Item 11. Executive Compensation

Compensation Discussion and Analysis

This Compensation Discussion and Analysis discusses the principles underlying the Company's compensation policies and decisions and the principal elements of compensation paid to its executive officers during the 2007 fiscal year. The Company's Chief Executive Officer (the "CEO") and the other executive officers included in the Summary Compensation Table below will be referred to as the "named executive officers" for purposes of this discussion. In general, the compensation paid to the Company's named executive officers is similar to that paid to all our other officers.

Compensation Objectives and Philosophy

The Compensation Committee (the "Committee") of Board of Directors is responsible for reviewing and approving the compensation payable to the Company's officers, including executive officers. As part of such process, the Committee seeks to accomplish the following objectives with respect to the Company's executive compensation programs:

- Motivate, recruit and retain executives capable of meeting the Company's strategic objectives and building long-term shareholder value;
- Provide incentives to ensure superior executive performance and successful financial results for the Company; and
 - Align the interests of executives with the long-term interests of shareholders.

The Committee seeks to achieve these objectives by:

- Establishing a compensation structure that is both market competitive and internally fair;
- Linking a substantial portion of compensation to the Company's achievement of financial objectives and the individual's contribution to the attainment of those objectives;
 - Providing risk for underachievement and rewards for overachievement of goals;
- Encouraging executives to manage the Company from the perspective of owners of the Company; and
- Providing long-term equity-based incentives and encouraging direct share ownership by executives.

Setting Executive Compensation

It is the Committee's objective to target the total annual compensation of each executive officer at the 50th percentile for comparable positions at competitive peer group companies. However, in determining the compensation of each executive officer, the Committee also considers a number of other factors, including recent Company and individual performance, the CEO's recommendations, and internal pay equity. There is no pre-established policy for allocation of compensation between cash and non-cash components or between short-term and long-term components. Instead, the Committee determines the mix of compensation for each executive officer based on its review of the competitive data and its subjective analysis of that individual's performance and contribution to the Company's financial performance.

5

Table of Contents

Components of Compensation

For the 2007 fiscal year, the Company's executive compensation program included the following components:

- Base salary;
- Annual short-term cash incentives;
- Long-term equity incentive awards;
- Special benefits and perquisites;
- Change in control agreements; and
- Retention agreements.

Base Salary

The Committee typically reviews the base salary level of each executive officer in December of each year, with any salary adjustments for the year to be made effective on or around January 1st of the next year. The base salary for the executive officers named in the Summary Compensation Table is determined on the basis of their area and level of responsibility, experience and individual performance. The individual performance of each executive officer is measured, in part, based upon the executive's performance against an individual plan of action that is agreed upon by the executive and the CEO (or the non-employee directors in the case of the CEO) in the first quarter of each year. In setting the base salary of the executive officers other than the CEO, the compensation committee also solicits evaluations of their individual performance and recommended salary increases based on that performance from the CEO. For the 2007 fiscal year, the salary levels at the end of 2007 for our executive officer group, including the CEO, ranged from a low of \$225,000 to a high of \$400,000. It is the objective of the Committee to bring and maintain the base salary of named executives to between 70% and 80% of the 50th percentile of the 2007 Radford Global Life Sciences Survey. The Committee also must take into consideration market factors for each position. By maintaining base salaries at such levels, the Committee continues its longstanding practice of tying the major portion of each executive officer's total compensation package to our financial and operational performance. Accordingly, salary is intended to provide an element of stability to the executive officer's total compensation package each year. We anticipate that the Committee will increase this component of compensation in the future to maintain salaries approaching the 50th percentile of the primary market survey, but will also retain pay-for-performance components as a significant element of the executive officer's total compensation package.

