.625% of the aggregate original principal amount of the term loan facility, and \$1,562,500 in the case of each payment made during calendar years 2015 and 2016, 1.25% of the aggregate original principal amount of the term loan facility.

Borrowings under the Amended Credit Facility bear interest at LIBOR or a base rate plus a margin ranging from 2.00% to 2.50%, depending on the Company's leverage ratio. For the \$125.0 million term loan facility, the Company entered into an additional interest rate swap arrangement that fixes its interest rate on the entire term loan facility at an effective rate of approximately 3.1%. In addition, an unused commitment fee ranging from 0.30% to 0.40%, depending on the Company's leverage ratio, accrues on unused amounts under the revolving portion of the Amended Credit Facility. The Amended Credit Facility contains customary affirmative and negative covenants, representations, warranties, events of default and remedies upon default, including acceleration and rights to foreclose on the collateral securing the Amended Credit Facility. In addition, the Amended Credit Facility requires that the Company satisfy certain financial maintenance covenants, including:

- a total leverage ratio of not greater than 2.00:1.00;
- a coverage ratio of not less than 1.75:1.00; and
- a Department of Education financial composite score of not less than 1.5.

The Amended Credit Facility is guaranteed by the domestic subsidiary of the Company and is secured by substantially all of the personal property and assets of the Company and the guarantor.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Notice Regarding Forward-Looking Statements

Certain of the statements included in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" as well as elsewhere in this report on Form 10-Q are forward-looking statements made pursuant to the Private Securities Litigation Reform Act of 1995 ("Reform Act"). Such statements may be identified by the use of words such as "expect," "estimate," "assume," "believe," "anticipate," "will," "forecast," "plan," "project," or similar words. These statements are based on the Company's current expectations and are subject to a number of assumptions, risks and uncertainties. In accordance with the Safe Harbor provisions of the Reform Act, the Company has identified important factors that could cause the actual results to differ materially from those expressed in or implied by such statements. The assumptions, risks and uncertainties include the pace of growth of student enrollment, our continued compliance with Title IV of the Higher Education Act, and the regulations thereunder, as well as regional accreditation standards and state regulatory requirements, rulemaking by the Department of Education and increased focus by the U. S. Congress on for-profit education institutions, competitive factors, risks associated with the opening of new campuses, risks associated with the offering of new educational programs and adapting to other changes, risks associated with the acquisition of existing educational institutions, risks relating to the timing of regulatory approvals, our ability to implement our growth strategy, risks associated with the ability of our students to finance their education in a timely manner, and general economic and market conditions. Further information about these and other relevant risks and uncertainties may be found in the Company's Annual Report on Form 10-K and its other filings with the Securities and Exchange Commission. The Company undertakes no obligation to update or revise forward-looking statements, except as may be required by law.

Additional Information

We maintain a website at <http://www.strayereducation.com>. The information on our website is not incorporated by reference in this Quarterly Report on Form 10-Q, and our web address is included as an inactive textual reference only. We make available, free of charge through our website, our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission.

Results of Operations

In the third quarter of 2012, we generated \$124.3 million in revenue, a decrease of 9% compared to the same period in 2011. Income from operations was \$7.8 million for the third quarter of 2012, a decrease of 68% compared to the same period in 2011. Net income was \$4.1 million in the third quarter of 2012, a decrease of 71%, compared to the same period in 2011. Diluted earnings per share was \$0.36 for the third quarter of 2012 compared to \$1.20 for the same period in 2011, a decrease of 70%.

Key enrollment trends by quarter were as follows:

Enrollment
% Change vs. Prior Year

Although we do not know for sure why our enrollment trends over the last several quarters and that of the proprietary higher education sector generally have been negative, we believe that sustained levels of high unemployment and the resulting lower confidence in job prospects are contributing factors. The 19% decline in our new students in 2011 has had and will continue to have an adverse impact on 2012 enrollment since there are fewer students from 2011 continuing their education in 2012.

We cannot predict future enrollments or whether new student enrollment will decline further, stabilize or increase in response to the economy or other factors. We can describe what we think our business model may look like financially under different enrollment scenarios. We implemented a 3% tuition increase in 2012 and announced our plan to open eight new campuses in 2012 subject to regulatory approval. Based on this investment plan, assuming we continue to increase our expenditures on faculty, marketing and admissions advisory services as we open new campuses and assuming 11,700,000 diluted weighted average shares outstanding and an effective tax rate of 39.5%, the Company announced in October 2011 that it expects its business model may perform as follows:

Assumed new student enrollment (vs. 2011)	-10%	0%	10%
Total student enrollment (vs. 2011)	-9%	-6%	-3%
Revenue (millions)	\$ 570	\$ 590	\$ 610
Operating income margin	21% to 22%	23% to 24%	25% to 26%
Diluted earnings per share	\$ 6.00 to \$6.20	\$ 6.90 to \$7.10	\$ 7.80 to \$8.00

Three Months Ended September 30, 2012 Compared to Three Months Ended September 30, 2011

Enrollment. Enrollment at Strayer University for the 2012 summer term, which began July 2, 2012 and ended September 17, 2012, decreased 7% to 44,236 students compared to 47,790 students for the same term in 2011. Across the Strayer University campus and online system, new student enrollments increased 9% and continuing student enrollments decreased 11%. Global online enrollments increased 8%. Students taking 100% of their classes online (including campus based students) decreased 6%.

