ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Today, February 7, 2008, the Registrant is issuing a press release (furnished herewith as Exhibit 99.1 to this report) announcing its fiscal year 2008 first quarter financial and operating results. See Item 7.01, Regulation FD Disclosure

Edgar Filing: ESCO TECHNOLOGIES INC - Form 8-K

below.

ITEM 7.01 REGULATION FD DISCLOSURE

Today, the Registrant is issuing a press release (Exhibit 99.1) announcing its fiscal year 2008 first quarter financial and operating results, and will conduct a related Webcast conference call at 4:00 p.m. central time. This press release will be posted on the Registrant's website located at <http://www.escotechnologies.com>. It can be viewed through the "Investor

Relations" page of the website under the tab "Press Releases," although the Registrant reserves the right to discontinue that availability at any time.

NON-GAAP FINANCIAL MEASURES

The press release furnished herewith as Exhibit 99.1 contains financial measures and financial terms not calculated in accordance with generally accepted accounting principles in the United States of America ("GAAP") in order to provide investors and management with an alternative method for assessing the Registrant's operating results in a manner that is focused on the performance of the Registrant's ongoing operations. The Registrant has provided definitions below for the non-GAAP financial measures utilized in the press release, together with an explanation of why management uses these measures, and why management believes that these non-GAAP financial measures are useful to investors. The press release uses the non-GAAP financial measures of "EBIT", "EBIT margin" and expected 2008 "EPS-Adjusted Basis".

The Registrant defines "EBIT" as earnings before interest and taxes from continuing operations. The Registrant defines "EBIT margin" as EBIT as a percent of net sales. The Registrant's management evaluates the performance of its operating segments based on EBIT and EBIT margin, and believes that EBIT and EBIT margin are useful to investors to demonstrate the operational profitability of the Registrant's business segments by excluding interest and taxes, which are generally accounted for across the entire Registrant on a consolidated basis. EBIT is also one of the measures used by management in determining resource allocations within the Registrant and incentive compensation.

The press release refers to expected 2008 "EPS-Adjusted Basis" and expected 2008 "consolidated EBIT margins" exclusive of pre-tax intangible asset amortization expense related to TWACS NG software, purchase accounting intangible assets related to the Registrant's recent acquisitions and the expense related to the purchase accounting step-up of Doble Engineering Company inventory. The press release also refers to EBIT margins for the Utility Solutions Group exclusive of TWACS NG amortization. The Registrant believes that the presentation of these operational measures provides important supplemental information to investors regarding financial and business trends relating to the Registrant's financial condition and results of operations. The Registrant's management believes that these measures provide an alternative method for assessing the Registrant's expected future performance that is useful because they facilitate comparisons with other companies in the Utility Solutions Group segment industry, many of which use similar non-GAAP financial measures to supplement their GAAP results. The Registrant provides this information to investors to enable them to perform additional analyses of present and future operating performance, compare the Registrant to other companies, and evaluate the Registrant's ongoing financial operations.

The presentation of the information described above is intended to supplement investors' understanding of the Registrant's operating performance. The Registrant's non-GAAP financial measures may not be comparable to other companies' non-GAAP financial performance measures. Furthermore, these measures