For the 2008 fiscal year, the salaries of the named executive officers were increased as shown in the following table. Such increases reflect an attempt to bring the salaries of the named executive officers closer to the 50th percentiles of the primary market survey. The table below shows annual 2007 and 2008 base salary rates for each named executive officer:

Name	Title	2007 Salary @ Year-End	2008 Salary	% Increase
Kevin G. Lokay	President & CEO	\$400,000	\$400,000	--
Kevin J. Bratton	SVP, Finance & CFO	\$225,000	\$238,500	6%
William F. Goeckeler	SVP of Operations	\$277,156	\$285,471	3%
Stephen A. Ross	SVP Sales and Marketing	\$235,000	\$244,400	4%

Annual Bonuses

For the 2007 fiscal year, the Committee approved an incentive bonus plan designed to advance our pay-for-performance policy by focusing the attention of our executive officers on the attainment of key objectives for the year. The plan provided all of our employees, except for certain sales personnel who are eligible for sales incentive programs (“Eligible Employees”), with a direct financial incentive in the form of a cash bonus award tied to our achievement of pre-established operational goals. Each year, the Committee establishes a target award for each named executive officer based on a percentage of base salary. Annual bonus targets as a percentage of salary increase with executive rank so that for the more senior executives, a greater proportion of their total cash compensation is contingent upon annual performance. It is the Committee’s intention to target annual incentive awards at or above the 50th percentile of peer group companies.

The operational goals were tied to the following measures of our performance for the 2007 fiscal year, weighted as indicated: revenue (30% weighting); expenses (10% weighting); capital raising (30% weighting); ProstaScint and Quadramet development objectives (10% weighting); completion of CYT 500 development objectives (10% weighing); and filing of new patent applications(s) to extend protection of Quadramet (10% weighing). No bonuses were payable under the plan for a particular operational goal unless such operational goal was attained at not less than threshold level. In addition, the

Table of Contents

Committee reserved the discretion to adjust an executive officer's actual bonus to reflect his or her individual performance for the year. At the time the goals were set in November 2006, we believed that they were attainable at the established target levels, but substantial uncertainty nevertheless existed as to the actual attainment of the goals at any of the established levels. The bonus opportunity set for each executive officer at target level was between 30% and 50% of his total direct compensation for the 2007 fiscal year.

For the purposes of determining whether the revenue and expenses objectives were met for the 2007 fiscal year, the Committee used the numbers we reported for financial statement purposes in accordance with generally accepted accounting principles in the U.S. ("GAAP"). A total of 89% of our eligible employees will receive bonuses under the plan. The executive officers did not receive bonuses for 2007. In December 2007, the Committee determined that our performance for 2007 was at 30% for operational goals and accordingly decided to award incentive bonuses totaling \$182,000 from the pool to all eligible employees of the Company. No bonus payments will be made to the executive officers for the 2007 fiscal year.

The table below details fiscal 2007 annual bonus targets and actual payouts for each of the named executive officers.

Long-Term Incentive Equity Awards

We have structured our long-term incentive program for executive officers in the form of equity awards under our stock option plans. For many years, stock option grants were the sole form of our equity awards, and we continue to use stock option grants in combination with other forms of equity awards available under the 2004 Stock Incentive Plan and the 2006 Equity Compensation Plan to provide long-term incentives to our executive officers. Generally, the Committee approves the stock option grants in the first quarter of each year in connection with the annual review of the performance of our executive officers and other key employees. Each grant is designed to align the interests of the executive officer with those of the

Table of Contents

shareholders and to provide each individual with a significant incentive to manage the company from the perspective of an owner with an equity stake in the business. Each grant allows the officer to acquire shares of our common stock at a fixed price per share (the average of the high and low trading prices on the date of grant under the 2004 Stock Incentive Plan and the closing price on the grant date under the 2006 Equity Compensation Plan) over a specified period, usually ten years. Each option vests and becomes exercisable in a series of installments over a three-year service period, contingent upon the officer's continued employment with the Company. Accordingly, each option will provide a return to the executive officer only to the extent he or she remains employed with us during the vesting period, and then only if the fair market value of the underlying shares appreciates over the period between grant and exercise of the option.

We also grant restricted stock awards ("RSAs") as part of our long-term incentive program. We believe that RSAs are a valuable addition to our long-term incentive program for several reasons, including ongoing concerns over the dilutive effect of option grants on our outstanding shares, our desire to have a more direct correlation between the FAS 123(R) compensation expense we must take for financial accounting purposes and the actual value delivered to our executive officers and other employees, and the fact that the incentive effects of RSAs are less subject to market volatility than stock options. Each RSA entitles the recipient to one share of our common stock at the time of vesting without the payment of an exercise price or other consideration. The vesting of RSAs is tied to continued service with us and is typically in the form of either cliff vesting after a three-year service period or in a series of installments over a defined service period.