Revenues. Revenues decreased 9% to \$124.3 million in the third quarter of 2012 from \$135.9 million in the third quarter of 2011, principally due to lower enrollments.

Instruction and educational support expenses. Instruction and educational support expenses increased by \$4.8 million, or 7%, to \$73.0 million in the third quarter of 2012 from \$68.2 million in the third quarter of 2011. This increase was principally due to direct costs necessary to support students at new campuses, including faculty and related academic staff compensation (\$3.4 million). Instruction and educational support expenses as a percentage of revenues increased to 58.7% in the third quarter of 2012 from 50.2% in the third quarter of 2011, largely due to increased faculty and staff costs associated with the addition of new campuses and lower tuition revenues.

Marketing expenses. Marketing expenses decreased slightly by \$0.2 million, or 0.8%, to \$23.2 million in the third quarter of 2012 from \$23.4 million in the third quarter of 2011. Marketing expenses as a percentage of revenues increased to 18.6% in the third quarter of 2012, from 17.2% in the third quarter of 2011, largely due to marketing expenses decreasing at a lower rate than tuition revenue.

Admissions advisory expenses. Admissions advisory expenses were \$6.5 million for the third quarter of 2012, unchanged from 2011. Admissions advisory expenses as a percentage of revenues increased slightly to 5.2% in the third quarter of 2012 from 4.8% in the third quarter of 2011, largely due to admissions advisory expenses decreasing at a lower rate than tuition revenue.

General and administration expenses. General and administration expenses increased \$0.4 million, or 3%, to \$13.8 million in the third quarter of 2012 from \$13.4 million in the third quarter of 2011. The increase is primarily due to an increase in personnel costs incurred in the third quarter of 2012 compared to the same period in 2011. General and administration expenses as a percentage of revenues increased to 11.1% in the third quarter of 2012 from 9.9% in the third quarter of 2011, largely due to higher staff costs and lower tuition revenues.

Income from operations. Income from operations decreased \$16.6 million, or 68%, to \$7.8 million in the third quarter of 2012 from \$24.4 million in the third quarter of 2011, due to the aforementioned factors.

Investment income. Investment income was \$1,000 in the third quarter of 2012 compared to \$5,000 in the third quarter of 2011.

Interest expense. Interest expense decreased slightly by \$0.1 million, or 13%, to \$1.1 million in the third quarter of 2012 compared to \$1.2 million in the third quarter of 2011, due to lower average debt outstanding in the quarter.

Provision for income taxes. Income tax expense decreased \$6.6 million, or 71%, to \$2.7 million in the third quarter of 2012 from \$9.3 million in the third quarter of 2011, primarily due to the decrease in income before taxes attributable to the factors discussed above. Our effective tax rate was 39.5% for the third quarter of 2012 and 39.9% for the third quarter of 2011.

Net income. Net income decreased \$9.8 million, or 71%, to \$4.1 million in the third quarter of 2012 from \$13.9 million in the third quarter of 2011 due to the factors discussed above.

Nine Months Ended September 30, 2012 Compared to Nine Months Ended September 30, 2011

Enrollment. Average enrollment decreased 10% to 48,521 students for the nine months ended September 30, 2012 compared to 53,791 students for the same period in 2011.

Revenues. Revenues decreased 11% to \$420.0 million in the nine months ended September 30, 2012 from \$471.6 million in the nine months ended September 30, 2011, principally due to lower enrollments.

Instruction and educational support expenses. Instruction and educational support expenses increased \$2.9 million, or 1%, to \$222.4 million in the nine months ended September 30, 2012 from \$219.5 million in the nine months ended September 30, 2011. These expenses as a percentage of revenues increased to 52.9% for the nine months ended September 30, 2012 from 46.5% in the nine months ended September 30, 2011, largely due to increased faculty and staff costs associated with the addition of new campuses and lower tuition revenues.

Marketing expenses. Marketing expenses decreased \$1.9 million, or 3%, to \$53.7 million in the nine months ended September 30, 2012 from \$55.6 million in the nine months ended September 30, 2011. These expenses as a percentage of revenues increased to 12.8% for the nine months ended September 30, 2012 from 11.8% in the nine months ended September 30, 2011, largely due to marketing costs decreasing at a lower rate than tuition revenue.

Admissions advisory expenses. Admissions advisory expenses decreased slightly by \$0.5 million, or 2%, to \$19.7 million in the nine months ended September 30, 2012 from \$20.2 million in the nine months ended September 30, 2011. Admissions advisory expenses as a percentage of revenues increased to 4.7% for the nine months ended September 30, 2012 from 4.3% in the nine months ended September 30, 2011, largely due to admissions advisory expenses decreasing at a lower rate than tuition revenue.

General and administration expenses. General and administration expenses decreased \$3.2 million, or 7%, to \$39.3 million in the nine months ended September 30, 2012 from \$42.5 million in the nine months ended September 30, 2011. The decrease is primarily due to a reduction in professional services and other administrative expenses partly offset by an increase in personnel costs. General and administration expenses as a percentage of revenues increased to 9.4% in the second quarter of 2012 from 9.0% in the second quarter of 2011.

Income from operations. Income from operations decreased \$48.9 million, or 36.6%, to \$84.9 million in the nine months ended September 30, 2012 from \$133.8 million in the nine months ended September 30, 2011 due to the aforementioned factors.

Investment income. Investment income decreased from \$0.1 million to approximately \$4,000 in the nine months ended September 30, 2012. The decrease was principally due to lower investment yields on existing cash balances.

Interest expense. Interest expense increased \$0.8 million to \$3.4 million in the nine months ended September 30, 2012 from \$2.6 million in the nine months ended September 30, 2011 due to an increase in borrowings from the term loan and revolving credit facility, which was executed in April 2011.

Provision for income taxes. Income tax expense decreased \$19.8 million, or 38%, to \$32.2 million in the nine months ended September 30, 2012 from \$52.0 million in the nine months ended September 30, 2011, primarily due to the decrease in income before taxes discussed above. Our effective tax rate was 39.5% for the nine months ended September 30, 2012 and 39.6% for the nine months ended September 30, 2011.

Net income. Net income decreased \$30.1 million, or 38%, to \$49.3 million in the nine months ended September 30, 2012 from \$79.4 million in the nine months ended September 30, 2011 due to the factors discussed above.

Liquidity and Capital Resources

At September 30, 2012, we had cash and cash equivalents of \$45.6 million compared to \$57.1 million at December 31, 2011 and September 30, 2011. At September 30, 2012, most of our excess cash was invested in bank overnight deposits and money market funds.

On April 4, 2011, we entered into an amended and restated revolving credit and term loan agreement. This credit facility, which is secured by our assets, provides for a \$100.0 million revolving credit facility and a \$100.0 million term loan facility with a maturity date of March 31, 2014. At September 30, 2012, we had \$77.5 million outstanding under the term loan facility and \$25.0 million outstanding under the revolving credit facility. On October 9, 2012, we borrowed an additional \$10.0 million under the revolving credit facility. On October 23, 2012, we repaid \$35.0 million representing the entire outstanding amount under the revolving credit facility. On November 8, 2012, we entered into an amended revolving credit and term loan agreement. This amended credit agreement, which is secured by our assets, provides for a \$100.0 million revolving credit facility and \$125.0 million term loan facility, with an option to increase the commitments by up to \$50.0 million in the future if certain conditions are met. The amended credit facility matures December 31, 2016. Proceeds from the term loan were used to pay off the \$77.5 million outstanding at September 30, 2012.

For the nine months ended September 30, 2012, we reported \$57.2 million of net cash provided by operating activities compared to \$122.7 million for the same period in 2011. Capital expenditures were \$18.2 million for the nine months ended September 30, 2012 compared to \$24.9 million for the same period in 2011. During the nine months ended September 30, 2012, we paid regular, quarterly common stock dividends of \$35.6 million (\$1.00 per share for each quarterly dividend). We had \$80.0 million of share repurchase authorization remaining at September 30, 2012. No shares were repurchased during the nine months ended September 30, 2012.

In the third quarter of 2012, bad debt expense as a percentage of revenues was 4.2% compared to 3.8% for the same period in 2011. Days sales outstanding was 18 days at the end of the third quarter of 2012 compared to 14 days at the end of the third quarter of 2011.

Currently, we invest our cash in bank overnight deposits and money market funds. In addition, as of September 30, 2012, we had available \$75 million under our \$100 million revolving credit facility. We believe that existing cash and cash equivalents, cash generated from operating activities, and if necessary, cash borrowed under the revolving credit facility, will be sufficient to meet our requirements for at least the next 12 months.