Upon the hiring of Mr. Lokay as President and CEO in November 2007, he received a grant of (i) 350,877 restricted stock units (the "RSUs") that will vest upon the successful completion of a performance milestone established by the Compensation Committee and will expire upon the triggering of the performance milestone event in section (ii); and (ii) 175,439 RSUs that will vest upon the successful completion of another performance milestone established by the Compensation Committee and will expire upon the triggering of the performance milestone event in section (i).

The Committee awarded both stock options and RSAs/RSUs to our executive officers during the 2007 fiscal year. The awards made to the CEO and the other executive officers named in the Summary Compensation Table are set forth in that table and the accompanying Grants of Plan-Based Awards table. In determining the total number of shares to award each executive officer in the combined form of stock options and RSAs/RSUs, the Committee's objective was to bring the total direct compensation (salary, bonus and equity) of each executive officer to approximately the 50th percentile of the 2006 Radford Global Life Sciences Survey and comparable positions at competitive peer group companies.

We believe that the new long-term incentive program involving a combination of RSAs/RSUs and stock options will provide our executive officers and other employees with a competitive and more balanced equity compensation package. This is particularly important for us, since the total direct compensation of our executive officers is significantly weighted to the equity award component. Such a relationship reflects a basic tenet of our overall compensation philosophy of tying pay to performance. The stronger the market price of our common stock, the more likely the targeted compensation levels for this component of compensation will be achieved.

It is the Committee's belief that RSA and/or RSU awards are essential to the retention of the executive officers crucial to the long-term financial successes of the Company. The RSAs have vesting schedules which provide a meaningful incentive for the executive officer to remain in the Company's service. These equity awards also serve as an important vehicle to achieve the Committee's objective of aligning management and shareholder interests. Equity awards in the form of RSAs or RSUs promote all of these objectives in a manner which is less dilutive to the shareholders than traditional option grants and provide a more direct correlation between the compensation cost the Company must record for financial accounting purposes and the value delivered to the executive officers.

Executive Benefits and Perquisites

The executive officers also are provided with certain market competitive benefits and perquisites. It is the Committee's belief that such benefits are necessary for the Company to remain competitive and to attract and retain top caliber executive officers, since such benefits are typically provided by companies in the specialty pharmaceutical industry and with other companies with which the Company competes for executive talent.

Executive officers are also eligible to participate in the Cytogen Retirement Savings Plan, a tax-qualified 401k defined contribution plan. The Company matches 50% of each participant's contributions up to 6% of a participant's aggregate contributions, within statutory IRS limits. The plan is open to all employees and officers upon the same terms and conditions.

Table of Contents

All employees, including executive officers, are eligible to receive standard health, dental, disability and life insurance. The long-term disability benefits are higher for officers of the Company as compared to other employees. In addition, the Company provided our former chief executive officer with a car allowance for use of a vehicle.

Executive Severance Agreements

Each of our officers is currently party to an Executive Change of Control Severance Agreement with Cytogen. Such agreements provide, generally, for the payment of 12 months' base salary, a pro-rata portion of such officer's bonus compensation, the continuation of all benefits, reasonable Company-paid outplacement assistance and certain other accrued rights, in the event such officer's employment with us is terminated in connection with a change in control as set forth therein. See our description of Employment Contracts, Termination of Employment and Change-in-Control Arrangements for a detailed description of potential severance payments.