See Note 11, Subsequent Events, for a description of our new credit facility, entered into November 8, 2012.

The table below sets forth our contractual commitments associated with operating leases, and the revolving credit and term loan facilities as of September 30, 2012. Although they have historically been paid, dividends are not a contractual commitment and, therefore, have been excluded from this table.

	Total	Payments due by period (in thousands)			
		Within 1 Year	2-3 Years	4-5 Years	After 5 Years
Operating leases	\$251,613	\$39,404	\$78,476	\$61,981	\$71,752
Revolving credit facility	25,000	—	25,000	—	—
Term loan	77,500	30,000	47,500	—	—
Total	\$354,113	\$69,404	\$150,976	\$61,981	\$71,752

New Campuses

The Company opened one new campus for the 2012 fall academic term. The new campus is located in San Antonio, Texas and represents the University's first campus in that market. Subject to regulatory approval, the Company plans to open three new campuses during the remainder of the year for a total of eight new campuses in 2012. These three planned new campuses will be located in Houston, Texas, the University's third campus in that market, and in St. Louis and Kansas City, Missouri, both new markets for the University.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is subject to the impact of interest rate changes and may be subject to changes in the market values of its future investments. The Company invests its excess cash in bank overnight deposits, money market funds and marketable securities. The Company has not used derivative financial instruments in its investment portfolio. Earnings from investments in bank overnight deposits, money market mutual funds, and marketable securities may be adversely affected in the future should interest rates decline, although such a decline may reduce the interest rate payable on any borrowings by the Company under its revolving credit facility. The Company's future investment income may fall short of expectations due to changes in interest rates or the Company may suffer losses in principal if forced to sell securities that have declined in market value due to changes in interest rates. As of September 30, 2012, a 1% increase or decrease in interest rates would not have a material impact on the Company's future earnings, fair values, or cash flows related to investments in cash equivalents or interest-earning marketable securities. The same applies to the Company's new credit facility, described in Note 11, Subsequent Events.

Changing interest rates could also have a negative impact on the amount of interest expense the Company incurs. On April 4, 2011, the Company entered into a three-year Amended and Restated Revolving Credit and Term Loan Agreement providing for a \$100 million revolving credit facility and a \$100 million term loan facility. Borrowings under the \$100 million revolving credit facility bear interest at LIBOR or a base rate plus a margin ranging from 2.25% to 2.75%, depending on the Company's leverage ratio. Also on April 4, 2011, the Company entered into an interest rate swap arrangement for the \$100 million term loan facility that fixes its interest rate on the term loan facility at approximately 3.6% for the duration of the term loan. Although an increase in LIBOR would not affect interest expense on the term loan, it would affect interest expense on any outstanding balance of the revolving credit facility. For every 100 basis points increase in LIBOR, the Company would incur an incremental \$1.0 million in interest expense per year assuming the entire \$100 million revolving credit facility were utilized.

ITEM CONTROLS AND PROCEDURES

4:

a) Disclosure Controls and Procedures. The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures as of September 30, 2012. Based upon such review, the Chief Executive Officer and Chief Financial Officer have concluded that the Company has in place, as of September 30, 2012, effective controls and procedures designed to ensure that information required to be disclosed by the Company (including its consolidated subsidiary) in the reports it files or submits under the Securities Exchange Act of 1934, as amended, and the rules thereunder, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in reports it files or submits under the Securities Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

b) Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting during the quarter ended September 30, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

Item Legal Proceedings

1.

From time to time, we are involved in litigation and other legal proceedings arising out of the ordinary course of our business. On October 15, 2010, a putative securities class action was filed in the United States District Court for the Middle District of Florida. On March 20, 2012, the Court granted our motion to dismiss the complaint for failure to state a claim, and an appeal of that decision is pending in the Eleventh Circuit Court of Appeals. A shareholder derivative action alleging similar facts was filed in the Circuit Court of Fairfax County, Virginia, which action was voluntarily dismissed by nonsuit on June 12, 2012. We believe these lawsuits are without merit and will contest them vigorously. While the outcome of any legal proceeding cannot be predicted with certainty, we do not expect these matters will have a material effect on our financial condition or results of operations.

Item Risk Factors

1A.

You should carefully consider the factors discussed in Part I, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2011, which could materially affect our business. There have been no material changes to the risk factors previously described in Part I, Item 1A included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011. Those risks are incorporated herein by this reference. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended September 30, 2012, we did not repurchase any shares of common stock under our repurchase program. The remaining authorization for our common stock repurchases was \$80 million at September 30, 2012 for use during the remainder of 2012. During the three months ended September 30, 2012, we did not sell any securities that were not registered under the Securities Act of 1933, as amended.

Item Defaults Upon Senior Securities