Retention Agreements

We have also entered into certain executive retention agreements with each of the following executive officers: Kevin J. Bratton, Senior Vice President, Finance and Chief Financial Officer; William F. Goeckeler, Ph.D., Senior Vice President, Operations; and Stephen A. Ross, Senior Vice President, Sales and Marketing; and the following key employee: Thu Dang, Vice President, Finance. In an effort to retain our valued executive management team, the executive retention agreements provide that if (i) a change of control (as defined in the executive retention agreement) or financing (as defined in the executive retention agreement) occurs prior to June 1, 2008, the executive shall be entitled to fifty percent (50%) of the retention bonus (defined in the executive retention agreement to equal fifty percent (50%) of the executive's current base salary); (ii) on each of June 1, 2008 and December 1, 2008, those executive officers employed by us shall be entitled to fifty percent (50%) of the retention bonus (defined in the executive retention agreement to equal fifty percent (50%) of the executive's current base salary), less any amounts already paid under the executive retention agreements; and (iii) if the executive's employment with us is terminated by us (other than for cause, disability or death), the executive shall be entitled to (a) a cash payment equal to (1) the executive's base salary through the date of termination to the extent not previously paid and (2) accrued unpaid vacation pay; and (b) the retention bonus, less any amounts paid under the executive retention agreement (defined in the executive retention agreement to equal fifty percent (50%) of the executive's current base salary). All amounts under the executive retention agreements shall be paid to the executive by the board of directors, at its sole discretion, in cash; shares of our common stock (the number of shares as set by the closing price of our common stock as listed on the NASDAQ Global Market on the triggering event's date set forth above); or a combination thereof.

Compliance with Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code disallows a tax deduction to publicly held companies for compensation paid to certain of their executive officers to the extent such compensation exceeds \$1.0 million per covered officer in any year. The limitation applies only to compensation that is not considered to be performance-based under the terms of Section 162(m). Non-performance-based compensation paid to our executive officers for 2007 did not exceed the \$1.0 million limit per officer. However, as we continue to increase the level of cash compensation paid to the executive officers to stay competitive with surveyed market data and to award service-vesting RSAs as an element of equity compensation, it is possible that the non-performance-based compensation payable to the executive officers will exceed the \$1.0 million limit in one or more future years. We believe that in establishing the cash and equity incentive compensation programs for our executive officers, the potential deductibility of the compensation payable under those programs should be only one of a number of relevant factors taken into consideration, and not the sole governing factor, particularly during periods when such deductions will not result in immediate tax savings because of operating losses or tax credit carryforwards. For that reason, we may deem it appropriate to provide one or more

executive officers with the opportunity to earn incentive compensation, whether through cash bonus programs tied to our financial performance or through RSAs tied to the executive officer's continued service, which together with base salary in the aggregate may be in excess of the amount deductible by reason of Section 162(m) or other provisions of the Internal Revenue Code. We believe it is important to maintain cash and equity incentive compensation at the levels needed to attract and retain the executive officers essential to our success, even if all or part of that compensation may not be deductible by reason of the Section 162(m) limitation.

Each of our executive officers is currently party to an Executive Change of Control Severance Agreement with Cytogen. Such agreements provide, generally, for the payment of 12 months' base salary, a pro-rata portion of such officer's bonus compensation, the continuation of all benefits, reasonable Company-paid outplacement assistance and certain other accrued rights, in the event such officer's employment with us is terminated in connection with a change in control as set forth in such agreements.

Potential Payments to Executive Officers Upon Termination in Connection With a Change in Control

Due to the number of factors that affect the nature and amount of any benefits provided upon the events discussed below, any actual amounts paid or distributed may be different. Factors that could affect these amounts include the timing during the year of any such event, an executive's insurance coverage and the executive's accrued vacation.

Pursuant to the Executive Change of Control Severance Agreements with each of our executive officers, in the event that we terminate any of these executives without cause in connection with a change in control (as defined in such agreements), other than due to death or disability, we must:

- make a lump sum payment equal to the sum of the annual salary and a pro-rata portion of the annual cash bonus;
- continue health and life and disability insurance and other benefits for one year from the date of termination;
- provide outplacement services for up to 12 months;

- pay any other accrued rights of the executive;
- pay a gross up amount for certain excise taxes imposed by the Internal Revenue Code; and
- in certain circumstances, pay legal fees and costs in the event we wrongfully refuse to provide the severance benefits.

Employee Director Stock Incentive Plan, or the Director Plan, maintained by the Company. Except as otherwise noted, each non-employee director elected to receive all of their 2007 compensation in the form of cash.

- (2) These amounts do not reflect compensation actually received by the named directors. Instead, the amounts reflect compensation expense recognized by the Company in 2007 for stock awards, computed in accordance with FAS 123(R). The compensation expense reflects stock awards in 2007 and excludes any reduction in value due to potential service-based forfeiture assumptions. Assumptions used in the calculation of the compensation expense are included in Note 13 to the Company's audited financial statements. The compensation expense does not correspond to the actual value that may be realized by the named directors with respect to these awards when and if they vest. At December 31, 2007, each non-employee director has a restricted share award of 10,000 shares of the Company's common stock.
- (3) These amounts do not reflect compensation actually received by the named directors. Instead, the amounts reflect compensation expense recognized by the Company in 2007 for option awards, computed in accordance with FAS 123(R). The compensation expense reflects option awards granted in and prior to 2007 and excludes any reduction in value due to potential service-based forfeiture assumptions. Assumptions used in the calculation of the compensation expense are included in Note 13 to the Company's audited financial statements. The compensation expense does not correspond to the actual value that may be realized by the named directors with respect to these options when and if they vest. In 2007, our independent directors were eligible to receive a stock option to purchase 10,000 shares of our Common Stock upon re-election to the Board at each annual meeting. The Chairman of the Board received an additional grant of options to purchase 7,500 shares of common stock. These options vest on the one year anniversary of the grant date. As of December 31, 2007, our non-employee directors hold stock options to acquire shares of our common stock, as follows: Mr. Grigsby: 99,200 shares; Dr. Bagalay: 56,100 shares; Dr. Bloom: 52,000 shares; Dr. Carter: 55,987 shares; Mr. Hendrickson: 55,700 shares; Dr. Langer: 30,000 shares; and Dr. Mollica: 30,000 shares.
- (4) Unless otherwise indicated, none of the directors received any (i) perquisites or personal benefits in an aggregate amount exceeding \$10,000 or (ii) other compensation not otherwise set forth in this table.
- (5) Mr. Lokay was appointed as our President and CEO in November 2007. The amounts shown in the above table represent compensation for his services and stock and option compensation for awards prior to his appointment as President and CEO.

Annual Retainers

Each of our non-employee directors receives an annual retainer of \$16,000. In addition: (i) the Chairman of the Board (who is not an employee of the Company) currently receives, based upon significant time spent on Company business, an additional annual retainer of \$50,000; (ii) the Chairman of the Audit and Finance Committee receives an additional annual fee of \$10,000; (iii) the Chairman of each of the other board committees receives an additional annual fee of \$6,000; and (iv) the Co-Chairman of the Research and Development Committee receives an additional annual fee of \$4,000.

Board Meeting Attendance

Each of our non-employee directors receives \$2,000 for each board meeting attended in person, and \$500 if such participation is by telephone.

Committee Meeting Attendance

Non-employee directors receive \$2,000 for each committee meeting attended in person on a day there is no meeting of the Board, \$1,000 for each committee meeting attended in person on a day that coincides with a meeting of the Board, and \$500 if such participation is by telephone, but receive no additional fees for committee membership.

Equity Compensation

Pursuant to our Director Plan, each non-employee director receives an initial grant of options on the date of appointment equal to a pro-rata portion of 10,000 shares of our common stock, based upon the number of months remaining from the date of election until the one year anniversary of the preceding annual meeting. In addition, on the day following each annual meeting of stockholders, each individual who is re-elected as a non-employee director is automatically granted options to purchase 10,000 shares of our common stock. The Chairman of the Board, unless the Compensation Committee determines otherwise, receives an additional grant of 7,500 options to purchase shares of our common stock on the day

following each annual meeting. Furthermore, each director who, upon conclusion of our 2004 Annual Meeting of Stockholders and the adoption of the Director Plan, was a non-employee director, was granted options to purchase 10,000 shares of our common stock. In 2007, each of our non-employee directors (other than Mr. Grigsby) received options to purchase 10,000 shares of our common stock on June 14, 2007 at an exercise price of \$2.00 per share. Mr. Grigsby, as Chairman of the Board, received options to purchase 17,500 shares of our common stock on such date. Beginning with the 2007 Annual Meeting of Stockholders, on the day following each annual meeting of the stockholders, each individual who is re-elected as a non-employee director is automatically awarded 10,000 (under the 2006 Equity Compensation Plan) restricted shares of our common stock that vest on the first anniversary of the date of the award.

Options granted under the Director Plan are exercisable at a price equal to the average of the high and low sale prices of the common stock as reported on the NASDAQ Global Market on the date of grant and vest in full (i.e., first become exercisable) at the first anniversary of the option grant date.

Each director's outstanding options granted under the Director Plan also become immediately exercisable in full: (i) upon the occurrence of a Corporate Transaction or Major Event, as defined in the Director Plan; (ii) upon death or disability of such Director, or if a Director dies within three months following the date of his or her termination of service on the Board, until the earlier of the end of the one-year period immediately following the date of termination of service, or the expiration of the term of the option; or (iii) if the non-employee director has served as a director of the Company for three years, upon voluntary resignation or retirement after age 55, until the earlier of the end of the five year period immediately following the date of the termination of service, or the expiration of the term of the option.

Each eligible director may name, from time to time, any beneficiary or beneficiaries (which may be named contingently or successively) as his or her beneficiary for purposes of the Director Plan. Each designation shall be on a form prescribed by the Company, will be effective only when delivered to the Company, when effective will revoke all prior designations by such director and will be allowed only to the extent permitted by applicable law. If an eligible director dies with no such beneficiary designation in effect, such person's options will be transferable by will or pursuant to the laws of descent and distribution applicable to such person.

The Director Plan also provides that non-employee directors may receive, at the sole discretion of and after formal action by our Board of Directors, such number of shares of common stock that is equal to each such director's cash compensation (including, but not limited to, annual service fees, fees payable for board and committee meetings attended and fees for committees chaired), also referred to as the Cash Component, divided by the fair market value of our common stock as of the date of issuance of such shares, also referred to as the Compensation Shares, which date shall be no earlier than the date on which the applicable Cash Component compensation becomes due and payable by the Company. Compensation Shares shall not be issued for services not yet rendered by such directors to the Company.

The Director Plan also provides that, in the event the Board elects to issue Compensation Shares, such eligible directors will receive Compensation Shares until, absent additional Board action, at least such time as: (i) such director owns 2,000 shares of our common stock, excluding options or other rights to acquire shares of our common stock, whether exercisable or unexercisable; or (ii) if fewer than 2,000 shares are so owned, such smaller number of shares has a fair market value of in excess of \$100,000, excluding the value, if any, of options to purchase common stock, whether exercisable or unexercisable, or other rights to acquire our common stock. Upon achieving either of such milestones (i) or (ii) above, each such director may, at his or her option, elect to cease receiving his or her Cash Component to which he or she is entitled in shares of our common stock under the Director Plan; provided, however, that such director must make such election by providing notice of such election to us in a timely manner. As of the date hereof, all of our current non-employee directors have satisfied either of the milestones as set forth above, and

have elected to receive their director compensation in cash.

Each option provided for in the Director Plan and each restricted share award provided for in the 2006 Equity Compensation Plan is granted automatically and without further action by us, our Board of Directors or our stockholders.

Expense Reimbursement

All non-employee directors are eligible to be reimbursed for expenses incurred in connection with their service on the Board of Directors.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The Company's Code of Business Conduct and Ethics sets forth the Company's policies and procedures regarding the identification, review and approval of related party transactions. Employees must disclose any transaction or relationship that reasonably could be expected to give rise to a conflict of interest to the Company's Legal Department, while executive officers and directors must disclose such to the Board of Directors who shall be responsible for determining whether such transaction or relationship constitutes a conflict of interest. Marketplace Rules if, in the opinion of our Board of Directors, that person does not have a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making its determination, our Board of Directors is required to consider certain categorical standards listed in Rule 4200(a)(15). Our Board of Directors has affirmatively determined that each of John E. Bagalay, Jr., Allen Bloom, Stephen K. Carter, James A. Grigsby, Robert F. Hendrickson, Dennis H. Langer and Joseph A. Mollica are independent.

Our Board of Directors has determined that all of the members of each of the Board's four standing committees – the Audit and Finance Committee, the Compensation Committee, the Nominating and Corporate Governance Committee, and the Research and Development Committee – are independent under relevant NASDAQ rules, including, in the case of all members of the Audit and Finance Committee, the independence requirements contemplated by Rule 10A-3 under the Securities Exchange Act of 1934, as amended, or the Exchange Act.
